

2 CFR PART 200, APPENDIX XI

COMPLIANCE SUPPLEMENT

May 2023

**EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET**

TABLE OF CONTENTS

Title	Page
PART 1 – BACKGROUND, PURPOSE, AND APPLICABILITY	1-1
Background	1-1
Purpose and Applicability	1-2
Overview of this Supplement	1-5
Technical Information	1-8
How to Obtain Additional Guidance	1-9
PART 2 – MATRIX OF COMPLIANCE REQUIREMENTS	2-1
PART 3 – COMPLIANCE REQUIREMENTS	3-1
Introduction	3-1
A. Activities Allowed or Unallowed	3-A-1
B. Allowable Costs/Cost Principles	3-B-1
2 CFR Part 225/OMB Circular A-87	3-B-10
2 CFR Part 220/OMB Circular A-21	3-B-27
2 CFR Part 230/OMB Circular A-122	3-B-40
C. Cash Management	3-C-1
D. [Reserved]	3-D-1
E. Eligibility	3-E-1
F. Equipment and Real Property Management	3-F-1
G. Matching, Level of Effort, Earmarking	3-G-1
H. Period of Performance	3-H-1
I. Procurement and Suspension and Debarment	3-I-1
J. Program Income	3-J-1
K. [Reserved]	3-K-1
L. Reporting	3-L-1
M. Subrecipient Monitoring	3-M-1
N. Special Tests and Provisions	3-N-1
PART 4 – AGENCY PROGRAM REQUIREMENTS	
Introduction	4-1
10 United States Department of Agriculture (USDA)	
10.000-Food and Nutrition Service Programs–Multiple Program COVID-19 Waivers	4-10.000

PART 5 – CLUSTER OF PROGRAMS	
Introduction	5-1-1
Research and Development	5-2-1
Student Financial Assistance includes the following:	5-3-1
84.007-Federal Supplemental Educational Opportunity Grants (FSEOG)	
84.033-Federal Work-Study Program (FWS)	
84.038-Federal Perkins Loan (FPL)	
84.063-Federal Pell Grant Program	
84.268-Federal Direct Student Loans (Direct Loan)	
84.379-Teacher Education Assistance for College and Higher Education Grants (TEACH Grants)	
84.408-Postsecondary Education Scholarships for Veteran’s Dependents (Iraq and Afghanistan Service Grant (IASG))	
93.264-Nurse Faculty Loan Program (NFLP)	
93.342-Health Professions Student Loans, Including Primary Care Loans and Loans for Disadvantaged Students (HPSL/PCL/LDS)	
93.364-Nursing Student Loans (NSL)	
93.925-Scholarships for Health Professions Students from Disadvantaged Backgrounds-Scholarships for Disadvantaged Students (SDS)	
Other Clusters	5-4-1
PART 6 – INTERNAL CONTROL	6-1
PART 7 – GUIDANCE FOR AUDITING PROGRAMS NOT INCLUDED IN THIS COMPLIANCE SUPPLEMENT	7-1

Title	Page
PART 8 – APPENDICES	
I Federal Programs Excluded from the A-102 Common Rule and Portions of 2 CFR Part 200	8-I
II Federal Agency Codification of Government-wide Requirements and Guidance for Grants and Cooperative Agreements.	8-II
III Federal Agency Single Audit, Key Management Liaison, and Program Contacts	8-III
IV Internal Reference Tables	8-IV
V List of Changes for the 2022 Compliance Supplement	8-V
VI Program-Specific Audit Guides	8-VI
VII Other Audit Advisories	8-VII
VIII Examinations of EBT Service Organizations	8-VIII
IX Compliance Supplement Core Team	8-IX

PART 1 – BACKGROUND, PURPOSE, AND APPLICABILITY

BACKGROUND

The Single Audit Act of 1984, established requirements for audits of states, local governments, and Indian tribal governments that administer federal financial assistance programs. The Single Audit Act Amendments of 1996 extended the statutory audit requirement to non-profit organizations and substantially revised various provisions of the 1984 Act. (31 USC Chapter 75).

On December 26, 2013, OMB issued 2 CFR Part 200, Subpart F, which among other things, increased the audit threshold to \$750,000 for auditee fiscal years beginning on or after December 26, 2014.

The Compliance Supplement (Supplement) is based on the requirements of 31 USC Chapter 75 and 2 CFR Part 200, Subpart F.

The Supplement is a document that identifies existing compliance requirements that the federal government expects to be considered as part of an audit required by the 1996 Amendments to the Single Audit Act. Without the Supplement, auditors would need to research many laws and regulations for each program under audit to determine which compliance requirements are important to the federal government and could have both a direct and material effect on a program. Providing the Supplement is a more efficient and cost-effective approach to performing this research. The Supplement provides information for auditors to understand Federal program's objectives, procedures, and requirements subject to the audit.

The 2 CFR Part 200, Subpart F, provides that federal agencies are responsible for annually informing OMB of any updates needed to the Supplement and working with OMB to ensure that the Supplement focuses the auditor's testing on the compliance requirements most likely to cause improper payments, fraud, waste, or abuse, or generate audit findings for which the Federal awarding agency will impose sanctions. The agency responsibility includes submitting to OMB in a timely manner the necessary updates to program objectives, procedures, and compliance requirements that are to be subject to the audit (including statutory and regulatory citations).

Federal awarding agencies are encouraged to continue to focus grants management on both compliance and program performance. The Supplement provides 12 types of compliance requirements in Part 2, from which a maximum of six may be identified as subject to audit (requirements A and B, counted as one, as noted below).

In the 2023 Supplement, OMB worked with the agencies to provide additional guidelines, clarifications, and expectations for the auditors when performance reporting review is required. OMB intends to continue to work with the federal awarding agencies to identify performance reporting requirements that are quantifiable and objective.

Parts 4 and 5 of the Supplement provide a stand-alone section for each program/cluster included in the Supplement, which contains program objectives, program procedures, and compliance requirements. For some programs, a separate section (section IV, "Other Information") is included to communicate additional information concerning the program. For example, when a

program allows funds to be transferred to another program, the “Other Information” section provides guidance on how those funds are to be treated on the Schedule of Expenditures of Federal Awards and in major program determinations. See Appendix IV to the Supplement for a list of programs that contain this section.

The Supplement also provides guidance to assist auditors in determining compliance requirements relevant to the audit, audit objectives, and suggested audit procedures for programs not included herein. For single audits, the Supplement replaces agency audit guides and other audit requirement documents for individual federal programs.

Throughout the Supplement, when addressing auditor responsibilities, the term “must” means something that the auditor is required to do and the term “should” means a recommended action or approach. See Part 3 of the Supplement for use of terminology in that part, which addresses compliance requirements for auditees as well as auditor responsibilities.

PURPOSE AND APPLICABILITY (Part 1)

Purpose

This 2023 Supplement is effective for audits of fiscal years beginning after June 30, 2022 and supersedes the 2022 Compliance Supplement (dated May 11, 2022). It adds, deletes, and modifies prior Supplement sections.

This 2023 Supplement continues the practice adopted in 2019 of limiting the number of compliance requirements subject to the audit to six, with the exception of the Research and Development cluster, which may identify seven requirements. Requirements (A) Activities Allowed and Unallowed and (B) Allowable Costs and Cost Principles are treated as one requirement. Programs not included in this Supplement, are not subject to the six-requirement maximum. The Part 2 matrix and the related program sections in Parts 4 and 5 reflect the six selected compliance requirements.

The 2 CFR Part 200, Subpart F, describes the non-federal entity’s responsibilities for managing federal assistance programs (2 CFR section 200.508) and the auditor’s responsibilities (2 CFR section 200.514 through 200.520). Auditors are required to follow 2 CFR Part 200, Subpart F, and this Supplement.

Applicability

General

Auditors must consider the Supplement, the referenced laws, regulations, OMB Circulars, and 2 CFR Part 200 in determining the compliance requirements subject to the audit that could have both a direct and material effect on the programs. The use of the Supplement is mandatory; accordingly, adherence to the Supplement satisfies the requirements of 2 CFR Part 200, Subpart F.

For program-specific audits performed in accordance with a federal agency's program-specific audit guide, the auditor must follow such program-specific audit guide.

Finally, for major programs not included in the Supplement, the auditor must follow the guidance in Part 7 and use the types of compliance requirements in Part 3 to identify the applicable compliance requirements that could have both a direct and material effect on the program.

Update of Requirements

The 2 CFR section 200.513(c)(4) provides that federal agencies are responsible for annually informing OMB of any needed updates to the Supplement. However, auditors must recognize that laws and regulations change periodically and that delays will occur between such changes and revisions to the Supplement. Moreover, auditors must recognize that there may be provisions of grant agreements and contracts, that are not specified in law or regulation and, therefore, are not included in the Supplement. For example, the grant agreement may specify a certain matching percentage or set a priority for how funds should be spent (e.g., a requirement not to fund certain size projects) or a federal agency may impose additional requirements on a recipient (see 2 CFR section 200.208 regarding use of specific award conditions). Consequently, the auditor should perform reasonable procedures to ensure that compliance requirements identified as subject to the audit are current and determine whether there are any additional provisions of federal awards relevant to the compliance requirements subject to the audit that should be covered by an audit under the 1996 Amendments. Reasonable procedures would include an inquiry of non-federal entity management and a review of the federal awards for programs selected for testing (i.e., major programs).

For example, if a program entry in the Part 2 matrix indicates that Procurement and Suspension and Debarment compliance requirement is subject to the audit, then the auditor should follow the guidance in the previous paragraph and perform the reasonable procedures described therein. However, if a program entry in the Part 2 matrix indicates that Procurement and Suspension and Debarment compliance requirement is not subject to the audit, then the procedures described in the previous paragraph would not be required by the auditor.

Similarly, as it relates to provisions of grant agreements and contracts, if a program entry in the Part 2 matrix indicates that the Activities Allowed and Unallowed compliance requirement is subject to the audit and that the grant agreement for that program sets a priority for how funds can be spent (e.g., a requirement to not fund certain size projects), then the auditor would be expected to consider the grant agreement provisions. However, if a program entry in the Part 2 matrix indicates that the Matching, Level of Effort, Earmarking compliance requirement is not subject to the audit and that the grant agreement for that program specifies a certain matching percentage requirement for the same program, then the auditor is not expected to consider the grant agreement provisions related to matching in the audit.

Safe Harbor Status

Because the suggested audit procedures were written to apply to many different programs administered by many different entities, they are general in nature. Auditor judgment is necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objectives or whether alternative audit procedures are needed. Therefore, the auditor cannot consider the Supplement to be a “safe harbor” for identifying the audit procedures to apply in a particular engagement.

The requirement matrices in the Supplement indicate with a “Y” which types of compliance requirements are subject to the audit. The auditor can consider the Supplement a “safe harbor” for identification of those compliance requirements for the programs included if, as discussed above, the auditor: (1) performs reasonable procedures to ensure that the requirements subject to the audit in the Supplement are current and to determine whether there are any additional provisions of federal awards relevant to the compliance requirements subject to the audit that should be covered by an audit under the 1996 Amendments and (2) augments the requirements contained in the Supplement, as appropriate.

For compliance audit purposes, an “N” in a requirement matrix indicates that a type of requirement is not subject to the audit and is not expected to be tested. Although a requirement may not be subject to the audit for compliance audit purposes, auditors have a responsibility under GAAS and GAGAS related to noncompliance with (1) provisions of laws, regulations, contracts, and grant agreements that may have a direct and material effect on the financial statements and (2) the requirements related to the auditor’s consideration of fraud and abuse.

OVERVIEW OF THE SUPPLEMENT

Matrix of Compliance Requirements (Part 2)

The Matrix of Compliance Requirements (Matrix) identifies the federal programs and compliance requirements addressed in the Supplement and associates the programs with the applicable compliance requirements. The Matrix also identifies the applicable federal agency and the Assistance Listing (*Catalog of Federal Domestic Assistance* (CFDA)) number for each program in the Supplement. (The entry for each program/cluster also is included in the program/cluster in Part 4 or Part 5 of the Supplement.)

Compliance Requirements (Part 3)

Part 3 describes the 12 types of compliance requirements and, except for Special Tests and Provisions, the related audit objectives that the auditor must consider, as applicable, in every audit conducted under 2 CFR Part 200, Subpart F, with the exception of program-specific audits performed in accordance with a federal agency's program-specific audit guide. The auditor is responsible for achieving the stated audit objectives for the applicable compliance requirements.

Suggested audit procedures are provided to assist the auditor in planning and performing tests of non-federal entity compliance with the requirements of federal programs. The suggested audit procedures are, as the name implies, only suggested. Auditor judgment is necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objectives and whether alternative audit procedures are needed. Determining the nature, timing, and extent of the audit procedures necessary to meet the audit objectives is the auditor's responsibility.

The compliance requirements for Special Tests and Provisions are unique to each federal program; therefore, compliance requirements, audit objectives, and suggested audit procedures for those Special Tests and Provisions—other than the audit objectives and suggested audit procedures for internal control—are not included in Part 3.

Consistent with the requirements of 2 CFR Part 200, Subpart F, Part 3 includes audit objectives and suggested audit procedures to test internal control. However, the auditor must determine the specific procedures to test internal control on a case-by-case basis, considering factors such as the non-federal entity's internal control, the compliance requirements, the audit objectives for compliance, the auditor's assessment of control risk, and the audit requirement to test internal control as prescribed in 2 CFR Part 200, Subpart F.

Agency Program Requirements (Part 4)

For each federal program included in the Supplement, Part 4 discusses program objectives, program procedures, and compliance requirements that are specific to the program. With the exception of section III.N, "Special Tests and Provisions," the auditor must refer to Part 3 for the audit objectives and suggested audit procedures that pertain to the program-specific compliance requirements associated with the programs. Because Special Tests and Provisions are unique to

each program, the specific audit objectives and suggested audit procedures for each program are included in Part 4.

The description of program procedures is general in nature. Some programs may operate somewhat differently than described due to: (1) the complexity of governing federal and state laws and regulations; (2) the administrative flexibility afforded non-federal entities; and (3) the nature, size, and volume of transactions involved. Accordingly, the auditor must obtain an understanding of the applicable compliance requirements and program procedures in operation at the non-federal entity to properly plan and perform the audit.

Clusters of Programs (Part 5)

A cluster of programs is a grouping of closely related programs that have similar compliance requirements. Although the programs within a cluster are administered as separate programs, a cluster of programs is treated as a single program for the purpose of meeting the audit requirements in 2 CFR Part 200, Subpart F (see definition at 2 CFR section 200.1).

The types of clusters included in Part 5 are: Research and Development (R&D), Student Financial Assistance (SFA), and other clusters. “Other clusters” are as identified in the Supplement or designated in a state award document. Part 5 provides compliance requirements, audit objectives, and suggested audit procedures for the R&D and SFA clusters, and lists other clusters included in Part 4.

In planning and performing the audit, the auditor can determine whether programs administered by the non-federal entity are part of a cluster by referring to both the provisions of Part 5 of the Supplement and the state award documents.

Internal Control (Part 6)

To receive federal awards, non-federal entities must agree to comply with laws, regulations, and the provisions of grant agreements and contracts, and to maintain internal control to provide reasonable assurance of compliance within these requirements. The 2 CFR Part 200, Subpart F requires auditors to obtain an understanding of the non-federal entity’s internal control over federal programs sufficient to plan the audit to support a low assessed level of control risk for major programs, plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program, and, unless internal control is likely to be ineffective, perform testing of internal control as planned. Part 6 addresses the objectives, principles, and components of internal control based on the “Standards for Internal Control in the Federal Government,” (“Green Book”), issued by the Government Accountability Office, and the “Internal Control Integrated Framework” (revised 2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission. It also includes appendices that include illustrations of entity-wide internal controls over federal awards (Appendix 1) and illustrations of internal controls specific to each type of compliance requirement (Appendix 2).

Guidance for Auditing Programs Not Included in this Compliance Supplement (Part 7)

Part 7 provides guidance to auditors in both identifying the compliance requirements and designing tests of compliance with such requirements for programs not included in the Supplement.

Federal Programs Excluded from Portions of 2 CFR Part 200 (Part 8, Appendix I)

Appendix I lists block grants and other programs excluded from the requirements of the “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments,” which still may be in effect for some awards/funding and specified portions of 2 CFR Part 200.

Federal Agency Codification of Governmentwide Requirements and Guidance for Grants and Cooperative Agreements (Part 8, Appendix II)

Appendix II includes regulatory citations for federal agencies’ codification of the OMB guidance on (1) “Uniform Administrative Requirements, Cost Principles, and Audit Requirements” (in 2 CFR Part 200) and (2) non-procurement suspension and debarment in 2 CFR Part 180.

Federal Agency Single Audit, Key Management Liaison, and Program Contacts (Part 8, Appendix III)

Appendix III identifies federal agency-level contacts—single audit and, separately, management liaisons—from whom auditors can request information about the agency’s programs generally or the audit requirements of 2 CFR Part 200, Subpart F. It also includes, for each program/cluster listed in parts 4 and 5 of the Supplement, the name of an individual who can be contacted about the program/cluster.

Internal Reference Tables (Part 8, Appendix IV)

Appendix IV provides a listing of higher risk programs and programs in parts 4 and 5 that include IV, “Other Information.” This listing allows the auditor to quickly determine which programs have other information, such as guidance on Type A and Type B program determination or display on the Schedule of Expenditures of Federal Awards.

List of Changes for the 2023 Compliance Supplement (Part 8, Appendix V)

Appendix V provides a list of changes from the 2022 Compliance Supplement.

Program-Specific Audit Guides (Part 8, Appendix VI)

Appendix VI includes a list of program-specific guides maintained by the federal agencies and indicates where to obtain them.

Other Audit Advisories (Part 8, Appendix VII)

Appendix VII provides information on (1) Novel Coronavirus (COVID-19); (2) the effect of changes to compliance requirements and other clusters; (3) the due date for submission of audit reports and low-risk auditee criteria; (4) the treatment of National Science Foundation and National Institutes of Health Awards; (5) the exceptions to the Guidance in 2 CFR Part 200; (6) audit sampling; and (7) the Federal Audit Clearinghouse transition from Census to GSA and Single Audit extensions.

Examinations of EBT Service Organizations (Part 8, Appendix VIII)

Appendix VIII provides guidance on audits of state electronic benefits transfer (EBT) service providers (service organizations) regarding the issuance, redemption, and settlement of benefits under the Supplemental Nutrition Assistance Program (Assistance Listing 10.551) in accordance with the American Institute of Certified Public Accountants (AICPA) Statement on Standards for Attestation Engagements (AT-C) section 320, *Reporting on an Examination of Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting*.

Compliance Supplement Core Team (Part 8, Appendix IX)

Appendix IX provides a listing of the Compliance Supplement Core Team members who were responsible for the production of the Supplement.

TECHNICAL INFORMATION

Page Numbering Scheme

The following page numbering scheme is used in the Supplement:

- a. Each page included in parts 1, 2, 3 (Introduction), 6, and 7 is identified by the part number followed by page number. A hyphen (-) separates the part number from the page number. Part 1 is numbered as follows: 1-1, 1-2, 1-3, etc.
- b. Part 3 is divided into twelve compliance areas 3-A-1, 3-B-1, 3-C-1, etc.
- c. Each page included in parts 4 and 5 (other than the Introductions to those parts) is identified by the part number, the section number identifier, and the page number. The section number identifier for Part 4 represents the Assistance Listing number of the applicable program. For example, the Department of Labor's Unemployment Insurance program, Assistance Listing 17.225, is numbered 4-17.225-1, 4-17.225-2, 4-17.225-3, etc.

Code of Federal Regulations (CFR)

The CFR is a codification of the rules issued by federal agencies and is divided into 50 titles, which comprise the broad areas subject to federal regulation. Each title is further divided into parts and sections, with most references to the CFR being made at this level.

Portions of the CFR are revised daily and these changes are published in the *Federal Register*. However, a revised version of the CFR is published only once each calendar year, on a quarterly basis as follows: titles 1–16 on January 1, titles 17–27 on April 1, titles 28–41 on July 1, and titles 42–50 on October 1.

In the event that changes to a particular section of a title have changed since the last published update of that section, a notation is made in the List of CFR Sections Affected (LSA), which is published monthly. The LSA cites the *Federal Register* page number that contains the changes to the CFR section.

To obtain the most current regulations, the user should consult the latest version of the CFR and the LSA issued in the current month. The Federal Digital System website (<http://www.gpo.gov/fdsys/>) has links to the *Federal Register* and the CFR. An electronic CFR (e-CFR) is available at <http://www.ecfr.gov>. The e-CFR is a compilation of CFR material and *Federal Register* amendments. It is a current, daily updated version of the CFR; however, it is not an official legal edition of the CFR.

HOW TO OBTAIN ADDITIONAL GUIDANCE

Guidance to assist auditors in performing audits in accordance with 2 CFR Part 200, Subpart F, can be obtained from the following sources.

Office of Management and Budget

Under the grants management heading on the Office of Federal Financial Management’s home page (<https://www.whitehouse.gov/omb/office-federal-financial-management/>):

- OMB publications, including 2 CFR Part 200 and the recent Supplement for audits under 2 CFR Part 200, Subpart F.
- SF-SAC, *Data Collection Form for Reporting on Audits of States, Local Governments, Indian Tribes, Institutions of Higher Education and Non-Profit Organizations*.

General Services Administration (GSA)

- Assistance Listing (formerly the *Catalog of Federal Domestic Assistance* (CFDA))

A searchable copy of the Assistance Listing and a pdf version are available at <https://sam.gov>. If the Assistance Listing indicates under a program entry (Post Assistance Requirements – Audit) that audit is “Not Applicable” or the program is not subject to 2 CFR Part 200, Subpart F, the auditee should contact the federal agency single audit office/official indicated in Appendix III of the Supplement for any questions or clarification.

Government Accountability Office (GAO)

- Government Auditing Standards, July 2018 Revision (GAO-18-568G) (<http://www.gao.gov/yellowbook>)

Inspectors General

The Council of the Inspectors General on Integrity and Efficiency website (<http://www.ignet.gov>) contains an Inspector General Directory and the Inspector General Act.

Federal Audit Clearinghouse

The Federal Audit Clearinghouse (FAC): (1) maintains a government-wide database of single audit results and related federal award information; (2) serves as the federal repository for single audit reports; and (3) distributes single audit reports to federal agencies.

The Clearinghouse maintains a site on the Internet at <https://harvester.census.gov/facweb>. For Data Collection Form (SF-SAC) and single audit submission questions, contact the Federal Audit Clearinghouse by e-mail (govs.fac.ides@census.gov) or telephone (866-306-8779).

The provider of the Federal Audit Clearinghouse (FAC) is scheduled to change from U.S. Census Bureau (Census) to the U.S. General Services Administration (GSA) on October 1, 2023. At that time, all submissions will need to be made through the new FAC hosted by GSA, including all single audits for entities with 2023 FYE dates. Any draft not fully submitted to the Census FAC before September 30, 2023, may need to be completely re-started at the new GSA FAC. The FAC Web site and up to date information on the transition is at www.fac.gov.

PART 2 – MATRIX OF COMPLIANCE REQUIREMENTS

INTRODUCTION

This Part identifies the compliance requirements that the federal government has determined are subject to audit for the programs included in this Supplement. Because Part 4 (Agency Program Requirements) and Part 5 (Clusters of Programs) do not include guidance for all types of compliance requirements that pertain to the program (see introduction to Part 4 for additional information), the auditor must use this Part 2 to identify the types of compliance requirements that have been identified as subject to the audit. Note that comparable information is included in each program/cluster in parts 4 and 5 of the Supplement. The box for each type of compliance requirement either contains a “Y” (for “Yes” if the type of compliance requirement is subject to audit for the program) or “N” (for “No” if the requirement is not subject to audit for the program). **In addition, those programs with ARRA funding are indicated with bold print (in the program column).**

Even though a “Y” indicates that the compliance requirement is subject to audit, it may not apply to a particular nonfederal entity, either because that entity does not have activity subject to that type of compliance requirement or the activity could not have a direct and material effect on a major program. For example, even though Equipment and Real Property Management may be identified as being subject to audit for a particular program, it would not apply to a nonfederal entity that did not acquire or dispose of equipment or real property. Similarly, a “Y” may be included to identify Procurement and Suspension and Debarment as subject to audit; however, the audit would not be expected to address this type of compliance requirement if the nonfederal entity charges only small amounts of purchases to a major program. The auditor should exercise professional judgment when determining which compliance requirements marked “Y” needs to be tested at a particular nonfederal entity.

When a “Y” is present on the matrix and the auditor determines that the requirement should be tested at a nonfederal entity, the auditor must use Part 3, Compliance Requirements, and Part 4 (or 5), if applicable, in planning and performing the tests of compliance. For example, if a program entry in the matrix includes a “Y” in the Program Income column, Part 3 provides a general description of the compliance requirement. Part 3 also provides the audit objective and the suggested audit procedures for testing program income. Part 4 (or 5) may also include specific information on program income requirements pertaining to the program, such as restrictions on how program income may be used. Part 6, Internal Control, includes general information concerning internal control.

When a compliance requirement is shown in the matrix as “N,” it has been identified by the federal government as not being subject to audit. Auditors are not expected to test requirements that have been noted with an “N.” However, the auditor is not prohibited from expanding audit procedures if the terms of a grant award document specify that the additional compliance requirements are material to the administration of the program or if the auditor is aware of additional information that would lead the auditor to believe there are increased risks of fraud, waste, or abuse of federal program funds.

Legend to Matrix

Legend: Y - Yes, this type of compliance requirement is subject to audit for the federal program; N - No, this type of compliance requirement is not subject to audit for the federal program.

Those requirements that were changed from a “Y” to an “N” or from an “N” to a “Y” since the last Supplement are shown in bold (and highlighted in yellow) in the A-N matrix columns. Programs added through addendums 1 and 2 with requirements that were changed from a “Y” to an “N” and from an “N” to a “Y” since their publication are also shown in bold (and highlighted in yellow) in the A-N matrix columns. Any changes shown with a blue highlight are corrections to this table only (not a change in the requirements in Part 4). Note: Requirements D and K are reserved and therefore not shown in this chart.

Requirement	A	B	C	E	F	G	H	I	J	L	M	N

PART 3 – COMPLIANCE REQUIREMENTS

INTRODUCTION

Overview

The objectives of most compliance requirements for federal programs administered by states, local governments, Indian tribes, institutions of higher education, and nonprofit organizations (non-federal entities) are broadly applicable. For example, many programs have eligibility requirements for individuals or organizations to participate in a particular program. While the criteria for determining eligibility vary by program, the objective of the compliance requirement that only eligible individuals or organizations participate is consistent across programs.

Rather than repeat the compliance requirements, audit objectives, and suggested audit procedures for each of the programs contained in Part 4, “Agency Program Requirements” and Part 5, “Clusters of Programs,” they are provided once in this part. For each program in this Supplement, Part 4 or Part 5 contains additional information about the program and the statutes and regulations governing its administration, and also specifies the compliance requirements to be tested using the guidance in this part, Part 3.

The 2023 Supplement is a continuation of efforts to maximize the value of grant funding by applying a risk-based, data-driven framework.

In the 2023 Supplement, OMB worked with the agencies to provide additional guidelines, clarifications and expectations for the auditors when performance reporting review is required. OMB intends to continue to work with federal awarding agencies to identify quantifiable and objective performance reporting requirements.

Relationship between Frequently Asked Questions and the 2 CFR Part 200, Subpart F, Audit

In addition to the guidance in 2 CFR 200 described above, OMB provides answers to Frequently Asked Questions (FAQs) that are found on the CFO.gov website. These FAQs are meant to provide additional context, background, and clarification of the policies described in 2 CFR Part 200 and should be considered in the single audit work plan and reviews. The FAQs are informal in nature and in the case of any perceived discrepancy between the FAQs and the guidance itself, the guidance at 2 CFR 200 governs. The complete list of FAQs (updated as of May 2021) is [2CFR-FrequentlyAskedQuestions_2021050321.pdf \(cfo.gov\)](#).

Use of Terminology in Part 3

Part 3 presents statements of compliance requirements, related audit objectives, and suggested audit procedures. When restating compliance requirements, Part 3 uses the conventions employed in 2 CFR Part 200. For example, when the word “must” is used it indicates a requirement, whereas use of the word “should” indicates a best practice or recommended approach rather than a requirement (2 CFR 200.101 (b)). Given that different terminology (e.g.,

“shall”) was used before the issuance of 2 CFR Part 200, the language of Part 3 continues to reflect the way in which the compliance requirements previously were stated. The limited use of the term “should not” (e.g., with respect to improper payments) refers to an action or activity that is non-compliant.

Similarly, when Part 3 speaks to auditors, the word “must,” which is used in limited instances, means that the auditor is required to do what the statement indicates. However, the suggested audit procedures associated with each compliance requirement, which are specifically directed to auditors, uses the term “should,” which indicates a recommended approach. Auditors must judge whether the suggested audit procedures are sufficient to achieve the stated audit objectives or whether alternative audit procedures are needed.

REQUIREMENTS UNDER 2 CFR Part 200 FOR FEDERAL AWARDS MADE ON OR AFTER November 12, 2020.

2 CFR section 200.101 describes the applicability of 2 CFR Part 200. The following table, from 2 CFR section 200.101(b)(1), summarizes the applicability of the subparts of 2 CFR Part 200 to different types of federal awards, which includes subawards. Federal contracts and subcontracts under them also are subject to the FAR.

The following portions of 2 CFR Part 200:	Are applicable to the following types of federal awards and Fixed-Price Contracts and Subcontracts (except as noted in 2 CFR sections 200.101(d) and (e)):	Are NOT applicable to the following types of federal awards and Fixed-Price Contracts and Subcontracts:
Subpart A - Acronyms and Definitions	All	
Subpart B - General Provisions except for 200.111 English language, 200.112 Conflict of interest, 200.113 Mandatory disclosures	All	
200.111 English language, 200.112 Conflict of interest, and 200.113 Mandatory disclosures	Grant agreements and cooperative agreements	Agreements for loans, loan guarantees, interest subsidies, and insurance Procurement contracts awarded by federal agencies under the FAR subcontracts under those contracts
Subparts C–D, except for §§ 200.203 Requirement to provide public notice of federal financial assistance programs, 200.303 Internal controls, 200.331-333 Subrecipient Monitoring and Management	Grant agreements and cooperative agreements	Agreements for loans, loan guarantees, interest subsidies, and insurance Procurement contracts awarded by federal agencies under the

<p>The following portions of 2 CFR Part 200:</p>	<p>Are applicable to the following types of federal awards and Fixed-Price Contracts and Subcontracts (except as noted in 2 CFR sections 200.101(d) and (e)):</p>	<p>Are NOT applicable to the following types of federal awards and Fixed-Price Contracts and Subcontracts:</p>
		<p>FAR and subcontracts under those contracts</p>
<p>200.203 Requirements to provide public notice of financial assistance programs</p>	<p>Grant agreements and cooperative agreements</p> <p>Agreements for loans, loan guarantees, interest subsidies, and insurance</p>	<p>Procurement contracts awarded by federal agencies under the FAR and cost-reimbursement subcontracts under those contracts</p>
<p>200.303, Internal controls, 200.331-0-333 Subrecipient Monitoring and Management</p>	<p>All</p>	
<p>Subpart E - Cost Principles</p>	<p>Grant agreements and cooperative agreements, except those providing food commodities</p> <p>All procurement contracts awarded under the Federal Acquisition Regulations except those that are not negotiated</p>	<p>Grant agreements and cooperative agreements providing food commodities</p> <p>Fixed amount awards</p> <p>Agreements for loans, loan guarantees, interest subsidies, and insurance</p> <p>Federal awards to hospitals (see Appendix IX Hospital Cost Principles)</p>
<p>Subpart F - Audit Requirements</p>	<p>Grant agreements and cooperative agreements</p> <p>Contracts and subcontracts, except for fixed price contracts and subcontracts, awarded under the Federal Acquisition Regulations</p> <p>Agreements for loans, loan guarantees, interest subsidies, and insurance and other forms of federal financial assistance as defined by the Single Audit Act Amendments of 1996</p>	<p>Fixed-price contracts and subcontracts awarded under the Federal Acquisition Regulations</p>

Appendix I to the Supplement provides the names and Assistance Listing (CFDA) numbers for programs listed in 2 CFR section 200.101(e) that are excluded from subparts D and E of 2 CFR Part 200. In addition, as described in 2 CFR section 200.102 and with the exception of Subpart F,

Audit Requirements of 2 CFR Part 200: (1) OMB may allow exceptions for classes of federal awards or non-federal entities subject to the requirements to 2 CFR Part 200 when exceptions are not prohibited by statute; and (2) federal awarding agencies or the cognizant agency for indirect costs may authorize exceptions on a case-by-case basis for individual non-federal entities, except where otherwise required by statute or where OMB or other approval is expressly required.

COMPLIANCE REQUIREMENTS, AUDIT OBJECTIVES, AND SUGGESTED AUDIT PROCEDURES

Auditors must consider the compliance requirements and related audit objectives in Part 3 and Part 4 or Part 5 (for programs included in this Supplement) in every audit conducted under 2 CFR Part 200, Subpart F, with the exception of program-specific audits performed in accordance with a federal agency's program-specific audit guide (see Appendix VI to the Supplement). In making a determination not to test a compliance requirement, the auditor must conclude that the requirement either does not apply to the particular non-federal entity's major program or that noncompliance with the requirement could not have a direct and material effect on a major program (e.g., the auditor would not be expected to test Procurement if the non-federal entity charges only small amounts of purchases to a major program). The descriptions of the compliance requirements in parts 3, 4, and 5 generally are a summary of the actual compliance requirements. The auditor must refer to the referenced citations to laws and regulations for the complete statement of the compliance requirements.

Note that starting with the 2019 Compliance Supplement, the agencies are required to reduce the areas for compliance reviews from a maximum of 12 to a maximum of six (A and B compliance areas are counted as one). This reduction focused the agencies and the auditors on the areas that are most important for federal awarding agencies to manage programs more efficiently. Part 2 of the Supplement provides the auditors a matrix with the compliance areas that are selected by the agencies for review for their programs listed in Part 4.

The suggested audit procedures are provided to assist auditors in planning and performing tests of non-federal entity compliance with the requirements of federal programs. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objective and whether alternative audit procedures are needed.

The suggested procedures are in lieu of specifying audit procedures for each of the programs included in this Supplement. This approach has several advantages. First, it provides guidelines to assist auditors in designing audit procedures that are appropriate in the circumstance. Second, it helps auditors develop audit procedures for programs that are not included in this Supplement. Finally, it simplifies future updates to this Supplement.

Internal Control

Consistent with the requirements of 2 CFR Part 200, Subpart F, Part 3 includes generic audit objectives and suggested audit procedures to test internal control. However, the auditor must determine the specific procedures to test internal control on a case-by-case basis considering factors such as the non-federal entity's internal controls, the compliance requirements, the audit objectives for compliance, the auditor's assessment of control risk, and the audit requirement to test internal control as prescribed in 2 CFR Part 200, Subpart F.

Improper Payments

Under OMB guidance, Public Law (Pub. L.) No. 107-300, the Improper Payments Information Act of 2002, as amended by Pub. L. No. 111-204, the Improper Payments Elimination and Recovery Act, Executive Order 13520 on reducing improper payments, and the June 18, 2010

presidential memorandum to enhance payment accuracy, federal agencies are required to take actions to prevent improper payments, review federal awards for such payments, and, as applicable, reclaim improper payments. Improper payments include the following:

1. Any payment that should not have been made or that was made in an incorrect amount, including an overpayment or underpayment, under a statutory, contractual, administrative, or other legally applicable requirement; and includes – (i) any payment to an ineligible recipient;(ii) any payment for an ineligible good or service; (iii) any duplicate payment; (iv) any payment for a good or service not received, except for those payments where authorized by law; and (v) any payment that does not account for credit for applicable discounts.
2. A payment that could be either proper or improper, but the agency is unable to discern whether the payment was proper or improper as a result of insufficient or lack of documentation.

Auditors must be alert to improper payments, particularly when testing the following parts of section III. – A, “Activities Allowed or Unallowed;” B, “Allowable Costs/Cost Principles;” E, “Eligibility;” and, in some cases, N, “Special Tests and Provisions.”

Organization and Use of Part 3 of the Supplement

The remainder of Part 3 divides the types of compliance requirements into parts A through N.

A. ACTIVITIES ALLOWED OR UNALLOWED

Compliance Requirements

The specific requirements for activities allowed or unallowed are unique to each federal program and are found in the federal statutes, regulations, and the terms and conditions of the federal award pertaining to the program. For programs listed in this Supplement, the specific requirements of the governing statutes and regulations are included in Part 4, “Agency Program Requirements” or Part 5, “Clusters of Programs,” as applicable. This type of compliance requirement specifies the activities that can or cannot be funded under a specific program.

Source of Governing Requirements

The requirements for activities allowed or unallowed are contained in program legislation, federal awarding agency regulations, and the terms and conditions of the award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether federal awards were expended only for allowable activities.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for activities allowed or unallowed and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

1. Identify the types of activities which are either specifically allowed or prohibited by federal statutes, regulations, and the terms and conditions of the federal award pertaining to the program.

2. When allowability is determined based upon summary level data, perform procedures to verify that:
 - a. Activities were allowable.
 - b. Individual transactions were properly classified and accumulated into the activity total.
3. When allowability is determined based upon individual transactions, select a sample of transactions and perform procedures to verify that the transaction was for an allowable activity.
4. The auditor should be alert for large transfers of funds from program accounts which may have been used to fund unallowable activities.

B. ALLOWABLE COSTS/COST PRINCIPLES

Applicability of Cost Principles

The cost principles in 2 CFR Part 200, Subpart E (Cost Principles), prescribe the cost accounting requirements associated with the administration of federal awards by:

- a. States, local governments, and Indian tribes
- b. Institutions of higher education (IHEs)
- c. Nonprofit organizations

As provided in 2 CFR section 200.101, the cost principles requirements apply to all federal awards with the exception of grant agreements and cooperative agreements providing food commodities; agreements for loans, loan guarantees, interest subsidies, insurance; and programs listed in 2 CFR section 200.101(d) (see Appendix I of this Supplement). Federal awards administered by publicly owned hospitals and other providers of medical care are exempt from 2 CFR Part 200, Subpart E, but are subject to the requirements 45 CFR Part 75, Appendix IX, the Department of Health and Human Services (HHS) implementation of 2 CFR Part 200. The cost principles applicable to a non-federal entity apply to all federal awards received by the entity, regardless of whether the awards are received directly from the federal awarding agency or indirectly through a pass-through entity. For this purpose, federal awards include cost-reimbursement contracts under the Federal Acquisition Regulation (FAR). The cost principles do not apply to federal awards under which a non-federal entity is not required to account to the federal awarding agency or pass-through entity for actual costs incurred.

Source of Governing Requirements

The requirements for allowable costs/cost principles are contained in 2 CFR Part 200, Subpart E, program legislation, federal awarding agency regulations, and the terms and conditions of the award.

The requirements for the development and submission of indirect (facilities and administration (F&A)) cost rate proposals and cost allocation plans (CAPs) are contained in 2 CFR Part 200, appendices III–VII as follows:

- Appendix III to Part 200—Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Institutions of Higher Education (IHEs).
- Appendix IV to Part 200—Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Nonprofit Organizations
- Appendix V to Part 200—State/Local Government-Wide Central Service Cost Allocation Plans
- Appendix VI to Part 200—Public Assistance Cost Allocation Plans

- Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals

Except for the requirements identified below under “Basic Guidelines,” which are applicable to all types of non-federal entities, this compliance requirement is divided into sections based on the type of non-federal entity. The differences that exist are necessary because of the nature of the non-federal entity organizational structures, programs administered, and breadth of services offered by some non-federal entities and not others.

Basic Guidelines

Except where otherwise authorized by statute, cost must meet the following general criteria in order to be allowable under federal awards;

1. Be necessary and reasonable for the performance of the federal award and be allocable thereto under the principles in 2 CFR Part 200, Subpart E.
2. Conform to any limitations or exclusions set forth in 2 CFR Part 200, Subpart E or in the federal award as to types or amount of cost items.
3. Be consistent with policies and procedures that apply uniformly to both federally financed and other activities of the non-federal entity.
4. Be accorded consistent treatment. A cost may not be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost.
5. Be determined in accordance with generally accepted accounting principles (GAAP), except for state and local governments and Indian tribes only as otherwise provided for in 2 CFR Part 200.
6. Not be included as a cost or used to meet cost-sharing or matching requirements of any other federally financed program in either the current or a prior period.
7. Be adequately documented.

Selected Items of Cost

The 2 CFR sections 200.420 through 200.476 provide the principles to be applied in establishing the allowability of certain items of cost, in addition to the basic considerations identified above. (For a listing of costs, by type of non-federal entity, refer to Exhibit 1 of this part of the Supplement.) These principles apply whether or not a particular item of cost is treated as a direct cost or indirect (F&A) cost. Failure to mention a particular item of cost is not intended to imply that it is either allowable or unallowable; rather, determination of allowability in each case should be based on the treatment provided for similar or related items of cost and the principles described in 2 CFR sections 200.402 through 200.411.

List of Selected Items of Cost Contained in 2 CFR Part 200

The following exhibit provides a listing of selected items of cost contained in the cost principles in 2 CFR Part 200, Subpart E. Several cost items are unique to one type of entity (e.g., commencement and convocation costs are applicable only to IHEs).

The exhibit lists the selected items of cost along with a brief description of their allowability. The reader is strongly cautioned not to rely exclusively on the summary but to place primary reliance on the referenced 2 CFR Part 200 text.

Selected Items of Cost - Exhibit 1

Selected Cost Item	Uniform Guidance General Reference	Items of Cost Requiring Prior Approval	States, Local Governments, Indian Tribes	Institutions of Higher Education	Nonprofit Organizations	Items of Cost not Treated the Same Across Non-Federal Entities
Advertising and public relations costs	§200.421		Allowable with restrictions	Allowable with restrictions	Allowable with restrictions	
Advisory councils	§200.422		Allowable with restrictions	Allowable with restrictions	Allowable with restrictions	
Alcoholic beverages	§200.423		Unallowable	Unallowable	Unallowable

Suggested Internal Control Audit Procedures

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum, and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of non-compliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Indirect Cost Rate

Except for those non-federal entities described in 2 CFR Part 200, Appendix VII, paragraph D.1.b, if a non-federal entity has never received a negotiated indirect cost rate, it may elect to charge a de minimis rate of 10 percent of modified total direct costs (MTDC). Effective on November 12, 2020, any non-federal entity can use the de minimis rate. Such a rate may be used indefinitely or until the non-federal entity chooses to negotiate a rate, which the non-federal entity may do at any time. If a non-federal entity chooses to use the de minimis rate, that rate must be used consistently for all of its federal awards. Also, as described in 2 CFR section 200.403, costs must be consistently charged as either indirect or direct but may not be double charged or inconsistently charged as both. In accordance with 2 CFR section 200.400(g), a non-

federal entity may not earn or keep any profit resulting from federal financial assistance, unless explicitly authorized by the terms and conditions of the award. A non-federal entity can always choose to charge the federal awards less than the negotiated rates or the de minimis rate.

Audit Objectives – De Minimis Indirect Cost Rate

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine that the de minimis rate is applied to the appropriate base amount.
3. Determine that the de minimis rate is used consistently by a non-federal entity under its federal awards.

Suggested Compliance Audit Procedures – De Minimis Indirect Cost Rate

The following suggested audit procedures apply to any non-federal entity using a de minimis indirect cost rate, whether as a recipient or subrecipient. None of the procedures related to indirect costs in the sections organized by type of non-federal entity apply when a de minimis rate is used.

1. Determine that the non-federal entity has not previously claimed indirect costs on the basis of a negotiated rate. Auditors are required to test only for the three fiscal years immediately prior to the current audit period.
2. Test a sample of transactions for conformance with 2 CFR section 200.414(f).
 - a. Select a sample of claims for reimbursement of indirect costs and verify that the de minimis rate was used consistently, the rate was applied to the appropriate base, and the amounts claimed were the product of applying the rate to a modified total direct costs base.
 - b. Verify that the costs included in the base are consistent with the costs that were included in the base year (i.e., verify that current year modified total direct costs do not include costs items that were treated as indirect costs in the base year).
3. For a non-federal entity conducting a single function, which is predominately funded by federal awards, determine whether use of the de minimis indirect cost rate resulted in the non-federal entity double-charging or inconsistently charging costs as both direct and indirect.

2 CFR PART 200

COST PRINCIPLES FOR STATES, LOCAL GOVERNMENTS, AND INDIAN TRIBES

Introduction

The 2 CFR Part 200, Subpart E and appendices III–VII establish principles and standards for determining allowable direct and indirect costs for federal awards. This section is organized into the following areas of allowable costs: states and local government and Indian tribe costs (direct and indirect); state/local government central service costs; and state public assistance agency costs.

Cognizant Agency for Indirect Costs

The 2 CFR Part 200, Appendix V, paragraph F, provides the guidelines to use when determining the federal agency that will serve as the cognizant agency for indirect costs for states, local governments, and Indian tribes. References to the “cognizant agency for indirect costs” are not equivalent to the cognizant agency for audit responsibilities, which is defined in 2 CFR section 200.18.

For indirect cost rates and departmental indirect cost allocation plans, the cognizant agency is generally the federal agency with the largest value of *direct* federal awards (excluding pass-through awards) with a governmental unit or component, as appropriate. In general, unless different arrangements are agreed to by the concerned federal agencies or described in 2 CFR Part 200, Appendix V, paragraph F, the cognizant agency for central service cost allocation plans is the federal agency with the largest dollar value of *total* federal awards (including pass-through awards) with a governmental unit.

Once designated as the cognizant agency for indirect costs, the federal agency remains so for a period of five years. In addition, 2 CFR Part 200, Appendix V, paragraph F, lists the cognizant agencies for certain specific types of plans and the cognizant agencies for indirect costs for certain types of governmental entities. For example, HHS is cognizant for all public assistance and state-wide cost allocation plans for all states (including the District of Columbia and Puerto Rico), state and local hospitals, libraries, and health districts, and the Department of the Interior (DOI) is cognizant for all Indian tribal governments, territorial governments, and state and local park and recreational districts.

Allowable Costs—Direct and Indirect Costs

The individual state/local government/Indian tribe departments or agencies (also known as “operating agencies”) are responsible for the performance or administration of federal awards. In order to receive cost reimbursement under federal awards, the department or agency usually submits claims asserting that allowable and eligible costs (direct and indirect) have been incurred in accordance with 2 CFR Part 200, Subpart E.

The indirect cost rate proposal (ICRP) provides the documentation prepared by a state/local government/Indian tribe department or agency to substantiate its request for the establishment of an indirect cost rate. The indirect costs include (1) costs originating in the department or agency of the governmental unit carrying out federal awards, and (2) for states and local governments,

costs of central governmental services distributed through the state/local government-wide central service CAP that are not otherwise treated as direct costs. The ICRPs are based on the most current financial data and are used to either establish predetermined, fixed, or provisional indirect cost rates or to finalize provisional rates (for rate definitions refer to 2 CFR Part 200, Appendix VII, paragraph B).

1. Compliance Requirements – Direct Costs

- a. Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a federal award or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.
- b. Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs.

2. Audit Objectives – Direct Costs

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the organization complied with the provisions of 2 CFR Part 200) as follows:
 - (1) Direct charges to federal awards were for allowable costs.
 - (2) Unallowable costs determined to be direct costs were included in the allocation base for the purpose of computing an indirect cost rate.

3. Suggested Compliance Audit Procedures – Direct Costs

Test a sample of transactions for conformance with the following criteria contained in 2 CFR Part 200, as applicable:

- a. If the auditor identifies unallowable direct costs, the auditor should be aware that “directly associated costs” might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost and would not have been incurred if the other cost had not been incurred. For example, fringe benefits are “directly associated” with payroll costs. When an unallowable cost is incurred, directly associated costs are also unallowable.
- b. Costs were approved by the federal awarding agency, if required (see the above table (Selected Items of Cost, Exhibit 1) or 2 CFR section 200.407 for selected items of cost that require prior written approval).
- c. Costs did not consist of improper payments, including (1) payments that should not have been made or that were made in incorrect amounts (including overpayments and underpayments) under statutory, contractual, administrative, or

other legally applicable requirements; (2) payments that do not account for credit for applicable discounts; (3) duplicate payments; (4) payments that were made to an ineligible party or for an ineligible good or service; and (5) payments for goods or services not received (except for such payments where authorized by law).

- d. Costs were necessary and reasonable for the performance of the federal award and allocable under the principles of 2 CFR Part 200, Subpart E.
- e. Costs conformed to any limitations or exclusions set forth in 2 CFR Part 200, Subpart E, or in the federal award as to types or amount of cost items.
- f. Costs were consistent with policies and procedures that apply uniformly to both federally financed and other activities of the state/local government/Indian tribe department or agency.
- g. Costs were accorded consistent treatment. Costs were not assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances was allocated to the federal award as an indirect cost.
- h. Costs were not included as a cost of any other federally financed program in either the current or a prior period.
- i. Costs were not used to meet the cost-sharing or matching requirements of another federal program, except where authorized by federal statute.
- j. Costs were adequately documented.

1. Compliance Requirements – Indirect Costs

- a. *Allocation of Indirect Costs and Determination of Indirect Cost Rates*
 - (1) The specific methods for allocating indirect costs and computing indirect cost rates are as follows:
 - (a) *Simplified Method* – This method is applicable where a governmental unit’s department or agency has only one major function, or where all its major functions benefit from the indirect cost to approximately the same degree. The allocation of indirect costs and the computation of an indirect cost rate may be accomplished through simplified allocation procedures described in 2 CFR Part 200, Appendix VII, paragraph C.2.
 - (b) *Multiple Allocation Base Method* – This method is applicable where a governmental unit’s department or agency has several major functions that benefit from its indirect costs in varying degrees. The allocation of indirect costs may require the accumulation of such costs into separate groupings which are then allocated individually to benefiting functions by means of a base

which best measures the relative degree of benefit. (For detailed information, refer to 2 CFR Part 200, Appendix VII, paragraph C.3.)

- (c) *Special Indirect Cost Rates* – In some instances, a single indirect cost rate for all activities of a department or agency may not be appropriate. Different factors may substantially affect the indirect costs applicable to a particular program or group of programs (e.g., the physical location of the work, the nature of the facilities, or level of administrative support required). (For the requirements for a separate indirect cost rate, refer to 2 CFR Part 200, Appendix VII, paragraph C.4.)
 - (d) *Cost Allocation Plans* – In certain cases, the cognizant agency for indirect costs may require a state or local government or unit's department or agency to prepare a CAP instead of an ICRP. These are infrequently occurring cases in which the nature of the department or agency's federal awards makes impracticable the use of a rate to recover indirect costs. A CAP required in such cases consists of narrative descriptions of the methods the department or agency uses to allocate indirect costs to programs, awards, or other cost objectives. Like an ICRP, the CAP either must be submitted to the cognizant agency for indirect cost for review, negotiation, and approval, or retained on file for inspection during audits.
- b. *Submission Requirements*
- (1) Submission requirements are identified in 2 CFR Part 200, Appendix VII, paragraph D.1. All departments or agencies of a governmental unit claiming indirect costs under federal awards must prepare an ICRP and related documentation to support those costs.
 - (2) A state/local department or agency or Indian tribe that receives more than \$35 million in direct federal funding must submit its ICRP to its cognizant agency for indirect costs. Other state/local government departments or agencies that are not required to submit a proposal to the cognizant agency for indirect costs must develop an ICRP in accordance with the requirements of 2 CFR Part 200 and maintain the proposal and related supporting documentation for audit.
 - (3) Where a government receives funds as a subrecipient only, the pass-through entity will be responsible for the indirect cost rate used (2 CFR section 200.331(a)(4)).
 - (4) Each Indian tribe desiring reimbursement of indirect costs must submit its ICRP to the DOI (its cognizant agency for indirect costs).

- (5) ICRPs must be developed (and, when required, submitted) within 6 months after the close of the governmental unit's fiscal year, unless an exception is approved by the cognizant agency for indirect costs.

c. *Documentation and Certification Requirements*

The documentation and certification requirements for ICRPs are included in 2 CFR Part 200, Appendix VII, paragraphs D.2 and 3, respectively. The proposal and related documentation must be retained for audit in accordance with the record retention requirements contained in 2 CFR section 200.333(f).

2. **Audit Objectives – Indirect Costs**

- a. Obtain an understanding of internal control over the compliance requirements for state/local government/Indian tribe department or agency costs, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the governmental unit complied with the provisions of 2 CFR Part 200 as follows:
 - (1) Charges to cost pools used in calculating indirect cost rates were for allowable costs.
 - (2) The methods for allocating the costs are in accordance with the cost principles and produce an equitable and consistent distribution of costs (e.g., all activities that benefit from the indirect cost, including unallowable activities, must receive an appropriate allocation of indirect costs).
 - (3) Indirect cost rates were applied in accordance with negotiated indirect cost rate agreements (ICRA).
 - (4) For state/local departments or agencies that do not have to submit an ICRP to the cognizant agency for indirect costs (those that receive less than \$35 million in direct federal awards), indirect cost rates were applied in accordance with the ICRP maintained on file.

3. **Suggested Compliance Audit Procedures – Indirect Costs**

- a. If the state/local department or agency is not required to submit an ICRP and related supporting documentation, the auditor should consider the risk of the reduced level of oversight in designing the nature, timing, and extent of compliance testing.
- b. *General Audit Procedures* – The following procedures apply to charges to cost pools that are allocated wholly or partially to federal awards or used in formulating indirect cost rates used for recovering indirect costs under federal awards.

- (1) Test a sample of transactions for conformance with:
 - (a) The criteria contained in the “Basic Considerations” section of 2 CFR sections 200.402 through 200.411.
 - (b) The principles to establish allowability or unallowability of certain items of cost (2 CFR sections 200.420 through 200.476).
 - (2) If the auditor identifies unallowable costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost and would have not been incurred if the other cost had not been incurred. When an unallowable cost is incurred, directly associated costs are also unallowable. For example, occupancy costs related to unallowable general costs of government are also unallowable.
- c. *Special Audit Procedures for State, Local Government, and Indian Tribe ICRPs*
- (1) Verify that the ICRP includes the required documentation in accordance with 2 CFR Part 200, Appendix VII, paragraph D.
 - (2) *Testing of the ICRP* – There may be a timing consideration when the audit is completed before the ICRP is completed. In this instance, the auditor should consider performing interim testing of the costs charged to the cost pools and the allocation bases (e.g., determine from management the cost pools that management expects to include in the ICRP and test the costs for compliance with 2 CFR Part 200). If there are audit exceptions, corrective action may be taken earlier to minimize questioned costs. In the next year’s audit, the auditor should complete testing and verify management’s representations against the completed ICRP.

The following procedures are some acceptable options the auditor may use to obtain assurance that the costs collected in the cost pools and the allocation methods used are in compliance with 2 CFR Part 200, Subpart E:

- (a) *Indirect Cost Pool* – Test the indirect cost pool to ascertain if it includes only allowable costs in accordance with 2 CFR Part 200.
 - (i) Test to ensure that unallowable costs are identified and eliminated from the indirect cost pool (e.g., capital expenditures, general costs of government).
 - (ii) Identify significant changes in expense categories between the prior ICRP and the current ICRP. Test a sample of transactions to verify the allowability of the costs.

- (iii) Trace the central service costs that are included in the indirect cost pool to the approved state/local government or central service CAP or to plans on file when submission is not required.
 - (b) *Direct Cost Base* – Test the methods of allocating the costs to ascertain if they are in accordance with the applicable provisions of 2 CFR Part 200 and produce an equitable distribution of costs.
 - (i) Determine that the proposed base(s) includes all activities that benefit from the indirect costs being allocated.
 - (ii) If the direct cost base is not limited to direct salaries and wages, determine that distorting items are excluded from the base. Examples of distorting items include capital expenditures, flow-through funds (such as benefit payments), and subaward costs in excess of \$25,000 per subaward.
 - (iii) Determine the appropriateness of the allocation base (e.g., salaries and wages, modified total direct costs).
 - (c) *Other Procedures*
 - (i) Examine the records for employee compensation to ascertain if they are accurate, and the costs are allowable and properly allocated to the various functional and programmatic activities to which salary and wage costs are charged. (Refer to 2 CFR section 200.430 for additional information on support of salaries and wages.)
 - (ii) For an ICRP using the multiple allocation base method, test statistical data (e.g., square footage, audit hours, salaries and wages) to ascertain if the proposed allocation or rate bases are reasonable, updated as necessary, and do not contain any material omissions.
- (3) *Testing of Charges Based Upon the ICRA* – Perform the following procedures to test the application of charges to federal awards based upon an ICRA:
 - (a) Obtain and read the current ICRA and determine the terms in effect.
 - (b) Select a sample of claims for reimbursement and verify that the rates used are in accordance with the rate agreement, that rates were applied to the appropriate bases, and that the amounts claimed were the product of applying the rate to the applicable

base. Verify that the costs included in the base(s) are consistent with the costs that were included in the base year (e.g., if the allocation base is total direct costs, verify that current-year direct costs do not include costs items that were treated as indirect costs in the base year).

(4) *Other Procedures* – No Negotiated ICRA

- (a) If an indirect cost rate has not been negotiated by a cognizant agency for indirect costs, the auditor should determine whether documentation exists to support the costs. When the auditee has documentation, the suggested general audit procedures under paragraph 3.b above should be performed to determine the appropriateness of the indirect cost charges to awards.
- (b) If an indirect cost rate has not been negotiated by a cognizant agency for indirect costs, and documentation to support the indirect costs does not exist, the auditor should question the costs based on a lack of supporting documentation.

Allowable Costs – State/Local Government-Wide Central Service Costs

Most governmental entities provide services, such as accounting, purchasing, computer services, and fringe benefits, to operating agencies on a centralized basis. Since federal awards are performed within the individual operating agencies, there must be a process whereby these central service costs are identified and assigned to benefiting operating agency activities on a reasonable and consistent basis. The state/local government-wide central service cost allocation plan (CAP) provides that process. (Refer to 2 CFR Part 200, Appendix V, for additional information and specific requirements.)

The allowable costs of central services that a governmental unit provides to its agencies may be allocated or billed to the user agencies. The state/local government-wide central service CAP is the required documentation of the methods used by the governmental unit to identify and accumulate these costs, and to allocate them or develop billing rates based on them.

Allocated central service costs (referred to as Section I costs) are allocated to benefiting operating agencies on some reasonable basis. These costs are usually negotiated and approved for a future year on a “fixed-with-carry-forward” basis. Examples of such services might include general accounting, personnel administration, and purchasing. Section I costs assigned to an operating agency through the state/local government-wide central service CAP are typically included in the agency’s indirect cost pool.

Billed central service costs (referred to as Section II costs) are billed to benefiting agencies and/or programs on an individual fee-for-service or similar basis. The billed rates are usually based on the estimated costs for providing the services. An adjustment will be made at least annually for the difference between the revenue generated by each billed service and the actual allowable costs. Examples of such billed services include computer services, transportation

services, self-insurance, and fringe benefits. Section II costs billed to an operating agency may be charged as direct costs to the agency's federal awards or included in its indirect cost pool.

1. Compliance Requirements – State/Local Government-Wide Central Service Costs

a. *Submission Requirements*

- (1) Submission requirements are identified in 2 CFR Part 200, Appendix V, paragraph D.
- (2) A state is required to submit a state-wide central service CAP to HHS for each year in which it claims central service costs under federal awards.
- (3) A “major local government” is required to submit a central service CAP to its cognizant agency for indirect costs annually. *Major local government* means a local government that receives more than \$100 million in direct federal awards (not including pass-through awards) subject to 2 CFR Part 200, Subpart E. All other local governments claiming central service costs must develop a CAP in accordance with the requirements described in 2 CFR Part 200 and maintain the plan and related supporting documentation for audit. These local governments are not required to submit the plan for federal approval unless they are specifically requested to do so by the cognizant agency for indirect costs.
- (4) All central service CAPs will be prepared and, when required, submitted within the six months prior to the beginning of the governmental unit's fiscal years in which it proposes to claim central service costs. Extensions may be granted by the cognizant agency for indirect costs on a case-by-case basis.

b. *Documentation Requirements*

- (1) The central service CAP must include all central service costs that will be claimed (either as an allocated or a billed cost) under federal awards. Costs of central services omitted from the CAP will not be reimbursed.
- (2) The documentation requirements for all central service CAPs are contained in 2 CFR Part 200 Appendix V, paragraph E. All plans and related documentation used as a basis for claiming costs under federal awards must be retained for audit in accordance with the record retention requirements contained in 2 CFR section 200.333(f).

- c. *Required Certification* – No proposal to establish a central service CAP, whether submitted to the cognizant agency for indirect costs or maintained on file by the governmental unit, will be accepted and approved unless such costs have been certified by the governmental unit using the Certificate of Cost Allocation Plan as set forth in 2 CFR Part 200, Appendix V, paragraph E.4.

- d. *Allocated Central Service Costs (Section I Costs)* – A carry-forward adjustment is not permitted for a central service activity that was not included in the approved plan, or for unallowable costs that must be reimbursed immediately (2 CFR Part 200, Appendix V, paragraph G.3).
- e. *Billed Central Service Costs (Section II Costs)*
- (1) Each billed central service activity must separately account for all revenues (including imputed revenues) generated by the service, expenses incurred to furnish the service, and profit/loss (2 CFR Part 200, Appendix V, paragraph G.1).
 - (2) Internal service funds for central service activities are allowed a working capital reserve of up to 60 calendar days cash expenses for normal operating purposes (2 CFR Part 200, Appendix V, paragraph G.2). A working capital reserve exceeding 60 calendar days may be approved by the cognizant agency for indirect costs in exceptional cases.
 - (3) Adjustments of billed central services are required when there is a difference between the revenue generated by each billed service and the actual allowable costs (2 CFR Part 200, Appendix V, paragraph G.4). A comparison of the revenue generated by each billed service (including total revenues whether or not billed or collected) to the actual allowable costs of the service will be made at least annually, and an adjustment will be made for the difference between the revenue and the allowable costs. The adjustments will be made through one of the following methods, at the option of the cognizant agency:
 - (a) If revenue exceeds costs, a cash refund to the federal government for the federal share of the adjustment, including earned or imputed interest from the date of expenditure and debt interest, if applicable, chargeable in accordance with applicable cognizant agency for indirect costs regulations;
 - (b) Credits to the amounts charged to the individual programs;
 - (c) Adjustments to future billing rates; or
 - (d) Adjustments to allocated central service costs (Section I) if the total amount of the adjustment for a particular service (federal share and non-federal share) does not exceed \$500,000.
 - (4) Whenever funds are transferred from a self-insurance reserve to other accounts (e.g., general fund), refunds must be made to the federal government for its share of funds transferred, including earned or imputed interest from the date of transfer and debt interest, if applicable, chargeable in accordance with applicable cognizant agency for indirect cost claims collection regulations (2 CFR section 200.447(d)(5)).

2. Audit Objectives – State/Local Government-Wide Central Service Costs

- a. Obtain an understanding of internal control over the compliance requirements for central service costs, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the governmental unit complied with the provisions of 2 CFR Part 200 as follows:
 - (1) Charges to cost pools allocated to federal awards through the central service CAPs were for allowable costs.
 - (2) The methods of allocating the costs are in accordance with the cost principles, and produce an equitable and consistent distribution of costs, which benefit from the central service costs being allocated (e.g., cost allocation bases include all activities, including all state departments and agencies and, if appropriate, non-state organizations which receive services).
 - (3) Cost allocations were in accordance with central service CAPs approved by the cognizant agency for indirect costs or, in cases where such plans are not subject to approval, in accordance with the plan on file.

3. Suggested Compliance Audit Procedures – State/Local Government-Wide Central Service Costs

- a. For local governments that are not required to submit the central service CAP and related supporting documentation, the auditor should consider the risk of the reduced level of oversight in designing the nature, timing and extent of compliance testing.
- b. *General Audit Procedures for State/Local Government-Wide Central Service CAPs* – The following procedures apply to charges to cost pools that are allocated wholly or partially to federal awards or used in formulating indirect cost rates used for recovering indirect costs under federal awards.
 - (1) Test a sample of transactions for conformance with:
 - (a) The criteria contained in the “Basic Considerations” section of 2 CFR Part 200, Subpart E (sections 200.402 through 200.411).
 - (b) The principles to establish allowability or unallowability of certain items of cost (2 CFR sections 200.420 through 476).
 - (2) If the auditor identifies unallowable costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost and would have not been incurred if the other cost had not been incurred.

When an unallowable cost is incurred, directly associated costs are also unallowable. For example, occupancy costs related to unallowable general costs of government are also unallowable.

- c. *Special Audit Procedures for State/Local Government-Wide Central Service CAPs*
- (1) Verify that the central service CAP includes the required documentation in accordance with 2 CFR Part 200 Appendix V, paragraph E.
 - (2) *Testing of the State/Local Government-Wide Central Service CAPs – Allocated Section I Costs*
 - (a) If new allocated central service costs were added, review the justification for including the item as Section I costs to ascertain if the costs are allowable (e.g., if costs benefit federal awards).
 - (b) Identify the central service costs that incurred a significant increase in actual costs from the prior year's costs. Test a sample of transactions to verify the allowability of the costs.
 - (c) Ascertain if the bases used to allocate costs are appropriate (i.e., costs are allocated in accordance with relative benefits received).
 - (d) Ascertain if the proposed bases include all activities that benefit from the central service costs being allocated, including all users that receive the services. For example, the state-wide central service CAP should allocate costs to all benefiting state departments and agencies, and, where appropriate, non-state organizations, such as local government agencies.
 - (e) Perform an analysis of the allocation bases by selecting agencies with significant federal awards to determine if the percentage of costs allocated to these agencies has increased from the prior year. For those selected agencies with significant allocation percentage increases, ascertain if the data included in the bases are current and accurate.
 - (f) Verify that carry-forward adjustments are properly computed in accordance with 2 CFR Part 200, Appendix V, paragraph G.3.
 - (3) *Testing of the State/Local Government-Wide Central Service CAPs – Billed Section II Costs*
 - (a) For billed central service activities accounted for in separate funds (e.g., internal service funds), ascertain if:

- (i) Retained earnings/fund balances (including reserves) are computed in accordance with the cost principles;
 - (ii) Working capital reserves are not excessive in amount (generally not greater than 60 calendar days for cash expenses for normal operations incurred for the period exclusive of depreciation, capital costs, and debt principal costs); and
 - (iii) Adjustments were made when there is a difference between the revenue generated by each billed service and the actual allowable costs.
- (b) Test to ensure that all users of services are billed in a consistent manner. For example, examine selected billings to determine if all users (including users outside the governmental unit) are charged the same rate for the same service.
 - (c) Test that billing rates exclude unallowable costs, in accordance with the cost principles and federal statutes.
 - (d) Test, where billed central service activities are funded through general revenue appropriations, that the billing rates (or charges) were developed based on actual costs and were adjusted to eliminate profits.
 - (e) For self-insurance and pension funds, ascertain if the fund contributions are appropriate for such activities as indicated in the current actuarial report.
 - (f) Determine if refunds were made to the federal government for its share of funds transferred from the self-insurance reserve to other accounts, including imputed or earned interest from the date of the transfer.

Allowable Costs – State Public Assistance Agency Costs

State public assistance agency costs are (1) defined as all costs allocated or incurred by the state agency except expenditures for financial assistance, medical vendor payments, and payments for services and goods provided directly to program recipients (e.g., day care services); and (2) normally charged to federal awards by implementing the public assistance cost allocation plan (CAP). The public assistance CAP provides a narrative description of the procedures that are used in identifying, measuring, and allocating all costs (direct and indirect) to each of the programs administered or supervised by state public assistance agencies.

The 2 CFR Part 200, Appendix VI, paragraph A, states that, since the federally financed programs administered by state public assistance agencies are funded predominantly by HHS, HHS is responsible for the requirements for the development, documentation, submission,

negotiation, and approval of public assistance CAPs. These requirements are specified in 45 CFR Part 95, Subpart E.

Major federal programs typically administered by state public assistance agencies include Temporary Assistance for Needy Families (Assistance Listing 93.558), Medicaid (Assistance Listing 93.778), Supplemental Nutrition Assistance Program (Assistance Listing 10.561), Child Support Enforcement (Assistance Listing 93.563), Foster Care (Assistance Listing 93.658), Adoption Assistance (Assistance Listing 93.659), and Social Services Block Grant (Assistance Listing 93.667).

1. Compliance Requirements – State Public Assistance Agency Costs

a. Submission Requirements

Unlike most state/local government-wide central service CAPs and ICRPs, an annual submission of the public assistance CAP is not required. Once a public assistance CAP is approved, state public assistance agencies are required to promptly submit amendments to the plan if any of the following events occur (45 CFR section 95.509):

- (1) The procedures shown in the existing CAP become outdated because of organizational changes, changes to the federal law or regulations, or significant changes in the program levels, affecting the validity of the approved cost allocation procedures.
- (2) A material defect is discovered in the CAP.
- (3) The CAP for public assistance programs is amended so as to affect the allocation of costs.
- (4) Other changes occur which make the allocation basis or procedures in the approved CAP invalid.

The amendments must be submitted to HHS for review and approval.

b. Documentation Requirements – A state may claim federal financial participation for costs associated with a program only in accordance with its approved CAP. The public assistance CAP requirements are contained in 45 CFR section 95.507.

c. Implementation of Approved Public Assistance CAPs – Since public assistance CAPs are of a narrative nature, the federal government needs assurance that the CAP has been implemented as approved. This is accomplished by funding agencies' reviews, single audits, or audits conducted by the cognizant agency for audit (2 CFR Part 200 Appendix VI, paragraph E.1).

2. Audit Objectives – State Public Assistance Agency Costs

- a. Obtain an understanding of internal control over the compliance requirements for state public assistance agency costs, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the governmental unit complied with the provisions of 2 CFR Part 200 as follows:
 - (1) Direct charges to federal awards were for allowable costs.
 - (2) Charges to cost pools allocated to federal awards through the public assistance CAP were for allowable costs.
 - (3) The approved public assistance CAP correctly describes the actual procedures used to identify, measure, and allocate costs to each of the programs operated by the state public assistance agency. However, the actual procedures or methods of allocating costs must be in accordance with the cost principles and produce an equitable and consistent distribution of costs.
 - (4) Charges to federal awards are in accordance with the approved public assistance CAP. This does not apply if the auditor first determines that the approved CAP is not in compliance with the cost principles and/or produces an inequitable distribution of costs.
 - (5) The employee compensation reporting systems are implemented and operated in accordance with the methodologies described in the approved public assistance CAP.

3. Suggested Compliance Audit Procedures – State Public Assistance Agency Costs

- a. Since a significant amount of the costs in the public assistance CAP are allocated based on employee compensation reporting systems, it is suggested that the auditor consider the risk when designing the nature, timing, and extent of compliance testing.
- b. *General Audit Procedures* – The following procedures apply to direct charges to federal awards as well as charges to cost pools that are allocated wholly or partially to federal awards.
 - (1) Test a sample of transactions for conformance with:
 - (a) The criteria contained in the “Basic Considerations” section of 2 CFR Part 200 (sections 200.402 through 200.411).
 - (b) The principles to establish allowability or unallowability of certain items of cost (2 CFR sections 200.420 through 200.476).

- (2) If the auditor identifies unallowable costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost and would have not been incurred if the other cost had not been incurred. When an unallowable cost is incurred, directly associated costs are also unallowable. For example, occupancy costs related to unallowable general costs of government are also unallowable.

c. *Special Audit Procedures for Public Assistance CAPs*

- (1) Verify that the state public assistance agency is complying with the submission requirements (i.e., an amendment is promptly submitted when any of the events identified in 45 CFR section 95.509 occur).
- (2) Verify that public assistance CAP includes the required documentation in accordance with 45 CFR section 95.507.
- (3) *Testing of the Public Assistance CAP* – Test the methods of allocating the costs to ascertain if they are in accordance with the applicable provisions of the cost principles and produce an equitable distribution of costs. Appropriate detailed tests may include:
 - (a) Examining the results of the employee compensation system or in addition the records for employee compensation to ascertain if they are accurate, allowable, and properly allocated to the various functional and programmatic activities to which salary and wage costs are charged.
 - (b) Since the most significant cost pools in terms of dollars are usually allocated based upon the distribution of income maintenance and social services workers' efforts identified through random moment time studies, determining whether the time studies are implemented and operated in accordance with the methodologies described in the approved public assistance CAP. For example, verifying the adequacy of the controls governing the conduct and evaluation of the study, and determining that the sampled observations were properly selected and performed, the documentation of the observations was properly completed, and the results of the study were correctly accumulated and applied. Testing may include observing or interviewing staff who participate in the time studies to determine if they are correctly recording their activities.
 - (c) Testing statistical data (e.g., square footage, case counts, salaries and wages) to ascertain if the proposed allocation bases are reasonable, updated as necessary, and do not contain any material omissions.

- (4) *Testing of Charges Based Upon the Public Assistance CAP* – If the approved public assistance CAP is determined to be in compliance with the cost principles and produces an equitable distribution of costs, verify that the methods of charging costs to federal awards are in accordance with the approved CAP and the provisions of the approval documents issued by HHS. Detailed compliance tests may include:
- (a) Verifying that the cost allocation schedules, supporting documentation and allocation data are accurate and that the costs are allocated in compliance with the approved CAP.
 - (b) Reconciling the allocation statistics of labor costs to employee compensation records (e.g., random moment sampling observation forms).
 - (c) Reconciling the allocation statistics of non-labor costs to allocation data, (e.g., square footage or case counts).
 - (d) Verifying direct charges to supporting documents (e.g., purchase orders).
 - (e) Reconciling the costs to the federal claims.

2 CFR PART 200

COST PRINCIPLES FOR INSTITUTIONS OF HIGHER EDUCATION

Introduction

The 2 CFR Part 200 establishes principles for determining the costs applicable to research and development, training, and other sponsored work performed by institutions of higher education (IHEs) under federal awards. These federal awards are referred to as sponsored agreements. This section is organized into the following areas of allowable costs: Direct Costs; Indirect Costs; Cost Accounting Standards (CAS) and Disclosure Statements and Special Requirements – Internal Service, Central Service, Pension, or Similar Activities or Funds.

At IHEs, indirect costs are accounted for through F&A cost proposals. F&A costs, for the purpose of 2 CFR Part 200 and as defined at 2 CFR section 200.1, are synonymous with “indirect costs” and include costs that are incurred for common or joint objectives and, therefore, cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity. As described in 2 CFR section 200.414(a), the F&A cost categories include building and equipment depreciation; operations and maintenance expenses; interest expenses; general administrative expenses; departmental administration expenses; sponsored project administration expenses; library expenses; and student administration expenses. F&A costs are referred to as “indirect costs” in this section.

Cognizant Agency for Indirect Costs

The 2 CFR section 200.1 defines “cognizant agency for indirect costs” as the federal agency responsible for reviewing, negotiating, and approving indirect (F&A) costs rates on behalf of all federal agencies. References to the “cognizant agency for indirect costs” in this section are not equivalent to the cognizant agency for audit responsibilities, which is defined in 2 CFR section 200.1. 2 CFR Part 200, Appendix III, paragraph C.11, assigns indirect cost cognizance to HHS or the Department of Defense (DoD), Office of Naval Research, normally depending on which of the two agencies (HHS or DoD) provides more funds to the educational institution for the most recent three years. Once designated as the cognizant agency for indirect costs, the federal agency remains so for a period of five years.

Allowable Costs – Direct Costs

1. Compliance Requirements – Direct Costs

- a. Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.
- b. Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect (F&A) costs.

2. Audit Objectives – Direct Costs

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the organization complied with the provisions of 2 CFR Part 200 and CAS (if applicable) as follows:
 - (1) Direct charges to federal awards were for allowable costs.
 - (2) Unallowable costs determined to be direct costs were included in the allocation base for the purpose of computing an indirect cost rate.

3. Suggested Compliance Audit Procedures – Direct Costs

Test a sample of transactions for conformance with the following criteria contained in 2 CFR Part 200 and CAS, as applicable:

- a. If the auditor identifies unallowable direct costs, the auditor should be aware that “directly associated costs” might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost and would not have been incurred if the other cost had not been incurred. For example, fringe benefits are “directly associated” with payroll costs. When an unallowable cost is incurred, directly associated costs are also unallowable.
- b. Costs were approved by the federal awarding agency, if required (see 2 CFR section 200.407 for selected items of cost that require prior written approval and Exhibit 1 in this part of the Supplement for selected items of cost that require cognizant agency for indirect cost approval or federal awarding agency approval when charged to an award as direct costs).
- c. Costs did not include (1) improper payments that should not have been made or that were made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements; (2) overpayments and underpayments that were made to eligible recipients (e.g., payment that does not account for credit for applicable discounts, duplicate payment); and (3) payments that were made to an ineligible recipient or for ineligible goods or services, or payments for goods and services not received (except for such payments where authorized by law).
- d. Costs were necessary and reasonable for the performance of the federal award and allocable under the principles of 2 CFR Part 200, Subpart E.
- e. Costs conformed to any limitations or exclusions set forth in 2 CFR Part 200, Subpart E, or in the federal award as to types or amount of cost items.
- f. Costs were consistent with policies and procedures that apply uniformly to both federally financed and other activities of the IHE.

- g. Costs were accorded consistent treatment. Cost were not assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances was allocated to the federal award as an indirect cost.
- h. Costs were not included as a cost or used to meet cost-sharing or matching requirements of any other federally financed program in either the current or a prior period.
- i. Costs were adequately documented.
- j. Departmental costs charged direct to institutional activities (i.e., research and development, instruction, other institutional activities) are consistently charged directly in like circumstances and are in accordance with the provisions of 2 CFR Part 200 and CAS. Salaries of administrative and clerical staff normally should be treated as indirect costs. Direct charging of these costs may be appropriate only when certain conditions are met (2 CFR section 200.413(c)).
- k. Costs for general-purpose equipment charged as direct costs to institutional activities (i.e., research and development, instruction, other institutional activities) are consistently charged as direct, were approved by the federal awarding agency, and are in accordance with the provisions of 2 CFR Part 200 and CAS.

Allowable Costs – Indirect Costs

Indirect (facilities and administrative(F&A)) costs are those costs that are incurred for common or joint objectives and, therefore, cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity (2 CFR section 200.1).

Indirect costs are defined into two broad categories in 2 CFR section 200.414(a).

- “Facilities” is defined as depreciation on buildings, equipment and capital improvement, interest on debt associated with certain buildings, equipment and capital improvements, operations and maintenance expenses, and library expenses.
- “Administration” is defined as general administration and general expenses such as the director's office, accounting, personnel, and all other types of expenditures not listed specifically under one of the subcategories of “Facilities” (including cross allocations from other pools, where applicable).

Note: Auditors are reminded that, for educational institutions, the F&A rate in effect at the time of an award is effective for the life of the award and, therefore, even if an award(s) has changed terms and conditions at the time of incremental funding based on 2 CFR Part 200.

1. Compliance Requirements – Indirect Costs

- a. In order to recover indirect costs, IHEs must prepare indirect cost rate proposals (ICRPs) in accordance with the guidelines provided in 2 CFR Part 200, Appendix III, and submit them to the cognizant agency for indirect costs for approval (2 CFR Part 200, Appendix III, paragraph C.11).
- b. ICRPs prepared by IHEs are based on the most current financial data supported by the institution's accounting system and audited financial statements. These ICRPs can be used to establish either predetermined rates, negotiated fixed rates with carry-forward provisions, or provisional rates (2 CFR Part 200, Appendix III, paragraphs C.4, C.5, and C.6). The ICRP to be used to establish indirect cost rates must be certified by the IHE in accordance with 2 CFR Part 200, Appendix III, paragraph F.2.
- c. As described in 2 CFR section 200.414(a), the indirect cost (F&A) categories include: depreciation on buildings, equipment and capital improvement, interest on debt associated with certain buildings, and operation and maintenance expenses. In general, the cost groupings established within a category should constitute a pool of items of expense that are considered to be of like nature in terms of their relative contribution to the particular cost objectives to which distribution is appropriate (2 CFR Part 200, Appendix III, paragraph C.1.a). Cost categories should be established considering the general guidelines in 2 CFR Part 200, Appendix III, section B.
- d. Each IHE's indirect cost rate process must be appropriately designed to determine that federal sponsors do not in any way subsidize the indirect costs of other sponsors, specifically activities sponsored by industry and foreign governments (2 CFR Part 200, Appendix III, paragraph C.1.a.(3)).
- e. Administrative costs charged to sponsored agreements awarded or amended with effective dates beginning on or after the start of the IHE's first fiscal year which begins on or after October 1, 1991, must be limited to 26 percent of modified total direct costs, as defined in 2 CFR Part 200, Appendix III, paragraph C.8.a. IHEs should not change their accounting or cost allocation methods which were in effect on May 1, 1991, if the effect is to (1) change the charging of a particular type of cost from indirect to direct or (2) reclassify or increase allocations from the administrative pools to the facilities pools or fringe benefits cost pools (but also see 2 CFR Part 200, Appendix III, paragraph C.8.b).
- f. *Submission Requirement for Standard Format for Long-Form Proposals* – IHEs must use the standard format in accordance with 2 CFR 200 Appendix III, Paragraph E to submit ICRP to the cognizant agency for indirect costs. The cognizant agency for indirect costs may, on an institution-by-institution basis, grant exceptions from all or portions of Part II of the standard format. This requirement does not apply to IHEs that use the simplified method for calculating indirect cost rates, as described in 2 CFR Part 200, Appendix III, paragraph C.12.

2. Audit Objectives – Indirect Costs

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. *If the institution has a negotiated indirect cost rate agreement*, determine that the rate(s) used to charge indirect costs is consistent with the appropriate ICRP (2 CFR Part 200, Appendix III, paragraph C.11) or agreement with a pass-through entity (2 CFR section 200.331(a)(4)).
- c. *If the institution does not have a negotiated indirect cost rate agreement*, determine whether an ICRP was prepared, certified, and submitted by the educational institution to their cognizant agency for indirect costs. (The cognizant agency for indirect costs is responsible for negotiating and approving indirect cost rates; see 2 CFR Part 200, Appendix III, paragraph C.11.) Verify that billings are based on the ICRP.
- d. *If the institution charges indirect costs to federal awards based on award-specific rate(s) required by a federal awarding agency*, determine that the award-specific rate(s) are the result of special circumstances such as required by law or regulation (2 CFR section 200.414(c)).
- e. Determine that the negotiated (or submitted) rate in effect at the time of the initial award is applied throughout the life of the sponsored agreement. “Life” means each competitive segment of a project. A competitive segment is a period of years approved by the federal awarding agency at the time of the award (2 CFR Part 200, Appendix III, paragraph C.7).
- f. Determine that the negotiated (or submitted) rate(s) was applied to the appropriate distribution base (2 CFR Part 200, Appendix III, paragraph C.2).
- g. Determine that indirect costs billed to sponsored agreements are the result of applying the negotiated (or submitted) rate(s) to the appropriate base amount(s). Note: When the maximum amount of allowable indirect costs under a limitation (i.e., an award-specific rate) is less than the total amount determined in accordance with the principles in 2 CFR Part 200, the amount not recoverable under a sponsored agreement may not be charged to other sponsored agreements (2 CFR section 200.408).

3. Suggested Compliance Audit Procedures – Indirect Costs

- a. Test a sample of transactions for conformance with the following criteria contained in 2 CFR Part 200 and CAS, as applicable.

- b. *For IHEs that charge indirect cost to federal awards based on a federally negotiated rate(s):*
- (1) Ascertain if indirect costs or centralized or administrative services costs were allocated or charged to a major program. If not, the following suggested audit procedures do not apply.
 - (2) Obtain and read the current indirect cost rate agreement and determine the terms in effect.
 - (3) Select a sample of claims for reimbursement and verify that the rates used are in accordance with the rate agreement, that rates were applied to the appropriate bases, and that the amounts claimed were the product of applying the rate to the applicable base. Verify that the costs included in the base(s) are consistent with the costs that were included in the base year (e.g., if the allocation base is total direct costs, verify that current year direct costs do not include costs items that were treated as indirect costs in the base year).
- c. *For IHEs that charge indirect costs to federal awards based on rate(s) which are not negotiated by the cognizant agency for indirect costs:*
- (1) If the ICRP has been certified and submitted to the cognizant agency for indirect costs and is based on costs incurred in the year being audited, then the ICRP should be audited for compliance with the provisions of 2 CFR Part 200.
 - (2) If the IHE has a certified ICRP, which is based on costs incurred in the year being audited, but has not submitted it to their cognizant agency for indirect costs, then the ICRP should be audited using the procedures listed below:
 - (a) Test the indirect cost pool groupings for compliance with 2 CFR section 200.414 and 2 CFR Part 200, Appendix III.
 - (b) Test the indirect cost pools to determine if costs are allowable.
 - (c) Test that indirect costs have been treated consistently when incurred for the same purpose, in like circumstances, as indirect costs only with respect to final cost objectives. No final cost objective may have allocated to it as a cost any cost, if another cost incurred for the same purpose, in like circumstances, has been included as a direct cost of that or any other final cost objective (2 CFR section 200.412).
 - (d) Test that the indirect cost pools in the rate proposal were developed consistent with the educational institution's disclosed

practices as described in its DS-2, if applicable (2 CFR section 200.419).

- (e) Test the *depreciation* cost pool to determine if:
 - (i) Computations of depreciation are based on the acquisition cost of the assets. Acquisition costs exclude (A) the cost of land; (B) any portion of the cost of buildings and equipment borne by the federal government, irrespective of where title was originally vested or where it is presently located; (C) any portion of the cost of buildings and equipment contributed by or for the educational institution where law or agreement prohibit recovery; and (D) any asset acquired solely for the performance of a non-federal award (2 CFR section 200.436(c)).
 - (ii) The depreciation method used to charge the cost of an asset (or group of assets) to accounting periods reflects the pattern of consumption of the asset during its useful life (2 CFR section 200.436(d)(2)).
 - (iii) The depreciation methods used to calculate the depreciation amounts for the ICRP are the same methods used by the educational institution for its financial statements (2 CFR section 200.436(d)(2)).
 - (iv) Charges for depreciation are supported by adequate property records and physical inventories, which must be taken at least once every two years (2 CFR section 200.436(e)).
 - (v) The allocation method for the depreciation cost pool complies with 2 CFR Part 200, Appendix III, paragraph B.2.
 - (vi) Gains and losses on the sale, retirement, or other disposition of depreciable property have been appropriately accounted for and complies with 2 CFR section 200.443.
- (f) Test the *interest* cost pool to determine if:
 - (i) Computations for interest comply with the provisions of 2 CFR section 200.449.
 - (ii) The allocation method for the interest cost pool complies with 2 CFR Part 200, Appendix III, paragraph B.3.

- (g) Test the *operations and maintenance* cost pool to determine if:
 - (i) Costs are appropriately classified in this cost pool (2 CFR Part 200, Appendix III, paragraph B.4).
 - (ii) Rental costs comply with the provisions of 2 CFR section 200.465.
 - (iii) The IHE's accounting practices for classifying
 - (A) rearrangement and alteration costs, and
 - (B) reconversion costs, either as direct or indirect, result in consistent treatment in like circumstances.
 - (iv) The allocation method for the operations and maintenance cost pool complies with 2 CFR Part 200, Appendix III, paragraph B.4.
 - (v) If a utility cost adjustment has been included in the negotiated indirect cost rate, the adjustment complies with the provisions of 2 CFR Part 200, Appendix III, paragraph B.4.c.

- (h) Test the *library* cost pool to determine if:
 - (i) Costs are appropriately classified in this cost pool (2 CFR Part 200, Appendix III, paragraph B.8).
 - (ii) The allocation method for the library cost pool complies with 2 CFR Part 200, Appendix III, paragraph B.8.
 - (iii) If the allocation method is based on a cost analysis study in accordance with 2 CFR Part 200, Appendix III, paragraph A.2.d, determine that the study:
 - (A) Results in an equitable distribution of costs and represents the relative benefits derived;
 - (B) Is appropriately documented in sufficient detail for review by the cognizant agency for indirect costs;
 - (C) Is statistically sound;
 - (D) Is performed specifically at the educational institution;
 - (E) Is reviewed periodically, but not less frequently than rate negotiations, updated if necessary, and used; and

- (F) Assumptions are clearly stated and adequately explained.
- (i) Test the *administrative* cost pools to determine if:
- (i) Costs are appropriately classified in these cost pools and the distribution bases are compliant with 2 CFR Part 200, Appendix III, paragraphs B.5, B.6, and B.7.
 - (ii) The administrative cost components comply with the limitation on reimbursement of administrative costs in 2 CFR Part 200, Appendix III, paragraph C.8. If the proposal is based on the alternative method for administrative costs in 2 CFR Part 200, Appendix III, paragraph C.9, then the limitation does not apply. If the proposal is based on the alternative method for administrative costs, determine that the educational institution meets the criteria of paragraph C.9 and that this is adequately documented in the proposal.
 - (iii) *Departmental administration expense pool* – Test to determine that this cost pool complies with 2 CFR Part 200, Appendix III, paragraph B.6.
 - (iv) *Academic Deans' Offices* – Test that salaries and operating expenses are limited to those attributable to administrative functions.
 - (v) *Academic Departments* – Salaries and fringe benefits attributable to the administrative work (including bid and proposal preparation) of faculty (including department heads), and other professional personnel conducting research and/or instruction, are allowed at a rate of 3.6 percent of modified total direct costs. This category must not include professional business or administrative officers. Determine that this allowance is added to the computation of the indirect cost rate for major functions. Test to determine that the expenses covered by this allowance are excluded from the departmental cost pool (2 CFR Part 200, Appendix III, paragraph B.6).

Test for consistent treatment, in like circumstances, of other administrative and supporting expenses incurred within academic departments. For example, items such as office supplies, postage, local telephone, and memberships normally are treated as indirect costs.

- (3) If the ICRP has been certified and submitted to the cognizant agency for indirect costs but is based on costs incurred in a fiscal year prior to the fiscal year being audited, a review of the ICRP is not required.
 - (4) If an ICRP has not been prepared and, therefore, the indirect costs charged to federal awards are not based on a certified ICRP, this may be required to be reported as an audit finding, in accordance with 2 CFR section 200.516(a)(5).
 - (5) *Application of an indirect cost rate(s) not negotiated by the cognizant agency for indirect costs* – Even though the rate(s) has not been approved by the cognizant agency for indirect costs, an unapproved indirect cost rate(s) should be reviewed for consistent application of the submitted rates to direct cost bases to ensure that the indirect cost rate(s) is applied consistent with the educational institution’s policies and procedures that apply uniformly to both federally funded and other activities of the institution.
- d. *For IHEs that also have awards containing award-specific rates used by the federal awarding agency that take precedence over the negotiated rate for purposes of indirect cost recovery:*
- (1) Ascertain that the award-specific rate is in accordance with special circumstances required by law, regulation, or other circumstance specified in 2 CFR section 200.414(c)(1).
 - (2) Obtain and review the award terms used to establish an award-specific indirect cost rate(s).
 - (3) Select a sample of claims for reimbursement and verify that the award-specific rate(s) used are in accordance with the terms of the award, that rate(s) were applied to the appropriate bases, and that the amounts claimed were the product of applying the rate to the applicable base. Verify that the costs included in the base(s) are consistent with the terms of the agreement.

Allowable Costs – Special Requirements – Cost Accounting Standards and Disclosure Statements

FAR Appendix, 48 CFR section 9903.201-2(c), Types of CAS Coverage, requires IHEs to comply with all of the CAS specified in 48 CFR Part 9905 that are in effect on the effective date of a covered contract. Negotiated contracts in excess of \$750,000 are CAS-covered, except for CAS-covered contracts awarded to Federally Funded Research and Development Centers (FFRDCs) operated by IHEs, which are subject to 48 CFR Part 9904.

1. Compliance Requirements – CAS and Disclosure Statements

- a. The 2 CFR section 200.419 requires IHEs that receive more than \$50 million in federal awards subject to 2 CFR Part 200 in a fiscal year to prepare and submit a Disclosure Statement (DS-2) that describes the institution's cost accounting practices. These institutions are required to submit a DS-2 within six months after the end of the institution's fiscal year that begins after May 8, 1996, unless the institution is required to submit a DS-2 earlier due to a receipt of a CAS-covered contract in accordance with 48 CFR section 9903.202-1.
- b. These institutions are responsible for maintaining an accurate DS-2 and complying with disclosed cost accounting practices. They also are responsible for filing amendments to the DS-2 with the cognizant agency for indirect costs 6 months in advance of a disclosed practice being changed to comply with a new or modified standard, or when a practice is changed for other reasons. (See COFAR FAQ Q-17 for an exception.) An IHE may proceed with implementing the change only if it has not been notified by the cognizant agency for indirect costs within the six-month period that either a longer period will be needed for review or there are concerns with the potential change.

2. Audit Objectives – CAS and Disclosure Statements

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the IHE's DS-2 is current, accurate, and complete and that it has been approved by the cognizant agency for indirect costs as adequate and compliant with 2 CFR Part 200 and CAS (48 CFR Part 9905).
- c. Determine whether the IHE's actual accounting practices are consistent with its disclosed accounting practices.
- d. Determine whether amendments have been filed with the cognizant agency for indirect costs. Amendments must be approved by the cognizant agency for indirect costs if the IHE has CAS-covered contracts subject to 48 CFR Part 9903.
- e. Determine whether the IHE's accounting practices for direct and indirect costs comply with CAS applicable to educational institutions (2 CFR section 200.419; 48 CFR Part 9905).

3. Suggested Compliance Audit Procedures – CAS and Disclosure Statements

- a. Obtain a copy of the IHE's DS-2, amendments, notifications, and, as applicable, approvals from the cognizant agency for indirect costs.
- b. Read the DS-2 and its amendments and ascertain if the disclosure agrees with the policies prescribed in the IHE's current policies and procedures documents.

- c. Test that the disclosed practices agree with actual practices for the period covered by the audit, including whether the practices were consistent throughout the period.
- d. Test direct and indirect charges to federal awards to determine that the IHE's practices used in estimating the costs in the proposal were consistent with the IHE's cost accounting practices used in accumulating and reporting the costs (FAR appendix, 48 CFR section 9905.501).
- e. For those costs which are sometimes charged as direct and sometimes charged as indirect, test for consistent classification of these costs when incurred for the same purpose and under like circumstances (2 CFR section 200.403(d) and FAR appendix, 48 CFR section 9905.502). For example:
 - (1) Salaries of administrative and clerical staff are normally treated as indirect costs; however, direct charging may be appropriate if all of the conditions in 2 CFR section 200.413(c) are met. When charged as direct costs to federal awards, test a sample of these costs to determine whether they are treated consistently with charges to non-federal awards, instructional activity, or other institutional activity (2 CFR Part 200, Appendix III, paragraph B.6).
 - (2) Office supplies, postage, local telephone costs and memberships are normally treated as indirect costs. Sample these costs when they have been charged as direct costs to federal awards to determine whether they are consistently treated for non-federal awards, instructional activity, or other institutional activity (2 CFR Part 200, Appendix III, paragraph B.6).
- f. Test for adequate accounting in the IHE's accounting system of unallowable costs for costs charged directly to federal awards, as well as indirect costs accumulated in cost pools (2 CFR section 200.403(g) and FAR Appendix, 48 CFR section 9905.505).
- g. Determine that the IHE's cost accounting period for accumulating direct and indirect costs charged to federal awards is consistent with the institution's fiscal year. If not, determine whether the institution met the criteria for an exception described in 2 CFR Part 200, Appendix III, paragraph A.2.d. See also FAR Appendix, 48 CFR section 9905.506.

Allowable Costs – Special Requirements – Internal Service, Central Service, Pension, or Similar Activities or Funds

1. Compliance Requirements

Charges made from internal service, central service, pension, or similar activities or funds must follow the cost principles provided in 2 CFR Part 200, Subpart E.

2. Audit Objectives

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether charges made from internal service, central service, pension, or similar activities or funds are in accordance with 2 CFR Part 200, Subpart E.

3. Suggested Compliance Audit Procedures

- a. For activities accounted for in separate funds, ascertain if (1) retained earnings/fund balances (including reserves) were computed in accordance with 2 CFR Part 200; (2) working capital reserves were not excessive in amount (generally not greater than 60 days for cash expenses for normal operations incurred for the period exclusive of depreciation, capital costs and debt principal costs); and (3) refunds were made to the federal government for its share of any amounts transferred or borrowed from internal service, central service, pension, insurance, or other similar activities or funds for purposes other than to meet the operating liabilities, including interest on debt, of the fund.
- b. Test that all users of services are billed in a consistent manner.
- c. Test that billing rates exclude unallowable costs, in accordance with 2 CFR Part 200.
- d. Test, where activities are not accounted for in separate funds, that billing rates (or charges) are developed based on actual costs and were adjusted to eliminate profits.
- e. For IHEs that have self-insurance and certain types of fringe benefit programs (e.g., pension funds), ascertain if independent actuarial studies appropriate for such activities are performed at least biennially and that current period costs were allocated based on an appropriate study which is not over two years old.

2 CFR PART 200

COST PRINCIPLES FOR NONPROFIT ORGANIZATIONS

Introduction

The 2 CFR Part 200 establishes cost principles for determining costs applicable to federal awards with nonprofit organizations (NPOs). The principles are designed to ensure that the federal government bear its fair share of costs except where restricted or prohibited by law. These principles are used by all federal agencies in determining the allowable costs of work performed by NPOs under federal awards. Some NPOs must operate under federal cost principles applicable to for-profit entities located at 48 CFR section 31.2. A listing of these organizations is contained in Appendix VIII to 2 CFR Part 200.

In addition to the cost principles established by 2 CFR Part 200, Subpart E, the Cost Accounting Standards Board (CASB) has promulgated certain cost accounting standards (CAS) that must be followed by nonprofit organizations receiving procurement contracts that meet a defined dollar threshold. Generally, organizations are exempt from coverage under CAS unless they receive a single CAS-covered contract or subcontract of at least \$7.5 million. After receipt of this trigger contract, CAS coverage is applied to all negotiated awards that exceed the Truth in Negotiations Act threshold, currently \$700,000, unless they meet certain exemptions. These exemptions and the requirements of CAS can be found in 48 CFR chapter 99.

Cognizant Agency for Indirect Costs

The 2 CFR section 200.1 defines “cognizant agency for indirect costs” as the federal agency responsible for reviewing, negotiating, and approving cost allocation plans or indirect cost proposals on behalf of all federal agencies. References to the “cognizant agency for indirect costs” in this section are not equivalent to the cognizant agency for audit, which is defined in 2 CFR section 200.1. The 2 CFR Part 200, Appendix IV, paragraph C.2 clarifies that the cognizant agency for indirect costs is generally the federal agency with the largest direct dollar value of federal awards with an organization, unless different arrangements are agreed to by federal agencies.

Allowable Costs – General Criteria – Direct Costs

1. Compliance Requirements – Direct Costs

Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect (F&A) costs.

For nonprofit organizations, the cost of activities performed primarily as a service to members, clients, or the general public when significant and necessary to the organization's mission must be treated as direct costs—whether or not allowable—and be allocated an equitable share of indirect costs. Examples can be found in 2 CFR section 200.413(f).

If the auditor identifies unallowable direct costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost that would not have been incurred if the other cost had not been incurred. For example, fringe benefits are directly associated with payroll costs. When a payroll cost is determined to be unallowable, then the directly associated fringe benefit would be determined unallowable as well.

2. Audit Objectives – Direct Costs

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether the organization complied with the provisions of 2 CFR Part 200 and CAS (if applicable) as follows:
 - (1) Direct charges to federal awards were for allowable costs.
 - (2) Unallowable costs determined to be direct costs were included in the allocation base for the purpose of computing an indirect cost rate.

3. Suggested Compliance Audit Procedures – Direct Costs

Test direct costs charged to federal awards with the following criteria:

- a. Costs were approved by the federal awarding agency, if required. (See 2 CFR section 200.407 for items of cost that require prior written approval and Exhibit 1, Selected Items of Cost, in this part of the Supplement.)
- b. Costs were necessary and reasonable for the performance of the federal award and allocable under the principles of 2 CFR 200, Subpart E.
- c. Costs conformed to any limitations or exclusions set forth in 2 CFR 200, Subpart E, or in the federal award as to types or amount of cost items.
- d. Costs were consistent with policies and procedures that apply uniformly to both federally financed and other activities of the NPO.
- e. Costs were accorded consistent treatment. Cost were not assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances was allocated to a federal award as an indirect cost.

- f. Costs were not included as a cost of any other federally financed program in either the current or a prior period.
- g. Costs were not used to meet the cost-sharing or matching requirements of another federal program, except where authorized by federal statute.
- h. Costs were adequately documented.

Allowable Costs – Indirect Costs

1. Compliance Requirements – Indirect Costs

- a. Indirect costs are those that have been incurred for common or joint objectives and cannot be readily identified with a particular final cost objective. Direct costs of minor amounts may be treated as indirect costs under the conditions described in 2 CFR section 200.413(d). After direct costs have been determined and assigned directly to awards or other work, as appropriate, indirect costs are those remaining to be allocated to benefitting cost objectives. A cost may not be allocated to a federal award as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been assigned to a federal award as a direct cost. If an organization receives more than \$10 million in direct federal funding in a fiscal year, a breakout of the indirect cost component into two broad categories, Facilities and Administration, as defined in 2 CFR section 200.414(a), is required.
- b. Indirect cost rate proposals (ICRPs) are used to either establish predetermined rates, fixed rates with carry-forward provision, provisional, or final rates (2 CFR Part 200, Appendix IV, paragraph C.1).
 - (1) *Predetermined rate* means an indirect cost rate, applicable to a specified current or future period, usually the organization's fiscal year. The rate is based on an estimate of the costs to be incurred during the period. A predetermined rate is not subject to adjustment.
 - (2) *Fixed rate* means an indirect cost rate which has the same characteristics as a predetermined rate, except that the difference between the estimated costs and the actual costs of the period covered by the rate is carried forward as an adjustment to the rate computation of a subsequent period.
 - (3) *Provisional rate or billing rate* means a temporary indirect cost rate applicable to a specified period which is used for funding, interim reimbursement, and reporting indirect costs on federal awards pending the establishment of a final rate for the period.
 - (4) *Final rate* means an indirect cost rate applicable to a specified past period which is based on the actual costs of the period. A final rate is not subject to adjustment.

- c. Some federal awards may contain cost limitations on recovery of indirect costs that differ from the federally negotiated indirect cost rates. In these cases, the indirect cost rate will be specified in the award, as described in 2 CFR sections 200.210(a)(15) and 200.331(a)(1)(xiii).
- d. To recover indirect costs, NPOs prepare ICRPs for the cognizant agency for indirect costs. NPOs that have not previously established indirect costs rates and are not using the de minimis indirect cost rate must submit an ICRP immediately upon notification that a federal award has been made and, in no event, later than three months after the effective date of the award. NPOs that have previously established indirect cost rates must submit a new ICRP within six months after the close of each fiscal year. The ICRP is the documentation prepared by an organization to substantiate its claims for the reimbursement of indirect costs. The proposal provides the basis for the review and negotiation leading to the establishment of an organization's indirect cost rate. NPOs can select one of three different methods to allocate indirect costs and compute the indirect cost rate.
- (1) *Simplified Allocation Method* – Where an organization's major functions benefit from its indirect costs to approximately the same degree, the allocation of indirect costs may be accomplished by (a) separating the organization's total costs for the base period as either direct or indirect, and (b) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. A full discussion of the simplified allocation method can be found in 2 CFR Part 200, Appendix IV, paragraph B.2.
 - (2) *Multiple Allocation Base Method* – Where an organization's indirect costs benefit its major functions in varying degrees, indirect costs must be accumulated into separate cost groupings, as described in 2 CFR Part 200, Appendix IV, paragraph B.3.b. Each grouping must then be allocated individually to benefiting functions by means of a base that best measures the relative benefits. The allocation bases for each grouping are described in 2 CFR Part 200, Appendix IV, paragraph B.3.c. A full discussion of the multiple allocation base method can be found in 2 CFR Part 200, Appendix IV, paragraph B.3.
 - (3) *Direct Allocation Method* – Some NPOs treat all costs as direct costs except general administration and general expenses. These organizations generally separate their costs into three basic categories: (a) general administration and general expenses, (b) fundraising, and (c) other direct functions (including projects performed under federal awards). Joint costs, such as depreciation, rental costs, operation and maintenance of facilities, telephone expenses, and the like are prorated individually as direct costs to each category and to each award or other activity using a base most appropriate to the particular cost being prorated. A full discussion of the direct allocation base method can be found in 2 CFR Part 200, Appendix IV, paragraph B.4.

2. Audit Objectives – Indirect Costs

- a. Obtain an understanding of internal controls, assess risk, and test internal controls as required by 2 CFR section 200.514(c).
- b. Determine whether the NPO charged indirect costs to federal awards in compliance with the cost principles in 2 CFR Part 200, Subpart E, Appendix IV, and CAS (if applicable), and in accordance with any negotiated rate agreements and specific award conditions/limitations.

3. Suggested Compliance Audit Procedures – Indirect Costs

- a. Test whether indirect costs comply with the following criteria:
 - (1) Conform to the allowability of cost provisions in 2 CFR Part 200, Subpart E.
 - (2) Are supported by appropriate documentation, such as purchase orders, receiving reports, contractor invoices, canceled checks, and time and attendance records that meet the documentation standards of 2 CFR section 200.430(i), and are correctly charged as to account, amount, and period.
 - (3) Are calculated in conformity with generally accepted accounting principles or CAS, as required.
 - (4) Are not used to meet cost-sharing or matching requirements of other federally supported activities.
 - (5) Be given consistent accounting treatment within and between accounting periods. Consistency in accounting requires that costs incurred for the same purpose, in like circumstances, be treated as either direct costs only or indirect costs only with respect to final cost objectives.
- b. *For NPOs that charge indirect costs to federal awards based on federally negotiated rates*, obtain the current indirect cost rate agreement, including the proposal used in the negotiation of the agreement, and determine the type of rates (i.e., pre-determined, fixed rate, provisional rate, or final rate as described in 2 CFR Part 200, Appendix IV, section C) and terms in effect for the year being audited.
 - (1) If a fixed rate agreement with carry-forward provisions has been negotiated with the cognizant agency for indirect cost, determine that the difference between the estimated indirect costs and the actual indirect costs of the period was correctly calculated and carried forward to the rate computation in the current year.

- (2) If a provisional rate was used to bill for indirect costs, determine whether a final rate has been negotiated and appropriate billing adjustments have been made based on the final negotiated rate.
- c. *For NPOs that charge indirect costs to federal awards based on rates that are not federally negotiated, review the ICRP or methodology used to allocate indirect costs for the year being audited to ensure it meets the requirements of 2 CFR Part 200, Subpart E, and CAS, when applicable, to verify the following.*
- (1) Indirect costs are charged uniformly to both federally funded and other activities of the NPO and are consistent with the NPO's policies and procedures.
 - (2) Costs in the indirect costs pool are allowable and the composition of the pool allows allocation over a base that is best suited for assigning the pool of indirect costs to cost objectives in accordance with the benefits received.
 - (3) The allocation base provides for an equitable allocation of indirect costs and include unallowable costs, as appropriate, so that unallowable costs will receive their proportionate share of indirect costs.
 - (4) Costs have been given consistent accounting treatment within and between accounting periods.
 - (5) The cost of activities performed primarily as a service to members, clients, or the general public when significant and necessary to the NPO's mission are treated as direct costs—whether or not allowable—and are allocated an equitable share of indirect costs. See examples in 2 CFR section 200.413(f).
- d. Select a sample of claims for indirect cost reimbursement:
- Verify that the rates used were in accordance with the terms and conditions of the award and the amounts claimed were applied to the appropriate base.

Special Requirements – Disclosure Statements (DS-1) Required by Cost Accounting Standards

1. Compliance Requirements – CAS and Disclosure Statements

- a. Pub. L. No. 100-679 (41 USC 422) requires certain contractors and subcontractors (which includes NPOs) to comply with CAS and to disclose in writing and follow consistently their cost accounting practices.
- b. The 48 CFR section 9903.201-1 (FAR appendix) describes the rules for determining whether a proposed contract or subcontract is exempt from CAS. Negotiated contracts not exempt in accordance with 48 CFR section 9903.201-

1(b) are subject to CAS. A CAS-covered contract may be subject to either full or modified coverage. The rules for determining whether full or modified coverage applies are in 48 CFR section 9903.201-2 (FAR appendix).

- (1) Full coverage requires that a business unit comply with all the CAS specified in 48 CFR Part 9904 that are in effect on the date of the contract award and with any CAS that become applicable because of later award of a CAS-covered contract. Full coverage applies to contractor business units that (a) receive a single CAS-covered contract award of \$50 million or more; or (b) receive \$50 million or more in net CAS-covered awards during their preceding cost accounting period (48 CFR section 9903.201-2(a)).
 - (2) Modified CAS coverage requires only that the contractor comply with Standard 9904.401, Consistency in Estimating, Accumulating, and Reporting Costs; Standard 9904.402, Consistency in Allocating Costs Incurred for the Same Purpose; Standard 9904.405, Accounting for Unallowable Costs; and Standard 9904.406, Cost Accounting Standard—Cost Accounting Period. Modified, rather than full, CAS coverage may be applied to a covered contract of less than \$50 million awarded to a business unit that received less than \$50 million in net CAS-covered awards in the immediately preceding cost accounting period.
- c. The 48 CFR section 9903.202 (FAR Appendix) describes the general Disclosure Statement requirements. A Disclosure Statement is a written description of a contractor's cost accounting practices and procedures and are required under the following circumstances:
- (1) Any business unit that is selected to receive a CAS-covered contract or subcontract of \$50 million or more must submit a Disclosure Statement before award.
 - (2) Any company which, together with its segments, receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in its most recent cost accounting period, must submit a Disclosure Statement before award of its first CAS-covered contract in the immediately following cost accounting period.

2. Audit Objectives – CAS and Disclosure Statements

- a. Determine whether the NPO's Disclosure Statement (including amendments) is current, accurate, complete, and properly filed with the cognizant federal Administrative Contracting Officer in accordance with 48 CFR section 9903.202-5.
- b. Determine whether the NPO's actual accounting practices are consistent with its disclosed practices.

- c. Determine whether the NPO's accounting practices, for direct and indirect costs, are compliant with CAS, based on its required CAS coverage (full or modified).

3. Suggested Compliance Audit Procedures – CAS and Disclosure Statements

- a. Ascertain whether the NPO has any CAS-covered contract or subcontracts. If so, determine which type of CAS coverage is applicable (full or modified) and if a Disclosure Statement is required to be submitted to the cognizant agency for indirect cost.
- b. If a Disclosure Statement is required, obtain a copy and any amendments:
 - (1) Determine if the cognizant agency for indirect costs has approved the Disclosure Statement and/or has been appropriately notified of changes in the cost accounting practices that occurred during the year to which indirect cost rate agreements are being applied.
 - (2) Test whether the NPO's actual accounting practices are consistent with the disclosed practices.
 - (3) Test the NPO's actual accounting practices for direct and indirect costs are compliant with applicable CAS.

Allowable Costs – Special Requirements – Internal Service, Central Service, Pension, or Similar Activities or Funds

1. Compliance Requirements

NPOs using internal service, central service, pension, or similar activities or funds must follow the applicable cost principles found in 2 CFR Part 200.

2. Audit Objectives

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
- b. Determine whether charges made from internal service, central service, pension, or similar activities or funds are in accordance with 2 CFR Part 200.

3. Suggested Compliance Audit Procedures

- a. For activities accounted for in separate funds, ascertain if (1) retained earnings/fund balances (including reserves) were computed in accordance with 2 CFR Part 200; (2) working capital reserves were not excessive in amount (generally not greater than 60 days for cash expenses for normal operations incurred for the period exclusive of depreciation, capital costs and debt principal costs); and (3) refunds were made to the federal government for its share of any amounts transferred or borrowed from internal service, central service, pension,

insurance, or other similar activities or funds for purposes other than to meet the operating liabilities, including interest on debt, of the fund.

- b. Test that all users of services are billed in a consistent manner.
- c. Test that billing rates exclude unallowable costs, in accordance with 2 CFR Part 200.
- d. Test, where activities are not accounted for in separate funds, that billing rates (or charges) are developed based on actual costs and were adjusted to eliminate profits.
- e. For NPOs that have self-insurance and certain types of fringe benefit programs (e.g., pension funds), ascertain if independent actuarial studies appropriate for such activities are performed at least biennially and that current period costs were allocated based on an appropriate study which is not over two years old.

C. CASH MANAGEMENT

Compliance Requirements

Grants and Cooperative Agreements

All Non-Federal Entities

Non-federal entities must establish written procedures to implement the requirements of 2 CFR section 200.305 (2 CFR section 200.302(b)(6)).

States

US Department of the Treasury (Treasury) regulations at 31 CFR Part 205 implement the Cash Management Improvement Act of 1990 (CMIA), as amended (Pub. L. No. 101-453; 31 USC 6501 et seq.). Subpart A of those regulations requires state recipients to enter into Treasury-State Agreements that prescribe specific methods of drawing down federal funds (funding techniques) for federal programs listed in the Assistance Listing (Catalog of federal Domestic Assistance) that meet the funding threshold for a major federal assistance program under the CMIA. Treasury-State Agreements also specify the terms and conditions under which an interest liability would be incurred. Programs not covered by a Treasury-State Agreement are subject to procedures prescribed by Treasury in Subpart B of 31 CFR Part 205 (Subpart B), which at 31 CFR section 205.33(a) include the requirement for a state to minimize the time between the drawdown of federal funds and their disbursement for federal program purposes.

Non-Federal Entities Other Than States

Non-federal entities must minimize the time elapsing between the transfer of funds from the US Treasury or pass-through entity and disbursement by the non-federal entity for direct program or project costs and the proportionate share of allowable indirect costs, whether the payment is made by electronic funds transfer, or issuance or redemption of checks, warrants, or payment by other means (2 CFR section 200.305(b)).

What constitutes minimized elapsed time for funds transfer will depend on what payment system/method a non-federal entity uses. For example:

- The US Department of Health and Human Service (HHS) processes its financial transactions with non-federal entities through HHS's Program Support Center (PCS), which uses the Payment Management System (PMS). Usually, payments from PMS process overnight and the funds would be available in a non-federal entity's account the next business day. HHS also processes payments through same day wires (mostly state governments).
- Federal agencies, such as the US Department of Commerce, and US Department of the Interior, use the US Treasury's Automated Standard Application for Payments (ASAP) system for grant and cooperative agreement payments. Non-federal entities can use the ASAP on-line process to request and receive same-day payment.

Under the advance payment method, federal awarding agency or pass-through entity payment is made to the non-federal entity before the non-federal entity disburses the funds for program purposes (2 CFR section 200.1). A non-federal entity must be paid in advance provided that it maintains, or demonstrates the willingness to maintain, both written procedures that minimize the time elapsing between the transfer of funds from the US Treasury and disbursement by the non-federal entity, as well as a financial management system that meets the specified standards for fund control and accountability (2 CFR section 200.305(b)(1)).

The reimbursement payment method is the preferred payment method if (a) the non-federal entity cannot meet the requirements in 2 CFR section 200.305(b)(1) for advance payment, (b) the federal awarding agency sets a specific condition for use of the reimbursement or (c) if requested by the non-federal entity (2 CFR sections 200.305(b)(3) and 200.207). The reimbursement payment method also may be used on a federal award for construction or for other construction activity as specified in 2 CFR section 200.305(b)(3).

To the extent available, the non-federal entity must disburse funds available from program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds before requesting additional federal cash draws (2 CFR section 200.305(b)(5)).

Except for interest exempt under the Indian Self-Determination and Education Assistance Act (23 USC 450), interest earned by non-federal entities other than states on advances of federal funds is required to be remitted annually to the US Department of Health and Human Services, Payment Management System, P.O. Box 6021, Rockville, MD 20852. Up to \$500 per year may be kept for administrative expenses (2 CFR section 200.305(b)(9)).

Cost-Reimbursement Contracts under the Federal Acquisition Regulation

For cost-reimbursement contracts under the FAR, reimbursement payment is the predominant method of funding. Advance payments under FAR-based contracts are rare. The FAR clause at 48 CFR section 52.216-7 applies to reimbursement payment. Paragraph (b)(1) of that clause requires that the non-federal entity request reimbursement for (a) only allocable, allowable, and reasonable contract costs that have already been paid, or (b) if the non-federal entity is not delinquent in paying costs of contract performance in the ordinary course of business, costs incurred, but not necessarily paid. As defined in 48 CFR section 52.216-7(b)(1), with relation to supplies and services purchased for use on the contract, “ordinary course of business” would be in accordance with the terms and conditions of a subcontract or invoice, and ordinarily within 30 days of the request to the federal government for reimbursement.

For cost-reimbursement contracts using advance payment, the requirements are contained in the FAR clause at 48 CFR section 52.232-12. The non-federal entity is required to account for interest earned on advances from the federal government in accordance with paragraph (f) of that clause.

Loans, Loan Guarantees, Interest Subsidies, and Insurance

Non-federal entities must comply with applicable program requirements for payment under loans, loan guarantees, interest subsidies, and insurance.

Pass-through Entities

Pass-through entities must monitor cash drawdowns by their subrecipients to ensure that the time elapsing between the transfer of federal funds to the subrecipient and their disbursement for program purposes is minimized as required by the applicable cash management requirements in the federal award to the recipient (2 CFR section 200.305(b)(1)).

Source of Governing Requirements

The requirements for cash management are contained in 2 CFR sections 200.302(b)(6) and 200.305, 31 CFR Part 205, 48 CFR sections 52.216-7(b) and 52.232-12, program legislation, federal awarding agency regulations, and the terms and conditions of the federal award.

Availability of Other Information

Treasury's Fiscal Service maintains a Cash Management Improvement Act web page [Cash Management Improvement Act \(treasury.gov\)](#). Information about the Department of Health and Human Services Payment Management System and the Department of the Treasury' Automated Standard Application for Payments is available at [Payment Management | HHS.gov](#) and [Automated Standard Application for Payments \(ASAP\) \(treasury.gov\)](#), respectively.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. For grants and cooperative agreements to states, determine whether states have complied with the terms and conditions of the Treasury-State Agreement or Subpart B procedures.
3. For grants and cooperative agreements to non-federal entities other than states, determine whether payment methods minimized the time elapsing between transfer of federal funds from the US Treasury or the pass-through entity and the disbursement by the non-federal entity and any interest earned on advances was properly remitted.
4. For grants and cooperative agreements to non-federal entities that are paid on a reimbursement basis, supporting documentation shows that the costs for which reimbursement was requested were paid prior to the date of the reimbursement request.
5. Determine whether non-federal entities that receive reimbursement payments under cost-reimbursement contracts under the FAR and cost-reimbursement subcontracts under these contracts requested payments in compliance with 48 CFR section 52.216-7(b).

6. Determine whether non-federal entities complied with applicable program requirements for loans, loan guarantees, interest subsidies, and insurance.
7. Determine whether pass-through entities implemented procedures to ensure that payments to subrecipients minimized the time elapsing between transfer of federal funds from the pass-through entity to the subrecipient and the disbursement of such funds for program purposes by the subrecipient, as required by applicable cash management requirements in the federal award to the recipient.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for cash management and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c) (4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

Note: The following procedures are intended to be applied to each program determined to be major. However, due to the nature of cash management and the system of cash management in place in a particular entity, it may be appropriate and more efficient to perform these procedures for all programs collectively rather than separately for each program.

Grants and cooperative agreements to states

1. For programs tested as major, verify which of those programs are covered by the Treasury-State Agreement in accordance with the materiality thresholds in 31 CFR section 205.5, Table A.
2. For those programs identified in procedure 1, determine the funding techniques used for those programs. For those funding techniques that require clearance patterns to schedule the transfer of federal funds to the state, review documentation supporting the clearance pattern and verify that the clearance pattern conforms to the requirements for developing and maintaining clearance patterns as specified in the Treasury-State Agreement (31 CFR sections 205.12, 205.20, and 205.22).

3. Select a sample of federal cash draws and verify that the timing of the federal cash draws was in compliance with the applicable funding techniques specified in the Treasury-State Agreement or Subpart B procedures, whichever is applicable (31 CFR sections 205.11 and 205.33).
4. Review the calculation of the interest obligation owed to or by the federal government, reported on the annual report submitted by the state to ascertain that the calculation was in accordance with Treasury regulations and the terms of the Treasury-State Agreement. Trace amounts used in the calculation to supporting documentation.

Grants and cooperative agreements to non-federal entities other than states

5. Review trial balances related to federal funds for unearned revenue. If unearned revenue balances are identified, consider if such balances are consistent with the requirement to minimize the time between drawing and disbursing federal funds.
6. When non-federal entities are funded using advance payments, select a sample of cash drawdowns and verify that the non-federal entity minimized the time elapsing between the transfer of funds from the US Treasury or pass-through entity and disbursement by the non-federal entity.
7. When non-federal entities are funded under the reimbursement method, (a) select a sample of expenditures included in the cash drawdowns made during the period from the US Treasury or pass-through entity and (b) trace to supporting documentation and ascertain if the expenditures were incurred prior to the date of the reimbursement request (2 CFR section 200.305(b)(3)).
8. When a program receives program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, or interest earned on such funds, perform tests to ascertain if these funds were disbursed before requesting additional federal cash draws (2 CFR section 200.305(b)(5)).
9. Review records to determine if interest in excess of \$500 per year was earned on federal cash draws. If so, determine if it was remitted annually to the Department of Health and Human Services, Payment Management System (2 CFR section 200.305(9)).

Cost-reimbursement contracts under the Federal Acquisition Regulation

10. Perform tests to ascertain if the non-federal entity requesting reimbursement (a) disbursed funds prior to the date of the request, or (b) meets the conditions allowing for the request for costs incurred, but not necessarily paid for (i.e., ordinarily within 30 days of the request (48 CFR section 52.216-7(b))).

Loans, Loan Guarantees, Interest Subsidies, and Insurance

11. Perform tests to ascertain if the non-federal entity complied with applicable program requirements.

All Pass-Through Entities

12. For those programs where a pass-through entity passes federal funds through to subrecipients, select a representative sample of subrecipient payments and ascertain if the pass-through entity implemented procedures to ensure that the time elapsing between the transfer of federal funds to the subrecipient and the disbursement of such funds for program purposes by the subrecipient was minimized (2 CFR section 200.305(b)(1)).

D. [RESERVED]

Note: Wage Rate Determination (Davis-Bacon) Act coverage has been moved to 20.001.

E. ELIGIBILITY

Compliance Requirements

The specific requirements for eligibility are unique to each federal program and are found in the statutes, regulations, and the terms and conditions of the federal award pertaining to the program. For programs listed in the Supplement, these specific requirements are in Part 4, “Agency Program Requirements,” or Part 5, “Clusters of Programs,” as applicable. This compliance requirement specifies the criteria for determining the individuals, groups of individuals (including area of service delivery), or subrecipients that can participate in the program and the amounts for which they qualify.

Source of Governing Requirements

The requirements for eligibility are contained in program legislation, federal awarding agency regulations, and the terms and conditions of the award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether required eligibility determinations were made (including obtaining any required documentation/verification), that individual program participants or groups of participants (including area of service delivery) were determined to be eligible, and that only eligible individuals or groups of individuals participated in the program.
3. Determine whether subawards were made only to eligible subrecipients.
4. Determine whether amounts provided to or on behalf of eligible participants or groups of participants were calculated in accordance with program requirements.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control over compliance to support a low assessed level of control risk for eligibility and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

1. *Eligibility for Individuals*

a. For some federal programs with a large number of people receiving benefits, the non-federal entity may use a computer system for processing individual eligibility determinations and delivery of benefits. Often these computer systems are complex and will be separate from the non-federal entity's regular financial accounting system. Typical functions that a computer system used for determining eligibility may perform are:

- Perform calculations to assist in determining who is eligible and the amount of benefits
- Pay benefits (e.g., write checks)
- Maintain eligibility records, including information about each individual and benefits paid to or on behalf of the individual (regular payments, refunds, and adjustments)
- Track the period of time during which an individual is eligible to receive benefits (i.e., from the beginning date of eligibility through the date when those benefits stop, generally at the end of a predetermined period, unless there is a redetermination of eligibility)
- Perform matches with other computer databases to verify eligibility (e.g., matches to verify earnings or identify individuals who are deceased)
- Control who is authorized to approve benefits for eligible individuals (e.g., an employee may be approving benefits on-line and this process may be controlled by passwords or other access controls)
- Produce exception reports indicating likely errors that need follow-up (e.g., when benefits exceed a certain amount, would not be appropriate for a particular classification of individuals, or are paid more frequently than normal)

Because of the diversity of computer systems, both hardware and software, it is not practical for this Supplement to provide suggested audit procedures to address each system. However, generally accepted auditing standards provide guidance for the auditor when computer processing relates to accounting information that can materially affect the financial statements being audited. Similarly, when eligibility is material to a major program, and a computer system is integral to eligibility compliance, the auditor should follow this guidance and consider the non-federal entity's computer processing. The auditor should perform audit procedures relative to the computer system for eligibility as necessary to support the opinion on compliance for the major program. Due to the nature and controls

of computer systems, the auditor may choose to perform these tests of the computer systems as part of testing the internal controls for eligibility.

b. *Split Eligibility Determination Functions*

- (1) *Background* – Some non-federal entities pay the federal benefits to the eligible participants but arrange with another entity to perform part or all of the eligibility determination. For example, a state arranges with local government social services agencies to perform the “intake function” (e.g., the meeting with the social services client to determine income and categorical eligibility), while the state maintains the computer systems supporting the eligibility determination process and actually pays the benefits to the participants. In such cases, the state is fully responsible for federal compliance for the eligibility determination, as the benefits are paid by the state. Moreover, the state shows the benefits paid as federal awards expended on the state’s Schedule of Expenditures of Federal Awards. Therefore, the auditor of the state is responsible for meeting the internal control and compliance audit objectives for eligibility. This may require the auditor of the state to perform, coordinate, or arrange for additional procedures to ensure compliant eligibility determinations when another entity performs part of the eligibility determination functions. The responsibility of the auditor of the state for auditing eligibility does not relieve the auditor of the other entity (e.g., local government) from responsibility for meeting those internal control and compliance audit objectives for eligibility that apply to the other entity’s responsibilities. An exception occurs when the auditor of the other entity confirms with the auditor of the state that certain procedures are not necessary.
- (2) Ensure that eligibility testing includes all benefit payments regardless of whether another entity, by arrangement, performs part of the eligibility determination functions.

- c. Perform procedures to ascertain if the non-federal entity’s records/database includes all individuals receiving benefits during the audit period (e.g., that the population of individuals receiving benefits is complete).
- d. Select a sample of individuals receiving benefits and perform tests to ascertain if
 - (1) The required eligibility determinations and redeterminations, (including obtaining any required documentation/verifications) were performed and the individual was determined to be eligible in accordance with the compliance requirements of the program. (Note that some programs have both initial and continuing eligibility requirements and the auditor should design and perform appropriate tests for both. Also, some programs require periodic redeterminations of eligibility, which should also be tested.)

- (2) Benefits paid to or on behalf of the individuals were calculated correctly and in compliance with the requirements of the program.
 - (3) Benefits were discontinued when the period of eligibility expired.
 - e. In some programs, the non-federal entity is required to use a quality control process to obtain assurances about eligibility. Review the quality control process and perform tests to ascertain if it is operating to effectively meet the objectives of the process and in compliance with applicable program requirements.
- 2. *Eligibility for Group of Individuals or Area of Service Delivery*
 - a. In some cases, the non-federal entity may be required to perform procedures to determine whether a population or area of service delivery is eligible. Test information used in determining eligibility and ascertain if the population or area of service delivery was eligible.
 - b. Perform tests to ascertain if:
 - (1) The population or area served was eligible.
 - (2) The benefits paid to or on behalf of the individuals or area of service delivery were calculated correctly.
- 3. *Eligibility for Subrecipients*
 - a. If the determination of eligibility is based upon an approved application or plan, obtain a copy of this document and identify the applicable eligibility requirements.
 - b. Select a sample of the awards to subrecipients and perform procedures to verify that the subrecipients were eligible and amounts awarded were within funding limits.

F. EQUIPMENT AND REAL PROPERTY MANAGEMENT

Compliance Requirements

Equipment Management -- Grants and Cooperative Agreements

Equipment means tangible personal property, including information technology systems, having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-federal entity for financial statement purposes or \$5,000 (2 CFR section 200.1). Title to equipment acquired by a non-federal entity under grants and cooperative agreements vests in the non-federal entity subject to certain obligations and conditions (2 CFR section 200.313(a)).

States

A state must use, manage, and dispose of equipment acquired under a federal award in accordance with state laws and procedures (2 CFR section 200.313(b)).

Non-Federal Entities Other than States

Non-federal entities other than states must follow 2 CFR sections 200.313(c) through (e) which require that:

1. Equipment, including replacement equipment, be used in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by the federal award or, when appropriate, under other federal awards; however, the non-federal entity must not encumber the equipment without prior approval of the federal awarding agency (2 CFR sections 200.313(c) and (e)).
2. Property records must be maintained that include a description of the property, a serial number or other identification number, the source of funding for the property (including the federal award identification number), who holds title, the acquisition date, cost of the property, percentage of federal participation in the project costs for the federal award under which the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sales price of the property (2 CFR section 200.313(d)(1)).
3. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years (2 CFR section 200.313(d)(2)).
4. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft must be investigated (2 CFR section 200.313(d)(3)).
5. Adequate maintenance procedures must be developed to keep the property in good condition (2 CFR section 200.313(d)(4)).

6. If the non-federal entity is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return (2 CFR section 200.313(d)(5)).
7. When original or replacement equipment acquired under a federal award is no longer needed for a federal program (whether the original project or program or other activities currently or previously supported by the federal government), the non-federal entity must request disposition instructions from the federal awarding agency if required by the terms and conditions of the award. Items of equipment with a current per-unit fair market value of \$5,000 or less may be retained, sold, or otherwise disposed of with no further obligation to the federal awarding agency. If the federal awarding agency fails to provide requested disposition instructions within 120 days, items of equipment with a current per-unit fair market value in excess of \$5,000 may be retained or sold. The federal awarding agency is entitled to the federal interest in the equipment, which is the amount calculated by multiplying the current market value or sale proceeds by the federal agency's participation in total project costs (2 CFR section 200.313(e)).

Note: Intangible property that is acquired under a federal award, rather than developed or produced under the award, is subject to the requirements of 2 CFR section 200.313(e) regarding disposition (2 CFR section 200.315(a)).

Real Property Management – Grants and Cooperative Agreements

Title to real property acquired or improved by non-federal entities under grants and cooperative agreements vests in the non-federal entity subject to the obligations and conditions specified in 2 CFR section 200.311 (2 CFR section 200.311(a)). Real property will be used for the originally authorized purpose as long as needed for that purpose, during which time the non-federal entity must not dispose of or encumber title to or other interests in the real property (2 CFR section 200.311(b)).

When real property is no longer needed for the originally authorized purpose, the non-federal entity must obtain disposition instructions from the federal awarding agency or the pass-through entity, as applicable. When real property is sold, sales procedures must be followed that provide for competition to the extent practicable and result in the highest possible return. If sold, non-federal entities must compensate the federal awarding agency for the portion of the net sales proceeds that represents the federal agency's interest in the real property, which is the amount calculated by multiplying the current market value or sale proceeds by the federal agency's participation in total project costs. If the property is retained, the non-federal entity must compensate the federal awarding agency for the federal portion of the current fair market value of the property. Disposition instructions may also provide for transfer of title to the federal awarding agency or a designated third party, in which case the non-federal entity is entitled to the non-federal interest in the property, which is calculated by multiplying the current market value or sale proceeds by the non-federal entity's share in total project costs (2 CFR section 200.311(c)(3)).

Equipment and Real Property Management – Cost-Reimbursement Contracts under the Federal Acquisition Regulation

Equipment and real property management requirements for cost-reimbursement contracts are specified in the FAR clause at 48 CFR section 52.245-1. Federal government property as defined in the FAR includes both equipment and real property. Title to federal government property acquired by a non-federal entity normally vests in the federal government, unless otherwise noted in the contract terms and conditions. The FAR requires:

1. A system of internal controls to manage (control, use, preserve, protect, repair, and maintain) federal government property and a process to enable the prompt recognition, investigation, disclosure and reporting of loss of federal government property.
2. Federal government property must be used for performing the contract for which it was acquired unless otherwise provided for in the contract or approved by the federal awarding agency.
3. Property records must be maintained and include the name, part number and description, and other elements as necessary and required in accordance with the terms and conditions of the contract, quantity received, unit acquisition cost, unique-item identifier, accountable contract number, location, disposition, and posting reference and date of transaction.
4. A physical inventory must be periodically performed, recorded, and disclosed. Except as provided for in the contract, the non-federal entity must not dispose of inventory until authorized by the federal awarding agency. The non-federal entity may purchase the property at the unit acquisition cost if desired or make reasonable efforts to return unused property to the appropriate supplier at fair market value.

Source of Governing Requirements

The requirements for equipment and real property are contained in 2 CFR section 200.313 (equipment), 2 CFR section 200.311 (real property), 48 CFR section 52.245-1 (equipment and real property), program legislation, federal awarding agency regulations, and the terms and conditions of the federal award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether the non-federal entity maintains proper records for equipment and adequately safeguards and maintains equipment.

3. Determine whether disposition or encumbrance of any equipment or real property acquired or improved under federal awards is in accordance with federal requirements and that the federal awarding agency was properly compensated for its portion of any property sold or converted to non-federal use.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for equipment and real property management and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

States – Grants and Cooperative Agreements Only

1. Select a sample of equipment transactions acquired under federal awards and test for compliance with the state's policies and procedures for management and disposition of equipment.

Non-Federal Entities Other than States and States with Cost-Reimbursement Contracts under the FAR

2. Inventory Management of Equipment Acquired Under Federal Awards
 - a. Identify equipment acquired and trace selected purchases to the property records. Verify that the property records contain the required information.
 - b. Verify that the required physical inventory of equipment was performed. Test whether any differences between the physical inventory and equipment records were resolved.
 - c. Select a sample from all equipment acquired under federal awards from the property records and physically inspect the equipment and determine whether the equipment is appropriately safeguarded and maintained.

3. Disposition of Equipment Acquired Under Federal Awards
 - a. Identify equipment dispositions for the audit period and perform procedures to verify that the dispositions of equipment acquired under federal awards were properly reflected in the property records.
 - b. For dispositions of equipment acquired under grants and cooperative agreements with a current per-unit fair market value of \$5,000 or more, verify whether the federal awarding agency was reimbursed for the federal portion of the current market value or sales proceeds.
 - c. For dispositions of equipment acquired under cost-reimbursement contracts, verify that the non-federal entity followed federal awarding agency disposition instructions.

4. Disposition of Real Property Acquired Under Federal Awards
 - a. Identify real property dispositions for the audit period and determine whether such real property was acquired or improved under federal awards.
 - b. For dispositions of real property acquired or improved under federal awards, perform procedures to verify that the non-federal entity followed the instructions of the federal awarding agency or pass-through entity, which normally require reimbursement to the federal awarding agency for the federal portion of net sales proceeds or fair market value at the time of disposition, as applicable.

G. MATCHING, LEVEL OF EFFORT, EARMARKING

Compliance Requirements

The specific requirements for matching, level of effort, and earmarking are unique to each federal program and are found in the statutes, regulations, and the terms and conditions of awards pertaining to the program. For programs listed in this Supplement, these specific requirements are in Part 4, “Agency Program Requirements” or Part 5, “Clusters of Programs,” as applicable.

However, for matching, 2 CFR section 200.306 provides detailed criteria for acceptable costs and contributions. The following is a list of the basic criteria for acceptable matching:

- Are verifiable from the non-federal entity’s records;
- Are not included as contributions for any other federal award;
- Are necessary and reasonable for accomplishment of project or program objectives;
- Are allowed under 2 CFR Part 200, Subpart E (Cost Principles);
- Are not paid by the federal government under another award, except where the federal statute authorizing a program specifically provides that federal funds made available for such program can be applied to matching or cost sharing requirements of other federal programs;
- Are provided for in the approved budget when required by the federal awarding agency; and
- Conform to other provisions of this part, as applicable.

“Matching,” “level of effort,” and “earmarking” are defined as follows:

1. *Matching* or cost sharing includes requirements to provide contributions (usually non-federal) of a specified amount or percentage to match federal awards. Matching may be in the form of allowable costs incurred or in-kind contributions (including third party in-kind contributions).
2. *Level of effort* includes requirements for (a) a specified level of service to be provided from period to period, (b) a specified level of expenditures from non-federal or federal sources for specified activities to be maintained from period to period, and (c) federal funds to supplement and not supplant non-federal funding of services.
3. *Earmarking* includes requirements that specify the minimum and/or maximum amount or percentage of the program’s funding that must/may be used for specified activities, including funds provided to subrecipients. Earmarking may also be specified in relation to the types of participants covered.

Source of Governing Requirements

The requirements for matching are contained in 2 CFR section 200.306, program legislation, federal awarding agency regulations, and the terms and conditions of the award. The requirements for level of effort and earmarking are contained in program legislation, federal awarding agency regulations, and the terms and conditions of the award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. *Matching* – Determine whether the minimum amount or percentage of contributions or matching funds was provided.
3. *Level of Effort* – Determine whether specified service or expenditure levels were maintained.
4. *Earmarking* – Determine whether minimum or maximum limits for specified purposes or types of participants were met.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for matching, level of effort, earmarking and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

1. Matching

- a. Perform tests to verify that the required matching contributions were met.
- b. Ascertain the sources of matching contributions and perform tests to verify that they were from an allowable source.

- c. Test records to corroborate that the values placed on in-kind contributions (including third party in-kind contributions) are in accordance with 2 CFR sections 200.306, 200.434, and 200.414, and the terms and conditions of the award.
- d. Test transactions used to match for compliance with the allowable costs/cost principles requirements. This test may be performed in conjunction with the testing of the requirements related to allowable costs/cost principles.

2. Level of Effort

2.1 Level of Effort – *Maintenance of Effort*

- a. Identify the required level of effort and perform tests to verify that the level of effort requirement was met.
- b. Perform test to verify that only allowable categories of expenditures or other effort indicators (e.g., hours, number of people served) were included in the computation and that the categories were consistent from year to year. For example, in some programs, capital expenditures may not be included in the computation.
- c. Perform procedures to verify that the amounts used in the computation were derived from the books and records from which the audited financial statements were prepared.
- d. Perform procedures to verify that non-monetary effort indicators were supported by official records.

2.2 Level of Effort – *Supplement Not Supplant*

- a. Ascertain if the non-federal entity used federal funds to provide services which they were required to make available under federal, state, or local law and were also made available by funds subject to a supplement not supplant requirement.
- b. Ascertain if the non-federal entity used federal funds to provide services which were provided with non-federal funds in the prior year.
 - (1) Identify the federally funded services.
 - (2) Perform procedures to determine whether the federal program funded services that were previously provided with non-federal funds.
 - (3) Perform procedures to ascertain if the total level of services applicable to the requirement increased in proportion to the level of federal contribution.

3. Earmarking

- a. Identify the applicable percentage or dollar requirements for earmarking.
- b. Perform procedures to verify that the amounts recorded in the financial records met the requirements (e.g., when a minimum amount is required to be spent for a specified type of service, perform procedures to verify that the financial records show that at least the minimum amount for this type of service was charged to the program; or, when the amount spent on a specified type of service may not exceed a maximum amount, perform procedures to verify that the financial records show no more than this maximum amount for the specified type of service was charged to the program).
- c. When earmarking requirements specify a minimum percentage or amount, select a sample of transactions supporting the specified amount or percentage and perform tests to verify proper classification to meet the minimum percentage or amount.
- d. When the earmarking requirements specify a maximum percentage or amount, review the financial records to identify transactions for the specified activity which were improperly classified in another account (e.g., if only 10 percent may be spent for administrative costs, review accounts for other than administrative costs to identify administrative costs which were improperly classified elsewhere and cause the maximum percentage or amount to be exceeded).
- e. When earmarking requirements prescribe the minimum number or percentage of specified types of participants that can be served, select a sample of participants that are counted toward meeting the minimum requirement and perform tests to verify that they were properly classified.
- f. When earmarking requirements prescribe the maximum number or percentage of specified types of participants that can be served, select a sample of other participants and perform tests to verify that they were not of the specified type.

H. PERIOD OF PERFORMANCE

Compliance Requirements

A non-federal entity may charge only allowable costs incurred during the approved budget period of a federal award's period of performance and any costs incurred before the federal awarding agency or pass-through entity made the federal award that were authorized by the federal awarding agency or pass-through entity (2 CFR sections 200.308 200.309 and 200.403(h)). A period of performance may contain one or more budget periods.

Unless the federal awarding agency or pass-through entity authorizes an extension, a non-federal entity must liquidate all financial obligations incurred under the federal award not later than 120 calendar days after the end date of the period of performance as specified in the terms and conditions of the federal award (2 CFR section 200.344(b)). When used in connection with a non-federal entity's utilization of funds under a federal award, "financial obligations" means orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-federal entity during the same or a future period (2 CFR section 200.1).

Period of Performance requirements for cost reimbursement contracts subject to the FAR are contained in the terms and conditions of the contract.

Source of Governing Requirements

The requirements for the period of performance are contained in 2 CFR section 200.1 Definitions for "budget period," "financial obligations," "period of performance," 2 CFR section 200.308 (revision of budget and program plans), 2 CFR section 200.309 (modifications to period of performance), 2 CFR section 200.344 (closeout), program legislation, federal awarding agency regulations; and the terms and conditions of the award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether the federal award was only charged for: (a) allowable costs incurred during the period of performance; or (b) costs incurred prior to the date the federal award was made that were authorized by the federal awarding agency or pass-through entity.
3. Determine whether financial obligations were liquidated within the required time period.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for the period of performance and perform the testing of internal control as planned. If internal

control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

1. Review the award documents and regulations pertaining to the program and determine any award-specific requirements related to the period of performance.
2. For federal awards with performance period beginning dates during the audit period, test transactions for costs recorded during the beginning of the period of performance and verify that the costs were not incurred prior to the start of the period of performance unless authorized by the federal awarding agency or the pass-through entity.
3. For federal awards with performance period ending dates during the audit period, test transactions for costs recorded during the latter part and after the period of performance and verify that the costs had been incurred within the period of performance.
4. For federal awards with performance period ending dates during the audit period, test transactions for federal award costs for which the obligation had not been liquidated (payment made) as of the end of the period of performance and verify that the liquidation occurred within the allowed time period.
5. Test adjustments (e.g., manual journal entries) for federal award costs and verify that these adjustments were for transactions that occurred during the period of performance.

I. PROCUREMENT AND SUSPENSION AND DEBARMENT

Compliance Requirements - Procurement

1. Procurement—Grants and Cooperative Agreements

States

When procuring property and services, states must use the same policies and procedures they use for procurements from their non-federal funds (2 CFR section 200.317).

Non-Federal Entities Other than States

Non-federal entities other than states, including those operating federal programs as subrecipients of states, must follow the procurement standards set out at 2 CFR sections 200.318 through 200.326. They must use their own documented procurement procedures, which reflect applicable state and local laws and regulations, provided that the procurements conform to applicable federal statutes and the procurement requirements identified in 2 CFR Part 200. A non-federal entity must:

1. Meet the general procurement standards in 2 CFR section 200.318, which include oversight of contractors' performance, maintaining written standards of conduct for employees involved in contracting, awarding contracts only to responsible contractors, and maintaining records to document history of procurements.
2. Conduct all procurement transactions in a manner providing full and open competition, in accordance with 2 CFR section 200.319.
3. Use the micro-purchase and small purchase methods only for procurements that meet the applicable criteria under 2 CFR sections 200.320(a) (1) and (2). Under the micro-purchase method, the aggregate dollar amount does not exceed \$10,000 (\$2,000 in the case of acquisition for construction subject to the Wage Rate Requirements (Davis-Bacon Act)). Small purchase procedures are used for purchases that exceed the micro-purchase amount but do not exceed the simplified acquisition threshold (\$250,000). Micro-purchases may be awarded without soliciting competitive quotations if the non-federal entity considers the price to be reasonable (2 CFR section 200.320(a)). If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources (2 CFR section 200.320(b)).
4. For acquisitions exceeding the simplified acquisition threshold, the non-federal entity must use one of the following procurement methods: the sealed bid method if the acquisition meets the criteria in 2 CFR section 200.320(b); the competitive proposals method under the conditions specified in 2 CFR section 200.320((b) (2)); or the noncompetitive proposals method (i.e., solicit a proposal from only one source) but only when one or more of four circumstances are met, in accordance with 2 CFR section 200.320(c)).

5. Perform a cost or price analysis in connection with every procurement action in excess of the simplified acquisition threshold, including contract modifications (2 CFR section 200.323(a)). The cost plus a percentage of cost and percentage of construction cost methods of contracting must not be used (2 CFR section 200.323(b)).
6. Ensure that every purchase order or other contract includes applicable provisions required by 2 CFR section 200.326. These provisions are described in Appendix II to 2 CFR Part 200, “Contract Provisions for Non-Federal Entity Contracts Under Federal Awards.”

All Non-Federal Entities (including both states and other non-federal entities)

Effective May 14, 2022, the non-Federal entity must ensure that all applicable programs comply with section 70914 of the Build America, Buy America Act (BABA), including through incorporation of a Buy America preference in the terms and conditions of each award with an infrastructure project. Each covered Federal agency must ensure that “none of the funds made available for a Federal financial assistance program for infrastructure may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States. The Act requires the following Buy America preference:

1. All iron and steel used in the project are produced in the United States;
2. All manufactured products used in the project are produced in the United States; and
3. All construction materials are manufactured in the United States.

Important Notes:

- A non-federal entity must comply with the BABA requirements to the extent that the non-federal entity has been informed of these requirements, such as through the award terms and conditions.
- Several Federal agencies, in consultation with OMB, issued “waivers” as an exception from or waiver of the Made in America laws. For a listing of waivers by agency see <https://www.madeinamerica.gov/waivers/financial-assistance>. For a listing of waivers by category see <https://www.madeinamerica.gov/waivers>. If additional information is needed, see the agency contact found in Appendix III.

2. Procurement—Cost-Reimbursement Contracts under the Federal Acquisition Regulation

When awarding subcontracts, non-federal entities receiving cost-reimbursement contracts under the FAR must comply with the clauses at 48 CFR section 52.244-2 (consent to subcontract), 52.244-5 (competition), 52.203-13 (code of business ethics), 52.203-16 (conflicts of interest), and 52.215.12 (cost or pricing data); and the terms and conditions of the contract. The FAR defines “subcontracts” as a contract, i.e., a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them, entered into by a subcontractor to furnish supplies or services for performance of a prime

contract or a subcontract. It includes, but is not limited to, purchase orders, and changes and modifications to purchase orders.

Source of Governing Requirements – Procurement

The requirements that apply to procurement under grants and cooperative agreements are contained in 2 CFR sections 200.317 through 200.326, program legislation, federal awarding agency regulations, and the terms and conditions of the award. The requirements that apply to procurement under cost-reimbursement contracts under the FAR are contained in 48 CFR parts 03, 15, 44 and the clauses at 48 CFR sections 52.244-2, 52.244-5, 52.203-13, 52.203-16, and 52.215-12; agency FAR Supplements; and the terms and conditions of the contract.

Compliance Requirements – Suspension and Debarment

Non-federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred. “Covered transactions” include contracts for goods and services awarded under a non-procurement transaction (e.g., grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other criteria as specified in 2 CFR section 180.220. All non-procurement transactions entered into by a pass-through entity (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless they are exempt as provided in 2 CFR section 180.215.

When a non-federal entity enters into a covered transaction with an entity at a lower tier, the non-federal entity must verify that the entity, as defined in 2 CFR section 180.995 and agency adopting regulations, is not suspended or debarred or otherwise excluded from participating in the transaction. This verification may be accomplished by (1) checking the System for Award Management (SAM) Exclusions maintained by the General Services Administration (GSA) and available at [SAM.gov | Home](https://sam.gov) (click on Search Record, then click on Advanced Search-Exclusions) (Note: The OMB guidance at 2 CFR Part 180 and agency implementing regulations still refer to the SAM Exclusions as the Excluded Parties List System (EPLS)), (2) collecting a certification from the entity, or (3) adding a clause or condition to the covered transaction with that entity (2 CFR section 180.300).

Non-federal entities receiving contracts from the federal government are required to comply with the contract clause at FAR 52.209-6 before entering into a subcontract that will exceed \$30,000, other than a subcontract for a commercially available off-the-shelf item.

Source of Governing Requirements – Suspension and Debarment

The requirements for nonprocurement suspension and debarment are contained in OMB guidance in 2 CFR Part 180, which implements Executive Orders 12549 and 12689, “Debarment and Suspension;” federal awarding agency regulations in Title 2 of the CFR adopting/implementing the OMB guidance in 2 CFR Part 180; program legislation; and the terms and conditions of the award.

Most federal agencies have adopted or implemented 2 CFR Part 180, generally by relocating their associated agency rules in Title 2 of the CFR. Appendix II to the Supplement includes the

current CFR citations for all agencies adoption or implementation of the nonprocurement suspension and debarment guidance.

Government-wide requirements related to suspension and debarment and doing business with suspended or debarred subcontractors under cost reimbursement contracts under the FAR are contained in 48 CFR section 9.405-2(b) and the clause at 48 CFR section 52.209-6.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether procurements under federal awards were made in compliance with applicable federal regulations and other procurement requirements specific to an award or subaward.
3. For covered transactions determine whether the non-federal entity verified that entities are not suspended, debarred, or otherwise excluded.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for procurement and suspension and debarment requirements and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

(Procedure 1 applies only to states under grants and cooperative agreements.)

1. Test a sample of procurements to ascertain if the state's laws and procedures were followed and that the policies and procedures used were the same as for non-federal funds (2 CFR section 200.317).

(Procedures 2 – 5 apply to non-federal entities other than states.)

2. Obtain the entity's procurement policies and verify that the policies comply with the compliance requirements highlighted above.
3. Verify that the entity has written standards of conduct that cover conflicts of interest and govern the performance of its employees engaged in the selection, award, and administration of contracts (2 CFR section 200.318(c) and 48 CFR sections 52.203-13 and 52.303-16).
4. Ascertain if the entity has a policy to use statutorily or administratively imposed in state or local geographical preferences in the evaluation of bids or proposals. If yes, verify that these limitations were not applied to federally funded procurements except where applicable federal statutes expressly mandate or encourage geographic preference (2 CFR section 200.319(c)).
5. Select a sample of procurements and perform the following procedures:
 - a. Examine contract files and verify that they document the history of the procurement, including the rationale for the method of procurement, selection of contract type, basis for contractor selection, and the basis for the contract price (2 CFR section 200.318(i) and 48 CFR Part 44 and section 52.244-2).
 - b. For grants and cooperative agreements, verify that the procurement method used was appropriate based on the dollar amount and conditions specified in 2 CFR section 200.320. Current micro-purchase and simplified acquisition thresholds can be found in the FAR (48 CFR Subpart 2.1, "Definitions").
 - c. Verify that procurements provide full and open competition (2 CFR section 200.319 and 48 CFR section 52.244-5).
 - d. Examine documentation in support of the rationale to limit competition in those cases where competition was limited and ascertain if the limitation was justified (2 CFR sections 200.319 and 200.320(f) and 48 CFR section 52.244-5).
 - e. Ascertain if cost or price analysis was performed in connection with all procurement actions exceeding the simplified acquisition threshold, including contract modifications, and that this analysis supported the procurement action (2 CFR section 200.323 and 48 CFR section 15.404-3).

Note: A cost or price analysis is required for each procurement action, including each contract modification, when the total amount of the contract and related modifications is greater than the simplified acquisition threshold.

- f. Verify consent to subcontract was obtained when required by the terms and conditions of a cost reimbursement contract under the FAR (48 CFR section 52.244-2).

Note: If the non-federal entity has an approved purchasing system, consent to subcontract may not be required unless specifically identified by contract terms or

conditions. The auditor should verify that the approval of the purchasing system is effective for the audit period being reviewed.

(Procedures 6-8 apply to all non-federal entities.)

6. Review the non-federal entity's procedures for verifying that an entity with which it plans to enter into a covered transaction is not debarred, suspended, or otherwise excluded (2 CFR sections 200.212 and 200.318(h); 2 CFR section 180.300; 48 CFR section 52.209-6).
7. Select a sample of procurements and subawards and test whether the non-federal entity followed its procedures before entering into a covered transaction.
8. Select a sample of procurement agreements for infrastructure projects subject to BABAA and test whether the non-federal entity included the Buy America domestic preference provisions in each agreement, or obtained a BABAA waiver.

J. PROGRAM INCOME

Compliance Requirements

Program income is gross income earned by a non-federal entity that is directly generated by a supported activity or earned as a result of the federal award during the period of performance (unless there is a requirement for disposition of program income after the end of the period of performance as provided in 2 CFR section 200.307(f)).

Program income (2 CFR section 200.1) includes, but is not limited to income from:

- Fees for services performed,
- The use or rental of real or personal property acquired under federal awards,
- The sale of commodities or items fabricated under federal awards,
- License fees and royalties on patents and copyrights, except as provided below, and
- Principal and interest on loans made with federal award funds.

Program income does *not* include:

- Interest earned on advances of federal funds.
- Except as otherwise provided in federal statutes, regulations or the terms and conditions of the federal award, rebates, credits, discounts and interest earned on any of them.
- Taxes, special assessments, levies, fines, and other such revenues raised by a non-federal entity, unless the federal award or federal awarding agency regulations specifically identify the revenues as program income (2 CFR section 200.307(c)).
- The proceeds from the sale of equipment or real property acquired in whole or in part under the federal award (2 CFR section 200.307(d)).
- Royalties or income earned by an institution of higher education or a nonprofit organization on inventions conceived or first actually reduced to practice in the performance of work under a funding agreement with a federal agency that is shared with the inventor (2 CFR section 200.307(g); 37 CFR sections 401.2 and 401.14(k); 35 USC 201(i), and 35 USC 202(c)(7)(B)).

If authorized by federal regulations or the federal award, costs incidental to the generation of program income may be deducted from gross income to determine program income, provided those costs have not been charged to the federal award (2 CFR section 200.307(b)).

Program income may be used in any of the following three methods, consistent with 2 CFR section 200.307(e):

1. *Deduction*

Program income is deducted from total allowable costs in order to determine the net allowable costs, rather than to increase the funds committed to the project. This method must be used if the federal awarding agency has given no prior approval for how program income is to be used and its regulations and the terms and conditions of the federal award are silent on this matter. Where this method is used, program income must be applied to current costs unless the federal awarding agency authorizes otherwise (2 CFR section 200.307(e)(1)).

2. *Addition*

With prior approval of the federal awarding agency, program income may be added to the federal award by the federal agency and the non-federal entity. This method must be used for federal awards to institutions of higher education and nonprofit research institutions if the federal awarding agency does not specify in its regulations or the terms and conditions of the federal award how program income is to be used (2 CFR section 200.307(e)(2)).

3. *Cost Sharing or Matching*

With prior approval of the federal awarding agency, program income may be used to meet the cost sharing or matching requirement of the federal award. The amount of the federal award remains the same (2 CFR section 200.307(e)(3)).

Unless federal awarding agency regulations or the terms and conditions of the federal award specify otherwise, non-federal entities have no obligation to the federal government regarding program income earned after the end of the period of performance (2 CFR section 200.307(f)).

Source of Governing Requirements

The requirements that apply to program income are contained in 2 CFR section 200.1 (definition of “program income”), 2 CFR section 200.307 (program income), program legislation, federal awarding agency regulations, and the terms and conditions of the federal award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether program income is correctly determined, recorded, and used in accordance with applicable governing requirements.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for program income and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

1. *Identify Program Income*
 - a. Review the statutes, regulations, and terms and conditions of the federal award applicable to the program and ascertain if program income was anticipated. If so, ascertain the requirements for determining or assessing the amount of program income (e.g., a scale for determining user fees, prohibition of assessing fees against certain groups of individuals), and the requirements for recording and using program income.
 - b. Inquire of management and review accounting records to ascertain if program income was received.
2. *Determining or Assessing Program Income* – Perform tests to verify that program income was properly determined or calculated in accordance with stated criteria, and that amounts collected were classified as program income only if collected from allowable sources.
3. *Recording of Program Income* – Perform tests to verify that all program income was properly recorded in the accounting records.
4. *Use of Program Income* – Perform tests to ascertain if program income was used in accordance with 2 CFR section 200.307(e) and the program requirements set by the federal awarding agency in its regulations and the terms and conditions of the award.

K. [RESERVED]

L. REPORTING

Compliance Requirements

Financial Reporting

Recipients must use the standard financial reporting forms or such other forms as may be authorized by OMB (approval is indicated by an OMB paperwork control number on the form) when reporting to the federal awarding agency. Each recipient must report program outlays and program income on a cash or accrual basis, as prescribed by the federal awarding agency. If the federal awarding agency requires reporting of accrual information and the recipient's accounting records are not normally maintained on the accrual basis, the recipient is not required to convert its accounting system to an accrual basis but may develop such accrual information through analysis of available documentation. The federal awarding agency may accept identical information from the recipient in machine-readable format, computer printouts, or electronic outputs in lieu of closed formats or on paper.

Similarly, a pass-through entity must not require a subrecipient to establish an accrual accounting system and must allow the subrecipient to develop accrual data for its reports on the basis of an analysis of available documentation.

The financial reporting requirements for subrecipients are as specified by the pass-through entity. In many cases, these will be the same as or similar to those for recipients.

The standard financial reporting forms for grants and cooperative agreements are as follows:

- *Request for Advance or Reimbursement (SF-270) (OMB No. 0348-0004)*. Recipients are required to use the SF-270 to request reimbursement payments under non-construction programs and may be required to use it to request advance payments.
- *Outlay Report and Request for Reimbursement for Construction Programs (SF-271) (OMB No. 0348-0002)*. Recipients use the SF-271 to request funds for construction projects unless they are paid in advance or the SF-270 is used.
- *Federal Financial Report (FFR) (SF-425/SF-425A) (OMB No. 0348-0061)*. Recipients use the FFR as a standardized format to report expenditures under federal awards, as well as, when applicable, cash status (lines 10.a, 10.b, and 10c). References to this report include its applicability as both an expenditure and a cash status report unless otherwise indicated.

Electronic versions of the standard forms are located on agency's home page.

Financial reporting requirements for cost reimbursement contracts subject to the FAR are contained in the terms and conditions of the contract.

Performance and Special Reporting

Non-federal entities may be required to submit performance reports at least annually but not more frequently than quarterly, except in unusual circumstances, using a form or format authorized by OMB (2 CFR section 200.329). They also may be required to submit special reports as required by the terms and conditions of the federal award.

Compliance testing of performance and special reporting is only included in Part 4, “Agency Program Requirements” and Part 5, “Clusters of Programs,” if such reporting has been identified by a federal agency as subject to audit. Further, compliance testing of performance and special reports is only required for data, identified by agencies in parts 4 and 5 as key line items, that are quantifiable and are capable of evaluation against objective criteria stated in the statutes, regulations, contract or grant agreements pertaining to the program.

Performance and special reports in parts 4 and 5 are assumed to meet the above criteria. However, if an agency does not identify key line items for a performance or special report, auditors are only required to test that the report was submitted in a timely manner and no other procedures are required. Similarly, if key line items are identified in parts 4 and 5 that would not be quantifiable and capable of evaluation against objective criteria (e.g., narratives, futuristic information, information that would require verification at the program beneficiary level), auditors are not required to perform testing of such items.

Federal Funding Accountability and Transparency Act

Under the requirements of the Federal Funding Accountability and Transparency Act (Pub. L. No. 109-282), as amended by Section 6202 of Pub. L. No. 110-252, hereafter referred as the “Transparency Act” that are codified in 2 CFR Part 170, recipients (i.e., direct recipients) of grants or cooperative agreements are required to report first-tier subawards of \$30,000 or more to the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS). In accordance with OMB Memorandum M-20-21, Implementation Guidance for Supplementing Funding Provided in Response to the Coronavirus Disease 2019 (COVID-19), existing Transparency Act subaward reporting requirements may be leveraged to meet the transparency requirements outlined in the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Information input to FSRS is available at USASpending.gov as the publicly available website for viewing this information (<https://www.usaspending.gov/search>).

Where the Reporting type of compliance requirement is marked as a “Y” in the Part 2 Matrix of Compliance Requirements, indicating it is subject to audit, auditors must test the compliance with the reporting requirements of 2 CFR Part 170 using the guidance in this section when the auditor determines Reporting to be direct and material and the recipient makes first tier awards.

Federal Funding Accountability and Transparency Act

Aspects of the Transparency Act that relate to subaward reporting (1) under grants and cooperative agreements were implemented in OMB in 2 CFR Part 170 and (2) under contracts, by the regulatory agencies responsible for the Federal Acquisition Regulation (FAR at 5 FR 39414 et seq., July 8, 2010). The requirements pertain to recipients (i.e., direct recipients) of

grants or cooperative agreements who make first-tier subawards and contractors (i.e., prime contractors) that award first-tier subcontracts. There are limited exceptions as specified in 2 CFR Part 170 and the FAR. The guidance at 2 CFR Part 170 currently applies only to federal financial assistance awards in the form of grants and cooperative agreements (e.g., it does not apply to loans made by a federal agency to a recipient), however the subaward reporting requirement applies to all types of first-tier subawards under a grant or cooperative agreement.

As provided in 2 CFR Part 170 and FAR Subpart 4.14, respectively, federal agencies are required to include the award term specified in Appendix A to 2 CFR Part 170 or the contract clause in FAR 52.204-10, Reporting Executive Compensation and First-Tier Subcontract Awards, as applicable, in awards subject to the Transparency Act.

Consistent with the OMB guidance,

- [2 CFR Part 170](#) “subaward” has the meaning given in 2 CFR 200.1 and means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.
- [FAR 52.204-10\(a\)](#) defines “first-tier subcontract” to mean a subcontract awarded directly by a contractor to acquire supplies or services (including construction) for performance of a prime contract, but excludes the contractor’s supplier agreements with vendors, such as long-term arrangements for materials or supplies that benefit multiple contracts or the costs of which would normally be applied to a contractor's general and administrative expenses or indirect cost.

While 2 CFR Part 170 and the FAR implement several distinct Transparency Act reporting requirements, including reporting of executive compensation, the Supplement addresses only the following requirements: (1) recipient reporting of each first-tier subaward or subaward amendment that results in an obligation of \$30,000 or more in federal funds; and (2) contractor reporting of each first-tier subcontract award of \$30,000 or more in federal funds (this requirement was phased in based on the value of the new prime contract as specified below under “Effective Date of Reporting Requirements”).

Reporting Site

Grant and cooperative agreement recipients and contractors are required to register FSRS and report subaward data through FSRS. To do so, they will first be required to register in the System for Award Management (SAM) (if they have not done so previously for another purpose (e.g., submission of applications through Grants.gov) and actively maintain that registration. Prime contractors have previously been required to register in SAM. Information input to FSRS is available at USASpending.gov as the publicly available website for viewing this information (<https://www.usaspending.gov/search>).

Key Data Elements

Compliance testing of the Transparency Act reporting requirements must include the following key data elements about the first-tier subrecipients and subawards under grants and cooperative agreements.

Subaward Data Element	Definition
Subawardee Name	This is the Sub-Awardee’s Name
Subawardee DUNS #	The subawardee organization’s nine-digit Data Universal Numbering System (DUNS) number.
Amount of Subaward	The net dollar amount of federal funds awarded to the subawardee including modifications.
Subaward Obligation/Action Date	Date the subaward agreement was signed.
Date of Report Submission	Date the recipient entered the action/obligation into FSRS.
Subaward Number	Subaward number or other identifying number assigned by the prime awardee organization to facilitate the tracking of its subawards.
Subaward Project Description	Describes the subaward project.
Subawardee Names and Compensation of Highly Compensated Officers	Names of officers if thresholds are met.

For purposes of programs included in parts 4 and 5 of this Supplement, the designation “Not Applicable” in relation to “Financial Reporting,” “Performance Reporting,” and “Special Reporting” means that the auditor is not expected to audit anything in these categories, whether or not award terms and conditions may require such reporting.

Source of Governing Requirements

Reporting requirements are contained in the following:

1. Financial reporting, 2 CFR section 200.328.
2. Monitoring and reporting program performance, 2 CFR section 200.329.
3. Program legislation.
4. Transparency Act, implementing requirements in 2 CFR Part 170 and the FAR, and the previously listed OMB guidance documents.
5. Federal awarding agency regulations.
6. The terms and conditions of the award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).

2. Determine whether required reports for federal awards include all activity of the reporting period, are supported by applicable accounting or performance records, and are fairly presented in accordance with governing requirements.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for reporting and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

Note: For recipients using HHS' Payment Management System (PMS) to draw federal funds, the auditor should consider the following steps numbered 1 through 4 as they pertain to the cash reporting portion of the SF-425A, regardless of the source of the data included in the PMS reports. (During FY 2016, HHS is completing the transition from pooled payment to use of subaccounts.) Although certain data is supplied by the federal awarding agency (e.g., award authorization amounts) and certain amounts are provided by HHS' Payment Management Services, the auditor should ensure that such amounts are in agreement with the recipient's records and are otherwise accurate.

1. Review applicable statutes, regulations, and the terms and conditions of the federal award pertaining to reporting requirements. Determine the types and frequency of required reports. Obtain and review federal awarding agency or pass-through entity, in the case of a subrecipient, instructions for completing the reports.
 - a. For financial reports, ascertain the accounting basis used in reporting the data (e.g., cash or accrual).
 - b. For performance and special reports, determine the criteria and methodology used in compiling and reporting the data.
2. Select a sample of reports and perform appropriate analytical procedures and ascertain the reason for any unexpected differences. Examples of analytical procedures include:
 - a. Comparing current period reports to prior period reports.

- b. Comparing anticipated results to the data included in the reports.
 - c. Comparing information obtained during the audit of the financial statements to the reports.
3. Select a sample of each of the following report types, and test for accuracy and completeness:
- a. *Financial reports*
 - (1) Ascertain if the financial reports were prepared in accordance with the required accounting basis.
 - (2) Review accounting records and ascertain if all applicable accounts were included in the sampled reports (e.g., program income, expenditure credits, loans, interest earned on federal funds, and reserve funds).
 - (3) Trace the amounts reported to accounting records that support the audited financial statements and the Schedule of Expenditures of Federal Awards and verify agreement or perform alternative procedures to verify the accuracy and completeness of the reports and that they agree with the accounting records. If reports require information on an accrual basis and the entity does not prepare its accounting records on an accrual basis, determine whether the reported information is supported by available documentation.
 - (4) For any discrepancies noted in SF-425 reports concerning cash status when the advance payment method is used, review subsequent SF-425 reports to ascertain if the discrepancies were appropriately resolved with the applicable payment system.
 - b. *Performance and special reports*
 - (1) Review the supporting records and ascertain if all applicable data elements were included in the sampled reports. Trace the reported data to records that accumulate and summarize data.
 - (2) Perform tests of the underlying data to verify that the data were accumulated and summarized in accordance with the required or stated criteria and methodology, including the accuracy and completeness of the reports.
 - c. *Special reports for FFATA*
 - (1) Gain an understanding of the recipient’s methodology used to identify which, if any, awards were subject to the Transparency Act based on inclusion of the award term, the assignment by the federal awarding

agency of a new FAIN, the effective date of the reporting requirement, and whether the entity passed funds through to first-tier subrecipients.

- (2) Select a sample of first-tier subawards. Obtain related subaward agreements/amendments/modifications and determine if the subaward/subcontract was subject to reporting under the Transparency Act based on (a) the date of the award and (b) the amount of the obligating action for subawards or face value of the first-tier subcontracts (inclusive of modifications).

If the subaward/subcontract was subject to reporting under the Transparency Act:

- (a) Using the FAIN, find the award in FSRS.

FSRS is the portal where the recipient enters the award information; it is only accessible by the recipient. Therefore, in order for recipients to demonstrate that information has been properly input, they should coordinate with the auditor regarding the auditor's review of the information, physically or virtually (e.g. by logging into its FSRS account either in the auditor's presence or remotely using technology such as screensharing, screenshot evidence, etc.) so that the auditor is able to find the awards in the system as required in this procedure).

- (b) Compare the award information accessed in step 2.a to the subaward/subcontract documents maintained by the recipient to assess if—
- (i) applicable subaward obligations /modifications have been reported,
 - (ii) the key data elements (see above) were accurately reported and are supported by the source documentation, and
 - (iii) the action was reported in FSRS no later than the last day of the month *following* the month in which the subaward/subaward amendment obligation was made or the subcontract award/subcontract modification was made.
- (c) The auditor must provide the following information for non-compliance finding(s) as the results of step 2.b.
- (i) The non-federal entity did not report the subaward information

- (ii) The non-federal entity did not report the subaward information timely
- (iii) The non-federal entity reported incorrect amount
- (iv) The non-federal entity did not report all the key data elements

The following format is recommended to report non-compliance findings and included in the audit report. Data are included for illustration purpose only.

Transactions Tested	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
25	2	10	13	0
Dollar Amount of Tested Transactions	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
\$5,000,000	\$200,000	\$4,000,000	\$800,000	\$0

(d) *For each type of report*

- (i) When intervening computations or calculations are required between the records and the reports, trace reported data elements to supporting worksheets or other documentation that link reports to the data.
 - (ii) Test mathematical accuracy of reports and supporting worksheets.
4. Obtain written representation from management that the reports provided to the auditor are true copies of the reports submitted or electronically transmitted to the federal awarding agency, the applicable payment system, or pass-through entity in the case of a subrecipient.

M. SUBRECIPIENT MONITORING

Note: Transfers of federal awards to another component of the same auditee under 2 CFR Part 200, Subpart F, do not constitute a subrecipient or contractor relationship.

Compliance Requirements

A pass-through entity (PTE) must:

- *Identify the Award and Applicable Requirements* – Clearly identify to the subrecipient: (1) the award as a subaward at the time of subaward (or subsequent subaward modification) by providing the information described in 2 CFR section 200.331(a)(1); (2) all requirements imposed by the PTE on the subrecipient so that the federal award is used in accordance with federal statutes, regulations, and the terms and conditions of the award (2 CFR section 200.331(a)(2)); and (3) any additional requirements that the PTE imposes on the subrecipient in order for the PTE to meet its own responsibility for the federal award (e.g., financial, performance, and special reports) (2 CFR section 200.331(a)(3)).
- *Evaluate Risk* – Evaluate each subrecipient’s risk of noncompliance for purposes of determining the appropriate subrecipient monitoring related to the subaward (2 CFR section 200.332(b)). This evaluation of risk may include consideration of such factors as the following:
 1. The subrecipient’s prior experience with the same or similar subawards;
 2. The results of previous audits including whether or not the subrecipient receives single audit in accordance with 2 CFR Part 200, Subpart F, and the extent to which the same or similar subaward has been audited as a major program;
 3. Whether the subrecipient has new personnel or new or substantially changed systems; and
 4. The extent and results of federal awarding agency monitoring (e.g., if the subrecipient also receives federal awards directly from a federal awarding agency).
- *Monitor* – Monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals (2 CFR sections 200.332(d) through (f)). In addition to procedures identified as necessary based upon the evaluation of subrecipient risk or specifically required by the terms and conditions of the award, subaward monitoring must include the following:
 1. Reviewing financial and programmatic (performance and special reports) required by the PTE.

2. Following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the federal award provided to the subrecipient from the PTE detected through audits, on-site reviews, and other means.
 3. Issuing a management decision for audit findings pertaining to the federal award provided to the subrecipient from the PTE as required by 2 CFR section 200.521.
- *Ensure Accountability of For-Profit Subrecipients* – Some federal awards may be passed through to for-profit entities. For-profit subrecipients are accountable to the PTE for the use of the federal funds provided. Because 2 CFR Part 200 does not make Subpart F applicable to for-profit subrecipients, the PTE is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients for the subaward. The agreement with the for-profit subrecipient must describe applicable compliance requirements and the for-profit subrecipient's compliance responsibility. Methods to ensure compliance for federal awards made to for-profit subrecipients may include pre-award audits, monitoring during the agreement, and post-award audits (2 CFR section 200.501(h)).

Source of Governing Requirements

The requirements for subrecipient monitoring for the subaward are contained in 31 USC 7502(f)(2) (Single Audit Act Amendments of 1996 (Pub. L. No. 104-156)), 2 CFR sections 200.330, .331, and .501(h); federal awarding agency regulations; and the terms and conditions of the award.

Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).
2. Determine whether the PTE identified the subaward and applicable requirements at the time of the subaward (or subsequent subaward modification) in the terms and conditions of the subaward and other award documents sufficient for the PTE to comply with federal statutes, regulations, and the terms and conditions of the federal award.
3. Determine whether the PTE monitored subrecipient activities to provide reasonable assurance that the subrecipient administered the subaward in compliance with the terms and conditions of the subaward.

Suggested Audit Procedures – Internal Control

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.

2. Plan the testing of internal control to support a low assessed level of control risk for subrecipient monitoring and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

Suggested Audit Procedures – Compliance

Note: The auditor may consider coordinating the tests related to subrecipients performed as part of C, “Cash Management” (tests of cash reporting submitted by subrecipients); E, “Eligibility” (tests that subawards were made only to eligible subrecipients); I, “Procurement and Suspension and Debarment” (tests of ensuring that a subrecipient is not suspended or debarred) ; and L, “Reporting (tests of performance data reported to funding sources) with the testing of “Subrecipient Monitoring

1. Review the PTE’s subrecipient monitoring policies and procedures to gain an understanding of the PTE’s process to identify subawards, evaluate risk of noncompliance, and perform monitoring procedures based upon identified risks.
2. Review subaward documents including the terms and conditions of the subaward to ascertain if, at the time of subaward (or subsequent subaward modification), the PTE made the subrecipient aware of the award information required by 2 CFR section 200.331(a) sufficient for the PTE to comply with federal statutes, regulations, and the terms and conditions of the award.
3. Review the PTE’s documentation of monitoring the subaward and consider if the PTE’s monitoring provided reasonable assurance that the subrecipient used the subaward for authorized purposes in compliance with federal statutes, regulations, and the terms and conditions of the subaward.
4. Ascertain if the PTE verified that subrecipients expected to be audited as required by 2 CFR Part 200, Subpart F, met this requirement (2 CFR section 200.331(f)). This verification may be performed as part of the required monitoring under 2 CFR section 200.331(d)(2) to ensure that the subrecipient takes timely and appropriate action on deficiencies detected through audits.

N. SPECIAL TESTS AND PROVISIONS

Compliance Requirements

The specific requirements for Special Tests and Provisions are unique to each federal program and are found in the statutes, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs listed in this Supplement, the compliance requirements, audit objectives, and suggested audit procedures for Special Tests and Provisions are in Part 4, “Agency Program Requirements,” or Part 5, “Clusters of Programs.” For programs not included in this Supplement, the auditor must review the program’s contract and grant agreements and referenced statutes and regulations to identify the compliance requirements and develop the audit objectives and audit procedures for Special Tests and Provisions which could have a direct and material effect on a major program. The auditor should also inquire of the non-federal entity to help identify and understand any Special Tests and Provisions.

Additionally, both for programs included and not included in this Supplement, the auditor must identify any additional compliance requirements which are not based in statute or regulation (e.g., were agreed to as part of audit resolution of prior audit findings), which could be material to a major program. Reasonable procedures to identify such compliance requirements would be inquiry of non-federal entity management and review of the contract and grant agreements pertaining to the program. Any such requirements which may have a direct and material effect on compliance with the requirements of that major program must be included in the audit.

Internal Control

The following audit objective and suggested audit procedures should be considered in tests of special tests and provisions in addition to those provided in Part 4, “Agency Program Requirements;” Part 5, “Clusters of Programs;” and, in accordance with Part 7, “Guidance for Auditing Programs Not Included in This Compliance Supplement.”

Audit Objectives

Obtain an understanding of internal control, assess risk, and test internal control as required by 2 CFR section 200.514(c).

Suggested Audit Procedures

1. Perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for special tests and provisions and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in 2 CFR section 200.514(c)(4), including reporting a significant deficiency or material weakness in accordance with 2 CFR section 200.516, assessing the control risk at the maximum and considering whether

additional compliance tests and reporting are required because of ineffective internal control.

3. Consider the results of the testing of internal control in assessing the remaining risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

PART 4 – AGENCY PROGRAM REQUIREMENTS

INTRODUCTION

For each federal program (except R&D and SFA) included in this Supplement, Part 4 provides I, “Program Objectives” and II, “Program Procedures.” Part 4 also provides information about compliance requirements specific to a program in III, “Compliance Requirements.” Finally, Part 4 provides IV, “Other Information,” when there is other useful information pertaining to the program that does not fit in sections I–III. For example, when a program allows funds to be transferred to another program, section IV provides guidance on how those funds are to be treated on the Schedule of Expenditures of Federal Awards and in Type A program determinations.

When any of five types of compliance requirements (A, “Activities Allowed or Unallowed;” E, “Eligibility;” G, “Matching, Level of Effort, Earmarking;” L, “Reporting;” and N, “Special Tests and Provisions”) is subject to audit and applicable to a program included in the Supplement, Part 4 always provides additional information specific to the program. The other seven types of compliance requirements, when subject to audit, generally are not specific to a program and, therefore, usually are not listed in Part 4. However, when one of these other seven types of compliance requirements has information specific to a program, that information is provided with the program in Part 4. When a requirement is marked as “Not Applicable” it means either that there are no compliance requirements specific for the program, or the auditor is not required to test compliance.

In developing the audit procedures to test compliance with the requirements for a federal program, the auditor must first look to the Compliance Requirements section of the program/cluster (summarized for all programs/clusters in Part 2 of the Supplement) to identify which of the 12 types of compliance requirements described in Part 3 have been identified as subject to audit, and then determine which of those requirements is likely to have a direct and material effect on the federal program at the auditee.

For each such compliance requirement, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions, including audit objectives, and suggested audit procedures) and the program supplement in Part 4 (which includes any program-specific requirements) to perform the audit. For N, “Special Tests and Provisions,” Part 3 includes only audit objectives and suggested audit procedures for internal control; all other information is included in Part 4.

The descriptions of the compliance requirements in parts 3 and 4 generally are a summary of the actual compliance requirements. The auditor must review the referenced citations (e.g., laws and regulations) for the complete compliance requirements.

For 2023, only guidance to the compliance requirement areas for A, E, G, L, and N that are designated as “Y” in the Matrix are included in part III, Compliance Requirements of the program. If the auditor is to review compliance requirement areas that are designated as “N,” the auditor must refer to the Part 3 for additional information.

(FMNP) – Note****ASSISTANCE LISTING 10.649 P-EBT ADMINISTRATIVE COSTS GRANTS****Note**

- (1) FMNP is not included in the Compliance Supplement. However, FMNP is listed in this document due to COVID-related waivers and flexibilities impacting FMNP.

The programs listed above are impacted by the COVID-19 waivers.

Pursuant to the Coronavirus Aid, Relief, and Economic Security Act (Pub. L. No. 116-136), Families First Coronavirus Response Act (the Act) (Pub. L. No. 116-127), the American Rescue Plan Act of 2021 (Pub. L. No. 117-2), and in light of the exceptional circumstances of the ongoing public health emergency, the Food and Nutrition Service (FNS) granted several waivers for the aforementioned programs to ease program operations at the state and local levels and minimize the potential exposure to the novel coronavirus (COVID-19).

To view a complete portfolio of waivers, their descriptions, and states elected or requested to implement these waivers, please go to <https://www.fns.usda.gov/disaster/pandemic/covid-19>. Each individual waiver contains a link to view the full description along with each state approved to implement the waiver. In addition, copies of individual state waivers are available at the links for each state.

For auditing purposes during this public health emergency, it is recommended that the audit community obtain the list of waivers from the audited state agency and local agency and adapt the audit test steps to reflect these flexibilities. Each waiver offered has reporting requirements that must be adhered to by the state agency. For example, pursuant to section 2202(d) of the Act, each state that elects to be subject to a waiver under section 2202(a)(b)(c) must submit a report to

the secretary not later than one year after the date such state received the waiver. The report must include: (1) a summary of the use of this waiver by the state agency and local program operators; and (2) a description of whether and how this waiver resulted in improved services to program participants. Although there is no requirement for auditors to test reporting requirements for waivers applied by the state agency, auditors should be aware of this reporting requirement for each waiver exercised by the state agency. Documentation must be maintained by the state agency summarizing the use of each waiver and how each waiver improved its services to program participants.

In addition, the 2022 Compliance Supplement for the FNS programs listed in this document contain the procedures that auditors would normally follow during customary program operations. Due to COVID-19 and the subsequent closures, as in the case of the public schools, FNS would expect instances when it is not possible to perform certain audit steps as written in the Compliance Supplement. Such instances should be documented by the auditors.

Questions regarding this document should be directed to FNS's Office of Financial Management, Office of Internal Controls, Audits and Investigations at SM.FN.FM-SingleAudits@usda.gov.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.500 COOPERATIVE EXTENSION SERVICE****I. PROGRAM OBJECTIVES**

The National Institute of Food and Agriculture (NIFA) provides formula grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work, which consists of the development of practical applications of research knowledge and practical demonstrations of existing or improved practices or technologies in agriculture, home economics, and rural energy, and related subjects to persons not attending or resident in colleges.

II. PROGRAM PROCEDURES

The Cooperative State Research, Education, and Extension Service (CSREES) became the NIFA on October 1, 2009, per Section 7511(a)(4) of the Food, Conservation, and Energy Act (FCEA) of 2008 (Pub. L. No. 110-246). All authorities of CSREES were transferred to NIFA.

The First Morrill Act of 1862 provided for the establishment of the 1862 land-grant institutions, which are located in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands. The Second Morrill Act of 1890 provided for the support of the 1890 land-grant institutions, including Tuskegee University, West Virginia State University, and Central State University, which are located in 18 states.

The 1862 land-grant institutions receive formula grant funds for cooperative extension work under sections 3(b) and (c) of the Smith-Lever Act (7 USC 343(b) and (c)) and the 1890 land-grant institutions, including Tuskegee University and West Virginia State University, receive formula grant funds for cooperative extension work under Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA). The only exception is the District of Columbia, which receives extension funds under the District of Columbia Public Postsecondary Education Reorganization Act, Pub. L. No. 93-471, as opposed to sections 3(b) and (c) of the Smith-Lever Act.

Funds are allocated to the land-grant institutions based on specified formulas. These formulas are based on the farm and rural populations of each state and include an equal portion distributed to all eligible institutions. These funds support the activities commonly referred to as “base programs.”

Formula funds are also provided to the 1862 and 1890 land-grant institutions under Section 3(d) of the Smith-Lever Act for the Expanded Food and Nutrition Education Program (EFNEP), which is authorized under Section 1425 of NARETPA. These funds are made available to the 1862 and 1890 land-grant institutions in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands. To enable low-income individuals and families to engage in nutritionally sound food purchasing and preparation practices, EFNEP provides for employment and training of professional and paraprofessional aides to engage in direct nutrition education of low-income families and in other appropriate nutrition education programs. To the

maximum extent practicable, program aides are hired from the indigenous target population. Section 7403 of the FCEA amended Section 3(d) of the Smith-Lever Act to provide 1890 institutions and the 1862 institution in the District of Columbia full eligibility to receive funds authorized under Section 3(d) of the Smith-Lever Act (7 USC 343(d)), including EFNEP funds.

The 1862 and the 1890 land-grant institutions are required to submit a 5-Year Plan of Work that describes the extension programs that they intend to administer (7 USC 344 and 3221). Final Revised Guidelines for State Plans of Work for the Agricultural Research and Extension Formula Funds (Guidelines) were published in the *Federal Register* on January 25, 2006, 71 FR 4101-4112. Information about Plans of Work, including previously approved plans, can be found at https://www.nifa.usda.gov/search?search_api_fulltext=Plan+of+Work.

Source of Governing Requirements

The laws governing this program are codified at 7 USC 301-349, 3221, 3222, 3222d, and 3319.

Availability of Other Program Information

Additional program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	Y	Y	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. Formula grant funds may be spent only for the furtherance of cooperative extension work and according to the 5-Year Plan of Work approved by NIFA (7 USC 344 and 3221(d)). This 5-Year Plan of Work may be integrated with the research component of the land-grant institution, which is funded under the Hatch Act, and/or the 5-Year Plan of Work may be a joint plan between an 1862 land-grant institution and an 1890 land-grant institution if they are both located in the same state (see Section II.A.1 of the Guidelines 71 FR 4108).
2. No portion of Smith-Lever Act funds and Section 1444 funds of NARETPA may be applied directly or indirectly “to the purchase, erection, preservation or repair of any building or buildings, or the purchase or rental of land” (7 USC 345 and 3221(e)).
3. No portion of Smith-Lever Act funds and Section 1444 funds under NARETPA may be applied directly or indirectly in college course teaching or lectures in college (7 USC 345 and 3221(e)).

B. Allowable Costs/Cost Principles

1. *Indirect Costs* – No indirect costs or tuition remission may be charged against the formula grant funds authorized under the Smith-Lever Act or under Section 1444 of NARETPA (7 USC 3319).
2. *Retirement Contributions* – Retirement and pension contributions paid from grant funds for individuals whose salaries are paid in whole or in part with grant funds are capped at 5 percent. The deposits and contributions of federal origin must be at least equaled by the grantee (7 USC 331).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. *1862 Land-Grant Institutions in the 50 States* – All formula funds provided to the 1862 land-grant institutions in the 50 states under sections

3(b) and (c) of the Smith-Lever Act must be 100 percent matched. In-kind contributions are not allowed as match for formula funds authorized under sections 3(b) and (c) of the Smith-Lever Act (7 USC 343(e)). Funds provided under Section 3(d) of the Smith-Lever Act (7 USC 343(d)) for EFNEP do not require any matching contributions (7 USC 3175).

- b. *1862 Land-Grant Institution in the District of Columbia* – Effective December 20, 2019, Section 508 of the Agricultural Improvement Act of 2018 (Pub. L. No. 115-334) reinstated the 100 percent match requirement for funds awarded to 1862 land-grant institutions in the District of Columbia. Funds provided under Section 3(d) of the Smith-Lever Act (7 USC 343(d)) for EFNEP do not require any matching contributions (7 USC 3175).
- c. *1862 Land-Grant Institutions in the Commonwealth of Puerto Rico and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands* – The Commonwealth of Puerto Rico and the insular areas must meet a 50 percent matching requirement of the federal formula funds (7 USC 343(e)(4) and 7 USC 301 (note)). The Secretary of Agriculture may waive the matching funds requirement for any fiscal year if the secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year (7 USC 343(e)(4)). “Matching funds” means cash contributions and excludes in-kind matching contributions. Matching funds must be used to support research and extension activities as identified in the approved 5-Year Plan of Work (7 USC 343(e); 7 CFR Part 3419).
- d. *1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University* – Recipients must match 100 percent of federal funds from nonfederal sources. These land-grant institutions may apply for a waiver of the matching funds requirement in excess of 50 percent for any fiscal year. “Matching funds” means cash contributions and excludes in-kind matching contributions. Matching funds must be used to support research and extension activities as identified in the approved 5-Year Plan of Work or for approved qualifying educational activities. Matching funds must be available in the same federal fiscal year as the federal funds. 1890 Land-Grant Institutions, including Tuskegee University, West Virginia State University, and Central State University, may carryover matching funds from one fiscal year to the following fiscal year (7 USC 3222d and 7 CFR Part 3419). Funds provided under Section 3(d) of the Smith-Lever Act (7 USC 343(d)) for EFNEP do not require any matching contributions (7 USC 3175).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

H. Period of Performance

Smith-Lever Act formula funds distributed to the 1862 land-grant institutions may be carried forward five years from the year allocated. For Section 1444 of NARETPA funds allocated to the 1890 land-grant institutions, including Tuskegee University, West Virginia State University, and Central State University, effective beginning on December 20, 2018, Section 7114 of the Agriculture Improvement Act of 2018 (Pub. L. No. 115-334) removed language in the authorization that had previously limited institutions to carrying over no more than 20 percent of their annual Section 1444 allocation to the following fiscal year. As a result, beginning with the fiscal year (FY) 2019 funding, institutions will be allowed to carry as much as 100 percent of their annual Section 1444 allocation over to the following fiscal year.

UNITED STATES DEPARTMENT OF AGRICULTURE

ASSISTANCE LISTING 10.511 SMITH-LEVER 3(b) AND 3(c), SMITH-LEVER SPECIAL NEEDS, and UNIVERSITY OF DISTRICT OF COLUMBIA PUBLIC POSTSECONDARY EDUCATION REORGANIZATION ACT PROGRAM

I. PROGRAM OBJECTIVES

The National Institute of Food and Agriculture (NIFA) provides capacity and non-capacity grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to provide nonformal education and learning activities to people throughout the country—to farmers and other residents of rural communities as well as to people living in urban areas. It emphasizes taking knowledge gained through research and education and bringing it directly to the people to create positive changes.

II. PROGRAM PROCEDURES

A. Overview

In 1914, the Smith Lever Act formalized cooperative extension by establishing USDA's partnership with land-grant universities (LGUs) to apply research and provide education in agriculture. Since its inception, cooperative extension has broadened its impact from rural communities to having a strong presence in America's urban and suburban areas. Extension agents continue to help farmers and ranchers achieve greater success while assisting families with nutrition and home economics and preparing today's youth to become future leaders. Cooperative extension's activities are funded by many of NIFA's capacity and non-capacity grants. These capacity grants provide support for NIFA's extension activities at land-grant institutions through grants to the states on the basis of statutory formulas. Eligibility for funding is limited to institutions that are identified in both Morrill Acts of 1862 and 1890.

The First Morrill Act of 1862 provided for the establishment of the 1862 land-grant institutions that are located in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands. The Second Morrill Act of 1890 provided for the support of the 1890 land-grant institutions, including Tuskegee University, West Virginia State University, and Central State University, which are located in 18 states. The 1862 land-grant institutions receive formula grant funds for cooperative extension work under sections 3(b) and (c) of the Smith-Lever Act (7 USC 343(b) and (c)) and the 1890 land-grant institutions, including Tuskegee University and West Virginia State University, receive formula grant funds for cooperative extension work under Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA). The only exception is the District of Columbia, which receives extension funds under the District of Columbia Public Postsecondary Education Reorganization

Act, Pub. L. No. 93-471, as opposed to sections 3(b) and (c) of the Smith-Lever Act. Section 7403 of the Food, Conservation, and Energy Act (FCEA) amended Section 3(d) of the Smith-Lever Act to provide 1890 institutions and the 1862 institution in the District of Columbia full eligibility to receive funds authorized under Section 3(d) of the Smith-Lever Act (7 USC 343(d)), including Expanded Food and Nutrition Education Program (EFNEP) and Children, Youth, and Families At-Risk (CYFAR) funds.

B. Subprograms/Program Elements

The Smith-Lever 3(b) and 3(c) and Smith-Lever Special Needs Programs

The Smith-Lever 3(b) and 3(c) and Smith-Lever Special Needs Programs are authorized under The Smith-Lever Act, sections 3(b) and 3(c). These programs' purpose is to increase the level of agricultural extension activities and extend its reach to new audiences.

C. Program Funding

Funds are allocated to the land-grant institutions based on specified formulas. These formulas are based on the farm and rural populations of each state and include an equal portion distributed to all eligible institutions. These funds support the activities commonly referred to as "base programs."

Source of Governing Requirements

The laws governing this program are codified at Smith-Lever Act of 1914 7 USC 341-346, 347a-349, Smith Lever Act of 1914 7 USC 343 (d), and Sections 3(b)(1) and 8 of the Smith-Lever Act.

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then

determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

5. *All Pass-Through Entities*

Not applicable

F. Equipment and Real Property Management

No portion of federal funds allotted under a Special Needs grant may be applied, directly or indirectly, to the purchase, erection, preservation, or repair of any building or buildings, or the purchase or rental of land, or in college-course teaching, lectures in college, or any other purpose not specified in the Smith-Lever Act (7 USC 345 (Section 5 of the Smith-Lever Act of 1977)) (2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards).

G. Matching, Level of Effort, Earmarking**1. Matching**

a. *1862 Land-Grant Institutions in the 50 States* – All formula funds provided to the 1862 land-grant institutions in the 50 states under sections 3(b) and (c) of the Smith-Lever Act must be 100 percent matched. In-kind contributions are not allowed as match for formula funds authorized under sections 3(b) and (c) of the Smith-Lever Act (7 USC 343(e)).

b. *1862 Land-Grant Institution in the District of Columbia* – Effective December 20, 2019, Section 508 of the Agricultural Improvement Act of 2018 (Pub. L. No. 115-334) reinstated the 100 percent match requirement

for funds awarded to 1862 land-grant institutions in the District of Columbia.

- c. *1862 Land-Grant Institutions in the Commonwealth of Puerto Rico and the Insular Areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands* – The Commonwealth of Puerto Rico and the insular areas must meet a 50 percent matching requirement of the federal formula funds (7 USC 343(e)(4) and 7 USC 301 (note)). The secretary of agriculture may waive the matching funds requirement for any fiscal year if the secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year (7 USC 343(e)(4)). “Matching funds” means cash contributions and excludes in-kind matching contributions. Matching funds must be used to support research and extension activities as identified in the approved 5-Year Plan of Work (7 USC 343(e); 7 CFR Part 3419).

UNITED STATES DEPARTMENT OF AGRICULTURE

ASSISTANCE LISTING 10.512 AGRICULTURE EXTENSION AT 1890 LAND-GRANT INSTITUTIONS PROGRAM

I. PROGRAM OBJECTIVES

The National Institute of Food and Agriculture (NIFA) provides capacity grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to provide nonformal education and learning activities to people throughout the country—to farmers and other residents of rural communities as well as to people living in urban areas. It emphasizes taking knowledge gained through research and education and bringing it directly to the people to create positive changes.

II. PROGRAM PROCEDURES

A. History of Cooperative Extension

In 1914, the Smith Lever Act formalized cooperative extension by establishing United States Department of Agriculture's (USDA) partnership with land-grant universities (LGUs) to apply research and provide education in agriculture. Since its inception, cooperative extension has broadened its impact from rural communities to having a strong presence in America's urban and suburban areas. Extension agents continue to help farmers and ranchers achieve greater success while assisting families with nutrition and home economics and preparing today's youth to become future leaders. Cooperative extension's activities are funded by many of NIFA's capacity and non-capacity grants. These capacity grants provide support for NIFA's extension activities at land-grant institutions through grants to the states on the basis of statutory formulas. Eligibility for funding is limited to institutions that are identified in both Morrill Acts of 1862 and 1890.

The First Morrill Act of 1862 provided for the establishment of the 1862 land-grant institutions that are located in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands. The Second Morrill Act of 1890 provided for the support of the 1890 land-grant institutions, including Tuskegee University, West Virginia State University, and Central State University, which are located in 18 states. The 1862 land-grant institutions receive formula grant funds for cooperative extension work under sections 3(b) and (c) of the Smith-Lever Act (7 USC 343(b) and (c)) and the 1890 land-grant institutions, including Tuskegee University and West Virginia State University, receive formula grant funds for cooperative extension work under Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA). The only exception is the District of Columbia, which receives extension funds under the District of Columbia Public Postsecondary Education Reorganization Act, Pub. L. No. 93-471, as opposed to sections 3(b) and (c) of the Smith-Lever Act. Section 7403 of the Food, Conservation, and Energy Act (FCEA) amended Section 3(d) of the Smith-Lever Act to provide 1890 institutions and the 1862 institution in the District of Columbia full eligibility to receive funds authorized under Section 3(d) of the

Smith-Lever Act (7 USC 343(d)), including Expanded Food and Nutrition Education Program (EFNEP) and Children, Youth, and Families At-Risk (CYFAR) funds.

B. Subprograms/Program Elements

The Agricultural Extension at 1890 Land-Grant Institutions

The Agricultural Extension at 1890 Land-Grant Institutions program is authorized under Section 1444 of NARETPA, enacted as Title XIV of Pub. L. No. 95–113 (The Food and Agriculture Act of 1977) on September 29, 1977, is also known as the Section 1444 Program. The capacity program assists diverse audiences, particularly those who have limited social and economic resources. Funding supports practices and opportunities that respond to the changing needs of stakeholders. It also supports training for farmers and landowners from underrepresented groups, to acquire adequate capital, adopt new technologies, and use estate planning and tax incentive programs to retain operations and increase profitability.

C. Program Funding

The purpose of this funding is to support agricultural and forestry extension activities at 1890 Land-Grant Institutions, including Tuskegee University, West Virginia State University, and Central State University. Funds are allocated to the 1890 land-grant institutions based on specified formulas. These formulas are based on the farm and rural populations of each state and include an equal portion distributed to all eligible institutions. These funds support the activities commonly referred to as “base programs.”

Source of Governing Requirements

The laws governing this program are codified at Section 1444 of NARETPA, 7 USC 3222.

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

UNITED STATES DEPARTMENT OF AGRICULTURE

ASSISTANCE LISTING 10.514 EXPANDED FOOD AND NUTRITION EDUCATION PROGRAM (EFNEP)

I. PROGRAM OBJECTIVES

The National Institute of Food and Agriculture (NIFA) provides capacity and non-capacity grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to provide nonformal education and learning activities to people throughout the country—to farmers and other residents of rural communities as well as to people living in urban areas. It emphasizes taking knowledge gained through research and education and bringing it directly to the people to create positive changes. The EFNEP program provides for employment and training of professional and paraprofessional aides to engage in direct nutrition education of low-income families and in other appropriate nutrition education programs. To the maximum extent practicable, program aides are hired from the indigenous target population.

II. PROGRAM PROCEDURES

A. Overview

In 1914, the Smith Lever Act formalized cooperative extension by establishing United States Department of Agriculture's (USDA) partnership with land-grant universities (LGUs) to apply research and provide education in agriculture. Since its inception, cooperative extension has broadened its impact from rural communities to having a strong presence in America's urban and suburban areas. Extension agents continue to help farmers and ranchers achieve greater success, while assisting families with nutrition and home economics and preparing today's youth to become future leaders. Cooperative extension's activities are funded by many of NIFA's capacity and non-capacity grants. These capacity grants provide support for NIFA's extension activities at land-grant institutions through grants to the states on the basis of statutory formulas. Eligibility for funding is limited to institutions that are identified in both Morrill Acts of 1862 and 1890.

The First Morrill Act of 1862 provided for the establishment of the 1862 land-grant institutions, which are located in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands. The Second Morrill Act of 1890 provided for the support of the 1890 land-grant institutions, including Tuskegee University, West Virginia State University, and Central State University, which are located in 18 states. The 1862 land-grant institutions receive formula grant funds for cooperative extension work under sections 3(b) and (c) of the Smith-Lever Act (7 USC 343(b) and (c)) and the 1890 land-grant institutions, including Tuskegee University and West Virginia State University, receive formula grant funds for cooperative extension work under Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA). The only exception is the District of Columbia, which receives extension funds under the District of Columbia Public Postsecondary Education Reorganization Act, Pub. L. No. 93-471, as opposed to sections 3(b) and (c) of the Smith-Lever Act. Section 7403 of the Food, Conservation, and Energy Act (FCEA) amended

Section 3(d) of the Smith-Lever Act to provide 1890 institutions and the 1862 institution in the District of Columbia full eligibility to receive funds authorized under Section 3(d) of the Smith-Lever Act (7 USC 343(d)), including Expanded Food and Nutrition Education Program (EFNEP) and Children, Youth, and Families At-Risk (CYFAR) funds.

B. Subprograms/Program Elements

Expanded Food and Nutrition Education Program (EFNEP)

The EFNEP is authorized under Section 3(d) of the Smith-Lever Act provides that the secretary of agriculture may fund extension work in several states, territories, and possessions. Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (as amended) (7 USC 3175) is also known as the EFNEP. This law provides the basis for federal funding for extension activities associated with disseminating the results of food and nutrition research performed or funded by the USDA to enable low-income individuals and families to engage in nutritionally sound food purchase and preparation practices. The EFNEP program provides for employment and training of professional and paraprofessional aides to engage in direct nutrition education of low-income families and in other appropriate nutrition education programs. To the maximum extent practicable, program aides are hired from the indigenous target population.

EFNEP funding extends to state land-grant colleges and universities established under the Morrill Act of July 2, 1862, as amended, and the Morrill Act of August 30, 1890, as amended, including Tuskegee University and West Virginia State University. Further, in accordance with Section 7129 of the Agricultural Act of 2014 (House Conference Report 113-333, to accompany HR 2642), Central State University has the designation as an 1890 Institution and is eligible to receive funds under this program beginning in fiscal year (FY) 2016.

C. Program Funding

Programmatic funds are provided to the 1862 and 1890 land-grant institutions under Section 3(d) of the Smith-Lever Act for EFNEP, which is authorized under Section 1425 of NARETPA. These funds are made available to the 1862 and 1890 land-grant institutions in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands.

Source of Governing Requirements

The law governing this program is Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (as amended) 7 USC 3175.

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	N	N	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. EFNEP federal funding must be used on NIFA approved EFNEP projects per 7 USC 3175 (Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977) and 7 USC 343(d) (Section 3(d) of the Smith-Lever Act).
2. No portion of Smith-Lever Act funds and Section 1444 funds of NARETPA may be applied directly or indirectly “to the purchase, erection, preservation or repair of any building or buildings, or the purchase or rental of land” (7 USC 345 and 3221(e)).
3. No portion of Smith-Lever Act funds and Section 1444 funds under NARETPA may be applied directly or indirectly in college course teaching or lectures in college (7 USC 345 and 3221(e)).

B. Allowable Costs/Cost Principles

1. *Indirect Costs* – Not allowed (7 USC 3319 (Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended)).

C. Cash Management

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.515 RENEWABLE RESOURCES EXTENSION ACT
(RREA) and NATIONAL FOCUS FUNDS (RREA-NFF)****I. PROGRAM OBJECTIVES**

The National Institute of Food and Agriculture (NIFA) provides capacity and non-capacity grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to facilitate the development of practical applications of research knowledge and practical demonstrations of existing or improved practices or technologies in agriculture, home economics, and rural energy, and related subjects to persons not attending or resident in colleges. The purpose of the Renewable Resources Extension Act program funding is to assist states in carrying out an extension program designed to assist forest and range landowners and managers in making resource management decisions based on research findings. Forest and rangeland resources include vegetation, water, fisheries and wildlife, soil, and recreation.

II. PROGRAM PROCEDURES**A. Overview and Program Elements**

Congress passed the Renewable Resources Extension Act (RREA) on June 30, 1978, and it was signed into law as Pub. L. No. 95-306, 92 Stat. 349, 16 USC 1671 et seq. The RREA is an Act “To provide for an expanded and comprehensive extension program for forest and rangeland renewable resources.” It is intended to provide educational programs dealing with renewable resources on forest and rangeland and to develop and implement extension educational programs that give special attention to the educational needs of small, private, nonindustrial forest landowners and rangeland owners/managers. The Act is also intended to assist in providing continuing education programs for natural resource professionals working in fish and wildlife, forest, range, and watershed management, and related fields. The original Act was effective for the period October 1, 1978, ending September 30, 2000. Since then, RREA has been re-authorized as a Farm Bill program for five-year increments. The original Act authorized funding was \$15,000,000 per fiscal year. Later reauthorizations of the program increased the authorized funding level to \$30,000,000 per fiscal year.

B. Program Funding

States are eligible for programmatic funds appropriated under this Act according to the respective capabilities of their private forests and rangelands for yielding renewable resources and relative needs for such resources identified in the periodic Renewable Resource Assessment provided for in Section 3 of the Forest and Rangeland Renewable Resources Planning Act of 1974 and the periodic appraisal of land and water resources provided for in Section 5 of the Soil and Water Resources Conservation Act of 1977.

Source of Governing Requirements

The laws governing this program are codified at Renewable Resources Extension Act 16 USC 1671 et seq. and RREA of 1978 16 USC 1671 et seq.

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.516 RURAL HEALTH AND SAFETY****I. PROGRAM OBJECTIVES**

The Rural Health and Safety Education (RHSE) program addresses the health and well-being of rural America through supporting the development and/or implementation of projects focused on (1) individual and family health education programs with specified contents; (2) rural health leadership development education programs to assist rural communities in developing health care services and facilities and assist community leaders and public officials in understanding their roles and responsibilities; and (3) farm safety education programs to provide information and training to farm workers, timber harvesters, and farm families.

II. PROGRAM PROCEDURES**A. Overview**

Authorization for the Rural Health and Safety Education (RHSE) program is under Section 502 (i) of Title V of the Rural Development Act of 1972, as amended (7 USC 2662). Title V of the Rural Development Act of 1972 is to foster quality of life in rural communities by providing the essential knowledge necessary for successful programs of rural development, improving coordination among federal agencies, other levels of government, and institutions and private organizations in rural areas, and developing and disseminating information about rural conditions. Section 502(a) of the act authorizes that United States Department of Agriculture (USDA) may support colleges and universities as they implement extension programs.

B. Program Funding

The 1862 and 1890 Land Grant colleges and universities that are eligible to receive funds under the Act of July 2, 1862 (7 USC 301 et seq.) and the Act of August 30, 1890 (7 USC 321 et seq.), including Central State University, Tuskegee University, and West Virginia State University are eligible for funding. Applications also may be submitted by any of the tribal colleges and universities designated as 1994 Land Grant Institutions under the Educational Land-Grant Status Act of 1994, as amended.

Source of Governing Requirements

The laws governing this program are codified at Section 502 (i) of Title V of the Rural Development Act of 1972, as amended 7 USC 2662.

Availability of Other Program Information

Other program information is available from the National Institute of Food and Agriculture (NIFA) website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	N	N	Y	Y	N

A. Activities Allowed or Unallowed

Per 7 USC 2662(i) (Section 502(i) of the Rural Development Act of 1972) and 7 USC 3310(a) and (c) (Section 1462(a) and (c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977), NIFA has determined that grant funds awarded under this authority may not be used for:

- General Purpose Equipment – Equipment that does not have a particular scientific, technical, or programmatic purpose. It includes passenger carrying vehicles, typewriters, furniture (e.g., tables, chairs, file cabinets, book cases), copy machines, fax machines, and so forth;
- Entertainment – Banquets, awards ceremonies, and meals for persons not in a travel status, tickets to shows or sporting events, and alcoholic beverages;
- Incentives – Federal funds may not be used to offer targeted program participants incentives (e.g., fast-food coupons, gift certificates) to entice participation. This is prohibited under the OMB Circulars;
- Renovation or refurbishment of research, education, or extension space;

- Purchase or installation of fixed equipment in such space;
- Planning, repair, rehabilitation, acquisition, or construction of buildings or facilities; and
- Any expense that is not directly related to the program or project would be considered unallowable. Costs such as child care services hired so that a person can attend a meeting or kitchen help hired to prepare refreshments for a field day, promotional or thank-you gifts such as T-shirts, coffee mugs, or canvas carry-all bags are unallowable because they are not directly related to the project plan.

B. Allowable Costs/Cost Principles

1. Section 713 of the Consolidated Appropriations Act, 2017 (Pub. L. No. 115-31) limits indirect costs to 30 percent of the total federal funds provided (or 42.857 percent of total direct costs) under each award. Therefore, when preparing budgets, requests for the recovery of indirect costs to the lesser of an institution's official negotiated indirect cost rate or the equivalent of 30 percent of total federal funds awarded. See Part V section 7.9 of the NIFA Grants.gov Application Guide for further indirect cost information. See webpage at <https://nifa.usda.gov/indirect-costs> for indirect cost options.

C. Cash Management

1. *Grants and Cooperative Agreements to States*
Applicable
2. *Grants and Cooperative Agreements to Nonfederal Entities Other Than States*
Applicable
3. *Cost-reimbursement Contracts Under the Federal Acquisition Regulation*
Not applicable
4. *Loans, Loan Guarantees, Interest Subsidies, and Insurance*
Not applicable
5. *All Pass-Through Entities*
Applicable

F. Equipment and Real Property Management

NIFA has determined that grant funds awarded under this authority may not be used for:

- General Purpose Equipment – Equipment that does not have a particular scientific, technical, or programmatic purpose. It includes passenger carrying

vehicles, typewriters, furniture (e.g., tables, chairs, file cabinets, bookcases), copy machines, fax machines, and so forth (2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (UG). Per NIFA award terms and conditions, prior approval is required for general purpose equipment exceeding \$5,000 and special purpose equipment exceeding \$250,000.).

- Renovation or refurbishment of research, education, or extension space (7 USC 2662(i) (Section 502(i) of the Rural Development Act of 1972));
- Purchase or installation of fixed equipment in such space;
- Planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

UNITED STATES DEPARTMENT OF AGRICULTURE

ASSISTANCE LISTING 10.517 TRIBAL COLLEGE EXTENSION PROGRAM (TCEP) and SPECIAL EMPHASIS (TCEP-SE), and FEDERALLY RECOGNIZED TRIBES EXTENSION PROGRAM (FRTEP)

I. PROGRAM OBJECTIVES

The National Institute of Food and Agriculture (NIFA) provides capacity and non-capacity grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to facilitate the development of practical applications of research knowledge and practical demonstrations of existing or improved practices or technologies in agriculture, home economics, and rural energy, and related subjects to persons not attending or resident in colleges. The purpose of the Tribal Colleges Extension Program (TCEP) is to give reservation communities opportunities for enhanced agricultural productivity, community resilience, economic growth, and youth development by extending the reach of innovations in research and technology and enhancing informal, local educational programming. The purpose of FRTEP is to establish an extension program presence and support extension program outreach on Federally Recognized Indian Reservations and tribal jurisdictions of Federally Recognized Tribes.

II. PROGRAM PROCEDURES

A. Overview

In 1914, the Smith Lever Act formalized cooperative extension by establishing the United States Department of Agriculture's (USDA) partnership with land-grant universities (LGUs) to apply research and provide education in agriculture. Since its inception, cooperative extension has broadened its impact from rural communities to having a strong presence in America's urban and suburban areas. Extension agents continue to help farmers and ranchers achieve greater success while assisting families with nutrition and home economics and preparing today's youth to become future leaders. Cooperative extension's activities are funded by many of NIFA's capacity and non-capacity grants. These capacity grants provide support for NIFA's extension activities at land-grant institutions through grants to the states on the basis of statutory formulas.

In 1994, twenty-nine tribal colleges received land-grant university (LGU) status, giving them access to federal government resources that would improve the lives of Native students through higher education and help propel American Indians toward self-sufficiency. These resources also support innovative research, education, and extension programs that positively impact agriculture and food production.

1. *Tribal College Extension Program (TCEP) and Special Emphasis (TCEP-SE)*

The TCEP program and TCEP-SE are authorized under Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 (7 USC 301 note), as amended by the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 USC 7601). This section amends Section 3 of the Act of May

8, 1914 (Smith-Lever Act) (7 USC 341 et seq.), as amended. Under this authority, appropriated funds are to be awarded to the 1994 Land-Grant Institutions (hereinafter referred to as 1994 Institutions) for extension program work and funds are to be distributed on the basis of a competitive application process.

2. *Federally Recognized Tribes Extension Program (FRTEP)*

The FRTEP is authorized under Section 3(d) of the Act of May 8, 1914, Smith-Lever Act, ch. 79, 38 Stat. 372, 7 USC 341 et seq. Section 7403 of the Food, Conservation, and Energy Act of 2008 (FCEA) (Pub. L. No. 110-246) amended Section 3(d) of the Smith-Lever Act to require funds to be awarded competitively.

B. Subprograms/Program Elements

The purpose of the TCEP and TCEP-SE is to give reservation communities opportunities for enhanced agricultural productivity, to help supplement their existing extension capacity program, community resilience, economic growth, and youth development by extending the reach of innovations in research and technology and enhancing informal, local educational programming.

The purpose and intent of FRTEP is to establish an extension program presence and support extension program outreach on Federally Recognized Indian Reservations and tribal jurisdictions of Federally Recognized Tribes.

C. Program Funding

1. *Tribal College Extension Program (TCEP) and Special Emphasis (TCEP-SE)*

The expectation is that each 1994 institution that submits an extension capacity grant will receive funding so long as the application is of sufficient quality. Institutions will compete for the amount of funding they receive.

2. *Federally Recognized Tribes Extension Program (FRTEP)*

Section 3(d) of the Smith-Lever Act provides that the secretary of agriculture may fund extension work in the several states, territories, and possessions.

Source of Governing Requirements

The laws governing this program are codified at Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 and Smith Lever Act of 1914 7 USC 343 (d).

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	N	N	Y	Y	N

A. Activities Allowed or Unallowed

- Neither equity nor research projects are supported under TCEP (7 USC 301 note (Section 3(b)(3) of the Smith-Lever Act, as added by Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994)).

B. Allowable Costs/Cost Principles

Tribal College Extension Program (TCEP) and Special Emphasis (TCEP-SE) (7 USC 3319 (Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977))

- Indirect costs are unallowable.
- The use of grant funds to plan, acquire, or construct a building or facility, or to acquire land, is not allowed under this program. With prior approval, in accordance with the cost principles set forth in 2 CFR 200.403(e), grant funds may be used to purchase equipment, or for improvements, alterations, renovations, or repairs to land, buildings, or equipment, deemed necessary to retrofit existing spaces and resources in order to carry out a funded project under this grant. However, requests to use grant funds for such purposes must be aligned with the goals and objectives of the project. Any equipment purchased with federal funds is the property of the grantee or the sub-grantee, as appropriate.

Federally Recognized Tribes Extension Program (FRTEP) (7 USC 343(d) Section 3(d) of the Smith-Lever Act))

1. Pursuant to Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (91 Stat. 981), indirect costs are unallowable costs under Section 3(d) of the Smith-Lever Act, and no funds will be approved for this purpose. Costs that are a part of an institution's indirect cost pool may not be reclassified as direct costs for the purpose of making them allowable. Award recipients may sub-contract to organizations not eligible to apply, provided such organizations are necessary for the success of the project.
2. Renovation and refurbishment of research, extension, and education space is not allowable.
3. Tuition remission is not allowable.

C. Cash Management

1. *Grants and Cooperative Agreements to States*
Applicable
2. *Grants and Cooperative Agreements to Nonfederal Entities Other Than States*
Applicable
3. *Cost-reimbursement Contracts Under the Federal Acquisition Regulation*
Not applicable
4. *Loans, Loan Guarantees, Interest Subsidies, and Insurance*
Not applicable
5. *All Pass-Through Entities*
Not allowed

F. Equipment and Real Property Management

Grant funds awarded under this authority may not be used to renovate or refurbish research, education, or extension space; purchase or install fixed equipment in such space; or to plan, repair, rehabilitate, acquire, or construct buildings or facilities (7 USC 301 note (Section 3(b)(3) of the Smith-Lever Act, as added by Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994); 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (UG); and 7 USC 345 (Section 5 of the Smith-Lever Act of 1977)).

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

Not Applicable

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.520 AGRICULTURE RISK MANAGEMENT EDUCATION PARTNERSHIP GRANTS (ARPA)****I. PROGRAM OBJECTIVES****Agriculture Risk Management Education Program**

Section 524(a) of the Federal Crop Insurance Act (7 USC 1524(a)), as amended by section 133 of the Agricultural Risk Protection Act of 2000 and section 11125 of the 2018 Farm Bill (Pub. L. No. 115-334), establishes a competitive grants program for educating agricultural producers and providing technical assistance to agricultural producers on a full range of farm viability and risk management activities. These activities include futures, options, agricultural trade options, crop insurance, business planning, enterprise analysis, transfer and succession planning, management coaching, market assessment, cash flow analysis, cash forward contracting, debt reduction, production diversification, farm resources risk reduction, farm financial benchmarking, conservation activities, and other appropriate risk management strategies. This program brings the existing knowledge base to bear on risk management issues faced by agricultural producers and expands the program throughout the nation on a regional and multi-regional basis.

The Agriculture Risk Management Education Partnership program is a competitive grants program to educate agricultural producers about the full range of risk management activities. These activities include futures, options, agricultural trade options, crop insurance, cash forward contracting, debt reduction, production diversification, marketing plans and tactics, farm resources risk reduction, and other appropriate risk management strategies. The Risk Management Education (RME) program brings the existing knowledge base to bear on risk management issues faced by agricultural producers and expands the program throughout the nation on a regional and multi-regional basis.

The National Institute of Food and Agriculture (NIFA) provides capacity and non-capacity grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to facilitate the development of practical applications of research knowledge and practical demonstrations of existing or improved practices or technologies in agriculture, home economics, and rural energy, and related subjects to persons not attending or resident in colleges.

II. PROGRAM PROCEDURES**A. Overview**

The Agriculture Risk Management Education Partnership program is authorized under Section 133 of the Agricultural Risk Protection Act of 2000 (ARPA) (Pub. L. No. 106-224), as amended the Federal Crop Insurance Act to add section 524(a) (3); 7 USC Section 1501, as amended by Section 132(a) and Section 524; and Section 11125 of the 2018 Farm Bill (Pub. L. No. 115-334), which requires the secretary, acting through NIFA, to establish a competitive grants program to educate agricultural producers about the full range of risk management activities.

B. Subprograms/Program Elements

Agriculture Risk Management Education Partnership

As amended section 524(a) of the Federal Crop Insurance Act, 7 USC 1524(a) was further amended by Section 12026 of the Food, Conservation, and Energy Act of 2008, (FCEA) (Pub. L. No. 110-246), which requires that the secretary place special emphasis on risk management strategies, education, and outreach specifically targeted at: (a) beginning farmers or ranchers; (b) legal immigrant farmers or ranchers that are attempting to become established producers in the United States; (c) socially disadvantaged farmers or ranchers; (d) farmers or ranchers who (i) are preparing to retire and (ii) are using transition strategies to help new farmers or ranchers get started; and (e) new or established farmers or ranchers that are converting production and marketing systems to pursue new markets.

C. Program Funding

This program makes five awards, one award to each regional center (Northeast Region, North Central Region, Southern Region, and the Western Region) and one award to the Risk Management Education Electronic Support Center (RMEESC).

The purpose of the four regional RME centers is to conduct regional and multi-regional based competitive grants programs for the purpose of funding agricultural risk management organizations and individuals that are risk management experts. Also, these organizations and individuals have the knowledge and experience in developing various risk management curricula and delivering to agencies, institutions, and professionals involved in risk management serving farmers and their families.

The purpose of the RMEESC is to provide supporting services to the four regional centers. Support to the four regional RME centers will include electronic, on-line submission of proposals to the four regional centers sub-awards competitive grants programs, provision of a results verification system that includes both progress report and final report templates for the sub-awards process, national communications planning and execution for the program, assistance in coordination of events and conferences as directed, and archival support for all materials and curriculum developed through the regional center sub-awards competitive grants programs.

Source of Governing Requirements

The laws governing this program are codified at Section 524(a) of the Federal Crop Insurance Act 7 USC 1524(a).

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	N	N	Y	Y	N

A. Activities Allowed or Unallowed

Award recipients may subcontract to organizations necessary for the conduct of the project (7 USC 1524(a)(3) (Section 524(a)(3) of the Federal Crop Insurance Act) and 7 USC 3310(a) and (c) (Section 1462(a) and (c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended)).

B. Allowable Costs/Cost Principles

- Section 715 of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. No. 113-235), limits indirect costs to 30 percent of the total federal funds provided under each award. Therefore, when preparing budgets, applicants should limit their requests for recovery of indirect costs to the lesser of their institution’s official negotiated indirect cost rate or the equivalent of 30 percent of total federal funds awarded. See Part V section 7.9 of the NIFA Grants.gov Application Guide for further indirect cost information.
- Grants awarded under this authority may not use funds to renovate or refurbish research, education, or extension space; purchase or install fixed equipment in such space; or plan, repair; rehabilitate, acquire, or construction (7 USC 1524(a)(3) (Section 524(a)(3) of the Federal Crop Insurance Act) and 7 USC 3310(a) and (c) (Section 1462(a) and (c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended)).

C. Cash Management

1. *Grants and Cooperative Agreements to States*
Applicable
2. *Grants and Cooperative Agreements to Nonfederal Entities Other Than States*
Applicable
3. *Cost-reimbursement Contracts Under the Federal Acquisition Regulation*
Not applicable
4. *Loans, Loan Guarantees, Interest Subsidies, and Insurance*
Not applicable
5. *All Pass-Through Entities*
Applicable

F. Equipment and Real Property Management

Grant funds awarded under this authority may not be used to renovate or refurbish research, education, or extension space; purchase or install fixed equipment in such space; or plan, repair, rehabilitate, acquire, or construction of buildings or facilities. Per NIFA's award terms and conditions, prior approval is required for general purpose equipment exceeding \$5,000; and special purpose equipment exceeding \$250,000 (2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (UG) and 7 USC 1524(a)(3) (Section 524(a)(3) of the Federal Crop Insurance Act)).

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.521 CHILDREN, YOUTH, AND FAMILIES AT-RISK
(CYFAR)****I. PROGRAM OBJECTIVES**

The National Institute of Food and Agriculture (NIFA) provides competitive grant funds to the 1862 land-grant institutions and the 1890 land-grant institutions for cooperative agricultural extension work. The objective of cooperative extension work is to provide nonformal education and learning activities to people throughout the country—to farmers and other residents of rural communities as well as to people living in urban areas. It emphasizes taking knowledge gained through research and education and bringing it directly to the people to create positive changes. The Children, Youth, and Families At-Risk (CYFAR) program provides funding to land-grant university extension services for community-based Sustainable Community Projects (SCP) to expand statewide (and territories') capacity to support and sustain programming for at risk or high need vulnerable youth and families.

II. PROGRAM PROCEDURES**A. Overview**

The CYFAR program is authorized under Section 3(d) of the Smith-Lever Act (7 USC 341 et seq.), as amended and other relevant authorizing legislation, which provides jurisdictional basis for the establishment and operation of extension educational work for the benefit of youth and families in communities.

B. Subprograms/Program Elements**1. *Children, Youth, and Families At-Risk (CYFAR) Program***

The program's vision is a nation of strong, resilient families and communities in which children and youth lead positive, secure, and happy young lives while developing the skills, knowledge, and competencies necessary for fulfilling, contributing adult lives. The program is based on research on effective programs for at-risk youth and families and on the human ecological principle of working across the lifespan in the context of the family and community. CYFAR integrates resources of the land-grant university system to develop and deliver educational programs that equip limited-resource families and youth who are at risk for not meeting basic human needs to lead positive, productive, and contributing lives.

CYFAR subprograms include:

- Professional Development and Technical Assistance (PDTA)
- CYFAR – Sustainable Community Projects (SCP); and
- 4-H Military Partnership

C. Program Funding

Programmatic funds are provided to the 1862 and 1890 land-grant institutions under Section 3(d) of the Smith-Lever Act for CYFAR, which is authorized under Section 1425 of National Agricultural Research, Extension, and Teaching Policy Act (NARETPA). These funds are made available to the 1862 and 1890 land-grant institutions in the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the insular areas of American Samoa, Guam, Micronesia, Northern Marianas, and the Virgin Islands.

Source of Governing Requirements

The laws governing this program are codified at Smith-Lever Act of 1914, 7 USC 343 (d); (7 USC 341, et seq.), and 7 USC 3319 (Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977).

Availability of Other Program Information

Other program information is available from the NIFA website at <http://www.nifa.usda.gov>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. Competitive grant funds may be spent only for the furtherance of cooperative extension work and according to the 5-Year Plan of Work approved by NIFA (7 USC 344 and 3221(d)). This 5-Year Plan of Work may be integrated with the research component of the land-grant institution, which is funded under the Hatch Act, and/or the 5-Year Plan of Work may be a joint plan between an 1862 land-grant institution and an 1890 land-grant institution if they are both located in the same state (see Section II.A.1, of the Guidelines, 71 FR 4108).

Plan of Work requirements (7 USC 344 [Section 5 of the Smith-Lever Act of 1977]) for the subprograms are as follows:

- a. CYFAR – PDTA: 5-Year Plan
 - b. CYFAR – SCP: 4-Year Plan
 - c. CYFAR Military: 3-Year Plan
2. No portion of Smith-Lever Act funds and Section 1444 funds of NARETPA may be applied directly or indirectly “to the purchase, erection, preservation or repair of any building or buildings, or the purchase or rental of land” (7 USC 345 and 3221(e)).
 3. No portion of Smith-Lever Act funds and Section 1444 funds under NARETPA may be applied directly or indirectly in college course teaching or lectures in college (7 USC 345 and 3221(e)).

B. Allowable Costs/Cost Principles

1. Indirect Costs – Not allowed (7 USC 3319 [Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended])

C. Cash Management

1. *Grants and Cooperative Agreements to States*
Applicable
2. *Grants and Cooperative Agreements to Nonfederal Entities Other Than States*
Applicable
3. *Cost-reimbursement Contracts Under the Federal Acquisition Regulation*
Not applicable
4. *Loans, Loan Guarantees, Interest Subsidies, and Insurance*
Not applicable

5. *All Pass-Through Entities*

Applicable

F. Equipment and Real Property Management

Grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or Extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities. (7 USC 345 [Section 5 of the Smith-Lever Act of 1977] and 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.)

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.542 PANDEMIC EBT FOOD BENEFITS (P-EBT)****I. PROGRAM OBJECTIVES**

The objective of the of the Pandemic Electronic Benefit Transfer (P-EBT) program is to provide nutrition assistance on EBT cards for: (1) school age children who would have received free or reduced price school meals under the National School Lunch Program (NSLP) and School Breakfast Program (SBP) had their schools not been closed or operating with reduced hours for at least five (5) consecutive days due to the COVID-19 public health emergency; and (2) children in child care whose child care facility is closed or has reduced attendance or who live in the area of a school that is closed or has reduced attendance due to the COVID-19 public health emergency.

II. PROGRAM PROCEDURES**A. Overview**

P-EBT was authorized and funded in section 1101 of the Families First Coronavirus Response Act (FFCRA, Pub. L. No. 116-127), and has been amended twice, most recently through the Consolidated Appropriations Act, 2021 (Pub. L. No. 116-260). The program is administered at the federal level by the Food and Nutrition Service (FNS) of the US Department of Agriculture (USDA) through grants to state agencies. Each state agency submits an application to operate the program for a given period. If approved, USDA enters into an agreement with the state agency to operate in accordance with their plan.

P-EBT was first authorized in March 2020 and was initially only available to school children. USDA provided guidance on program implementation and state agencies submitted plans detailing how their programs would operate within the guidance. USDA approved all fifty states, the District of Columbia, the US Virgin Islands, and Guam to implement P-EBT in school year (SY) 2019–2020 from the time that schools closed until the end of the school year. Congress amended the statute for SY 2020–2021 to: (1) revise programmatic requirements; (2) add an option for states to serve children in child care; and (3) allow Puerto Rico, the Commonwealth of the Northern Mariana Islands, and American Samoa to operate P-EBT programs. USDA issued updated guidance in January 2021 to reflect statutory changes and worked with state agencies to develop and approve plans to serve school children and children in child care through the end of federal fiscal year 2021.

B. Benefits

Through P-EBT, eligible children received benefits on EBT cards that could have been used to purchase food at stores that accepted Supplemental Nutrition Assistance Program (SNAP) benefits. They must have used these program benefits to purchase foods for preparation and consumption at home. The amount of a child's benefit payment depended on the daily rate established by USDA, and the number of days that the child did not receive school meals due to COVID, or the status of child care or schools in the area. The

daily rate for SY 2019–2020 was \$5.70, which is equal to the value of the USDA free reimbursement for one breakfast and one lunch in SY 2019–2020. For SY 2020–2021, the daily rate was \$6.82, which included the value of free reimbursement for one breakfast, one lunch, and one afterschool snack in that school year.

C. Program Funding

Since the program’s inception, the federal government has paid 100 percent of the value of P-EBT benefits. Beginning October 1, 2020, 100 percent of administrative costs have also been paid by the federal government. Food benefit funding was provided through an account with the Federal Reserve Bank of Richmond, in the same manner as SNAP food benefits. Administrative funds were provided through a grant to the state agency that administers SNAP. It was the responsibility of the recipient agency to request sufficient funds to cover all program costs, and to distribute funds among program partners (e.g., the agency that administered the school meals programs), as necessary.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	N	N	Y	N	N	N	Y	N	Y	N	N

A. Activities Allowed or Unallowed

The authorizing statute, Section 1101 of the Families First Coronavirus Response Act (Pub. L. No. 116-127, as amended) is the authority for the administration of P-EBT. In addition, approved **state** agencies must implement the program in accordance with their

approved plans. Use of funds made available for P-EBT must also comply with government accounting and record keeping requirements in 2 CFR 200.

1. Issuing benefit levels at the appropriate amount

Compliance Requirements State agencies determined benefit levels for individual students in a number of ways. Some state agencies counted the number of days that free or reduced price eligible students did not attend school in-person and therefore did not have access to meals at school. Other state agencies set common benefits for all children based on the predominant learning model (in-person, virtual, or mixed) at the school level or school district level. The FFCRA, as amended, provided for state agency use of simplifying assumptions and the use of “best feasibly available data” to identify eligible students and set benefit levels. State agencies used of these flexibilities as outlined in their USDA-approved state plans. Compliance with those plans is the objective of the audit.

Audit Objectives Confirm that state agencies set benefit levels consistent with the process outlined in their USDA-approved P-EBT plans.

Suggested Audit Procedures

- a. Confirm that the state agency instructed schools and school districts appropriately in order to collect the data necessary to set benefit levels consistent with the terms of the state plan.
- b. Confirm that the state agency properly set benefit levels using the data collected from schools and school districts.
- c. Confirm that the state agency collected updated data from schools or school districts throughout the school year consistent with the terms of the state’s approved plan.

E. Eligibility

1. Eligibility for States

All states, the District of Columbia, the US Virgin Islands, and Guam have been eligible to operate P-EBT programs since it was passed into law in March 2020. The October 2020 Continuing Appropriations Act, 2021, and Other Extensions Act (Pub. L. No. 116-159) amended the statute to extend eligibility to Puerto Rico, the Commonwealth of the Northern Mariana Islands, and America Samoa. State agencies and territories must submit an application and be approved by USDA to operate a P-EBT program.

2. Eligibility for Participants

The method of determining program eligibility varied based on the population of children, the time frame for which the determination was made, and changes to the statute over time.

For SY 2019–2020, schools were generally closed for in-person learning from early spring through the end of the school year. During this time period, eligible school children were those who would have received free or reduced-price meals, had their schools not been closed or operating with reduced hours for at least five (5) consecutive days due to COVID-19. For SY 2020–2021, many schools taught children at the school site at least part of the time and provide meals to children when they were learning in-person. Therefore, the same eligibility standards apply, but benefits were provided based on the number of days that the child did not receive free or reduced-price meals at the school because the school was closed or operating with reduced attendance or hours.

In accordance with the statute, state agencies could provide P-EBT benefits to children in child care beginning October 1, 2020. To be eligible to participate, a child: (1) must have been a member of a household that received SNAP benefits; (2) must have been enrolled in a covered child care facility (although the statute deems all SNAP-enrolled children under 6 to be enrolled in such a facility); and (3) must have been enrolled in a child care facility that was closed or had reduced attendance or hours, or one or more schools in the area of the child care facility, or in the area of the child’s residence, must have been closed or had reduced attendance or hours.

For SY 2020–2021, the statute allowed state agencies to propose simplified assumptions that made use of the best feasibly available data to determine that the status of a school or covered child care facility was open, closed, or did operate with a reduced number of days or hours; to identify children eligible for benefits; and to establish benefit levels and eligibility periods.

a. Targeting children eligible for free or reduced-price school meal benefits

Compliance Requirements Eligibility for P-EBT benefits is limited to children who would have received free or reduced-price meals at the schools had their schools not been closed or operating with reduced hours for at least five (5) consecutive days due to the COVID health emergency. The FFCRA allows state agencies to make simplifying assumptions and use best feasibly available data to identify eligible children and set benefit levels. The state agencies’ use of these flexibilities is documented in their USDA-approved state plans. The requirement, then, is for states to carry out their plans as approved by USDA. This process may rely on free or reduced-price eligibility from the prior school year, a USDA-approved use of “best feasibly available data.” Using SY 2019–2020 free and reduced price eligibility data is a common feature of USDA-approved plans. Because most school districts served all school meals for free in SY 2020–2021 under the Summer Food Service Program (SFSP) or the NSLP’s Simplified Summer Option (SSO), they did not typically collect or process school meal applications at the start of the school year. As a result, USDA commonly approved the use of SY 2019–2020 free and reduced-price eligibility data to identify children eligible for P-EBT in SY 2020–2021.

Audit Objectives Confirm that state agencies identified the population of children eligible for free or reduced-price school meals by application or direct certification, and that the population includes all children enrolled in Community Eligibility Provision schools and schools in operation under 7 CFR 245.9, provisions 2 or 3.

Suggested Audit Procedures

- (1) Confirm that the state agency is following the process described in its approved state plan.
- (2) Confirm that the state agency instructed its school districts to remove children on SY 2019–2020 free and reduced-price lists who are no longer enrolled in school in SY 2020–2021.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.551 SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM (SNAP)****ASSISTANCE LISTING 10.561 STATE ADMINISTRATIVE MATCHING GRANTS FOR THE SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM****I. PROGRAM OBJECTIVES**

The objective of SNAP is to help low-income households buy the food they need for good health.

II. PROGRAM PROCEDURES**A. Administration**

The US Department of Agriculture (USDA), Food and Nutrition Service (FNS) administers SNAP in cooperation with state and local governments.

State human services agencies (or county human services agencies under the oversight of the state government) certify eligibility and provide benefits to households. They also provide nutrition education. FNS provides funding for state administration and benefits and oversees the operation of state agencies to ensure compliance with federal laws and regulations. In addition, FNS is solely responsible for authorizing and monitoring retail stores that accept SNAP benefits in exchange for food.

B. Federal Funding of Benefits and State Administrative Costs

The federal government pays 100 percent of the value of SNAP benefits and generally reimburses states for 50 percent of their costs to administer the program, except for those functions listed in III G.1, “Matching, Level of Effort, Earmarking – Matching.” SNAP’s authorizing statute places no cap on the amount of funds available to reimburse states at the 50 percent rate for allowable administrative expenses. No reimbursement is allowed for state expenditures for activities undertaken as a condition of settlement of quality control claims against the state for low payment accuracy.

States receive federal funds for SNAP nutrition education and obesity prevention (SNAP-Ed) activities based on a formula. The state agency must use these funds for the administrative costs of planning, implementing, and operating a SNAP-Ed program in accordance with its approved SNAP-Ed Plan. The federal government pays 100 percent of the costs. However, the state agency is prohibited from obligating additional federal funds for SNAP-Ed activities.

C. Certification

Eligibility for SNAP is based primarily on income and resources. Although a number of available state design options can affect benefits for recipients, a key feature of the program is its status as an entitlement program with standardized eligibility and benefits.

1. *Assessing Need*

Households generally cannot exceed a gross income eligibility standard set at 130 percent of the federal poverty standard. Households also cannot exceed a net income standard, which is set at 100 percent of the federal poverty standard. The net income standard allows specified deductions from gross income (e.g., a standard deduction and deductions for medical expenses (elderly and disabled only)), excess shelter costs, and work expenses. Nonfinancial eligibility criteria include school status, citizenship/legal immigration status, residency, household composition, work requirements, and disability status. Some noncitizens are ineligible to participate in the program. Able-bodied adults without dependents are subject to a time limit for receiving benefits if certain requirements are not met.

A total of 42 states have adopted the policy known as broad based categorical eligibility (BBCE). This policy allows a state to base SNAP eligibility determinations on households' receipt of a Temporary Assistance for Needy Families (TANF)-funded noncash benefits or service (Assistance Listing 93.558). Depending on the eligibility criteria of the TANF program used to confer SNAP categorical eligibility, the BBCE may enable a state to (1) use a higher threshold (up to 200 percent of the poverty level) when applying the gross income test, and/or (2) eliminate the asset test altogether.

2. *Application Process for SNAP Benefits*

The application process for SNAP benefits includes the completion and filing of an application form, an interview, and the verification of certain information. In addition to using information supplied by the applicants, state or county agencies use data from other agencies, such as the Social Security Administration and the state employment security agency, to verify the household's identity, income, resources, and other eligibility criteria.

D. Benefits

Benefit amounts vary with household size and income. As required by law, allotments for various household sizes are revised October 1 of each year to reflect the cost of the Thrifty Food Plan, a model plan for a low-cost nutritious diet that is developed and costed by USDA. The benefits each household receives are used to purchase food at authorized retail stores. States issue benefits in the form of debit cards, which recipients can use to purchase food. This is known as electronic benefits transfer (EBT).

E. Benefit Redemption

Generally, households must use program benefits to purchase foods for preparation and consumption at home. There are, however, very few exceptions to this general policy. For example, there are provisions for seniors, disabled persons, and homeless persons to use program benefits in authorized restaurants and for residents of some small institutional settings to participate in the program.

The state's EBT contractor is responsible for settlement, or payment, to retailers that have accepted EBT cards for food purchases. The contractor's "concentrator bank" makes the payment through the National Automated Clearing House (ACH) system. The concentrator bank is reimbursed for the payments by a draw made on the state's EBT benefit account with the US Treasury. States usually authorize their EBT contractors to make these draws, although some states draw the cash and pay the concentrator banks themselves. The state is responsible for reconciling the payments made to retailers by its EBT contractor with the amounts drawn from its EBT account with the US Treasury.

States must obtain an examination report by an independent auditor of the state EBT service providers (service organizations) regarding the issuance, redemption, and settlement of benefits under SNAP in accordance with the American Institute of Certified Public Accountants Statement on Standards for Attestation Engagements (AT) Section 801, *Reporting on Controls at a Service Organization*. Appendix VIII to the Supplement provides additional guidance on these examinations and service auditor reports, referred to as a "service organization control (SOC) 1 type 2 report." In performing audits of SNAP under 2 CFR Part 200, Subpart F, an auditor may use these SOC 1 type 2 reports to gain an understanding of internal controls and obtain evidence about the operating effectiveness of controls.

F. State Responsibilities

A state administering SNAP must sign a federal/state agreement that commits it to observe applicable laws and regulations in carrying out the program. Although legislation provides a measure of administrative flexibility, the authorizing legislation remains highly prescriptive. Both the law and regulations prescribe detailed requirements for (1) meeting program goals, such as providing timely service and rights to appeal; and (2) ensuring program integrity, such as verifying eligibility, establishing and collecting claims for benefit overpayments, and prosecuting fraud.

To ensure that states operate in compliance with the law, program regulations and their own Plans of Operation, each state is required to have a system for monitoring and improving its administration of SNAP, particularly the accuracy of eligibility and benefit determinations. This performance monitoring system includes management evaluation reviews, quality control reviews, and reporting to FNS on program performance. State agencies shall conduct management evaluation reviews once every year for large project areas, once every two years for medium project areas, and once every three years for small project areas, unless an alternative schedule is approved by FNS. Projects are classified as large, medium, or small, based on regulations at 7 CFR section 271.2, although states may request approval by FNS to use "management units" instead of project areas for management evaluation reviews. The state must also ensure corrective action in response to the detection of program deficiencies.

G. Federal Oversight and Compliance Mechanisms

FNS oversees state operations through an organization consisting of headquarters and seven regional offices. FNS program oversight includes budget review and approval, reviews of financial and program reports and state management review reports, and on-site FNS reviews. Each year FNS headquarters conveys to its regions the concerns that

were elevated to the national level through audits or other mechanisms. Regions combine this with their knowledge of individual states to inform the states of possible vulnerabilities to include in their internal management reviews and corrective action plans.

FNS also assesses penalties related to payment accuracy. FNS has other mechanisms to recover losses and the cost of negligence. For other forms of noncompliance, FNS has the authority to give notice and, if improvements do not occur, withhold administrative funds from states for failure to implement program requirements.

USDA's Office of Inspector General (OIG) has primary responsibility for investigating authorized retailers, but the OIG has delegated most such authority to FNS. Consequently, FNS makes most of the investigations of retailers. The Retailer Investigations Branch of the FNS Retailer Operations Division conducts undercover investigations. FNS also uses EBT transaction data to identify retailers who engage in trafficking. SNAP legislation and regulations provide for sanctions against such retailers, which may be temporary or permanent depending on the severity of the violations. In certain circumstances, monetary penalties may be imposed.

H. Certification Quality Control System

SNAP maintains an extensive quality control system required by law and regulation. The system provides state and national measures of the accuracy of eligibility and benefit amount determination (often referred to as payment accuracy), both underpayment and overpayment, and of the correctness of actions to deny, terminate, or suspend benefits.

1. Measurement

States are required to select a statistical sample of cases, both active (currently receiving benefits) and negative case actions (benefits denied); review the active cases for eligibility and benefit amount; and review the negative cases for the correctness of the decision to deny benefits. Review methods in this sample are generally more intensive than those used in determining eligibility. States submit findings of all sampled cases, including incomplete and not-subject-to-review cases, to an automated database maintained by the federal government. State quality control data allow a state to be aware on an ongoing basis of its level of accuracy and allow for the identification of trends and appropriate corrective action.

The applicable FNS regional office reviews each state's sampling plan annually and re-reviews a statistical subsample of the state quality control reviews. The FNS re-review process provides feedback to each state on its quality control system. FNS uses the state's sample and the FNS subsample in a regression formula (described in regulation) to determine payment error rates and negative case error rates. By law, the payment error rate is the combined value of overpayments and under payments to participating households. The FNS national office also reviews its regional operations and provides technical assistance to assure consistency in the national quality control system.

2. *Corrective Action and Penalties*

Program regulations require corrective action for any of the following reasons: (1) a payment error rate of 6 percent or greater, (2) any negative case error rate that exceeds 1 percent, (3) deficiencies identified from any FNS review, Government Accountability Office (GAO) audit, contract audit, or reports to FNS regarding the implementation of major changes as discussed in 7 CFR 272.15, (4) a result of 5 percent or more of the state's quality control (QC) caseload being coded as incomplete, or (5) any state agency rules or procedures that lead to under issuances, improper denials, improper suspensions, improper terminations, or improper systemic suspension of benefits to eligible households. FNS maintains an extensive system of technical assistance for states as they develop and implement corrective action. FNS also monitors the implementation of corrective action plans. States with persistently high error rates are assessed fiscal liabilities based on the amount of benefits issued in error.

3. *Implications of Quality Control for the Compliance Supplement*

The SNAP Quality Control system uses an intensive state review of a sample of active cases across the United States to measure the accuracy of SNAP eligibility determinations and benefit amounts. An FNS re-review of a subset of those cases follows. Information from federal program oversight indicates that this sampling system is operating adequately to provide assurances that FNS is measuring the accuracy of eligibility decisions and that these data provide a basis for corrective action to improve the accuracy of eligibility decisions. Therefore, the Quality Control System sufficiently tests individual eligibility in SNAP.

However, in those situations where computer systems are integral to the operation of the program (e.g., automated eligibility determination, the auditor should perform tests as deemed necessary to obtain assurance of the integrity of these systems). In those instances where multiple programs share the same systems (e.g., automated intake systems for TANF, SNAP, Medicaid) testing may be done as part of the work on multiple programs.

Source of Governing Requirements

SNAP is authorized by the Food and Nutrition Act of 2008 (7 USC 2011 et seq.), which replaced the Food Stamp Act of 1977, as amended. This description of SNAP procedures incorporates provisions of the following amendments to the Act: the Food, Conservation, and Energy Act of 2008 (Pub. L. No. 110-246, 122 Stat. 923, enacted June 18, 2008) and the Agriculture Act of 2014 (Pub. L. No. 113-79, 128 Stat. 649, enacted February 7, 2014). SNAP regulations are found in 7 CFR parts 271 through 285.

Availability of Other Program Information

Other program information is available from FNS's SNAP site at <https://www.fns.usda.gov/snap/supplemental-nutrition-assistance-program>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	Y	N	Y	N	N	Y	Y

A. Activities Allowed or Unallowed

Funds made available for administrative costs must be used to screen and certify applicants for program benefits, issue benefits to eligible households, conduct fraud investigations and prosecutions, provide fair hearings to households for which benefits have been denied or terminated, conduct nutrition education activities, prepare financial and special reports, operate automated data processing (ADP) systems, monitor subrecipients (where applicable), and otherwise administer the program. Portions of the award made available for specific purposes, such as ADP systems development or Employment and Training (E&T) activities, must be used for such purposes (7 CFR Part 277).

SNAP-Ed funds must be used for the administrative costs of planning, implementing, operating, and evaluating a SNAP-Ed program in accordance with the state’s approved SNAP-Ed Plan. However, the state agency is prohibited from obligating additional federal funds for SNAP-Ed activities (7 CFR section 272.2(d)(2)).

G. Matching, Level of Effort, Earmarking

1. Matching

The state is required to pay 50 percent of the costs of administering the program. Exceptions to this 50 percent reimbursement rate include 100 percent grants to:

- a. Administer the E&T component of the program (7 CFR section 277.4(b)) (Note: States receive a 100 percent grant for the E&T component and must pay 50 percent for E&T costs that exceed that grant); and
- b. Provide SNAP-Ed services. A state's SNAP-Ed costs are 100 percent federally funded, up to the level of its formula-generated federal SNAP-Ed grant. That amount is the maximum level of federal financial participation in a state's SNAP-Ed costs; any SNAP-Ed costs incurred beyond that level must be borne by the state (7 USC 2036a, Section 241 of Pub. L. No. 111-296, 124 Stat. 3183, December 13, 2010).

The federal reimbursement will decrease, and the state share of administrative costs will increase by an amount equal to certain common certification costs grandfathered into the states' TANF grant levels but attributable to SNAP (7 USC 2025(k)). The amount of each state's downward adjustment was determined by the Department of Health and Human Services, and the states were notified by letter.

Costs of payment error rate reduction activities conducted under reinvestment agreements with FNS are not eligible for any level of federal reimbursement. Private in-kind contributions are not allowable to count toward the state's share of the program's administrative cost (7 CFR sections 277.4(c) and 275.23(e)(10)).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

I. Procurement and Suspension and Debarment

1. *ADP Systems Development* – For competitive acquisitions of ADP equipment and services costing \$6 million or more (combined federal and state shares), the state must submit an Advanced Planning Document (APD) for the costs to be approved and allowable as charges to FNS. This threshold is for the total project cost. Contracts resulting from noncompetitive procurements of more than \$1 million and contracts for EBT systems, regardless of cost, also must be provided to FNS for prior written approval (7 CFR section 277.18).
2. For procurement activity covered by the USDA implementation of the A-102 Common Rule (see Part 3 of the Supplement for effective dates), regardless of whether the state elects to follow state or federal rules, the following requirements must be followed for procurements initiated on or after October 1, 2000:
 - a. A state or local government shall not award a contract to a firm it used to orchestrate the procurement leading to that contract. Examples of services that would disqualify a firm from receiving the contract include preparing

- the specifications, drafting the solicitation, formulating contract terms and conditions, etc. (7 CFR section 3016.60(b)).
- b. A state or local government shall not apply in-state or local geographical preference, whether statutorily or administratively prescribed, in awarding contracts (7 CFR section 3016.60(c)).
3. For procurements covered by the USDA adoption of 2 CFR Part 200 and the regulations at 2 CFR section 416.1, the following applies:
 - a. A prospective contractor that develops or drafts specifications, requirements, statements of work, invitations for bids, requests for proposals, contract term and conditions or other documents for use by a state shall be excluded from competing for such procurements. Such prospective contractors are ineligible for contract awards resulting from such procurements regardless of the procurement method used. However, prospective contractors may provide states with specification information related to a state procurement and still compete for the procurement if the state, and not the prospective contractor, develops or drafts the specifications, requirements, statements of work, invitations for bid, and/or requests for proposals used to conduct the procurement (2 CFR section 416.1(a)).
 - b. Procurements by states shall be conducted in a manner that prohibits the use of statutorily or administratively imposed in-state or local geographic preferences except as provided for in 2 CFR section 200.319(b) (2 CFR section 416.1(b)).

N. Special Tests and Provisions

1. ADP System for SNAP

Compliance Requirements State agencies are required to automate their SNAP operations and computerize their systems for obtaining, maintaining, utilizing, and transmitting information concerning SNAP (7 CFR sections 272.10 and 277.18). This includes: (1) processing and storing all case file information necessary for eligibility determination and benefit calculation, identifying specific elements that affect eligibility, and notifying the certification unit of cases requiring notices of case disposition, adverse action and mass change, and expiration; (2) providing an automatic cutoff of participation for households that have not been recertified at the end of their certification period by reapplying and being determined eligible for a new period (7 CFR sections 272.10(b)(1)(iii) and 273.10(f) and (g)); and (3) generating data necessary to meet federal issuance and reconciliation reporting requirements.

Audit Objectives Determine whether the state administering agency's ADP system for SNAP is meeting the requirements to: (1) accurately and completely process and store all case file information for eligibility determination and benefit calculation; (2) automatically cut off households at the end of their certification period unless recertified; and (3) provide data necessary to meet federal issuance and reconciliation reporting

requirements. (Note: References to the “ADP/CIS Model Plan” are outdated and no longer valid. Examination of 7 CFR section 272.10 should focus only on the functional requirements of SNAP automation and should disregard any references to the “ADP/CIS Model Plan” referenced in 7 CFR sections 272.10(a)(1) and 272.10(a)(2)).

Suggested Audit Procedures

Because of the diversity of ADP hardware and software systems, it is not practical for the Compliance Supplement to provide suggested audit procedures to address each system.

See Part 3, E.1.a (suggested audit procedures for eligibility for individuals relating to automated systems) in this Supplement for other guidance concerning testing ADP systems. In addition, FNS has developed a review tool for use by state and federal staff in conducting pre- and post-implementation reviews of states’ automated SNAP systems. The review tool can be found at http://www.fns.usda.gov/sites/default/files/apd/SNAP_System_Integrity_Review_Tool.pdf. The auditor should test the ADP system to ascertain if the system:

- a. Accurately and completely processes and securely stores all case file information for eligibility determination and benefit calculation.
- b. Automatically cuts off households from receiving SNAP benefits at the end of their certification period unless the household is recertified.
- c. Provides data necessary to meet federal issuance and reconciliation reporting requirements.

2. EBT Reconciliation

Compliance Requirements States must have systems in place to reconcile all of the funds entering into, exiting from, and remaining in the system each day with the state’s benefit account with Treasury and EBT contractor records. This includes a reconciliation of the state’s issuance files of postings to recipient accounts with the EBT contractor.

States (generally through the EBT contractor that operates the EBT system) must also have systems in place to reconcile retailer credit activity as reported into the banking system to client transactions maintained by the processor and to the funds drawn down from the EBT benefit account with Treasury. States’ EBT system processors should maintain audit trails that document the cycle of client transactions from posting to point-of-sale transactions at retailers through settlement of retailer credits. The financial and management data that comes from the EBT processor is reconciled by the state to the SNAP issuance files and settlement data to ensure that benefits are authorized by the state and funds have been properly drawn down. States may only draw federal funds for authorized transactions (e.g., electronic point-of-sale purchases supported by entry of a valid personal identification number (PIN) or purchases using manual vouchers with telephone verification supported by a client signature and an EBT contractor authorization number) (7 CFR sections 274.3(a)(1) and 274.4(a)).

Audit Objectives Determine whether the state reconciles retailer credit activity to client transactions, to its issuance files of postings to recipient accounts with the EBT contractor, and to postings to and drawdown activity from the state's benefit account with Treasury.

Suggested Audit Procedures

- a. Verify that the state has a system in place to reconcile total funds entering into, exiting from, and remaining in the system each day.
- b. Select and test a sample of reconciliation(s) to verify that discrepancies are followed up and resolved. This is generally a contractor duty.
- c. Verify that the state or its contractor has a system in place to reconcile retailer credits against the information entered into the Automated Clearinghouse network and to the amount of funds drawn down by the state or the state's fiscal agent (the EBT contractor).
- d. Ascertain if the state or its contractor has recorded any nonfederal liabilities in the daily EBT reconciliation (i.e., transactions which cannot be charged to the program). If so, verify that the nonfederal liabilities were funded by nonfederal sources (e.g., the state or the contractor).

3. EBT Card Security

Compliance Requirements The state is required to maintain adequate security over, and documentation/records for, EBT cards, to prevent their theft, embezzlement, loss, damage, destruction, unauthorized transfer, negotiation, or use (7 CFR section 274.8(b)(3)).

Audit Objectives Determine whether the state maintains security over EBT cards.

Suggested Audit Procedures

- a. Observe the physical security over EBT cards, and/or other negotiable instruments used in the issuance process.
- b. Verify that EBT cards returned from the Postal Service are returned to inventory or destroyed.

IV. OTHER INFORMATION

Note: Generally, E, "Eligibility," G.1, "Matching," I, "Procurement and Suspension and Debarment" (with respect to procurement), and N, "Special Tests and Provisions," apply only to state governments. However, when states have delegated to the local governments functions normally performed by the state as administering agency (e.g., eligibility determination, issuance of SNAP) the related compliance requirements will apply to the local government.

See Assistance Listing 10.000 for additional information regarding to waivers for this program due to COVID-19.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.553 SCHOOL BREAKFAST PROGRAM (SBP)****ASSISTANCE LISTING 10.555 NATIONAL SCHOOL LUNCH PROGRAM (NSLP)****ASSISTANCE LISTING 10.556 SPECIAL MILK PROGRAM FOR CHILDREN (SMP)****ASSISTANCE LISTING 10.559 SUMMER FOOD SERVICE PROGRAM FOR CHILDREN (SFSP)****ASSISTANCE LISTING 10.582 FRESH FRUIT AND VEGETABLE PROGRAM (FFVP)****I. PROGRAM OBJECTIVES**

The objectives of the child nutrition cluster programs are to (1) assist states in administering and overseeing food service program operators that provide healthful, nutritious meals to eligible children in public and non-profit private schools, residential child care institutions, and summer programs; (2) foster healthy eating habits in children by providing fresh fruits and fresh vegetables to children attending elementary schools; and (3) encourage the domestic consumption of nutritious agricultural commodities.

II. PROGRAM PROCEDURES**A. Overview**

The Child Nutrition Programs are administered at the federal level by the Food and Nutrition Service (FNS) of the US Department of Agriculture (USDA) through grants to state agencies. Each state agency enters into agreements with subrecipient organizations for local level program operation and the delivery of program benefits and services to eligible children. The types of organizations that receive subgrants under each program are described below under “Program Descriptions.”

USDA makes donated agricultural commodities available for use in the operation of all child nutrition programs (except the SMP and FFVP). FNS enters into agreements with state distributing agencies for the distribution of USDA donated foods. The state distributing agencies enter into agreements with local program operators, which are defined collectively as “recipient agencies.” A state may designate a recipient agency to perform its storage and distribution duties. A state distributing agency may engage a commercial food processor to use USDA-donated foods in the manufacture of food products, and then deliver such manufactured products to recipient agencies.

B. Subprograms/Program Elements**1. *Common Characteristics***

The programs in the Child Nutrition Cluster are all variants of a basic program design having the following characteristics:

- a. Local program operators provide prepared meals to children in structured settings. Four types of meal service may be authorized: breakfast, lunch, snacks, and supper. Milk-only service may be authorized under the SMP. The types a particular program operator may offer are determined first by the respective program's authorizing statute and regulations, and second by the program operator's agreement with its administering agency.
- b. While all children in attendance are entitled to receive these program benefits, children whose households meet stated income eligibility criteria generally receive their meals (or milk, where applicable) free or at a reduced price. With certain exceptions, children not eligible for free or reduced price meals or free milk must pay the full prices set by the program operator for these items. A program meal must be priced as a unit.

The nonprofit school food service account is managed by local program operators who offer program and nonprogram foods to children during meal services. Program foods are the foods served in reimbursable meals. Nonprogram foods include any nonreimbursable foods and beverages purchased using the funds from the nonprofit school food service account. Nonprogram foods encompasses all other foods sold in school, including adult meals, foods sold outside of school hours, or any foods used for catering or vending activities. For the majority of local program operators, a la carte foods offered during meal service account for the largest share of nonprogram foods. To the maximum extent practicable, school food authorities must purchase commodities produced in the United States and food products processed in the United States substantially using commodities produced in the United States.

- c. Federal assistance to local program operators takes the form of cash reimbursement. In addition, USDA donates food under 7 CFR Part 250 for use in preparing meals to be served under the NSLP, SBP, and SFSP.
- d. To obtain cash and donated food assistance, a local program operator must submit monthly claims for reimbursement to its administering agency. All meals (and half-pints of milk under SMP) claimed for reimbursement must meet federal requirements and be served to eligible children.
- e. The program operator's entitlement to reimbursement payments is generally computed by multiplying the number of meals (and/or half-pints of milk under the SMP) served by a prescribed per-unit payment rate (called a "reimbursement rate"). Different reimbursement rates are prescribed for different categories and types of service. "Type" refers to the kind of service (breakfast, lunch, milk, etc.), while "category" refers to the beneficiary's eligibility (free, reduced price, or paid). Under this formula, a local program operator's entitlement to funding from its administering agency is generally a function of the categories and types of service provided. Therefore, the child nutrition cluster programs are said to be "performance funded."

2. *Characteristics of Individual Programs*

The program-specific variants of this basic program model are outlined below.

- a. *NSLP and SBP* – These programs target children enrolled in schools. For program purposes, a “school” is a public or non-profit private school of high school grade or under, or a public or licensed non-profit private residential child-care institution. At the local level, a school food authority (SFA) is the entity with which the administering agency makes an agreement for the operation of the programs. An SFA is the governing body (such as a school board) legally responsible for the operation of the NSLP and/or SBP in one or more schools. A school operated by an SFA may be approved to serve breakfast and lunch. A school participating in the NSLP that also has an afterschool care program with an educational or enrichment component may also be approved to serve afterschool snacks. Refer also to the description of the SMP below. These programs must purchase domestic foods and food products processed in the United States substantially using domestic foods.
- b. *SFSP* – The SFSP is directed toward children in low-income areas when school is not in session. It is locally operated by approved sponsors, which may include public or private non-profit SFAs, public or private non-profit residential summer camps, or units of local, municipal, county, or state governments, or other private non-profit organizations that develop a special summer or other school vacation program providing food service similar to that available to children during the school year under the NSLP and SBP.

Residential camps and migrant sites may receive reimbursement for up to three meals, or two meals and one snack, per child per day, whereas all other sites may receive reimbursement for any combination of two meals (except lunch and supper) or one meal and one snack per child per day.

All participating children receive their meals free. Participating summer camps must identify children eligible for free or reduced price meals and may receive SFSP meal reimbursement only for meals served to eligible children.

Although USDA-donated foods are made available under the SFSP, they are restricted to sponsors that prepare the meals to be served at their sites and those that have entered into an agreement with an SFA for the preparation of meals.

- c. *SMP* – The SMP provides milk to children in schools and child-care institutions that do not participate in other federal meal service programs. However, schools operating the NSLP and/or SBP may also participate in the SMP to provide milk to children in half-day pre-kindergarten and kindergarten programs where children do not have access to the NSLP and SBP. An SFA or institution operating the SMP as a pricing program may

elect to serve free milk but there is no federal requirement that it do so. The SMP has no reduced price benefits. SFAs must also purchase milk that is domestic and processing must occur in the United States.

- d. *FFVP* – The FFVP provides free fresh fruits and vegetables to children enrolled in high need elementary schools during the school day. The program prioritizes schools with the highest percentage of children certified as eligible for free and reduced price meals. The goal is to introduce children to fresh fruits and vegetables, to include new and different varieties, and to increase overall acceptance and consumption of fresh, unprocessed produce among children. The FFVP also encourages healthier school environments by promoting nutrition education.

C. Program Funding

FNS provides funds to state agencies by letter of credit. The state agencies use meal reimbursement funds to support program operations by SFAs, institutions, and sponsors under their oversight, and administrative funds to fund their own administrative costs.

1. *Funding Program Benefits*

FNS provides cash reimbursement to each state agency for each meal served under the NSLP, SBP, and SFSP and for each half pint of milk served under the SMP. The state agency's entitlement to cash assistance for NSLP and SBP meals, NSLP snacks, and SMP milk not reimbursed at the "free" rate is determined by multiplying the number of units served within the state by a "national average payment rate" set by FNS. Cash reimbursement to a state agency under the SFSP is the product obtained by multiplying the number of meals served by maximum rates of reimbursement established by FNS.

The basic rate is increased by two cents for each lunch served in SFAs in which 60 percent or more of the lunches served during the second preceding school year were served free or at a reduced price. A "severe need" school receives a higher rate and is one in which at least 40 percent of the school lunches served in the second preceding school year were served free or at reduced price. Milk served free under the SMP is funded at the average cost of milk. In addition, performance-based cash reimbursement is currently 7 cents per lunch for eligible schools.

State agencies earn donated food assistance based on the number of program meals served in schools participating in the NSLP and for certain sponsors participating in the SFSP. The state agency's level of donated food assistance is the product of the number of meals served in the preceding year multiplied by the national average payment for donated foods.

FNS adjusts the national average payment rates and maximum rates for reimbursement annually for NSLP, SBP, and SFSP to reflect changes in the Consumer Price Index and for the SMP to reflect changes in the Producer Price Index. FNS adjusts donated food assistance rates annually to reflect changes in

the Price Index for Food Used in Schools and Institutions. The current announcements of all these assistance rates is available at <http://www.fns.usda.gov/school-meals/rates-reimbursement> (7 CFR sections 210.4(b), 220.4(b), 215.1) and at <https://www.fns.usda.gov/sfsp-reimbursement-rates> (7 CFR 225.9(d)(9)).

A state agency uses the cash assistance obtained through performance funding to reimburse participating SFAs and sponsors for eligible meals served to eligible persons. Like “national average payments” to states, reimbursement payments are also made on a per-meal (performance funding) basis. SFAs and SFSP sponsors receive donated foods to the extent they can use them for program purposes; however, certain types of products are limited by an entitlement.

A state agency’s FFVP grant is determined by FNS using an allocation formula per Section 19 of the Richard B. Russell National School Lunch Act, 42 U.S.C. 1769a. Eligible elementary schools must submit an FFVP application to the state agency. The selected elementary schools receive an amount per student for each school year. The exact amount of per student funding is determined by the state agency based on the total funds allocated to the state agency and the student enrollment at participating schools.

2. *Funding State-Level Administrative Costs*

In addition to funding for reimbursement payments to SFAs and sponsors, state agencies receive funding from several sources for costs they incur to administer these programs.

- a. *State Administrative Expense (SAE) Funds* – These funds are granted under CFDA 10.560, which is not included in the Child Nutrition Cluster.
- b. *SFSP State Administrative (SAF) Funds* – In addition to regular SAE grants, administrative funds are made available to state agencies under CFDA 10.559 to assist with administrative costs of the SFSP (7 CFR section 225.5). The state agency must describe its intended use of the funds in a Program Management and Administrative Plan submitted to FNS for approval (7 CFR section 225.4).

Source of Governing Requirements

The programs included in this cluster are authorized by the Richard B. Russell National School Lunch Act, as amended (NSLA) (42 USC 1751 et seq.) and the Child Nutrition Act of 1966, as amended (CNA) (42 USC 1771 et seq.). The implementing regulations for each program are codified in parts of 7 CFR as indicated: National School Lunch Program (NSLP), Part 210; School Breakfast Program (SBP), Part 220; Special Milk Program for Children (SMP), Part 215; and Summer Food Service Program for Children (SFSP), Part 225. Regulations at 7 CFR Part 245 address eligibility determinations for free and reduced price meals and free milk in schools and institutions. Regulations at 7 CFR Part 250 give general rules for the receipt, custody, and use of USDA donated foods provided for use in the Child Nutrition Cluster of programs.

Availability of Other Program Information

Other program information is available online at USDA’s public website. The Child Nutrition Programs site pages are at <http://www.fns.usda.gov/cnd>. The USDA Foods sites pages for the Child Nutrition Programs are at <https://www.fns.usda.gov/usda-foods>.

COVID-19 Pandemic Flexibilities

During the pandemic, waivers to some program requirements were issued and information is available at [Child Nutrition COVID-19 Waivers | Food and Nutrition Service \(usda.gov\)](https://www.usda.gov/child-nutrition/covid-19-waivers). The auditor should consult with the State and/or local agency subject to audit to identify which waiver flexibilities were adopted, to the extent applicable. Please also refer to 4-10.000 of this document, which provides general background information regarding the impact of COVID-19 waivers on FNS programs.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	N	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

Reimbursement for meals served is not based on costs; it is determined solely by applying the applicable meals times rates formula. For the SFSP, there are separate rate used to calculate reimbursement for operating and administrative costs, however, a sponsor can use its entire reimbursement payment for any combination of allowable operating and

administrative costs. For the FFVP, eligible elementary schools may only use the awarded subgrant funds for allowable costs of purchasing, preparing, and serving the fresh fruits and fresh vegetables during school day; these funds may not be used for the service of school meals.

E. Eligibility

1. Eligibility for Individuals

Any child enrolled in a participating school or summer camp, or attending a SFSP meal service site, who meets the applicable program's definition of "child," may receive meals under the applicable program. For the NSLP and SBP, children belonging to households meeting nationwide income eligibility requirements may receive meals at no charge or at reduced price. Children who have been determined ineligible for free or reduced price school meals pay the full price, set by the SFA, for their meals. Children participating in a SFSP meal service receive their meals at no charge (7 CFR sections 225.15(f), 245.1(a), and 245.3(c); definition of "subsidized lunch (paid lunch)" at 7 CFR section 210.2; and definitions of "camp," "closed enrolled site," "open site," and "restricted open site" at 7 CFR section 225.2).

a. *General Eligibility*

The specific groups of children eligible to receive meals under each program are identified in the respective program's regulations.

- (1) *School Nutrition Programs (NSLP and SBP)* – A "child" is defined as (a) a student of high school grade or under (as determined by the state educational agency) enrolled in an educational unit of high school grade or under, including students who are mentally or physically handicapped (as determined by the state) and who are participating in a school program established for the mentally or physically handicapped; (b) a person who has not reached his/her twenty-first birthday and is enrolled in a public or non-profit private residential child care institution; or (c) for snacks served in afterschool care programs operated by an eligible school, a person who is 18 years of age or under, except that children who turn 19 during the school year remain eligible for the duration of the school year (42 USC 1766a(b); definition of "child" at 7 CFR sections 210.2 and 220.2).
- (2) *SFSP* – A "child" is defined as (a) any person 18 years of age and under; and (b) a person over 18 years of age, who has been determined by the state educational agency or a local public educational agency to be mentally or physically handicapped, and who participates in a public or non-profit private school program established for the mentally or physically handicapped (Definition of "children" at 7 CFR section 225.2).

- (3) *SMP* – Schools operating this program use the same definition of “child” that is used in the NSLP and SBP, except for provision (3) under the definition of “child” at 7 CFR section 210.2 regarding snacks served in afterschool care programs. Where the program operates in child-care institutions, as defined in 7 CFR section 215.2, a “child” is any enrolled person who has not reached his/her nineteenth birthday (7 CFR section 215.2).
 - (4) *FFVP* – Only elementary school-aged children attending eligible elementary schools as defined in section 8101(19) of the Elementary and Secondary Education Act of 1965 (20 USC 7801) per the NSLA section 19 (42 USC 1769a(d)(1)(C)) that also operate the NSLP (42 USC 1769a(d)(1)(A)(i)) are eligible to participate.
- b. *Eligibility for Free or Reduced Price Meals or Free Milk*
- (1) *General Rule: Annual Certification* – A child’s eligibility for free or reduced price meals under a Child Nutrition Cluster program may be established by the submission of an annual application or statement which furnishes such information as family income and family size. Local educational agencies (LEAs), institutions, and sponsors determine eligibility by comparing the data reported by the child’s household to published income eligibility guidelines. In addition to publishing income eligibility information in the *Federal Register*, FNS makes it available on the FNS website at <http://www.fns.usda.gov/school-meals/income-eligibility-guidelines>.
 - (a) *School Nutrition Programs* – Children from households with incomes at or below 130 percent of the federal poverty level are eligible to receive meals or milk free under the School Nutrition Programs. Children from households with incomes above 130 percent but at or below 185 percent of the federal poverty level are eligible to receive reduced price meals. Persons from households with incomes exceeding 185 percent of the poverty level pay the full price (7 CFR sections 245.2, 245.3, and 245.6; section 9(b)(1) of the NSLA (42 USC 1758 (b)(1)); sections 3(a)(6) and 4(e) of the CNA (42 USC 1772(a)(6) and 1773(e))).
 - (b) *SFSP* – While all SFSP meals are served at no charge, the sponsors of certain types of meal service sites must make individual determinations of eligibility for free or reduced price meals in accordance with 7 CFR section 225.15(f). See III.E.3, “Eligibility - Eligibility for Subrecipients,” for more information.

- (c) *SMP* – Eligibility for free milk in SFAs electing to serve free milk is limited to children of households meeting the income eligibility criteria for free meals under the School Nutrition Programs. The SMP has no provision for reduced price benefits (definition of “free milk” at 7 CFR section 215.2, and 7 CFR sections 215.7(b), 245.3, and 245.6).
- (2) *Direct Certification* – Annual eligibility determinations may also be based on the child’s household receiving benefits under the Supplemental Nutrition Assistance Program (SNAP), Food Distribution Program on Indian Reservations (FDPIR), the Head Start Program (CFDA 93.600) (42 USC 1758(b)(6)(A)), or, under most circumstances, the Temporary Assistance for Needy Families (TANF) program (CFDA 93.558) (42 USC 1758(b)). A household may furnish documentation of its participation in one of these programs; or the school, institution, or sponsor may obtain the information directly from the state or local agency that administers these programs. Certain foster, runaway, homeless, and migrant children are categorically eligible for free school lunches and breakfasts (42 USC 1758(b)(5); 7 CFR section 245.6(b)).
- (3) *Direct Certification for Children Receiving Medicaid Benefits* – Section 103 of the Healthy, Hunger-Free Kids Act (HHFKA) provided for a series of demonstration projects on conducting direct certification for free school meals for students in households receiving Medicaid benefits. In addition, FNS conducts demonstration projects pursuant to the authority in Section 18(c) of the NSLA, which provides direct certification for free and reduced price meals for students in households receiving Medicaid benefits. These methods use Medicaid data to certify children eligible for free or reduced price school lunches and breakfasts in the states that are currently approved to conduct these demonstration projects. Illinois, Kentucky, New York, and Pennsylvania continue to be approved for Direct Certification Medicaid – Free (DCM-F). California, Florida, Massachusetts, Nebraska, Utah, Virginia, West Virginia, Connecticut, Indiana, Iowa, Michigan, Nevada, Texas, Washington, and Wisconsin are approved for Direct Certification Medicaid – Free/Reduced Price (DCM-F/RP).

For the purpose of these demonstration projects, an eligible child is a child who receives, or lives in the household (as defined in 7 CFR section 245.2) with a child who receives medical assistance under the Medicaid program **and** is a member of a family with an income, as measured by the Medicaid program, before the application of any expense, block, or other income disregard that does not exceed the NSLP family size and income eligibility standards.

- **Free** school meal eligibility, 130 percent of the Federal Poverty Level (FPL) for the family size used by Medicaid (except for four States from the initial demonstration project that continue to participate under the free only eligibility of 133%);
- **Reduced price** school meal eligibility, 185 percent of the FPL for the family size used by Medicaid.

Households with eligible children directly certified for free meals under the demonstration projects are not required to submit applications for school meal benefits and are not subject to the verification requirements at 7 CFR section 245.6a (42 USC 1758(b)(15)).

- (4) *Exceptions* – The following are exceptions to the requirement for annual determinations of eligibility for free or reduced price meals and free milk under the Child Nutrition Cluster programs.
- (a) *Puerto Rico* - Puerto Rico continues to elect the option to provide free meals and milk to all children participating in the School Nutrition Programs, regardless of each child’s economic circumstances. Instead of counting meals and milk by type, they may determine the percentage that each type comprises of the total count using statistical surveys. The survey design must be approved by FNS (7 CFR section 245.4).
- (b) *Special Assistance Certification and Reimbursement Alternatives* – Special Assistance Certification and Reimbursement Alternatives, provisions 1, 2, 3, and the Community Eligibility Provision (CEP) are authorized by Section 11(a)(1) of the NSLA (42 USC 1759a(a)(1)) and Section 104 of HRFKA. Provision 1 may be used in schools where at least 80 percent of the children enrolled are eligible for free or reduced price meals. Under Provision 1, eligibility determinations for children eligible for free meals under the School Nutrition Programs must be made once every two consecutive school years. Children who qualify for reduced price meals are certified annually (42 USC 1759a(a)(1)(B) and (F); 7 CFR section 245.9(a)).
- For provisions 2, 3, and the CEP, extended cycles are allowed for eligibility determinations.
- (c) *SFSP Open Sites and Restricted Open Sites* – Determinations of individual household eligibility are not required for meals served free at SFSP “open sites” or at

restricted open sites. Refer to 3. “Eligibility for Subrecipients,” for information on area eligibility.

c. *Reduced Price Charges for Program Meals*

The SFA sets meal prices. However, the price for a reduced price lunch or breakfast may not exceed \$0.40 and \$0.30, respectively.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Administering agencies may disburse program funds only to those organizations that meet eligibility requirements. Under the NSLP, SBP, SMP, and FFVP this means the definition of “school food authority” (SFA) as described at 7 CFR sections 210.2, 215.2, and 220.2, respectively. Eligible SFSP organizations are described at 7 CFR section 225.2 under the definition of “sponsor.” Additional organizational eligibility requirements apply to the SFSP, NSLP Afterschool Snacks, and the SBP at the school or site level (see detail below).

a. *SFSP* – Federal regulations at 7 CFR section 225.2 define sites in four ways:

- (1) *Open Sites* – At an open site, meals are made available to all children in the area where the site is located. This area must be one in which poor economic conditions exist (one in which at least 50 percent of the children are from households that would be eligible for free or reduced price school meals under the NSLP and the SBP). Data to support a site’s eligibility may include (a) free and reduced price eligibility data maintained by schools that serve the same area; (b) census data; or (c) other statistical data, such as information provided by departments of welfare and zoning commissions.
- (2) *Restricted Open Sites* – A restricted open site is one that was initially open to broad community participation, but at which the sponsor has restricted attendance for reasons of safety, security, or control. A restricted open site must serve an area in which poor economic conditions exist, and its eligibility may be documented with the same kinds of data listed above for open sites.
- (3) *Closed Enrolled Sites* – A closed enrolled site makes meals available only to enrolled children, as opposed to the community at large. Its eligibility is based not on serving an area where poor economic conditions exist, but on the eligibility of enrolled children for free or reduced price school meals. At least 50 percent of enrolled children must be eligible for free or reduced price

school meals. The sponsor must determine their eligibility through the application process described at 7 CFR section 225.15(f).

- (4) *Camps* – Eligible camps include residential summer camps and nonresidential day camps that offer regularly scheduled food service as part of organized programs for enrolled children. A camp need not serve an area where poor economic conditions exist. Instead, the camp’s sponsor must determine each enrolled child’s eligibility for free SFSP meals through the application requirements at 7 CFR sections 225.15(e) and (f). Unlike other sponsors, the sponsor of a camp receives reimbursement only for meals served to children eligible for free or reduced price school meals (7 CFR section 225.14(d)(1)).
- b. *SBP – Severe Need Schools* – In addition to the national average payment, FNS makes additional payments for breakfasts served to children qualifying for free or reduced price meals at schools that are in severe need. The administering agency must determine whether a school is eligible for severe need reimbursement based on the following eligibility criteria: (1) the school is participating in or desiring to initiate a breakfast program, and (2) 40 percent or more of the lunches served to students at the school in the second preceding school year under the NSLP were served free or at a reduced price. Administering agencies must maintain on file, and have available for reviews and audits, the source of the data to be used in making individual severe need determinations (42 USC 1773(d); 7 CFR section 220.9(d)).
- c. *NSLP – Afterschool Snacks* – Reimbursement for afterschool snacks is made available to those school districts which (1) operate the NSLP in one or more of their schools and (2) sponsor or operate afterschool care programs with an educational or enrichment purpose. In the case of snacks served at an eligible site located in the attendance area of a school in which at least 50 percent of the enrolled children are certified eligible for free and reduced price school meals, all snacks are served free and are reimbursed at the free rate regardless of individual eligibility. Schools and sites not located in such an area may also participate, but they must count and claim snacks as free, reduced price and paid, depending on the eligibility status of the children served, and they must maintain documentation of eligibility for children receiving free or reduced price snacks (42 USC 1766a).
- d. *FFVP* – Funding is awarded as a subgrant from the State agency only to eligible elementary schools as defined in section 8101(19) of the Elementary and Secondary Education Act of 1965 (20 USC 7801) per NSLA section 19 (42 USC 1769a(d)(1)(C)) that also operate the NSLP (42 USC 1769a(d)(1)(A)(i)) and are eligible to participate.

I. Procurement and Suspension and Debarment

1. Procurement

- a. A prospective contractor that develops or drafts specifications, requirements, statements of work, invitations for bids, requests for proposals, contract term and conditions, or other documents for use by a state under this program shall be excluded from competing for such procurements. Such prospective contractors are ineligible for contract awards resulting from such procurements regardless of the procurement method used. However, prospective contractors may provide states with specification information related to a state procurement and still compete for the procurement if the state, and not the prospective contractor, develops or drafts the specifications, requirements, statements of work, invitations for bid, and/or requests for proposals used to conduct the procurement (2 CFR 200.319(b) and 416.1(a)).
- b. Procurements by states under this program shall be conducted in a manner that prohibits the use of statutorily or administratively imposed in-state or local geographic preferences except as provided for in 2 CFR section 200.319(b) (2 CFR section 416.1(b)).
- c. Notwithstanding the requirements noted in paragraph 1.b above, an SFA, institution, or sponsor operating one or more Child Nutrition Cluster programs may use a geographical preference for the procurement of unprocessed agricultural products, both locally grown and locally raised (7 CFR sections 210.21(g), 215.14a(e), 220.16(f), 225.17(e) and 226.22(n)).

2. Before Award

Before awarding a contract to a food service management company, or amending such a contract, an SFA operating the NSLP and SBP and sponsors operating the SFSP must: (1) obtain its administering agency's review and approval of the contract terms; (2) incorporate all changes required by the administering agency; (3) obtain written administering agency approval of any changes made by the SFA or sponsor or its food service management company to a pre-approved prototype contract; and (4) when requested, submit procurement documents for administering agency inspection (7 CFR sections 210.16(a)(10), 210.19(a)(5), 220.7(d)(1)(ix), and 225.15(m)(4)).

3. SFAs must, to the maximum extent practicable, purchase commodities produced in the United States and food products processed in the United States substantially using commodities produced in the United States 7 CFR section 210.21(d). For SFAs to comply with Section 12(n) of the NSLA, 42 USC 1760(n) and Program regulations at 7 CFR section 210.21(d), all food solicitations should include terms that require contractors to respond with prices and award contracts to responsive bidders and offerors to supply domestic foods and food products that comply with 7 CFR 210.21(d). Food suppliers include distributors, meal vendors, food service management company contracts, and processors of USDA Foods.

4. *Cost-Reimbursable Contracts*

The cost-reimbursable contract provisions below apply to all cost-reimbursable contracts awarded by SFAs. This contract type is often awarded to distributors of perishable and non-perishable foods and food products, produce, milk, bread, food service management companies, processors of USDA Foods, and labor surplus firms.

- a. Cost-reimbursable contracts awarded by SFAs operating the NSLP, SMP, and SBP, including contracts with cost-reimbursable provisions and solicitation documents prepared to obtain offers of such contracts, must include the following provisions:
 - (1) Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates, and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the SFA.
 - (2) Billing documents submitted by the contractor will either separately identify allowable and unallowable portions of each cost or include only allowable costs and a certification that payment is sought only for such costs.
 - (3) The contractor's determination of its allowable costs must be made in compliance with applicable departmental and program regulations and the OMB cost principles.
 - (4) The contractor must identify the amount of each discount, rebate, and other applicable credit on bills and invoices presented to the SFA for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the SFA may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually.
 - (5) The contractor must identify the method by which it will report discounts, rebates, and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract.
 - (6) The contractor must maintain documentation of costs and discounts, rebates, and other applicable credits, and must furnish such documentation upon request to the SFA, the state agency, or the USDA (7 CFR section 210.21(f)).
- b. Costs resulting from a cost-reimbursable contract may not be paid from the SFA's nonprofit school food service account if (a) the underlying contract does not include the provision in paragraph a.(1) above; or (b) such disbursement would result in the contractor receiving payments in

excess of the contractor's actual, net allowable costs (7 CFR sections 210.21(f)(2), 215.14a(d)(2), and 220.16(e)(2)).

5. *Suspension and Debarment*

Entitlement or mandatory awards required by statute that pass-through entities to subrecipients are excluded from the suspension and debarment rules (2 CFR section 417.215(a)(1)).

L. Reporting

1. Financial Reporting

a. *Claims for Reimbursement*

SFAs and sponsors must submit monthly claims for reimbursement for meals and snacks served to eligible students within 60 days following the last day of the month covered by the claim (7 CFR sections 210.8, 220.11, 215.10, and 225.15(c)). The **state** agency has an additional 30 days to submit a consolidated report to FNS (7 CFR 210.5(d), 220.13(b)(2), 215.11(c)(2), and 225.8).

b. Recordkeeping

Each month's claim for reimbursement and all data used in the claims review process must be maintained on file. Accurate records must be maintained justifying all meals claimed and documenting that all Program funds were spent only on allowable Child Nutrition Program costs. Failure to maintain such records may be grounds for denial of reimbursement for meals served and/or administrative costs claimed during the period covered by the records in question. Records are required to be retained for a period of three years after submission of the final Claim for Reimbursement for the fiscal year. Or, if audit findings have not been resolved, the records must be retained beyond the three-year period as long as required for the resolution of the issues raised by the audit. School food authorities are required to make the information available to the Department and the state agency upon request.

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Verification of Free and Reduced Price Applications (NSLP)

Compliance Requirements By November 15th of each school year, the LEA (or state in certain cases) must verify the current free and reduced price eligibility of households selected from a sample of applications that it has approved for free and reduced price meals, unless the LEA is otherwise exempt from the verification requirement. The verification sample size is based on the total number of approved applications on file on October 1st.

A state agency may, with FNS approval, assume from LEAs under its jurisdiction the responsibility for performing the verifications. If the LEA performs the verification function it must be in accordance with instructions provided by the state agency. The LEA must follow up on children whose eligibility status has changed as the result of verification activities to put them in the correct category.

LEAs (or state agencies) must select the sample by one of the following methods:

- a. **Standard Sample Size.** The lesser of 3 percent or 3000 of the approved applications on file as of October 1, selected from error-prone applications. For this purpose, error prone applications are those showing household incomes within \$100 monthly or \$1,200 annually of the income eligibility guidelines for free and reduced price meals.
- b. **Alternative Sample Sizes**
 - (1) The lesser of 3 percent or 3,000 applications selected at random from approved applications on file as of October 1 of the school year, or
 - (2) The sum of (a) the lesser of 1 percent of all applications identified as error-prone or 1,000 error-prone applications, and (b) the lesser of 1/2 of 1 percent of, or 500, approved applications in which the household provided, in lieu of income information, a case number showing participation in the SNAP, TANF, or FDPIR.
 - (3) The use of alternative sample sizes is available only as follows:
 - (a) Any LEA may qualify if its non-response rate for the preceding school year's verification was less than 20 percent, or
 - (b) An LEA with more than 20,000 children approved by application for free and reduced price meals may qualify if its non-response rate for the preceding year had improved over the rate for the second preceding year by at least 10 percent.

“Non-response rate” is defined as the percentage of approved household applications selected for verification for which the LEA has not obtained verification information (7 CFR section 245.6a(a)).

Sources of information for verification include written evidence, collateral contacts, and systems of records, as described in 7 CFR section 245.6a(b) (42 USC 1758(b)(3)(D) and (H)).

Some LEAs are required to conduct a second review of initial eligibility determinations for free and reduced price school meals and to submit the results of the reviews, including the number of reviewed applications for which the eligibility determinations changed and the type of change made. State agencies are required to submit a report to FNS using the FNS-874, the LEA Second Review of Applications Report (OMB No. 0584-0594). Affected LEAs are those that demonstrated high levels of, or a high risk for, administrative error associated with certification, verification, and other administrative processes (7 CFR section 245.11).

Audit Objectives Determine whether the LEA (or state) selected and verified the required sample of approved free and reduced price applications and made the appropriate changes to eligibility status and, if applicable, properly conducted the second review of applications.

Suggested Audit Procedures

- a. Obtain the current family size and income guidelines published by FNS.
- b. Through examination of documentation, ascertain that:
 - (1) The sampling and verification of free and reduced price applications were performed, as required, including, if applicable, the second reviews of applications.
 - (2) Changes were made to eligibility status based on documentation and other information obtained through the verification process.

2. Accountability for USDA-Donated Foods

The following compliance requirements do not apply to recipient agencies (as defined at 7 CFR section 250.3), including SFAs and SFSP sponsors. Auditors making audits of recipient agencies are not required to test compliance with these requirements.

Compliance Requirements

a. Maintenance of Records

Distributing and subdistributing agencies (as defined at 7 CFR section 250.3) must maintain accurate and complete records with respect to the receipt, distribution, and inventory of USDA-donated foods, including end products processed from donated foods. Failure to maintain records required by 7 CFR section 250.16 shall be considered prima facie evidence of improper distribution or loss of donated foods, and the agency, processor, or entity may be required to pay USDA the value of the food or replace it in kind (7 CFR sections 250.16(a)(6) and 250.15(c)).

b. *Physical Inventory*

Distributing and subdistributing agencies shall take a physical inventory of all storage facilities. Such inventory shall be reconciled annually with the storage facility's inventory records and maintained on file by the agency that contracted with or maintained the storage facility. Corrective action shall be taken immediately on all deficiencies and inventory discrepancies and the results of the corrective action forwarded to the distributing agency (7 CFR section 250.14(e)).

Audit Objectives Determine whether an appropriate accounting was maintained for USDA-donated foods, an annual physical inventory was taken, and the physical inventory was reconciled with inventory records.

Suggested Audit Procedures

- a. Determine storage facility, processing, and end use locations of all donated foods, including end products processed from donated foods. Determine the donated food records maintained by the entity and obtain a copy of procedures for conducting the required annual physical inventory. Obtain a copy of the annual physical inventory results.
- b. Perform analytical procedures and obtain explanation and documentation for unusual or unexpected results. Consider the following:
 - (1) Compare receipts, distribution, losses, and ending inventory of donated foods for the audit period to the previous period.
 - (2) Compare distribution by entity for the audit period to the previous period.
- c. Ascertain the validity of the required annual physical inventory. Consider performing the following steps, as appropriate:
 - (1) Observe the annual inventory process at selected locations and recount a sample of donated food items.
 - (2) If the annual inventory process is not observed, select a sample of significant donated foods on hand as of the physical inventory date and, using the donated food records, "roll forward" the balance on hand to the current balance observed.
 - (3) On a test basis, recompute physical inventory sheets and related summarizations.
 - (4) Ascertain that the annual physical inventory was reconciled to donated food records. Investigate any large adjustments between the physical inventory and the donated food records.
- d. On a sample basis, test the mathematical accuracy of the donated food records and related summarizations. From the donated food records, vouch a sample of receipts, distributions, and losses to supporting documentation. Ascertain that

activity is properly recorded, including correct quantity, proper period and, if applicable, correct recipient agency.

3. Non-Profit School Food Service Accounts

Compliance Requirements

An SFA is required to account for all revenues and expenditures of its non-profit school food service in accordance with state and federal requirements. An SFA must operate its food services on a non-profit basis; all revenue generated by the school food service must be used to operate and improve its food services (7 CFR sections 210.14(a), 210.14(c), 210.19(a)(2), 215.7(d)(1), 220.2, and 220.7(e)(1)(i)).

Audit Objectives Determine whether a separate accounting is made of the school food service, federal reimbursement payments are correctly credited to the school food service account and transfers out of the school food service account are for allowable costs of the school food service.

Suggested Audit Procedures

- a. Review the school food service accounting records and ascertain if a separate accounting is made for the school food service.
- b. Test federal reimbursement payments received monthly from the administering agency to ascertain if correctly credited to the food service account.
- c. Test transfers out of the school food service account and ascertain if the transfers were for the benefit of the school food service.

4. Paid Lunch Equity (NSLP)

Compliance Requirements In Section 767 of Division A of the Consolidated Appropriations Act 2021 (Pub. L. No. 116-260) (the Appropriations Act), Congress provides that only SFAs that had a negative balance in the nonprofit school food service account as of December 31, 2020, shall be required to establish prices for paid lunches according to the Paid Lunch Equity (PLE) provisions in Section 12(p) of the Richard B. Russell National School Lunch Act, 42 USC 1760(p) and implemented in National School Lunch Program regulations at 7 CFR 210.14(e). Any SFA with a positive or zero balance in its nonprofit school food service account as of December 31, 2020, is exempt from PLE requirements found at 7 CFR 210.14(e) for school year (SY) 2021–2022.

SFAs that had a negative balance are required to ensure that sufficient funds are provided to its nonprofit school food service accounts from lunches served to students not eligible for free or reduced price meals. An SFA currently charging less for a paid lunch than the difference between the federal reimbursement rate for such a lunch and that for a free lunch is required to comply. This difference is known as “equity.” There are two ways to meet this requirement: (a) by raising the prices charged for paid lunches; or (b) through contributions from other non-federal sources.

The calculations performed by the SFA to determine whether its paid lunch price requires adjustment are as follows:

- a. Determine the weighted average price of paid lunches. This is determined based on the total number of paid lunches claimed for federal reimbursement for the month of October in the previous school year, at each different price charged by the SFA (7 CFR section 210.14(e)(1)(i)).
- b. Calculate the paid lunch equity requirement, which is the difference between the per meal federal reimbursement for paid and free lunches received by the SFA in the previous school year (7 CFR paragraph 210.14(e)(1)(ii)).
- c. If the paid lunch equity calculated in step b. is higher than the weighted average price the SFA had been charging, calculated in step a., the SFA must increase the average weighted price charged in the previous school year by the sum of 2 percent and the percentage change in the Consumer Price Index for All Urban Consumers. This is the minimum price the SFA should be currently charging for paid lunches (7 CFR paragraph 210.14(e)(3)).

Audit Objectives Determine whether an SFA has correctly calculated its average paid lunch pricing requirement; correctly applied the calculations to the average paid lunch price; implemented the newly calculated paid lunch price; and received the equity contributions from non-federal sources.

Suggested Audit Procedures

- a. Verify the calculations performed by the SFA to determine whether its paid lunch price requires adjustment.
- b. Verify that the SFA adjusted its average weighted paid lunch price in accordance with the results of the foregoing calculations and is actually charging students the adjusted price.
- c. Ascertain if the SFA met the equity requirement by furnishing additional funds from non-federal sources.
- d. If so, verify that the amount provided was sufficient to cover the difference between the amount calculated by the SFA and the amount actually charged for paid lunches.

IV. OTHER INFORMATION

FNS no longer requires recipient agencies to inventory USDA-donated food separately from purchased food. However, the value of donated foods used during a state or recipient agency's fiscal year is considered federal awards expended in accordance with 2 CFR section 200.40 definition of "federal financial assistance" and must be valued in accordance with 2 CFR section 200.502(g). Therefore, recipient agencies must report the value of donated foods used according to the fair market value of donated foods at the time of receipt or the assessed value provided by the federal agency for this purpose.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.557 SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)****I. PROGRAM OBJECTIVES**

The objective of the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) is to provide to provide low-income pregnant, breastfeeding, and postpartum women, infants, and children to age 5 who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes and supports breastfeeding as the feeding method of choice for infants, provides substance abuse education, and promotes immunization and other aspects of healthy living.

The USDA's Food and Nutrition Service (FNS) makes funds available to participating state agencies (usually health departments). State agencies distribute the funds to participating local agencies, which operate WIC clinics. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified Nutrition Services and Administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and support, and health care referrals.

II. PROGRAM PROCEDURES**A. Administration**

The USDA's FNS administers the WIC program through grants awarded to state health departments or comparable state agencies, Indian tribal organizations, bands or intertribal councils, or groups recognized by the Bureau of Indian Affairs, US Department of the Interior, or the Indian Health Service (IHS) of the US Department of Health and Human Services (HHS) ("ITOs"). A state agency administering the WIC program must sign a federal/state agreement that commits it to observe applicable laws and regulations in carrying out the program. The state agencies, in turn, award subgrants to local agencies to certify applicants' eligibility for WIC program benefits and deliver such benefits to eligible persons.

B. Program Funding

The WIC program is a grant program that is 100 percent federally funded. No state matching requirement exists. Funds are awarded by FNS on the basis of funding formulas prescribed in the WIC program regulations.

FNS allocates federally appropriated funds to WIC state agencies as grants, which are divided into two parts: a component for food costs and a component for NSA costs. Resources made available to a state agency under these two components of its initial federal WIC formula grant may be modified by the cumulative effect of the following requirements:

1. *Reallocations and Recoveries*

The WIC Program’s authorizing statute and regulations require FNS to recover unspent funds and reallocate them to state agencies.

2. *Conversion Authority*

A state agency that submits a plan to increase WIC participation under a cost containment strategy, as outlined under the “Cost Containment Requirements” section below, in excess of the increases projected by FNS in the NSA funds allocation formula, may shift a portion of its food grant component to its NSA component. This “conversion authority” is a function of the “excess” participation increase and is determined by FNS (see III.A.2, “Activities Allowed or Unallowed – Exceptions”).

3. *Spending Options*

Federal legislation and regulations authorize a state agency to shift a portion of its federal WIC formula grant between grant periods (federal fiscal years) (see III.H, “Period of Performance”).

4. *Rebates*

A state agency may contract with a food manufacturer to receive a rebate on each unit of the manufacturer’s product purchased with food instruments (FIs) redeemed by program participants. Such rebates are credits for food costs that are reported in the month in which the rebate was received.

5. *Vendor, Participant, and Local Agency Collections*

A state agency is authorized to retain federal program funds recovered through claims action against vendors, participants, and local agencies, and to use such recoveries for program purposes (see III.B, “Allowable Costs/Cost Principles”).

6. *Program Income*

Certain miscellaneous receipts a state agency collects as the result of WIC program operations are classified as program income (see III.J, “Program Income”).

7. *State Funding*

Although the federal financial participation (FFP) for WIC is 100 percent, some states voluntarily appropriate funds from their own revenues to extend WIC services beyond the level that could be supported by federal funding alone.

C. Certification

Applicants for WIC program benefits are screened at WIC clinic sites to determine whether they meet the eligibility criteria in the following categories: categorical,

residency, income, and nutritional risk (see III.E.1, “Eligibility – Eligibility for Individuals”).

D. Benefits

The WIC program provides participants with specific nutritious supplemental foods, nutrition education (including breastfeeding promotion and support), and health services referrals at no cost. The authorized supplemental foods are prescribed from standard food packages according to the category and nutritional need of the participant. The seven food packages available are described in detail in WIC program regulations.

About 75 percent of the WIC program’s annual appropriation is used to provide WIC participants with monthly food package benefits. The remainder is used to provide additional services to participants and to manage the program. Additional services provided to WIC participants include nutrition education, breastfeeding promotion and support activities, and client services, such as diet and health assessments, referral services for other health care and social services, and coordination activities.

E. Food Benefit Delivery

Supplemental foods are provided to participants in any one of three ways, which are defined in program regulations at 7 CFR section 246.12(b) as follows:

Direct Distribution Food Delivery Systems (used in West Virginia, Delaware, Pennsylvania, Maryland, and in parts of Illinois, for example)

The state agency and/or its agent purchases supplemental foods in bulk and issues them to participants at designated distribution facilities.

Home Food Delivery Systems (used in parts of Alaska)

Arrangements with home food delivery contractors provide for the delivery of supplemental foods directly to participants’ homes.

Retail Food Delivery System (used by most state agencies)

Negotiable FIs are issued directly to individual participants, who use them to obtain authorized supplemental foods at retail stores approved as vendors by the state agency. FIs can be either paper checks/vouchers or electronic benefit transfer (EBT) cards and may be processed by a bank and/or processor or the WIC state agency itself. For paper checks, the participant must use an FI within 30 days of the first date of use printed on the FI, and the vendor must submit the FI for payment within 60 days of that date. For EBT cards, the participant must redeem all benefits by the end of 30 days from the first date on which it was issued except for the first month of issuance. The benefit balance associated with the EBT account cannot be redeemed after the end date specifically authorized by the state agency management information system.

Negotiable paper cash-value vouchers (CVVs) or EBT cash-value benefits (CVBs) are issued directly to participants, who use them to obtain authorized fruits and vegetables from WIC-authorized vendors or farmers or farmers’ markets authorized by the state

agency (if the state agency elects to authorize farmers or farmers' markets). FIs and CVVs/CVBs share several features. Both are negotiable for stated periods of time. Unlike other FIs, CVVs, and CVBs are issued with face values in standard denominations. Under EBT systems, the CVB is established as a separate food category with a benefit unit of dollars rather than food quantities. No additional EBT card or voucher is issued by the state agency.

Each paper FI or CVV issued to a participant must have a unique serial number. In EBT, the card number represents the unique serial number for off-line benefit tracking, while a unique benefit identification (ID) number is used for on-line tracking. A state agency is required to determine the ultimate disposition of all FIs and CVVs by serial number or ID number within 120 days of the first valid date for participant use. The state agency must adjust previously reported obligations for WIC food costs in order to account for actual FI or CVV redemptions and other changes in the status of FIs or CVVs. For EBT, the CVB is accounted for as a unique benefit in the same manner as other items in the food balance.

F. Cost Containment Requirements

In an effort to use their food funding more efficiently, all WIC state agencies in the 50 states, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, the Commonwealth of the Northern Marianas Islands, and most ITOs have implemented cost containment measures. Reducing the average food cost per person enables WIC to reach more participants with a given amount of funds. The most successful strategy has been the negotiation of competitive rebate contracts between state agencies and infant formula companies. Such contracts provide for the state agency to receive rebates on infant formula used in the program. Other cost containment measures used by state agencies include competitive bidding for infant cereal, infant meats, infant fruits, and infant vegetables; selection of retail vendors based on competitive prices; setting maximum redemption amounts for FIs or food items for EBT; authorizing the use of store or generic brands of supplemental foods; and using a home delivery or direct distribution food delivery system.

1. Vendor Cost Containment

Requirements for selecting and paying vendors on the basis of competitive prices are in 7 CFR section 246.12(g)(4). These requirements do not apply to farmers, farmers' markets, or to CVVs transacted by retail vendors. Unless FNS has granted a state agency an exemption, the state agency is required to:

- a. Maintain (and assess and modify, as necessary) a vendor peer group system, whereby authorized vendors are classified into groups on the basis of common characteristics or criteria that affect food prices. At least one such criterion must be a measure of geography, such as metropolitan or other statistical areas that form distinct labor and products markets.
- b. Select and authorize vendors by applying competitive price criteria.
- c. Set limits on payments to vendors within each peer group.

- d. Identify vendors (called “above-50-percent vendors”) that derive more than 50 percent of their annual food sales revenue from WIC FIs.
- e. Comply with requirements designed to ensure that the use of above-50-percent vendors is cost neutral to the program (that is, that it does not result in higher WIC food costs than would have been the case if WIC participants had transacted their WIC FIs only at regular vendors). (See III.N.4, “Special Tests and Provisions – Authorization of Above-50-Percent Vendors.”)

G. Federal Oversight and Compliance Mechanisms

FNS oversees state operations through an organization consisting of headquarters and seven regional offices. Federal program oversight encompasses review of the nine functional areas of the program through management evaluations (MEs): Organization and Management; Funding and Participation; Vendor Management; Information Systems; Certification, Eligibility, and Coordination; Nutrition Services; Civil Rights; Monitoring and Audits; and Food Delivery. Each year, FNS issues a WIC ME Target Area Memorandum, which instructs regional offices what to evaluate via MEs the following year. Target Areas are established in order to focus FNS’s oversight efforts on key areas related to WIC program integrity and operations. Usually, the Target Area comprises one functional area and risk-based MEs.

Although FNS uses technical assistance extensively to promote improvements in state operation of the WIC program, enforcement mechanisms are also present. The misuse of funds through state or local agency negligence or fraud may result in the assessment of a claim. Claims may be established for funds lost due to FI or CVV theft or embezzlement or for unreconciled FIs or CVVs. FNS has other mechanisms to recover other losses and the cost of negligence. For other forms of noncompliance, FNS has the authority to give notice and, if improvements do not occur, withhold administrative funds for failure to implement program requirements.

FNS has identified the following circumstances that may indicate noncompliance with WIC program requirements: (1) redeemed FIs or CVVs which the issuing local agencies had reported as voided or unclaimed; (2) a large number of consecutively numbered, unreconciled FIs or CVVs issued by the same local agency; (3) redeemed FIs or CVVs that appear to have been validly issued but fail to match issuance records; and (4) participants that transacted all of their FIs or EBT balances on the same day as they were issued.

Source of Governing Requirements

The WIC Program is authorized by Section 17 of the Child Nutrition Act of 1966 (42 USC 1786). Program regulations are found at 7 CFR Part 246.

Availability of Other Program Information

For other information, contact the applicable FNS regional office. Regional office contact information and the states each regional office serves may be found on FNS’s website

(<http://www.fns.usda.gov/wic>). The WIC program regulations can be found at that website as well.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	N	N	Y	Y	N	N	N	N

A. Activities Allowed or Unallowed

1. General Rule

- a. Funds allocated to a state agency for food must be expended to purchase supplemental foods for participants or to redeem FIs or CVVs issued for that purpose. When supplemental foods are provided to participants via direct distribution, the related warehouse facilities costs shall be allowable food costs. Food funds can also be used to purchase breast pumps for participants (7 CFR sections 246.14(a) and (b)). Federal program funds may not be used to pay for retroactive benefits to participants (7 CFR section 246.14(a)(2)).
- b. Funds allocated for NSA must be used for the costs incurred by the state or local agency to provide participants with nutrition education,

breastfeeding promotion and support, and referrals to other social and medical service providers; and to conduct participant certification, caseload management, food benefit delivery, vendor management, voter registration, and program management (42 USC 1786(h)(1)(C)(ii); 7 CFR sections 246.14(c) and (d)).

2. *Exceptions*

- a. Funds allocated for food costs may be converted (be applied to NSA costs) (1) as a result of a state's plan to exceed participation levels projected by the federal funding formula; or (2) after recovery as vendor or participant collections. Conversion due to planned participation increases is allowed only if such increases are expected to result from an approved cost containment plan (7 CFR sections 246.14(e) and 246.16(f)).
- b. Funds allocated for NSA costs but not needed for such costs may be applied to food costs (7 CFR section 246.14(a)(2)).

3. *Distinguishing WIC from Non-WIC Services*

Under no circumstances may the WIC NSA grant component be charged for costs that are demonstrably outside the scope of the WIC program. WIC services may include (a) some screening (excluding laboratory tests other than the blood work [hematological test] described below, which is required for determining WIC eligibility); (b) referrals for other medical/social services, such as immunizations, prenatal (before birth) care, perinatal care (near the time of birth from the 28th week of pregnancy through 28 days following birth), and well child care and/or family planning; and (c) follow-up on participants referred for such services. However, the cost of the services performed by other health care or social service providers to which the participant has been referred shall not be charged to the WIC grant. For example, the cost to screen, refer, and follow-up on immunizations for WIC participants may be charged to the WIC grant, but the cost to administer the shot, or to purchase the vaccine or vaccine-related equipment, may not be charged to the WIC grant.

A hematological test for anemia, such as a hemoglobin, hematocrit, or free erythrocyte protoporphyrin test, is the only laboratory test required to determine a person's eligibility for WIC (7 CFR section 246.7(e)(1)). Accordingly, the cost of hematological tests for anemia is the only laboratory cost that may be charged to a WIC grant.

B. Allowable Costs/Cost Principles

1. *Applicable Credits*

The following items are credits against current vendor billings or prior expenditures:

- a. *Rebates* – Rebates are credits for food costs that are reported in the month in which the rebate was received (7 CFR section 246.14(f)).

- b. *Vendor Collections* – Post-payment vendor collections are funds collected through claims assessed against food vendors for errors and overcharges. Pre-payment vendor collections are improper payments prevented as a result of reviews of FIs or CVVs prior to payment; they are credits against vendor billings.
- c. *Participant Collections* – These are recoveries of improperly issued food benefits as the result of a participant, guardian, or caretaker intentionally making a false or misleading statement or withholding information.
- d. *Local Agency Collections* – These are funds collected as a result of claims assessed against local agencies for program funds that were misused or otherwise diverted from program purposes due to local agency negligence or fraud.

A state agency must recognize, use, and account for these items in accordance with WIC program regulations. At its discretion, the state agency may credit vendor, participant, and local agency collections against expenditures for food and/or NSA costs. The state agency may apply vendor, participant, and local agency collections to food and/or NSA expenditures of: (1) the fiscal year in which the initial obligation was made; (2) the fiscal year in which the claim arose; (3) the fiscal year in which the collection is received; or (4) the fiscal year following the fiscal year in which the collection is received (42 USC 1786(f)(21); 7 CFR section 246.14(e)).

2. *Capital Expenditures*

- a. FNS has authorized WIC state and local agencies to charge the full acquisition cost of non-computer equipment costing less than \$25,000 per unit without obtaining prior FNS approval, and to allow local agencies under their oversight to do likewise. FNS regional offices retain the discretion to apply a lower dollar threshold to an individual state agency and to the local agencies under its oversight, provided certain requirements apply and the state agency receives written notice.
- b. Automated Data Processing (ADP) projects. FNS requires WIC state agencies to obtain prior approval to incur costs for certain ADP projects and to provide notification and/or documentation for others (7 CFR section 246.14(d)). Approval procedures are in FNS Handbook 901, Advance Planning Document Handbook (available at <https://www.fns.usda.gov/apd/handbook-and-guidance>).

Approval levels are as follows:

- (1) A state agency must notify the applicable FNS regional office within 60 days of the initial expenditure or contract award for an ADP project costing in excess of \$4,999 but less than \$100,000; and

- (2) A state agency must receive prior approval for (a) an ADP project that has a cost greater than \$99,999; or (b) any ADP project associated with planning, developing, or deploying a new automation system.

C. Cash Management

The WIC program is subject to the provisions of the Cash Management Improvement Act (CMIA). However, rebates held in state accounts are exempt from the interest provisions of the CMIA (42 USC 1786(h)(8)(J); 7 CFR section 246.15(a)).

E. Eligibility

1. Eligibility for Individuals

Applicants for WIC program benefits are screened at WIC clinic sites to determine their WIC eligibility. To be certified eligible, they must meet the following eligibility criteria (7 CFR sections 246.7(c), (d), (e), (g), and (l)):

- a. *Categorical* – Eligibility is restricted to pregnant, postpartum, and breastfeeding women, infants, and children up to their fifth birthday (7 CFR sections 246.2 (definition of each category) and 246.7(c)).
- b. *Identity and Residency* – Except in limited circumstances, WIC applicants must be physically present for eligibility screenings and provide proof of identity and residency. An applicant also must meet the state agency's residency requirement. Except in the case of ITOs, the applicant must reside in the jurisdiction of the state. ITOs may require applicants to reside within their jurisdiction. All state agencies may designate service areas for any local agency and may require that applicants reside within the service area. A state agency must establish procedures, in accordance with guidance from FNS, to prevent the same individual from receiving duplicate benefits through participation at more than one local agency. Documentation of these determinations may consist of descriptions of documents evidencing the applicants' identities and residency (e.g., notations in the participant's file identifying specific documents that local agency staff have viewed and found acceptable), copies of the documents themselves, and/or the applicants' written statements of identity and residency when no other documentation exists. Certification procedures prescribed by the state agency set conditions for relying on these different forms of documentation (42 USC 1786(f)(23); 7 CFR sections 246.7(c)(1) and (c)(2)(i) and 246.7(i)(3) and (4)).
- c. *Income* – An applicant must meet an income standard established by the state agency or be determined to be automatically (adjunctively) income-eligible based on documentation of his/her eligibility, or certain family members' eligibility, for the following federal programs: (1) Temporary Assistance for Needy Families; (2) Medicaid; or (3) Supplemental Nutrition Assistance Program (formerly the Food Stamp Program). State

agencies also may determine an individual automatically income-eligible based on documentation of his/her eligibility for certain state-administered programs. Documentation of income eligibility determinations may consist of descriptions of documents evidencing the sources and gross amounts of all income, such as wages, disability or Social Security/SSI payments, child support, alimony, etc., received by applicants and/or any members of their households (e.g., notations in the participant's file identifying specific documents that local agency staff have viewed and found acceptable), copies of the documents themselves, and/or the applicant's signed affidavit that his/her household income does not exceed the current WIC income eligibility guidelines when no other documentation exists. With limited exceptions, applicants who are not adjunctively or automatically income-eligible for WIC must provide documentation of family income at their initial or subsequent certification (42 USC 1786(d)(3)(D); 7 CFR sections 246.2 (definition of "family"), 246.7(c), and 246.7(d)).

Income Guidelines – The income standard established by the state agency may be up to 185 percent of the poverty income guidelines issued annually by HHS or state or local income guidelines used for free and reduced-price health care. However, in using health care guidelines, the income guidelines for WIC must be between 100 and 185 percent of the poverty income guidelines. These WIC income guidelines are issued each year in the *Federal Register* and are available on FNS's WIC website at <http://www.fns.usda.gov/wic>. Local agency income guidelines may vary as long as they are based on the guidelines used for free and reduced-price health care (7 CFR section 246.7(d)(1)). Income determinations based on state or local health care guidelines are subject to the definition of "family" in 7 CFR section 246.2, the definition of "income" in 7 CFR section 246.7(d)(2)(ii), and the exclusions from income in 7 CFR section 246.7(d)(2)(iv) (7 CFR sections 246.2 and 246.7(d)(2)).

Income Eligibility Determination – Except for applicants determined to be automatically income-eligible, income is based on gross income and other cash readily available to the family or economic unit. Certain federal payments and benefits, listed at 7 CFR section 246.7(d)(2)(iv), are excluded from the computation of income. The following payments to members of the Armed Forces and their families also are excluded: Family Subsistence Supplemental Allowance (7 CFR section 246.7(d)(2)(iv)(D)(33)); combat pay included under Chapter V of Title 37 (42 USC 1758(b)), as amended by Section 734(b) of Pub. L. No. 111-80.

Payments to Filipino veterans under the Filipino Veterans Equity Compensation Fund (section 1002 of American Recovery and Reinvestment Act (ARRA), 123 Stat. 200) are also excluded. In addition, the state agency may exclude:

- (1) Housing allowances received by military services personnel residing off military installations or in privatized housing, whether on or off-base (7 CFR section 246.7(d)(2)(iv)(A)(1)); and
- (2) Any cost-of-living allowance provided to military personnel who are on duty outside the contiguous states of the United States (7 CFR section 246.7(d)(2)(iv)(A)(2)).

At a minimum, in-stream (away from home base) migrant farm workers and their families with expired Verification of Certification cards shall meet the state agency's income standard provided that the income of the family is determined at least once every 12 months (7 CFR section 246.7(d)(2)(ix)).

An ITO state agency, or a state agency acting on behalf of an ITO, may submit reliable data that proves to FNS that the majority of Indian households in a local agency service area have incomes at or below the state agency's income guidelines. In such cases, FNS may authorize the state agency to permit the use of an abbreviated income screening process whereby an applicant affirms, in writing, that his/her family income is within the state agency's prescribed guidelines (7 CFR section 246.7(d)(2)(viii)).

State agencies may instruct local agencies to consider family income over the preceding 12 months or the family's current rate of income, whichever indicator more accurately reflects the family's income status. To provide more consistency and accountability, WIC has encouraged state agencies to define a family's current rate of income as all income received by the household during the month (30 days) prior to the date the application for WIC benefits is made, or, if the income assessment is being done prospectively, all income that will be available to the family in the next 30 days (see WIC Policy Memorandum No. 2013-3, Income Eligibility Guidance, issued April 26, 2013, which is available at <https://www.fns.usda.gov/wic/income-eligibility-guidance> (7 CFR sections 246.7(d)(2)(i) and (v)).

- d. *Nutritional Risk* – A competent professional authority (e.g., physician, nutritionist, registered nurse, or other health professional) must determine that the applicant is at nutritional risk. While the broad guidelines for determining nutritional risk are set forth in WIC legislation and regulations, the specific allowable nutritional risk criteria are defined in WIC policy guidance, which is updated periodically. Each state agency may choose which allowable nutritional risk criteria will be used to determine eligibility. At a minimum, the certifying agency must perform and/or document measurements of each applicant's height or length and weight. In addition, a hematological test for anemia must be performed or documented at certification if the applicant has no nutritional risk factor prescribed by the state agency other than anemia. Certified applicants with qualifying nutritional risk factors other than anemia must also be tested for

anemia within 90 days of the date of certification. Program regulations set several exceptions to these general rules. The determination of nutritional risk may be based on current referral data provided by a competent professional authority who is not on the WIC staff (7 CFR sections 246.2 (definitions of “competent professional authority” and “nutritional risk”) and 246.7(e)).

When an applicant meets all eligibility criteria, he/she is determined by WIC clinic staff to be eligible for program benefits. Certification periods are assigned to each participant based on categorical status for women, infants, and children (7 CFR section 246.7(g)).

A WIC local agency assigns each eligible person a priority classification according to the classification system described in 7 CFR section 246.7(e)(4). A person’s priority assignment reflects the severity of his/her nutritional risk. If the local agency cannot immediately place the person on the program for lack of an available caseload slot, the person is placed on a waiting list. Caseload vacancies are filled from the waiting list in priority classification order. State agencies are expected to target program outreach and caseload management efforts toward persons at greatest nutritional risk (i.e., those in the highest priority classifications).

Pregnant women are certified for the duration of their pregnancy and for up to six weeks postpartum. Breastfeeding women may be certified approximately every six months, or up to one year postpartum or until the woman ceases breastfeeding, whichever occurs first (7 CFR section 246.7(g)(1)). Infants are certified at intervals of approximately six months, except that infants under six months of age may be certified for a period extending up to the child’s first birthday, provided the quality and accessibility of health care services are not diminished. Children are certified for six-month intervals ending with the last day of the month in which the child reaches the fifth birthday. State agencies also have the option to certify children for a period of one year if the state agency ensures that the child receives the required health and nutrition assessments (7 CFR section 246.7(g)(1)). Non-breastfeeding women are certified for up to six months postpartum. All categories of participants may be certified up to the last day of the last month of the certification period (7 CFR section 246.7(g)(1)).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

A state agency may award WIC subgrants only to organizations meeting the regulatory definition of “local agency.” Such organizations include public or private nonprofit health agencies, human service agencies that provide health

services, IHS health units, and ITOs described in the WIC program regulations (see definition of “local agency” in 7 CFR section 246.2).

H. Period of Performance

1. *Spend-Forward Option* – A state agency may spend NSA funds up to an amount equal to 3 percent of its total WIC formula grant for NSA costs of the following federal fiscal year. With prior approval from its FNS regional office, the state agency may also spend NSA funds, in an amount that does not exceed one-half of 1 percent of its total WIC formula grant, for management information systems development costs during the following federal fiscal year. Food funds may not be “spent forward” (42 USC 1786(i)(3)(A)(ii)(I); 7 CFR section 246.16(b)(3)(ii)).
2. *Backspend Option* – A state agency may:
 - a. Spend up to 1 percent of the food component of its grant for food costs of the federal fiscal year preceding the fiscal year for which the grant was awarded. This backspend authority may be raised as high as 3 percent with prior approval from FNS.
 - b. Spend up to 1 percent of its NSA grant component for food and/or NSA costs of the federal fiscal year preceding the fiscal year for which the grant was awarded (7 CFR section 246.16(b)(3)(i)).

IV. OTHER INFORMATION

See Assistance Listing 10.000 for additional information regarding to waivers for this program due to COVID-19.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.558 CHILD AND ADULT CARE FOOD PROGRAM
(CACFP)****I. PROGRAM OBJECTIVES**

The CACFP assists states, through grants-in-aid and donated foods, to initiate and maintain nonprofit food service programs for the provision of nutritious foods that contribute to the wellness, healthy growth, and development of eligible children and elderly or impaired adults receiving care in nonresidential day care facilities and child care homes.

II. PROGRAM PROCEDURES**A. Overview**

The US Department of Agriculture's (USDA) Food and Nutrition Service (FNS) administers the CACFP through grants-in-aid to states. The program is administered within most states by the state educational agency. In a few states, it is administered by an alternate agency, such as the state department of health or social services. At the discretion of the governor, different agencies within a state may administer the program's child care and adult day care components.

CACFP benefits consist of nutritious meals and snacks served to eligible children and adults who receive care at participating child care centers, adult day care centers, outside-school-hours care centers, at-risk afterschool programs, family and group day care homes, and emergency shelters, as defined in 7 CFR 226.2.

Eligible child care centers include public, private nonprofit, and certain for-profit child care centers, Head Start programs, and other entities that are licensed or approved to provide day care services.

Public, private nonprofit, and certain for-profit adult day care facilities that provide structured, comprehensive services to nonresidential adults who are functionally impaired, or aged 60 and older.

Outside-school-hours care centers include public, private nonprofit and certain for-profit organizations licensed or approved to provide nonresidential child care services to enrolled children outside of school hours.

At-risk afterschool programs are structured, supervised programs that are organized primarily to provide care to children through age 18 after school hours and on weekends and holidays during the school year; provide educational or enrichment activities; and located in low-income areas. Examples of organizations that typically offer such programs include the Boys & Girls Clubs, and the YMCA.

Public and private nonprofit emergency shelters that provide temporary shelter and food services to homeless children. Eligible shelters may receive reimbursement for serving up to three meals each day to residents ages 18 and younger.

A family or group day care home is a private home licensed or approved to provide day care services.

Child and adult day care centers and outside-school-hours care centers (often referred to collectively in this discussion as “centers”), as well as at-risk afterschool programs and emergency shelters, may operate independently under agreements with their state agencies, or they may participate under the auspices of sponsoring organizations. Day care homes may participate only through sponsoring organizations. An entity with which a state agency enters into an agreement for the operation of the CACFP, be it an independent center or a sponsoring organization, is known as an “institution.”

A sponsoring organization usually does not provide child care services itself. Rather, it assumes administrative and financial responsibility for CACFP operations in centers and day care homes under its sponsorship. In that capacity, sponsoring organizations generally pass federal funds received from their state agencies through to their homes and centers; in some cases, however, sponsoring organizations provide meals to their centers in lieu of cash reimbursement.

B. Program Funding

Program funds are provided to states through letters of credit issued under the FNS Integrated Program Accounting System. The states, in turn, use the funds to reimburse institutions for costs of CACFP operations and to support state administrative expenses.

1. Types of Assistance and Pricing of Meals

FNS provides a cash payment (called a “national average payment”) to each state agency for each meal served under the CACFP which is adjusted on July 1 of each year. A state’s entitlement to national average payments is mainly determined by the same performance-based (meals-times-rates) formula used by state agencies to compute reimbursement payments to institutions. From the state’s standpoint, all funds received via this formula are pass-through funds that the state must use for reimbursement payments to institutions under its oversight.

Child care, adult day care, and outside-school-hours care centers may charge a single fee to cover tuition, meals, and all other day care services; such arrangements are called non-pricing programs. Alternatively, they may operate pricing programs, in which separate fees are charged for meals. An institution must describe its pricing policy in a free and reduced price policy statement submitted to its state agency. The vast majority of these centers operate non-pricing programs. Nevertheless, institutions must determine the eligibility of children and adults enrolled at these centers for free or reduced price meals because such determinations affect the reimbursement rates for meals served to the participants. Family day care homes are prohibited from charging separately for meals. At-risk afterschool programs and emergency shelters are prohibited from charging for meals altogether.

Independent centers, sponsors of centers, and sponsors of day care homes may be approved to claim reimbursement for up to two reimbursable meals (breakfast,

lunch, or supper) and one snack, or two snacks and one meal, per enrolled participant per day. Operators of at-risk afterschool programs may claim reimbursement for one meal (typically supper) and one snack per child per day. Emergency shelters may claim up to three meals served to each resident child each day. The specific types of meals for which an institution may claim reimbursement payments are stated in its agreement with its state agency.

In addition to cash assistance, USDA makes donated foods, or cash-in-lieu of donated foods, available for use by institutions in operating the CACFP. FNS enters into agreements with state distributing agencies for the distribution of USDA-donated foods to CACFP institutions; the distributing agencies, in turn, enter into agreements with the institutions. The distributing agency may be the state CACFP state agency or a separate state agency.

Source of Governing Requirements

The CACFP is authorized at section 17 of the Richard B. Russell National School Lunch Act (NSLA) (42 USC 1766), as amended. The program regulations are codified at 7 CFR Part 226. Regulations at 7 CFR Part 250 provide general rules for the receipt, custody, and use of USDA-donated foods provided for use in the CACFP.

Availability of Other Program Information

Other program information is available from the FNS website at <http://www.fns.usda.gov/cnd/>. Information on USDA Foods available for the CACFP can be found on the USDA Foods in Schools Foods Available List at <https://www.fns.usda.gov/usda-fis/usda-foods-available>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	N	N	N	Y	N	N	Y	Y

A. Activities Allowed or Unallowed

1. *Reimbursement for Operating Costs of Child and Adult Care Centers*

The administering agency determines whether centers and sponsors of centers under its oversight shall be reimbursed solely according to the meals-times-rates formula outlined in II, “Program Procedures,” or at the lesser of meals-times-rates or actual, documented costs. Costs claimed by the institution as operating costs must be related to preparing and serving meals to children and/or adults under the CACFP (7 CFR section 226.11(c) and definition of “operating costs” in 7 CFR section 226.2).

2. *Reimbursement for Sponsoring Organizations’ Administrative Costs*

Administrative costs are those related to planning, organizing, and managing a food service under the CACFP (7 CFR section 226.2).

- a. Sponsoring Organizations of Centers – There is no provision for sponsoring organizations of centers to receive reimbursement for administrative costs. However, a sponsor may retain a portion of a center’s meal reimbursement, not to exceed 15 percent, for its own administrative expenses (42 USC 1766(f)(2)(C)(i); 7 CFR section 226.16(b)(1)).
- b. Sponsoring Organizations of Family Day Care Homes – In addition to their meal reimbursement payments, sponsoring organizations of family day care homes may receive reimbursement for their administrative costs (7 CFR section 226.12).

3. *Use of Reimbursements*

Reimbursement payments shall be used solely for the conduct of the food service operation or to improve such food service operations, principally for the benefit of the enrolled participants (7 CFR section 226.15(e)(13)).

C. Cash Management

A sponsoring organization must disburse advance and meal reimbursement payments to centers and day care homes under its sponsorship within five working days of receiving them from its state agency (7 CFR sections 226.16(g) and (h)).

E. Eligibility

1. Eligibility for Individuals

a. *General Eligibility*

Any individual may receive meals under the CACFP if he/she:

- (1) Meets the definition of “children” or “adult participant” at 7 CFR section 226.2. These definitions are:
 - (a) “Children” means (i) persons 12 years of age and under; (ii) children of migrant workers 15 years of age and under; (iii) persons of any age who have one or more disabilities and who are enrolled in an institution or child care facility serving a majority of persons who are age 18 and under; (iv) for emergency shelters, persons age 18 and under; and (v) for at-risk afterschool care centers, persons age 18 and under at the start of the school year (see definitions of “children,” “enrolled child,” and “persons with disabilities” at 7 CFR section 226.2).
 - (b) “Adult participant” means “a person enrolled in an adult day care center who is functionally impaired...or 60 years of age or older” (definitions of “adult participant” and “enrolled participant” are available at 7 CFR section 226.2).
- (2) Receives care at a participating institution. The individual must:
 - (a) Be enrolled in a child or adult care center or other nonresidential institution that provides day care;
 - (b) Reside in an emergency shelter; or
 - (c) Attend an at-risk afterschool program or outside-school-hours care center (7 CFR section 226.15(e)(2), definitions of “enrolled child” and “enrolled participant” are available at 7 CFR section 226.2).

b. *Eligibility for Free or Reduced Price Meals*

- (1) *Children and Adults Enrolled in Centers* – While an independent center or sponsoring organization of centers receives federal cash reimbursement for all meals served in centers, it receives higher levels of reimbursement for meals served to children and adults who meet Income Eligibility Criteria published by FNS for meals served free or at reduced price. Participants from households with incomes at or below 130 percent of poverty are eligible for free meals; and participants with household incomes between 130 percent and 185 percent of poverty are eligible for reduced price meals. The Income Eligibility Guidelines and Reimbursement Rates are published in the *Federal Register* and on the FNS website at <http://www.fns.usda.gov/cnd>. Institutions must determine each enrolled participant’s eligibility for free and reduced price meals in order to claim reimbursement for the meals served to that individual at the correct rate (7 CFR sections 226.15(e)(2), 226.17(b)(8), 226.19(b)(7)(i), and 226.19a(b)(8)).

A participant’s eligibility may be established by the following methods:

- (a) **General Rule: Household Application** – The participant’s household may submit an income eligibility statement that provides information about household size and income. The information submitted by each household is compared with USDA’s published Income Eligibility Guidelines. A household is not required to furnish documentation to support the information given in its income eligibility statement; however, that information is subject to verification under 7 CFR section 226.23(h) (7 CFR sections 226.23(e)(1)(ii) and (iii), and 226.23(e)(4)).
- (b) **Exception: Categorical Eligibility** – Children and adults may be determined categorically eligible for free and reduced price meals by virtue of their participation in certain other programs. For children, such programs include the Supplemental Nutrition Assistance Program (SNAP), Food Distribution Program on Indian Reservations (FDPIR), or state programs funded through Temporary Assistance for Needy Families (TANF). Categorically eligible adults include those who receive SNAP, FDPIR, Supplemental Security Income (SSI), or Medicaid benefits. Categorically eligible participants must indicate on the income eligibility statement the other program for which they are eligible. No income eligibility statement is required for foster children or children participating in the Head Start program or for pre-kindergarten children participating in the Even Start program, nor is any eligibility determination required beyond documenting their participation in Head Start or

Even Start (7 CFR sections 226.23 (e)(1)(iv) and (v); 42 USC 1766(c)(6)).

- (2) *Children Enrolled in Family Day Care Homes* – A tiering structure prescribed by program statute and regulations forms the basis for meal reimbursement payments to sponsoring organizations of day care homes. A home is classified as tier I or tier II, depending on the home’s location or the provider’s income eligibility.

Tier I day care homes are those operated by providers whose own household meets the income standards for free or reduced price meals, as outlined above, or those located in low-income areas. A low-income area is one where at least 50 percent of the children are eligible for free or reduced price school meals. Sponsoring organizations may use school enrollment data or census data to determine if a home is located in a low-income areas (7 CFR sections 226.2 (definitions of “low-income area” and “tier I day care home”) and 226.15 (e)(3) and (f)).

Tier II homes are those day care homes which do not meet the location or provider income criteria for a tier I home. Per-meal reimbursement rates for meals served in tier II homes are lower than corresponding rates for tier I homes. The provider in a tier II home may nevertheless elect to have the sponsoring organization determine the income-eligibility of enrolled children so that meals served to those children who qualify for free and reduced price meals would be reimbursed at the higher tier I rate (7 CFR section 226.23(e)(1)(i)).

Meals served to a day care home provider’s own children are not reimbursable unless all of the following conditions are met: (a) such children are enrolled and participating in the CACFP during the time of the meal service; (b) enrolled, nonresidential children are present and participating in the CACFP; and (c) the provider’s own children are eligible for free or reduced price meals (7 CFR section 226.18(e)).

- (3) *Children Attending At-Risk Afterschool Programs* – Eligible afterschool programs must be located in geographical areas where 50 percent or more of the children are eligible for free or reduced price meals under the School Nutrition programs (Assistance Listing 10.553 and 10.555), as demonstrated by the free and reduced price eligibility data maintained by the school serving the area. Individual eligibility determinations for children attending these programs are not required (42 USC 1766(r)).
- (4) *Children Residing in Emergency Shelters* – Children residing in emergency shelters are categorically eligible to receive meals at no charge (42 USC 1766(t)(5)(C)).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

- a. An institution must meet the definition of “independent center” or “sponsoring organization” at 7 CFR 226.2. These definitions are:
- (1) *Independent center* means a child care center, at-risk afterschool care center, emergency shelter, outside-school-hours care center or adult day care center which enters into an agreement with the state agency to assume final administrative and financial responsibility for program operations.
 - (2) *Sponsoring organization* means a public or nonprofit private organization that is entirely responsible for the administration of the food program in:
 - (a) One or more day care homes;
 - (b) A child care center, emergency shelter, at-risk afterschool care center, outside-school-hours care center, or adult day care center, which is a legally distinct entity from the sponsoring organization;
 - (c) Two or more child care centers, emergency shelters, at-risk afterschool care centers, outside-school-hours care center, or adult day care centers; or
 - (d) Any combination of child care centers, emergency shelters, at-risk afterschool care centers, outside-school-hours care centers, adult day care centers, and day care homes. The term “sponsoring organization” also includes an organization that is entirely responsible for administration of the program in any combination of two or more child care centers, at-risk afterschool care centers, adult day care centers or outside-school-hours care centers, which meet the definition of for-profit center in this section and are part of the same legal entity as the sponsoring organization.
 - (3) *For-profit center* means a child care center, outside-school-hours care center, or adult day care center providing nonresidential care to adults or children that does not qualify for tax-exempt status under the Internal Revenue Code of 1986. For-profit centers serving adults must meet the criteria described in paragraph (a) of this definition. For-profit centers serving children must meet the criteria described in paragraphs (b)(1) or (b)(2) of this definition, except that children who only participate in the at-risk afterschool

snack and/or meal component of the program must not be considered in determining the percentages under paragraphs (b)(1) or (b)(2) of this definition.

- (a) A for-profit center serving adults must meet the definition of adult day care center as defined in this section and, during the calendar month preceding initial application or reapplication, the center receives compensation from amounts granted to the states under title XIX or title XX and 25 percent of the adults enrolled in care are beneficiaries of title XIX, title XX, or a combination of titles XIX and XX of the Social Security Act.
- (b) A for-profit center serving children must meet the definition of child care center or outside-school-hours care center as defined in this section and one of the following conditions during the calendar month preceding initial application or reapplication:
 - (i) Twenty-five percent of the children in care (enrolled or licensed capacity, whichever is less) are eligible for free or reduced-price meals; or
 - (ii) Twenty-five percent of the children in care (enrolled or licensed capacity, whichever is less) receive benefits from title XX of the Social Security Act and the center receives compensation from amounts granted to the states under title XX.

Children who participate only in the at-risk afterschool component of the program must not be considered in determining whether the institution met this 25 percent threshold (42 USC 1766(a)(2)(B); 7 CFR section 226.11(c)(4)).

- b. All institutions must meet the eligibility requirements stated in 7 CFR section 226.15 and 42 USC 1766(a)(6) and (d)(1). In addition, as applicable, institutions must meet the type definitions in 7 CFR section 226.2 and applicable additional requirements.
 - Sponsoring organizations: 7 CFR section 226.16;
 - Child care centers (whether independent or sponsored): 7 CFR section 226.17;
 - Day care homes (which must be sponsored): 7 CFR section 226.18;
 - Outside-school-hours centers: 7 CFR section 226.19;

- Adult day care centers (whether independent or sponsored): 7 CFR section 226.19a;
- At-risk afterschool programs: 7 CFR section 226.17a;
- Emergency shelters: 42 USC 1766(t).

I. Procurement and Suspension and Debarment

1. Procurement

- a. A prospective contractor that develops or drafts specifications, requirements, statements of work, invitations for bids, requests for proposals, contract term and conditions, or other documents for use by a state under this program shall be excluded from competing for such procurements. Such prospective contractors are ineligible for contract awards resulting from such procurements regardless of the procurement method used. However, prospective contractors may provide states with specification information related to a state procurement and still compete for the procurement if the state, and not the prospective contractor, develops or drafts the specifications, requirements, statements of work, invitations for bid, and/or requests for proposals used to conduct the procurement (2 CFR section 416.1(a)).
- b. Procurements by states under this program shall be conducted in a manner that prohibits the use of statutorily or administratively imposed in-state or local geographic preferences except as provided for in 2 CFR section 200.319(b) (2 CFR section 416.1(b)).
- c. Notwithstanding the requirements in paragraph 1.b above, an institution operating the CACFP may use a geographical preference for the procurement of unprocessed agricultural products, both locally grown and locally raised (7 CFR section 226.22(n) and Section 4302 of Pub. L. No. 110-246, 122 Stat. 1887, June 18, 2008).

2. Suspension and Debarment

Mandatory awards by pass-through entities to subrecipients are excluded from the suspension and debarment rules (2 CFR section 417.215(a)(1)).

N. Special Tests and Provisions

1. Accountability for USDA-Donated Foods

Compliance Requirements

- a. Maintenance of Records

Distributing and subdistributing agencies (as defined at 7 CFR section 250.3) must maintain accurate and complete records with respect to the receipt, distribution, and inventory of USDA-donated foods, including end products

processed from donated foods. Failure to maintain records required by 7 CFR section 250.16 shall be considered prima facie evidence of improper distribution or loss of donated foods, and the agency, processor, or entity may be required to pay USDA the value of the food or replace it in kind (7 CFR sections 250.16(a)(6) and 250.15(c)).

b. Physical Inventory

Distributing and subdistributing agencies and institutions shall take a physical inventory of all storage facilities. Such inventory shall be reconciled annually with the storage facility's inventory records and maintained on file by the agency which contracted with or maintained the storage facility. Corrective action shall be taken immediately on all deficiencies and inventory discrepancies and the results of the corrective action forwarded to the distributing agency (7 CFR section 250.14(e)).

The compliance requirements do not apply to recipient agencies (as defined at 7 CFR section 250.3), including CACFP institutions. Auditors making audits of recipient agencies are not required to test compliance with these requirements.

Audit Objectives Determine whether an appropriate accounting was maintained for USDA-donated foods, an annual physical inventory was taken, and the physical inventory was reconciled with inventory records.

Suggested Audit Procedures

- a. Determine storage facility, processing, and end use locations of all donated foods, including end products processed from donated foods. Ascertain the donated food records maintained by the entity and obtain a copy of procedures for conducting the required annual physical inventory. Obtain a copy of the annual physical inventory results.
- b. Perform analytical procedures and obtain explanation and documentation for unusual or unexpected results. Consider the following:
 - (1) Compare receipts, distributions, losses, and ending inventory of donated foods for the audit period to the previous period.
 - (2) Compare distribution by entity for the audit period to the previous period.
- c. Ascertain the validity of the required annual physical inventory. Consider performing the following steps, as appropriate:
 - (1) Observe the annual inventory process at selected locations and recount a sample of donated food items.
 - (2) If the annual inventory process is not observed, select a sample of significant donated foods on hand as of the physical inventory date and, using the donated food records, "roll forward" the balance on hand to the current balance observed.

- (3) On a test basis, recompute physical inventory sheets and related summarizations.
 - (4) Ascertain that the annual physical inventory was reconciled to donated food records. Investigate any large adjustments between the physical inventory and the donated food records.
- d. On a sample basis, test the mathematical accuracy of the donated food records and related summarizations. From the donated food records, vouch a sample of receipts, distributions, and losses to supporting documentation. Ascertain that activity is properly recorded, including correct quantity, proper period and, if applicable, correct recipient agency.

IV. OTHER INFORMATION

1. The value of donated foods used during a state or recipient agency's fiscal year is considered federal awards expended in accordance with 2 CFR section 200.40, definition of "federal financial assistance," and should be valued in accordance with 2 CFR section 200.502. Therefore, recipient agencies must determine the value of donated foods used. FNS recommends that recipient agencies use the value of donated food delivered to them during the fiscal year being audited for this purpose.
2. See Assistance Listing 10.000 for additional information regarding to waivers for this program due to COVID-19.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.566 NUTRITION ASSISTANCE FOR PUERTO RICO****I. PROGRAM OBJECTIVES**

The objective of the Puerto Rico Nutrition Assistance Program (NAP) is to help needy residents of the Commonwealth of Puerto Rico (PR) meet their nutritional needs.

II. PROGRAM PROCEDURES**A. Administration**

Funds for the NAP are appropriated annually. The Food and Nutrition Service (FNS) of the US Department of Agriculture (USDA) provides an annual block grant to the Puerto Rico (PR) Department of the Family to cover the full cost of program benefits and 50 percent of the costs of administering the program. As a condition of receiving the grant, PR must submit an annual plan of operation for review and approval by FNS. FNS provides funding increments to PR's NAP letter-of-credit authorization on the basis of budget estimates contained in the approved plan. FNS also monitors program operations to assure program integrity. These monitoring activities include reviewing financial reports and making on-site management reviews of selected program operations (7 CFR sections 285.2(a), 285.2(b), and 285.3).

B. Benefits

Under the NAP, participating households receive nutritional benefits. They must use these program benefits to purchase foods for preparation and consumption at home. The amount of a household's monthly benefit payment depends on the household's characteristics, financial circumstances, and the funds available for distribution. PR establishes the eligibility and benefit levels for the program. The benefits are revised October 1 of each year to consider the nutritional needs of PR's needy population and to provide for the distribution of available block grant funds.

A household receives its monthly benefit payment electronically. PR issues each client household a debit card with which to access the benefits. All of the benefits (100 percent) are issued for food purchases.

The Administration of the Socio-Economic Development of the Family (ADSEF) will continue supporting the Family Markets by setting aside a 4% of benefits exclusively to purchase nutritious fresh food at the Family Markets in participating regions and municipalities. The 4 % portion is included in the monthly adjustment as an "electronic voucher" and is calculated by applying the formula of the monthly adjustment.

C. Benefit Redemption

NAP benefits are administered through an electronic benefit transfer (EBT) system. PR establishes a benefit account to control the issuance and use of each household's benefits. Beginning in 2001, NAP program rules provided that 75 percent of NAP benefits were redeemable for eligible food items at certified NAP retailers through EBT; the remaining 25 percent of benefits were available as cash and intended food purchases. Section 4025 of the Agricultural Act of 2014 requires the secretary to review cash nutrition assistance benefits in Puerto Rico by studying the history of cash benefits, barriers to redemption with non-cash benefits, usage of cash benefits for the purchase of nonfood items, and other factors. The provision also restricts the secretary from approving any nutrition assistance plan for FY 2017 that provides more than 20 percent of benefits in cash. Due to disasters, there was a temporary hold at 20 percent into FY 2018, which ended on December 31, 2017. In FY 2018, cash was limited to 15 percent of benefits; in FY 2019, cash is limited to 10 percent of benefits; in FY 2020, cash is limited to 5 percent; and in FY 2021, no benefits shall be in the form of cash. The secretary may make exemptions if discontinuation of cash benefits will have significant adverse effects.

ATM transactions generate charges against the client's cash account. Purchases at authorized retailers generate on-line charges against the client's noncash account; these are resolved by crediting the retailers for the amount of client purchases. PR must reconcile the funds exiting the EBT system and paid to retailers with amounts drawn from its EBT benefit account with Banco Popular. Cash drawn from PR's letter-of-credit is used to settle accounts with Banco Popular. A service provider is used to process NAP EBT transactions.

PR obtains an examination by an independent auditor of the EBT service provider (service organization) regarding the issuance, redemption, and settlement of benefits in accordance with the American Institute of Certified Public Accountants (AICPA) Statement on Standards for Attestation Engagements (AT) Section 801, Reporting on Controls at a Service Organization. Appendix VIII to the Supplement provides additional guidance on these examinations. In testing compliance under the NAP, an auditor may use these SOC 1 type 2 reports to gain an understanding of internal controls and obtain evidence about their operating effectiveness.

Source of Governing Requirements

The NAP is authorized by Section 19 of the Food and Nutrition Act of 2008. USDA regulations pertaining to NAP are found in 7 CFR Part 285. Many program requirements are established through PR's approved annual plan of operation.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance

requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	Y	N	N	Y	N	Y

A. Activities Allowed or Unallowed

The annual plan of operation submitted by the PR Department of the Family must include a description of PR’s program for providing nutrition assistance to needy persons. The nutrition assistance PR actually provides must conform to the approved plan (7 CFR section 285.3(b)(3); PR Annual Plan of Operation). In FY 2021, no benefits shall be in the form of cash. The secretary may make exemptions if discontinuation of cash benefits will have significant adverse effects.

E. Eligibility

1. Eligibility for Individuals

The PR Department of the Family is required to identify in its annual plan the population eligible for NAP benefits. In testing the propriety of eligibility determinations and disbursements for NAP benefits, the auditor shall apply the eligibility criteria established by the PR Department of the Family and identified in the annual plan (7 CFR section 285.3(b)(2)).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

H. Period of Performance

Payments received by PR for a fiscal year may not exceed the amount authorized for the grant or the total NAP cost eligible for funding, whichever is less, for that fiscal year.

Funds for payments for any prior fiscal year expenditures must be claimed against the funding for that fiscal year; however, funds collected from claims are credited to the fiscal year in which the collection occurred (7 USC 2027(e); 7 CFR section 285.2(b)).

PR may carry forward not more than 2 percent of its grant for use in the following fiscal year (7 USC 2028(a)(2)(D); Section 4124 of Pub. L. No. 107-171, 116 Stat. 325-326, May 13, 2002).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable
- d. *FNS-778, Financial Status Report – PR* – This report captures PR’s cumulative outlays (expenditures) and unliquidated obligations of federal funds for NAP as a whole, for the administrative and benefits components of PR’s NAP grant, and for the cost of key functions supported by the NAP grant’s administrative cost component. FNS uses the data captured by this report to monitor PR’s NAP costs and cash draws. The FNS-778 also functions as a work paper that feeds the SF-425 (Government of Puerto Rico State Plan of Operation for FY 2019, pages 48 and 50).

Key Line Items – The following line items contain critical information:

1. Line 10.b. – *Total outlays this report period*
2. Line 10.c. – *Less: Program income credits*
3. Line 10.j. – *Total federal share of unliquidated obligations*

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. EBT Reconciliation

Compliance Requirements PR must perform all the following:

- a. Record and compare payments to the Daily Activity File and the Daily Payments Summary File prepared by the EBT Services provider for the Department of the Family (PR Annual Plan of Operation, H., Program Administration, 2.a., Reconciliation System (EBT)).
- b. Perform the following reconciliations (PR Annual Plan of Operation, H., Program Administration, 2.a., Reconciliation System (EBT)):
 - (1) Benefits authorized equal benefits posted.
 - (2) Benefits accessed by recipients (net EBT account debits/credits) equal benefit amount transactions approved by the EBT services provider.
 - (3) Net EBT account debits/credits equal amount paid to merchants and financial institutions (plus/minus authorized adjustments).
 - (4) Amount paid to merchants and financial institutions equal funds requested by the EBT services provider (plus/minus authorized adjustments).

PR's EBT service provider maintains transaction trails that document the cycle of household transactions from the posting of point-of-sale transactions at retailers through the settlement of retailer credits (PR Annual Plan of Operation, G., Criteria for Distribution of Funds, 7, Electronic Benefit Transfer – EBT Family Card, and H., Program Administration, 2.a., Reconciliation System (EBT)).

Audit Objectives Determine whether PR performs the required comparisons and reconciliations.

Suggested Audit Procedures

- a. Ascertain if PR has a process in place to perform the required comparisons and reconciliations.
- b. Test a sample of comparisons and reconciliations to ascertain if they are properly performed and that there is proper follow-up and resolution of discrepancies.

UNITED STATES DEPARTMENT OF AGRICULTURE

ASSISTANCE LISTING 10.565 COMMODITY SUPPLEMENTAL FOOD PROGRAM

ASSISTANCE LISTING 10.568 EMERGENCY FOOD ASSISTANCE PROGRAM (ADMINISTRATIVE COSTS)

ASSISTANCE LISTING 10.569 EMERGENCY FOOD ASSISTANCE PROGRAM (FOOD COMMODITIES)

I. PROGRAM OBJECTIVES

The objective of the Food Distribution Cluster is to strengthen the nutrition safety net through the provision of US Department of Agriculture (USDA)-donated foods (USDA Foods) to low-income persons. Included in the cluster are the Commodity Supplemental Food Program (CSFP) and the Emergency Food Assistance Program (TEFAP).

CSFP provides a package of USDA Foods to low-income elderly people at least 60 years of age. CSFP food packages are not intended to provide a complete diet, but rather provide the nutrients that are typically lacking in the diets of the target population.

TEFAP provides USDA Foods to low-income households for home consumption or for use in prepared meals at emergency feeding sites for low-income persons.

II. PROGRAM PROCEDURES

The Food and Nutrition Service (FNS) of the USDA enters into agreements with state distributing agencies for the distribution of USDA Foods and provides funding for the administrative costs these organizations incur in performing this function. State agencies may administer both CSFP and TEFAP or either, as well as other USDA nutrition assistance programs. These agencies are often the state departments of agriculture, health, social services, or education.

State agencies may further enter into agreements with one or more subrecipients for local program operations. In food distribution program regulations and in the sections of this Food Distribution Cluster that refer to both TEFAP and CSFP, subrecipients are referred to as “recipient agencies.” The TEFAP specific term for subrecipients is “Eligible Recipient Agencies” (ERA). The CSFP specific term is “local agencies.” The types of organizations that may operate Food Distribution Cluster programs locally are described below under “Program Descriptions.” State agencies pass most administrative funding down to these recipient agencies.

Program Descriptions

Common Characteristics

CSFP and TEFAP are variants of a basic program design having the following characteristics:

- a. USDA purchases and provides food and administrative funds to state agencies, which in

turn provide the USDA Foods and a portion of the administrative funds to recipient agencies.

- b. State agencies must submit a plan of operation to the applicable FNS Regional Office and have a federal-state agreement on file. In CSFP, the plan of operation is referred to as the state plan. In TEFAP, it is referred to as the distribution plan.
- c. Public agencies and private nonprofit organizations possessing tax-exempt status under the Internal Revenue Code can participate in the programs as recipient agencies. Examples include food banks, food pantries, and community action organizations.
- d. Program participants must meet income eligibility requirements to qualify for household distribution of USDA Foods. Determinations are generally made by recipient agencies in accordance with the criteria and procedures established by the state agencies.
- e. The program benefits generally consist of USDA Foods issued to program participants for use in meal preparation at home. The one exception is that some TEFAP ERAs operate emergency feeding sites where USDA Foods are used in preparing meals for service to low-income persons.

Characteristics of Individual Programs

a. *CSFP* – Elderly people at least 60 years of age may be eligible for CSFP if they meet all eligibility criteria. Prior to passage of the Agriculture Act of 2014 (2014 Farm Bill) (Pub. L. No. 113-79), pregnant and breastfeeding women, women up to one year postpartum, infants, and children up to age 6 also were eligible to participate in CSFP on the same basis as elderly persons. However, Section 4102 of the 2014 Farm Bill amended CSFP eligibility requirements to phase out the participation of this population and transition it to a seniors-only program. The phase-out was completed in 2020.

Program participation is limited each year based upon available resources and appropriated funding. Each participating state agency receives an authorized caseload level. Caseload is the number of people each state agency is permitted to serve on an average monthly basis over the course of the caseload cycle (January through December).

Administrative funding is provided each fiscal year per each caseload slot assigned to the state agency and is adjusted annually for inflation. State agencies may retain a percentage of administrative funding but must provide the remainder to local agencies unless FNS approves the state agency to retain a larger amount.

To gain access to its USDA Foods and administrative funds, a state agency must have a state plan and a federal-state agreement on file with the applicable FNS regional office. The state plan must include the criteria listed at 7 CFR section 247.6(c), including a plan for the storage and distribution of USDA Foods.

State agencies may enter into an agreement with a subdistributing agency, such as another state agency, a local governmental agency, or a nonprofit organization, to perform most functions that are normally performed by the state agency, such as entering into agreements with local agencies, ordering USDA Foods, or making arrangements for the storage and transportation of USDA Foods to local agencies. Ultimately, however, the state agency is responsible for all aspects of CSFP administration. CSFP currently operates in 50 states, six Indian tribal organizations, the District of Columbia, and Puerto Rico.

b. *TEFAP* – USDA Foods are distributed through TEFAP either for household use or for use at feeding sites that serve prepared meals to needy persons.

At the local level, the program is operated by ERAs. ERAs include Emergency Feeding Organizations (EFOs), charitable institutions (such as hospitals and retirement homes), summer camps for children, child nutrition programs that provide food service, nutrition programs under the Older Americans Act of 1965 (Nutrition Program for the Elderly) (Pub. L. No. 89-73), and disaster relief programs. EFOs include public and private nonprofit organizations that provide nutrition assistance to relieve situations of emergency and distress through the provision of food to needy persons, such as food banks, food pantries, and soup kitchens.

An ERA may receive a TEFAP subgrant directly from the state agency or from another ERA. In designating ERAs, a state agency may give priority to existing food bank networks and other organizations whose primary function is to facilitate the distribution of food to low-income households, including food from sources other than USDA. However, a state agency must provide USDA Foods to all EFOs within its distribution network before providing USDA Foods to other types of ERAs. A state may delegate its storage and distribution functions to one or more food banks or other ERAs.

USDA provides USDA Foods to state agencies, and the state agencies arrange for their delivery to ERAs. State agencies are prohibited from charging ERAs any type of fee for providing this service (7 CFR section 251.9(d)). FNS also awards each state agency a cash grant for the administrative cost of carrying out its TEFAP food delivery and oversight functions. The state agency, in turn, awards subgrants to its ERAs and/or incurs administrative costs on their behalf. The amounts of USDA Foods and administrative funds a state agency may receive are determined through an allocation formula described at 7 CFR section 251.3(h). USDA may provide bonus USDA Foods in addition to the formula-generated entitlement USDA Foods. Bonus foods are foods purchased by USDA under its market support authorities and donated to FNS.

To gain access to USDA Foods and administrative funds, a state agency must have a distribution plan and a federal-state agreement on file with the applicable FNS regional office. The distribution plan gives the state agency's criteria for awarding subgrants to ERAs and for certifying households eligible for TEFAP benefits. Both the federal-state agreement and the state agency's agreements with its ERAs may be amended at any time due to program changes or at the request of either party. State agencies may also, on an annual basis, submit an amendment to their distribution plan to receive Farm to Food Bank Project funding, which can be used to harvest, process, package, or transport commodities donated by agricultural producers, processors, or distributors for use by EFOs.

The ERAs that conduct household issuance and/or prepared meal activities are known as "distribution sites." Some distribution sites use mostly paid employees to carry out their missions, while others rely heavily on the services of volunteers.

Source of Governing Requirements

CSFP is authorized by sections 4(a) and 5 of the Agriculture and Consumer Protection Act of 1973 (7 USC 612c note; Pub. L. No. 93-86), as amended. Program regulations are found at 7 CFR parts 247 and 250; if these conflict, 7 CFR Part 247 prevails.

TEFAP is authorized by the Emergency Food Assistance Act of 1983 (Pub. L. No. 98-8) (7 USC 7501-7516), as amended. Program regulations are found at 7 CFR parts 250 and 251; if these conflict, 7 CFR Part 251 prevails.

Availability of Other Program Information

More information on the Food Distribution Cluster programs can be found on the FNS Food Distribution Programs website. The web link for CSFP information is <http://www.fns.usda.gov/csfp/commodity-supplemental-food-program-csfp>. The web link for TEFAP information is <http://www.fns.usda.gov/tefap/emergency-food-assistance-program-tefap>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	Y	N	N	Y	N	N	N	Y

A. Activities Allowed or Unallowed

Administrative Activities – For both CSFP and TEFAP, a state agency or recipient agency must use its administrative funds for activities for the

administration of the programs. Such activities include but are not limited to transporting and storing USDA Foods within the state or within a recipient agency's service area, determining the eligibility of program applicants, publishing the times and locations of food distribution, and issuing USDA Foods to eligible persons (7 CFR sections 247.25 and 251.8(e)).

1. *CSFP* – In addition to the activities listed above, examples of activities for which CSFP administrative funds can be used include nutrition education, program outreach, and monitoring and review of program operations (7 CFR section 247.25(a)).
2. *TEFAP* – In addition to the activities listed above, allowable activities include processing USDA Foods. Under certain circumstances, a state agency may also use these funds for transporting USDA Foods to other states and transporting non-USDA Foods in from other states (7 CFR section 251.8(e)(1)).

An ERA that receives USDA Foods from programs other than TEFAP may not use its administrative funds for the distribution of these foods, unless these foods were re-donated to TEFAP (see Food Distribution National Policy Memorandum FD-095, which is available at <http://www.fns.usda.gov/use-tefap-administrative-funds-expenses-associated-foods-secured-other-sources-0>). In addition, a state agency or ERA may use its administrative funds for certain activities associated with the distribution of non-USDA Foods donated by private individuals and organizations (7 CFR section 251.8(e)(1)).

E. Eligibility

1. Eligibility for Individuals

a. CSFP

Receipt of USDA Foods for Household Use – A local agency certifies households as eligible to receive a CSFP food package by applying categorical and income eligibility criteria as follows:

- (1) **Categorical Eligibility.** Eligibility is limited to the elderly (persons at least 60 years of age) (7 CFR section 247.9(a)).
- (2) **Income Eligibility.** State agencies determine income eligibility guidelines for program participants, within the parameters of the income eligibility guidelines provided in program regulations. The state agency must set income eligibility limits that are at or below 130 percent of the federal poverty income guidelines (7 CFR sections 247.9(b) through (e)). The income guidelines must be approved in advance by FNS as part of the state agency's state plan.

- (3) Eligibility Criteria at State's Discretion – In addition to categorical and income eligibility, the state agency may also require that applicants (a) be at nutritional risk, as determined by a physician or by local agency health staff; and/or (b) reside within the service area of a local agency when applying for benefits (7 CFR section 247.9(e)).

b. *TEFAP*

- (1) Receipt of USDA Foods for Household Use – An ERA certifies households eligible to receive USDA Foods for household consumption by applying income eligibility criteria established by the state agency (7 CFR section 251.5(b)). These criteria are approved in advance by FNS as part of the state agency's distribution plan (7 CFR section 251.6(a)).
- (2) Receipt of Prepared Meals – There is no means test for eligibility of persons receiving prepared meals. Their eligibility is derived from the ERA's eligibility to receive USDA Foods from TEFAP and use them in prepared meals (7 CFR section 251.5(a)(2)).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

- a. A recipient agency must be either a public agency or a private entity possessing tax-exempt status under the Internal Revenue Code and must enter into a written agreement with the state agency, or with another recipient agency where permitted, binding it to perform the duties of a recipient agency (7 CFR sections 247.4, 247.7(a), 251.3(d), and 251.5(a)).
- b. For TEFAP, the state agency's distribution plan identifies the classes of organizations with which it will enter into such agreements (7 CFR section 251.6).
- c. For TEFAP, recipient agencies providing prepared meals must have demonstrated, to the satisfaction of the state agency, or ERA to which they have applied for USDA Foods or administrative funds, that they serve predominantly needy persons (7 CFR section 251.5(a)(2)).

N. Special Tests and Provisions

1. Accountability for USDA Foods

Compliance Requirements Accurate and complete records must be maintained with respect to the receipt, distribution/use, and inventory of USDA Foods, including end products processed from USDA Foods in TEFAP. Failure to maintain records required by

7 CFR section 250.19 is considered prima facie evidence of improper distribution or loss of USDA Foods, and the agency processor or entity is liable for the value of the food or replacement of the food in kind (7 CFR sections 250.16 and 250.19(a)).

State distributing agencies must conduct an annual physical inventory of all storage facilities used by the distributing agency or by a subdistributing agency. Such inventory must be reconciled annually with the storage facility's inventory records and maintained on file by the agency which contracted with or maintained the storage facility. Corrective action must be taken immediately on all deficiencies and inventory discrepancies and the results of the corrective action forwarded to the distributing agency (7 CFR section 250.12(b)). In CSFP, a physical inventory also must be conducted annually at all storage and distribution sites where USDA Foods are stored (7 CFR section 247.28).

Audit Objectives Determine whether an appropriate accounting was maintained for USDA Foods, an annual physical inventory was taken, and the physical inventory was reconciled with inventory records.

Suggested Audit Procedures

- a. Determine storage facility, processing, and end use locations of all USDA Foods, including end products processed from donated foods. Determine the USDA Foods records maintained by the entity and obtain a copy of procedures for conducting the required annual physical inventory. Obtain a copy of the annual physical inventory results.
- b. Perform analytical procedures and obtain explanation and documentation for unusual or unexpected results. Consider the following:
 - (1) Compare receipts, usage/distribution, losses, and ending inventory of USDA Foods for the audit period to the previous period.
 - (2) If auditing at the state distributing agency level, compare distribution by entity for the audit period to the previous period.
 - (3) If auditing at the ERA level in TEFAP, compare relationship of usage of USDA Foods to production, meals served, or similar activity reports for the audit period to the same relationship for the previous period.
- c. Ascertain the validity of the required annual physical inventory. Consider performing the following steps, as appropriate:
 - (1) Observe the annual inventory process at selected locations and recount a sample of USDA Foods items.
 - (2) If the annual inventory process is not observed, select a sample of significant USDA Foods on hand as of the physical inventory date and, using the USDA Foods records, "roll forward" the balance on hand to the current balance observed.

-
- (3) On a test basis, recompute physical inventory sheets and related summarizations.
 - (4) Ascertain that the annual physical inventory was reconciled to USDA Foods records. Investigate any large adjustments between the physical inventory and the USDA Foods records.
- d. On a sample basis, test the mathematical accuracy of the USDA Foods records and related summarizations. From the USDA Foods records, vouch a sample of receipts, usage/distributions, and losses to supporting documentation. Ascertain that activity is properly recorded, including the correct quantity, proper period, and, if applicable, correct ERA.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.606 FOOD FOR PROGRESS PROGRAM****I. PROGRAM OBJECTIVES**

The US Department of Agriculture (USDA) donates agricultural commodities for use in carrying out assistance programs in developing countries and friendly countries. Such countries are often emerging democracies that have made a commitment to introduce or expand private enterprise elements into the agricultural sectors of their economies.

II. PROGRAM PROCEDURES

The Food for Progress Program is a Commodity Credit Corporation (CCC) program. CCC implements this program through personnel of the Foreign Agricultural Service (FAS) and Farm Service Agency (FSA). The CCC, a wholly-owned government corporation within the USDA, may acquire agricultural commodities under various surplus removal and agricultural price support programs and make them available for various domestic and foreign food assistance programs. Under the Food for Progress Act of 1985, CCC may purchase commodities from the market for donation overseas.

Recipients under the Foreign Food Aid Donation programs are known collectively as cooperating sponsors. The CCC makes commodities available to the cooperating sponsors for use in the operation of charitable and economic development activities in eligible foreign countries. Cooperating sponsors may be foreign governments or private entities, including nonprofit organizations located in the United States but operating programs overseas that are registered with the United States Agency for International Development (7 CFR section 1499.3).

The criteria for determining what qualifies as an eligible foreign country is as follows.

Food for Progress Program – Commodities made available under this program, regardless of funding source, must be donated for use in developing countries and emerging democracies that have made commitments to introduce or expand free enterprise elements in their agricultural economies. Within these constraints, USDA gives priority consideration to proposals for countries that:

- a. Have economic and social indicators that demonstrate the need for assistance, including indicators related to income, undernourishment, movement toward freedom, and food imports; or
- b. Are in transition, either politically or economically, including countries that show potential toward strong private sector growth and development or that are recovering from conflict.

Program Operation

General

A cooperating sponsor must file a Plan of Operation with the CCC under the Section 416(b) Program. The CCC is also authorized to require such a plan under the Food for Progress Program (7 CFR section 1499.5). This Plan of Operation becomes part of an agreement between the CCC and the cooperating sponsor. The plan or agreement stipulates, among other things, the nature of the project the sponsor proposes to operate, the country in which such operations will take place, the types and quantities of commodities needed, the purpose for which the commodities will be used, and the use of either direct distribution or monetization of commodities. The cooperating sponsor is responsible for fulfilling the reporting requirements concerning logistics, monetization, and quarterly financial reports.

Direct Distribution

A direct distribution by the cooperating sponsor involves the distribution of donated commodities directly to individuals or charitable institutions in the host country referred to as recipient agencies (e.g., hospitals, schools, kindergartens, orphanages, homes for the elderly). These recipient agencies then use the commodities in serving their clientele.

Recipient Agencies

A cooperating sponsor must enter into an agreement with a recipient agency prior to the transfer of any commodities, sales proceeds, or program income to the recipient agency. The agreement must require the recipient agency to compensate the cooperating sponsor for any agricultural commodities or other assets generated by the program that are not used for purposes expressly provided for in the agreement, or that are lost, damaged, or misused as the result of the recipient agency's failure to exercise reasonable care.

Monetization

A monetization agreement authorizes the cooperating sponsor to sell the commodities in the applicable foreign country and use the sales proceeds to support its programmatic activities in accordance with the signed agreement. To the maximum extent possible, the cooperating sponsor is expected to conduct the sale of commodities through the private sector of the host country's economy. A cooperating sponsor's agreement with the CCC may also provide for bartering commodities in exchange for goods and services to support program operations.

In addition to commodities, the CCC's agreement with the cooperating sponsor may provide the cooperating sponsor cash assistance to fund program administrative and operational expenses.

Program regulations also authorize cash advances for this purpose. Such cash awards may be made only after approval of a program operating budget submitted by the cooperating sponsor.

Source of Governing Requirements

Commodity donations is authorized by the Food for Progress Act of 1985 (7 USC 1736o) (Food for Progress Program). Implementing regulations are found at 7 CFR Part 1499.

Availability of Other Program Information

For more information, contact the Director, Food Assistance Division, FAS, USDA at 1250 Maryland Avenue, S.W., Suite 400, Washington, D.C. 20024. Contacts may also be made through (202) 720-4221 (voice); (202) 690-0251 (fax); or info@fas.usda.gov (E-mail).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	N	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. Use of Funds

The Plan of Operation and agreement set forth the description of the activities for which commodities, monetized proceeds, or program income shall be used. Except as approved in advance by CCC, the cooperating sponsor shall ordinarily bear all costs incurred subsequent to CCC’s delivery of commodities at US ports or intermodal points (7 CFR section 1499.7(d)).

With prior written approval from CCC, the cooperating sponsor may use CCC funds for administrative expenses under the Food for Progress Program. Administrative expenses include expenses incurred for the purchase of goods and services directly related to program administration and monitoring of distribution and monetization operations (7 CFR section 1499.7(b)(3)).

2. *Use of Commodities and Monetization Proceeds*

A cooperating sponsor must use USDA commodities furnished under the Foreign Food Aid Donation programs, and proceeds from the sale of such commodities if applicable, for purposes expressly provided for in its agreement with the CCC (7 CFR sections 1499.10(a) and 1499.12(d)).

C. **Cash Management**

1. *Cash Advances from the CCC*

A cooperating sponsor may request an advance of up to 85 percent of the amount of an approved program operating budget. Cash advances furnished by the CCC must be deposited in interest bearing accounts. Any interest earned on such advances must be used for the same purposes as the cash advances themselves (7 CFR sections 1499.7(f) and (g)).

2. *Commodity Monetization Proceeds*

A cooperating sponsor must deposit all proceeds from the sale of USDA-donated commodities under monetization agreements into interest bearing accounts.

Exceptions are permitted where this practice is prohibited by local law or custom of the importing country, or the CCC determines that enforcing the requirement would impose an undue burden on the sponsor (7 CFR section 1499.12(c)).

F. **Equipment and Real Property Management**

To the extent required by the program agreement, a cooperating sponsor must furnish the CCC and FAS with inventory lists of equipment and real property acquired with proceeds from the sale of donated commodities, interest, and other program income (OMB No. 0551-0035). When such assets are no longer needed for program purposes, the sponsor must dispose of them in accordance with 7 CFR section 1499.12(g).

J. **Program Income**

Program income includes interest on sale proceeds and money received by the cooperating sponsor, other than monetization proceeds, as a result of carrying out approved activities (7 CFR section 1499.1). A cooperating sponsor must use program income for program purposes identified in its agreement with the CCC (7 CFR section 1499.5).

L. **Reporting**

1. **Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271 – Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable

- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *Financial Statement (OMB No. 0551-0035)* – Any cooperating sponsor that receives an advance of CCC funds must file quarterly financial statements with the CCC.

2. Performance Reporting

- a. CCC Form 620, *Logistics Report (OMB No. 0551-0035)* – A cooperating sponsor must submit this report to the FAS semiannually for each agreement. If commodities are distributed directly, the sponsor must continue submitting reports until all commodities made available under the agreement have been distributed. In the following detail, quantities of commodities are reported in terms of net metric tons (NMT) unless otherwise specified (7 CFR section 1499.16(c)(1)). For access to this report, please request a copy from the auditee.

Key Line Items – The following line items contain critical information that are supported by the sponsor accounting records and other source data:

- 1. *Commodity Delivery Table* – The following data relating to shipping of each commodity provided for in the agreement:
 - a. *Amount received at port*
 - b. *Ocean losses/damages*
 - c. *Amount received at warehouse*
 - d. *Inland losses/damages*
- 2. *Freight Charges* – The dollar amount of claims for a reduction or recovery of freight charges in both local currency and US dollar (USD) equivalents. Claims generated by the ocean and inland portions of the shipment should be separately identified.
- 3. *Warehouse Losses* – The following data relating to storage of each commodity provided for in the agreement:
 - a. *Warehouse losses/damages*
 - b. *Balance available for distribution*
- 4. *Direct Distribution* – The following data relating to direct distribution of each commodity provided for in the agreement:
 - a. *Amount distributed*
 - b. *Distribution losses/damages*

- c. *Type of institution reached and number of institutions reached*
 - d. *Number of benefiting individuals*
5. *Warehouse Inventory Status* – The warehouse inventory status of each commodity provided for in the agreement: beginning inventory, total received in warehouse, total dispatched from warehouse, warehouse losses, and ending inventory.
- b. CCC Form 621, *Monetization Report (OMB No. 0551-0035)* – A cooperating sponsor must submit this report to the FAS semiannually for each agreement that provides for monetization of the commodities. Reports are required until all the commodities have been sold and the proceeds disbursed for authorized purposes. If a monetization project involves a revolving loan program, current FAS policy requires the cooperating sponsor to submit reports only through repayment of the first loan cycle. For access to this report, please request a copy from the auditee.

Methods a cooperating sponsor may use to determine prevailing local market prices for monetization purposes include, but are not limited to, soliciting sealed bids, using public auctions, involving commodity exchanges, or obtaining written statements from the agricultural attaché or minister for foreign agricultural affairs in the host country. The FAS home page provides agricultural attaché contact information https://apps.fas.usda.gov/overseas_post_directory/printable_directory.asp.

Key Line Items – The following line items contain critical information that are supported by the sponsor accounting records and other source data:

Part I – *Sales*

For each commodity provided for in the agreement: the amount sold, the price per MT (metric ton), exchange rate, proceeds generated in LC (local currency), and proceeds generated in USD.

Part II – *Barter*

For each commodity used in barter exchanges: the type and amount bartered, the commodity/service received, and the domestic price on transaction date for commodity bartered and commodity/service received.

Part III – *Deposits to Special Funds Account*

The following classes of funds deposited, both in local currency and in the equivalent number of US dollars: sales of commodities, interest, other program income.

Part IV – Disbursements from Special Funds Account

The amount of each disbursement in both local currency and USD, and a brief statement of the use of funds.

Part V – Balance of Special Funds Accounts

Beginning and ending balances of special fund accounts, both in local currency and in USD.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Recipient Agencies

Compliance Requirements The Plan of Operation is required to describe the recipient agencies that will be involved in the program and to provide a description of each recipient agency's capability to perform its responsibilities (7 CFR section 1499.5(a)(3)). A recipient agency is defined as an entity located in the foreign country that receives commodities or commodity sale proceeds from a cooperating sponsor for the purpose of implementing activities (7 CFR section 1499.1).

The cooperating sponsor must enter into a written agreement with a recipient agency before transferring USDA commodities, monetization proceeds, or other program income to that entity. Such an agreement must require the recipient agency to pay to the cooperating sponsor the value of any commodities provided by USDA, sales proceeds, or other program income not used for purposes expressly permitted under the cooperating sponsor's own agreement with the CCC; or that are lost, damaged, or misused as the result of the recipient agency's failure to exercise reasonable care (7 CFR section 1499.11(a)).

The cooperating sponsor must ensure that the activities of any recipient agency that receives \$25,000 or more in commodities or commodity sales proceeds are subjected to on-site inspection. The cooperating sponsor may meet this requirement by relying upon independent audits of the recipient agencies or by conducting its own on-site reviews (7 CFR section 1499.17).

Audit Objectives Determine whether (1) the cooperating sponsor entered into written agreements with the recipient agencies, (2) the use of the recipient agencies was consistent with the Plan of Operation, and (3) the cooperating sponsor monitored the

activities of recipient agencies to ensure proper performance of assigned activities and use of commodities, monetized proceeds, and program income.

Suggested Audit Procedures

Select a sample of recipient agencies and ascertain if:

- a. The cooperating sponsor entered into a written agreement with the recipient agency.
- b. The cooperating sponsor's use of the recipient agency was consistent with the Plan of Operation.
- c. The cooperating sponsor appropriately monitored the activities of the recipient agency to ensure proper performance of assigned activities and use of commodities, monetized proceeds, and program income

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.607 SECTION 416(b) PROGRAM****I. PROGRAM OBJECTIVES**

The US Department of Agriculture (USDA) donates agricultural commodities for use in carrying out assistance programs in developing countries and friendly countries. Such countries are often emerging democracies that have made a commitment to introduce or expand private enterprise elements into the agricultural sectors of their economies.

II. PROGRAM PROCEDURES

The 416(b) Program (Foreign Food Aid Donation programs) is a Commodity Credit Corporation (CCC) program. CCC implements this program through personnel of the Foreign Agricultural Service (FAS) and Farm Service Agency (FSA). The CCC, a wholly owned government corporation within the USDA, may acquire agricultural commodities under various surplus removal and agricultural price support programs and make them available for various domestic and foreign food assistance programs. Under the Food for Progress Act of 1985, CCC may purchase commodities from the market for donation overseas.

Recipients under the Foreign Food Aid Donation programs are known collectively as cooperating sponsors. The CCC makes commodities available to the cooperating sponsors for use in the operation of charitable and economic development activities in eligible foreign countries. Cooperating sponsors may be foreign governments or private entities, including nonprofit organizations located in the United States but operating programs overseas that are registered with the United States Agency for International Development (7 CFR section 1499.3).

The criteria for determining what qualifies as an eligible foreign country is as follows.

Section 416(b) Program – Section 416(b) of the Agricultural Act of 1949 authorizes the donation of CCC-owned commodities in excess of domestic program requirements to carry out food assistance programs in developing and friendly countries.

Program Operation*General*

A cooperating sponsor must file a Plan of Operation with the CCC under the Section 416(b) Program. The CCC is also authorized to require such a plan under the Food for Progress Program (7 CFR section 1499.5). This Plan of Operation becomes part of an agreement between the CCC and the cooperating sponsor. The plan or agreement stipulates, among other things, the nature of the project the sponsor proposes to operate, the country in which such operations will take place, the types and quantities of commodities needed, the purpose for which the commodities will be used, and the use of either direct distribution or monetization of commodities. The cooperating sponsor is responsible for fulfilling the reporting requirements concerning logistics, monetization, and quarterly financial reports.

Direct Distribution

A direct distribution by the cooperating sponsor involves the distribution of donated commodities directly to individuals or charitable institutions in the host country referred to as recipient agencies (e.g., hospitals, schools, kindergartens, orphanages, homes for the elderly). These recipient agencies then use the commodities in serving their clientele.

Recipient Agencies

A cooperating sponsor must enter into an agreement with a recipient agency prior to the transfer of any commodities, sales proceeds, or program income to the recipient agency. The agreement must require the recipient agency to compensate the cooperating sponsor for any agricultural commodities or other assets generated by the program that are not used for purposes expressly provided for in the agreement, or that are lost, damaged, or misused as the result of the recipient agency's failure to exercise reasonable care.

Monetization

A monetization agreement authorizes the cooperating sponsor to sell the commodities in the applicable foreign country and use the sales proceeds to support its programmatic activities in accordance with the signed agreement. To the maximum extent possible, the cooperating sponsor is expected to conduct the sale of commodities through the private sector of the host country's economy. A cooperating sponsor's agreement with the CCC may also provide for bartering commodities in exchange for goods and services to support program operations.

In addition to commodities, the CCC's agreement with the cooperating sponsor may provide the cooperating sponsor cash assistance to fund program administrative and operational expenses.

Program regulations also authorize cash advances for this purpose. Such cash awards may be made only after approval of a program operating budget submitted by the cooperating sponsor.

Source of Governing Requirements

Commodity donations is authorized by the Section 416(b) of the Agricultural Act of 1949 (7 USC 1431(b)) (Section 416(b) Program). Implementing regulations are found at 7 CFR Part 1499.

Availability of Other Program Information

For more information, contact the Director, Food Assistance Division, FAS, USDA at 1250 Maryland Avenue, S.W., Suite 400, Washington, D.C. 20024. Contacts may also be made through (202) 720-4221 (voice); (202) 690-0251 (fax); or info@fas.usda.gov (E-mail).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about

each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	N	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. *Use of Funds*

The Plan of Operation and agreement set forth the description of the activities for which commodities, monetized proceeds, or program income shall be used. Except as approved in advance by CCC, the cooperating sponsor shall ordinarily bear all costs incurred subsequent to CCC’s delivery of commodities at US ports or intermodal points (7 CFR section 1499.7(d)).

With prior written approval from CCC, the cooperating sponsor may use CCC funds for administrative expenses under the Food for Progress Program. Administrative expenses include expenses incurred for the purchase of goods and services directly related to program administration and monitoring of distribution and monetization operations (7 CFR section 1499.7(b)(3)).

2. *Use of Commodities and Monetization Proceeds*

A cooperating sponsor must use USDA commodities furnished under the Foreign Food Aid Donation programs, and proceeds from the sale of such commodities if applicable, for purposes expressly provided for in its agreement with the CCC (7 CFR sections 1499.10(a) and 1499.12(d)).

Agreements with cooperating sponsors implementing Section 416(b) projects may provide for the use of proceeds from monetization operations to fund administrative expenses (7 USC 1431(b)(7)(F)).

C. Cash Management**1. Cash Advances from the CCC**

A cooperating sponsor may request an advance of up to 85 percent of the amount of an approved program operating budget. Cash advances furnished by the CCC must be deposited in interest bearing accounts. Any interest earned on such advances must be used for the same purposes as the cash advances themselves (7 CFR sections 1499.7(f) and (g)).

2. Commodity Monetization Proceeds

A cooperating sponsor must deposit all proceeds from the sale of USDA-donated commodities under monetization agreements into interest bearing accounts.

Exceptions are permitted where this practice is prohibited by local law or custom of the importing country, or the CCC determines that enforcing the requirement would impose an undue burden on the sponsor (7 CFR section 1499.12(c)).

F. Equipment and Real Property Management

To the extent required by the program agreement, a cooperating sponsor must furnish the CCC and FAS with inventory lists of equipment and real property acquired with proceeds from the sale of donated commodities, interest, and other program income (OMB No. 0551-0035). When such assets are no longer needed for program purposes, the sponsor must dispose of them in accordance with 7 CFR section 1499.12(g).

J. Program Income

Program income includes interest on sale proceeds and money received by the cooperating sponsor, other than monetization proceeds, as a result of carrying out approved activities (7 CFR section 1499.1). A cooperating sponsor must use program income for program purposes identified in its agreement with the CCC (7 CFR section 1499.5).

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271 – Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *Financial Statement (OMB No. 0551-0035)* – Any cooperating sponsor that receives an advance of CCC funds must file quarterly financial statements with the CCC.

2. Performance Reporting

- a. CCC Form 620, *Logistics Report (OMB No. 0551-0035)* – A cooperating sponsor must submit this report to the FAS semiannually for each agreement. If commodities are distributed directly, the sponsor must continue submitting reports until all commodities made available under the agreement have been distributed. In the following detail, quantities of commodities are reported in terms of net metric tons (NMT) unless otherwise specified (7 CFR section 1499.16(c)(1)). For access to this report, please request a copy from the auditee.

Key Line Items – The following line items contain critical information that are supported by the sponsor accounting records and other source data:

1. *Commodity Delivery Table* – The following data relating to shipping of each commodity provided for in the agreement:
 - a. *Amount received at port*
 - b. *Ocean losses/damages*
 - c. *Amount received at warehouse*
 - d. *Inland losses/damages*
2. *Freight Charges* – The dollar amount of claims for a reduction or recovery of freight charges in both local currency and US dollar (USD) equivalents. Claims generated by the ocean and inland portions of the shipment should be separately identified.
3. *Warehouse Losses* – The following data relating to storage of each commodity provided for in the agreement:
 - a. *Warehouse losses/damages*
 - b. *Balance available for distribution*
4. *Direct Distribution* – The following data relating to direct distribution of each commodity provided for in the agreement:
 - a. *Amount distributed*
 - b. *Distribution losses/damages*
 - c. *Type of institution reached and number of institutions reached*
 - d. *Number of benefiting individuals*

5. *Warehouse Inventory Status* – The warehouse inventory status of each commodity provided for in the agreement: beginning inventory, total received in warehouse, total dispatched from warehouse, warehouse losses, and ending inventory.
- b. CCC Form 621, *Monetization Report (OMB No. 0551-0035)* – A cooperating sponsor must submit this report to the FAS semiannually for each agreement that provides for monetization of the commodities. Reports are required until all the commodities have been sold and the proceeds disbursed for authorized purposes. If a monetization project involves a revolving loan program, current FAS policy requires the cooperating sponsor to submit reports only through repayment of the first loan cycle. For access to this report, please request a copy from the auditee.

Methods a cooperating sponsor may use to determine prevailing local market prices for monetization purposes include, but are not limited to, soliciting sealed bids, using public auctions, involving commodity exchanges, or obtaining written statements from the agricultural attaché or minister for foreign agricultural affairs in the host country. The FAS home page provides agricultural attaché contact information https://apps.fas.usda.gov/overseas_post_directory/printable_directory.asp.

Key Line Items – The following line items contain critical information that are supported by the sponsor accounting records and other source data:

Part I – *Sales*

For each commodity provided for in the agreement: the amount sold, the price per MT (metric ton), exchange rate, proceeds generated in LC (local currency), and proceeds generated in USD.

Part II – *Barter*

For each commodity used in barter exchanges: the type and amount bartered, the commodity/service received, and the domestic price on transaction date for commodity bartered and commodity/service received.

Part III – *Deposits to Special Funds Account*

The following classes of funds deposited, both in local currency and in the equivalent number of USD: sales of commodities, interest, other program income.

Part IV – *Disbursements from Special Funds Account*

The amount of each disbursement in both local currency and USD, and a brief statement of the use of funds.

Part V – *Balance of Special Funds Accounts*

Beginning and ending balances of special fund accounts, both in local currency and in USD.

3. **Special Reporting**

Not Applicable

4. **Special Reporting for Federal Funding Accountability and Transparency Act**

See Part 3.L for audit guidance.

N. **Special Tests and Provisions**

1. **Recipient Agencies**

Compliance Requirements The Plan of Operation is required to describe the recipient agencies that will be involved in the program and to provide a description of each recipient agency's capability to perform its responsibilities (7 CFR section 1499.5(a)(3)). A recipient agency is defined as an entity located in the foreign country that receives commodities or commodity sale proceeds from a cooperating sponsor for the purpose of implementing activities (7 CFR section 1499.1).

The cooperating sponsor must enter into a written agreement with a recipient agency before transferring USDA commodities, monetization proceeds, or other program income to that entity. Such an agreement must require the recipient agency to pay to the cooperating sponsor the value of any commodities provided by USDA, sales proceeds, or other program income not used for purposes expressly permitted under the cooperating sponsor's own agreement with the CCC; or that are lost, damaged, or misused as the result of the recipient agency's failure to exercise reasonable care (7 CFR section 1499.11(a)).

The cooperating sponsor must ensure that the activities of any recipient agency that receives \$25,000 or more in commodities or commodity sales proceeds are subjected to on-site inspection. The cooperating sponsor may meet this requirement by relying upon independent audits of the recipient agencies or by conducting its own on-site reviews (7 CFR section 1499.17).

Audit Objectives Determine whether (1) the cooperating sponsor entered into written agreements with the recipient agencies, (2) the use of the recipient agencies was consistent with the Plan of Operation, and (3) the cooperating sponsor monitored the activities of recipient agencies to ensure proper performance of assigned activities and use of commodities, monetized proceeds, and program income.

Suggested Audit Procedures

Select a sample of recipient agencies and ascertain if:

- a. The cooperating sponsor entered into a written agreement with the recipient agency.
- b. The cooperating sponsor's use of the recipient agency was consistent with the Plan of Operation.
- c. The cooperating sponsor appropriately monitored the activities of the recipient agency to ensure proper performance of assigned activities and use of commodities, monetized proceeds, and program income.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.649 STATE PANDEMIC ELECTRONIC BENEFIT TRANSFER (P-EBT) ADMINISTRATIVE COSTS GRANTS****I. PROGRAM OBJECTIVES**

The objective of the state Pandemic Electronic Benefit Transfer (P-EBT) Administrative Costs Grants is to help defray state costs associated with administering the P-EBT Initiative.

II. PROGRAM PROCEDURES**A. Administration**

P-EBT is part of the US government response to the COVID-19 pandemic. The Families First Coronavirus Response Act of 2020 (Pub. L. No. 116–127), as amended by the Continuing Appropriations Act, 2021, and Other Extensions Act (Pub. L. No. 116-159), provides the secretary of agriculture authority to approve state agency plans to administer P-EBT. Through P-EBT, eligible school children receive temporary emergency nutrition benefits loaded on EBT cards that are used to purchase food. Children are eligible to receive P-EBT benefits if they were enrolled at a school that participated in the federal School Breakfast Program or National School Lunch Program; were eligible to get free or reduced-price meals for school year 2021–22; and the school was closed or operating with reduced hours or attendance for at least five consecutive days. Recent changes in legislation extended the initiative to cover children in child care as well.

B. Federal Grants to SNAP State Agencies for State P-EBT Administrative Costs

Authorization and funding for P-EBT was extended into fiscal year (FY) 2022 by Section 4601 of the Continuing Appropriations Act, 2021 and Other Extensions Act (Pub. L. No. 116-159). In addition to other changes to P-EBT, this legislation provides 100 percent reimbursement for costs incurred by state Supplemental Nutrition Assistance Program (SNAP) and Child Nutrition (CN) agencies for the implementation and administration of P-EBT in FY 2022.

Under this authority, the Food and Nutrition Service (FNS) Agency directed regional offices to extend new FY 2022 P-EBT Administrative Cost Grant Awards to their respective SNAP state agencies as quickly as possible once a state's PEBT operational plan and the required FNS-366(a) - Administrative Cost Spending Plan Template, as modified, is approved. The period of performance for the FY 2022 P-EBT State Administrative Cost Grants is October 1, 2021, through September 30, 2022.

In contrast to FY 2021 where P-EBT Administrative Cost Grant Awards were provided to the SNAP state agency, who in turn entered into an agreement with the Child Nutrition state agency to ensure their administrative costs were reimbursed, in FY 2022 FNS provided two options.

Option 1: Option 1 replicates the grant award approach used in FY 2021 and permits that

a total grant award amount be provided to each state SNAP Agency, which will, in turn, work with the CN state agency to capture their costs as well. As a condition of the grant award, each SNAP state agency will be required to enter into the applicable funding arrangement, (e.g., a subgrant or MOU, with the CN state agency(ies) within their state that operates P-EBT). These agreements will ensure that the SNAP and CN state agencies receive funding for all allowable administrative costs associated with the FY 2022 P-EBT Initiative. Under Option 1, the SNAP state agency is required to enter into the FNS-529, Grant Award document, but submit the financial reports and one FNS-366(a) that reflects FY 2022 administrative costs from both the SNAP and CN state agency.

Option 2: Option 2 provides a new award approach for FY 2022 and permits the awarding of separate grants to the SNAP and CN State agencies. If this option is chosen, the SNAP and CN State agencies will be required to submit individual FNS-366(a) – Administrative Spending Plans, reflecting the administrative costs each agency anticipates incurring in FY 2022. Each Agency will also be required to enter into a separate FNS-529, Grant Award Document and financial reports. Financial reports are addressed below.

Regardless of which award option is chosen, the total grant award amounts to be provided to each state CN and/or SNAP Agency will be reflected on a fully executed FNS-529, Grant Award Document, respectively.

The total grant award amounts provided to each state SNAP or CN agency are based on the approved state P-EBT plan, reflecting input from both SNAP and CN state agencies and a more detailed FNS-366(a), Program and Budget Summary, conveying the state agencies' administrative cost plan. These grant awards were provided to cover P-EBT administrative costs with a performance period from **October 1, 2021 to September 30, 2022**.

Also, of note is that the 2022 State P-EBT State Administrative Grant funding has two stages of release:

First stage: Initial allocations were released to regional offices for the SNAP state agencies in anticipation of Option 1. These funds were allowed to the regional offices for state and territories on October 7, 2021 prior to the two options being made available. In FY 2022, we advised that initial allocation **grant awards could be** released to a state or territory prior to the receipt of an approved P-EBT Implementation/Operational Plan and FNS-366(a) – Administrative Spending Plan, as long as they operated a P-EBT initiative in FY 2021. Additional funds will require approval of both the plan and FNS 366(a) -Administrative Spending Plan.

If SNAP and CN state agencies opt to move forward with Option 2 and believe that initial funds are also needed for the CN state agency the regional office is to reach out to the national office.

Second stage: Funds needed beyond the initial allocation, as requested by states and territories, will be considered and approved based on the option selected and will require that the state's P-EBT Implementation Plan is approved, along with a FNS-366(a)-

Administrative Cost Spending Plan.

Further, the enacted FY 2021 Omnibus and COVID Relief and Response Act clarified that these funds may have been sub-awarded to local agencies and cooperators such as local educational agencies and school food authorities. Separate FY 2022 P-EBT Local Administrative Cost Grants were awarded to Child Nutrition State agencies to address local level costs.

The FY 2022 P-EBT Local Level Grants allow for optional strategies with the intent of simplifying the administration of this grant. The flexibilities outlined below were made available upon State request and could be adopted individually or in whole.

Simplification to Provide Funding for Local Costs

Flexibility 1 provides an alternative to collecting local cost information and submitting the costs on the Excel Template provided by FNS, by proposing a simplified methodology to determine the amount of administrative funding to support local level activities associated with P-EBT. These activities include but are not limited to reporting student-level or school level learning models to their States, fielding questions from the community, and collecting and processing applications solely for P-EBT.

The simplified method utilizes FNS's research into the cost structure of school meal programs in order to provide an estimate of the costs of these local activities to determine the amount of administrative funds to request in lieu of collecting itemized cost information

Due to the wide variation in the number of P-EBT eligible children across local entities, FNS has developed the three simplified payment amounts, provided below, which are scaled utilizing the distribution of P-EBT eligible children in School Food Authorities (SFA).

Number of P-EBT Eligible Children in Local Entity	Streamlined Funding Amount per Local Entity
Less than 1,000	\$628
1,001–5,000	\$3,135
5,001–1,000,000+	\$5,950

Note. The table reflects 2020 levels inflated by the BLS State and local government total compensation series 2020 to 2021 annual change for the first two quarters (2.4 percent).

While we anticipate that the majority of the local entities served by this grant will be school food authorities (SFAs), for any eligible local entity seeking reimbursement, the State agency will need to determine which streamlined funding tier the local entity falls within. To make this determination, the state agency must know the number of National School Lunch and Breakfast Program free and reduced price eligible children served by the local entity. State agencies may allow local entities to use any reference month within FY 2021 that reflects the highest count of free and reduced price eligible students. State agencies should ensure that documentation remains on file to support the highest count level.

Under Flexibility 2, grant awards will be provided by FNS regional offices to their respective CN State agencies based on identified reimbursable costs. State agencies will in turn reimburse schools, local agencies of the state, and other local units, for allowable P-EBT expenses. This flexibility permits state agencies the option of awarding eligible local entities the specified dollar amount by cost category outlined on the template spreadsheet.

Whether CN State agencies opt for Flexibility 1 or 2 they may use the attached Excel template to collect and submit local expenses to their respective regional offices by August 1, 2022. Templates submitted in August should include estimated total reimbursement needs for costs incurred by September 30, 2022. States must obligate all reimbursable funds by no later than September 30, 2022, with the subsequent close-out period allowing for any expenditures or adjustments.

As a condition of the grant award, each CN state agency will be required to enter into an applicable reimbursable funding arrangement with the appropriate entities within their state that have incurred local P-EBT administrative costs during FY 2022. Such entities may include, schools, local agencies of state, and other local units (i.e., subdivision of local government below the state level that have assisted with local P-EBT program delivery). Funds cannot be reimbursed directly to nonprofit or for-profit organizations, however, should one of these organizations enter a contract, grant, or other legal funding arrangement with a school, local agency of the state, or other local unit, funding may be provided.

To receive funding under either Flexibility outlined above, a state must have an approved FY 2022 P-EBT Plan on file. Local level administrative grant funds will be extended to CN state agencies using a FNS-529, Grant/Cooperative Award. Signature on this form indicates agreement to comply with the terms and conditions that will accompany the FNS-529, Grant Award.

State agencies must complete the following steps to receive a *Local Level P-EBT Administrative Cost grant award*:

- Have an approved P-EBT Plan on file with FNS.
- Agree to return the suggested template, or something tantamount, which will capture local level costs to be reimbursed to the CN State agency. State agencies may collect these costs in the manner that works for the State agency, however, these costs must be reported in the categories outlined in the Excel template.
- Sign a FNS-529, Grant and Cooperative Agreement Award Document, with accompanying terms and conditions.

Funding will be provided via a FNS-529 award issued. It is important to note that should a local entity choose Flexibility 1 they will only have one submission **as Flexibility 1 provides a proxy for annualized costs.**

Additionally, CN State agencies are expected to report quarterly on a separate CN Financial Report Form, FNS-425, via the Food Programs Reporting System (FPRS). As the first interval for reimbursement occurs in March, grantees will only report for quarters 3 and 4 of federal fiscal year 2022. Grantees should report under the name “PAN-CN-CRRSAA.” These reports must be submitted within 30 days after the close of each quarter for FY 2021, Q3 and Q4. Quarters 1 and 2 will be posted as blank. The Final Financial Report must be submitted within 120 days of the termination date of the grant agreement.

C. Background

On August 26, 2021, FNS’ SNAP and CN programs released a joint memo providing guidance to SNAP and CN state agencies to facilitate the development of state Implementation plans for school year (SY) 2020–2021. The jointly signed memo, along with the Q&As, advised SNAP and CN state agencies that “prior to USDA releasing the grant for administrative funding, each SNAP state agency will be required to submit a P-EBT Spending Plan using the FNS-366(a) Program and Budget Summary statement. The release of funds cannot be released to the SNAP state agency’s letter-of-credit until this plan is submitted and approved.”

On October 25, 2021, FNS regional offices were directed to make the FY 2021 P-EBT Administrative Cost Grant Awards directly to their respective SNAP state agencies. This guidance was superseded on January 11, 2022 advising of the new award options (i.e., SNAP and CN agencies can submit a combined grant request or they can submit separately). The 100 percent administrative grant funds were available for all allowable P-EBT administrative costs incurred by the agencies within each state agency that operated the SNAP and the CN NSLP. Under Option 1, as a condition of the grant award, each SNAP state agency was required to enter into the applicable funding arrangement (e.g., a subgrant or MOU) with the state agency(ies) within their state that operated the CN NSLP. Under Option 2, the awards may be separated.

The total grant award amounts provided to each state SNAP agency or, if Option 2 chosen, each SNAP and CN agency, were based on the approved state P-EBT plan, reflecting input from both SNAP and CN state agencies and a more detailed FNS-366(a), Program and Budget Summary, Excel template conveying the state agencies administrative cost plan. These agreements ensured that the CN state agencies also received funding for all allowable administrative costs associated with the FY 2021 P-EBT Initiative. The instructions for the state P-EBT plan outlined the need for a FNS-366(a), Administrative Costs Spending Plan, Budget and Program Summary, submission, and provided additional guidance on the FNS-366(a), Excel template, used in connection with the FY 2022 P-EBT Administrative Cost Grant Awards.

D. State Responsibilities

FY 2022 Administrative Cost Grant Award funding was provided to SNAP and CN state agencies using the FNS-529, Grant/Cooperative Agreement Award Document, with an accompanying terms and conditions document. In FY 2022, initial allocations were provided to SNAP state agencies prior to moving to the new flexibilities (i.e., options 1

and 2). In contrast to FY 2021, in FY 2022 SNAP state agencies did not need to have:

1. An approved state P-EBT implementation plan on file with FNS. FNS recognizes that the administrative cost portion of the P-EBT implementation plan will be an iterative process and that states might need initial funding to continue the operations of P-EBT in FY 2022. Thus, initial funds were released in October 2021 prior to approved P-EBT Implementation Plans, but any remaining funds will not be released until an approved state P-EBT approved plan, with remaining total funds not being released until a more detailed FNS-366(a), Excel template spending plan submission was approved under the Administrative Grant.
2. A signed a FNS-529, Grant and Cooperative Agreement Award document, with accompanying terms and conditions.

Upon return of the FNS-529, the document was fully executed by obtaining the signature of the regional administrator, or as delegated to the GMASDs. Once executed, funds were provided to the SNAP state agency, at FNS discretion, through the SNAP state agency's letter-of-credit.

E. Federal Oversight and Compliance Mechanisms

FNS oversees state operations through an organization consisting of headquarters and seven (7) regional offices. FNS program oversight of these grants included a review of the state agencies detailed FNS-366a, Program and Budget Summary template. Review of the FNS-366(a) was conducted at both the regional and national office level. This review included a general reasonableness check of the state submission and identified any questions to be asked or revisions to be requested.

The period of performance period associated with these grant awards was October 1, 2021 through September 30, 2022. Funds provided under this award were available for all necessary, allowable, and reasonable costs of implementing and administering P-EBT **incurred** during FY 2022. This includes both costs associated with the issuance of FY 2022 benefits and costs associated with the issuance of retroactive FY 2021 benefits in FY 2021. Costs for work performed during FY 2021 could not be charged to this grant and must have been charged to the 50 percent administrative funding made available in FY 2021. Grant funds are only available for allowable costs incurred during the performance period of the award. The performance period of an award cannot begin before its authorization and supporting appropriation are enacted. Consistent with these principles the 100 percent P-EBT administrative grant were limited to costs incurred during FY 2022.

Unallowable costs were those expenses that were (1) not necessary or reasonable for the administration of the FY 2022 P-EBT program; and (2) expenses already covered under another federal award.

Regular SNAP and CN State Administrative Expense (SAE) funds may not have been used to cover the costs of administering the FY 2022 P-EBT program.

Source of Governing Requirements

These grants were authorized under The Families First Coronavirus Response Act of 2020 (Pub. L. No. 116-127), as amended by the Continuing Appropriations Act, 2021 and Other Extensions Act (Pub. L. No. 116-159). This legislation provided the secretary of agriculture authority to approve state agency plans to administer P-EBT.

Availability of Other Program Information

Other program information is available from FNS’s site at <https://www.fns.usda.gov/snap/state-guidance-coronavirus-pandemic-ebt-pebt>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	N	Y	Y	N	Y	N	N

A. Activities Allowed or Unallowed

Funds provided under this award were available for all necessary, allowable and reasonable costs of implementing and administering P-EBT **incurred** during FY 2022. This included both costs associated with the issuance of FY 2022 benefits as well as costs associated with the issuance of retroactive FY 2021 benefits incurred in FY 2022.

Examples of allowable costs under this grant include, salaries of personnel, outreach, equipment, supplies, support services (to include contracts for staffing or system related

work that show clear allocation to the FY 2022 P-EBT program), or other expenses associated with the administration of the FY 2022 P-EBT program. These examples are not meant to be exhaustive, and other items may be approved, provided they are designed to administer the FY 2022 SNAP P-EBT program.

Unallowable costs are those expenses that are: (1) are not necessary or reasonable for the administration of the FY 2022 P-EBT program; and (2) expenses already covered under another federal award.

H. Period of Performance

1. Funds provided under the P-EBT State Administrative Cost Grants and the P-EBT Local Level Administrative Costs grants were available for all necessary, allowable and reasonable costs of implementing and administering P-EBT incurred during FY 2022. This included both costs associated with the issuance of FY 2022 benefits as well as costs associated with the issuance of retroactive FY 2020 benefits incurred in FY 2022.

I. Procurement and Suspension and Debarment

1. *Systems Development* – States could incur costs related to competitive acquisitions of system changes and/or equipment and services to implement P-EBT. Costs must have been allocable to the administration of P-EBT.

L. Reporting

1. Financial Reporting

For the FY 2022 state P-EBT Administrative Cost Grants, if **Option 1** is chosen, SNAP state agencies will be responsible for including all administrative costs incurred by the SNAP and CN state agencies for reporting purposes. During the period of performance of the grant, the SNAP state agency will be expected to aggregate obligation and outlay data from all state agencies utilizing the award and report quarterly to USDA using the P-EBT specific instance of the FNS-778. Further guidance on the use of the FNS-778, including specific reporting timeframes, are also included in the terms and conditions to accompany the award. SNAP state agencies will be expected to report quarterly on a separate SNAP Financial Report Form, FNS-778, via the Food Programs Reporting System (FPRS). Grantees should report under the name “*PAN- SNAP P-EBT Admin-SNAP PEBT Administration Grant.*” These reports must be submitted within 30 days after the close of each quarter. The Final Financial Report must be submitted within 90 days of the expiration of the grant agreement.

If **Option 2** is chosen, each state agency will need to submit a financial report form as follows:

CN state agencies will be expected to report quarterly on the SF-425, Financial Status Report. These reports will be submitted within FPRS under the report

name “*PAN-CN-PEBT-Admin-CN PEBT Administration Grant.*” These reports must be submitted within 30 days after the close of each quarter. The Final Financial Report must be submitted within 90 days of the expiration of the grant agreement.

For the FY 2022 P-EBT Local Level Administrative Cost Grants, CN state agencies are expected to report quarterly on a separate CN Financial Report Form, FNS-425, via the Food Programs Reporting System (FPRS). As the first interval for reimbursement occurs in March, grantees will only report for quarters 3 and 4 of federal fiscal year 2022. Grantees should report under the name “PAN-CN-CRRSAA.” These reports must be submitted within 30 days after the close of each quarter for FY2021, Q3, and Q4. Quarters 1 and 2 will be posted as blank. The Final Financial Report must be submitted within 120 days of the termination date of the grant agreement.

During the period of performance of the grant, the CN state agency will aggregate obligation and outlay data from all state agencies utilizing the award and report quarterly to USDA.

See Part 3.L for audit guidance.

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.665 SCHOOLS AND ROADS – GRANTS TO STATES****ASSISTANCE LISTING 10.666 SCHOOLS AND ROADS – GRANTS TO COUNTIES****I. PROGRAM OBJECTIVES**

The objectives of these programs are to (1) share federal receipts from the national forests with the states in which the national forests are situated (Assistance Listing 10.665), and (2) share federal receipts from the national grassland with the counties in which the national grasslands are situated (Assistance Listing 10.666). Generally, these funds are to be used for the benefit of public schools and public roads of the county or counties in which the national forest is situated.

II. PROGRAM PROCEDURES**A. General**

Since the early 1900s, the Congress has enacted laws directing that a state or county be compensated for the presence of federal lands in the state. The compensation may be based on federal acreage or a county's population, but in most instances, the payments relate to a percentage of the receipts generated on federal land. Federal laws requiring payments to states, based on national forest receipts, provide the basis and methodology of the compensation payments to the states but allow states to prescribe how the funds are spent for schools and roads in the county or counties in which the national forest is situated. All disbursement transactions are processed through the US Treasury.

B. Program Operation**1. *Assistance Listing 10.665 – Schools and Roads – Grants to States***

25-Percent Payment – An amount equal to the annual average of 25 percent of all amounts received for the applicable federal fiscal year (FY) and each of the preceding six FYs from each national forest is paid to the states. Payments are to be used to benefit public schools and public roads of the county or counties in which the national forest is situated. The Forest Service calculates the payments and sends letters to the states advising them of the amount and of each county's historic percentage of the payment based on the county's acreage in the national forest. The Forest Service notifies the US Treasury of the amounts to be paid, and the funds are electronically transmitted to the states. Payments are made around January following the close of the FY for which receipts were received. Payments are always made the year after the receipt year, which is used to calculate those payments made in the following payment year. The states verify the amount of each deposit with information received from the Forest Service, and then distribute the funds to the counties in which the national forests are situated.

State Payment (Secure Rural Schools and Community Self-Determination Act Payment) – Each eligible county elects to receive either its share of the 25-Percent Payment, as described above, or its share of the state payment. State payments are authorized through FY 2015 receipt year (FY 2016 payment year).

Quinault Special Payment – Forty-five percent of the gross receipts generated by the Quinault Special Management Area is distributed to the state of Washington for the benefit of public roads and public schools. This amount is combined with the 25-Percent Payment to Washington State to make one payment. Washington State distributes Quinault payments to the counties as part of its 25-Percent Payment. These funds are separate from the 45 percent of gross receipts generated by the Quinault Special Management Area transferred to the secretary of the interior for use by the Quinault Indian Nation.

Arkansas Quartz Payment – Fifty percent of the receipts from the sale of quartz mined on the Ouachita National Forest in Arkansas is distributed to Arkansas for the benefit of public roads and public schools of the counties in which the national forest is situated. The Forest Service calculates these payments by subtracting the quartz receipts from the forest receipts and applying the 50 percent rate to these quartz receipts. The quartz payment is added to the state's 25-Percent Payment and distributed in one payment.

Payments to Minnesota – Three-quarters of 1 percent of the fair appraised value of specified national forest lands in Cook, Lake, and St. Louis counties is paid to the state. The Forest Service adds this amount to the 25-Percent Payment for the remainder of Minnesota and makes one payment to the state. The state distributes funds to Cook, Lake, and St. Louis counties according to the fair appraised value of the specified national forest lands in each county.

2. *Assistance Listing 10.666 – Schools and Roads – Grants to Counties*

National Grasslands Payment – Twenty-five percent of net revenues from national grasslands and land utilization projects (LUPs) administered under Title III of the Bankhead-Jones Farm Tenant Act (grazing receipts collected by the Forest Service and mineral receipts collected by the Department of the Interior, Office of Natural Resource Revenue, and transmitted to the Forest Service for distribution) is distributed to the 80 counties containing Forest Service national grasslands. Payments are made directly to the counties where the national grasslands and LUPs are located.

Source of Governing Requirements

25-Percent Payment – 16 USC 500

State Payment (Secure Rural Schools and Community Self-Determination Act Payment) – 16 USC 7101 to 7153, as amended and reauthorized in Section 524 of Pub. L. No. 114-10, 129 Stat. 178, April 16, 2015.

Quinault Special Payment – Pub. L. No. 100-638, Section 4(b)(2)

Arkansas Quartz Payment – Pub. L. No. 100-446, Section 323

Payments to Minnesota – 16 USC 577g and 577g-1

National Grasslands Payment – 7 USC 1012

Availability of Other Program Information

Program information for the Secure Rural Schools and Community Self-Determination Act may be found at [Secure Rural Schools Program | US Forest Service \(usda.gov\)](https://www.usda.gov/secure-rural-schools-program).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	Y	Y	N	N	Y	N	Y

A. Activities Allowed or Unallowed

1. The *25-Percent Payment* funds must be used for public roads and public schools of the county or counties in which the national forest is situated (16 USC 500).
2. *State Payment* funds must be used for:
 - a. Title I – Public roads and public schools of the county or counties in which the national forest is situated (16 USC 500);
 - b. Title II – Special projects on federal land as defined in 16 USC 7102(7) and on nonfederal land where projects would benefit the resources on federal land. This portion of the state payment allocated to Title II is not paid to states or counties. It is reserved for special projects recommended by a Secure Rural Schools Act resource advisory committee and approved

by the secretary of agriculture or authorized designee (16 USC 7101, 7112, and 7121-7128); or

- c. Title III – This portion is paid to the state and then distributed by the state to the participating county. These are referred to in the authorizing legislation as “county funds” (16 USC 7141). A participating county shall use Title III county funds only to:
 - (1) Carry out activities under the Firewise Communities program to provide to homeowners in fire-sensitive ecosystems education on, and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires;
 - (2) Reimburse the participating county for search and rescue and other emergency services, including firefighting, that are
 - (a) performed on federal land, as defined in 16 USC 7102(7), after the 45-day public comment period (see III.N, “Special Tests and Provisions – Public Comment,” below); and
 - (b) paid for by the participating county; and
 - (3) Develop community wildfire protection plans in coordination with the appropriate secretary concerned (16 USC 7142).
3. *Quinault Special Payment* funds must be used for public schools and roads of the county or counties in which the national forest is situated (Pub. L. No. 100-638, Section 4(b)(2)).
4. *Arkansas Quartz Payment* funds must be used for public roads and public schools in the counties in Arkansas in which the Ouachita National Forest is located (Pub. L. No. 100-446, Section 323).
5. *Payments to Minnesota* funds have no restrictions on use (16 USC 577g and g-1).
6. *National Grasslands Payment* funds must be used for roads or schools in the county in which the land is located (7 USC 1012).

G. Matching, Level of Effort, Earmarking

1. Matching

Not Applicable

2. Level of Effort

Not Applicable

3. Earmarking

- a. Section 524 of Pub. L. No. 114-10 locked-in the Title II and Title III elections by counties for FY 2014 and FY 2015 to the payment made for FY 2013. For the payments for FY 2014 and for FY 2015:
- (1) a county election to receive a formula payment;
 - (2) the county election to receive a share of the state's 25-Percent Payment or a share of the state (formula) payment; and
 - (3) the county election to allocate the share of the formula payment for titles II and III, will be the same elections made by the county for FY 2013 (16 USC 7112(b)(1)).

A county may opt to return its allocation, in whole or part, to the US Treasury. Similar information is posted on the Forest Service website ([Secure Rural Schools Program | US Forest Service \(usda.gov\)](https://www.usda.gov/secure-rural-schools-program)).

- b. County Allocations of State Payments (16 USC 7112)
- (1) For \$100,000 or less. For payments for FY 2013 and prior years, an eligible county that receives \$100,000 or less, could allocate 100 percent of its share to benefit public schools and roads under Title I. The total percentage allocated for the benefit of public schools and roads must be no less than 80 percent and no more than 85 percent. For the payments for FY 2014 and FY 2015, the county election will be the same as the elections made by the county in payment for FY 2013.
 - (2) For \$100,001 but less than \$350,000. For payments for FY 2013 and prior years, if the county share of the state payment was more than \$100,000 but less than \$350,000, the county was required to allocate 15 percent to 20 percent of its share to Title II, Title III, or a combination of the two titles, or return this portion of the state payment to the US Treasury. For the payments for FY 2014 and FY 2015, the county election will be the same as the election made by the county in payment for FY 2013.
 - (3) For \$350,000 or greater. For payments for FY 2013 and prior years, if the county share of the state payment was \$350,000 or greater, the county was required to allocate 15 percent to 20 percent of its share to Title II, Title III, or a combination of the two titles, or return this portion of the state payment to the US Treasury. For these counties, the allocation for Title III projects could not exceed 7 percent. For the payments for FY 2014 and FY 2015, the county election will be the same as the election made by the county in payment for FY 2013.

H. Period of Performance

The authority to initiate Title III projects terminates on September 30, 2017. Any county funds not obligated by September 30, 2018, shall be returned to the US Treasury (16 USC 7144).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *County's Certification of Title III Expenditures and Unobligated Funds (OMB No. 0596-0220)* – Not later than February 1 of the year after the year in which any Title III county funds were expended by a participating county, the participating county must submit a certification that the county funds expended in the applicable year have been used for the uses authorized under this title, including a description of the amounts expended and their uses. The participating county certification also must include the amount of Title III funds not obligated by September 30 of the previous year. Additional information about the annual certification of Title III expenditures is available at <http://www.fs.usda.gov/main/pts/countyfunds>.

Key Line Items – The following sections contain critical information:

1. *Expenditures*
2. *Funds Not Obligated*

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions**1. Public Notice and Comment Period**

Compliance Requirements A participating county can use Title III county funds only after a 45-day public comment period, at the beginning of which the participating county must:

- a. Publish in any publications of local record a proposal that describes the proposed use of the county funds; and
- b. Submit the proposal to any resource advisory committee established under 16 USC 7125 for the participating county (16 USC 7142(b)).

Audit Objectives Determine whether the county has provided the required public notice.

Suggested Audit Procedures

- a. Verify that the county provided public notice 45 days prior to using Title III funds.
- b. Verify that the county submitted its proposal to use Title III county funds to the resource advisory committee, if any, 45 days prior to using the funds.

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.760 WATER AND WASTE DISPOSAL SYSTEMS FOR RURAL COMMUNITIES****I. PROGRAM OBJECTIVES**

The Water and Waste Program is designed to assist rural communities in obtaining safe drinking water and adequate waste disposal facilities, which are prerequisites for economic growth. In recent years, water and waste systems have been subject to increasingly stringent regulation under the Safe Drinking Water Act and Clean Water Act. This program is instrumental in providing the financing to build or upgrade rural water and waste disposal facilities.

II. PROGRAM PROCEDURES**A. Overview**

Under this program, the United States Department of Agriculture's (USDA) Rural Utilities Service (RUS) awards direct loans, loan guarantees, and project grants for new and improved water and waste disposal systems serving rural areas where financing is not available from commercial sources at reasonable rates and terms. The Water and Waste Program is authorized to provide loan and grant assistance to eligible applicants for water and waste disposal facilities in rural areas and incorporated areas up to 10,000 people. Eligible applicants include (1) a public body, such as a municipality, district, county, authority, or other political subdivision of a state, territory, or commonwealth; (2) an organization operated on a not-for-profit basis, such as a cooperative, association, or private corporation; or (3) Indian tribes on state and federal reservations and other federally recognized tribes (7 CFR 1780, section 1780.7(a)(3)).

B. Direct Loans for Water and Waste Disposal Systems

To establish its eligibility for a loan, an applicant must demonstrate to RUS that it cannot finance the proposed project from its own resources or obtain sufficient credit to do so at reasonable terms or rates. In addition, the applicant must have the legal authority to construct, operate, and maintain the proposed facility, and to give security for and repay the proposed loan (7 CFR 1780, section 1780.7). A loan is repayable based on the useful life of the facility, state statute, or 40 years from the date of the note, whichever is sooner. Interest is charged at a poverty rate, intermediate rate, or market rate depending on the circumstances (7 CFR 1780, section 1780.13).

C. Project Grants for Water and Waste Disposal Systems

RUS makes grants in conjunction with direct loans for water and waste disposal projects serving the most financially needy communities in order to reduce user costs to a reasonable level. Maximum grant amounts are based on a graduated scale that provides higher amounts for projects in communities that have lower income levels; however, a

grant amount may never exceed 75 percent of RUS eligible project development costs. To establish grant eligibility, an applicant must demonstrate to RUS that it serves a rural area whose median household income (MHI) falls below the statewide nonmetropolitan

median household income (7 CFR 1780, section 1780.10). Grant monies are not necessarily awarded at the grant caps. The grant, if any, awarded represents the amount of subsidy needed to maintain reasonable rates for its users. As each system has unique costs associated with the delivery of safe and potable water, MHI is not the sole driver of grant contributions. Rather, the award amount is dependent upon financial review and determined on a case-by-case basis.

D. Guaranteed Loans for Water and Waste Disposal Systems

RUS provides guaranteed loans and will guarantee up to 90 percent of eligible loan loss. The interest rate and term for guaranteed loans are negotiated between the recipient and the lender (7 CFR 1779, sections 1779.30 and 1779.33).

Source of Governing Requirements

The program is authorized by Section 306 of the Consolidated Farm and Rural Development Act (7 USC 1926). Implementing regulations are at 7 CFR parts 1779 and 1780.

Availability of Other Program Information

RUS maintains a home page that provides general information about this program at <http://www.rd.usda.gov/programs-services/water-waste-disposal-loan-grant-program>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	Y	N	N

A. Activities Allowed or Unallowed

1. Loan and grant funds may be expended on eligible project costs, as approved by RUS. These expenditures include items such as land acquisition, water rights, legal fees, engineering fees, construction costs, and the purchase of equipment (7 CFR 1780, section 1780.9).
2. Loan and grant funds may not be used for the following (7 CFR 1780, section 1780.10):
 - a. Facilities that are not modest in size, design, and cost.
 - b. Loan or grant finder’s fees.
 - c. The construction of any new combined storm and sanitary sewer facilities.
 - d. Any portion of the cost of a facility which does not serve a rural area.
 - e. That portion of project costs normally provided by a business or industrial user, such as wastewater pretreatment, etc.
 - f. Rental for the use of equipment or machinery owned by the applicant.
 - g. For other purposes not directly related to operating and maintaining the facility being installed or improved.
 - h. The payment of a judgement which would disqualify an applicant for a loan under 1780.7.

B. Allowable Costs/Cost Principles

The auditor should test costs for allowable/unallowable activities when agency funds are used or when interim financing is used during construction.

G. Matching, Level of Effort, Earmarking**1. Matching**

Under the direct loan and grant programs, borrowers may be required to provide funds from their own or other sources as required in the grant agreement and the letter of conditions issued, or security instruments, such as the grant agreement or loan documentation by RUS (7 CFR sections 1780.44(d) and (f)).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

L. Reporting Requirements**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *Form RD 442-2, Statement of Budget, Income and Equity (OMB No. 0575-0015)* – This report covers financial operations relating to the borrower's water or waste disposal project. A borrower may submit this financial data on other forms, provided the forms are in a similar format and signed and dated by the organization's official to certify the correctness of the information. Also, an annual audit may be submitted in lieu of this form (7 CFR 1780, section 1780.47).

Key Line Items – Page 1 only. Supplemental data is not tested by the auditor.

- e. *Form RD 442-3, Balance Sheet (OMB No. 0575-0015)* – This report presents the financial status of the borrower's water or waste disposal project. A borrower may submit this financial data on other forms, provided the forms are in a similar format and signed and dated by the organization's official to certify the correctness of the information. Also, an annual audit may be submitted in lieu of this form (7 CFR 1780, section 1780.47).

Key Line Items – All the sections, line items, and data elements in the report contain critical information.

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

IV. OTHER INFORMATION*Interim Financing*

After RUS has made a commitment on a loan, the borrower may be required to obtain interim financing from commercial sources (e.g., a bank loan) for the construction period (7 CFR 1780, section 1780.39(d)). Interim financing is required for all loans over \$500,000, except in documented instances where financing cannot be obtained at reasonable rates. Expenditures from these commercial sources that will be repaid from the proceeds of the RUS loan should be considered federal awards expended, included in determining Type A programs, and reported in the Schedule of Expenditures of Federal Awards.

Status of Outstanding Loan Balance After Project Completion

In years after the program funds are expended and construction is completed, and the only ongoing financial activity of the program is the payment of principal and interest on outstanding loan balances, the prior loan balances are not considered to have continuing compliance requirements under 2 CFR 200, section 200.502(d). Prior loans that do not have continuing compliance requirements other than to repay the loans are not considered federal awards expended and, therefore, are not required to be audited under 2 CFR Part 200, Subpart F.

However, this does not relieve the borrower of the requirement to file financial reports on these loans (which are not required to be audited) or otherwise comply with program requirements (e.g., maintaining insurance, depositing funds in federally insured banks, obtaining prior approval for sales of plant).

UNITED STATES DEPARTMENT OF AGRICULTURE**ASSISTANCE LISTING 10.766 COMMUNITY FACILITIES LOANS AND GRANTS****ASSISTANCE LISTING 10.780 COMMUNITY FACILITIES LOANS AND GRANTS
(Community Programs)****I. PROGRAM OBJECTIVES**

The objective of the Community Facilities (CF) direct loan, guaranteed loan, and grant programs is to provide loan or grant funds for the development of essential community facilities for public use in rural communities. Funds may be used to construct, enlarge, extend, or otherwise improve essential community facilities providing essential services primarily to rural residents and rural businesses. Funds are made available to public bodies, nonprofit organizations, and federally recognized Indian tribes that are providing essential services to rural communities when financing is not available from their own resources or from commercial credit at reasonable rates and terms.

II. PROGRAM PROCEDURES**A. Overview**

These programs are administered at the headquarters level by the United States Department of Agriculture (USDA) Rural Housing Service, and Community Facilities Programs and in the field by USDA Rural Development field offices. The Rural Housing Service authorizes, monitors, and provides funding for administration of CF loans and grants. Funds are made available directly to local governments, nonprofit organizations, and Indian tribes in the form of direct loans, guaranteed loans, and grants. Funds are used for the development of essential community facilities in rural areas and towns of up to 20,000 population. For guaranteed loans rural area is defined as any area of a state not in a city or town that has a population of more than 50,000 inhabitants and which excludes certain populations pursuant to 7 USC 1991 (a) (13) (H), according to the latest decennial census of the United States and not in the urbanized area contiguous and adjacent to a city or town that has a population or more than 50,000 inhabitants. The USDA Rural Development state, area, and local, offices monitor and evaluate the progress of the CF financed projects.

Applicant eligibility for CF direct and guaranteed loan and grant assistance is based on (1) the type of organization applying for the loan (public body, nonprofit organization, or federally recognized Indian tribe); (2) whether the applicant can demonstrate that it is unable to finance the proposed project from its own resources or from commercial credit at reasonable rates and terms; (3) whether the applicant has authority to develop, own, and operate the proposed facility; and (4) whether the applicant can legally borrow money and make payments on debts obligated. In the case of CF grants, there are additional requirements based on the median household income of the community.

Applicants must have the legal authority to borrow and repay loans, pledge security for loans, and construct, operate, and maintain the facility. They must also be financially sound and able to organize and manage the facility effectively. Repayment of the loan

must be based on tax assessments, revenues, fees, or other sources of money sufficient for operation and maintenance of reserves and debt retirement. The amount of CF grant assistance must be the minimum amount sufficient for feasibility purposes, which will provide for facility operation and maintenance, reasonable reserves, and debt repayment. The applicant's excess funds must be used to supplement eligible project costs.

B. Subprograms/Program Elements

1. Direct Loans

The purpose of the CF direct loan program is to provide affordable funding to develop essential community facilities for health care, public safety, education, and community and public services in rural areas. Funds may be used to construct, purchase, or improve essential community facilities. Under the provision of re-lending found at 7 CFR section 1942.30, the Agency may also make CF direct loans to eligible re-lenders who then in turn re-lend the funds to eligible applicants for eligible projects.

2. Guaranteed Loans

The purpose of the CF guaranteed loan program is to improve, develop, or finance essential community facilities in rural areas. This purpose is achieved through bolstering the existing private credit structure through the guarantee of quality loans that will provide lasting community benefits. Guaranteed loans are loans made and serviced by a lender and guaranteed by Rural Development. The processing of the loan and ensuring that the requirements placed on the borrower are met are the lender's responsibility.

3. CF Grants

Grant funds may be used to assist in the development of essential community facilities for health care, public safety, education, and community and public services in rural areas. Grants are targeted to the neediest communities that meet population criteria for loans and have a median household income below the higher of the poverty line or the eligible percentage (60, 70, 80, or 90 percent) of the state nonmetropolitan median household income. The amount of CF grant funds provided for a facility may not exceed 75 percent of the cost of developing the facility.

Source of Governing Requirements

The program is authorized under the Consolidated Farm and Rural Development Act of 1972 (7 USC 1926).

Implementing regulations are:

- CF Direct Loans 7 CFR Part 1942, Subpart A
- CF Fire and Rescue Loans 7 CFR Part 1942, Subpart C
- CF Grant Programs 7 CFR Part 3570, Subpart B

Availability of Other Program Information

Program regulations, Administrative Notices, and other program literature can be found on the USDA website at <https://www.rd.usda.gov/resources>.

Administrative Notice to CF loan borrowers that alerted them to presentation of loan balance on SEFA at <https://www.rd.usda.gov/sites/default/files/an4889.pdf>.

CF Guaranteed Loans 7 CFR Part 5001.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	N	Y	N	N	N	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Funds may be used to construct, enlarge, extend, or otherwise improve essential community facilities providing essential services primarily to rural residents and rural businesses. Examples of essential community facilities are fire, rescue, and public safety facilities; health services facilities; educational facilities; facilities providing community, social, or cultural services; transportation facilities such as streets, roads, and bridges; hydroelectric generating facilities; and recreation facilities (guaranteed loans only). Funds are used to pay reasonable fees and costs

associated with the loan, interest on loans for up to two years, and the costs of acquiring interest in land and rights. Under certain circumstances, funds may also be used to purchase or lease equipment, pay initial operating expenses, refinance debts, and pay obligations for construction incurred before issuance of conditional commitment. The projects (including costs) are described in the Letter of Conditions for direct loans and grants or Conditional Commitment for guarantees as prepared by USDA Rural Development (7 CFR sections 1942.17(d), 3570.61(b), and section 5001.451).

2. *Activities Unallowed*

Loan funds may not be used to finance (a) on-site utility systems or businesses; (b) industrial buildings in connection with industrial parks; (c) community antenna television services; (d) electric generation except for hydroelectric or transmission facilities and telephone systems; (e) facilities which are not modest in size, design, or cost; and (f) loan or grant finder's fee (7 CFR sections 1942.17(d)(2), 3570.63, and section 5001.116).

N. **Special Tests and Provisions**

1. **Protection and Disposition of Funds**

Compliance Requirements Borrowers shall establish accounts into which borrower funds, Agency loan proceeds, the revenues of the facility financed, and any other income shall be deposited in accordance with the loan resolution(s) authorizing the incurrence of indebtedness related to the Agency loan proceeds. The accounts will be maintained in accordance with the loan resolution(s) as long as the authorized indebtedness to the Agency is outstanding. Accounts may include but are not limited to the following: (a) construction account, (b) general account, (c) debt service account, and (d) reserve account.

Audit Objectives Determine whether the accounts were properly established, required deposits were made, and disbursements were only made for purposes authorized in the loan resolution(s).

Suggested Audit Procedures

- a. Ascertain if the appropriate accounts have been established either as bookkeeping accounts or as separate bank accounts.
- b. Ascertain if the funds have been deposited in institutions insured by the state or federal government or invested in readily marketable securities backed by the full faith and credit of the United States.
- c. Test a sample of deposits in each required account and ascertain the proper amount has been made to the appropriate account except when the reserve account has been fully funded.

- d. Test a sample of disbursements from the reserve account and ascertain if they were approved by the Agency and were made for the approved purpose.

IV. OTHER INFORMATION

Interim Financing

After USDA has made a commitment on the loan, the borrower may be required to obtain interim financing from commercial sources (e.g., a bank loan) during the construction period (7 CFR section 1942.17(n)(3)). Expenditures from these commercial loans that will be repaid from a CF loan should be considered federal awards expended, included in determining Type A programs, and reported in the Schedule of Expenditures of Federal Awards.

Years after Project Completion – Continuing Compliance

For CF direct loans, the Agency requires a promissory note or bond and security that will adequately protect the interest of the Agency during the repayment period of the loan. In the case of a CF guaranteed loan, the borrower executes a promissory note or bond with the lender and the lender is responsible for obtaining adequate security to protect the interest of the lender, any holder, and the government. Loan terms cannot exceed 40 years, the useful life of the facility or state statute, whichever is less. The borrower is required to repay the principal and interest according to the term of the note or bond. The full outstanding balance on the note or bond should be considered federal awards expended, included in determining Type A programs, and reported as loans on the Schedule of Expenditures of Federal Awards in accordance with 2 CFR Part 200 Subpart F.

CF borrowers are required to fund reserves, maintain insurance, deposit funds in Federally insured banks, meet financial covenants, maintain sufficient debt service ratios, and in some cases comply with additional requirements established as part of the loan approval process. These requirements indicate the continuing compliance requirements that CF borrowers must meet. USDA expects borrowers to comply with the continuing compliance requirements as well as borrowers' audits to comply with 2 CFR 200, Subpart F.

Therefore, for borrowers that have expended no other federal funding but have an outstanding CF loan balance of \$750,000 or more, an audit under 2 CFR Subpart F is required. For borrowers that have expended other federal funding and that are otherwise subject to a single audit under 2 CFR Subpart F, any outstanding CF loan balance must be included on the borrower's Schedule of Expenditures of Federal Awards. The USDA's determination that continuing compliance requirements exist for all CF loans was first required to be applied to borrowers' outstanding CF loan balances for fiscal years ending on or after June 30, 2022.

All borrowers were informed of this change through an Administrative Notice issued on September 19, 2022, which is posted on the USDA website (see address under Other Program Information above).

DEPARTMENT OF COMMERCE

ASSISTANCE LISTING 11.300 INVESTMENTS FOR PUBLIC WORKS AND ECONOMIC DEVELOPMENT FACILITIES

ASSISTANCE LISTING 11.307 ECONOMIC ADJUSTMENT ASSISTANCE

I. PROGRAM OBJECTIVES

The Public Works and Economic Development Facilities (Public Works) program assists communities to revitalize and expand their physical and economic infrastructure and also supports the creation and retention of jobs for area residents by helping eligible recipients with their efforts to promote the economic development of their local economies. The Economic Adjustment Assistance program assists communities experiencing actual or threatened severe unemployment or adverse economic changes that may occur suddenly or over time, including but not limited to those caused by military base closures or realignments, depletion of natural resources, presidentially declared disasters or emergencies, or international trade.

Supplementary funds appropriated to the Economic Development Administration (EDA) pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act and the American Rescue Plan (ARP) Act are administered under the Economic Adjustment Assistance program (Assistance Listing 11.307). To award CARES Act funds, EDA published the Addendum to the FY 2020 Public Works and Economic Adjustment Assistance Notice of Funding Opportunity (NOFO) for EDA's CARES Act Recovery Assistance, and EDA separately invited some existing recipients to apply for non-competitive awards. To award ARP Act funds, EDA published six NOFOs: Build Back Better Regional Challenge; Good Jobs Challenge; Economic Adjustment Assistance; Indigenous Communities; Travel, Tourism and Outdoor Recreation; and Statewide Planning, Research and Networks. All awards made under the six ARP Act NOFOs fall under the Economic Adjustment Assistance program (Assistance Listing 11.307).

II. PROGRAM PROCEDURES

Public Works grants may fund construction and related activities, such as design, engineering, and acquisition of related property, machinery, and equipment. Economic Adjustment Assistance grants may be used to develop a Comprehensive Economic Development Strategy (CEDS) or other strategy to alleviate long-term economic deterioration or a sudden and severe economic dislocation. Economic Adjustment Assistance grants may also fund a project implementing a CEDS or other strategy, including grants for construction and Revolving Loan Funds (RLFs). Like Public Works grants, Economic Adjustment Assistance grants for construction may include related activities, such as design, engineering, and acquisition of related property, machinery, and equipment.

Section 302 of the Public Works and Economic Development Act of 1965 (PWEDA) (42 USC section 3162) requires that Public Works and Economic Adjustment Assistance grants be consistent with a CEDS or equivalent EDA-accepted regional economic development strategy, except for planning projects (i.e., strategy grants) under the Economic Adjustment Assistance program. Pursuant to section 214 of PWEDA (42 USC section 3154), EDA may waive the

CEDS requirements for Public Works and Economic Adjustment Assistance projects located in regions designated as “Special Impact Areas.” If a project is located in a designated “Special Impact Area,” such designation will be specified in the grant award documents.

Economic Adjustment Assistance grants to capitalize or recapitalize RLFs are most commonly made for the purpose of business lending but may also fund public infrastructure or other authorized lending purposes if specifically allowed for in the terms of the award. RLF recipients must administer RLFs in accordance with an RLF plan approved by EDA. RLF recipients must update the RLF plan as necessary in accordance with changing economic conditions in the region; at a minimum, RLF recipients must update their RLF plans at least once every five years. RLF recipients are responsible for ensuring that borrowers are aware of and comply with applicable federal statutory and regulatory requirements.

Source of Governing Requirements

The Public Works and Economic Adjustment Assistance programs are authorized by PWEDA (42 USC sections 3121–3234).

EDA’s regulations are codified at 13 CFR chapter III, including program regulations for Public Works (Assistance Listing 11.300) at 13 CFR Part 305 and Economic Adjustment Assistance (Assistance Listing 11.307) at 13 CFR Part 307.

Availability of Other Program Information

Other program information is available at <http://www.eda.gov/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

Y	Y	N	N	N	Y	N	N	Y	Y	Y	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

The grant award documents, which include the grant budget, specify the purpose, and use of funds, which include the following:

- a. Construction: Construction grants made under the Public Works (Assistance Listing 11.300) or Economic Adjustment Assistance (Assistance Listing 11.307) programs can be made for the acquisition or development of land and improvements for use for a public works, public service, or development facility. Construction grants can also be made for the acquisition, design and engineering, construction, rehabilitation, alteration, expansion, or improvement of such a facility, including related machinery and equipment (42 USC section 3141(a); 42 USC section 3149(a); and 13 CFR sections 305.2(a) and 307.3). For awards involving construction, recipients must seek EDA’s prior written approval to use alternate construction procurement methods to the traditional design/bid/build procedures (including lump sum or unit price-type construction contracts). These alternate methods may include design/build, construction management at risk, and force account (13 CFR section 305.6(a); 13 CFR section 307.4(c)(2)).
- b. Non-Construction, RLF: Economic Adjustment Assistance grants (Assistance Listing 11.307) to capitalize or recapitalize RLFs most commonly fund business lending but may also fund public infrastructure or other authorized lending activities if specifically allowed for in the terms of an award (42 USC section 3149(a) and 13 CFR section 307.6).
- c. Non-Construction, Other: Other activities that can be funded under the Economic Adjustment Assistance program (Assistance Listing 11.307) (in addition to grants for construction and RLFs) are grants for CEDS (or other strategy) development and grants for CEDS (or other strategy) implementation, which may include, among other things, market or

industry research and analysis, technical assistance, public services, training, and other activities as justified by the strategy which meet applicable statutory and regulatory requirements (42 USC section 3149(a) and 13 CFR section 307.3).

- d. Subaward, Public Works: A recipient of a Public Works grant (Assistance Listing 11.300) may directly expend the grant funds or, with prior EDA approval, may redistribute such grant funds in the form of a subaward to another eligible recipient to fund required components of the scope of work approved for the project (42 USC section 3154c and 13 CFR section 309.1).
- e. Subaward, Economic Adjustment Assistance: A recipient of an Economic Adjustment Assistance grant (Assistance Listing 11.307) may directly expend the grant funds or, with prior EDA approval, may redistribute such grant assistance in the form of (1) a subaward to another eligible recipient or (2) a loan or other appropriate assistance to nonprofit and private for-profit entities (42 USC section 3154c and 13 CFR section 309.2).
- f. Participant Support Costs: Awards made under the Public Works (Assistance Listing 11.300) and Economic Adjustment Assistance (Assistance Listing 11.307) typically do not allow funds to be used for participant support costs as provided at 2 CFR section 200.456. However, some awards made with ARP Act funds, in particular awards under the Good Jobs Challenge, may allow participant support costs.

2. *Activities Unallowed*

- a. Restrictions on use of RLF Cash Available for Lending: RLF Cash Available for Lending (as defined at 13 CFR section 307.8) **may not** be used to:
 - (1) Acquire an equity position in a private business (13 CFR section 307.17(c)(1)).
 - (2) Subsidize interest payments on an existing RLF loan (13 CFR section 307.17(c)(2)).
 - (3) Provide a loan to a borrower for the purpose of meeting the requirements of equity contributions under another federal agency's loan programs (13 CFR section 307.17(c)(3)).
 - (4) Enable borrowers to acquire an interest in a business either through the purchase of stock or through the acquisition of assets unless sufficient justification is provided in the loan documentation.

Sufficient justification may include acquiring a business to save it from imminent closure or to acquire a business to facilitate a significant expansion or increase in investment with a significant increase in jobs. The potential economic benefits must be clearly consistent with the strategic objectives of the RLF (13 CFR section 307.17(c)(4)).

- (5) Provide RLF loans to a borrower for the purpose of investing in interest-bearing accounts, certificates of deposit, or any investment unrelated to the RLF (13 CFR section 307.17(c)(5)).
 - (6) Refinance existing debt, unless (1) the RLF recipient sufficiently demonstrates in the loan documentation a sound economic justification for the refinancing (e.g., the refinancing will support additional capital investment intended to increase business activities; for this purpose, reducing the risk of loss to an existing lender(s) or lowering the cost of financing to a borrower shall not, without other indicia, constitute a sound economic justification); or (2) RLF cash available for lending will finance the purchase of the rights of a prior lien holder during a foreclosure action, which is necessary to preclude a significant loss on an RLF loan. RLF funds may be used for this purpose, only if there is a high probability of receiving compensation from the sale of assets sufficient to cover an RLF's costs plus a reasonable portion of the outstanding RLF loan within a reasonable time frame approved by EDA following the date of refinancing (13 CFR section 307.17(c)(6)).
 - (7) Serve as collateral to obtain credit or any other type of financing without EDAs prior written approval (13 CFR section 307.17(c)(7)).
 - (8) Support operations or administration of the RLF recipient (13 CFR section 307.17(c)(8)).
 - (9) Undertake any activity that would violate the requirements found at 13 CFR Part 314, including sections 314.3 ("Authorized Use of Property") and 314.4 ("Unauthorized Use of Property") (13 CFR section 307.17(c)(9)).
 - (10) Finance gambling activity, performances or products of a prurient sexual nature, or any illegal activity, including the cultivation, distribution, or sale of marijuana that is illegal under federal law (RLF Standard Terms and Conditions, Part II, section D) 4) a) (x)).
- b. Subaward, Ineligible Entities: A recipient of a Public Works grant (Assistance Listing 11.300), or Economic Adjustment Assistance grant

(Assistance Listing 11.307) may not redistribute award funds (e.g., subaward) to entities ineligible for award under the applicable Notice of Funding Opportunity (NOFO) (e.g., for-profit organizations) except in accordance with the procurement standards at 2 CFR sections 200.317 through 200.327.

- c. Conflicts of Interest: In addition to the general conflicts of interest provisions at 2 CFR section 200.112, recipients of Public Works and Economic Adjustment Assistance awards must also comply with the conflicts of interest provisions at 13 CFR section 302.17. Special conflicts of interest provisions apply to recipients of RLF awards (13 CFR section 302.17(c)):
- (1) An interested party of an RLF recipient may not receive, directly or indirectly, any personal or financial benefits resulting from the disbursement of RLF loans;
 - (2) An RLF recipient may not lend RLF funds to an Interested Party; and
 - (3) Former board members of an RLF recipient and members of his or her immediate family may not receive a loan from the RLF for a period of two years from the date that the board member last served on the board of directors.

B. Allowable Costs/Cost Principles

Cost Principles: The Cost Principles at 2 CFR Part 200, Subpart E, describe selected cost items, allowable and unallowable costs, and standard methodologies for calculating indirect costs rates (e.g., methodologies used to recover facilities and administrative costs (F&A) at institutions of higher education). Federal awards include cost-type contracts and may be in the form of grants, contracts, and other agreements.

Unallowable Costs, RLF Awards: For RLF awards, costs incurred for ineligible loans, including loans made for one of the unallowed activities described in Section A.2. or made outside of the RLF lending area as discussed in Section N.2., are unallowable. The RLF capital base is always maintained in two forms: as RLF cash available for lending **or** as outstanding loan principal. An RLF recipient is allowed to use RLF income to pay for allowable administrative costs, provided such RLF income is earned and the administrative costs are accrued in the same fiscal year of the RLF recipient. It is unallowable to use RLF funds for administrative costs in excess of the RLF income generated during the same recipient fiscal year without prior written approval from EDA.

G. Matching, Level of Effort, Earmarking

1. Matching

The amount of required matching share varies on a grant-by-grant basis and is set forth in the grant award. In nearly all cases, a recipient of a Public Works or Economic Adjustment Assistance grant is required to provide a matching share. In some instances, including grants to Indian tribes and to respond to natural disasters, EDA may award grants at investment rates up to and including one hundred percent (100 percent) (13 CFR section 301.4(b)). Prior to EDA approving the matching share at time of application, the recipient must demonstrate to EDA's satisfaction that the matching share is committed to the project, available as needed, and not conditioned or encumbered in any way that would preclude its use consistent with the requirements of the grant award (13 CFR section 301.5). The source of a recipient's matching share may change during the term of the grant award if EDA is notified and approves of the change in source.

Matching share may take a variety of forms. It may be in the form of allowable costs incurred by the recipient, but not charged to the federal award, third party cash contributions, or third party in-kind (non-cash) contributions. Additionally, with prior EDA approval, unrecovered indirect costs or program income may be used to meet the required matching share.

For reporting purposes, unrecovered indirect costs allowed by EDA for match are reported with recovered indirect costs using Form SF-425, lines 11.a–11.e and 11.g, and then are added to other Recipient Share of Expenditures on Line 10.j. Program income allowed for match is entered directly in Recipient Share of Expenditures on Line 10.j but is **not** included in any of the entries on Lines 10.l, 10.m, and 10.o within the program income section of Form SF-425. The use of unrecovered indirect costs or program income for matching funds does not increase the amount of the federal award (2 CFR sections 200.306(c) and 200.307(e)(3)).

Matching funds must comply with the provisions of 2 CFR section 200.306, 13 CFR section 301.5, and the applicable NOFO, which provides detailed criteria for acceptable costs and contributions. Funds are acceptable for matching if they:

- a. Are verifiable from the nonfederal entity's records.
- b. Are not included as contributions for any other federal award.
- c. Are necessary, allocable, and reasonable for accomplishment of project objectives.
- d. Are allowed under the applicable cost principles.

- e. Are not paid by the federal government under another federal award, except where the federal statute authorizing a program specifically provides for such use, which may sometimes include a letter from the federal agency authorizing the funds as match in the subject project, and EDA approves the use of the federal funds as match.
- f. Are provided for in the approved budget when required by the EDA.
- g. Conform to other applicable provisions of 2 CFR section 200.306 and any applicable laws, regulations, and provisions of grant or cooperative agreements.

The following are the items which require a review/test in the area of applying match. Note that these items apply to the disbursement phase of the RLF award, but not RLF awards in the revolving phase (as defined at 13 CFR section 307.8) where all funds have been previously disbursed by EDA:

- a. Perform tests to verify that required matching funds were expended, and that they were expended consistently with what was reported to EDA.
- b. Ascertain the sources of matching contributions and perform tests to verify that they were from an allowable source.
- c. Test records to corroborate that third party contributions (including third party in-kind (non-cash contributions) are valued in accordance with 2 CFR section 200.306.
- d. Ensure that the application of match is in compliance with the program regulations and the terms of the award.
- e. Test costs incurred as match for compliance with the allowable costs/cost principles requirement. This test may be performed in conjunction with the testing of the requirements related to allowable costs/cost principles.

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

J. Program Income

Program income means gross income earned by the nonfederal entity that is directly generated by a supported activity or earned as a result of the federal award during the

period of performance except as provided at 2 CFR section 200.307(f). Program income includes but is not limited to income from fees for services performed, the use or rental of real or personal property acquired under federal awards, the sale of commodities or items fabricated under a federal award, license fees and royalties on patents and copyrights, and interest on loans made with federal award funds. Program income may be earned pursuant to some Public Works (Assistance Listing 11.300) and Economic Adjustment Assistance (Assistance Listing 11.307) awards, but it is most prevalent in RLF awards.

Program income is a key feature of RLF awards. Known as “RLF income,” it is used to increase the RLF capital base and to pay eligible administrative costs that stem from operating the RLF. RLF income (as defined at 13 CFR section 307.8) includes interest earned on loan principal and accounts holding RLF funds, all fees received by the RLF, and other income generated from RLF operations. RLF income excludes repayments of loan principal.

During the revolving phase (as defined at 13 CFR section 307.8), RLF income must either be used to pay allowable administrative costs or added to the RLF capital base. RLF income may be used to pay administrative costs only if the RLF income is accrued and the administrative costs are incurred in the same fiscal year of recipient. If the RLF income is not used for such costs, it must be added to the RLF capital base (13 CFR section 307.12(a)). A recipient may not withdraw funds from the RLF capital base in a subsequent fiscal year to pay administrative costs without the prior written consent of EDA (13 CFR section 307.12(a)(3)). RLF recipients must keep administrative costs to a minimum to maintain the RLF capital base (13 CFR section 307.12(a)(4)). When charging costs against RLF income, RLF recipients must comply with the cost principles at 2 CFR Part 200, Subpart E.

Determining Program Income

1. **Identify Program Income:**
Inquire of management and review accounting records to ascertain the amount of program income earned.
2. **Determining or Assessing Program Income:**
Perform tests to verify that program income was properly identified, calculated, and collected only from allowable sources.
3. **Recording and Reporting of Program Income:**
Perform tests to verify that all program income was properly recorded in the accounting records.
4. **Use and Reporting of Program Income:**
Perform tests to ascertain whether program income was used in accordance with the program requirements and 2 CFR section 200.307. Ensure that forms SF-425

and ED-209 (for RLF awards) reflect the proper management of the program income.

RLF income received before disbursement phase (as defined at 13 CFR section 307.8) closeout is retained by the RLF recipient, added to the RLF capital base, and reported as unexpended in the final Financial Report (Form SF-425) and continues to be reported in the RLF Financial Report (Form ED-209). The RLF recipient may use program income only as an “addition” to the federal award pursuant to 2 CFR section 307(e)(2); the recipient may not use program income as a “deduction” to the federal award.

L. Reporting

1. Financial Reporting

- a. *Form SF-425, Federal Financial Report* – Applicable (required on a quarterly or bi-annual basis, until the end of the period of performance when a final closeout Form SF-425 is submitted)
- b. *Form SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Applicable (required for construction awards until the award is fully disbursed)
- c. *Form SF-270, Request for Advance or Reimbursement for Non-Construction Programs* – Applicable (required for non-construction awards until the award is fully disbursed)
- d. *Form ED-209, RLF Financial Report* – Applicable only for RLF awards (required to be submitted in a format and at a frequency determined by EDA for the duration of the RLF’s operation, generally on a semiannual or annual basis). The following explains the Form ED-209 reporting requirements.

Form ED-209, Revolving Loan Fund Financial Report (OMB No. 0610-0095) – All EDA RLF recipients must submit Form ED-209 at a frequency as directed by EDA (13 CFR section 307.14(a)). The frequency is based on the results of the rating each RLF receives under the Risk Analysis System. Generally, Form ED-209 must be submitted corresponding to the RLF recipient’s fiscal year on an annual basis for RLF awards that are highly rated under the Risk Analysis System, while it must be submitted on a semi-annual basis for RLF awards that are not highly rated under the Risk Analysis System.

Key Line Items – The following line items contain critical information, which should reconcile with the RLF recipient’s financial documents and account balances:

1. *Current RLF capital base (Line II.C.6.)*

2. *RLF Cash Available for Lending, Net of Committed RLF \$ (Line II.D.4.)*
3. *Total Active Loans (Line III.A.4., Number, RLF \$ Loaned, and RLF Principal Outstanding)*
4. *Written Off Loans (Line III.A.5., Number, RLF \$ Loaned, and Loan Losses)*
5. *Total Loans (Line III.A.7., Number, RLF \$ Loaned, RLF Principal Outstanding, and Loan Losses)*
6. *RLF income used for Admin. Expenses, Fiscal Year (Line IV.C.2.)*
7. *RLF income earned during Fiscal Year (Line IV.C.3.)*
8. *Administrative Expenses % of Income, Fiscal Year (Line IV.C.2.)*
9. *Total \$ Leveraged (Line IV.E.1., Active Loans and Total Loans)*
10. *Loan Leverage Ratio (Line IV.E.2., Active Loans and Total Loans)*

2. Performance Reporting

EDA collects and reports on performance measures in compliance with Government Performance and Results Act of 1993, as amended by the GPRA Modernization Act of 2010.

These reports may include, but are not limited to:

- a. GPRA Data Collection forms required under the terms of the award (e.g. Forms ED-915, ED-916, ED-917, and ED-918).
- b. Periodic performance reports required under the terms of the award. As required under 2 CFR section 200.329:
 - Performance reports must be submitted at the interval required by the grant to best inform improvements in program outcomes and productivity.
 - Performance reports must contain brief information regarding: 1) a comparison of actual accomplishments to the objectives of the federal award established for the period; and 2) the reasons why any established goals were not met, and/or resulted in an explanation of cost overruns or high unit costs' and significant

developments, that impacted not meeting established goals, including problems, delays, or adverse conditions which materially impaired the ability to meet the objective of the federal award, and a statement of any actions which were taken to resolve the situation.

- c. Performance Technical Reports required under the terms of the award, including Form SF-429 (Real Property Status Report) as required under 2 CFR sections 200.330 and 200.334(c), including the completed Cover Page and all applicable Attachments A, B, and/or C.

The auditor shall perform a review and an analysis of the subject performance reports to evaluate whether the auditee's practices are sufficient to meet the requirements of their performance reporting to successfully fulfill the governing requirements. The auditor shall consider the results of their performance reporting testing in assessing the risk of noncompliance.

3. Special Reporting for Federal Funding Accountability and Transparency Act

Prime recipients awarded a new federal grant greater than or equal to \$30,000 are subject to FFATA sub-award reporting requirements as outlined in the Office of Management and Budgets guidance issued August 13, 2020. The prime recipient is required to file a FFATA sub-award report by the end of the month following the month in which the prime recipient awards any sub-grant greater than or equal to \$30,000 (Pub. L. No. 109-282 [FFATA] and Pub. L. No. 113-101 [DATA Act]). This requirement applies to all Public Works (Assistance Listing 11.300) and Economic Adjustment Assistance (Assistance Listing 11.307) awards, including RLF awards.

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. RLF Awards: Priority of Payments on Defaulted and Written Off RLF Loans

Compliance Requirements When an RLF recipient receives proceeds on a defaulted RLF loan or written off RLF loan, such proceeds must be applied in the following order of priority: (1) towards any costs of collection; (2) towards outstanding penalties and fees; (3) towards any accrued interest to the extent due and payable; and (4) towards any outstanding principal balance (13 CFR section 307.12(c)).

Audit Objectives Determine whether proceeds from defaulted RLF loans were correctly applied in the order of priority.

Suggested Audit Procedures

Test a sample of defaulted **and** written off RLF loan files to ascertain whether:

- a. Documentation is available that supports that proceeds from defaulted and written off RLF loan files were correctly applied in the order of priority.
- b. Any variance from this procedure is recorded, by loan number, total amount of proceeds, and which priority area relating to each noncompliance of not following the order of priority.

2. RLF Awards: Loan Requirements

Compliance Requirements The following requirements apply to RLF loans:

- a. The standard loan documentation must include, at a minimum, the: (1) loan application, (2) loan agreement, (3) board of directors' meeting minutes approving the RLF loan or appropriate substitute documentation if board approval is not required, (4) promissory note, (5) security agreement(s) (if applicable), (6) deed of trust or mortgage (if applicable), (7) agreement of prior lien holder (if applicable), and (8) evidence demonstrating that credit is not otherwise available on terms and conditions that permit the completion or successful operation of the activity to be financed (13 CFR section 307.11(a)(1)(ii)). (Note, however, that EDA temporarily waived the requirement to collect evidence demonstrating that credit is not otherwise available; for more information, see <https://eda.gov/cares/rlf/faq.htm>.)
- b. An RLF recipient must make loans to implement and assist economic activity only within its EDA-approved lending area, as defined in the terms and conditions of the award (as amended) and the EDA-approved RLF Plan (13 CFR section 307.18(a)(1)).
- c. RLFs shall operate in accordance with generally accepted accounting principles ("GAAP") in effect in the United States and the provisions outlined in the audit requirements set out as Subpart F to 2 CFR Part 200 and this Compliance Supplement, which is Appendix XI to 2 CFR Part 200, as applicable.
- d. In accordance with GAAP, a loan loss reserve may be recorded in the RLF recipient's financial statements to show the adjusted current value of an RLF's loan portfolio, provided this loan loss reserve is non-funded and is represented by a noncash entry. However, loan loss reserves may not be used to reduce the value of the RLF in the Schedule of Expenditures of Federal Awards ("SEFA") required as part of the RLF recipient's audit requirements under 2 CFR Part 200

(13 CFR section 307.15(a)(2)).

Audit Objectives Determine whether: (1) the required documentation is complete for all RLF loans, including evidence that credit was not otherwise available to the borrower; (2) the RLF recipient's financed activity is located in the EDA-approved lending area; (3) the recipient is accounting for its operations in accordance with GAAP; and (4) properly recording a loan loss reserve in accordance with GAAP and with section 307.15(a)(2).

Suggested Audit Procedures

Test a sample of RLF loan files to ascertain if:

- a. All required standard loan documents are complete for each loan, including documentation that credit was not otherwise available to the borrower. This can take the form of a market analysis of local credit conditions; the documentation does not have to be unique to the borrower.
- b. The financed activity is located in the EDA-approved lending area.

3. RLF Awards: Loan Portfolio Sales and Securitizations

Compliance Requirements With prior written approval from EDA, an RLF recipient may enter into a sale or a securitization of all or a portion of its RLF loan portfolio, provided it: (1) uses all the proceeds of any sale or a securitization to make additional RLF loans, and (2) requests that EDA subordinate its interest in all or a portion of any RLF loan portfolio sold or securitized (13 CFR section 307.19).

Audit Objectives In the event an RLF recipient has sold or securitized RLF loans, verify whether the RLF recipient: (1) received EDA's prior approval, and (2) used all the proceeds from the sale or securitization to make additional RLF loans.

Suggested Audit Procedures

- a. Determine whether RLF recipient has entered into sale or securitization of all or a portion of its RLF loan portfolio.
- b. Verify that the RLF recipient has evidence of EDA's prior written approval to sell or securitize all or a portion of its RLF loan portfolio.
- c. Ascertain that all the proceeds from the sale or securitization (net of reasonable transactions costs) were used to make additional RLF loans.

4. Wage Rate Requirements

See Part 4, 20.001 Wage Rate Requirements of the Department of Transportation Cross-Cutting Section of this Compliance Supplement.

IV. OTHER INFORMATION

Financial Statement and Account Balance

The recipients must have written procedures for preparing the audit report and evaluate for completeness and accuracy to reconcile with financial statements and account balances. In addition, the RLF income used for administrative expenses must be in accordance to terms of the award and cost principles.

RLF Awards: Schedule of Expenditures of Federal Awards

For purposes of completing the SEFA, each EDA RLF award (Assistance Listing 11.307) must be shown as a separate line item, separate from any other Economic Adjustment Assistance award received by the RLF recipient. Each RLF award must be identified as a loan program. (RLF awards are unique among Public Works and Economic Adjustment Assistance awards in this respect; all other Public Works and Economic Adjustment Assistance awards are not loan programs.) The SEFA for RLF awards must be calculated as follows:

1. Balance of RLF principal outstanding on loans at the end of the recipient's fiscal year, *plus*
2. Cash and investment balance in the RLF at the end of the recipient's fiscal year, *plus*
3. Administrative expenses paid using RLF income during the recipient's fiscal year, *plus*
4. Administrative expenses paid using award funds designated for administrative expenses during the recipient's fiscal year, *plus*
5. The unpaid principal of all loans written off during the recipient's fiscal year.
6. *Multiply* this sum (1+2+3+4+5) by the federal share of the RLF award. The federal share is defined as the federal participation rate (or the federal grant rate) as specified in the grant award (or as may be amended by EDA).

Note: Consolidated or merged RLF awards must be shown as a single line item on the SEFA (see III.N.3, "Special Tests and Provisions - Addition of Lending Areas and Consolidation and Merger of RLFs"). In this case, the federal share will be specified in the amendment consolidating the RLF awards.

The federal grant rates for each EDA RLF can be found in the grant award documents; specifically, Form CD-450 or Form CD-451.

For the purposes of calculating federal expenditures, RLF recipients are not permitted to factor in an allowance for bad debt.

A note showing the figures used in this calculation must accompany the SEFA.

RLF Awards: Continuing Compliance Requirements for RLFs

EDA retains a federal interest in RLF award funds until the RLF award is terminated or EDA releases its federal interest in the RLF award funds. As such, required reporting and EDA oversight of the RLF also continue until the award is terminated or EDA releases its federal interest in the RLF award funds.

In the event EDA releases its federal interest in the RLF award funds, the RLF award must appear in the SEFA in the fiscal year of release, and audited as appropriate, but the RLF must not be included in the SEFA in the fiscal years following release. In the fiscal year of release the SEFA must be calculated as the date of release, not as of the end of the recipient's fiscal year.

Equipment and Real Property Management

Except as otherwise authorized by EDA, property acquired or improved under Public Works (Assistance Listing 11.300) and Economic Adjustment Assistance (Assistance Listing 11.307) cannot be used to secure a mortgage or deed of trust or in any way collateralized or otherwise encumbered. An encumbrance includes but is not limited to easements, rights-of-way, or other restrictions on the use of any property (13 CFR section 314.6(a)). For all projects involving the acquisition, construction, or improvement of a building, as determined by EDA, the recipient must execute a lien, covenant, or other statement of the federal interest in such project real property. The statement must specify the estimated useful life of the project and shall include, but not be limited to, the disposition, encumbrance, and federal share requirements. The statement must be satisfactory in form and substance to EDA (13 CFR section 314.8). In extraordinary circumstances and at EDA's sole discretion, EDA may choose to accept another instrument to protect the federal interest in project real property, such as an escrow agreement or letter of credit, provided that EDA determines such instrument is adequate and a recorded statement in accord 13 CFR section 314.8(a) is not reasonably available. The terms and provisions of the relevant instrument must be satisfactory to EDA in EDA's sole judgment. The costs and fees for escrow services and letters of credit must be paid by the recipient (13 CFR section 314.8(d)).

DEPARTMENT OF COMMERCE

ASSISTANCE LISTING 11.611 HOLLINGS MANUFACTURING EXTENSION PARTNERSHIP

I. PROGRAM OBJECTIVES

Under the Hollings Manufacturing Extension Partnership (MEP) program, the National Institute of Standards and Technology (NIST) awards cooperative agreements to eligible entities—which include US states and territories, local/tribal governments, institutions of higher education, and nonprofit organizations or consortia of nonprofit organizations—for the purpose of creating and supporting manufacturing extension centers for the transfer of manufacturing technology and best business practices (hereafter referred to as “Centers”). The objective of the MEP program is to enhance competitiveness, productivity, and technological performance in US manufacturing. See 15 USC 278k(c). Centers accomplish this objective through activities that include: (1) the establishment of automated manufacturing systems and other advanced production technologies, based on institute-supported research, for the purpose of demonstrations and technology transfer; (2) the active transfer and dissemination of research findings and center expertise to a wide range of companies and enterprises, particularly small and medium-sized manufacturers; and (3) the facilitation of collaborations and partnerships between small and medium-sized manufacturing companies, community colleges, and area career and technical education schools, to help those entities better understand the specific needs of manufacturers and to help manufacturers better understand the skill sets that students learn in the programs offered by such colleges and schools (15 USC 278k(d)).

While the majority of program funds are used to create and support these centers (referenced hereafter as “base cooperative agreements”), NIST also disburses additional program funds to existing Centers, or consortia of centers, in the form of cooperative agreements for projects to solve new or emerging manufacturing problems (referred to in the authorizing statute as “competitive awards”). The problems to be addressed under competitive awards will be determined by the NIST director, in consultation with the director of the MEP program (hereafter “Director”), the MEP Advisory Board, other federal agencies, and small and medium-sized manufacturers, and specified in the applicable Notice of Funding Opportunity (NOFO) or funding from the Competitive Awards Program (CAP) established under 15 USC 278k-1.

II. PROGRAM PROCEDURES

A. Cooperative Agreements to Create and Support Centers

Base cooperative agreements to create and support Centers are subject to, and administered in accordance with, 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; the Department of Commerce Standard Financial Assistance Terms and Conditions (dated November 12, 2020, as may be periodically amended); the Hollings Manufacturing Extension Partnership General Terms and Conditions (dated August 2017 as may be periodically

amended) (“MEP General Terms and Conditions”) (https://www.nist.gov/system/files/documents/2018/05/08/fy17-18_nist_mep_general_terms_conditions_final_july2017.pdf); any specific award conditions imposed by NIST on a case-by-case basis; and the center’s approved plans (approved funding proposal/scope of work and multi-year budgets for the audit period). These documents are incorporated by reference into the nonfederal entity’s Financial Assistance Form CD-450 (*US Department of Commerce Financial Assistance Award*), which functions as the cooperative agreement. If NIST approves any amendments to the award, including any changes to these documents incorporated by reference, NIST will document this amendment with a CD-451 form (*US Department of Commerce Amendment to Financial Assistance Award*) or an administrative change letter. It important to note that a nonfederal entity may be involved in manufacturing extension services beyond the scope of its cooperative agreement with NIST. These base cooperative agreements are typically for a five-year period, with the possibility of a noncompetitive renewal for another five-year award. However, these multi-year awards are funded in yearly allotments, with annual funding contingent upon the continued availability of funds, satisfactory performance, and the continued relevance of the base cooperative agreement to program objectives and is at the sole discretion of the Department of Commerce. At the time that NIST approves a nonfederal entity for a noncompetitive annual renewal of funding, NIST will approve any revisions to the nonfederal entity’s plans, and budget for the upcoming annual funding period. This approved budget, subject to any budget modifications approved by NIST, is binding on the nonfederal entity and should be used in conjunction with this compliance supplement to determine the allowability of costs, as documented in the center’s Single-Year Budget Workbook and Five-Year Budget Summary Table for the audit period.

Except as otherwise provided in the applicable award documentation, base cooperative agreements to create and support Centers require nonfederal matching funds. See 15 USC 278k(e)(2). The center’s approved Single-Year Budget Workbook and Five-Year Budget Summary Table indicate the total amount of nonfederal cost share required for the funding period, as well as the source, amount, and nature of each contribution. Typically, nonfederal cost share contributions comprise a mix of cash and in-kind contributions from the nonfederal entity, subawardees, and third parties such as state agencies and municipalities as well as program income. Program income is primarily generated from fees collected from manufacturers to partially offset the cost of providing manufacturing extension services under the program. Program income may also include revenue, such as but not limited to, registration fees for training programs offered by the center, fees for equipment rentals, and licensing fees or royalties on patents.

These base cooperative agreements permit the nonfederal entity to make subawards to accomplish all or part of the approved plans. Any permissible subawards will be shown in the center’s approved Single-Year Budget Workbook. The terms and conditions of each base cooperative agreement flow down to subawards as well unless a particular section of 2 CFR Part 200 or the terms and conditions of the base cooperative agreement specifically indicate otherwise. Each center that issues subawards must ensure that every subaward is clearly identified to the subrecipient as a subaward and includes all the required information at the time of the subaward per 2 CFR section 200.332(a). In

addition, each center that issues subawards must comply with the subrecipient monitoring and management standards for pass-through entities as described in 2 CFR sections 200.331–200.333 (see also MEP General Terms and Conditions, #11).

B. Cooperative Agreements to Solve New or Emerging Manufacturing Problems

In addition to base cooperative agreements to create and support centers, NIST disburses additional program funds or funding from the CAP, per 15 USC 278k-1, to existing Centers, or consortia of Centers, in the form of cooperative agreements for projects to solve new or emerging manufacturing problems as determined by the NIST director, in consultation with the director, the MEP Advisory Board, other federal agencies, and small and medium-sized manufacturers (“competitive awards”) and specified in the applicable NOFO. These cooperative agreements are subject to, and administered in accordance with, 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the Department of Commerce Financial Assistance Terms and Conditions, any specific award conditions imposed by NIST on a case-by-case basis, and all requirements listed in the NOFO that governs the project for which the center or consortium of centers was selected. These cooperative agreements are *not* subject to the MEP General Terms and Conditions; there is no expectation that program income will be generated under these awards. However, if program income is generated, it is subject to all the provisions of 2 CFR Part 200 and must be used to further the purposes of the project from which it was generated. There is also no requirement to provide matching contributions. The period of performance varies for each award but may not exceed three years. Any permissible subawards will be shown in the approved project budget, which shall be attached to, or incorporated by reference in, the CD-450 (*US Department of Commerce Financial Assistance Award*), which functions as the cooperative agreement. The terms and conditions of each cooperative agreement apply (i.e., flow down) to subawards as well, unless a particular section of 2 CFR Part 200 or the terms and conditions of the cooperative agreement specifically indicate otherwise.

C. Cooperative Agreements for Disaster Assessment

In response to Major or Emergency Disaster Declarations by the Federal Emergency Management agency (FEMA Disaster Declaration), the NIST MEP Program awards cooperative agreements to existing NIST MEP Centers’ pursuant to the authorities provided by 15 USC 278k-1 and the MEP Disaster Assessment Program (MDAP). These cooperative agreements are subject to, and administered in accordance with, 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the Department of Commerce Financial Assistance Terms and Conditions, any specific award conditions imposed by NIST on a case-by-case basis, and all requirements listed in the NOFO that governs the project for which the center or consortium of Centers was selected. There is no expectation that program income will be generated under these awards. However, if program income is generated, it is subject to all the provisions of 2 CFR Part 200 and must be used to further the purposes of the project from which it was generated. There is also no requirement to provide matching contributions. The period of performance varies for each award but may not exceed 18

months, unless otherwise extended in writing by the NIST Grants Officer during the term of a project. Any permissible subawards will be shown in the approved project budget, which shall be attached to, or incorporated by reference in, the CD-450 (*US Department of Commerce Financial Assistance Award*), which functions as the cooperative agreement. The terms and conditions of each cooperative agreement apply (i.e., flow down) to subawards as well, unless a particular section of 2 CFR Part 200 or the terms and conditions of the cooperative agreement specifically indicate otherwise.

Source of Governing Requirements

The Hollings Manufacturing Extension Partnership Program is authorized by 15 USC 278k. Implementing regulations are set forth in 15 CFR Part 290. The MEP CAP and MEP MDAP are authorized by 15 USC 278k-1.

Availability of Other Program Information

Other program information is available on NIST’s MEP webpage at <https://www.nist.gov/mep>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	Y	N	N	Y	Y	Y	N

A. Activities Allowed or Unallowed1. *Activities Allowed*

- a. For base cooperative agreements to create and support centers, the center's approved plans will specify the type of activities permitted under the award. Each subaward will specify the types of activities permitted under the subaward, which must be consistent with the center's approved plans but may be only a subset of those activities outlined in the center's approved plans. In any case, all activities will fit broadly into the following types of activities:

- (1) The establishment of automated manufacturing systems and other advanced production technologies, based on NIST-supported research, for the purpose of demonstrations and technology transfer (15 USC 278k(d)(1));
- (2) The active transfer and dissemination of research findings and center expertise to a wide range of companies and enterprises (15 USC 278k(d)(2)), particularly small and medium-sized manufacturers; and
- (3) The facilitation of collaborations and partnerships between small and medium-sized manufacturing companies, community colleges, and area career and technical education schools, to help those entities better understand the specific needs of manufacturers and to help manufacturers better understand the skill sets that students learn in the programs offered by such colleges and schools (15 USC 278k(d)(3)).

- b. Cooperative Agreements to Solve New or Emerging Manufacturing Problems

The types of activities permitted under the award will be specified in the applicable NOFO and in the terms and conditions of each cooperative agreement.

- c. Cooperative Agreements for Disaster Assessment

The types of activities permitted under the award will be specified in the applicable NOFO and in the terms and conditions of each cooperative agreement.

B. Allowable Costs/Cost Principles

1. For base and cooperative agreements to create and support Centers, allowable costs, including prior approval requirements for certain costs, are determined in

accordance with 2 CFR Part 200, the Department of Commerce Standard Financial Assistance Terms and Conditions; the MEP General Terms and Conditions; and any specific award conditions imposed by NIST on a case-by-case basis and must be consistent with the approved project budget.

2. For cooperative agreements to solve new or emerging manufacturing problems, allowable costs, including prior approval requirements for certain costs, are determined in accordance with 2 CFR Part 200, the Department of Commerce Standard Financial Assistance Terms and Conditions; any specific award conditions imposed by NIST on a case-by-case basis and must be consistent with the approved project budget.
3. For cooperative agreements to identify and assess the impacts to small and medium manufacturers affected by natural or other disasters, allowable costs, including prior approval requirements for certain costs, are determined in accordance with 2 CFR Part 200, the Department of Commerce Standard Financial Assistance Terms and Conditions; any specific award conditions imposed by NIST on a case-by-case basis and must be consistent with the approved project budget.

C. Cash Management

1. *Grants and Cooperative Agreements to States*
Applicable
2. *Grants and Cooperative Agreements to non-Federal Entities Other Than States*
Applicable
3. *Cost-reimbursement Contracts under the Federal Acquisition Regulation*
Applicable
4. *Loans, Loans Guarantees, Interest Subsidies, and Insurance*
Not applicable
5. *All Pass-Through Entities*
Applicable

G. Matching, Level of Effort, Earmarking

1. Matching

- a. Base Cooperative Agreements to Create and Support Centers

Amounts provided by the Consolidated Appropriations Act, 2022 (Pub. L. No. 117-103) for the Hollings Manufacturing Extension Partnership under the heading “National Institute of Standards and Technology--Industrial Technology Services” shall not be subject to cost share requirements under 15 USC 278k(e)(2): Provided, that the authority made available pursuant to this section shall be elective for any Manufacturing Extension Partnership Center that also receives funding from a state that is conditioned upon the application of a federal cost sharing requirement. However, any nonfederal matching share pledged as voluntary cost share that is shown in the center’s approved budget for the audit period supersedes the cost share relief provided by Consolidated Appropriations Act, 2022 (Pub. L. No. 117-103) and is binding on the nonfederal entity (see MEP General Terms and Conditions, #10).

Contractors and MEP center clients may not provide any form of the center’s cost share without the prior written approval of the NIST grants officer (see MEP General Terms and Conditions, #10A).

The time spent by the center’s manufacturing clients on technical assistance projects may not be considered in-kind cost share without the prior written approval of the NIST grants officer (see MEP General Terms and Conditions, #10A).

Nonfederal cost share contributions by subrecipients must comply with the allowability and documentation requirements set forth in 2 CFR section 200.306 and with the record access and record retention requirements set forth in 2 CFR sections 200.337(a) and 200.334. At a minimum, the following documents should be maintained by the center and made available in the event of an audit: Subaward Agreement with detailed budget; documentation to support valuation of nonfederal cost share being contributed by the subrecipient; and Subrecipient Financial Reporting to the Non-Federal Entity (see MEP General Terms and Conditions, #10D).

b. Cooperative Agreements to Solve New or Emerging Manufacturing Problems

Nonfederal entities are not required to provide matching contributions – unless otherwise required by the terms and conditions of a specific award.

c. Cooperative Agreements for Disaster Assessment

Not applicable to this award, unless the recipient pledged “voluntary committed cost sharing” (as defined in 2 CFR section 200.1) for this project, which is reflected in the approved budget for this award.

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

J. Program Income**1. *Base Cooperative Agreements to Create and Support Centers***

a. In accordance with 2 CFR section 200.307 and the below referenced MEP general terms and conditions. Program income earned by the nonfederal entity during the project period shall be retained by the nonfederal entity and shall be used by the nonfederal entity in the following order of priority during the funding period:

- (1) First, to finance the nonfederal share of the project (MEP General Terms and Conditions, #12.B.1). This amount is not included on the Schedule of Expenditures for Federal Awards (SEFA);
- (2) Second, all program income earned in excess of that required to meet the minimum nonfederal share shall be added to the funds committed to the project by MEP and the nonfederal entity and must be used for the purposes and under the conditions of the MEP award (commonly referred to as the “additive approach”). Program income to be expended under the additive approach must be explained in detail in the center’s approved plans or in a separate written communication to the NIST grants officer and is subject to the prior written approval of the NIST grants officer (MEP General Terms and Conditions, #12.B.2). This amount is included on the SEFA; and
- (3) Third, any remaining unexpended program income shall be deducted from the total allowable project costs to determine the net allowable program costs upon which the federal share of project costs is based, in accordance with written instructions from the NIST grants officer (commonly referred to as the “deductive approach”) (MEP General Terms and Conditions, #12.B.3). This amount is not included on the SEFA.

b. Program income earned by a subrecipient during the project period shall be retained by the subrecipient and shall be used by the subrecipient in the following order of priority during the funding period:

- (1) First, to finance the nonfederal share of the subaward (MEP General Terms and Conditions, #12.C.1). This amount is not included on the SEFA;
 - (2) Second, all program income earned in excess of that required to meet the minimum nonfederal share shall be added to the federal and nonfederal funds committed to the subaward and must be used for the purposes and under the conditions of the MEP award as set forth in the terms of the subaward (commonly referred to as the “additive approach”). Program income to be expended under the additive approach must be explained in detail in the center’s approved plans or in a separate written communication to the NIST grants officer and is subject to the prior written approval of the NIST grants officer (MEP General Terms and Conditions, #12.C.2). This amount is included on the SEFA; and
 - (3) Third, any remaining program income generated by a subrecipient must be remitted to the nonfederal entity by the subrecipient and shall be deducted from the total allowable project costs to determine the net allowable program costs upon which the federal share of project costs is based, in accordance with written instructions from the NIST grants officer (commonly referred to as the “deductive approach”) (see MEP General Terms and Conditions, #12.C.3). This amount is not included on the SEFA.
- c. Program income in excess of what is required annually to meet the nonfederal portion of the annual operating budget, and that cannot be expended during the operating period using either the additive and/or deductive approaches during the operating period, may be carried over by the center to the subsequent funding period if approved in writing by the NIST grants officer. Upon close-out of a MEP award, the NIST grants officer will provide the nonfederal entity with closeout instructions, including instructions regarding the disposition of program income (*see* MEP General Terms and Conditions, #12.H).
 - d. Costs incidental to the generation of program income may be deducted from gross income to determine program income, provided these costs have not been charged to the award (MEP General Terms and Conditions, #12.E).
2. *Cooperative Agreements to Solve New or Emerging Manufacturing Problems*

There is no expectation that program income will be generated under these awards. If program income is generated, in accordance with 2 CFR section 200.307, it must be expended for the purposes and under the conditions of the subject award (commonly referred to as the “additive approach”), with any remaining unexpended program income being deducted from the total allowable

project costs to determine the net allowable program costs upon which the federal share of project costs is based.

3. *Cooperative Agreements for Disaster Assessment*

There is no expectation that program income will be generated under these awards. If program income is generated, in accordance with 2 CFR section 200.307, it must be expended for the purposed and under conditions of the subject award (commonly referred to as the “additive approach”), with any excess program income to be disposed of pursuant to the “deductive method” (see 2 CFR section 200.307).

L. Reporting

The following reporting requirements described in Section A.01 Reporting Requirements of the Department of Commerce Financial Assistance Standard Terms and Conditions, apply to awards in this program.

1. Base Cooperative Agreements to Create and Support Centers

a. Financial Reporting

SF-425, Federal Financial Report – Applicable

The recipient shall submit an SF-425, Federal Financial Report, into the MEP’s Enterprise Information System (MEIS) on a semi-annual basis after the sixth and twelfth month of each operating year, unless other reporting intervals and/or due dates are identified by the NIST grants officer pursuant to a specific award condition. Reports will be due within 30 days after the end of each semi-annual reporting period. The recipient shall submit a final SF-425 within 90 days after the expiration date of the award. Recipients of new awards and funded award amendments issued by NIST after November 12, 2020, shall submit a final SF-425 within 120 days after the expiration date of the award.

b. Performance Reporting

Not Applicable

2. Cooperative Agreements to Solve New or Emerging Manufacturing Problems

a. Financial Reporting

SF-425, Federal Financial Report – Applicable

The recipient shall submit an SF-425, Federal Financial Report, into the MEIS on a semi-annual basis after the sixth and twelfth month of each operating year, unless other reporting intervals and/or due dates are

identified by the NIST grants officer pursuant to a specific award condition. Reports will be due within 30 days after the end of each semi-annual reporting period. The recipient shall submit a final SF-425 within 90 days after the expiration date of the award. Recipients of new awards and funded award amendments issued by NIST after November 12, 2020, shall submit a final SF-425 within 120 days after the expiration date of the award.

b. Performance Reporting

Not Applicable

3. Cooperative Agreements for Disaster Assessment

a. Financial Reporting

SF-425, Federal Financial Report – Applicable

The recipient shall submit an SF-425, Federal Financial Report, into the MEIS on a quarterly basis, unless other reporting intervals and/or due dates are identified by the NIST grants officer pursuant to a specific award condition. Reports will be due within 30 days after the end of each reporting period. The recipient shall submit a final SF-425 within 90 days after the expiration date of the award. Recipients of new awards and funded award amendments issued by NIST after November 12, 2020, shall submit a final SF-425 within 120 days after the expiration date of the award.

b. Performance Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

5. Special Reporting

Not applicable, unless otherwise specified in the terms and conditions of an award.

DEPARTMENT OF DEFENSE

ASSISTANCE LISTING 12.400 NATIONAL GUARD MILITARY CONSTRUCTION PROJECTS

I. PROGRAM OBJECTIVES

The National Guard Bureau (NGB) enters into Military Construction Cooperative Agreements (MCCA) with the 50 states, District of Columbia, Commonwealth of Puerto Rico, the Virgin Islands, and Guam (grantees) to provide support to the Army National Guard (ARNG) and Air National Guard (ANG) for the construction of military facilities, real property improvements, design services, and other projects authorized and directed by Congress or the Department of Defense to be performed by the grantees and the NGB.

II. PROGRAM PROCEDURES

The Adjutant General (TAG) of the state military department and the United States Property & Fiscal Officer (USPFO) are responsible for the execution of the MCCA and other allowed projects to support the training and operations of their respective National Guard units. Policy and administrative procedures to be followed in the execution and funding of an MCCA are contained in National Guard Regulation 5-1, National Guard Grants and Cooperative Agreements, chapters 1 and 3.

An MCCA consists of four parts: the articles of agreement and three technical appendices. Articles I–XIII include standard terms and conditions applicable to the MCCA. The technical appendices provide specific information such as project description, scope, statement of work, and finance and budget plans.

ARNG MCCA technical appendices are titled differently from ANG MCCA technical appendices. ARNG budget and funding information is contained in Appendix SC. ANG finance and budget information is contained in the project design appendix.

The total amount of federal funding for MCCA projects is shown in the applicable technical appendix. Reimbursements to a grantee for an MCCA project or projects may not exceed the amount(s) approved by NGB, which includes any authorized/executed modifications to the original project amount.

Source of Governing Requirements

The NGB is authorized to enter into MCCAs under (1) 32 USC National Guard, Chapter 1, Organization; (2) 32 USC 101 (19); (3) 32 USC 106 and 107, which authorize the NGB to contribute funds for the support of the operations and training of the ARNG/ANG; and (4) NGR 5-1, National Guard Grants and Cooperative Agreements. Federal contribution is authorized by 10 USC 18233 and 18236, and DoD Instruction (DoDI) 1225.08 (10 May 2016) Enclosure 5.

Availability of Other Program Information

The National Guard Internal Review Office in each state and territory (which reports to the USPFO) can provide information about risk assessments and audits performed by their office, which may be helpful in planning the audit. Contact Mr. Derrick Miller, National Guard Bureau Internal Review Office, at (703) 607-0755, DSN 327-0755 or email derrick.e.miller.civ@mail.mil for information on the Internal Review Office for a particular state.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	Y	Y	Y	N	Y	N	N

A. Activities Allowed or Unallowed

Allowable activities are those designated as authorized in the appendices of the MCCA.

B. Allowable Costs/Cost Principles

1. Allowable costs under MCCAs are stated in NGR 5-1, Chapter 5, Paragraph 5-3 and the terms and conditions of the MCCA.

2. Indirect costs are unallowable except as stated in NGR 5-1, Chapter 5, Paragraph 5-3b.

G. Matching, Level of Effort, Earmarking

1. Matching

- a. Grantee match is specified in the project design finance plan section of the ANG MCCA technical appendix and in the project construction budget section of the ARNG MCCA technical appendix.
- b. Whenever the USPFO provides “in-kind” assistance the grantee is still required to provide its required match based on the combined value of the NGB funding and the value of the in-kind assistance (NGR 5-1, Chapter 9, Paragraph 9-2).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

H. Period of Performance

1. Federal MCCA design and construction funds are available for a period of up to five years and must be obligated within five years from the execution date of the MCCA or within the period of funds availability specified in the agreement.
2. Within 90 days of final completion of the project (execution date of the NGB Form 593-R, Project Inspection Report, by the state and the USPFO), or upon termination of the MCCA, whichever comes earlier, the grantee shall promptly deliver to NGB a full and final accounting liquidating all payments or reimbursements under the MCCA. Costs incurred for performance of the project which are not disclosed by the grantee within 90 days of the final completion of the project shall not be eligible for reimbursement. This excludes costs reserved for unliquidated claims or undisbursed obligations arising from the grantee’s performance of the MCCA; however, the grantee shall provide a good faith estimate of the total amount of unliquidated claims and undisbursed obligations. At its sole discretion, NGB acting through its grants officer—the USPFO—may extend the 90-day limit for good cause (NGR 5-1, Chapter 11, Paragraph 11-10).
3. An MCCA shall be executed by the USPFO and the TAG prior to any request for reimbursement or advance payment. However, pre-award costs may be authorized as provided in the MCCA (MCCA Article III, section 305d).

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF DEFENSE

ASSISTANCE LISTING 12.401 NATIONAL GUARD MILITARY OPERATIONS AND MAINTENANCE (O&M) PROJECTS

I. PROGRAM OBJECTIVES

The National Guard Bureau (NGB) enters into cooperative agreements (CA) with the 50 states, District of Columbia, Commonwealth of Puerto Rico, the Virgin Islands, and Guam (recipients) to provide support to the Army and Air National Guard (ARNG/ANG) in minor construction, maintenance, repair, or operation of facilities, and mission operational support to be performed by recipients as authorized by NGB through operations and maintenance (O&M) appropriated funding.

II. PROGRAM PROCEDURES

NGB uses a CA as the means of providing financial assistance and other support to recipients for the operation of the NGB program in the recipient's jurisdiction, except for financial assistance and support provided under separate authority (e.g., military and technician pay and the military supply system). Recipients enter into a Master Cooperative Agreement (MCA) with the NGB. Generally, an MCA consists of two parts: (1) the agreement and (2) the appendices. The agreement includes the standard terms and conditions applicable to all appendices. The appendices contain the terms and conditions, policy, administrative procedures, scope of work, authorized and unauthorized activities/charges, budget information, funding limitations, and agreement particulars applicable to that functional area (e.g., real property operations and maintenance, security guard activities). Funding for the CA is identified in each of the appendices to the MCA. The total sum of federal reimbursements to the recipient for an MCA appendix may not exceed the approved funding limits identified in the funding limitation section of the appendix.

The Adjutant General (TAG) of the state military department and the United States Property & Fiscal Officer (USPFO) are responsible for the execution of the MCA and appendices.

Source of Governing Requirements

The NGB and recipients are authorized to enter into CAs under (1) 31 USC, Subtitle V, General Assistance Administration, Chapter 63, Using Procurement Contracts and Grant and Cooperative Agreements; (2) 31 USC Subtitle V, General Assistance Administration, Chapter 61, Program Information, and Chapter 65, Intergovernmental Cooperation; (3) 32 USC National Guard, Chapter 1, Organization; (4) 32 USC 101(19); (5) 32 USC 106 and 107, which authorize NGB to contribute funds for the support of the operation/training of the ARNG/ANG. Policies and procedures to be followed for CAs with recipients are contained in the National Guard Grants and Cooperative Agreements Regulation, NGR 5-1, and, for facilities and engineering projects, in NG Pamphlet 420-10, Construction and Facilities Management Office Procedures (July 18, 2003), which is available at <https://www.ngbpmc.ng.mil/Portals/27/Publications/NGPAM/ngpam%20420-10.pdf?ver=2018-09-07-082536-157>.

Availability of Other Program Information

The NGB Internal Review Office in each state and territory (which reports to the USPFO) can provide information about risk assessments and audits performed by their office, which may be helpful in planning the audit. Contact Derrick Miller, NGB Headquarters Internal Review Office, at (703) 607-0755, DSN 327-0755, or email to derrick.e.miller.civ@mail.mil for information on the Internal Review Office for a particular state.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	Y	Y	N	N	Y	N	N

A. Activities Allowed or Unallowed

1. Allowable activities for each appendix are those designated as authorized in the template for that appendix or for facilities for which support is authorized, listed in the Facilities Inventory and Support Plan (FISP) (National Guard Pamphlet 420-10, Chapter 2, and Article III of the MCA).
2. Unallowable activities are those listed in the unauthorized activities/charges section of each individual appendix.

B. Allowable Costs/Cost Principles

1. Indirect costs, except fringe benefits, are unallowable (NGR 5-1, Chapter 5).
2. Individual employee compensation comprises a significant portion of total costs charged to CA appendices. The auditor should give particular attention to the allocability of these costs. The distribution of individual employee compensation to projects must follow applicable federal cost principles, NGR 5-1, and the terms and conditions of the MCA and in each particular appendix. Therefore, the auditor's testing should include tests of the time and effort reporting system to support the distribution of compensation costs (NGR 5-1, Chapter 5).
3. States bill directly for the cost of premiums or self-insurance (e.g., unemployment, workers compensation). The amount billed for "insurance" is based on the proportion of state employees who work under NGB-funded appendices. The amount billed for retirement benefits is based on the wages of each employee working under NGB-funded appendices. In each case, those costs are adjusted by the federal-state share of federal support (e.g., training areas are 100 percent federally supported, armories are 50-50 federal-state shared).

However, for these costs to be reimbursable, all the requirements of NGR 5-1, Chapter 5 have to be met (NGR 5-1, Chapter 5):

- a. The individual cost items have to be reimbursable under the terms of individual appendices.
- b. Fringe benefit costs for which the state does not bill the state military department directly shall be reimbursable by applying a fringe benefit rate to the costs of actual salaries paid to employees.
- c. Fringe benefits, which are neither direct costs nor included in the billed central services section of the state's Central Service Cost Allocation Plan (CSCAP) approved by the Department of Health and Human Services (HHS), are not reimbursable.

G. Matching, Level of Effort, Earmarking**1. Matching**

- a. The recipient's required matching percentage varies by appendix and is listed in the Funding Limitation section of each MCA appendix. The NGB share of all authorized charges for real property, unless expressly stated elsewhere in the appendix, is based on the FISP support code for the facility generating the expenditure. For example, the NGB share of employee, repair, supply, equipment, utility, and other costs directly and exclusively associated with a facility that is authorized 75 percent federal support is 75 percent. NGB participation in costs generated for facilities authorized at several different support levels will be at a rate that reflects

the actual level of effort but not to exceed 25 percent of such costs (NG Pamphlet 420-10, Chapter 5).

- b. Whenever the USPFO provides “in-kind” assistance, the CA provides the value for that assistance, which is added to NGB funds received to determine the total amount on which the recipient’s share is calculated.
- c. The federal share of program income may not be used to meet a matching requirement (NGR 5-1, Chapter 6).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

H. Period of Performance

1. NGB O&M CAs are funded with one-year appropriations. By policy, only state costs obligated during the period of the federal fiscal year or period of performance identified in the CA are reimbursable. Allowable state costs obligated after 30 September (e.g., 2018) are reimbursable with federal funds appropriated for the following fiscal year’s CA (e.g., fiscal year 2019). Whether and when state funds are properly obligated is determined by state law or procedure (NGR 5-1, chapters 3 and 11).
2. A CA shall be executed by the USPFO and the TAG prior to any request for reimbursement or advance payment. The recipient shall also have an approved appendix covering each functional area for which the reimbursement or an advance is requested. The recipient shall not request reimbursement for any expenditure it made before the date that all required parties execute the MCA unless the USPFO expressly authorizes expenditures made during the funding period, but prior to the date of final signature, the parties may also agree on a specific start or effective date (NGR 5-1, Chapter 11).
3. Within 90 days after the end of the federal fiscal year or upon termination of the CA, whichever is earlier, the recipient shall promptly deliver to the USPFO a final accounting of all funding and disbursements under the agreement for the fiscal year (NGR 5-1, Chapter 11).
4. If unliquidated claims and undisbursed obligations arising from the recipient’s performance of the CA will remain 90 days after the close of the federal fiscal year, the recipient shall provide a detailed listing of uncleared obligations and a projected timetable for their liquidation and disbursement no later than 31 December. The USPFO shall then set an appropriate new timetable for the recipient to submit its final accounting (NGR 5-1, Chapter 11).

5. Costs incurred in a federal fiscal year, which are not disclosed by the recipient within 90 days of the end of the federal fiscal year, except costs associated with unliquidated claims and undisbursed obligations arising from the recipient's performance of the CA that the recipient has reported, shall not be eligible for reimbursement by NGB. The USPFO may extend the 90-day limit for good cause shown (NGR 5-1, Chapter 11).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.157 SUPPORTIVE HOUSING FOR THE ELDERLY
(SECTION 202)****I. PROGRAM OBJECTIVES**

The objective of Supportive Housing for the Elderly Program is to provide federal capital advances and project rental assistance under Section 202 of the National Housing Act of 1959 for development of housing projects serving very low-income elderly persons.

II. PROGRAM PROCEDURES**A. Overview**

Section 202 funds are awarded to private nonprofit groups (sponsors) and, in some cases, for-profit limited partnerships, provided that the sole general partner is either an otherwise qualifying nonprofit or a corporation wholly owned and controlled by the nonprofit. Only a sponsor may obtain a Section 202 capital advance fund reservation, which will be transferred to an owner entity to be organized by the sponsor after award. Capital advances (direct payments) are provided to finance the construction, reconstruction, moderate or substantial rehabilitation, or acquisition (with or without rehabilitation) of structures that will serve as supportive housing for very low-income elderly persons, including the frail elderly. Operating subsidies are provided for the projects to help make them affordable.

The capital advance is not required to be repaid as long as the project is available to very low-income elderly for 40 years. Capital advance funds will be advanced on a monthly basis during construction for work in progress; however, projects that utilize tax credits may release the capital advance upon completion of the project. Projects are expected to start construction/rehabilitation within 18 months of the date of the fund reservation, with limited provision for extensions.

Project-based rental assistance is provided under a Project Rental Assistance Contract (PRAC) and is calculated based on operating cost standards established by HUD. The initial PRAC term is one year. Subsequent contracts are renewable annually for up to a one-year term subject to the availability of funds.

This program is exempt from 2 CFR part 200, except subpart F and 2 CFR section 200.425, based on the 24 CFR section 84.2 definition of "Award," and 2 CFR section 200.40 definition of "federal financial assistance."

B. Financial Reporting

In accordance with HUD's Uniform Financial Reporting Standards rule, annually, an owner is required to submit a financial statement, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. The unaudited financial statement is due three months after the owner's fiscal year end and

the audited financial statement is due nine months after its fiscal year end (24 CFR section 5.801) The financial statement must include the financial activities of this program.

C. Cost Certifications

Owners are required to submit one or two detailed cost certifications at the end of each project. These reports provide information on actual development cost breakdown and operating costs. The reports are HUD-92330, Mortgagor's Certificate of Actual Costs (OMB No. 2502-0112) and HUD-92330-A, Contractor's Certificate of Actual Costs (OMB No. 2502-0044). The HUD-92330-A is only required when there is an identity of interest between the mortgagor and the general contractor and when a cost-plus contract is required in nonprofit contracts.

Source of Governing Requirements

This program is authorized under Section 202 of the Housing Act of 1959, as amended (12 USC 1701q). Program regulations are in 24 CFR part 891.

Availability of Other Program Information

Other information about the Section 202 program, can be found in Supportive Housing for the Elderly (HUD Handbook 4571.3), Supportive Housing for the Elderly—Conditional Commitment—Final (HUD Handbook 4571.5), HUD Notice H96-102, and HUD Notice 2011-18, Updated Processing Guidance for the Section 202 Supportive Housing for the Elderly and Section 811 Supportive Housing for Persons with Disabilities Programs. These are available at HUD's Client Information Policy Systems (HUDCLIPS) https://www.hud.gov/program_offices/administration/hudclips or from the HUD Multifamily Clearinghouse at 1-800-685-8470.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as "N," it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an "N." See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment/Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement Suspension & Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	N	N	N	N	N	Y	N	Y

A. Activities Allowed or Unallowed

1. The project shall provide the necessary services for the occupants, which may include, but not limited to, health, continuing education, welfare, informational, recreational, homemaking, meal and nutritional services, counseling, and referral services as well as transportation where necessary to facilitate access to these services. (12 USC 1701q; 24 CFR sections 891.225 and 891.500).
2. PRAC project funds may be used only for expenses that are reasonable and necessary to the operation of the project as provided for in the Regulatory Agreement between HUD and the project owner.
3. Project facilities may not include infirmaries, nursing stations, or spaces for overnight care (24 CFR section 891.220).
4. Project must be modest in design. In supportive housing for the elderly, amenities not eligible for HUD funding in individual units include balconies and decks, atriums, bowling alleys, swimming pools, saunas, Jacuzzis, trash compactors, washers, and dryers. Sponsors may include certain excess amenities but must pay for them from sources other than Section 202 capital advance funds. They must also pay for the continuing operating costs associated with any excess amenities from sources other than the Section 202 project rental assistance contract (24 CFR section 891.120).

E. Eligibility

1. Eligibility for Individuals

Section 202 (CFDA 14.157) of the Housing Act of 1959 provides housing for the elderly. To qualify as elderly, one or more members of the household must be 62 years of age or more at the time of initial occupancy. Residents must also qualify as very low-income households to be eligible (24 CFR section 891.205).

The owner, as applicable, must:

- a. Verify the eligibility of applicants by (a) obtaining signed applications that contain the information needed to determine eligibility (including designation as elderly, disabled, or homeless, if applicable), income, rent, and order of selection; (b) conducting verifications of family income and other pertinent information (such as assets, full time student and immigration status, and unusual medical expenses) through third parties; (c) documenting inspections and tenant certifications, as appropriate; and, (d) determining that tenant income did not exceed the maximum limit set by HUD for the PHA's jurisdiction, as shown in HUD's published notice transmitting the Limits for Low-Income and Very Low-Income Families Under the Housing Act of 1937.
- b. Determine the total tenant rent payment in accordance with 24 CFR section 5.628.
- c. Select participants from the waiting list in accordance with the admission policies in its administrative plan and maintain documentation which shows that, at the time of admission, the family actually met the preference criteria that determined the family's place on the waiting list.
- d. Reexamine family income and composition at least once every 12 months and adjust the total rent payment and housing assistance payment, as necessary (24 CFR sections 891.410).

The owner is responsible for annually reexamining incomes of households occupying assisted units and making appropriate adjustments to the tenant payment and the project rental assistance payment (24 CFR section 891.410). Assistance applicants shall submit signed consent forms upon initial application and at reexamination (24 CFR section 5.230).

2. Eligibility of Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable

- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable

2. Performance Reporting

Not Applicable.

3. Special Reporting

Not Applicable

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements All laborers and mechanics (other than volunteers under the conditions set out in 24 CFR part 70) employed by contractors and subcontractors in the construction (including rehabilitation) of housing with 12 or more units assisted under this program shall be paid wages at rates not less than those prevailing in the locality, as determined by the secretary of labor in accordance with the Wage Rate Requirements. A group home for persons with disabilities is not covered by these labor standards (24 CFR section 891.155(d)).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Use of Project Funds

Compliance Requirements Owners are required to establish and maintain a separate project account in federally insured depository. All rents, charges, income, and revenues arising from the project operation shall be deposited into this account. Project funds must be used for the operation of the project (including required insurance coverage) and to make required deposits to replacement reserve and the residual receipts accounts (24 CFR sections 891.400(e) and 891.600(e)).

Audit Objectives Determine whether the project fund was properly established, required deposits were made into this fund, and disbursements were only for allowed purposes.

Suggested Audit Procedures

- a. Ascertain if the project funds receipts account has been established in a federally insured depository.
- b. Perform tests to ascertain if all rents, charges, income, and revenues arising from the project operation were deposited into the fund.

- c. Test a sample of disbursements from the fund ascertain if they were used only for the operation of the project or to make required deposits to the replacement reserve or the residual receipts account.

3. Replacement Reserve

Compliance Requirements Owners shall establish and maintain a replacement reserve to aid in funding extraordinary maintenance and repair and replacement of capital items. The replacement reserve funds must be deposited in a federally insured depository in an interest-bearing account. All earnings including interest on the reserve must be added to the reserve. An amount as required by HUD will be deposited monthly in the reserve fund (Regulatory Agreement, item 5 A). All disbursements from the reserve must be approved by HUD (24 CFR sections 891.405 and 891.605).

Audit Objectives Determine whether the replacement reserve was properly established, required monthly deposits were made, and disbursements were only for HUD approved purposes.

Suggested Audit Procedures

- a. Ascertain if a replacement reserve account has been established in a federally insured depository in an interest-bearing account.
- b. Ascertain if the required monthly deposits have been made to the replacement reserve account.
- c. Ascertain if interest earnings from the reserve were retained in the replacement reserve account.
- d. Test a sample of disbursements from the replacement reserve account and ascertain if they were approved by HUD and were made for the approved purpose.

4. Residual Receipts Account

Compliance Requirements Any Surplus Cash in the project funds account (including earned interest) at the end of the fiscal year shall be deposited in a federally insured account within 90 days following the end of the fiscal year. Withdrawals from this account may be made only for project purposes and with the approval of HUD (24 CFR sections 891.400(e) and 891.600(e)).

Audit Objectives Determine whether the residual receipts account was properly established, the required deposit was made within 90 days following year-end, and disbursements were only for project purposes and the approval of HUD.

Suggested Audit Procedures

- a. Ascertain if residual receipts account has been established in a federally insured depository.
- b. Ascertain if the required annual deposit was made within 90 days following year-end.
- c. Test a sample of disbursements from the residual receipts account and ascertain if they were used for project purposes and approved by HUD.

IV. OTHER INFORMATION

1. *Capital Advance*

To protect its interest in a capital advance, HUD requires a note and mortgage for a 40-year term. The owner is not required to repay the principal or pay interest and the note is forgiven at maturity, as long as the owner provides housing for the designated class of people in accordance with applicable HUD requirements. However, the full outstanding balance on the note should be considered federal awards expended, included in determining Type A programs, and reported as loans on the Schedule of Expenditures of Federal Awards or accompanying notes in accordance with 2 CFR part 200, subpart F.

2. *CARES Act Funding*

Housing Notices 2020-08, 2020-11, 2021-01, 2021-05 announced the availability of supplemental operating funds for Section 8, Section 202, and Section 811 properties to prevent, prepare for, and respond to coronavirus disease discovered in 2019 (COVID-19) and establishes an application process for owners of properties assisted under these programs to request funds for one or more of these purposes.

Amounts received from COVID-19 Supplemental Payments (CSP) shall be treated as project funds and must be managed consistent with other rental assistance provided by HUD under the applicable HAP, PRAC, SPRAC or PAC contract. CSP funds should be deposited into the project's general operating account (account 1120 on the Balance Sheet) and recorded as Special Claims Revenue (account 5193). The owner should ensure that a footnote in the *Notes to the unaudited and audited Annual Financial Statements* states how much was received and how it was used. Award amounts received from CSP must be included in the Schedule of Expenditures of Federal Awards (SEFA) for the year. Any deposit of surplus cash in the project residual receipts account or retention of amounts in the project operating account that is done in accordance with Section VI of the Housing Notices or subsequent guidance must also be clearly denoted in the Notes to the Financial Statements. As with other project funds, the expenditure of CSP funds must be done in a manner that is consistent with all applicable civil rights laws, including the Fair Housing Act, Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. See 24 CFR. section 5.105(a).

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.181 SUPPORTIVE HOUSING FOR PERSONS WITH DISABILITIES (SECTION 811)****I. PROGRAM OBJECTIVES**

The objective of Supportive Housing for Persons with Disabilities is to expand the supply of supportive housing for very low-income persons with disabilities through (1) providing federal capital advances under Section 811 of the Cranston-Gonzalez National Affordable Housing Act (Act) for development of housing projects serving persons with disabilities; and (2) providing rental assistance to very low-income (within 50 percent of the median income for the area) persons with disabilities residing in projects financed by the Act.

II. PROGRAM PROCEDURES**A. Overview**

Section 811 are awarded to private nonprofit groups (sponsors) and, in some cases, for-profit limited partnerships, provided that one or more private nonprofit organizations hold all general partner interests. Only a sponsor may obtain a Section 811 capital advance fund reservation, which will be transferred to an owner entity to be organized by the sponsor after award. Capital advances (direct payments) are provided to finance the construction, reconstruction, moderate, or substantial rehabilitation, or acquisition (with or without rehabilitation) structures to be used as supportive housing for persons with disabilities. HUD holds a non-amortizing mortgage on the property under the terms of the capital advance. No repayment is required, as long as the owner complies with the Regulatory Agreement with HUD to make available rental housing to very low-income persons with disabilities for at least 40 years (24 CFR section 891.170). Failure to comply with the terms of the capital advance and HUD's statutory and regulatory requirements may result in foreclosure under the mortgage.

Project rental assistance is used to cover the difference between the HUD-approved operating costs of the project and the tenants' contributions toward rent (24 CFR section 891.410). Project rental assistance is provided under a project rental assistance contract (PRAC) and is calculated based on operating cost standards established by HUD (24 CFR section 891.150).

The owner submits monthly vouchers to HUD for payment of rental assistance. The total amount of assistance equals total HUD-approved operating expenses for the project minus the tenant payments received for all units (PRAC paragraph 2.4(f)(1)). Tenants generally are required to pay rent in accordance with a housing assistance payment contract. The owner receives assistance from HUD on vacant rental assistance units at a rate of 50 percent of operating expense for a unit under PRAC (PRAC paragraph 2.4(b)) for the first 60 days of vacancy, given certain conditions are met (24 CFR section 891.445).

This program is exempt from 2 CFR Part 200 except Subpart F and 2 CFR section 200.425 based on the 24 CFR section 84.2 definition of “Award” and 2 CFR section 200.40 definition of “federal financial assistance.”

B. Financial Reporting

In accordance with HUD’s Uniform Financial Reporting Standards rule, annually, an owner is required to submit a financial statement, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. For newly occupied properties, owners are required to submit an unaudited financial statement, which is due 90 days after the owner’s fiscal year-end, and an audited financial statement is due nine months after its fiscal year-end (24 CFR section 5.801) in the year the property is first occupied. The financial statement must include the financial activities of this program.

C. Cost Certifications

Owners are required to submit one or two detailed cost certifications at the end of each project. These reports provide information on actual development cost breakdown and operating costs. The reports are HUD-92330, Mortgagor’s Certificate of Actual Costs (OMB No. 2502-0112) and HUD-92330-A, Contractor’s Certificate of Actual Costs (OMB No. 2502-0044). The HUD-92330-A is only required when there is an identity of interest between the mortgagor and the general contractor and when a cost-plus-contract is required in nonprofit contracts.

Source of Governing Requirements

This program is authorized under Section 811 of the Cranston-Gonzalez National Affordable Housing Act of 1990 (42 USC 8013). Implementing regulations for this program are 24 CFR Part 5, Subpart H, and Part 891, subparts A, C, and D.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	N	N	N	N	N	N	N	Y

A. Activities Allowed or Unallowed

1. PRAC project funds must be used only for expenses that are reasonable and necessary to the operation of the project as provided for in the Regulatory Agreement between HUD and the project owner (24 CFR section 891.400(e)).
2. Project facilities may not include infirmaries, nursing stations, spaces dedicated to the delivery of medical treatment or physical therapy, padded rooms, or space for respite care or sheltered workshops, even if paid for from sources other than the HUD capital advance. Except for office space used by the owner exclusively for the administration of the project, project facilities may not include office space (24 CFR section 891.315).
3. Project must be modest in design. In independent living facilities for persons with disabilities, amenities not eligible for HUD funding in individual units include balconies and decks, atriums, bowling alleys, swimming pools, saunas, Jacuzzis, trash compactors, washers, and dryers. However, HUD funding is eligible to pay for washers and dryers in group homes for persons with disabilities. Sponsors may include excess amenities but must pay for them from sources other than Section 811 capital advance funds. They must also pay for the continuing operating costs associated with any excess amenities from sources other than the Section 811 PRAC (24 CFR section 891.120).

E. Eligibility

1. Eligibility for Individuals

Section 811 of the National Affordable Housing Act provides funding for housing for persons with disabilities. To qualify as disabled, the household must consist of at least one person who is an adult (18 years or older) with a disability, two or more persons with disabilities living together, or a surviving household member under certain circumstances (42 USC 1437a(b)(3); 24 CFR section 891.505).

Residents must also qualify as very low-income households to be eligible (42 USC 8013). Eligibility is only determined at move-in or at initial certification except in circumstances whereas family composition changes after initial occupancy a determination must be made as to whether the remaining member of the household will be eligible to receive assistance. Eligibility requirements are found in HUD's regulations at 24 CFR Part 5.

The owner is responsible for annually reexamining incomes of households occupying assisted units and make appropriate adjustments to the tenant payment and the project rental assistance payment (24 CFR section 891.410). Assistance applicants shall submit signed consent forms upon initial application and at reexamination (24 CFR section 5.230).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements All laborers and mechanics (other than volunteers under the conditions set out in 24 CFR Part 70) employed by contractors and subcontractors in the construction (including rehabilitation) of housing with 12 or more units assisted under this program shall be paid wages at rates not less than those prevailing in the locality, as determined by the secretary of labor in accordance with the Wage Rate Requirements.

A group home for persons with disabilities is not covered by these labor standards (24 CFR section 891.155(d)).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Use of Project Funds

Compliance Requirements Owners are required to establish and maintain a separate project account in federally insured depository. All rents, charges, income, and revenues arising from the project operation shall be deposited into this account. Project funds must be used for the operation of the project (including required insurance coverage), and to make required deposits to replacement reserve and the residual receipts accounts (24 CFR section 891.400(e)).

Audit Objectives Determine whether the project fund was properly established, required deposits were made into this fund, and disbursements were only for allowed purposes.

Suggested Audit Procedures

- a. Ascertain if the project funds receipts account has been established in a federally insured depository.
- b. Perform tests to ascertain if rents, charges, income, and revenues arising from the project operation were deposited into the fund.
- c. Test a sample of disbursements from the fund to ascertain if they were used only for the operation of the project or to make required deposits to the replacement reserve or the residual receipts account.

3. Replacement Reserve

Compliance Requirements Owners shall establish and maintain a replacement reserve to aid in funding extraordinary maintenance and repair and replacement of capital items. The replacement reserve funds must be deposited in a federally insured depository in an interest-bearing account. All earnings including interest on the reserve must be added to the reserve. An amount as required by HUD will be deposited monthly in the reserve fund (Regulatory Agreement, item 5 (a)). All disbursements from the reserve must be approved by HUD (24 CFR section 891.405).

Audit Objectives Determine whether the replacement reserve was properly established, required monthly deposits were made, and disbursements were only for HUD-approved purposes.

Suggested Audit Procedures

- a. Ascertain if a replacement reserve account has been established in a federally insured depository in an interest-bearing account.
- b. Ascertain if the required monthly deposits have been made to the replacement reserve account.
- c. Ascertain if interest earnings from the reserve were retained in the replacement reserve account.
- d. Test a sample of disbursements from the replacement reserve account and ascertain if they were approved by HUD and were made for the approved purpose.

4. Residual Receipts Account

Compliance Requirements Any surplus funds in the project funds account (including earned interest) at the end of the fiscal year shall be deposited in a federally insured account within 60 days following the end of the fiscal year. Withdrawals from this account may be made only for project purposes and with the approval of HUD (24 CFR section 891.400(e)).

Audit Objectives Determine whether the residual receipts account was properly established, the required deposit was made within 60 days following year-end, and disbursements were only for project purposes and the approval of HUD.

Suggested Audit Procedures

- a. Ascertain if residual receipts account has been established in a federally insured depository.
- b. Ascertain if the required annual deposit was made within 60 days following year-end.
- c. Test a sample of disbursements from the residual receipts account and ascertain if they were used for project purposes and approved by HUD.

IV. OTHER INFORMATION

1. *Capital Advance*

To protect its interest in a capital advance, HUD requires a note and mortgage for a 40-year term. The owner is not required to repay the principal or pay interest and the note is forgiven at maturity, as long as the owner provides housing for the designated class of people in accordance with applicable HUD requirements. However, the full outstanding balance on the note should be considered federal awards expended, included in determining Type A programs and reported as loans on the Schedule of Expenditures of Federal Awards or accompanying notes in accordance with 2 CFR Part 200, Subpart F.

2. *CARES Act Funding*

Housing Notice 2020-08 announced the availability of supplemental operating funds for Section 8, Section 202, and Section 811 properties to prevent, prepare for, and respond to coronavirus disease discovered in 2019 (COVID-19) and establishes an application process for owners of properties assisted under these programs to request funds for one or more of these purposes.

The first funding round due date was August 5, 2020, with payments sent to owners in September and November 2020. HUD is in the process of announcing a second round of funding and is revising this Housing Notice 2020-08 to include the new due date for submissions and is including the following information regarding the financial reporting requirements. The revised Notice 2020-11, *Continued Availability of Funds for COVID-19 Supplemental Payments for Properties Receiving Project-Based Rental Assistance under the Section 8, Section 202, or Section 811 Program*, was published on 11/24/2020.

Amounts received from COVID-19 Supplemental Payments (CSP) shall be treated as project funds and must be managed consistent with other rental assistance provided by HUD under the applicable HAP, PRAC, SPRAC, or PAC contract. CSP funds should be deposited into the project's general operating account (account 1120 on the Balance Sheet) and recorded as Special Claims Revenue (account 5193). The owner should also

include a footnote in the Notes to the Annual Financial Statements that states how much was received and how it was used. These amounts must be included in the Schedule of Expenditures of Federal Awards (SEFA) for the year. Any deposit of surplus cash in the project residual receipts account or retention of amounts in the project operating account that is done in accordance with Section VI of Notice 2020-11 must also be clearly denoted within the Notes to the Annual Financial Statements. As with other project funds, the expenditure of CSP funds must be done in a manner that is consistent with all applicable civil rights laws, including the Fair Housing Act, Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. See 24 CFR 5.105(a).

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.195 SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM****ASSISTANCE LISTING 14.249 SECTION 8 MODERATE REHABILITATION SINGLE ROOM OCCUPANCY****ASSISTANCE LISTING 14.856 LOWER INCOME HOUSING ASSISTANCE PROGRAM – SECTION 8 MODERATE REHABILITATION****ASSISTANCE LISTING 14.182 SECTION 8 NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (Inactive)****I. PROGRAM OBJECTIVES**

The objective of the Section 8 project-based rental assistance programs is to aid low- and very low- and extremely low-income families in obtaining decent, safe, and sanitary rental housing through the provision of housing assistance payments to participating owners on behalf of eligible tenants.

II. PROGRAM PROCEDURES**A. Overview**

Housing assistance payments are used to make up the difference between the approved rent due to the owner for the dwelling unit and the occupant family's required contribution toward rent. Assisted families must pay the highest of (a) 30 percent of their monthly adjusted family income, (b) 10 percent of gross family income, or (c) the portion of welfare assistance designated for housing toward rent. Under these project-based programs, the rental subsidy is tied to a specific unit; when a family moves from the unit, it has no right to continued assistance (unless the owner opts out of the Section 8 contract, in which case the individual is entitled to enhanced vouchers). The project-based Section 8 Housing Assistance Payments (HAP) contracts are administered by the Department of Housing and Urban Development (HUD) or state, local, or other governmental entities or instrumentalities thereof qualifying as public housing agencies (PHAs). When a PHA is the contract administrator, HUD enters into annual contributions contracts with PHAs that enter into HAP contracts with private owners.

Contract administrators are required to maintain a HAP contract register or similar record in which to record the PHA's obligation for monthly housing assistance payments. This record provides information as to the name and address of the family; the name and address of the owner; dwelling unit size; the effective and expiration dates of the lease; the monthly contract rent payable to the owner; monthly rent payable by the family; and the monthly housing assistance payment. The record also provides data as to the date the family vacates and the number of days the unit is vacant, if any. This requirement is applicable to PHAs that are administering HAP program projects pursuant to the

provisions of Annual Contributions Contracts. It is not applicable to Section 8 projects on which HUD has executed a HAP contract directly with an owner or PHA.

B. Subprograms/Program Elements

The Moderate Rehabilitation (Mod Rehab) program (including the Single Room Occupancy (SRO) program for homeless individuals) assists low-income families in affording decent, safe, and sanitary housing by encouraging property owners to rehabilitate substandard housing and lease the units with rental subsidies to low-income families. The PHA and the owner execute an Agreement to Enter into Housing Assistance Payments Contract under which the owner agrees to rehabilitate the unit to be subsidized and the PHA agrees to subsidize the units upon satisfactory completion of rehabilitation. Upon completion of the rehabilitation, the PHA and the owner execute a HAP contract. The PHA refers interested eligible families on its Section 8 waiting list to the owner to fill vacancies in moderate rehabilitation units.

Mod Rehab program assistance is considered a project-based subsidy because the assistance is tied to specific units under an assistance contract with the owner for a specified term. A family that moves from a unit with project-based assistance does not have any right to continued assistance, except in the case of certain “housing conversion actions,” such as when the owner chooses to opt out of the Section 8 program. In such cases, tenants are entitled to enhanced vouchers.

Under the Mod Rehab SRO program, eligible applicants are PHAs or nonprofit organizations, which must contract with a PHA to administer the rental assistance. Eligible individuals must be homeless according to HUD’s definition and may be located through owner outreach as well as from the PHA waiting list (24 CFR section 882.808). No single project may contain more than 100 assisted units. The SRO program is administered under an initial 10-year HAP term, with the possibility of subsequent one-year renewals. The program is administered at HUD Headquarters by the Office of Community Planning and Development (CPD).

C. Other

1. Financial Reporting

In accordance with HUD’s Uniform Financial Reporting Standards rule, annually, a PHA or owner is required to submit its financial statement, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. The unaudited financial statement is due three months after the PHA’s or owner’s fiscal year-end and the audited financial statement is due nine months after its fiscal year-end (24 CFR section 5.801). The financial statement must include the financial activities of the programs in this cluster.

2. Annual Adjustments

The US Housing Act of 1937 requires that assistance contracts signed by owners participating in the Section 8 housing assistance payments programs provide for annual adjustment in the monthly rentals for units covered by the original Section 8 HAP contract. Each year there are revised annual adjustment factors (AAF) for adjustment of contract rents on assistance contract anniversaries, which are applied for those calendar months commencing after the effective date of the annual notice of the change in monthly rental. The AAF are based on a formula using data on residential rent and utilities cost changes from the most current annual Bureau of Labor Statistics Consumer Price Index survey. For projects for which the original Section 8 HAP contract has been renewed under the Multifamily Assisted Housing Reform and Affordability Act of 1997, Pub. L. No. 105-65, 111 Stat. 1384 (MAHRA), rent adjustments are governed by MAHRA rather than by the AAF.

Technical details and requirements related to AAF are described in HUD notices H 2002-10 (Section 8 Project-Based Rent Adjustments Using the Annual Adjustment Factor (AAF)), PIH 97-57 (Operating Cost Adjustment Factors (OCAF)), and the Section 8 Renewal Guide.

Source of Governing Requirements

These programs (other than the Mod Rehab SRO program) are authorized by the US Housing Act of 1937, as amended (42 USC 1437a, c, and f; 42 USC 3535(d); 42 USC 12701; and 42 USC 13611 through 13619). Implementing regulations for post-1980 Section 8 contracts are 24 CFR parts 880 through 883, for Section 515 Rural Rental Housing Section 8 contracts are 24 CFR Part 884, and for Loan Management Set-Aside contracts are 24 CFR Part 886. The Mod Rehab SRO program is authorized under Section 441 of the McKinney-Vento Homeless Assistance Act, 42 USC 11401, and is subject to program regulations at 24 CFR Part 882, Subpart H.

Availability of Other Program Information

HUD maintains pages on its website at http://portal.hud.gov/hudportal/HUD?src=/program_offices/housing/mfh/mfhsec8 and [Moderate Rehabilitation | HUD.gov / U.S. Department of Housing and Urban Development \(HUD\)](http://portal.hud.gov/hudportal/HUD?src=/program_offices/administration/hudclips) that provides general information about these programs. HUD notices are available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/administration/hudclips.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about

each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N

N	N	Y	Y	N	N	N	N	N	Y	N	Y

E. Eligibility

1. Eligibility for Individuals

The PHA or owner, as applicable, must:

- a. Verify the eligibility of applicants by (a) obtaining signed applications that contain the information needed to determine eligibility (including designation as elderly, disabled, or homeless, if applicable), income, rent, and order of selection; (b) conducting verifications of family income and other pertinent information (such as assets, full time student and immigration status, and unusual medical expenses) through third parties; (c) documenting inspections and tenant certifications, as appropriate; and, (d) determining that tenant income did not exceed the maximum limit set by HUD for the PHA’s jurisdiction, as shown in HUD’s published notice transmitting the Limits for Low-Income and Very Low-Income Families Under the Housing Act of 1937. For the Mod Rehab SRO program, eligible individuals must be homeless upon entry into the program (24 CFR sections 880.603, 881.601, 882.514, 882.808, 833.701, 884.214, 886.119, and 886.318).
- b. Determine the total tenant rent payment in accordance with 24 CFR section 5.613.
- c. Select participants from the waiting list in accordance with the admission policies in its administrative plan and maintain documentation which shows that, at the time of admission, the family actually met the preference criteria that determined the family’s place on the waiting list.

For the Mod Rehab SRO program, eligible individuals may be referred to the PHA for eligibility determination as a result of the owner's/sponsor's outreach or through the PHA waiting list (24 CFR sections 880.603, 881.601, 882.514, 882.808(b)(2), 883.701, 884.214, and 886 subparts A and C).

- d. Reexamine family income and composition at least once every 12 months and adjust the total rent payment and housing assistance payment, as necessary (24 CFR sections 5.617, 880.603, 881.601, 882.515, 884.218, 886.124, and 886.324).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. In lieu of the standard reports, the following reports are required on Section 8 project-based programs involving PHA/private-owners and HUD/PHA owners.
 1. HUD-52663, *Requisition for Partial Payment of Annual Contributions (OMB No. 2577-0169)* – submitted quarterly
 2. HUD-52681, *Voucher for Payment of Annual Contributions and Operating Statement (OMB No. 2577-0169)* – submitted annually

2. Performance Reporting

Not Applicable

3. Special Reporting

- a. HUD-50058, *Family Report (OMB No.2577-0083)* – The PHA is required to submit this form electronically to HUD each time the PHA completes an admission, annual reexamination, interim reexamination, portability move-in, or other change of unit for a family. The PHA must also submit the Family Report when a family ends participation in the program or moves out of the PHA’s jurisdiction under portability. A blank copy of the report can be found at <https://www.hud.gov/sites/documents/50058.PDF>.

Key Line Items – The following line items contain critical information which is documented within the client file:

1. Line 2a – *Type of Action*
2. Line 2b – *Effective Date of Action*
3. Line 3b, 3c – *Names*
4. Line 3e – *Date of Birth*
5. Line 3n – *Social Security Numbers*
6. Line 5a – *Unit Address*
7. Line 5h, 5i – *Unit Inspection Dates*
8. Line 7i – *Total Annual Income*
9. Line 13h – *Contract Rent to Owner*
10. Line 13k or 13x – *Tenant rent*

- b. HUD-50059, *Owner’s Certification of Compliance with HUD’s Tenant Eligibility and Rent Procedures (OMB No. 2502-0204)* – This report is submitted electronically to HUD. A blank copy of the report can be found at <https://www.hud.gov/sites/documents/50059.PDF>

Key Line Items – The following line items contain critical information which is documented in the client file:

1. Section B, item 16. – *Certification Type*
2. Section B, Item 12 – *Effective Date of Action*
3. Section C, Item 34 & 35 – *Names*
4. Section C, Item 41 – *Date of Birth*

5. Section C, Item 44 – *Social Security Numbers*
6. Section B, Item 21 – *Unit Number*
7. Section F, Item 86 – *Total Annual Income*
8. Section F, Item 106 – *Total Deduction*
9. Section F, Item 108 – *Total Tenant Payment*
10. Section F, Item 112 – *Assistance Payment*

4. **Special Reporting for Federal Funding Accountability and Transparency Act**

See Part 3.L for audit guidance.

N. **Special Tests and Provisions**

1. **Contract Rent Adjustments**

Compliance Requirements the PHA or owner applies or ensures annual adjustments to contract rents are applied. The HAP contract specifies the method to be used to determine rent adjustments. Adjustments must not result in material differences between rents charged for assisted units and comparable unassisted units except as those differences existed at contract execution. Special adjustments to contract rents, within the original contract term, may also be made to the extent deemed necessary by the PHA or HUD (24 CFR sections 880.609, 881.601, 882.410, 882.808(e), 883.701, 884.109, 886.112, and 886.312).

Audit Objectives Determine whether contract rents are being adjusted properly.

Suggested Audit Procedures

- a. Review the procedures for applying annual adjustment factors and handling special adjustment requests.
- b. Select a sample of contracts and the related files with annual and special rent adjustments and test the supporting data and certifications that were submitted to support the adjustments.
- c. Review the selected HAP contract files or tenant files to verify that annual and special adjustments were applied correctly and that rent adjustments did not result in material differences between the rents charged for assisted and comparable unassisted units.

2. **Tenant Utility Allowances**

Compliance Requirements The PHA or owner must (a) establish or ensure tenant utility allowances based on utility consumption and rate data for various sized units, structure

types, and fuel types, (b) make an annual review of tenant utility allowances to determine their reasonableness, and (c) adjust the allowances, when appropriate (24 CFR sections 5.603, 880.610, 881.601, 882.510, 882.808(k), 883.701, 884.220, 886.126, and 886.326).

Audit Objectives Determine whether tenant utility allowances are properly established.

Suggested Audit Procedures

- a. Examine the procedures used to establish and annually review utility allowances, handle adjustment requests, and notify tenants of utility allowance adjustments.
- b. Select a sample of units with tenant utility allowances and their related tenant files for review.
- c. Test owner requests, PHA determinations, and supporting documentation for utility determinations.
- d. Verify that the allowances were applied to tenants correctly.

3. Housing Quality Standards

Compliance Requirements the PHA or owner must provide housing that is decent, safe, and sanitary. To achieve this end, the PHA or owner must perform housing quality inspections at the time of initial occupancy and at least annually thereafter to ensure that the units are decent, safe, and sanitary (24 CFR sections 880.612, 881.601, 882.516, 882.808(n), 883.701, 884.217, 886.123, and 886.323).

Audit Objectives Determine whether the PHA or owner performs the required inspections to ensure that units meet housing quality standards.

Suggested Audit Procedures

- a. Examine the procedures used by the PHA or owner to identify those units on which housing quality inspections are due.
- b. Select a sample of units on which HAP contracts were executed and examine inspection reports.
- c. Examine records and ascertain that the PHA or owner ensures that the inspections and any needed repairs are completed timely.
- d. Verify that the PHA reviewed the evidence of completion submitted by the owner on newly constructed or rehabilitated units accepted for occupancy.

4. Vacant Units

Compliance Requirements the PHA or owner must reduce claims for assistance on vacant units under certain circumstances. However, there are instances where special claims are allowed for vacancy losses, unpaid rent, and tenant damages on eligible units

(24 CFR sections 880.611, 881.601, 882.411, 882.808(f), 883.701, 884.106, 886.109, and 886.309).

Audit Objectives Determine whether payments to owners are reduced for vacant units and whether payments for special claims are proper.

Suggested Audit Procedures

- a. Examine the procedures used by the PHA or owner to provide the current occupancy status of the units receiving Section 8 assistance.
- b. Select a sample of units that were vacated during the audit period and verify that payments to owners were reduced, as prescribed.
- c. Select a sample of payments for special claims and verify that documentation exists to support the payments.

5. Replacement Reserve

Compliance Requirements The owner shall establish and maintain a replacement reserve to aid in funding extraordinary maintenance and repair and replacement of capital items. The replacement reserve funds must be deposited in an interest-bearing account. All earnings including interest on the reserve must be added to the reserve. All disbursements from the reserve must be as approved or directed by HUD or the state agency for 24 CFR Part 883 projects, as applicable. An amount as required by HUD or the state agency for 24 CFR Part 883 projects, as applicable, shall be deposited monthly in the reserve fund in accordance with the Regulatory Agreement or HAP contract (24 CFR sections 880.601, 880.602, 881.601 and 883.701).

Audit Objectives Determine whether the replacement reserve was properly established, required monthly deposits were made, and disbursements were only for approved purposes.

Suggested Audit Procedures

- a. Ascertain if reserve has been established in an interest-bearing account.
- b. Ascertain if the required monthly deposits have been made to the reserve.
- c. Ascertain if interest earnings from the reserve were retained in the reserve.
- d. Test a sample of disbursements from the reserve and ascertain if they were made for an approved purpose.

6. Residual Receipts Account

Compliance Requirements Any project funds in the project funds account (including earned interest) at the end of the fiscal year shall be deposited with the mortgagee or

other HUD-approved depository in an interest-bearing account. For projects under 24 CFR Part 883, the funds must be deposited with the state agency or other agency-approved depository in an interest-bearing account. Withdrawals from this account may be made only for project purposes and with the approval of HUD or the state agency for 24 CFR Part 883 projects, as applicable (24 CFR sections 880.601, 881.601, and 883.701).

Audit Objectives Determine whether the residual receipts account was properly established, the required deposit was made within 90 days following year-end, and disbursements were only for approved project purposes.

Suggested Audit Procedures

- a. Ascertain if residual receipts account has been established in an interest-bearing depository.
- b. Ascertain if the required annual deposit was made within 90 days following year-end.
- c. Test a sample of disbursements from the residual receipts account and ascertain if they were used for an approved project purpose.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS****ASSISTANCE LISTING 14.225 COMMUNITY DEVELOPMENT BLOCK GRANTS/SPECIAL PURPOSE GRANTS/INSULAR AREAS****I. PROGRAM OBJECTIVES**

The primary objective of the Community Development Block Grant (CDBG) Entitlement Program (metropolitan cities and urban counties) (24 CFR Part 570 Subpart D) is to develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income (24 CFR sections 570.1, 570.200, 570.420, and 570.429).

The program is authorized under Title I of the Housing and Community Development Act (HCDA) of 1974, as amended. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act provided an emergency supplemental appropriation of CDBG funding for states, entitlement communities, and insular areas. This appropriation, referred to as CDBG-CV program funds, to distinguish it from the annual formula CDBG program, is to be used similarly as annual formula grants, but specifically to prevent, prepare for, and respond to coronavirus.

The Community Development Block Grant disaster recovery (CDBG-DR) and Community Development Block Grant mitigation (CDBG-MIT) funding is authorized under Title I of the Housing and Community Development Act of 1974, as amended. Public Laws are the appropriation acts that provide funding for each disaster: Pub. L. No. 116-20, Pub. L. No. 115-254, Pub. L. No. 115-123, Pub. L. No. 115-72, Pub. L. No. 115-56 (Division B), Pub. L. No. 115-31 (Sec 421), Pub. L. No. 114-254, Pub. L. No. 114-223, Pub. L. No. 114-113, Pub. L. No. 113-2, Pub. L. No. 112-55, Pub. L. No. 111-212, Pub. L. No. 110-329, Pub. L. No. 110-252, Pub. L. No. 110-116, Pub. L. No. 109-234, Pub. L. No. 109-148, Pub. L. No. 108-324, Pub. L. No. 107-206, Pub. L. No. 107-117, Pub. L. No. 107-73, and Pub. L. No. 107-38. The auditor must consult the relevant public law for the CDBG-DR award. In addition to CDBG-DR, HUD is now authorized to administer CDBG-MIT funds under Title I of the Housing and Community Development Act of 1974, as amended. The Public Laws that appropriated funds for this purpose include Pub. L. No. 115-123 (Division B) and Pub. L. No. 116-20 (Division B). The rules and regulations governing CDBG funds apply to CDBG-DR and CDBG-MIT funds unless otherwise waived or altered in a *Federal Register* notice.

All of the above-referenced programs, appropriations, and funding have as their core statutory basis Title I of the Housing Community Development Act (HCDA) of 1974, as amended. Unless amended by statute, regulation, or notice, specific to the particular CDBG award, recipients of any and all CDBG funds must ensure that CDBG funds are used in accordance with all program requirements as promulgated in the HCDA and in the program regulations in Part 570.

II. PROGRAM PROCEDURES

A. Overview

The program objective is to be achieved in two ways. First, a grantee can only use funds to assist eligible activities that meet one or more of the following three national objectives of the program: benefit low- and moderate-income persons, aid in the prevention of slums and blight or meet community development needs having a particular urgency. Every CDBG-CV funding recipient must document how each CDBG-CV funded activity prevents, prepares for, and responds to coronavirus. Second, the grantee must spend at least 70 percent of its funds, over a period of one, two, or three years as specified by the grantee in its certification, for activities that address the national objective of benefitting low- and moderate-income persons. For CDBG-CV, this 70 percent overall benefit test applies to total expenditures over the life of the grant, regardless of program year of expenditure and compliance is determined separately from the annual formula CDBG program.

Metropolitan cities and urban counties must submit certain certifications and a three- to five-year Consolidated Housing and Community Development Strategy and Plan (the “Consolidated Plan” or “Con Plan”) describing how they propose to use the funds for housing and community development activities. They also must submit annually the certifications identified at 24 CFR section 91.225 and a one-year Action Plan indicating how they propose to use the funds to further their three- to five-year goals and objectives. The grant amount is determined by the higher of two formulas that consider a community’s population, poverty level, extent of overcrowded housing, age of housing, and growth lag (42 USC 5306(b)). Insular areas, including American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the US Virgin Islands, may submit an abbreviated consolidated plan pursuant to 24 CFR 91.235.

Except for the following differences, non-entitlement counties in Hawaii (see Assistance Listing 14.228, II, “Program Procedures”) must follow the requirements of CDBG Entitlement Grants (Assistance Listing 14.218): (1) their funding comes from Section 106(d) of the Housing and Community Development Act of 1974, as amended (42 USC 5306(d)); (2) funds are distributed using the formula contained in 24 CFR section 570.429(c); (3) reallocations due to grant reductions, or funds not applied for, go to the other non-entitlement counties in Hawaii on a pro rata basis (24 CFR section 570.429(d)); (4) non-entitlement counties are not eligible to use the exception criteria in 24 CFR section 570.208(a)(1)(ii); and (5) 24 CFR section 570.307 (Urban Counties) and 24 CFR section 570.308 (Joint Requests) would not apply to non-entitlement counties in Hawaii.

B. Subprograms/Program Elements

1. *Disaster Recovery and Mitigation – CDBG-DR and CDBG-MIT*

HUD’s Disaster Recovery and Special Issues Division administers CDBG-DR and CDBG-MIT funding. Foundationally, these programs are governed by the same CDBG regulations, but HUD issues waivers and alternative requirements to allow additional flexibilities to allow grantees to use the funds for the purpose of

disaster recovery or mitigation. For disaster recovery, HUD provides flexible grants to help cities, counties, and states recover from Presidentially declared disasters, especially in low-income areas, subject to availability of supplemental appropriations. In response to presidentially declared disasters, Congress may appropriate additional funding for the Community Development Block Grant (CDBG) program as Disaster Recovery grants to rebuild the affected areas and provide crucial seed money to start the recovery process. Since CDBG Disaster Recovery (CDBG-DR) assistance may fund a broad range of recovery activities, HUD can help communities and neighborhoods that otherwise might not recover due to limited resources.

HUD also provides CDBG-MIT grants to help presidentially declared disaster cities, counties and states alleviate risk and reduce future losses. Through this grant, HUD can help grantees support data-driven project design, build grantees' capacity to analyze risks and update its hazard mitigation plans, and support community risk reduction policy development.

The *Federal Register* notices that govern the use of CDBG-DR and CDBG-MIT funds are available at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices>. Auditors should consult the applicable *Federal Register* notices for the specific CDBG-DR and CDBG-MIT awards allocated to the state. Please note, American Samoa, the Commonwealth of the Northern Mariana Islands, the US Virgin Islands, and Puerto Rico are considered as states under Disaster Recovery and Mitigation allocations.

2. *Declared Disaster Recovery Fund (DDRF)*

Pursuant to 42 USC 5306(c)(4), in the event of a major disaster declared by the President, HUD may make available to metropolitan cities and urban counties located or partially located in areas affected by the disaster, any amounts that become available as a result of actions under 42 USC 5304(e) or 5311. These funds shall give priority to providing emergency assistance and recovery from the disaster and grant agreements or amendments for such funds may include special conditions governing their use. In all other respects, these reallocated funds shall follow the requirements of CDBG Entitlement Grants.

3. *Neighborhood Stabilization Program (NSP)*

The Housing and Economic Recovery Act of 2008 (HERA) (Pub. L. No. 110-289, July 30, 2008) provided funds for emergency assistance for redevelopment of abandoned and foreclosed homes and residential properties, and provides under a rule of construction that, unless HERA provides otherwise, the grants are to be considered CDBG funds. The grant program under Title III of HERA is referred to as the Neighborhood Stabilization Program (NSP). The NSP funding covered in this cluster is the funding provided under HERA. These HERA funds are also referred to as NSP1. Additional funding for NSP was authorized by Section 1497 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) (Pub. L. No. 111-203, July 21, 2010), and is referred to as NSP3. **NSP**

funding provided under the American Recovery and Reinvestment Act of 2009 (ARRA) is referred to as NSP2 and NSP-TA, which are covered by the Neighborhood Stabilization Program (Recovery Act Funded) (Assistance Listing 14.256) and audited separately.

The NSP1 and NSP3 grants are special CDBG allocations to address the problem of abandoned and foreclosed homes. HERA and the Dodd-Frank Act established the need, targets the geographic areas, and limits the eligible uses of NSP funds. NSP3 requirements are in the NSP notice published on October 19, 2010 (75 FR 64322-64348), which lists allocations, requirements, and waivers. The NSP3 Notice incorporates the NSP1 Bridge Notice, changes made by ARRA, and additional changes and clarification. The notices are available at <https://www.hudexchange.info/nsp/nsp-laws-regulations-and-federal-register-notices/>.

4. *FY 2020 Emergency, Supplemental Appropriation – CDBG-CV*

The Coronavirus Aid, Relief, and Economic Security (CARES) Act (Pub. L. No. 116-136, March 27, 2020) provided an emergency supplemental appropriation of CDBG funding for states, entitlement communities, and insular areas. Recipients may undertake a wide range of activities directed toward assisting their community to prevent, prepare for, and respond to coronavirus. Examples include, but are not limited to, public services designed to increase the capacity of the local health system to address the pandemic; emergency income payment programs to assist low- and moderate-income individuals and families with items such as food, clothing, housing, or utilities for a period of up to six consecutive months; interim assistance activities to address the public health emergency, such as “pop-up,” temporary coronavirus testing sites; grants or loans to businesses to avoid or mitigate job losses caused by business loss due to social distancing guidelines; assistance to microenterprises or other for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out critical medical, food delivery, cleaning, and other services to support home health and quarantine; assistance for the acquisition, rehabilitation, or construction of facilities for coronavirus testing, diagnosis, or treatment; and coronavirus planning and capacity building activities.

Additional activities that address coronavirus were identified in the April 30, 2021, Quick Guide, CDBG-CV PPR Tieback Flexibilities. These include but are not limited to: providing technical assistance, grants, loans, and other financial assistance to establish, stabilize, and expand microenterprises to revitalize communities and local economies affected by coronavirus or to prepare for and prevent future outbreaks; providing working capital assistance to small businesses or entrepreneurs to enable creation and retention of jobs held by low- and moderate-income persons caused by business closures related to community mitigation measures or other job loss and economic disruption resulting from coronavirus; increasing the capacity and availability of daycare or after-school services serving low/mod areas in which parents have dropped out of the workforce since January 2020 to enable workers to rejoin the workforce as a

public service; rehabilitation of single unit and multifamily housing units to respond to living conditions (such as mold, lead-based paint, and poor ventilation) associated with more severe coronavirus disease or poorer post-COVID health advice; conversion of public/commercial buildings into affordable housing and acquisition of property for housing to respond to residential over-crowding associated with coronavirus spread and with more severe coronavirus disease and poorer post-COVID health outcomes; new housing construction carried out by a qualified Community Based Development Organization (CBDO) to respond to residential over-crowding associated with coronavirus spread and with more severe coronavirus disease and poorer post-COVID health outcomes; constructing a public facility such as a park serving a low and moderate income area to provide suitable outdoor fitness, and social space where insufficient facilities are available to support social distancing guidance; preventing or addressing the spread of coronavirus in a vulnerable population by acquiring and rehabilitating, or constructing, a group living facility for persons recovering from substance abuse disorder; and constructing a public improvement, such as extending broadband infrastructure in an underserved area or reconstructing degraded water lines, to support tele-school and telemedicine and to ensure potable water to homes, schools, and health providers.

Entitlement communities develop their own programs and funding priorities so long as programs/activities conform to the statutory standards and program regulations. Specific statutory provisions of CDBG-CV funds include the suspension of the Housing and Community Development Act provision that caps expenditures for public services activities; the submission of an amended Consolidated Plan, 2019 Action Plan, or 2020 Action Plan for use of CDBG-CV funds no later than August 16, 2021; the ability of a grantee to adopt and use expedited procedures to prepare, propose, modify, or amend its annual statement of activities (Annual Action Plan) to provide citizens with notice and a reasonable opportunity to comment of no less than five days; the suspension of in-person public hearings and the adoption of virtual public hearings to fulfill public hearing requirements for the use of all funds made available under the CARES Act as long as national or local health authorities recommend social distancing and limiting public gatherings for public health reasons; and the requirement that adequate procedures are in place to prevent duplication of benefits as required by the Stafford Act and in accordance with Disaster Recovery Reform Act of 2018.

Recipients may contract with other local agencies or nonprofit organizations to carry out part or all of their programs. CBDOs may carry out neighborhood revitalization, community economic development or energy conservation projects to further achieve the national objectives of the CDBG program. CDBG-CV funds may be used to cover or reimburse allowable costs consistent with preventing, preparing for, and responding to coronavirus incurred by a locality for costs incurred on or after January 21, 2020. All eligible activities must either benefit low-and moderate-income persons, aid in the prevention or elimination of slums or blight or meet other community development needs having a particular urgency that the grantee is unable to finance on its own.

Source of Governing Requirements

These programs are authorized by Title I of the Housing and Community Development Act of 1974, as amended (Pub. L. No. 93-383) (42 USC 5301). Implementing regulations are located at 24 CFR Part 570.

The *Federal Register* notices that govern the use of CDBG-DR and CDBG-MIT funds are located at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices>. Auditors should consult the applicable *Federal Register* notices for the specific CDBG-DR and CDBG-MIT awards allocated to the state or unit of general local government.

NSP1 is authorized by Title III of Division B of HERA. HUD published a “*Notice of Allocations, Application Procedures, Regulatory Waivers Granted to and Alternative Requirements for Emergency Assistance for Redevelopment of Abandoned and Foreclosed Homes Grantees Under the Housing and Economic Recovery Act, 2008*” (NSP Notice) that advises the public of the allocation formula, allocation amounts, the list of grantees, alternative requirements, and the waivers of regulations provided to grantees (October 6, 2008, *Federal Register*, 73 FR 58330-58349). NSP3 is authorized by Title XII of ARRA (123 Stat. 217). The requirements of HERA have been updated by (1) a notice in the *Federal Register*, Docket No. FR-5255-N-02 (NSP1 Bridge Notice) on June 19, 2009 (74 FR 29223-29229), which provided revisions and technical corrections to the NSP Notice and changes to NSP made by ARRA; (2) a notice in the *Federal Register*, Docket No. 5321-N-03 (NSP Notice) on April 9, 2010 (75 FR 18228-18231) to note a change in definitions and modification to the NSP; (3) the Dodd-Frank Wall Street Reform and Consumer Protection Act of July 21, 2010 (Pub. L. No. 111-203); and (4) a notice in the *Federal Register*, Docket No. FR-5447-N-01 (NSP3 Notice) on October 19, 2010 (75 FR 64322-64348) to incorporate the bridge notice, the changes made by ARRA, and additional changes and clarifications. Most of these requirements were incorporated into the NSP3 Notice.

CDBG-CV is authorized in title 12 of Division B of the CARES Act. HUD published a “*Notice of Program Rules, Waivers, and Alternative Requirements Under the CARES Act for CDBG-CV Grants, FY 2019 and 2020 CDBG Grants, and for Other Formula Programs*” (CDBG-CV Notice) that advises the public of the program rules, alternative requirements, and the waivers of regulations provided to grantees (August 20, 2020, *Federal Register*, 85 FR 51457-51475).

Availability of Other Program Information

Further, additional information about the CDBG-DR and CDBG-MIT is available at the HUD CDBG-DR website at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/>.

Additional information about the NSP laws, regulations, and notices are available at <https://www.hudexchange.info/programs/nsp/nsp-laws-regulations-and-federal-register-notices/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

Y	Y	N	N	Y	N	Y	N	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. All activities undertaken must meet one of three national objectives of the CDBG Entitlement Grants program (i.e., benefit low- and moderate-income persons, prevent or eliminate slums or blight, or meet community development needs having a particular urgency) (24 CFR sections 570.200, 570.208, and 570.420). Section III.B.5.(f) of the CDBG-CV Notice, *Eligible Activities*, further specifies that a grantee may use CDBG–CV funds only for those activities carried out to prevent, prepare for, and respond to coronavirus. By law, use of funds for any other purpose is unallowable. Some funded activities may respond to the direct effects of the virus, others to the indirect effects. Some CDBG-eligible activities, such as public services, economic development and microenterprise assistance, and public facilities and improvements clearly tie back to the purposes of the CARES Act. HUD is not prohibiting grantees, however, from carrying out any particular CDBG eligible activity described in the HCDA and 24 CFR 570, because other CDBG eligible activities, such as acquisition of real property, can justifiably be used to fulfill the CARES Act purposes depending upon the circumstances.

2. CDBG funds are to be used for the following activities: (a) the acquisition of real property; (b) the acquisition, construction, reconstruction, rehabilitation or installation of public works, facilities and sites, or other improvements, including removal of architectural barriers that restrict accessibility of elderly or severely disabled persons; (c) clearance, demolition, and removal of buildings and improvements; (d) payments to housing owners for losses of rental income incurred in temporarily holding housing for the relocated; (e) disposition of real property acquired under this program; (f) provision of public services (subject to limitations contained in the CDBG regulations); (g) payment of the nonfederal share for another grant program for activities that are otherwise eligible; (h) interim assistance where immediate action is needed prior to permanent improvements or to alleviate emergency conditions threatening public health and safety; (i) payment to complete a Title 1 Federal Urban Renewal project; (j) relocation assistance; (k) planning activities and program administrative costs, subject to the limitations at 24 CFR section 570.200(g); (l) acquisition, construction, reconstruction, rehabilitation, or installation of commercial or

industrial buildings; (m) assistance to community-based development organizations; (n) activities related to privately owned utilities; (o) assistance to private, for-profit businesses, when appropriate to carry out an economic development project; (p) construction of housing assisted under Section 17 of the United States Housing Act of 1937; (q) reconstruction of properties; (r) direct homeownership assistance to facilitate and expand homeownership; (s) technical assistance to public or private nonprofit entities for capacity building; (t) housing services related to HOME-funded activities; (u) assistance to institutions of higher education to carry out eligible activities; (v) assistance to public and private entities (including for-profits) to assist micro-enterprises; (w) payment for repairs and operating expenses for acquired “in Rem” properties; (x) residential housing rehabilitation; (y) code enforcement in deteriorated or deteriorating areas, (z) lead-based paint hazard evaluation and removal; (aa) construction or improvement of tornado-safe shelters for residents of manufactured housing and provision of assistance to nonprofit and for-profit entities for such construction or improvement (42 USC 5305(a); 24 CFR sections 570.201 through 570.206, as well as 570.207 for ineligible activities).

3. Entitlement grantees and Insular Area grantees may have loans guaranteed by HUD under Section 108 of the Housing and Community Development Act of 1974, (42 USC 5308). The guaranteed loan funds are to be used only for the following activities: (a) acquisition of real property; (b) housing rehabilitation; (c) rehabilitation of publicly owned real property; (d) eligible CDBG economic development activities; (e) relocation payments, (f) clearance, demolition, and removal; (g) payment of interest on Section 108 guaranteed obligations; (h) payment of issuance and other costs associated with private sector financing under this subpart; (i) site preparation related to redevelopment or use of real property acquired or rehabilitated pursuant to this subpart or for economic development purposes; (j) construction of housing by nonprofit organizations for home ownership under Section 17(d) of the US Housing Act of 1937 (12 USC 1715(l)) or Title VI of the Housing and Community Development Act of 1987; (k) debt service reserve; (l) acquisition, construction, reconstruction, rehabilitation, or installation of public works and site or other improvements, which serve “colonias” (as defined in Section 916 of the Housing Act of 1990 and amended by Section 810 of the Housing and Community Development Act of 1992); and (m) acquisition, construction, rehabilitation, or installation of public facilities (except for buildings for the general conduct of government), public streets, sidewalks, and other site improvements, and public utilities (24 CFR sections 570.700 through 570.710).

Under the Section 108 Loan Guarantee Program, CDBG grantees can borrow up to five times their most recent CDBG grant by issuing federally guaranteed notes. To ensure that CDBG–CV funds are used for the purposes authorized by the CARES Act, HUD issued the following alternative requirement to sections 108(b) and (c) of the HCD Act (42 USC 5308(c)): CDBG–CV funds shall not be factored into a grantee’s Section 108 borrowing authority. Regarding the use of CDBG–CV funds, A grantee may use CDBG–CV funds to make a direct payment of principal, interest, or any fees due under a Section 108 note only if the use of

funds is to prevent, prepare for, and respond to coronavirus. The necessity of such use shall be documented by the grantee or the subrecipient that provided the assistance (e.g., if Section 108 funds were used by the grantee to provide assistance to a for-profit business in the form of a loan and the business is unable to make a payment due to the reduction in revenue caused by coronavirus, any restructuring of that loan must be supported by modification to loan documents that document the relationship to coronavirus). When CDBG–CV funds are used to subsidize or replace principal, interest, or fees due under a loan previously made with guaranteed loan funds as part of an activity to assist a for-profit or a subrecipient, and the CDBG–CV assistance is necessary to respond to the impact of coronavirus (e.g., a third-party business borrower whose loan is the intended source for repayment of a Section 108 loan is not collecting sufficient revenue due to local public health conditions), the documentation that the original assisted activity satisfies national objective criteria shall be sufficient to demonstrate that the use of the guaranteed loan funds and the additional CDBG-CV assistance meet a CDBG national objective.

4. All activities that a grantee undertakes during its CDBG program year must be identified in an annual action plan or an amended action plan. Plan amendments are required to reflect changes in activities or funding decisions (24 CFR Part 91, Subpart C, and 24 CFR section 91.505). A grantee was required to apply for CDBG-CV funds by submitting a substantial amendment to its most recently approved annual action plan (either the 2019 or 2020 Action Plan). As part of the application submission, HUD temporarily waived the requirements (found at 42 USC 12706 and 91.225(a)(5)) that grantees certify that the housing activities to be undertaken with CDBG, HOME, ESG, and HOPWA funds are consistent with the strategic plan portion of the consolidated plan. HUD imposed a related alternative requirement that allowed grantees to submit those certifications when the grantees submit their next full (three–five year) consolidated plan due after the 2020 program year. Grantees may not have considered the needs associated with CDBG-CV funds when developing their current consolidated plan strategic plan and needs assessment. In conjunction, HUD temporarily waived 42 USC 5304(e) to the extent that it requires HUD to annually review grantee performance under the consistency criteria. This waiver also only applies until the grantee submits its next full (three–five year) consolidated plan due after the 2020 program year.

When the CDBG-CV application was submitted as a substantial amendment to either the 2019 or 2020 Action Plan, the substantial amendment must have included the CDBG-CV allocation as an available resource for the year. The amendment must have identified the proposed use of all funds and how the funds would be used to prevent, prepare for, and respond to coronavirus. To permit an expedited application process, HUD waived statutory provisions at 42 USC 12705(a)(2) to the extent they require updates to the housing and homeless needs assessment, (24 CFR 91.205 and 91.405), housing market analysis (24 CFR 91.210 and 91.410), and strategic plan (24 CFR 91.215 and 91.415. HUD also waived 24 CFR 91.220 (entitlements), to the extent those regulations limit the

action plan to a specific program year, to permit grantees to prepare substantial amendments to either the 2019 or 2020 annual action plan).

HUD also issued a waiver and alternative requirement to 24 CFR 91.505 to facilitate the use of the CDBG-CV funds to the extent necessary to require submission of the substantial amendment to HUD for review in accordance with 24 CFR 91.500, and required that, to receive a CDBG-CV grant, a grantee must also submit a SF-424, SF-424D, and the certifications at 24 CFR 91.225(a) and (b).

When CDBG-CV funds were included in a substantial amendment to either the 2019 or 2020 Action Plan, existing cooperation agreements between a local government and an urban county governing other CDBG funds in the most recently submitted annual action plan (for purposes of either an urban county or a joint program) automatically covered CDBG-CV funding as well. These cooperation agreements will continue to apply to the use of CDBG-CV funds for the duration of the CDBG-CV grant.

The action plan submission procedures in 24 CFR Part 91 (including consultation and a public hearing) apply to grantees that choose to submit CDBG-CV applications by including CDBG-CV funds in a new annual action plan submission (2020 Action Plan). Content of action plans is described at 24 CFR 91.220.

The waivers and alternative requirements apply to all allocations of CDBG-CV funds. HUD encourages grantees to apply for additional allocations of CDBG-CV funds as they are announced by submitting substantial amendments to the same annual Action Plan that they used to apply for the first CDBG-CV allocation.

An application submitted as a substantial amendment must include the CDBG-CV allocation as an available resource for the year and include the proposed use of all funds and how the funds will be used to prevent, prepare for, and respond to coronavirus.

HUD strongly encouraged grantees to apply for allocations through substantial amendments as they were announced. However, grantees that had not submitted applications for CDBG-CV funds when additional allocations were announced may submit a single application for all allocations as a substantial amendment to either the 2019 or 2020 annual Action Plan.

The CARES Act and the CDBG-CV Notice amend the submission deadline for the Consolidated Housing and Community Development Strategy and Plan (Consolidated Plan) or annual action plan amendment for the use of CDBG-CV funds and 2019 and 2020 federal fiscal year annual formula CDBG funds to no later than August 16, 2021. Please see III.N. "Special Tests and Provisions" of the Compliance Requirements below for additional waivers and alternative

requirements regarding citizen participation prior to plan or plan amendment submission.

5. In compliance with the HCDA, CDBG funds are not to be used to reduce substantially the amount of local financial support for community development activities below the level of such support prior to the availability of such assistance. HUD has concluded, however, that when CDBG funding is used for purposes of the CARES Act, it is not considered to substantially replace the amount of local financial support previously provided to community development activities.

All CDBG-CV grantees are required to establish and maintain adequate procedures to prevent any duplication of benefits for assisted activities (as discussed in Section III.B.9. of the CDBG-CV Notice). To demonstrate that no financial assistance has been received or is available to pay costs charged to a CDBG-CV grant, a grantee may demonstrate that no other funds are available for an activity by maintaining records of compliance with mandatory duplication of benefits requirements described in Section III.B.9.

6. The CARES Act and the CDBG-CV Notice eliminated the 15 percent limitation on the use of CDBG-CV and 2019 and 2020 federal fiscal year CDBG funds to prevent, prepare for, and respond to coronavirus for public service activities (i.e., those activities set forth in Section 105(a)(8) of the HCDA and 24 CFR 570.201(e) of the CDBG entitlement regulations). The cap is still routinely applied to all other 2019 and 2020 federal fiscal year CDBG-funded public service activities that do not address coronavirus.
7. CDBG funds may not be used for income payments, which are not included among eligible activities in section 105(a) of the HCD Act, and which are expressly prohibited by 24 CFR 570.207(b)(4) in the Entitlement CDBG regulations. The phrase income payments means a series of subsistence-type grant payments made to an individual or family for items such as food, clothing, housing (rent or mortgage) or utilities, but excludes emergency payments made over a period of up to three consecutive months to the provider of such items or services on behalf of an individual or family. HUD has waived section 105(a)(8) of the HCD Act and 24 CFR 570.207(b)(4) only to the extent necessary to establish the following alternative requirement: CDBG-CV funds may be used to provide emergency payments for individuals or families impacted by coronavirus for items such as food, clothing, housing (emergency rental assistance or mortgage assistance) or utilities for up to six consecutive months. Emergency payments must be made to the provider of such items or services on behalf of an individual or family, and not directly to an individual or family in the form of income payments, debit cards, or similar direct income payments. CDBG-CV grantees must ensure that proper documentation is maintained to ensure that all costs incurred are eligible. Grantees using this alternative requirement must document, in their policies and procedures, how they will determine the amount of assistance to be provided is necessary and reasonable. This waiver is also

applicable to 2019 and 2020 federal fiscal year CDBG funds used to prevent, prepare for, and respond to coronavirus.

8. CDBG funding can only be used for special economic development projects that meet the criteria in 24 CFR section 570.203. Grantees must have data to support that assistance provided to carry out special economic development projects is appropriate by meeting the public benefit standards for job creation and provision of goods and services described in 24 CFR section 570.209. CDBG-CV grantees providing assistance to for-profit entities are still required to adopt financial underwriting policies and procedures in accordance with the guidelines for evaluating project costs and financial requirements found in Appendix A of 24 CFR Part 570. To facilitate the use of CDBG-CV and 2019 and 2020 federal fiscal year CDBG funds used to prevent, prepare for, and respond to coronavirus for economic development activities, HUD has instituted the following alternative requirements to demonstrate national objective compliance:
 - a. Removing the higher poverty rate required in some cases for central business districts, which is not required by statute. HUD is instituting an alternative requirement to modify the regulations at 24 CFR 570.208(a)(4)(v) by deleting the criteria at 24 CFR 570.208(a)(4)(v)(B). Under this alternative requirement, for purposes of the LMI job creation/retention national objective at 24 CFR 570.208(a)(4), a census tract qualifies for the presumptions under the criteria established in regulations at 24 CFR 570.208(a)(4)(v) if the poverty rate is at least 20 percent and if it evidences pervasive poverty and general distress using the criteria described in 24 CFR 570.208(a)(4)(v)(C).
 - b. Notwithstanding that the definitions of low-income person and moderate-income person in 24 CFR 570.3 are based on family income, for purposes of meeting the national objective criteria for job creation or retention at 24 CFR 570.208(a)(4), grantees and employers may consider individuals that apply for or hold jobs to be members of one-person families for activities that prevent, prepare for, and respond to coronavirus. HUD is also modifying related recordkeeping requirements at 24 CFR 570.506(b)(7) by adding the following additional presumption: the recipient may substitute records showing the type of job and the annual wages or salary of the job in lieu of maintaining records showing the person's family size and income to demonstrate that the person who filled or held/retained the job was a low- or moderate-income person, when required by paragraph 24 CFR 570.506(b)(5)(i)(B), (b)(5)(ii)(C), (b)(6)(iii) or (b)(6)(v). HUD will consider the person income-qualified if the annual wages or salary of the job is equal to or less than the Section 8 low-income limit established by HUD for a one-person family. Grantees will typically obtain such information from assisted businesses rather than each person who received a job.

In addition, for CDBG-CV and 2019 and 2020 federal fiscal year CDBG funds used to prevent, prepare for, and respond to coronavirus, HUD eliminated the aggregate public benefit standard and modified the individual public benefit standards for job creation and retention. HUD waived the individual standards at 24 CFR 570.209(b)(3) and imposed the following alternative requirement:

For activities subject to the public benefit standards, grantees must document that: a) the activity will create or retain at least one full-time equivalent, permanent job per \$85,000 of CDBG funds used; b) the activity will provide goods or services to residents of an area such that the number of LMI persons residing in the area served by the assisted businesses amounts to at least one LMI person per \$1,700 of CDBG funds used; or c) the assistance was provided due to business disruption related to coronavirus (in which case, no monetary standard applies because HUD has determined that there is sufficient public benefit derived from the provision of assistance to stabilize or sustain businesses in the grantee's jurisdiction that suffer disruption due to coronavirus).

Finally, through the CDBG-CV Notice, HUD clarifies an existing requirement of economic development activities that grantees may carry out pursuant to 24 CFR 570.203(b). Grantees may provide assistance, with CDBG-CV and 2019 and 2020 federal fiscal year CDBG funds used to prevent, prepare for, and respond to coronavirus, to an economic development project through a for-profit entity that passes the funds through a financing mechanism (e.g., Qualified Opportunity Funds and New Markets Tax Credit (NMTC) investment vehicles). The regulations at 24 CFR 570.203(b) already list forms of support by which grantees can provide assistance to private, for-profit businesses where the assistance is appropriate to carry out an economic development project. HUD has previously interpreted this provision to allow for CDBG assistance to NMTC investment vehicles. This clarification makes clear that such assistance through any financing mechanism (which is not limited to NMTC investment vehicles) is eligible under 24 CFR 570.203(b). The regulation also does not apply to states, but states may consider 24 CFR 570.203(b), as clarified by the following alternative requirement, as guidance in the same way that they may consider other Entitlement CDBG regulations. HUD is not waiving 24 CFR 570.203(b) and other statutory and regulatory requirements remain in place.

The CDBG-CV Notice also established an alternative requirement, for the same grouping of funds mentioned in the last paragraph, that expanded the authority in section 105(a)(15) of the HCD Act and 24 CFR 570.204 to permit grantees subject to entitlement CDBG regulations to assist nonprofit organizations serving the development needs of their jurisdiction by carrying out community economic development projects through a financing mechanism. The nonprofit may pass assistance through a financing mechanism to another entity based on the language in section 105(a)(15) of the HCD Act. Grantees subject to entitlement regulations must document that the assisted nonprofit is serving the development needs of the jurisdiction and that the assistance is used for a community economic development project that is necessary to prevent, prepare for, and respond to coronavirus.

9. When CDBG funds are used to finance rehabilitation, the rehabilitation is to be limited to privately owned buildings and improvements for residential purposes; low income public housing and other publicly owned residential buildings and improvements; publicly or privately owned commercial or industrial buildings, subject to the limitations at 24 CFR 570.202(a)(3); and manufactured housing when it constitutes part of the community's permanent housing stock (24 CFR 570.202(a)).
10. For NSP funds, HERA requirements supersede some CDBG requirements (see III.A.1) to allow for the eligible uses in section 2301(c)(3) of HERA. The NSP categories and CDBG entitlement grant regulations are listed in Section II.H.3.a. of NSP3 Notice, 75 FR 64332-64333. The NSP eligible uses are to:
 - a. Establish financing mechanisms for purchase and redevelopment of foreclosed upon homes and residential properties.
 - b. Purchase and rehabilitate homes and residential properties that have been abandoned or foreclosed upon for later sale, rent, or redevelopment.
 - c. Establish and operate land banks for homes and residential properties that have been foreclosed upon.
 - d. Demolish blighted structures.
 - e. Redevelop demolished or vacant properties.

The NSP3 Notice lists the CDBG-eligible activities HUD has determined best correlate to these specific NSP-eligible uses. Grantees must receive written HUD approval to undertake activities other than those listed in Section II.H., Eligibility and Allowable Costs, of NSP3 Notice (Section 2301(c)(3) of HERA; Section II.H. of NSP3 Notice, 75 FR 64332-64333).

For CDBG-DR, the public benefit standards are waived; please consult applicable *Federal Register* notices.

11. For NSP funds, NSP requirements supersede existing CDBG requirements (see III.A.1) to permit the use of only the low- and moderate-income national objective for NSP-assisted activities. A NSP activity may not qualify using the "prevent or eliminate slums and blight" or "address urgent community development needs" national objectives. The HERA redefines and supersedes the definition of "low- and moderate-income," effectively allowing households whose incomes exceed 80 percent of area median income but do not exceed 120 percent of median income to qualify as if their incomes did not exceed the published low- and moderate-income levels of the regular CDBG program (Section III.E. of NSP3 Notice, 75 FR 64329-64331). HUD will refer to this new income group as "middle income" and maintain the regular CDBG definitions of "low-income" and "moderate-income" currently in use (Section 2301(f)(3)(A) of HERA).

For purposes of NSP only, an activity may meet the HERA established low- and moderate-income national objective if the assisted activity (a) provides or improves permanent residential structures that will be occupied by a household whose income is at or below 120 percent of area median income; (b) serves an area in which at least 51 percent of the residents have incomes at or below 120 percent of area median income; or (c) serves a limited clientele whose incomes are at or below 120 percent of area median income (Section 2301(f)(3)(A) of HERA; Section II.E. of NSP3 Notice, 75 FR 64329-64331).

12. In addition to the activities allowed for CDBG as outlined above, additional flexibilities apply to CDBG-DR and CDBG-MIT funds. For CDBG-DR, HUD allows funding for the following activities: (a) program administrative costs up to 5 percent of total grant amount and program income (24 CFR 570.206); (b) program planning costs up to 20 percent of combined with administration costs (24 CFR 570.205) unless otherwise limited to only 15 percent by the *Federal Register* notice; (c) public services costs up to 15 percent of total grant amount and program income (24 CFR 570.201(e), 570.207). In addition, the secretary may provide waivers or specify alternative requirements if such waiver is not inconsistent with the overall purpose of Title I of the Housing and Community Development Act of 1974. However, the secretary may not waive requirements related to fair housing, nondiscrimination, labor standards, and the environment.

For CDBG-DR awards made after 2013, the *Federal Register* notices prohibit assistance for second homes and limit business assistance to small businesses. For CDBG-DR awards made for disasters that occurred in 2017, disaster funds cannot be used for rehabilitation/reconstruction assistance to persons with incomes that exceed 120 percent area median income if they are located in a floodplain and have failed to maintain flood insurance.

For 2015 disasters and beyond, the Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Pub. L. No. 116–20, approved June 6, 2019) authorized flexibility around the use of administrative funds for grantees that received funding under certain Public Laws. Grantees that received funds under Pub. L. nos. 114–113, 114–223, 114–254, 115–31, 115–56, 115–123, and 115–254, or any future act may use eligible administrative funds (up to 5 percent of each grant award plus up to 5 percent of program income generated by the grant) appropriated by these acts for the cost of administering any of these grants without regard to the particular disaster appropriation from which such funds originated. This flexibility allows these grantees to use up to 5 percent of each grant award (plus up to 5 percent of program income) to administer its disaster programs across all applicable appropriations (85 FR 4681).

For CDBG-MIT grantees, the Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Pub. L. No. 116–20, approved June 6, 2019) authorizes the same flexibility for administrative funds as the 2015 and beyond disasters (84 FR 45838).

For CDBG-DR, the public benefit standards are waived for only those economic development activities designed to create or retain jobs or business. Auditors should consult applicable *Federal Register* notices on the HUD Exchange.

For all other applicable waivers or alternative requirements, auditors should consult the *Federal Register* notices on the HUD Exchange:

<https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/>.

B. Allowable Costs/Cost Principles

1. All items of cost listed in 2 CFR Part 200, Subpart E, that require prior federal agency approval are allowable without prior approval, except for the following:
 - a. Depreciation methods for fixed assets shall not be changed without the approval of the federal cognizant agency.
 - b. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent), housing allowances, and personal living expenses (goods or services for personal use), regardless of whether reported as taxable income to the employees, require prior HUD approval.
 - c. Organization costs require prior HUD approval.
2. Fines, penalties, damages, and other settlements are unallowable (24 CFR section 570.200(a)(5)).
3. Grantees may use CDBG-CV funds only for those activities carried out to prevent, prepare for, and respond to coronavirus. By law, use of funds for any other purpose is unallowable. The CARES Act provides that CDBG-CV funds may be used to cover or reimburse allowable costs of activities to prevent, prepare for, and respond to coronavirus incurred by a state or locality incurred on or after January 21, 2020. The term “locality” is not defined by the CARES Act, the HCD Act, or the CDBG program regulations. For purposes of CDBG-CV grants, a “locality” shall mean units of general local government, as defined in section 102 of the HCD Act. The CARES Act also requires that all costs reimbursed with CDBG-CV funds be allowable costs, meaning they comply with all grant requirements. Therefore, as set forth in Section III.B.5.(b) of the CDBG-CV Notice, HUD has adopted the following waivers and alternative requirements to 24 CFR 570.200(h) to facilitate the use of CDBG-CV funds to reimburse allowable costs by modifying current regulations that are inconsistent with CARES Act reimbursement authority and imposing safeguards to help ensure the allowability of all costs charged to the CDBG-CV grant:

Grantees shall not reimburse costs incurred before January 21, 2020, without written approval from HUD’s Office of Block Grant Assistance (OBGA), by emailing the contact person listed at the beginning of the CDBG-CV Notice. HUD is imposing a presumption that costs of activities undertaken before January

21, 2020, the date the Centers for Disease Control and Prevention confirmed the first case of coronavirus in the United States in the State of Washington, are highly unlikely to be eligible for reimbursement because they likely are not costs to prevent, prepare for, and respond to coronavirus. The need to pay for coronavirus-related costs incurred after this date far exceeds the amount of CDBG-CV funds available. HUD cautions that it will only consider granting written approval in extraordinary cases where the clear link to the purposes of the CARES Act is documented by substantial evidence provided to HUD by the grantee. Inquiries related to this requirement can be submitted to the contact identified in the CDBG-CV Notice.

HUD has waived the requirements of 570.200(h) to the extent necessary to authorize a grantee to permit reimbursement of pre-application costs of subrecipients, units of general local government, and itself, in addition to pre-agreement and pre-award costs. However, an environmental review must be performed and a release of funds must be obtained in accordance with 24 CFR Part 58 prior to committing CDBG-CV funds to reimburse such costs. After the grantee signs a CDBG-CV agreement, it may reimburse a unit of general local government or subrecipient for costs incurred before the unit of general local government or subrecipient applies to the grantee for assistance.

For grantees subject to the entitlement CDBG regulation at 24 CFR 570.200(h), the following waivers and alternative requirements apply:

In lieu of the effective date described at 570.200(h), the grantee shall use the date in Box 4 of Form HUD-7082, Funding Approval/Agreement.

HUD is waiving the requirement at 570.200(h)(1)(i) and (ii) that the activity for which costs are incurred must be included in a consolidated plan action plan or amended consolidated plan action plan before incurring the costs. Instead, the activity for which costs were incurred must be included in the grantee's CDBG-CV application before CDBG-CV funds are used to reimburse those costs. Or, if the use of CDBG-CV funds for reimbursements is not included in the CDBG-CV application, this use may be included in a subsequent amendment to the annual action plan that describes the use of the CDBG-CV funds (following the grantee's citizen participation plan procedures for amendments).

To facilitate the use of funds provided under a one-time grant rather than an annual appropriation, HUD is waiving the time limitation and the monetary limitation on reimbursements in 570.200(h)(1)(v) and (vi) and related provisions at 570.200(h)(2). HUD is not waiving the requirement at 570.200(h)(1)(iii) to comply with the environmental review procedures stated in 24 CFR Part 58.

All grantees may authorize subrecipients to incur pre-award costs in accordance with pre-award cost authority under 24 CFR 570.200(h), as modified above.

F. Equipment and Real Property Management

1. Except for awards to faith-based organizations, the real property requirements at 24 CFR Part 200 do not apply. The requirements that apply are in 24 CFR section 570.505 (24 CFR section 570.502(a)(5)).
2. NSP grantees that have established and currently operate land banks for homes and residential properties that have been foreclosed upon shall have in place a land bank management plan that will facilitate management and eventual disposition of the land bank inventory. Please reference *Federal Register* Notice of Neighborhood Stabilization Program; Closeout Requirements and Recapture (77 FR 70799).

The CDBG definition of the eligible activity of disposition, at 24 CFR 570.201(b), includes the “reasonable costs of temporarily managing such property.” HUD interprets this to include ongoing maintenance such as board-up, lawn-mowing, spot repairs, and other related functions that keep the property in a condition that stabilizes the neighborhood. Grantees managing scattered-site properties meeting the CDBG definition of a disposition activity must identify each property as a separate disposition activity in IDIS.

3. When equipment is sold, the proceeds are considered program income. Equipment not needed by the subrecipient for CDBG activities shall be transferred to the recipient for the CDBG program or shall be retained after compensating the recipient (24 CFR section 570.502(a)(6)).

H. Period of Performance

1. CDBG entitlement funds must be expended by the end of the eighth fiscal year after the fiscal year of appropriation. This requirement applies to annual CDBG appropriations. Funds must be expended by the end of the fifth fiscal year following the period of obligation. Annual appropriations legislation historically has provided an obligation period of three years for CDBG funding; the combined effect is to provide an expenditure period of eight fiscal years from the fiscal year of appropriation (31 USC 1552).
2. As set forth in Section III.B.7. of CDBG-CV Notice, grantees must expend all CDBG-CV funds (including CDBG-CV funds from additional allocations that are obligated by HUD through amendments to the grant agreement) within the six-year period of performance established by the CDBG-CV grant agreement. In addition, each grantee must expend at least 80 percent of all CDBG-CV funds (including CDBG-CV funds from additional allocations that are obligated by HUD through amendments to the grant agreement) no later than the end of the third year of the period of performance established by the CDBG-CV grant agreement.

CDBG-CV funds will not be included in determining compliance with the timely expenditure requirements applicable to annual formula CDBG grants found at 24 CFR 570.902.

3. NSP1 grantees are required to expend an amount equal to or greater than the initial allocation of NSP1 funds within four years of receipt of those funds (Section II.M. of NSP3 Notice, 75 FR 64336-64337).
4. NSP3 grantees are required to expend an amount equal to or greater than 50 percent of their initial allocation of NSP3 funds within two years of receipt of those funds and 100 percent of their initial allocation of NSP3 funds within three years of receipt of those funds (Section II.M. of NSP3 Notice, 75 FR 64336-64337).
5. The appropriation accounting provisions in 31 USC 1551–1557, added by section 1405 of the National Defense Authorization Act for Fiscal Year 1991 (Pub. L. No. 101–510), limit the availability of certain appropriations for expenditure. Such a limitation may not be waived. The appropriations acts for NSP1 and NSP3 grants direct that these funds be available until expended. Notwithstanding these provisions, *Federal Register* Notice of Changes to NSP Closeout Requirements Related to Program Income Amendment (84 FR 48165) added the following language to Section X. of the Unified NSP1 and NSP3 Notice:

“Note that NSP I and NSP3 grant funds are subject to 31 U.S.C. 1555, which states, ‘An appropriation account available for obligation for an indefinite period shall be closed, and any remaining balance (whether obligated or unobligated) in that account shall be canceled and thereafter shall not be available for obligation or expenditure for any purpose, if (1) the head of the agency concerned or the President determines that the purposes for which the appropriation was made have been carried out; and (2) no disbursement has been made against the appropriation for two consecutive fiscal years.’”

6. CDBG-DR grantees are required to expend their grant funds as soon as possible following the execution of a grant agreement (obligation) with HUD. With the most recent appropriations, HUD instituted a 6-year expenditure deadline on all CDBG-DR grantees. In these instances, a CDBG-DR grantee is required to expend 100 percent of its allocation of CDBG–DR funds on eligible activities within six years of HUD’s execution of the initial grant agreement (applicable to Pub. L. nos. 114-113*, 114-223*, 114-254*, 115-31*, 115-56*, 115-123*, 115-254, and 116-20). Additionally, a CDBG-Mitigation (CDBG-MIT) grantee must expend 50 percent of its grant on eligible activities within six years of HUD’s execution of the grant agreement and 100 percent of its grant within twelve years of HUD’s execution of the agreement (Pub. L. No. 115-123 and Pub. L. No. 116-20). A CDBG-DR grantee receiving an award for a 2011-2013 disaster must expend 100 percent of the funds within two years of the date its grant agreement with HUD is executed (Pub. L. No. 113-2** and Pub. L. No. 112-55). Generally, the remaining active CDBG-DR grantees have funds available until expended (applicable to Pub. L. nos. 107-73, 107-38, 107-73, 107-117, 107-206, 108-324, 109-148, 109-234, 110-116, 110-252, 110-329, and 111-212).

* (CDBG-DR funds awarded under these public laws are eligible for an expenditure extension for up to two years to provide grantees with flexibility during the COVID-19 pandemic.)

** (CDBG-DR funds awarded under Pub. L. No. 113-2 were extended for an additional year by Pub. L. No. 116-20.)

J. Program Income

1. The grantee must accurately account for any program income generated from the use of CDBG funds and must treat such income as additional CDBG funds which are subject to all program rules. Program income does not include income received in a single program year by the grantee and all of its subrecipients if the total amount of such income does not exceed \$25,000 (24 CFR sections 570.500, and 570.504).
2. Making loans and collecting the payments on those loans can be a significant source of program income for grantees. The use of income derived from loan payments is subject to program requirements. This carries with it the responsibility for grantees to have a loan origination and servicing system in effect which ensures that loans are properly authorized, receivables are properly established, earned income is properly recorded and used, and write-offs of uncollectible amounts are properly authorized (24 CFR sections 570.500 and 570.504).
3. As set forth in Section III.B.6.(a) of the CDBG-CV Notice, the receipt and expenditure of program income that is generated by the use of CDBG-CV funds shall be treated as annual formula CDBG program income and recorded as part of the financial transactions of the annual formula CDBG grant program. Based on this treatment of program income, the use of CDBG-CV funds for float-funded activities or guarantees as described at 24 CFR 570.301(b) and section 104(h) of the HCD Act is not allowed.

A grantee may permit subrecipients to retain program income from the use of CDBG-CV funds if the amount held does not exceed the subrecipient's projected cash needs for CDBG activities including activities to prevent, prepare for, and respond to coronavirus.

As program income to the grantees' annual formula CDBG programs, income generated from CDBG-CV activities will be included in timely expenditure compliance determinations for each entitlement grantee's annual formula CDBG program and be subject to the requirements found at 24 CFR 570.902.

Removing the cap in Section 105(a)(8) of the HCD Act for activities to prevent, prepare for, and respond to coronavirus also removes the public services cap on the use of the program income, and removes the corresponding regulatory cap in 24 CFR 570.201(e) for CDBG-CV funds and fiscal year 2019 and 2020 funds used to prevent, prepare for, and respond to coronavirus.

Program income, regardless of the source funding of the activity that generated the income, shall be included in the compliance determination of the public service cap and the administrative and planning cost cap applicable to annual formula CDBG grants and program income, separately from CDBG-CV funds. For purposes of calculating the public services cap, the treatment of program income generated by the CDBG-CV grant and received (i.e., documented in IDIS) by the annual formula CDBG program shall be considered as any other program income received by the annual formula CDBG program.

4. NSP1 or NSP3 revenue received by a unit of general local government or subrecipient that is directly generated from the use of CDBG funds (which includes NSP1 and NSP3 grant funds) constitutes CDBG program income. The CDBG definition of program income shall be applied to amounts received by units of local government and subrecipients (24 CFR section 570.500; Section II.N. of NSP3 Notice, 75 FR 64337). HERA, however, imposes limitations and requirements that necessitate an alternative requirement to govern the use of program income generated by NSP activities. The limitations and requirements are based on the NSP activity that generated the program income and on the date the income is received (Section 2301(d)(4) of HERA).
 - a. Any revenue from the sale, rental, redevelopment, rehabilitation, or any other eligible use of NSP funds is to be provided to and used by the unit of local general government. This provision includes revenue received by a private individual or other entity that is not a subrecipient (Section 2301(d)(4) of HERA; Section II.N. of NSP Notice, 73 FR 58340-58341).
 - b. Program income which is generated by NSP activities carried out pursuant to Section 2301(c)(3) of HERA may be retained by the unit of local government if it is treated as additional CDBG funds and used in accordance with the requirements of Section 2301 (Section 2301(c)(3) of HERA; Section II.N. of NSP Notice, 73 FR 58340-58341).
5. With the advent of *Federal Register* Notice of Changes to NSP Closeout Requirements Related to Program Income (81 FR 38730) and the succeeding NSP closeout notice, Notice of Changes to NSP Closeout Requirements Related to Program Income Amendment (84 FR 48165), NSP1 and NSP3 grantees with CDBG annual formula programs may transfer not only NSP program income on hand, but also a future stream of NSP program income for an activity to the annual CDBG program, eliminating the need for multiple written requests to transfer program income that is anticipated, but not yet received.
6. For CDBG-DR, grantees that generate program income must expend those funds, but grantees also have the option to transfer program income, to the annual CDBG program. There are alternative requirements in the *Federal Register* notices on the HUD Exchange at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/> that provide comprehensive details about program income.

For CDBG-MIT, local government grantees are allowed to use program income for the operation and maintenance of CDBG-MIT projects. There are alternative requirements in the *Federal Register* notices on the HUD Exchange at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/> that provides comprehensive details about program income.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable (cash status only) (*this is the IDIS PR29 Cash on Hand Quarterly Report made available in IDIS on August 12, 2019, which allows grantees to generate this report by custom date ranges and export data to Excel and PDF*)
- d. *Integrated Disbursement and Information System (IDIS) (OMB No. 2506-0077)* – Grantees may include reports generated by IDIS as part of their annual performance and evaluation report that must be submitted for the CDBG Entitlement program 90 days after the end of a grantee’s program year. Section IV.B.2.(c) of the CDBG-CV Notice reiterated the waiver authorized by a May 7, 2020, HUD memorandum (found in the waiver information link noted in *IV. Other Information*, below) that waives the 90 day requirement for program year 2019 annual performance and evaluation reports, subject to the condition that within 180 days after the close of a jurisdiction’s program year that it submit its performance report.

Auditors are only expected to test information extracted from IDIS in the following system-generated reports:

- (1) PR26 – CDBG Financial Summary Report (restricted as of September 14, 2020, to run for CDBG annual formula grants only)
This report can be used to check program income reported in IDIS (line 05), overall low-mod income benefit compliance (line 22), percent of funds obligated to the public services (line 36), and percent of funds obligated to the planning and administrative activities during the program year (line 46).
- (2) PR26 – CDBG-CV Financial Summary Report (made available September 14, 2020, to run for CDBG CARES Act grants only)
This report can be used to check the overall low-mod income benefit compliance (line 15) and percent of funds expended for the planning and administrative activities (line 21).

- (3) PR26 – CDBG Activity Summary by Selected Grant (Added field, as of September 14, 2020, in the report “Activity to prevent, prepare for, and respond to Coronavirus.” This field will be populated with Yes if the checkbox for “Activity to prevent, prepare for, and respond to Coronavirus” is checked on the activity set up screen otherwise Null. Added a subtotal for Coronavirus related activities for Public Services section only.) This report can be used to check percentage of funds expended for the planning and administrative activities for origin year 2015 and later grants.
 - (4) PR29 – CDBG Cash on Hand Quarterly Report
 - (5) PR29 – CDBG-CV Cash on Hand Quarterly Report (available in IDIS in July 2021)
- e. Section 15011 of the CARES Act requires that recipients of \$150,000 or more of CARES Act funding submit, not later than 10 days after the end of each calendar quarter, a report containing: information regarding the amount of funds received; the amount of funds obligated or expended for each project or activity; a detailed list of all such projects or activities, including a description of the project or activity; and detailed information on any subcontracts or subgrants awarded by the recipient. This report is limited to CDBG-CV funding and does not include other CDBG funds that may be used to address coronavirus. The requirements have been outlined in OMB memorandum M-20-21, *Implementation Guidance for Supplement Funding in Response to the Coronavirus Disease (COVID-19)* (available at <https://www.whitehouse.gov/wp-content/uploads/2020/04/Implementation-Guidance-for-Supplemental-Funding-Provided-in-Response.pdf>). Grantees and subrecipients have reported data meeting the Section 15011 requirements at usaspending.gov. The Pandemic Response Accountability Committee (PRAC), an independent oversight committee within the Council of the Inspectors General on Integrity and Efficiency, has determined that the data reported in usaspending.gov has fulfilled these reporting requests.

2. Performance Reporting

Section 3 of the Housing and Urban Development Act of 1968 – The purpose of Section 3 is to ensure that employment and other economic opportunities generated by certain HUD financial assistance shall, to the greatest extent feasible, and consistent with existing federal, state, and local laws and regulations, be directed to low- and very low-income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low- and very low-income persons. Section 3 projects are housing rehabilitation, housing construction, and other public construction projects assisted under HUD programs that provide housing and community development financial assistance when the total amount of assistance

to the project exceeds a threshold of \$200,000. Section 3 reporting is undergoing a transition in fiscal year (FY) 2021. A new Section 3 rule (24 CFR Part 75) became effective on November 30, 2020, replacing the old rule at 24 CFR Part 135. Previously, grantees submitted Section 3 data on the HUD Form 60002 using the automated Section 3 Performance Evaluation and Registry System (SPEARS) (24 CFR sections 135.3(a)(1) and 135.90). As of November 30, 2020, CDBG recipients are still expected to maintain records of Section 3 statutory, regulatory, and contractual compliance, but are no longer required to report such compliance in SPEARS. Beginning in July 2021, grantees shall enter their Section 3 activities on the closeout screens in IDIS as well as within their annual reporting in the Consolidated Annual Performance and Evaluation Report (CAPER). Beginning in July 2021, grantees reporting in Disaster Recovery Grant Reporting system (DRGR) shall identify those activities that are subject to Section 3 requirements in the applicable DRGR action plan. DRGR is the management information system primarily used by CDBG-DR, CDBG-MIT, NSP, and RHP grantees to access grant funds and report performance accomplishments for grant-funded activities. The grantee must enter Section 3 accomplishments in the performance report as progress is made towards the Section 3 benchmarks.

Key line items in the IDIS Section 3 Report, on all projects completed within the reporting year, include the following (similar metrics are found in the DRGR P35-QPR-Section 3 Hours Report):

1. The total number of labor hours worked;
2. The total number of labor hours worked by Section 3 workers; and
3. The total number of labor hours worked by Targeted Section 3 workers.

Section 3 workers' and Targeted Section 3 workers' labor hours may be counted for five years from when their status as a Section 3 worker or Targeted Section 3 worker is established. The labor hours reported must include the total number of labor hours worked on a Section 3 project by all workers, including labor hours worked by any subrecipients, contractors and subcontractors that the recipient is required or elects to report. Please consult 24 CFR Part 75 for the various definitions of the workers noted above. Links to further guidance on Section 3 reporting requirements have been provided in Section IV. Additional Information, below.

For the following performance reports, auditors are not expected to review for compliance with programmatic requirements. Auditors may review whether the reports have been submitted by the required deadlines under each program. In cases where a performance report has not been submitted and an extension, as may be set forth below, is not applicable, auditors should confer with the local HUD field office to determine if an extension has been granted.

Consolidated Annual Performance and Evaluation Report (CAPER) (24 CFR 91.520)

A grantee's CAPER, submitted through the IDIS e-Con Planning Suite, is due 90 days after the close of a jurisdiction's program year. Please reference the note in L.1.d. above regarding an extension of this deadline for the grantee's 2019 program year.

The reporting requirements that apply to the use of annual formula CDBG grants also apply to CDBG-CV grants. Reporting requirements for CDBG-CV grantees can be found at 42 USC 12708(a), 24 CFR 91.520, 24 CFR 570.507 (entitlement). In addition, users are required, as of the June 15, 2020, IDIS release, to identify activities that will prevent, prepare for, and respond to coronavirus.

Quarterly Performance Report (QPR) (OMB No. 2506-0165)

This report is due each quarter from NSP1, NSP2, and NSP3 grantees and then annually after grant closeout. For CDBG-DR and CDBG-MIT grantees, the first QPR is due after the first full quarter following execution of a grant agreement with HUD. The report is submitted in HUD's DRGR system.

Each quarter, after the submission of the QPR, HUD reviews the QPRs and provides approvals/rejection-revision directions to the grantee.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3 – Compliance Requirements, Section L. Reporting, for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements The Wage Rate Requirements apply to the rehabilitation of residential property only if such property contains eight or more units. However, the requirements do not apply to volunteer work where the volunteer does not receive compensation, or is paid expenses, reasonable benefits or a nominal fee for such services, and is not otherwise employed at any time in construction work (42 USC 5310; Section 1205 of Pub. L. No. 111-32; 24 CFR section 570.603).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

As with annual formula CDBG grants, CDBG-CV grants are subject to the Wage Rate Requirements, known more popularly as the Davis-Bacon prevailing wage requirements imposed by section 110(a) of the HCD Act. Under regulations of the Department of Labor (DOL) at 29 CFR 1.6(g), where federal assistance is not approved prior to contract award (or the beginning of construction if there is no contract award), Davis-Bacon wage rates apply retroactively to the beginning of construction and must be incorporated retroactively in the contract specifications. However, if there is no evidence that the

owner intended to apply for the CDBG-CV assistance prior to the contract award or the start of the construction, HUD may request that DOL allow prospective, rather than retroactive, application of the Davis-Bacon wage rates. DOL may allow prospective application of Davis-Bacon requirements when it finds that it is necessary and proper in the public interest to prevent injustice or undue hardship and it finds no intent to apply for the federal assistance before contract award or the start of construction. The CDBG-CV Grantee should contact a HUD Labor Relations Specialist if such a situation arises.

2. Citizen Participation

Compliance Requirements At the time of submission to HUD for its annual grant, the grantee must certify to HUD that it has met the citizen participation requirements in 24 CFR section 91.105.

The CARES Act modifies some CDBG program requirements to provide immediate support for efforts to address coronavirus. The modifications, which are described in more detail in Section III. of the CDBG-CV Notice, permit the following:

- A public comment period of no less than five days when citizen participation is required (detailed in Section III.B.4.(a)(i) of the CDBG-CV Notice)
- A grantee to develop expedited citizen participation procedures and to hold virtual public hearings when necessary for public health reasons (Section III.B.4.(a)(i) of the CDBG-CV Notice)

Section III.B.4.(a)(iii) of the CDBG-CV Notice includes a corollary waiver and alternative requirement to permit states to extend these flexibilities to units of general local government and insular areas.

Section III.B.4.(a) of the CDBG-CV Notice applies to all fiscal year 2019 and 2020 annual formula CDBG grants, regardless of the use of funds. This section of the CDBG-CV Notice describes the program flexibilities provided by the CARES Act related to expedited citizen participation and virtual hearings. When this section refers to CDBG-CV funds, it shall apply equally to fiscal years 2019 and 2020 CDBG grants.

HERA provided for supersession of the citizen participation requirement to expedite the distribution of NSP grant funds and to provide for expedited citizen participation. The provisions of 24 CFR section 91.105 with respect to following the citizen participation plan are waived to allow the jurisdiction to provide no fewer than 15 calendar days for citizen comment, rather than 30 days, for its initial NSP submission (Section II.B.4 of NSP3 Notice, 75 FR 64328).

Grantees must identify what constitutes a substantial amendment to their action plan in their citizen participation plans. Grantees must identify a change in the use of CDBG funds from one activity to another as a substantial amendment, which is subject to the citizen participation process (24 CFR Part 91, Subpart C, and sections 91.105(c) and 91.505).

CDBG-DR and CDBG-MIT grantees must post the Action Plan for public comment for a minimum of seven or up to 30 days, based on the specific requirements identified in the applicable *Federal Register* notice. CDBG-DR and CDBG-MIT grantees are required to ensure that public comments are included in the Action Plan submitted to HUD.

Audit Objectives Determine whether the grantee has developed and implemented a citizen participation plan, including identifying what constitutes a substantial amendment.

Suggested Audit Procedures

- a. Verify that the grantee has a citizen participation plan.
- b. Review the plan to verify that it provides for public hearings, publication, public comment, access to records, and consideration of comments.
- c. Verify that the grantee has identified what constitutes a substantial amendment to its citizen participation plan, and a change in the use of CDBG funds from one activity to another is among the criteria for a substantial amendment.
- d. Examine the grantee's citizen participation records, including items such as public hearing records and minutes, sign-in sheets, and mailing lists of interested parties for evidence that the elements of the citizen's participation plan were followed as the grantee certified.
- e. Green Building Standards. CDBG-DR grantees with appropriations after 2012 are required to ensure that green building standards are applied to all replacement housing and new construction housing activities. Additionally, the Green Building Retrofit Checklist should be used for all housing rehabilitation activities. On the contrary, CDBG-MIT grantees are not required to adhere to these standards but should consider them in the development of their programs.

3. Required Certifications and HUD Approvals

Compliance Requirements CDBG funds (and local funds to be reimbursed with CDBG funds) cannot be obligated or expended before receipt of HUD's approval of a Request for Release of Funds (RROF) and environmental certification, except for exempt activities under 24 CFR section 58.34 and categorically excluded activities under section 58.35(b) (24 CFR section 58.22).

Audit Objectives Determine whether the grantee is obligating and expending program funds only after HUD's approval of the RROF.

Suggested Audit Procedures

- a. Examine HUD's approval of the RROF and environmental certification and note dates.

- b. Review the expenditure and related records to ascertain when CDBG funds and local funds which were reimbursed with CDBG funds, were first obligated or expended and ascertain if any funds were obligated or expended prior to HUD's approval of the RROF.

4. Environmental Reviews

Compliance Requirements Projects must have an environmental review unless they meet criteria specified in the regulations that would exempt or exclude them from RROF and environmental certification requirements (24 CFR sections 58.1, 58.22, 58.34, 58.35, and 570.604).

As is noted in Section III.B.6.(d)(iii) of the CDBG-CV Notice, HUD's environmental review regulations in 24 CFR Part 58 include two provisions that may be relevant to environmental review procedures for activities to prevent, prepare for, and respond to coronavirus. The first is 24 CFR 58.34(a)(10), which provides an exemption for certain activities undertaken in response to a national or locally declared public health emergency. Except for the applicable requirements of 24 CFR 58.6, a responsible entity does not have to comply with the requirements of Part 58 or undertake any environmental review, consultation, or other action under NEPA and the other provisions of law or authorities cited in 24 CFR 58.5 for exempt activities or projects consisting solely of exempt activities. Exempt activities include assistance for temporary or permanent improvements that do not alter environmental conditions and are limited to protection, repair, or restoration activities necessary only to control or arrest the effects from imminent threats to public safety.

The second is a streamlined public notice and comment period in the regulation at 24 CFR 58.33, which may apply in some cases for emergency activities undertaken to prevent, prepare for, and respond to coronavirus. The application of these two provisions following a presidentially declared or locally declared public health emergency is discussed in the Notice, *Guidance on conducting environmental review pursuant to 24 Part 58 for activities undertaken in response to the public health emergency as a result of COVID-19* (CPD-20-07) posted at <https://www.hud.gov/sites/dfiles/OCHCO/documents/2020-07cpdn.pdf>.

CDBG-DR grantees are required to ensure every project/activity undergoes the appropriate level of environmental review and receives clearance and Authorization to Use Grant Funds (AUGF) prior to expending any funds. As a result, special circumstances apply to HUD environmental reviews for disaster recovery efforts, and an environmental review is required accordingly: (a) analysis of impacts of a project on the surrounding environment and vice versa, (b) demonstrates compliance with federal environmental laws and authorities, (c) encourages public participation. Additional CDBG-DR environmental review information and federal regulations can be found at <https://www.hudexchange.info/programs/environmental-review/disaster-recovery-and-environment>.

Audit Objectives Determine whether environmental reviews are being conducted, when required.

Suggested Audit Procedures

- a. Verify through a review of environmental review certifications that the environmental reviews were made.
- b. Select a sample of projects where an environmental review was not performed and ascertain if a written determination was made that the review was not required.
- c. Test whether documentation exists that any determination not to make an environmental review was made consistent with the criteria contained in 24 CFR sections 58.34 and 58.35(b). Some CDBG-DR grantees may use the environmental review for projects that are also funded with FEMA. See *Federal Register* notices.

5. Rehabilitation

Compliance Requirements When CDBG and CDBG-CV funds are used for rehabilitation, the grantee must ensure that the work is properly completed (24 CFR section 570.506). Any NSP-assisted rehabilitation of a foreclosed-upon home or residential property shall be completed to the extent necessary to comply with applicable laws, codes and other requirements relating to housing safety, quality, or habitability, in order to sell, rent, or redevelop such homes and properties. To comply with this provision, a grantee must describe or reference in its NSP action plan amendment what rehabilitation standards it will apply for NSP-assisted rehabilitation (Section 2301(d)(2) of HERA; Section II.I. of NSP Notice, 73 FR 58338).

Audit Objectives Determine whether the grantee ensures that rehabilitation work is properly completed.

Suggested Audit Procedures

- a. Verify that pre-rehabilitation inspections are conducted describing the deficiencies to be corrected.
- b. Ascertain that the deficiencies to be corrected are incorporated into the rehabilitation contract.
- c. For NSP projects, review rehabilitation standards.
- d. Verify through a review of documentation that the grantee inspects the rehabilitation work upon completion to assure that it is carried out in accordance with contract specifications, and that NSP projects were carried out in accordance with rehabilitations standards.

IV. OTHER INFORMATION

Further information about CDBG-CV funding and uses of funds may be found at

https://www.hud.gov/program_offices/comm_planning/cdbg_programs_covid-19.

Further information about available waivers of program requirements for CDBG-CV and other CPD programs may be found at

https://www.hud.gov/program_offices/comm_planning/waivers_covid-19.

Additional grantee CDBG-CV program implementation resources may be found at

<https://www.hudexchange.info/programs/cdbg-cv/>.

Information on CDBG-DR and CDBG-MIT program waivers issued by HUD can be found at

<https://www.hudexchange.info/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices>.

HUD Compliance Reviews. Auditors may consult HUD's Community Planning and Development Monitoring Handbook for the specific compliance review exhibits that HUD uses to determine compliance. The CDBG-DR monitoring exhibits can be found at

https://www.hud.gov/program_offices/administration/hudclips/handbooks/cpd/6509.2. CDBG monitoring exhibits can be found in Chapter 3 following the same link.

Further instructions to grantees who report in DRGR on compliance with Section 3 reporting may be found at

<https://www.hudexchange.info/resource/6413/drgr-fact-sheet-drgr-guidance-on-reporting-section-3-labor-hours/>.

Guidance on Section 3 compliance and reporting may also be found in CPD Notice 21-09, *Section 3 of the Housing and Urban Development Act of 1968, as amended by the Housing and Community Development Act of 1992, final rule requirements for CDBG, CDBG-CV, CDBG-DR, CDBG-MIT, NSP, Section 108, and RHP projects*, found at

<https://www.hud.gov/sites/dfiles/OCHCO/documents/2021-09cpdn.pdf>.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.228 COMMUNITY DEVELOPMENT BLOCK
GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN
HAWAII****I. PROGRAM OBJECTIVES**

The primary objective of the Community Development Block Grants (CDBG)/State's Program and Non-Entitlement Grants in Hawaii (State CDBG Program) is the development of viable communities by providing decent housing, a suitable living environment, and expanded economic opportunities, principally for persons of low- and moderate-income. Grantees can achieve this objective in two ways. First, a grantee can only use funds to assist eligible activities that fulfill one or more of three national objectives. Second, a grantee must spend at least 70 percent of its funds over a one-, two-, or three-year period, as specified by a grantee in its certification, for activities that address the national objective of benefiting low- and moderate-income persons.

The CDBG program was authorized by the Housing and Community Development Act of 1974, Title I, Section 101-122, Pub. L. No. 93-383, Statute 88,633, 42 USC 5301-5322 ("HCDA"). However, it was not until the Omnibus Budget Reconciliation Act of 1981 that Congress authorized the State CDBG program.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act (Pub. L. No. 116-136, March 27, 2020) provided an emergency supplemental appropriation of CDBG funding for states, entitlement communities, and insular areas. This appropriation, referred to as CDBG-CV program funds, is to be used similarly as annual formula grants but specifically to prevent, prepare for, and respond to coronavirus.

The SUPPORT for Patients and Communities Act (Pub. L. No. 115-271, October 24, 2018) ("SUPPORT Act"), established the Pilot Program to Help Individuals in Recovery From a Substance Use Disorder Become Stably Housed ("Recovery Housing Program" or "RHP"). This pilot program authorizes assistance to grantees (states and the District of Columbia) to provide stable, temporary housing to individuals in recovery from a substance use disorder through fiscal year 2023. The Further Consolidated Appropriations Act, 2020 (Pub. L. No. 116-94, December 20, 2019) ("FY 20 Appropriations Act") made available \$25,000,000 for activities authorized under Section 8071 of the SUPPORT Act only to states with an age-adjusted rate of drug overdose deaths above the national overdose mortality rate, according to the Centers for Disease Control and Prevention. The Consolidated Appropriations Act 2021 (Pub. L. No. 116-260, December 27, 2020) ("FY 21 Appropriations Act") made available an additional \$25,000,000 for activities authorized under Section 8071.

The Housing and Economic Recovery Act of 2008 (HERA) (Pub. L. No. 110-289, July 30, 2008) provided funds for emergency assistance for redevelopment of abandoned and foreclosed homes and residential properties, and provides under a rule of construction that, unless HERA provides otherwise, the grants are to be considered CDBG funds. The grant program under Title III of HERA is referred to as the Neighborhood Stabilization Program (NSP). These HERA funds are

also referred to as NSP-1 in the Neighborhood Stabilization Program (see Assistance Listing 14.256, II, “Program Procedures”). Section 1497 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) (Pub. L. No. 111-203, July 21, 2010) authorized additional funding for NSP that is referred to as NSP3. NSP funding provided under the American Recovery and Reinvestment Act of 2009 (Pub. L. No. 111-5, February 17, 2009) (ARRA) is referred to as NSP2 and NSP-TA, which are covered by the Neighborhood Stabilization Program (Recovery Act Funded) (Assistance Listing 14.256) and audited separately.

The Community Development Block Grant disaster recovery (CDBG-DR) and Community Development Block Grant mitigation (CDBG-MIT) funding is authorized under Title I of the HCDA. Public laws are the appropriation acts that provide funding for each disaster: Pub. L. nos. 116-20; 115-254; 115-123; 115-72; 115-56 (Division B); 115-31 (Sec. 421); 114-254; 114-223; 114-113; 113-2; 112-55; 111-212; 110-329; 110-252; 110-116; 109-234; 109-148; 108-324; 107-206; 107-117; 107-73; and 107-38. The auditor must consult the relevant public law for the CDBG-DR award. The auditor can find links to the appropriate public law at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/>. In addition to CDBG-DR, HUD is now authorized to administer the CDBG-MIT program under Title I of the HCDA. The public laws that appropriated funds for this purpose include Pub. L. nos. 115-123 (Division B) and 116-20 (Division B).

II. PROGRAM PROCEDURES

A. Overview

HUD allocates CDBG funds according to a statutory formula, pursuant to Section 106(d) of the HCDA (42 USC 5306(d)), to those states that elect to administer CDBG non-entitlement funds. A state, in turn, distributes most of its allocation to non-entitlement units of general local government (units of general local government that do not qualify for grants under the CDBG Entitlement Program) through a method of distribution. As such, the state is primarily a pass-through entity as defined by 2 CFR Part 200 (except for certain funds a state may use directly, such as administration and technical assistance).

The states that have elected to administer the CDBG non-entitlement funds include all states except Hawaii. Additionally, 42 USC 5302(a)(2) of the HCDA defines Puerto Rico as a state. For CDBG-DR and CDBG-MIT, Puerto Rico, United States Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands are considered states under disaster recovery allocations.

The state of Hawaii chose not to administer the non-entitlement funds. Therefore, the non-entitlement counties in Hawaii, which otherwise would have been eligible for funding under the State CDBG program, are generally subject to the CDBG Entitlement regulations. However, the regulations apply differently to those grantees in the following ways: (1) their funding comes from Section 106(d) of the HCDA (42 USC 5306(d)); (2) funds are distributed using the formula contained in 24 CFR 570.429(c); reallocations due to grant reductions, or funds not applied for, go to the other non-entitlement counties in Hawaii on a pro rata basis (24 CFR 570.429(d)); (3) non-entitlement counties are not

eligible to use the exception criteria in 24 CFR 570.208(a)(1)(ii); and (4) 24 CFR 570.307 (Urban Counties) and 24 CFR 570.308 (Joint Requests) do not apply to non-entitlement counties in Hawaii. Except for these differences, non-entitlement counties in Hawaii follow the requirements of the CDBG Entitlement program (Assistance Listing 14.218).

B. Subprograms/Program Elements

The CARES Act provided an emergency supplemental appropriation of CDBG funding for states, as well as entitlement communities and insular areas under the CDBG program. A CDBG-CV recipient may undertake a wide range of activities directed toward assisting their community to prevent, prepare for, and respond to coronavirus, including: public services designed to increase the capacity of the local health system to address the pandemic; emergency income payment programs to assist low- and moderate-income individuals and families; interim assistance activities to address the public health emergency; assistance to microenterprises or other for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out critical services; assistance for the acquisition, rehabilitation, or construction of facilities for coronavirus testing, diagnosis, or treatment; and coronavirus planning and capacity building activities. Unlike the annual formula program, a state may use a portion of its funds to act directly to carry out activities through employees, contractors, and subrecipients in all geographic areas within its jurisdiction, including entitlement areas and tribal populations.

The RHP program supports individuals in recovery onto a path to self-sufficiency. By providing stable housing to support recovery, RHP supports efforts for independent living. More specifically, RHP provides the funds to develop housing or maintain housing for individuals. States may carry out activities directly or through subrecipients or contractors with their RHP funds and in all geographic areas within its jurisdiction, including entitlement areas and tribal populations.

The NSP1 and NSP3 grants are special CDBG allocations to address the problem of abandoned and foreclosed homes. HERA and the Dodd-Frank Act established the need, targets the geographic areas, and limits the eligible uses of NSP funds. A state choosing to carry out an activity directly must apply the requirements of 24 CFR 570.483(b) to determine whether the activity has met the low-, moderate-, and middle-income national objective. Section 2301(f)(3)(A) of HERA defines eligible individuals and families as those that do not exceed 120 percent of area median income, which differs from the annual formula CDBG program requirements.

HUD provides flexible CDBG-DR grants to help cities, counties, and states recover from Presidentially declared disasters, especially in low-income areas, subject to availability of supplemental appropriations. In response to presidentially declared disasters, Congress may appropriate additional funding for the CDBG program as CDBG-DR grants to rebuild the affected areas and provide crucial seed money to start the recovery process. Since CDBG-DR assistance may fund a broad range of recovery activities, HUD can help communities and neighborhoods that otherwise might not recover due to limited resources.

HUD also provides CDBG-MIT grants to help presidentially declared cities, counties and states alleviate risk and reduce future losses. Through these grants, HUD can help grantees support data-driven project design, build grantees' capacity to analyze risks and update its hazard mitigation plans, and support community risk reduction policy development. These grants are made to grantees that experienced prior qualifying disasters. The auditor can find links to the appropriate public law at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/>.

The *Federal Register* notices that govern the use of CDBG-DR and CDBG-MIT funds are available at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices> and <https://www.hudexchange.info/programs/cdbg-mit/>. Auditors should consult the applicable *Federal Register* notices for the specific CDBG-DR or CDBG-MIT award allocated to the state.

Source of Governing Requirements

The State CDBG program is subject to Title I of the HCDA (42 USC 5301 et seq.). Implementing regulations may be found at 24 CFR Part 570, Subpart I. Any subparts other than Subpart I do not apply to the State CDBG program except as expressly provided otherwise. In addition to federal statutory and regulatory requirements, a state has the authority to issue rules consistent with federal statutes and regulations. An auditor should review the State CDBG program requirements rules before beginning the audit (24 CFR 570.480 and 570.481).

The State CDBG program was authorized by the Omnibus Budget Reconciliation Act of 1981. Therefore, the State CDBG program is excluded from coverage of some subparts of 2 CFR Part 200, however, the provisions set-forth in the fiscal requirements contained in 24 CFR 570.489 does apply some of the elements of 2 CFR Part 200. For State CDBG, in lieu of subparts C, D, and E of 2 CFR Part 200, see:

- 24 CFR 570.489(a) for limitations on administration and planning costs,
- 24 CFR 570.489(b) for pre-agreement cost requirements, Note: In addition to the state being allowed to incur costs before signing the grant agreement with HUD, the State may also establish procedures to allow a unit of general local government to incur pre-agreement costs before signing the award with the State.
- 24 CFR 570.489(c) for federal grant payment requirements, which references the requirements related to Treasury-State Agreements at 31 CFR Part 205,
- 24 CFR 570.489(d) for fiscal controls and accounting procedures, which includes three options for State CDBG grantees: (i) Using fiscal and administrative requirements applicable to the use of its own funds; (ii) Adopting new fiscal and administrative requirements; or (iii) Applying the provisions in 2 CFR Part 200,

- 24 CFR 570.489(e) and (f) for program income requirements, including revolving funds held by the state or awarded units of general local government.
- 24 CFR 570.489(j) and (k) for requirements regarding real and personal property (equipment), including the change of use of real property under the unit of general local government's control (including activities undertaken by subrecipients). In lieu of 24 CFR Part 200, the state shall establish and implement requirements governing the use, management, and disposition of real and personal property acquired with CDBG funds.
- 24 CFR 570.489(p) for provisions related to cost principles and prior approval, which reapplies 2 CFR Part 200, Subpart E, except that certain cost items are allowable without the prior approval of HUD.

These alternative requirements to sections of 2 CFR Part 200 are applicable to state grantees of CDBG (but not the non-entitlement counties in Hawaii) and its subrecipients.

CDBG-CV is authorized in title 12 of Division B of the CARES Act. HUD published a “*Notice of Program Rules, Waivers, and Alternative Requirements Under the CARES Act for CDBG-CV Grants, FY 2019 and 2020 CDBG Grants, and for Other Formula Programs*” (85 FR 51457, August 20, 2020) (“CDBG-CV Notice”) that establishes the program rules, alternative requirements, and the regulatory waivers for the use of CDBG-CV funds.

RHP is authorized in Section 8071 of the SUPPORT Act. HUD established the requirements for the RHP program, based on CDBG program requirements, in the “*Notice of FY2020 Allocations, Waivers, and Alternative Requirements for the Pilot Recovery Housing Program*” (85 FR 75361, November 25, 2020) (“RHP Program Notice”). Those requirements include waivers and alternative requirements to CDBG regulations and the HCDA for the use of RHP funds appropriated under the FY 20 Appropriations Act. HUD extended those requirements through the “*Notice of Waivers and Alternative Requirements for the Pilot Recovery Housing Program*” (86 FR 38496, July 21, 2021) (“RHP FY21 Notice”) to RHP funds appropriated by the FY 21 Appropriations Act and any future RHP appropriations.

NSP1, NSP2, and NSP3 funds are subject to HERA, ARRA, and the Dodd-Frank Act, respectively, and based on CDBG Program Requirements. NSP1 is authorized by Title III of Division B of HERA. HUD published a “*Notice of Allocations, Application Procedures, Regulatory Waivers Granted to and Alternative Requirements for Emergency Assistance for Redevelopment of Abandoned and Foreclosed Homes Grantees Under the Housing and Economic Recovery Act, 2008*” (NSP Notice) that advises the public of the allocation formula, allocation amounts, the list of grantees, alternative requirements, and the waivers of regulations provided to NSP funds (see “Availability of Other Program Information” below). The notices are available at <https://www.hudexchange.info/nsp/nsp-laws-regulations-and-federal-register-notices/>. The requirements of HERA have been updated by (1) a notice in the *Federal Register*, Docket No. FR-5255-N-02 (NSP1 Bridge Notice) on June 19, 2009 (74 FR 29223-29229), which provided revisions and technical corrections to the NSP Notice and changes to NSP made by ARRA; (2) a notice in the *Federal Register*, Docket No. 5321-N-03 (NSP Notice) on April 9, 2010 (75 FR 18228-18231) to note a change in definitions and modification to the NSP; (3) the Dodd-Frank Wall Street Reform and Consumer Protection Act of July 21, 2010 (Pub. L. No.

111-203); and (4) a notice in the *Federal Register*, Docket No. FR-5447-N-01 (NSP3) on October 19, 2010 (75 FR 64322-64348) to incorporate the bridge notice, the changes made by ARRA, and additional changes and clarification. Most of these requirements were incorporated into the NSP3 Notice.

CDBG-DR and CDBG-MIT funding is subject to Title I of the HCDA. The *Federal Register* notices that govern the use of CDBG-DR funds are located at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices> and <https://www.hudexchange.info/programs/cdbg-mit/>. Auditors should consult the applicable *Federal Register* notices for the specific CDBG-DR and CDBG-MIT awards allocated to a state.

Availability of Other Program Information

HUD publishes “CPD Notices” which provide interpretive guidance on program requirements. These Notices may be found at HUDClips, https://www.hud.gov/program_offices/administration/hudclips/notices/cpd. For the State CDBG program, CPD Notice 2021-11 *Reporting Requirements for the State Performance and Evaluation Report (State PER)* provides guides on the financial statements used by State CDBG grantees in lieu of SF-425.

Additional information about CDBG-CV is available at the HUD CDBG Programs Covid-19 Grantee Guidance website at https://www.hud.gov/program_offices/comm_planning/cdbg_programs_covid-19.

The specific Notice relevant to the CDBG-CV program is as follows: https://www.hud.gov/sites/dfiles/CPD/documents/CDBG-CV_Note_Federal_Register_Publication_2002-08.pdf.

Additional information about RHP is available at the HUD Recovery Housing Program website at https://www.hud.gov/program_offices/comm_planning/rhp.

The specific Notice relevant to the RHP program is as follows: <https://www.hud.gov/sites/dfiles/CPD/documents/6225-N-01-R1-RHP-Notice-10-26-20-Final.pdf>.

Additional information about the NSP is available at the HUD NSP website at <https://www.hudexchange.info/programs/nsp/>.

The specific Notices relevant to the NSP1, NSP2, and NSP3 programs and their web locations are as follows:

- a. “NSP Notice” (73 FR 58330, October 6, 2008) at <https://www.hudexchange.info/resources/documents/NSP1Notice.pdf>
- b. “NSP1 Bridge Notice” (74 FR 29223, June 19, 2009) at https://www.hudexchange.info/resources/documents/nsp1_bridgenotice_061909.pdf

- c. “NSP Definition and Modification Notice” (75 FR 18228, April 9, 2010) at <https://www.govinfo.gov/content/pkg/FR-2010-04-09/pdf/2010-8131.pdf>
- d. “NSP3 Notice” (75 FR 64322, October 19, 2010) at https://www.hudexchange.info/resources/documents/UnifiedNSP1NSP3Notice_101910.pdf

The specific *Federal Register* notices relevant to CDBG-DR and CDBG-MIT funding are available on the HUD Exchange at <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/> and <https://www.hudexchange.info/programs/cdbg-mit/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N

Y	Y	N	N	Y	N	Y	N	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. Section 105(a) of the HCDA (42 USC 5305(a)) lists the activities eligible under the State CDBG Program, which include: (a) the acquisition of real property; (b) the acquisition, construction, reconstruction, or installation of public works, facilities and site, or other improvements, including those that promote energy efficiency; (c) code enforcement in deteriorated or deteriorating areas; (d)

clearance, demolition, reconstruction, rehabilitation, and removal of buildings and improvements; (e) removal of architectural barriers that restrict accessibility of elderly or severely disabled persons; (f) payments to housing owners for losses of rental income incurred in temporarily holding housing for the relocated; (g) disposition of real property acquired under this program; (h) provision of public services (subject to limitations contained in the CDBG regulations); (i) payment of the nonfederal share for another grant program that is part of the assisted activities; (j) payment to complete a Title 1 Federal Urban Renewal project; (k) relocation assistance; (l) planning activities; (m) administrative costs; (n) acquisition, construction, reconstruction, rehabilitation, or installation of commercial or industrial buildings; (o) assistance to neighborhood-based nonprofit organizations, local development corporations, nonprofit organizations serving the development needs of communities in non-entitlement areas to carry out a neighborhood revitalization or community economic development or energy conservation project; (p) activities related to development of energy use strategies; (q) assistance to private, for-profit businesses, when appropriate to carry out an economic development project; (r) rehabilitation or development of housing assisted under Section 17 of the United States Housing Act of 1937; (s) technical assistance to public or private entities for capacity building (exempt from the planning/administration cap); (t) housing services related to HOME-funded activities; (u) assistance to institutions of higher education to carry out eligible activities; (v) assistance to public and private entities (including for-profits) to assist micro-enterprises; (w) payment for repairs and operating expenses for acquired “in Rem” properties; (x) direct home ownership assistance to facilitate and expand home ownership among persons of low- and moderate-income; (y) lead-based paint hazard evaluation and removal; and (z) construction or improvement of tornado-safe shelters for residents of manufactured housing and provision of assistance to nonprofit and for-profit entities for such construction or improvement (42 USC 5305; 24 CFR 570.482(a)).

Section III.B.5.(f) of the CDBG-CV Notice, *Eligible Activities*, further specifies that a grantee may use CDBG-CV funds only for those activities carried out to prevent, prepare for, and respond to coronavirus. By law, use of funds for any other purpose is unallowable. Some funded activities may address the direct effects of the virus, while other activities respond to the indirect effects. Some CDBG-eligible activities, such as public services, economic development and microenterprise assistance, and public facilities clearly tie back to the purposes of the CARES Act. The CDBG-CV Notice, however, does not limit a grantee from carrying out any particular eligible CDBG activity described in the HCDA because other CDBG eligible activities, such as acquisition, can meet the purpose of the CARES Act.

2. In State CDBG, under the national objective criteria, each activity must either: benefit low- and moderate-income families; aid in the prevention or elimination of slums or blight; or meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources

are not available. The state must retain documentation justifying its certifications (24 CFR 570.483 and 570.490).

3. In State CDBG, states and non-entitlement units of general local governments may have loans guaranteed by HUD under Section 108 of the HCDA. HUD may guarantee loan funds in an amount no greater than five times a grantee's most recent annual CDBG grant, less amounts currently guaranteed or due for repayment under section 108; this is referred to as a grantee's borrowing capacity (for a non-entitlement unit of general local government, HUD uses the state's borrowing capacity. A grantee may only use guaranteed loan (or "Section 108") funds for the following activities: (a) acquisition of real property; (b) housing rehabilitation; (c) rehabilitation of publicly owned real property; (d) eligible CDBG economic development activity; (e) relocation payments; (f) clearance, demolition, and removal; (g) payment of interest on Section 108 guaranteed obligations; (h) payment of issuance and other costs associated with private-sector financing under this subpart; (i) site preparation related to redevelopment or use of real property acquired or rehabilitated pursuant to this subpart or for economic development purposes; (j) construction of housing by nonprofit organizations for homeownership under Section 17(d) of the US Housing Act of 1937 (12 USC 1715(l)) or Title VI of the Housing and Community Development Act of 1987; (k) debt service reserve; (l) acquisition, construction, reconstruction, rehabilitation or installation of public works and site or other improvements that serve "colonias" (as defined in Section 916 of the Housing Act of 1990 and amended by Section 810 of the Housing and Community Development Act of 1992); and (m) acquisition, construction, reconstruction, rehabilitation, or installation of public facilities (except for buildings for the general conduct of government), public streets, sidewalks, and other site improvements and public utilities (24 CFR 570.703).
4. The CDBG public benefit standards prohibit funding the following activities: (a) general promotion of the community as a whole; (b) assistance to professional sports teams; (c) assistance to privately owned recreational facilities that serve a predominately higher-income clientele, where the recreational benefit to users or members clearly outweighs employment or other benefits to low- and moderate-income persons; (d) acquisition of land for which the specific proposed use has not yet been identified; and (e) assistance to a for-profit business while that business or any other business owned by the same person(s)/entity(ies) is the subject of unresolved findings of noncompliance relating to previous CDBG assistance provided by the recipient (24 CFR 570.482(f)(4)(ii)). For CDBG-DR, the public benefit standards are waived for only those economic development activities designed to create or retain jobs or businesses; please consult applicable *Federal Register* notices.
5. For RHP grantees, although the SUPPORT Act provides that RHP funds are treated as CDBG funds, not all CDBG eligible activities in section 105 of the HCD Act satisfy the purpose of RHP funds to provide stable, temporary housing to individuals in recovery from a substance use disorder. The RHP Program

Notice imposes the following waiver and alternative requirement to modify section 105(a) for the statutory purpose described in the SUPPORT Act: public facilities and improvements; acquisition of real property; lease, rent, and utility payments as eligible public services; rehabilitation and reconstructions of single-unit residential buildings and improvements; rehabilitation and reconstructions of multi-unit residential buildings and improvements; rehabilitation and reconstruction of public housing and improvements; disposition of real property; clearance and demolition; relocations; expansion of existing eligible activities to include new construction; grant administration; and technical assistance.

6. For NSP1 and NSP3 funds, HERA requirements have superseded some CDBG requirements to allow for eligible uses in Section 2301(c)(3) of HERA. The NSP categories and CDBG entitlement regulations are listed in Section II.H.3.a. of the NSP3 Notice. Section II.A. of the NSP Definition and Modification Notice provided definitional changes to “Abandoned” and “Foreclosed” properties, which expanded the inventory of available properties under NSP. In addition, Section 1497(b)(2) of the Dodd-Frank Act specified the date for a “Notice of Foreclosure.” The NSP eligible uses are to:
 - a. establish financing mechanisms for purchase and redevelopment of foreclosed upon homes and residential properties
 - b. purchase and rehabilitate homes and residential properties that have been abandoned or foreclosed upon for later sale, rent, or redevelopment
 - c. establish and operate land banks for homes that have been foreclosed upon (Section A of NSP1 Bridge Notice clarified that NSP funds can be used to establish and operate land banks)
 - d. demolish blighted structures
 - e. redevelop demolished or vacant properties

The NSP Notice lists the CDBG-eligible activities that HUD has determined best correlate to these specific NSP-eligible uses. A grantee must receive written HUD approval to undertake activities other than those listed in Section II.H of the NSP Notice and Section II.H.3.a. of the NSP3 Notice.

7. For NSP1 and NSP3 funds, NSP requirements supersede existing CDBG requirements to permit the use of only the low- and moderate-income national objective for NSP-assisted activities. An NSP activity may not qualify using the “prevent or eliminate slums and blight” or “address urgent community development needs” national objectives. HERA redefines and supersedes the definition of “low- and moderate-income,” effectively allowing households whose incomes exceed 80 percent of area median income but do not exceed 120 percent of median income to qualify as if their incomes did not exceed the published low- and moderate-income levels of the regular CDBG program (Section II.E. of the NSP3 Notice). HUD refers to this new income group as “middle income” and

maintain the regular CDBG definitions of “low-income” and “moderate-income” currently in use (Section 2301(f)(3)(A) of HERA).

8. For purposes of NSP only, an activity may meet the HERA-established low- and moderate-income national objective if the assisted activity: (1) provides or improves permanent residential structures that will be occupied by a household whose income is at or below 120 percent of area median income; (2) serves an area in which at least 51 percent of the residents have incomes at or below 120 percent of area median income; or (3) serves a limited clientele whose incomes are at or below 120 percent of area median income (Section 2301(f)(3)(A) of HERA; Section II.E. of the NSP Notice and of the NSP3 Notice).
9. For CDBG-DR and CDBG-MIT, in addition to the activities allowed for CDBG as outlined above, additional flexibilities apply to CDBG-DR and CDBG-MIT funds. HUD allows funding for the following activities: (a) program administrative costs up to five percent of total grant amount and program income; (b) program planning costs up to 20 percent of combined with administration costs unless otherwise limited by the *Federal Register* notices to only 15 percent of the total grant; (c) public services costs up to 15 percent of total grant amount and program income. In addition, the secretary may provide waivers or specify alternative requirements if such waiver is not inconsistent with the overall purpose of Title I of the HCDA. However, the secretary may not waive requirements related to fair housing, nondiscrimination, labor standards, and the environment.

For CDBG-DR awards made after 2013, the *Federal Register* notices prohibit assistance for second homes and limit business assistance to small businesses. For CDBG-DR awards made for disasters that occurred in 2017, disaster funds cannot be used for rehabilitation/reconstruction assistance to persons with incomes that exceed 120 percent area median income if they are located in a floodplain and have failed to maintain flood insurance.

For funds provided for 2015 disasters and beyond, the Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Pub. L. No. 116–20, June 6, 2019) (“2019 Disaster Appropriations Act”) authorized flexibility around the use of administrative funds for grantees that received funding under certain Public Laws. A grantee that received funds under Pub. L. nos. 114–113, 114–223, 114–254, 115–31, 115–56, 115–123, and 115–254, or any future act may use eligible administrative funds (up to 5 percent of each grant award plus up to 5 percent of program income generated by the grant) appropriated by these acts for the cost of administering any of these grants without regard to the particular disaster appropriation from which such funds originated. This flexibility allows these grantees to use up to 5 percent of each grant award (plus up to 5 percent of program income) to administer its disaster programs across all applicable appropriations (“*Allocations, Common Application, Waivers, and Alternative Requirements for Disaster Community Development Block Grant Disaster Recovery Grantees*” (85 FR 4681, January 27, 2020)).

For CDBG-MIT grantees, the 2019 Disaster Appropriations Act authorizes the same flexibility for administrative funds as the 2015 and beyond disasters (*“Allocations, Common Application, Waivers, and Alternative Requirements for Community Development Block Grant Mitigation Grantees”* (84 FR 45838, August 30, 2019)).

For all other applicable waivers or alternative requirements, auditors should consult the *Federal Register* notices on the HUD Exchange: <https://www.hudexchange.info/programs/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/>.

B. Allowable Costs/Cost Principles

1. Pursuant to State CDBG requirements at 24 CFR 570.489(p), all items of cost listed in 2 CFR Part 200, Subpart E, which require prior federal agency approval are allowable without prior approval, except for the following:
 - a. Depreciation methods for fixed assets shall not be changed without the approval of the federal cognizant agency.
 - b. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent), housing allowances, and personal living expenses (goods or services for personal use), regardless of whether reported as taxable income to the employees, require prior HUD approval.
 - c. Organization costs require prior HUD approval.
2. Fines, penalties, damages, and other settlements are unallowable (24 CFR 570.200(a)(5)).
3. For CDBG-CV, a grantee may use CDBG-CV funds only for those activities carried out to prevent, prepare for, and respond to coronavirus. By law, use of funds for any other purpose is unallowable. The CARES Act provides that CDBG-CV funds may be used to cover or reimburse allowable costs of activities to prevent, prepare for, and respond to coronavirus incurred by a state or locality, including pre-award costs incurred on January 21 or later (unless otherwise approved by HUD).
4. For RHP, a grantee may only use RHP funds for allowable activities to provide individuals in recovery from a substance use disorder stable, temporary housing for a period of not more than two years or until the individual secures permanent housing, whichever is earlier. The RHP Program Notice modifies 24 CFR 570.489(b) to permit a state grantee to charge allowable pre-agreement costs incurred by itself, its recipients, or subrecipients to the RHP grant and require that all pre-agreement costs comply with RHP program requirements, including applicable requirements at 2 CFR Part 200 and Environmental Review Procedures stated in 24 CFR Part 58.

F. Equipment and Real Property Management

1. For State CDBG and CDBG-CV grantees, the requirements for personal property (equipment) and real property management are contained in 24 CFR section 570.489(j) and (k).

24 CFR 570.489(k) *Accountability for real and personal property*. This provision says the state shall establish and implement requirements governing the use, management, and disposition of real and personal property acquired with CDBG funds. States may adopt 24 CFR Part 200 or set alternative requirements consistent with state law and 24 CFR 570 subpart I (including 570.489(j)).

24 CFR 570.489(j) *Change of use of real property*. These standards apply to real property within the unit of general local government's control (including activities undertaken by subrecipients) which was acquired or improved in whole or in part using CDBG funds in excess of the threshold for small purchase procurement (24 CFR 200.88). These standards shall apply from the date CDBG funds are first spent for the property until five years after closeout of the unit of general local government's grant from the state. Auditors should be aware that these provisions are not applicable to real property held by beneficiaries (i.e., CDBG grantees are not required to place property liens and other resale/repayment provisions upon housing-related assistance provided to low- and moderate-income households, though some grantees and subrecipients may choose to establish and implement such requirements).

2. For RHP grantees, the statutory and regulatory provisions governing the CDBG program shall apply to grantees. For purposes of the RHP program, all references to "unit of general local government" in 24 CFR 570.489(j), shall be read as "state and unit of general local government."
 - a. RHP funds may be used for disposition through sale, lease, or donation, or otherwise of real property acquired with RHP funds subject to 24 CFR 570.201(b) and section 105(a)(7) of the HCD Act (42 USC 5305(a)(7)), for the purpose of providing stable, temporary housing for individuals in recovery from a substance use disorder.
 - b. Eligible costs may include costs incidental to disposing of the property, such as preparation of legal documents, fees paid for surveys, transfer taxes, and other costs involved in the transfer of ownership of the RHP-assisted property.
3. NSP grantees that have established and currently operate land banks for homes and residential properties that have been foreclosed upon **shall** have in place a land bank management plan that will facilitate management and eventual disposition of the land bank inventory. Please reference *Federal Register* Notice of Neighborhood Stabilization Program; Closeout Requirements and Recapture (77 FR 70799).

The CDBG definition of the eligible activity of disposition, at 24 CFR 570.201(b), includes the “reasonable costs of temporarily managing such property.” HUD interprets this to include ongoing maintenance such as board-up, lawn-mowing, spot repairs, and other related functions that keep the property in a condition that stabilizes the neighborhood. Grantees managing scattered-site properties meeting the CDBG definition of a disposition activity must identify each property as a separate disposition activity in IDIS.

H. Period of Performance

1. State CDBG and CDBG-CV accounts on the line of credit will cancel at the end of their eighth federal fiscal year, including the fiscal year of the appropriation. For example, the CDBG grant account will cancel at the end of FY2027 for funds appropriated in FY2020. Furthermore, as set forth in Section III.B.7. of the CDBG-CV Notice, a grantee must expend all CDBG-CV funds (including CDBG-CV funds from additional allocations that are obligated by HUD through amendments to the grant agreement) within the six-year period of performance established by the CDBG-CV grant agreement. In addition, a grantee must expend at least 80 percent of all CDBG-CV funds (including CDBG-CV funds from additional allocations that are obligated by HUD through amendments to the grant agreement) no later than the end of the third year of the period of performance established by the CDBG-CV grant agreement. Pursuant to Section III.B.7.(c.) of the CDBG-CV Notice, HUD may authorize extensions on the three-year expenditure and/or six-year period of performance requirements based on evidence of an extenuating circumstance.
2. For RHP, the grantee must expend all RHP funds before the end of the period of performance on September 1 of the seventh Federal fiscal year from the fiscal year of the appropriation (Section II.C. of the RHP FY21 Notice). For example, an RHP grantee must expend all RHP funding appropriated in the FY 20 Appropriations Act by September 1, 2027.
3. NSP1 grantees are required to expend an amount equal to or greater than the initial allocation of NSP1 funds within four years of receipt of those funds (Section II.M. of the NSP3 Notice).
4. NSP3 grantees are required to expend an amount equal to or greater than 50 percent of their initial allocation of NSP3 funds within two years of receipt of those funds and 100 percent of their initial allocation of NSP3 funds within three years of receipt of those funds (Section II.M. of the NSP3 Notice).
5. A CDBG-DR grantee is required to expend its grant funds as soon as possible following the execution of a grant agreement (obligation) with HUD. With the most recent appropriations, HUD instituted a six-year expenditure deadline on all CDBG-DR grantees. A grantee receiving CDBG-DR grants under the following Public Laws are required to expend 100 percent of the grant on eligible activities within six years of HUD’s execution of the initial grant agreement (Pub. L. nos.

114-113*; 114-223*; 114-254*; 115-31*; 115-56*; 115-123*; 115-254; and 116-20). Additionally, a CDBG-MIT grantee must expend 50 percent of the grant on eligible activities within six years of HUD's execution of the grant agreement and 100 percent of its grant within 12 years of HUD's execution of the agreement (Pub. L. nos. 115-123 and 116-20). Moreover, a CDBG-DR grantee receiving an award for a 2011-2013 disaster must expend 100 percent of the funds within two years of the date its grant agreement with HUD is executed (Pub. L. nos. 113-2** and 112-55). Generally, a remaining active CDBG-DR grantee has funds available until expended (Pub. L. nos. 107-73; 107-38; 107-73; 107-117; 107-206; 108-324; 109-148; 109-234; 110-116; 110-252; 110-329; and 111-212).

*CDBG-DR funds awarded under these public laws are eligible for an expenditure extension for up to two years to provide grantees with flexibility during the COVID-19 pandemic.

**CDBG-DR funds awarded under Pub. L. No. 113-2 were extended for an additional year by Pub. L. No. 116-20.

J. Program Income

1. For the State CDBG program, regulations applicable to program income are found at 24 CFR 570.489(e) and (f). For example, program income does not include income up to \$35,000 (other than receipts from revolving loan funds) received in a single program year by a unit of general local government and its subrecipients (24 CFR 570.489(e)(2)(i)).
2. Proceeds from the sale of real property purchased or improved with CDBG funds are not program income if the proceeds are received more than five years after closeout of the grant agreement between the state and the unit of general local government (24 CFR 570.489(e)(2)(v)).
3. As set forth in Section III.B.6.(a) of the CDBG-CV Notice, the receipt and expenditure of program income that is generated by the use of CDBG-CV funds is treated as annual formula CDBG program income and recorded as part of the financial transactions of the annual formula CDBG grant program. Based on this treatment of program income, the use of CDBG-CV funds for float-funded activities or guarantees as described at section 104(h) of the HCDA is not allowed.
4. Income generated from the use of RHP funds is subject to 42 USC 5304(j) and 24 CFR 570.489(e). To expedite or facilitate the use of RHP funds, the RHP Program Notice issued the following alternative requirements to program income provisions at 24 CFR 570.489(e): HUD modified 24 CFR 570.489(e)(1) to modify the definition of "program income" to include gross income received by subrecipients that was generated from the use of RHP funds. In addition, HUD modified 24 CFR 570.489(e)(2) to exclude from program income any income received and retained by a nonprofit operating within the grantee's jurisdiction

whose primary mission includes serving individuals in recovery from substance use disorder. If a grantee chooses to require the nonprofit to return income generated from the use of RHP funds, the income returned by the nonprofit to the grantee would be defined as program income.

The RHP Program Notice also requires a grantee to transfer program income and program assets to another open RHP grant or its annual CDBG program. Program income and assets received by a grantee after closeout of all RHP grants must be transferred to the grantee's annual CDBG award. Once transferred to the annual program, the waivers and alternative requirements that apply to the RHP grant no longer apply to the use of transferred program income. Rather, those funds will be subject to the grantee's regular CDBG program rules.

5. NSP revenue received by a state, unit of general local government, or subrecipient that is directly generated from the use of CDBG funds (which includes NSP grant funds) constitutes CDBG program income. The CDBG definition of program income shall be applied to amounts received by states, units of general local government, and subrecipients (24 CFR 570.500; Section II.N. of the NSP3 Notice).
 - a. Any revenue from the sale, rental, redevelopment, rehabilitation, or any other eligible use of NSP funds is to be provided to and used by the state or unit of general local government. Revenue received by a private individual or other entity that is not a subrecipient is not required to be returned to the state or unit of general local government (Section B of NSP1 Bridge Notice).
 - b. Program income generated by NSP activities carried out pursuant to Sections 2301(c)(3) of HERA may be retained by the state or unit of general local government (Section 2301(c)(3) of HERA; Section B of the NSP1 Bridge Notice).
6. For CDBG-DR, grantees that generate program income must expend those funds, but grantees also have the option to transfer program income to the annual CDBG program.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. SF-425, Federal Financial Report – Not Applicable to State CDBG and State CDBG-CV(see *CPD Notice 21-11*). State CDBG's equivalent

financial report is entitled the *PR28 Financial Summary*, or equivalent grant financial statement (see item d, below).

For NSP and RHP grantees, the SF-425 is provided annually.

- d. *PR28 Financial Summary Report (OMB No. 2506-0085)* – This financial statement is due from each state CDBG grantee within 90 days after the close of its program year. The *PR28 Financial Summary Report* instructions are found in Notice CPD-21-11, which is available at <https://www.hud.gov/sites/dfiles/OCHCO/documents/2021-11cpdn.pdf> and includes a checklist for the review of the report. Auditors should find a *PR28 Financial Summary* for each open grant as an attachment to the Consolidated Annual Performance Report (CAPER) which are published at <https://www.hudexchange.info/programs/consolidated-plan/con-plans-aaps-capers/>.
- e. The Federal Funding Accountability and Transparency Act of 2006, FFATA is applicable to State CDBG, State CDBG-CV, CDBG-DR, NSP, and RHP.

2. Performance Reporting

Financial Auditors are not expected to review the following performance reports for compliance with programmatic requirements. Auditors may review whether the reports have been submitted by the required deadlines under each program. If a performance report has not been submitted, auditors should confer with the local HUD field office to determine if an extension has been granted.

For State CDBG and State CDBG-CV, the *Consolidated Annual Performance and Evaluation Report (CAPER)* (42 USC 12708(a), 24 CFR 91.520, and 24 CFR 570.491, OMB Control Number 2506-0117) is due 90 after the close of a jurisdiction's program year. However, the HUD Field Office is able to grant extensions.

For NSP, State CDBG-DR and CDBG-MIT grantees submit the *Quarterly Performance Report (QPR)* is due (OMB No. 2506-0165) after the first full quarter following execution of a grant agreement with HUD.

For RHP, a grantee must submit an annual performance report (including financial reports) as described in the RHP Program Notice no later than 30 days following the end of each federal fiscal year.

For all programs under Assistance Listing 14.228, *Section 3 of the Housing and Urban Development Act of 1968* is applicable (24 CFR Part 75). A grantee is required to submit annual reports related to hiring opportunities and labor hours. Again, financial auditors are not expected to review the Section 3 performance reports for compliance with programmatic requirements. Auditors may review whether the reports have been submitted by the required deadlines under each

program. If a performance report has not been submitted, auditors should confer with the local HUD field office to determine if an extension has been granted.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements The Wage Rate Requirements apply to the rehabilitation of residential property only if such property contains eight or more units. However, the requirements do not apply to volunteer work where the volunteer does not receive compensation, or is paid expenses, reasonable benefits, or a nominal fee for such services, and is not otherwise employed at any time in construction work (42 USC 5310).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Environmental Oversight

Compliance Requirements A state must assume the environmental oversight responsibilities and functions of HUD under Section 104(g) of the HCDA (42 USC 5304(g)). A state must: (1) require each of its units of general local government (subrecipients) to perform as a responsible federal official in carrying out all HUD environmental review requirements under 24 CFR Part 58, National Environmental Policy Act (NEPA), and other applicable authorities; (2) review and approve each subrecipient's Request for Release of Funds (RROF) in accordance with the procedures provided under 24 CFR Part 58 Subpart H; (3) ensure that each subrecipient observes the statutory requirement that funds cannot be expended or obligated before the state approves its RROF and environmental certification, except as otherwise provided specifically in regulation or authorized by law; and (4) monitor and provide technical assistance to its subrecipients to ensure compliance with the environmental authorities (24 CFR Part 58) and the adequacy of environmental reviews.

A CDBG-DR and CDBG-MIT grantee is required to ensure every project/activity undergoes the appropriate level of environmental review and receives clearance and Authorization to Use Grant Funds (AUGF) prior to expending any funds. As a result, special circumstances apply to HUD environmental reviews for disaster recovery efforts, and an Environmental Review is required accordingly: (a) analysis of impacts of a project on the surrounding environment and vice versa; (b) demonstrates compliance with federal environmental laws and authorities; and (c) encourages public participation.

Additional CDBG-DR Environmental Review information and federal regulations can be found at <https://www.hudexchange.info/programs/environmental-review/disaster-recovery-and-environment>.

Audit Objectives Determine whether a state carries out its environmental oversight responsibilities and functions.

Suggested Audit Procedures

- a. Examine the state's program for monitoring and enforcing compliance with the environmental authorities.
- b. Examine the state's approval of the RROF and environmental certification and note dates.
- c. Verify that the state obtained certifications and that the state's records provide evidence that it obligated and expended the funds after the state's approval of the RROF and environmental certification.

3. Environmental Reviews

Compliance Requirements Activities must have an environmental review unless they meet criteria specified in the regulations that would exclude them from RROF and environmental certification requirements. A state that carries out NSP activities directly are considered recipients and must assume environmental review responsibilities for the state's activities and those of any nongovernmental entity that participates in the project. A state that carries out activities directly must submit the RROF and the certifications to HUD for approval (24 CFR 58.4(b)(1), 58.34, and 58.35).

HUD's environmental review regulations in 24 CFR Part 58 include two provisions that may be relevant to environmental review procedures for activities to prevent, prepare for, and respond to coronavirus. The first is 24 CFR 58.34(a)(10), which provides an exemption for certain activities undertaken in response to a national or locally declared public health emergency. Except for the applicable requirements of 24 CFR 58.6, a responsible entity does not have to comply with the requirements of Part 58 or undertake any environmental review, consultation, or other action under NEPA and the other provisions of law or authorities cited in 24 CFR 58.5 for exempt activities or projects consisting solely of exempt activities. Exempt activities include assistance for temporary or permanent improvements that do not alter environmental conditions and are limited to protection, repair, or restoration activities necessary only to control or arrest the effects from imminent threats to public safety.

The second is a streamlined public notice and comment period in the regulation at 24 CFR 58.33, which may apply in some cases for emergency activities undertaken to prevent, prepare for, and respond to coronavirus. The application of these two provisions following a presidentially-declared or locally-declared public health emergency is discussed in CPD Notice 20-07, *Guidance on conducting environmental review pursuant to 24 Part 58 for activities undertaken in response to the public health emergency as a*

result of COVID-19 (August 6, 2020) posted at <https://www.hud.gov/sites/dfiles/OCHCO/documents/2020-07cpdn.pdf>.

For RHP activities carried out directly by the state, the state must submit the certification and RROF to HUD for approval.

Audit Objectives Determine whether the state conducted required environmental reviews and obtained required HUD approvals.

Suggested Audit Procedures

- a. Verify that the state obtained environmental review certifications from the subrecipient and that the state records provide evidence that the environmental reviews were made.
- b. For any project where an environmental review was not performed, ascertain that a written determination was made that the review was not required.
- c. Ascertain that documentation exists that any determination not to make an environmental review was made consistent with the criteria contained in 24 CFR 58.34 and 58.35.
- d. Verify that states obtained HUD approvals of RROFs and environmental certifications for state activities.
- e. Verify that for state activities funds were obligated and expended after HUD approval of state RROFs and environmental certifications. Some CDBG-DR grantees may use the environmental review for projects that are also funded with FEMA. See *Federal Register* notices.

4. Citizen Participation

Compliance Requirements Prior to the submission to HUD for its annual grant, a grantee must certify to HUD that it has met the citizen participation requirements in 24 CFR 91.115 and 570.486, as applicable.

The CARES Act modifies some CDBG program requirements to provide immediate support for efforts to address coronavirus, described in Section III of the CDBG-CV Notice. Section III.B.4.(a)(iii) of the CDBG-CV Notice includes a corollary waiver and alternative requirement to permit states to extend these flexibilities to units of general local government and insular areas.

Section III.B.4.(a) of the CDBG-CV Notice applies to all fiscal year 2019 and 2020 annual formula CDBG grants, regardless of the use of funds. This section of the CDBG-CV Notice describes the program flexibilities provided by the CARES Act related to expedited citizen participation and virtual hearings. Where this section refers to CDBG-CV funds, it applies equally to fiscal year 2019 and 2020 CDBG grants.

Section II.H. of the RHP Program Notice provides an overview of the grant process and RHP Action Plan requirements. The grantee develops the proposed RHP Action Plan and publishes it in accordance with the grantee's adopted citizen participation plan it has established in accordance with 24 CFR 91.105 (District of Columbia) or 24 CFR 91.115 (states) and the RHP Program Notice.

HERA provided for supersession of the citizen participation requirement to expedite the distribution of NSP grant funds and to provide for expedited citizen participation. The provisions of 24 CFR 570.485 and 570.486 with respect to following the citizen participation plan are waived to allow the jurisdiction to provide no fewer than 15 calendar days for citizen comment, rather than 30 days, for its initial NSP submission (Section II.B.4. of the NSP Notice and of the NSP3 Notice).

A CDBG-DR and CDBG-MIT grantee must post the Action Plan for public comment for a minimum of seven or up to 30 days, based on the specific requirements identified in the applicable *Federal Register* notice. A CDBG-DR and CDBG-MIT grantee is required to ensure that public comments are included in the Action Plan submitted to HUD.

Audit Objectives Determine whether the CDBG grantee has developed and implemented a citizen participation plan.

Suggested Audit Procedures

- a. Verify that the grantee has a citizen participation plan.
- b. Review the plan to verify that it provides for public hearings, publication, public comment, access to records, and consideration of comments.
- c. Examine the grantee's records for evidence that the elements of the citizen's participation plan were followed as the grantee certified.
- d. HUD Compliance Reviews. Auditors may consult HUD's Community Planning and Development Monitoring Handbook for the specific compliance review exhibits that HUD uses to determine compliance. The CDBG-DR monitoring exhibits can be found at https://www.hud.gov/program_offices/administration/hudclips/handbooks/cpd/6509.2.

5. Rehabilitation Using NSP Funds

Compliance Requirements Any NSP-assisted rehabilitation of a foreclosed-upon home or residential property shall be completed to the extent necessary to comply with applicable laws, codes and other requirements relating to housing safety, quality, or habitability, in order to sell, rent or redevelopment such homes and properties. To comply with this provision, a grantee must describe or reference in its NSP action plan amendment what rehabilitation standards it will apply for NSP-assisted rehabilitation (Section 2301(d)(2) of HERA; Section II.I. of NSP3 Notice, 75 FR 64333).

Audit Objectives To determine whether the grantee ensures NSP rehabilitation work is properly completed.

Suggested Audit Procedures

- a. Review rehabilitation standards established for NSP work.
- b. Verify through a review of documentation that the rehabilitation work is inspected upon completion to ensure that it is carried out in accordance with applicable rehabilitation standards.

IV. OTHER INFORMATION

Information on CDBG-DR and CDBG-MIT waivers and alternative requirements issued by HUD can be found at <https://www.hudexchange.info/cdbg-dr/cdbg-dr-laws-regulations-and-federal-register-notices/>.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.231 EMERGENCY SOLUTIONS GRANTS PROGRAM

I. PROGRAM OBJECTIVES

The Emergency Solutions Grants (ESG) program provides grants to states, metropolitan cities, urban counties, and territories for (1) the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, (2) the payment of certain expenses related to operating emergency shelters, (3) essential services related to emergency shelters and street outreach for the homeless, and (4) homelessness prevention and rapid re-housing assistance.

In addition to the ESG Allocation in the fiscal year (FY) 2020 budget, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) Pub. L. No. 116-136 (2020) announced the allocation formula, amounts, and requirements for an additional \$3.96 billion in funding through the ESG program (ESG-CV). These funds must be used to prevent, prepare for, and respond to coronavirus, among individuals and families who are homeless or receiving homeless assistance and to support additional homeless assistance and homelessness prevention activities to mitigate the impacts created by coronavirus. Requirements at 24 CFR Part 576 will apply to the use of these funds, unless otherwise provided by the alternative requirements and flexibilities established under the CARES Act, this Notice, or subsequent waivers, amendments, or replacements to the Notice.

II. PROGRAM PROCEDURES

ESG program funds are provided under this program according to a formula based on the Community Development Block Grant Program (CDBG) formula. The percentage allocated will be equal to the percentage of the total amount available under CDBG for the prior fiscal year. To receive funds, each eligible entity must submit a Consolidated Plan (including an Annual Action Plan) to the Department of Housing and Development Urban (HUD). Metropolitan cities, urban counties, and territories may subgrant funds to private nonprofit organizations.

HUD allocated \$1,000,000,000 of the FY 2020 CARES funds to recipients of the FY 2020 ESG funds based on the same formula HUD used under 24 CFR 576.3. The remaining \$2,960,000,000 in funds were allocated directly to states and units of general local government according to a formula developed by the secretary, as required by the CARES Act:

https://www.hud.gov/sites/dfiles/CPD/documents/ESG_CARES_Act_Round_2_Allocation_Met_hodology_rev.pdf. A list of recipients is provided at:

https://www.hud.gov/program_offices/comm_planning/budget/fy20/.

The Housing Opportunity Through Modernization Act of 2016, Pub. L. No. 114-201 (HOTMA), July 29, 2016, amended the McKinney-Vento Act to permit metropolitan cities and urban counties receiving ESG funding to subgrant their ESG funds to public housing agencies (PHAs) and local redevelopment authorities (LRAs) for eligible ESG activities. Prior to HOTMA, ESG recipients and subrecipients were not permitted to sub-award ESG program funds to PHAs or LRAs.

An urban county is a county that was classified as an urban county under 42 USC 5302(a) for the fiscal year immediately preceding the fiscal year for which ESG program funds are made available. States must subgrant all of their grant funds (except for funds for administrative costs and, under certain conditions, Homeless Management Information Systems (HMIS) costs) to (1) units of general purpose local government in the state (including metropolitan cities and urban counties that receive direct ESG program grants from HUD); and (2) private nonprofit organizations (provided that, for emergency shelter activities, the state obtains approval from the local government for the geographic area in which those activities are to be carried out). Each recipient must consult with the Continuum(s) of Care operating within the jurisdiction in determining how to allocate ESG program funds.

For ESG-CV and annual ESG funds used to prevent, prepare for, and respond to coronavirus, ESG, Notice CPD-21-08 provides recipients and subrecipients with the following additional flexibilities related to the means for carrying out grant activities:

- States are permitted to use up to 100 percent of grant funds to carry out activities directly;
- States are permitted to subaward funds to public housing agencies, as defined under section 3(b)(6) of the United States Housing Act of 1937, and local redevelopment authorities, as defined under state law;
- Recipients and subrecipients are permitted to subaward funds to tribes and tribally-designated housing entities (TDHEs). As provided in Section I.B.1.e of Notice CPD-21-08, the definition of “subrecipient” at 24 CFR 576.2 is waived to expressly include Indian tribes and TDHEs;
- Notice CPD-21-08 waived the definition of “State” in Section 411 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.2 to include an instrumentality of the Commonwealth of Puerto Rico. Additionally, the definition of “Territory” is waived to include an instrumentality of a Territory;
- The Commonwealth of Puerto Rico may subaward funds to an instrumentality of the Commonwealth; and
- Territories may subaward funds to an instrumentality or municipality.

Source of Governing Requirements

The ESG program is authorized under Title IV, Subtitle B of the McKinney-Vento Homeless Assistance Act, as amended (42 USC 11371-11378). Implementing regulations are at 24 CFR Part 576.

The ESG-CV program is authorized under Coronavirus Aid, Relief, and Economic Security Act (CARES Act) Pub. L. No. 116-136. HUD issued [Notice CPD-20-08](#) to announce the allocation formula, amounts, and requirements for ESG-CV funding. HUD subsequently published [Notice CPD-21-08](#) (published July 19, 2021), which supersedes Notice CPD-20-08 (published on September 1, 2020) and reestablishes the allocation formula and amounts and reestablishes and

announces new requirements for the \$3.96 billion in funding provided for the ESG Program under the CARES Act. The following waivers provided additional flexibilities for the use of ESG-CV funds.

- [Notice CPD-21-05: Waiver and Alternative Requirements for the Emergency Solutions Grants \(ESG\) Program Under the CARES Act \(April 14, 2021\) – PDF](#) ‘
- [Availability of Additional Waivers for Community Planning and Development \(CPD\) Grant Programs to Prevent the Spread of COVID-19 and Mitigate Economic Impacts Caused by COVID-19 \(March 31, 2021\) – PDF](#)
- [Availability of Additional Waivers for CPD Grant Programs to Prevent the Spread of COVID-19 and Mitigate Economic Impacts Caused by COVID-19 \(May 22, 2020\) - PDF](#)
- [Availability of Additional Waivers for CPD Grant Programs to Prevent the Spread of COVID-19 and Mitigate Economic Impacts Caused by COVID-19 \(September 30, 2020\) – PDF](#)
- [CARES Act Flexibilities for ESG and HOPWA Funds Used to Support Coronavirus Response and Plan Amendment Waiver \(May 4, 2020\) – PDF](#)
- [Availability of Waivers of Community Planning and Development \(CPD\) Grant Program and Consolidated Plan Requirements to Prevent the Spread of COVID-19 and Mitigate Economic Impacts Caused by COVID-19 \(March 31, 2020\) – PDF](#)

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	N	N	Y

A. Activities Allowed or Unallowed

1. ESG funds may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities. The five program components and the eligible activities that may be funded under each are set forth in 24 CFR 576.101 through 576.107. Eligible administrative activities are set forth in 576.108.
2. CPD Notice 21-08 establishes additional eligible activities that may be funded with ESG-CV and annual ESG funds used to prevent, prepare for, and respond to coronavirus. The requirements at 24 CFR 576 – Subpart B apply, except that the additional eligible activities listed in Section III.E.3. of the notice are also eligible:
 - a. Temporary Emergency Shelter
 - b. Training
 - c. Hazard Pay
 - d. Handwashing Stations and Portable Bathrooms
 - e. Landlord Incentives
 - f. Volunteer Incentives
 - g. Cell Phones and Internet
 - h. Personal Protective Equipment (PPE) for Program Participants
 - i. Furniture and Household Furnishings
 - j. Essential Services for Individuals and Families Receiving Rapid Re-housing and Homelessness Prevention Assistance

- k. Centralized or Coordinated Entry
- l. Renters Insurance
- m. Vaccine Incentives
- n. Laundry
- o. Sponsor-based Rental Assistance

G. Matching, Level of Effort, Earmarking

1. Matching

For ESG, recipients, other than states and territories, must match the funding provided by HUD under its ESG program with an equal amount from sources other than those provided under the ESG program. Territories are exempt from this requirement. A state is exempt from matching the first \$100,000 of its grant but must match the rest with an equal amount from sources other than those provided under the ESG program (24 CFR section 576.201).

Match is not required for ESG-CV per the CARES Act (Pub. L. No. 116-136 (2020)), so this does not apply to recipients ESG-CV allocation. The match requirement is also waived for annual ESG funds used to prevent, prepare for, and respond to coronavirus (see CPD Notice: CPD-21-08, Section III.C).

2. Level of Effort

2.1 Level of Effort – *Maintenance of Effort*

Not Applicable

2.2 Level of Effort – *Supplement Not Supplant*

For the street outreach and emergency shelter components, if a recipient or subrecipient is a unit of general purpose local government, its ESG program funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit (24 CFR section 576.101(c)).

3. Earmarking

- a. For ESG, the total amount of each recipient's fiscal year grant that may be used for street outreach and emergency shelter activities cannot exceed the greater of: (1) 60 percent of the recipient's fiscal year grant; or (2) the amount of FY 2010 ESG program funds committed for homeless

assistance activities (24 CFR 576.100(b)). For ESG-CV and annual ESG funds used to prevent, prepare for, and respond to coronavirus, there is no cap on the amount used for street outreach or emergency shelter activities.

- b. The recipient may use up to 7.5 percent of its ESG program project costs for the payment of administrative costs related to the planning and execution of ESG activities (24 CFR section 576.108(a)). For ESG-CV and annual ESG funds used to prevent, prepare for, and respond to coronavirus, the recipient may use up to 10 percent of its program costs for administration.

I. Procurement and Suspension and Debarment

The debarment and suspension regulations at 2 CFR Part 180 and 2 CFR Part 2424 apply as written, except that, as provided by the CARES Act, the recipient may deviate from the applicable procurement standards (e.g., 24 CFR 576.407(c) and (f) and 2 CFR 200.317-200.326) when procuring goods and services to prevent, prepare for, and respond to coronavirus. If the recipient deviates from its procurement standards, then the recipient must establish alternative written procurement standards, and maintain documentation on the alternative procurement standards used to safeguard against fraud, waste, and abuse in the procurement of goods and services to prevent, prepare for, and respond to coronavirus. This alternative requirement is necessary to ensure that the funds are used efficiently and effectively to prevent, prepare for, and respond to coronavirus. This alternative requirement applies to ESG recipients only and does not apply to subrecipients.

N. Special Tests and Provisions

1. Maintenance as Homeless Shelters

Compliance Requirements Any building renovated with ESG program funds for use as an emergency shelter for homeless persons must be maintained as a shelter for homeless persons for not less than a three-year period or, if the renovation constitutes major rehabilitation or conversion of the building, for not less than a 10-year period. The minimum use period begins on the date the building is first occupied by a homeless individual or family after the completed renovation. The minimum period of use of ten years must be enforced by a recorded deed or use restriction (24 CFR section 576.102(c)).

The minimum period of use requirements are waived for temporary emergency shelter renovation activities funded by ESG-CV and annual ESG funds used to prevent, prepare for, and respond to coronavirus; however, if funds were used for acquisition or renovation (including conversion or major rehabilitation), the property's use and disposition will be subject to the requirements provided in section III.E.3.a(iii) of Notice CPD-21-08. The real property requirements at 2 CFR 200.311 still apply; however, when the property is determined no longer necessary or appropriate for use as a temporary emergency shelter, as defined in Notice CPD-21-08, the property may be converted for

use as an emergency shelter without triggering the disposition requirements in 2 CFR 200.311(c). However, when it becomes unnecessary or impracticable to use the property either as temporary emergency shelter or emergency shelter, as described in Notice CPD-21-08, the owner of the property must obtain disposition instructions from HUD as provided by 2 CFR 200.311(c).

Audit Objectives Determine whether buildings renovated or converted for use as an emergency shelter with ESG program funds are maintained as emergency shelters for the required time periods and provide the required recorded deed or use restriction.

Suggested Audit Procedures

- a. Verify the existence of the buildings improved with ESG program funds and their current use as a homeless shelter.
- b. Inquire of management whether any buildings improved with ESG program funds in prior years are no longer being used as shelters, and if so, whether the prescribed three- or ten-year period had expired.
- c. Verify that a building where the renovation constituted a major rehabilitation or conversion of the building has a recorded deed or use restriction.

2. Obligation, Expenditure and Payment Requirements

Compliance Requirements *Obligation-ESG*. Funds allocated to states. Within 60 days from the date that HUD signs the grant agreement with a state (or grant amendment for reallocated funds), the recipient must obligate the entire grant, except the amount for its administrative costs. Within 120 days after the date that the state obligates its funds to a unit of general-purpose local government, the local government must obligate all of those funds.

Obligation-ESG. Funds allocated to metropolitan cities, urban counties, and territories. Within 180 days after the date that HUD signs the grant agreement (or a grant amendment for reallocation of funds) with a metropolitan city, urban county, or territory, the recipient must obligate all of the grant amount, except the amount for its administrative costs.

Obligation-ESG-CV. **Obligation Deadlines**. To ensure that all funding and flexibilities provided by the CARES Act and HUD under Notice can be used as necessary to prevent, prepare for, and respond to coronavirus, HUD waived the regulatory obligation deadlines and standards for meeting those deadlines and established alternative requirements as follows:

ESG-CV funds must be obligated by the recipient in accordance with 24 CFR 576.203(a)(1) and (2), except as provided below. The applicable period for obligating ESG-CV funds begins on the date HUD signed the recipient's grant agreement for the first allocation of ESG-CV funds. The obligation deadlines below apply to the both the first and second allocation of ESG-CV funds. HUD is also providing further flexibility

for recipients (including states and non-states) to provide additional time to identify entities that have capacity and expertise to mitigate the impacts of coronavirus, including those who have not previously or recently received ESG funding.

- a. Recipients that are states (including the Commonwealth of Puerto Rico) have:
 - (1) 180 days from the date HUD signs the grant agreement to obligate funds for activities it will carry out directly, as permitted in Section III.A.1. of Notice CPD-21-08. This obligation may be evidenced by a written designation of a department within the government to carry out an eligible activity directly; and
 - (2) up to 240 days from the date HUD signs the grant agreement to obligate ESG-CV funds to subrecipients. Recipients must maintain in the program records a description of any changes the recipient implemented to identify and select new subrecipients.
- b. Recipients that are metropolitan cities, urban counties, or territories may have up to 240 days from the date HUD signs the grant agreement to obligate ESG-CV funds. Recipients must maintain in their program records a description of any changes the recipient implemented to identify and select new subrecipients.

Expenditures-ESG. All of the recipient's grant must be expended for eligible activity costs within 24 months after the date HUD signs the grant agreement with the recipient. For the purpose of this requirement, expenditure means either an actual cash disbursement for a direct charge for a good or service or an indirect cost or the accrual of a direct charge for a good or service or an indirect cost.

Payments to Subrecipients. The recipient must pay each subrecipient for allowable costs within 30 days after receiving the subrecipient's complete payment request. This requirement also applies to each subrecipient that is a unit of general-purpose local government (24 CFR section 576.203).

Expenditures-ESG-CV. The requirements at 24 CFR 576.203(b) generally apply, except that the provision that all the recipient's grant must be expended for eligible activity costs within 24 months after the date HUD signs the grant agreement with the recipient is waived and the following alternative requirements are established:

- a. Overall Deadline for Expending First and Second Allocations. All funds awarded to a recipient through the first and second allocations of ESG-CV funds must be expended for eligible activity costs by September 30, 2022.
- b. Progressive Expenditure Deadlines and Recapture Provisions. To ensure ESG-CV funds are spent quickly on eligible activities to address the public health and economic crises caused by coronavirus, the following alternative requirements were established:

- (1) HUD may recapture up to 20 percent of a recipient's total award, including first and second allocation amounts, if the recipient has not expended at least 20 percent of that award by September 30, 2021.
- (2) HUD may recapture up to 80 percent of a recipient's total award, including first and second allocation amounts, if the recipient has not expended at least 80 percent of that award by March 31, 2022.

Audit Objectives Determine whether funds were obligated and expended within HUD-prescribed limits, and that payments were made to subrecipients on a timely basis.

Suggested Audit Procedures

- a. Determine the time periods for funds to be obligated and expended for the selected entities.
- b. Review records to determine the dates that funds were obligated and expended, as applicable.
- c. Review records to verify that payments to subrecipients were made within the 30-day time period after receipt of a complete payment request.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.235 SUPPORTIVE HOUSING PROGRAM****I. PROGRAM OBJECTIVES**

The Supportive Housing program is designed to promote the development of supportive housing and supportive services, including innovative approaches to assist homeless persons in the transition from homelessness, and to promote the provision of supportive housing to homeless persons so they can live as independently as possible (24 CFR section 583.1).

II. PROGRAM PROCEDURES

Grants are provided to state, local governments, other governmental entities, private nonprofit organizations, and community mental health associations that are public nonprofit organizations (24 CFR section 583.5). Funds may be used for (1) transitional housing to facilitate the movement of homeless individuals and families to permanent housing; (2) permanent housing that provides long-term housing for homeless persons with disabilities; (3) housing that is, or is part of, a particularly innovative project for, or alternative methods of, meeting the immediate and long-term needs of homeless persons; or (4) supportive services for homeless persons not provided in conjunction with supportive housing (24 CFR section 583.1(b)).

Source of Governing Requirements

The Supportive Housing program is authorized under Title IV, Subtitle C of the McKinney-Vento Homeless Assistance Act (42 USC 11301). The implementing regulations are at 24 CFR Part 583.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
N	N	N	N	Y	Y	Y	Y	Y	N	N	Y

G. Matching, Level of Effort, Earmarking

1. Matching

- a. The nonfederal entity must match the grant funds provided by HUD for acquisition, rehabilitation, and new construction with an equal amount of funds from other sources. The matching funds must be cash resources provided to the project by one or more of the following: the nonfederal entity, the federal government, state and local governments, and private sources (24 CFR section 583.145).
- b. HUD may provide grants to pay for a portion of the actual operating costs of supportive housing. assistance for operating costs is available for up to 75 percent of the total cost in each year of the grant. The nonfederal entity must pay with its own funds the percentage of the actual operating costs not funded by HUD. At the end of each operating year, the nonfederal entity must demonstrate that it has met its share of the costs for that year (24 CFR section 583.125).
- c. All funding for supportive services must be matched by 25 percent funding from nonfederal entity (Pub. L. No. 105-276).

2. Level of Effort

2.1 Level of Effort – Maintenance of Effort

Not Applicable

2.2 Level of Effort – Supplement Not Supplant

- a. No assistance provided under this program, or any state or local government funds used to supplement this assistance, may be used to replace state or local funds previously used, or designated for use, to assist homeless persons (24 CFR section 583.150(a)).

- b. State or local government funds used in the matching contribution may be used to replace state or local funds previously used, or designated for use, to assist homeless persons (24 CFR section 583.145(c)).

3. Earmarking

No more than 5 percent of any grant awarded may be used for paying the costs of administering the assistance. Administrative costs include the costs associated with accounting for the use of grant funds, preparing reports for submission to HUD, obtaining program audits, and similar costs related to administering the grant after award. The administrative costs do not include the cost of carrying out eligible activities under 24 CFR sections 583.105 through 583.125 (24 CFR section 583.135).

J. Program Income

Income from resident rent payments may be used in the operation of the project or may be reserved, in whole or in part, to assist residents of transitional housing in moving to permanent housing (24 CFR section 583.315(b)).

N. Special Tests and Provisions

1. Reasonable Rental Rates

Compliance Requirements Where grants are used to pay for rent for all or a part of a structure, the rent paid must be reasonable in relation to rents being charged in the area for comparable space. In addition, the rent may not exceed rents currently being charged by the same owner for comparable space (24 CFR section 583.115(b)(1)).

Where grants are used to pay rent for individual housing units, the rent paid must be reasonable in relation to rents being charged for comparable units taking into account relevant features. In addition, the rents may not exceed rents currently being charged by the same owner for comparable unassisted units, and the portion of rents paid with grant funds may not exceed HUD-determined fair market rents. Nonfederal entities may use grant funds in an amount up to one month's rent to pay the non-recipient landlord for any damages to leased units by homeless participants (24 CFR section 583.115(b)(2)).

Audit Objectives Determine reasonableness of the rents being paid by the nonfederal entities.

Suggested Audit Procedures

- a. Determine the acceptability of the manner in which the nonfederal entity establishes rent reasonableness and the rents charged by the owner for comparable unassisted units. Ascertain through an examination of documentation that telephone surveys, site visits after telephoning, more extensive market surveys of

available rental units, or similar tools, were used to assess the reasonableness of rents being charged.

- b. Verify by a review of the rental records that the contract rents being paid are comparable with those paid for unassisted units, no more than one month's rent is paid for tenant damages, and that the portion of rents paid with grant funds do not exceed fair market rents.

2. Use of Property

Compliance Requirements All nonfederal entities receiving assistance for acquisition, rehabilitation, or new construction must agree to operate the supportive housing or provide supportive services for a term of at least 20 years from the date of initial occupancy or the date of initial service provision. If HUD determines that a project is no longer needed for use as supportive housing or to provide supportive services and approves the use of the project for the direct benefit of low-income persons pursuant to a request for such use by the nonfederal entity operating the project, HUD may authorize the nonfederal entity to convert the project to such use (24 CFR section 583.305).

Audit Objectives Determine whether there are valid agreements for the provision of supportive housing or supportive services when assistance is provided for acquisition, rehabilitation, or new construction.

Suggested Audit Procedure

Verify that a binding agreement exists between the nonfederal entity and owner of the structure, if other than the nonfederal entity, covering the provision of supportive housing or supportive services for 20 years if the grant assistance involves acquisition, rehabilitation, or new construction.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.238 SHELTER PLUS CARE

I. PROGRAM OBJECTIVES

The Shelter Plus Care program is designed to link rental assistance to supportive services for hard-to-serve homeless persons with disabilities (primarily those who have a serious mental illness; have chronic problems with alcohol, drugs, or both; or have acquired immunodeficiency syndrome (AIDS) and related diseases and their families if they are also homeless (24 CFR section 582.1).

II. PROGRAM PROCEDURES

The program provides grants to states, units of general local government, or public housing agencies (PHAs). The grants are to be used to provide rental assistance so homeless persons with disabilities can obtain permanent housing. Rental assistance grants must be matched in the aggregate by supportive services that are equal in value to the amount of rental assistance and appropriate to the needs of the population to be served. Recipients are chosen on a competitive basis nationwide (24 CFR section 582.1).

Rental assistance is provided through the four components described in 24 CFR section 582.100: (1) tenant-based rental assistance (TRA); (2) project-based rental assistance (PRA); (3) sponsor-based rental assistance (SRA); and (4) moderate rehabilitation for single room occupancy (SRO) dwellings. Applicants may apply for assistance under any one of the four components. The Compliance Supplement's section relating to Assistance Listing 14.856 (4-14.182) should be used in auditing the moderate rehabilitation program for SRO dwellings.

The grant amount is based on the number and size of units to be assisted by the applicant over the grant period. It is calculated by multiplying the number of units to be assisted by their fair market rents for the term of the grant in months. The amount determined will be reserved for rental assistance over the grant period (24 CFR sections 582.105(b) and (c)).

Source of Governing Requirements

The Shelter Plus Care program is authorized under Title IV, Subtitle F of the McKinney-Vento Homeless Assistance Act (42 USC 11403). Implementing regulations are at 24 CFR Part 582.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program

supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
N	N	N	N	Y	Y	Y	Y	Y	N	N	Y

G. Matching, Level of Effort, Earmarking

1. Matching

A grantee must provide or ensure the provision of supportive services that are at least equal in value to the aggregate amount of rental assistance funded by HUD. This includes funding the services itself if the planned resources do not become available for any reason, appropriate to the needs of the population being served. The supportive services may be newly created for the program or existing, and may be provided or funded by other federal, state, local, or private programs.

Only services that are provided after the execution of the grant agreement may count toward the match. The manner in which the value of supportive services is calculated is contained in 24 CFR section 582.110(c).

2. Level of Effort

2.1 Level of Effort – Maintenance of Effort

Not Applicable

2.2 Level of Effort – Supplement Not Supplant

No assistance received under this program (or any state or local government funds used to supplement this assistance) may be used to replace funds provided under any state or local government assistance programs previously used, or designated for use, to assist homeless persons with disabilities (24 CFR section 582.115(d)).

3. Earmarking

Up to 8 percent of the grant amount may be used to pay the costs of administering housing assistance, subject to the limits noted in III.A.2, “Activities Allowed or Unallowed” (24 CFR section 582.105(e)).

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements Except for the use of volunteers under the conditions of 24 CFR Part 70, agreements under the SRO component covering nine or more assisted units are required to comply with the Wage Rate Requirements (24 CFR section 882.804(b)).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Rent Reasonableness

Compliance Requirements HUD will only provide assistance for a unit for which the rent is reasonable. For TRA, PRA, and SRA, it is the responsibility of the nonfederal entity to determine whether the rent charged for the unit receiving assistance is reasonable in relation to rents being charged for comparable unassisted units. For SRO units, rents are calculated in accordance with 24 CFR section 882.805(d) (24 CFR section 582.305(b)).

Audit Objectives Determine reasonableness of the rents being paid by the grantee.

Suggested Audit Procedures

- a. Identify the manner in which the nonfederal entity establishes rent reasonableness, and if such tools as telephone surveys, site visits after telephoning, or more extensive market surveys of available rental units were conducted in order to assess the reasonableness of rents being charged. Examine the nonfederal entity’s documentation showing rents charged for comparable unassisted units.
- b. Verify that the contract rents being paid are comparable with those paid for unassisted units. If unassisted units are in the building, compare rents paid for those units with the rents paid for the assisted units.

3. Housing Quality Standards

Compliance Requirements Housing assisted under the Shelter Plus Care Program must meet applicable housing quality standards under 24 CFR section 582.305 (a) and, for the SRO component, under 24 CFR section 882.803(b). Before any assistance is provided on behalf of a participant, the nonfederal entity, or another entity acting on behalf of the nonfederal entity (other than the owner of the housing), must physically inspect each unit to ensure that the unit meets housing quality standards. Nonfederal entities must also

inspect all units annually during the grant period to ensure that units continue to meet housing quality standards (24 CFR section 582.305(a)).

Audit Objectives Determine whether the grantee performs the required inspections to ensure that units meet housing quality standards.

Suggested Audit Procedures

- a. Verify through a review of documentation that the nonfederal entity identifies those units on which housing quality inspections are due.
- b. Verify through a review of documentation that the nonfederal entity performed inspections of units and that any needed repairs were completed timely.

4. Project-Based Rental Assistance

Compliance Requirements Project-based rental assistance provides grants for rental assistance to the owner of an existing structure, where the owner agrees to lease the subsidized units to participants. Participants do not retain rental assistance if they move. Rental subsidies are provided to the owner for a period of either five or ten years. To qualify for 10 years of rental subsidies, the owner must complete at least \$3,000 of eligible rehabilitation work for each unit (including the prorated share of work to be accomplished on common areas or systems), to make the structure decent, safe, and sanitary. The rehabilitation work must be completed within 12 months of the grant award (24 CFR section 582.100(b)).

Audit Objectives Determine whether project-based assistance is being paid in accordance with agreements.

Suggested Audit Procedures

- a. Examine the existing agreement between the owner and the nonfederal entity to determine whether the agreement is for either five or 10 years.
- b. If the agreement is for 10 years, verify through a review of documentation that the required rehabilitation of at least \$3,000 was performed within 12 months of the grant award.
- c. Examine the billings from the owner and verify that the assistance payments are for units occupied or ready for occupancy.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.239 HOME INVESTMENT PARTNERSHIPS PROGRAM****I. PROGRAM OBJECTIVES**

The objectives of the HOME Investment Partnerships (HOME) program include (1) expanding the supply of decent and affordable housing, particularly housing for low- and very low-income Americans; (2) strengthening the abilities of state and local governments to design and implement strategies for achieving adequate supplies of decent, affordable housing; (3) providing financial and technical assistance to participating jurisdictions, including the development of model programs for affordable low-income housing; and (4) extending and strengthening partnerships among all levels of government and the private sector, including for-profit and nonprofit organizations, in the production and operation of affordable housing (24 CFR section 92.1).

HOME-American Rescue Plan (HOME-ARP)

The American Rescue Plan Act of 2021 provided an additional \$5 billion of which \$4.925 billion was allocated using the HOME formula to meet the needs of those homeless or at risk of homelessness, the development of affordable housing, tenant based rental assistance, supportive services, and acquisition and development of non-congregate shelter units. Unlike HOME, these funds are not available for homebuyer or existing homeowner assistance activities. Also, up to 15 percent of each grant may be used for administrative purposes as opposed to HOME, which is up to 10 percent of each grant.

The HOME-ARP funds are available for certain qualifying populations (QPs) (as defined in Notice CPD-21-10: Requirements for the Use of Funds in the HOME-ARP Program):

1. Homeless (as defined in the McKinney Act definition at 24 CFR 91.5).
2. At-risk of homelessness (McKinney Act definition at 24 CFR 9.1.5).
3. Fleeing/Attempting to Flee Domestic Violence, Dating Violence, Sexual Assault, Stalking or Human Trafficking (definitions from VAWA regulations at 24 CFR 5.2003, except Human Trafficking definition from Trafficking Victims Protection Act of 2000).
4. Other Populations where assistance would: Prevent the family's homelessness or serve those with the greatest risk of housing instability.

II. PROGRAM PROCEDURES

The HOME and HOME-ARP programs are conducted by jurisdictions (states, cities, urban counties, and consortia) that receive an allocation of funds. Participating jurisdictions (PJs) must submit a description of how they propose to use the funds for housing activities, together with certifications (24 CFR Part 91). The funding amount is based on a formula of six factors established to reflect a jurisdiction's need for an increased supply of affordable housing for low- and very low-income families (24 CFR section 92.50).

A state may carry out its own HOME/HOME-ARP program without active participation of units of general local government or may distribute HOME/HOME-ARP funds to units of general local government to carry out HOME/HOME-ARP programs in which both the state and all or some of the units of general local government perform specified functions. A unit of general local government designated by a state to receive HOME/HOME-ARP funds from a state is a “state recipient.” A “subrecipient” is a public agency or nonprofit organization selected by the participating jurisdiction to administer all or some of the participating jurisdiction’s HOME/HOME-ARP programs. Before disbursing funds to an entity, each participating jurisdiction is required to enter into a written agreement with the entity. The contents of the agreement may vary depending on the role the entity assumes, or the type of project undertaken (e.g., state recipient, subrecipient, for-profit or nonprofit housing owner, developer, or sponsor, a contractor, or a home buyer, homeowner, or tenant receiving tenant-based rental or security deposit assistance) (24 CFR section 92.504).

Source of Governing Requirements

The HOME program was established by the Title II of the Cranston-Gonzalez National Affordable Housing Act (NAHA) (42 USC 12701–12840 and 3535(d)). Implementing regulations are codified at 24 CFR Part 92.

HOME-ARP was established in section 3205 of the American Rescue Plan Act of 2021 (Pub .L. No. 117-2). Notice CPD-21-10: Requirements for the Use of Funds in the HOME-ARP Program ([HOME-ARP Implementing Notice](#)) was published September 13, 2021. The Notice established requirements for HOME-ARP funds.

The American Rescue Plan (ARP) provides funds for homelessness and supportive services assistance under the HOME statute of Title II of NAHA (42 USC 12721 et seq.) and authorizes the Secretary of HUD to waive or specify alternative requirements for any provision of NAHA or regulation for the administration of the HOME-ARP program, except requirements related to fair housing, civil rights, nondiscrimination, labor standards, and the environment, upon a finding that the waiver or alternative requirement is necessary to expedite or facilitate the use of HOME-ARP funds. Pursuant to the [HOME-ARP Implementing Notice](#), the per-unit cost limits (42 USC 12742(e), commitment requirements (42 USC 12748(g)), matching requirements (42 USC 12750), and set-aside for housing developed, sponsored, or owned by community housing development organizations (CHDOs) (42 USC 12771) in NAHA do not apply to HOME-ARP funds.

Availability of Other Program Information

On April 10, 2020, the Office of Community Planning and Development (CPD) issued two memoranda containing statutory suspensions and regulatory waivers for the HOME Program to provide flexibility for jurisdictions to address the COVID-19 pandemic. The participating jurisdictions must request these suspension/and or waivers in order to implement them. All participating jurisdictions are subject to the compliance requirements listed in Section III. The participating jurisdictions implementing the COVID-19 suspensions and waivers must adhere to the revised application of the requirements set forth in the waivers:

<https://www.hudexchange.info/programs/home/covid-19/#regulatory-resources>.

An extension to the original COVID-19 suspensions and waivers, along with additional information is provided in the following document:

<https://www.hud.gov/sites/dfiles/CPD/documents/HOME-General-Susp-and-Waivers-Revisions-Final.pdf>.

Pertinent information that will assist the auditor in understanding the HOME program is available on the agency website at <https://www.hudexchange.info/home/>.

Information regarding the American Rescue Plan requirements for HOME-ARP Program: <https://www.hudexchange.info/resource/6479/notice-cpd-2110-requirements-for-the-use-of-funds-in-the-home-arp-program/> and <https://www.hudexchange.info/resource/6480/home-arp-implementation-notice-fact-sheets/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	N	N	Y	N	Y	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

HOME

- a. HOME funds (including program income generated by activities carried out with HOME funds) may be used by participating jurisdictions to provide for: (a) incentives to develop and support affordable rental housing and homeownership affordability through the acquisition, new construction, reconstruction, or rehabilitation of non-luxury housing with suitable amenities, including real property acquisition, site improvements, conversion, demolition, and other expenses, including financing costs, relocation expenses of any displaced persons, families, businesses, or organizations; (b) tenant-based rental assistance, including security deposits; (c) the payment of reasonable administrative and planning costs; and (d) the payment of operating expenses of Community Housing Development Organizations (CHDOs). The housing must be permanent or transitional. The acquisition of vacant land or demolition can only be undertaken with respect to a particular housing project intended to provide affordable housing, and when construction is expected to begin within 12 months. Conversion of an existing structure to affordable housing is rehabilitation unless certain circumstances exist. Manufactured housing may be purchased or rehabilitated and the land upon which it is built may be purchased with HOME funds. HOME funds may be used to pay for development construction hard costs, refinancing costs, acquisition costs, related soft costs, CHDO costs, relocation costs, and costs related to the repayment of loans (24 CFR sections 92.205(a) and 92.206).
- b. A participating jurisdiction may use or “invest” HOME funds as equity investments, interest-bearing loans or advances, non-interest-bearing loans or advances, interest subsidies, deferred payment loans, grants, or other forms of assistance approved by HUD. A participating jurisdiction may invest HOME funds to guarantee loans made by lenders and, if required, the participating jurisdiction may establish a loan guarantee account with HOME funds. The amount of the loan guarantee account must be based on a reasonable estimate of the default rate on the guaranteed loans but under no circumstances, may the amount on deposit exceed 20 percent of the total outstanding principal amount guaranteed, except that the account may include a reasonable minimum balance. While loan funds guaranteed with HOME funds are subject to all HOME requirements, funds which are used to repay the guaranteed loans are not (24 CFR section 92.205(b)).

HOME-ARP

- a. Affordable Rental Housing: HOME-ARP rental funds may be used to acquire, construct or rehabilitate housing for those that meet the definition of one or more of the qualifying populations described in the [HOME-ARP Implementing Notice](#). Acquisition of vacant land or demolition must be undertaken only with respect to a particular housing project intended to provide HOME-ARP rental housing within the timeframes provided in Section VI.B. of the [HOME-ARP Implementing Notice](#).

HOME-ARP funds may be used to assist one or more units in a project. Only the eligible development costs of the HOME-ARP units may be charged to the HOME-ARP program. Cost allocation in accordance with 24 CFR 92.205(d)(1) is required if the assisted and non-assisted units are not comparable. After project completion, the number of HOME-ARP units in a project cannot be reduced. During the HOME-ARP minimum compliance period and prior to the end of the HOME-ARP budget period, a PJ may invest additional HOME-ARP funds to provide operating cost assistance but is prohibited from investing additional HOME-ARP funds for capital costs except within the 12 months after project completion. A qualifying household admitted to a HOME-ARP rental unit may still receive HOME-ARP supportive services or Tenant-based Rental Assistance (TBRA) in accordance with the requirement of the HOME-ARP Implementing Notice.

Unlike the HOME program, which targets HOME-assisted rental units based on tenant income, 70 percent of all HOME-ARP-assisted units will admit households based only upon their status as qualifying households. The remaining 30 percent of assisted units may be occupied by low-income households.

HUD used its HOME-ARP statutory authority to permit the use of HOME-ARP funds to provide ongoing operating cost assistance or capitalize a project operating cost assistance reserve to address operating deficits of the HOME-ARP units restrict for qualifying households during the compliance period. HUD also suspended the maximum per-unit subsidy limit for HOME-ARP units, enabling HOME-ARP funds to pay the entire cost to acquire, rehabilitate and/or construct the HOME-ARP rental units.

- b. HOME-ARP Tenant-Based Rental Assistance (HOME-ARP TBRA) may be used to provide rental assistance, security deposit payments, and utility deposit assistance to qualifying households. HOME-ARP funds may be used to pay for up to 100 percent of these eligible costs. A PJ may use HOME-ARP TBRA funds to provide loans or grants to qualifying households for security deposits for rental units regardless of whether the PJ provides any other HOME-ARP TBRA assistance. The amount of funds that may be provided for a security deposit may not exceed the equivalent of two months' rent for the unit. Utility deposit assistance is an eligible cost only if rental assistance or a security deposit payment is provided. Costs of inspecting the housing are also eligible costs of HOME-ARP TBRA. Administration of HOME-ARP TBRA is an eligible cost **only** if executed in accordance with general management oversight and coordination at 24 CFR 92.207(a), except that the costs of inspecting the housing and determining the income eligibility of the family are eligible project costs under HOME-ARP TBRA.

Funding may also go towards a HOME-ARP sponsor, which is a nonprofit organization that provides housing or supportive services to qualifying households, to facilitate the leasing of a HOME-ARP rental unit or the use and maintenance of HOME-ARP TBRA. A sponsor may make rental subsidy payments and a security deposit payment on behalf of a qualifying household.

- c. Supportive Services- may only be provided to individuals and families who meet the definition of a qualifying population under Section IV.A of the HOME-ARP Implementing Notice and who are not already receiving these services through another program.

There are three categories of supportive services:

- (1) McKinney-Vento Supportive Services, listed in section 401(29) of the McKinney-Vento Homeless Assistance Act (42 USC 11360(29)).
- (2) Homelessness Prevention Services adapted from eligible homelessness prevention services under the Emergency Service Grant regulations at 24 CFR Part 576. See section VI.D of the [HOME-ARP Implementing Notice](#) for list of eligible services and costs.
- (3) Housing Counseling Services defined at 24 CFR 5.100 and 5.111, except for homeowner assistance and related services are not eligible.

- d. Acquisition and Development of Non-Congregate Shelter (NCS): A non-congregate shelter is one or more buildings that provide private units or rooms as temporary shelter to individuals and families and does not require occupants to sign a lease or occupancy agreement. HOME-ARP funds may be used to acquire and develop non-congregate shelter (HOME-ARP NCS) for those that meet one of the qualifying populations defined in the [HOME-ARP Implementing Notice](#). This activity may include new construction or the acquisition and/or rehabilitation of existing structures (such as motels, nursing homes or other facilities). Also, the demolition to existing structures for the purpose of developing HOME-ARP NCS is allowed. HOME-ARP funds may also be used for improvements to the project site, including the installation of utilities or utility connections, laundry facilities, community facilities, on-site management, or supportive service offices.

Soft Costs allowable are necessary costs incurred by the Participating Jurisdiction, subrecipient, or project owner associated with financing, acquisition, and development of HOME-ARP NCS projects.

Also, replacement reserves to cover reasonable and necessary costs of replacing major systems and their components is allowable.

- e. Nonprofit Operating and Capacity Building Assistance: A PJ may use up to five percent of its HOME-ARP allocation to pay operating expenses of CHDOs and other nonprofit organizations that will carry out activities with HOME-ARP funds. A PJ may also use up to an additional five percent of its allocation to pay eligible costs related to developing the capacity of eligible nonprofit organizations to successfully carry out HOME-ARP eligible activities.

PJs may award operating expense assistance or capacity building assistance to a nonprofit organization if it reasonably expects to provide HOME-ARP funds to the organization for any of the eligible HOME-ARP activities within 24 months of the award.

Operating expenses are defined as reasonable and necessary costs of operating the nonprofit organization. HOME-ARP funds used for operating expenses must be used for the “general operating costs” of the nonprofit organization. These costs include employee salaries, wages and other employee compensation and benefits; employee education, training, and travel; rent; utilities, communication costs; taxes, insurance; equipment, materials, and supplies.

Capacity Building Assistance expenses are defined as reasonable and necessary general operating costs that will result in expansion or improvement of an organization’s ability to successfully carry out eligible HOME-ARP activities. Eligible costs include salaries for new hires including wages and other employee compensation and benefits; costs related to employee training or other staff development that enhances an employee’s skill set and expertise; equipment (e.g., computer software or programs that improve organizational processes), upgrades to material and equipment, and supplies; and contracts for technical assistance or for consultants with expertise related to the HOME-ARP qualifying populations.

NAHA and the HOME regulations limit the amount of operating expense assistance that an organization can receive annually. ARP extends this limitation to the capacity building assistance paid with HOME-ARP funds.

- In any fiscal year, operating assistance provided to a nonprofit organization may not exceed the greater of 50 percent of the general operating expenses of the organization for that fiscal year or \$50,000.
- In any fiscal year, capacity building assistance provided to a nonprofit organization may not exceed the greater of 50 percent of

the general operating expenses of the organization for that fiscal year or \$50,000.

- If an organization received both operating assistance and capacity building assistance in any fiscal year, the aggregate total amount of assistance it may receive is the greater of 50 percent of the organization's total operating expenses for that fiscal year or \$75,000.
- f. A participating jurisdiction may use or "invest" HOME-ARP funds as equity investments, interest-bearing loans or advances, non-interest-bearing loans or advances, interest subsidies, deferred payment loans, grants, or other forms of assistance approved by HUD. A participating jurisdiction may invest HOME-ARP funds to guarantee loans made by lenders and, if required, the participating jurisdiction may establish a loan guarantee account with HOME-ARP funds. The amount of the loan guarantee account must be based on a reasonable estimate of the default rate on the guaranteed loans but under no circumstances, may the amount on deposit exceed 20 percent of the total outstanding principal amount guaranteed, except that the account may include a reasonable minimum balance. While loan funds guaranteed with HOME-ARP funds are subject to all HOME-ARP and HOME (as amended in the HOME-ARP Implementing Notice) requirements, funds which are used to repay the guaranteed loans are not (24 CFR section 92.205(b)).

2. *Activities Unallowed*

HOME

HOME funds may not be used for (a) project reserve accounts or operating subsidies; (b) tenant-based rental assistance for the special purpose of the Section 8 program; (c) nonfederal matching contributions under any other federal program; (d) annual contributions for the operation of public housing; (e) public housing modernization; (f) assistance to prepay low-income housing mortgages; (g) assistance to a project previously assisted with HOME funds during the period of affordability (i.e., the period for which the nonfederal entity must maintain subsidized housing); (h) the acquisition of property owned by the participating jurisdiction (except for property acquired with HOME funds or in anticipation of a HOME project); and (i) payment of delinquent taxes, fees, or charges.

Participating jurisdictions may not charge servicing, origination, or other fees for the purpose of covering costs of administering the HOME program. Participating jurisdictions may charge: (1) owners of rental projects reasonable annual fees for compliance monitoring during the period of affordability, (2) application fees to project owners to discourage frivolous applications, and (3) homebuyers a fee for housing counseling (24 CFR section 92.214).

HOME-ARP

- a. Affordable Rental Housing: Emergency shelter, hotels, and motels (including those currently operating as non-congregate shelter), facilities such as nursing homes, residential treatment facilities, correctional facilities, halfway houses. However, housing for students or dormitories do not constitute housing in the HOME-ARP program.

HOME-ARP may not be used for any of the prohibited activities, costs or fees in 24 CFR 92.214, as revised by the Appendix of the HOME-ARP Implementing Notice.

- b. HOME-ARP TBRA: funds may not be used to pay for the homebuyer program as defined at 24 CFR 92.209(c)(2)(iv).
- c. Supportive Services: HOME-ARP funds may not be used to provide supportive services to individuals or families that do not meet the definition of a qualifying population defined in Section IV.A. of the HOME-ARP Implementing Notice.

Costs for the provision of services to existing homeowners related to homeownership and mortgages to existing homeowners are not eligible. (If a program participant is a candidate for homeownership, costs associated with pre-purchase homebuying counseling, education and outreach are eligible.)

No duplication of services; PJs are responsible for establishing requirements that allow a program participant to receive only the HOME-ARP services needed.

- d. Non-Congregate Shelter: HOME-ARP funds may not be used to pay ongoing costs of operating HOME-ARP NCS (such as allocable overhead and staffing costs, insurance, utilities) or to convert NCS to housing.

HOME-ARP funds may not be used to pay the operating costs of HOME-ARP NCS. The PJ is prohibited from investing additional HOME-ARP funds to pay for the cost of converting the NCS project from HOME-ARP NCS to permanent affordable housing or to pay for operating the project as permanent affordable housing.

E. Eligibility

1. Eligibility for Individuals

HOME

- a. The HOME program has income targeting requirements. Only low-income or very low-income persons, as defined in 24 CFR section 92.2,

can receive housing assistance (24 CFR section 92.1). Therefore, the participating jurisdiction must determine if each family is income eligible by determining the family's annual income, including all persons in the household, as provided for in 24 CFR section 92.203. Participating jurisdictions must maintain records for each family assisted (24 CFR section 92.508).

- b. HOME-assisted units in a rental housing project must be occupied only by households that are eligible as low-income families and must meet certain limits on the rents that can be charged. The requirements also apply to the HOME-assisted non-owner-occupied units in single-family (one–four unit) housing purchased with HOME funds. The maximum HOME rents, which include utilities or the utility allowance, are the lesser of the fair market rent for comparable units in the area, as established by HUD under 24 CFR section 888.111, or a rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area as determined by HUD, with adjustments for the number of bedrooms. Rental projects with five or more units have additional rent limitations. Twenty percent of the HOME-assisted units must be occupied by very low-income families and meet one of the following rent requirements: (1) the rent does not exceed 30 percent of the annual income of a family whose income equals 50 percent of the median income for the area, as determined by HUD, with adjustments for larger or smaller families; or (2) the rent does not exceed 30 percent of the families adjusted income (24 CFR sections 92.216 and 92.252).
- c. A participating jurisdiction may use HOME funds for tenant-based rental assistance, as provided for in 24 CFR section 92.209(b). The participating jurisdiction must select families in accordance with policies and criteria consistent with those provided in 24 CFR section 92.209(c).

HOME-ARP

- a. HOME-ARP requires that funds be used to primarily benefit individuals and families that meet the following specified “qualifying populations.” Any individual or family who meets the criteria for these populations is eligible to receive assistance or services funded through HOME-ARP without meeting additional criteria (e.g., additional income criteria). All income calculations to meet income criteria of a qualifying population or required for income determination in HOME-ARP eligible activities must use the annual income definition in 24 CFR 5.609 in accordance with the requirements of 24 CFR 92.203(a)(1).

The following are the specified “qualifying populations” (see the HOME-ARP Implementing Notice for detailed definitions):

- (1) Homeless, as defined in 24 CFR 91.5 *Homeless* (1), (2), or (3);

- (2) At risk of homelessness, as defined in 24 CFR 91.5 *At risk of homelessness*;
 - (3) [Fleeing or Attempting to Flee, Domestic Violence, Dating Violence, Sexual Assault, Stalking, or Human Tracking](#), as defined by HUD.
 - (4) Other Populations where providing supportive services or assistance under section 212(a) of NAHA (42 USC 12742(a)) would prevent the family's homelessness or would serve those with the greatest risk of housing instability.
- b. HOME-ARP-assisted units in a rental housing project must be occupied only by households of individuals and families that meet the definition of one or more of the qualifying populations described in Section IV.A of the HOME-ARP Implementing.

Occupancy Requirements –

- *Qualifying Households*. Units restricted for occupancy qualifying households must be occupied by households that meet the definition of qualifying population at the time of admission to the HOME-ARP unit. A qualifying household after admission retains its eligibility to occupy a HOME-ARP rental unit restricted for qualifying populations, irrespective of the qualifying household's changes in income or whether the household continues to meet the definition of a qualifying population.
- *Low-Income Households*. At initial occupancy, units restricted for low-income households must be occupied by households that meet the definition of low-income in 24 CFR 92.2. If a tenant's income increases above the applicable low-income limit during the compliance period, the unit will be considered temporarily out of compliance. Noncompliance requires the PJ to take action in accordance with the rent and unit mix requirements in Section VI.B.15 and VI.B.17 of the HOME-ARP Implementing Notice, respectively.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

J. Program Income**HOME**

When program income is generated by housing that is only partially assisted with HOME funds or matching funds, the income must be prorated to reflect the percentage of HOME funds used. Program income includes, but is not limited to, the following:

1. Proceeds from the disposition by sale or long-term lease of real property acquired, rehabilitated, or constructed with HOME funds or matching contributions;
2. Gross income from the use or rental of real property owned by the participating jurisdiction, state recipient, or a subrecipient, that was acquired, rehabilitated, or constructed with HOME funds or matching contributions, less costs incidental to generation of the income (program income does not include gross income from the use, rental or sale of real property received by the project owner, developer, or sponsor, unless the funds are paid by the project owner, developer, or sponsor to the participating jurisdiction, subrecipient or state recipient);
3. Payments of principal and interest on loans made using HOME funds or matching contributions;
4. Proceeds from the sale of loans made with HOME funds or matching contributions;
5. Proceeds from the sale of obligations secured by loans made with HOME funds or matching contributions;
6. Interest earned on program income pending its disposition; and
7. Any other interest or return on the investment permitted under 24 CFR section 92.205(b) of HOME funds or matching contributions (24 CFR sections 92.2 and 92.505).

HOME-ARP

Program income earned as a result of the use of HOME-ARP funds is HOME program income and must be used in accordance with the requirements of 24 CFR Part 92.

Program income includes, but is not limited to, principal and interest payments from a loan made with HOME-ARP funds, or other income or fees received from project owners in connection with HOME-ARP funds, and interest earned by the PJ on program income before disposition.

The participating jurisdiction must retain the funds in their HOME-ARP Investment Trust Fund local account (local account) and enter the program income into IDIS as HOME

program income, and also must subgrant the program income to the state recipient or subrecipient that retained the program income.

M. Subrecipient Monitoring

Each participating state is responsible for distributing HOME/HOME-ARP funds throughout the state according to the state's assessment of the geographical distribution of housing need within the state. A state may carry out its HOME/HOME-ARP program without active participation of units of general local government or may distribute HOME funds to units of general local government to carry out HOME programs in which both the state and all or some of the units of general local government perform specified program functions. A state that uses state recipients to perform program functions shall ensure that the state recipients use HOME/HOME-ARP funds in accordance with applicable laws and requirements. A state shall include in its written agreements with its state recipients such additional provisions as may be appropriate to ensure compliance and to enable the state to carry out its responsibilities under the HOME/HOME-ARP program. The state is to conduct such reviews and audits of its state recipients as may be necessary or appropriate to determine whether the state recipient has committed and expended the HOME/HOME-ARP funds, as required by 24 CFR section 92.500, and has met HOME/HOME-ARP program requirements particularly as they relate to eligible activities, income targeting, affordability, and matching contribution requirement (24 CFR section 92.201(b)).

Before disbursing funds to a subrecipient, each participating jurisdiction is required to enter into written agreements with the entity, which includes provisions dealing with the use of HOME/HOME-ARP funds, program income, uniform administrative requirements, other program requirements, affirmative marketing, requests for disbursement of funds, reversion of assets, records and reports, and enforcement of the agreement. Further, if the subrecipient provides HOME/HOME-ARP funds to for-profit owners or developers, nonprofit organizations, subrecipients, homeowners, homebuyers, tenants receiving tenant-based rental assistance, or contractors—as applicable—the subrecipient must have a written agreement that contains the applicable provisions in 24 CFR section 92.504(c).

Regarding HOME-ARP funds: The same requirements for subrecipient monitoring applies except that activities for homeowners and homebuyers are excluded from HOME-ARP funding.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements Contracts for the construction of affordable housing with 12 or more HOME-assisted units are required to comply with the Wage Rate Requirements (42 USC 12836).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

Regarding HOME-ARP funds: The same wage rate requirements apply.

2. Maximum Per-Unit Subsidy

Compliance Requirements The per-unit investment of HOME funds may not exceed the Federal Housing Administration (FHA) mortgage limits in Subsection 221(d)(3) of the National Housing Act, including any area-wide high cost exceptions approved by HUD. This information should be available from the grantee or the local HUD field office. In mixed-income or mixed-use projects, the average per-unit investment in HOME-assisted units may not exceed the applicable Subsection 221(d)(3) (i.e., 234) limit.

Note: The maximum per-unit subsidy limits established in NAHA do not apply to HOME-ARP units. Participating jurisdictions may pay up to 100 percent of the eligible and reasonable HOME-ARP costs allocated to a HOME-ARP unit, including operating cost assistance associated with units restricted for occupancy by qualifying households. All costs paid by HOME-ARP funds must comply with the [HOME-ARP Implementing Notice](#) requirements and the Cost principles at 2 CFR Part 200 Subpart E of the Uniform Administrative Requirements, as amended.

Audit Objectives Determine whether the grantee performs the required analysis to ensure that the per-unit investment of HOME funds being provided does not exceed the FHA mortgage limits in Subsection 221(d)(3).

Suggested Audit Procedures

- a. Review a sample of projects to verify that the HOME per-unit investment amounts are supported by the participating jurisdiction's records.

3. Underwriting Requirements

HOME

Participating jurisdictions are required to evaluate each housing project in accordance with guidelines that it adopts to ensure that the combination of federal assistance to the project is not any more than is necessary to provide affordable housing that is financially viable. Prior to the commitment of HOME funds to a project, participating jurisdictions must evaluate the project in accordance with guidelines that it has adopted, which must include (a) an examination of the sources and uses of funds for the project and a determination that the costs are reasonable; (b) an assessment of the current market demand in the neighborhood in which the project will be located; (c) an assessment of the experience and financial capacity of the developer; and (d) an assessment of the firm written financial commitments for the project (24 CFR section 92.250).

Audit Objectives Determine whether the grantee performs the required analysis to ensure that HOME subsidies being provided are not more than necessary to provide affordable housing and that such analysis appears reasonable and is properly supported.

Suggested Audit Procedures

- a. Review a sample of projects to verify that the HOME subsidy amounts are supported by the participating jurisdiction's records.
- b. Review participating jurisdiction records to verify that each housing project was evaluated in accordance with its guidelines and to ensure that the combination of federal assistance to the project is not any more than is the FHA mortgage limits in Subsection 221(d)(3) (i.e., 234) of the National Housing Act necessary to provide affordable housing.

HOME-ARP

HOME-ARP must have standardized guidelines that include the following.

- Examination of the source and uses of funds for the project and a determination that costs are necessary and reasonable. The Participating jurisdiction must determine the amount of HOME-ARP development subsidy required to fill the gap between other committed funding sources and the cost to develop the project.
- A demonstration of unmet need among qualifying populations for the type of housing proposed.
- Market assessment is necessary if project contains units restrict for low-income or market-rate households per 24 CFR 92.250(b)(2).
- Documented review of the developer's experience and financial capacity are satisfactory based on the size and complexity of the project.
- Firm written financial commitments for the project.
- Review of the operating budget especially as it pertains to the operating cost assistance during the compliance period of the project.
- Overall assessment of the project viability thought the compliance period.

Audit Objectives Determine whether the grantee performs the required analysis to ensure that HOME-ARP underwriting guidelines are followed, and that such analysis appears reasonable and is properly supported.

Suggested Audit Procedures

Review a sample of projects to verify that the HOME-ARP document list and analysis above is included in the participating jurisdiction's records.

4. Drawdowns of HOME/HOME-ARP Funds

Compliance Requirements The Integrated Disbursement and Information System (IDIS) is used both to collect information on compliance with program requirements and to disburse HOME funds to local jurisdictions (24 CFR section 92.502).

Audit Objectives Determine whether the drawdowns of HOME funds using IDIS (HOME payment certification amounts) are supported by local jurisdiction records.

Suggested Audit Procedures

Verify that HOME/HOME-ARP payment certification amounts match the amount of the local jurisdiction's expenditures to support the drawdown request.

5. Housing Quality Standards

Compliance Requirements During the period of affordability (i.e., the period for which the nonfederal entity must maintain subsidized housing) for HOME assisted rental housing, the participating jurisdiction must perform on-site inspections to determine compliance with property standards and verify the information submitted by the owners no less than (a) every three years for projects containing one to four units, (b) every two years for projects containing five to 25 units, and (c) every year for projects containing 26 or more units. The participating jurisdiction must perform on-site inspections of rental housing occupied by tenants receiving HOME/HOME-ARP-assisted tenant-based rental assistance to determine compliance with housing quality standards (24 CFR sections 92.209(i), 92.251(f), and 92.504(d)).

Regarding HOME-ARP funds: the rental units must comply with the same requirements as HOME per 24 CFR 92.251 for (a) new construction, (b) rehabilitation projects, (c)(1) and (2) acquisition of standard housing, (e) manufactured housing, and (f) on-going property condition standards.

Note: Requirements for the ongoing inspections of HOME-assisted rental housing were established by the HOME rule, published July 24, 2013. These requirements will become effective upon publication of a notice by HUD, which further sets forth these requirements. Once effective, the requirements for completion and ongoing inspections of HOME rental housing must comply with the requirements set forth at 24 CFR 92.504(d)(1).

Audit Objectives Determine whether the grantee performs the required inspections to ensure that property standards are met.

Suggested Audit Procedures

- a. Verify through a review of documentation that the nonfederal entity identifies those units on which housing quality inspections are due.

- b. Verify through a review of documentation that the nonfederal entity performs inspections of units and that any needed repairs are completed timely.

IV. OTHER INFORMATION

Improper Payments

A participating jurisdiction that uses any HOME funds for an activity that does not meet HOME affordability requirements outlined in 24 CFR section 92.252 or 24 CFR section 92.254, or for costs that are not eligible costs identified in 24 CFR sections 92.206 through 92.209, must repay the funds to either its HOME Investment Trust Fund Treasury account or the local HOME account (24 CFR section 92.503(b)).

Regarding HOME-ARP funds: If funds are invested in HOME-ARP rental housing and NCS that does not meet the requirements in the Notice, these funds must be repaid to the participating jurisdiction's HOME-ARP Investment Trust Fund Treasury account (Treasury account). HOME-ARP funds **may not** be repaid to the participating jurisdiction's local account.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.241 HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS****I. PROGRAM OBJECTIVES**

The Housing Opportunities for Persons With AIDS (HOPWA) program is designed to provide states and localities with resources and incentives to devise long-term strategies for meeting the housing needs of persons living with the human immunodeficiency virus (HIV), including those with acquired immunodeficiency syndrome (AIDS) or related diseases and their families (24 CFR section 574.3).

II. PROGRAM PROCEDURES

The Department of Housing and Urban Development (HUD) awards funds appropriated for the program in any fiscal year through both a formula allocation and competitive grant process.

Ninety percent of the funds are awarded through formula grants and 10 percent through competitive grants. HUD allocates formula funds based on the number of persons living with HIV as reported to and confirmed by the Centers for Disease Control and Prevention (CDC), population data furnished by the US Bureau of the Census, two-bedroom Fair Market Rent data published by HUD, and poverty rate data derived by the American Community Survey (42 USC 12903(c)).

The competitive grants are awarded based on applications, as described in subpart C of the HOPWA regulations. Each year, priority is given by Congressional authority to the renewal of expiring permanent supportive housing project grants. If funds remain after renewals are awarded, they are distributed under a Notice of Funding Opportunity (NOFO) competition. All states and units of general local government and nonprofit organizations are eligible to apply for competitive grants to fund projects of national significance (SPNS). Only those states and units of general local government that do not qualify for formula allocations are eligible to apply for competitive grants to fund other projects. Except for grants involving projects of national significance, nonprofit organizations are not eligible to apply directly to HUD for a grant but may receive funding as a project sponsor (subrecipient) under a contract with a grantee (24 CFR section 574.210).

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) included \$65 million in supplemental grant funding for the HOPWA program that the Department distributed in the following manner:

1. \$53.7 million was allocated to formula grantees using the same data elements from the statutory allocation formula (42 USC 12903) used to determine fiscal year (FY) 2020 HOPWA formula allocations.
2. \$10 million in additional one-time, nonrenewable funding was allocated to HOPWA permanent supportive housing competitive renewal grantees that were initially funded with appropriated funds from FY 2010 or earlier and are currently administering grant awards. The supplemental grant funding was allocated to the competitive renewal grantees in a

- manner proportionate to their existing grants.
3. \$1.3 million in funding was awarded, without competition, to increase prior awards made to existing HOPWA technical assistance (TA) providers. The purpose of the TA funding is to provide an immediate increase in capacity building and TA available to grantees.

Source of Governing Requirements

The HOPWA program is authorized by the AIDS Housing Opportunity Act, as amended (42 USC 12901 et seq.). Implementing regulations are in 24 CFR parts 91 and 574.

HOPWA CARES Act grants are authorized by the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Pub. L. No. 116-136.

Availability of Other Program Information

For additional information that may be helpful to auditors in understanding the HOPWA program, refer to the HOPWA program website at:

https://www.hud.gov/program_offices/comm_planning/hopwa.

For additional information that may be helpful to auditors in understanding the HOPWA CARES Act grants, available guidance and resources can be accessed here:

https://www.hud.gov/program_offices/comm_planning/hopwa_covid-19.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N

Y	Y	Y	Y	N	N	N	N	N	Y	Y	Y

A. Activities Allowed or Unallowed

1. HOPWA funds may be used to assist all forms of housing designed to prevent homelessness, including emergency housing, shared housing arrangements, apartments, single room occupancy (SRO) dwellings, and community residences. Appropriate supportive services must be made available as part of any HOPWA-assisted housing, but HOPWA funds may also be used to provide services independently of any housing activity. The following activities may be carried out with HOPWA funds: housing information services; resource identification to establish, coordinate, and develop housing assistance resources for eligible persons; acquisition, rehabilitation, conversion, lease, and repair of facilities to provide housing and services; new construction for SRO and community residences only; project- or tenant-based rental assistance, including assistance for shared housing arrangements; short-term rent, mortgage, and utility payments to prevent the homelessness of the tenant or the mortgagor of a dwelling; supportive services; operating costs for housing; technical assistance in establishing and operating a community residence; administrative expenses; and, for competitive grants only, any other activity proposed by the applicant and approved by HUD (24 CFR section 574.300).
2. The supplemental grant funds authorized under the CARES Act may be used to provide the eligible HOPWA activities identified at 24 CFR Part 574, so long as these funds are used for activities that are consistent with grantees’ community needs for COVID-19 preparedness and response.

Grantees may consider using the supplemental grant funds authorized under the CARES Act for the following activities:

- Stays at hotels, motels, or other locations to self-isolate, quarantine, or provide other infection control for HOPWA-eligible individuals or their family members;
- Providing transportation services for eligible households to access medical care, supplies, and food or to commute to places of employment;

- Assisting HOPWA-eligible households in accessing essential services and supplies such as food, medications, medical care, personal protective equipment (PPE) and information;
- Providing nutrition services for eligible households in the form of food banks, groceries, and meal deliveries;
- Educating assisted households on ways to reduce the risk of contracting or spreading COVID-19 to others; and
- Costs related to infection control measures such as cleaning and disinfectant supplies, gloves, PPE, and other safety-related supplies for staff and assisted households.

B. Allowable Costs/Cost Principles

1. Grantees must ensure that grant funds will not be used to make payments for health services for any item or service to the extent that payment was made, or can reasonably be expected to be made, with respect to any item or service:
 - a. under any state compensation program, under an insurance policy, or under any federal or state health benefits program; or
 - b. by an entity that provides health services on a prepaid basis, as provided for in 24 CFR section 574.310(a)(2). Supportive services include such items as alcohol abuse treatment and counseling, day care, and nutritional services (24 CFR section 574.300(b)(7)).
2. HOPWA administrative costs do not include costs directly related to carrying out eligible activities, since those costs are eligible as part of the activity delivery costs of such activities (24 CFR section 574.3).
3. CARES Act funds may be used to cover or reimburse allowable costs as of the date a grantee or project sponsor began preparing for coronavirus, which HUD shall presume to be no earlier than January 21, 2020—the date the first confirmed case was reported in the United States according to the CDC. Grantees and project sponsors must maintain documentation demonstrating when they began preparing for COVID-19, such as notes on formal planning meetings or calls, and must maintain documentation to support any costs incurred by the recipient that the recipient plans to cover or reimburse with CARES Act grant funding.
4. Section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 USC 5155) prohibits the duplication of benefits for programs that provide financial assistance to people or entities suffering losses as a result of a federally declared disaster or emergency. The duplication of benefits occurs when federal financial assistance is provided to a person or entity through a program to address losses resulting from a federally declared emergency or disaster, and the person or

entity has received (or would receive, by acting reasonably to obtain available assistance) financial assistance for the same costs from any other source (including insurance), and the total amount received exceeds the total need for those costs. HOPWA grantees must establish and maintain adequate procedures to prevent any duplication of benefits with CARES Act funds.

E. Eligibility

1. Eligibility for Individuals

- a. A person eligible for assistance under this program means a person with HIV or AIDS who is a low-income individual and the person's family, including persons important to their care or well-being, as defined in 24 CFR section 574.3. The eligibility of those tenants who were admitted to the program should be determined by (1) obtaining applications that contain all the information needed to determine eligibility, including diagnosis, documentation of housing need, income, rent, and order of selection; and (2) obtaining third party verifications or documentation of expected income, assets, unusual medical expenses, and any other pertinent information.

In response to the COVID-19 pandemic, HUD issued regulatory waivers permitting HOPWA grantees and project sponsors to rely upon a family member's self-certification of income and credible information on their HIV status (such as knowledge of their HIV-related medical care) in lieu of source documentation to determine eligibility for HOPWA assistance of families and grantees affected by COVID-19.

All CPD waiver memoranda are available online at https://www.hud.gov/program_offices/comm_planning/waivers_covid-19.

HOPWA specific waivers are included in the following memoranda:

- (1) <https://www.hud.gov/sites/dfiles/CPD/documents/Availability-of-Waivers-of-CPD-Grant-Program-and-Consolidated-Plan-Requirements-to-Prevent-the-Spread-of-COVID-19-and-Mitigate-Economic-Impacts-Caused-by-COVID-19.pdf>
- (2) https://www.hud.gov/sites/dfiles/CPD/documents/Additional_Waivers_for_CPD_Grant_Programs_to_Prevent_COVID-19_Spread_and_Mitigate_COVID-19_Economic_Impacts.pdf
- (3) https://www.hud.gov/sites/dfiles/CPD/documents/DI-7782-MegaWaiver-5-for-CPD_v2-3-26-2021_JAJ_signed.pdf
- (4) https://www.hud.gov/sites/dfiles/CPD/documents/signed-2021-MegaWaiver-6_Final.pdf

(5) https://www.hud.gov/sites/dfiles/CPD/documents/Additional_Waivers_CPD_COVID19_December_2021.pdf

- b. Except for persons in short-term supportive housing, each person receiving rental assistance under the HOPWA program must pay as rent the higher of: (1) 30 percent of the family's monthly adjusted gross income; (2) 10 percent of the family's monthly gross income; or (3) the portion of the payments that is designated if the family is receiving payments for welfare assistance from a public agency and a part of the payments, adjusted in accordance with the family's actual housing costs, is specifically designated by the agency to meet the family's housing costs (24 CFR section 574.310).
- c. If grant funds are used to provide rental assistance, the amount of grant funds used to pay monthly assistance for an eligible person may not exceed the difference between the lower of the rent standard or reasonable rent. Per 24 CFR 574.320(a)(2) the rent standard shall be established by the grantee and shall be no more than the published section 8 fair market rent (FMR) or the HUD-approved community-wide exception rent for the unit size. Per 24 CFR section 574.320(a)(3), the rent charged for a unit must be reasonable in relation to rents currently being charged for comparable units in the private unassisted market and must not be in excess of rents currently being charged by the owner for comparable unassisted units. Allowable assistance can be determined by telephone surveys, site visits after telephoning, or more extensive market surveys of available rental units to assess the reasonableness of rents being charged.

In response to the COVID-19 pandemic, HUD issued regulatory waivers permitting HOPWA grantees to establish rent standards, by unit size, that exceed FMR as long as they meet rent reasonableness requirements at 24 CFR section 574.320(a)(3). The waiver memoranda are available online at https://www.hud.gov/program_offices/comm_planning/waivers_covid-19.

- d. A short-term supported housing facility may not provide residence to any individual for more than 60 days during any six-month period. Further a short-term supported facility may not provide shelter or housing at any single time for more than 50 families or individuals (24 CFR section 574.330). Short-term rent, mortgage, and utility payments to prevent the homelessness of the tenant or the mortgagor of a dwelling may not be provided to such an individual for costs accruing over a period of more than 21 weeks in any 52-week period.

In response to the COVID-19 pandemic, HUD issued regulatory waivers that provided that, on an individual household basis, grantees or project sponsors may assist eligible households for a period that exceeds the time limit specified in the regulations. The waiver memoranda are available

online at

https://www.hud.gov/program_offices/comm_planning/waivers_covid-19.

- e. The CARES Act provided that the supplemental grant funding received under the Act may be used to provide Short-Term Rent, Mortgage and Utility (STRMU) assistance payments for a period of up to 24 months. The 24-month limit on STRMU assistance specified by the CARES Act is only applicable to the supplemental grant funds received under the CARES Act and any portion of a grantee's FY 2020 formula funds that have been approved under its Annual Action Plan (AAP) for allowable activities to prevent, prepare for, and respond to the COVID-19 pandemic.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – For HOPWA, this form is only partially filled out for submittal. All of the information captured in this form except for the program income and indirect expenses sections is already provided through our financial and reporting systems. Grantees are required to only complete the sections on Program Income (Part 10. L-O), and Indirect Expenses (Part 11).
- d. *Integrated Disbursement Information System (IDIS) (OMB No. 2506-0077)* – HOPWA formula grantees and competitive grantees utilize *IDIS Online* to conduct financial transactions. Grantees must set up activities for the grantee and project sponsor in IDIS. An activity corresponds to the eligible HOPWA grant activities and is tied to the operating year. After an activity has been set up, funds are drawn down by creating a voucher that sends the payment request to the line of credit control system (LOCCS). Auditors may use the associated MicroStrategy reporting system to compare actual draw information with amounts reported in APR or CAPER, and receipts on file with the grantee: PR01 (total grant amounts with total draws and balances); PR02 (activity-level funding and drawn amount under a grant); PR07 (sequential draws completed by the grantee);

and PR05 (draws sorted by project and activity). The Contact Support link within IDIS can be used to get clarification on system navigation and report variables.

2. Performance Reporting

- a. HOPWA Formula Program grantees must submit a HUD-40110-D, [HOPWA Consolidated Annual Performance and Evaluation Report \(CAPER\)](#) (OMB Number 2506-0133) and HOPWA Competitive Program grantees must submit a HUD-40110-C, [HOPWA Annual Progress Report \(APR\)](#) (OMB Number 2506-0133) to provide HUD with complete information on the use of program funds. Both formula and competitive grantees are required to submit their completed APR and CAPER (respectively) no later than 90 days after the close of their program or operating year.

Key Line Items

1. Amount of HOPWA funds expended with HOPWA in the program year for each HOPWA eligible activity. Auditor should review Part 3 Accomplishment Data Planned Goal and Actual Outputs, Table 1 HOPWA Performance Planned Goal and Actual Outputs, Column f HOPWA Actual funds in the CAPER, and Part 3C Summary Overview of Grant Activities Performance and Expenditure Information, Table 1 Performance and Expenditure Information by Activity Type, Column 2 Outputs: Amount of HOPWA Funds Expended.

Audit Objectives Determine grant funds spent reported on APR and CAPER match actual funds spent.

Suggested Audit Procedures

Pull IDIS Microstrategy PR-07. Filter voucher dates by reporting period. Sort by activity. Compare total expenditures by activity to the reported activity totals in the APR or CAPER.

2. Stewardship Reporting on Capital Development Activities. For programs involving the use of HOPWA funds for new construction, acquisition, or for substantial rehabilitation of a building or structure, a grantee is required to operate the facility or structure to benefit HOPWA eligible persons for a minimum of ten years, although funds must be expended within three years from the date of grant agreement. An “Annual Report of Continued Usage for HOPWA Facility-Based Stewardship Units,” which can be found in Part 5e in the [APR](#) and Part 6 of the [CAPER](#), must be submitted for each operating year during which HOPWA funds are expended. However, HUD may request information on the

continued use of the building or structure for any year during the ten-year use period, even if no additional funds were available.

Audit Objectives Determine that organizations with HOPWA stewardship facilities subject to three- or ten-year use agreements appropriately submitted an APR or CAPER.

Suggested Audit Procedures

For any CAPERs that reference having stewardship facilities in Part 3 Table 1, there should be a corresponding Part 6 completed. For any APRS that reference stewardship facilities in Part 3c Table 1, there should be a corresponding Part 5e completed. Any grantees with prior year annual reports that reference stewardship facilities that are not in their final stewardship year should also complete the stewardship sections in their most recent annual report.

- b. *CARES Act Reporting:* HOPWA grantees that accept the supplemental grant funding authorized under the CARES Act will be required to report on the activities undertaken with such funding. Consistent with 24 CFR 574.520, grantees will report information to HUD on the use of the supplemental grant funds, including the number of individuals assisted and the types of assistance provided. This information will be reported in the HOPWA CAPER for formula grantees. For competitive grantees, a shortened APR is required.

Audit Objectives Determine that HOPWA competitive grantees that received CARES Act funds submitted a shortened APR for their CARES Act awards.

- c. HUD 60002, *Section 3 Summary Report, Economic Opportunities for Low- and Very Low-Income Persons (OMB No. 2529-0043)* – Each recipient that administers covered public and Indian housing assistance, regardless of the amount expended, and each recipient that administers covered housing and community development assistance in excess of \$200,000 in a program year, must submit HUD 60002 information using the automated Section 3 Performance Evaluation and Registration System (SPEARS) (24 CFR sections 135.3(a)(1) and 135.90). Information on the automated system is available at https://www.hud.gov/program_offices/field_policy_mgt/section3/spears. The system was launched August 25, 2015. SPEARS pre-populates Form HUD 60002 with recipient name and address along with disbursement data for program funding covered by Section 3. Users have the flexibility of selecting the 12-month reporting period, typically to coincide with their respective fiscal cycle.

Key Line Items – The following line items contain critical information:

1. Number of new hires that meet the definition of a Section 3 resident
2. Total dollar amount of construction contracts awarded during the reporting period
3. Dollar amount of construction contracts awarded to Section 3 businesses during the reporting period
4. Number of Section 3 businesses receiving the construction contracts
5. Total dollar amount of nonconstruction contracts awarded during the reporting period
6. Dollar amount of nonconstruction contracts awarded to Section 3 businesses during the reporting period
7. Number of Section 3 businesses receiving the nonconstruction contracts

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Maintenance of Structures

Compliance Requirements Project-based rental assistance provides a subsidy to a unit specifically reserved for HOPWA-eligible households by paying for the operating costs of the unit. Households do not retain the rental assistance if they move. Unless waived by HUD, any building or structure acquired, constructed, rehabilitated, or repaired with HOPWA funds must be maintained as a facility to provide housing or assistance for individuals with HIV or AIDS: (a) for a period of not less than ten years, in the case of assistance provided under an activity eligible under 24 CFR sections 574.300(b)(3)-(4) involving new construction, substantial rehabilitation, or acquisition of a building or structure; or (b) for a period of not less than three years in cases involving non-substantial rehabilitation or repair of a building or structure (24 CFR sections 574.310(c)(1)-(2)).

Audit Objectives Determine whether the project sponsor is receiving the proper amount of assistance and is maintaining the assisted buildings and structures for eligible households for the stipulated periods.

Suggested Audit Procedures

- a. Obtain a select sample listing of the buildings or structures acquired, rehabilitated, constructed, or repaired with HOPWA funds and verify their use.
- b. Examine related agreements to verify that the structures are to provide housing or assistance for the stipulated number of years when new construction, substantial rehabilitation, acquisition, or non-substantial rehabilitation was involved.
- c. Verify from documentation or by observation that the required rehabilitation was performed if the project was accepted for occupancy during the audit period.

2. Housing Quality Standards

Compliance Requirements All housing that involves acquisition, rehabilitation, conversion, lease, repair of facilities, new construction, project- or tenant-based rental assistance (including assistance for shared housing arrangements), and operating costs must meet various housing quality standards listed in 24 CFR sections 574.310(b)(1)-(2).

In response to the COVID-19 pandemic, HUD issued regulatory waivers allowing grantees or project sponsors to visually inspect units using technology, such as video streaming, to ensure units meet HQS before any assistance is provided. The waiver memoranda are available online at

https://www.hud.gov/program_offices/comm_planning/waivers_covid-19.

Audit Objectives Determine whether the grantee performs the required inspections before assistance is provided to a unit to ensure the unit meets housing quality standards.

Suggested Audit Procedures

- a. Verify by a review of documentation that the grantee's system identifies those units on which housing quality inspections are due.
- b. Verify by a review of documentation that the grantee performs inspections of these units and that any needed repairs were completed.
- c. If virtual inspections are completed, verify by review of documentation that the grantee notified HUD of its intent to use the waiver and that there are written policies to physically reinspect the unit after health officials determine COVID-19 special measures are no longer necessary.

3. Community Residences

Compliance Requirements A community residence is a multi-unit residence designed for eligible persons to provide a lower cost residential alternative to institutional care, to prevent or delay the need for such care, to provide a permanent or transitional residential setting with appropriate services to enhance the quality of life for those who are unable to live independently, and to enable those persons to participate as fully as possible in community life. If grant funds are used to provide a community residence (except for planning and other preliminary expense), the grantee must, prior to the expenditure of such funds, obtain and keep on file certifications relating to the services to be provided, the adequacy of funding and the capabilities of the grantee, project sponsor, or service provider (24 CFR section 574.340).

Audit Objectives Determine whether the required certifications are being maintained and supported.

Suggested Audit Procedures

- a. Review a select sample of grantees files to verify that the required certifications are maintained.
- b. Verify that there is evidence on file to support the certifications that were made.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.256 NEIGHBORHOOD STABILIZATION PROGRAM (RECOVERY ACT FUNDED)

I. PROGRAM OBJECTIVES

The objectives of the Neighborhood Stabilization Program (NSP) are to (1) stabilize property values, (2) arrest neighborhood decline, (3) assist in preventing neighborhood blight, and (4) stabilize communities across America hardest hit by residential foreclosures and abandonment. These objectives have been achieved through the purchase and redevelopment of foreclosed and abandoned homes and residential properties that allows those properties to turn into useful, safe and sanitary housing.

II. PROGRAM PROCEDURES

A. Overview

NSP is separated into four categories.

NSP1 is authorized under Division B, Title III of the Housing and Economic Recovery Act (HERA) of 2008 (Pub. L. No. 110-289, July 30, 2008). NSP1 is not part of Assistance Listing 14.256, and this program supplement does not cover NSP1. NSP1 awards are made under Assistance Listings 14.218 and 14.228 and are covered under those respective clusters.

NSP2 is authorized under the American Recovery and Reinvestment Act of 2009 (ARRA) (Pub. L. No. 111-5). NSP2 provides grants based on competitive factors of need, organizational capacity, soundness of approach, leveraging of other funds, energy efficiency and sustainable development, neighborhood transformation, and economic opportunity to states, local governments, nonprofits, and consortia of nonprofit entities.

NSP-TA (technical assistance) also is authorized by ARRA. NSP-TA provides grants for technical assistance based on competitive factors of recent experience, organizational capacity, soundness of approach, leveraging resources, and achieving results and program evaluation, to national and local technical assistance providers to support NSP1 and NSP2 grantees to increase their capacity to carry out neighborhood stabilization programs.

NSP3 is authorized by Section 1497 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Pub. L. No. 111-203, July 21, 2010). NSP3 is not part of Assistance Listing 14.256 and this program supplement does not cover NSP3. NSP3 awards are made under Assistance Listings 14.218 and 14.228 and are covered under those respective programs.

On May 7, 2009, HUD issued Notices of Funding Availability (NOFAs) for NSP2 (FR-5321-N-02) and NSP-TA (FR-5313-N-01) in the *Federal Register* (74 FR 21377). These

NOFAs provided information on funds availability, alternative requirements, and waivers issued by HUD.

B. Subprograms/Program Elements

1. *NSP2*

Unlike the NSP1 and NSP3 formula grants provided to existing CDBG annual formula program grantees, NSP2 is a competitive grant program that made \$1.93 billion available to eligible grantees including states, local governments, nonprofits, and consortia of nonprofit entities. NSP funding provided under the Housing and Economic Recovery Act of 2008 (HERA) and the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), referred to, respectively, as NSP1 and NSP3, are covered by the Community Development Block Grants/Entitlement Grants/Insular Areas (Assistance Listings 14.218 and 14.225) and audited separately. NSP2 line of credit funds have been expended, but grantees are still managing program income, the expenditure of which must meet NSP2 purposes. Grant applicants were encouraged to use funds for concentrated investment in carefully chosen target areas. To facilitate the identification of target areas, HUD developed an online mapping application. The mapping tool provided foreclosure and abandonment risk scores for all census tracts, which were updated from the NSP1 risk scores. The methodology used to calculate scores for the NSP2 grants can be found at <https://www.huduser.gov/portal/NSP2datadesc.html>. The mapping tool has not been updated in several years and was replaced by a Foreclosure Need website that HUD required grantees to use, effective May 21, 2013. The September 12, 2019, *Federal Register* NSP Closeout Notice (84 FR 48165) notified grantees that HUD is no longer updating the Foreclosure Need websites and mapping tools. The 2019 Notice amended the NSP2 NOFA to eliminate the requirement that grantees use the HUD Foreclosure Need website. Instead, HUD is requiring that grantees meet the statutory requirement to give priority emphasis and consideration to areas with the greatest need when distributing NSP funds. NSP2 grantees amending their NSP2 applications to serve areas other than those that were previously identified as areas of greatest need must describe the nature and extent of the need for neighborhood stabilization in the amendment. NSP2 grantees must submit any amendments to the field office to forward to HUD Headquarters for review and approval.

The *Federal Register* notices that govern the use of NSP2 funds are available at <https://www.hudexchange.info/nsp/nsp-laws-regulations-and-federal-register-notices/>. This page contains notices for all three rounds of NSP. Auditors are cautioned to refer only to the notices on this page that address NSP2 requirements.

2. *NSP-TA*

At this stage in the life of this program, barring any future allocations from Congress, NSP-TA is geared toward identifying grantee issues with the Disaster Recovery Grant Reporting System (DRGR), assessing grantee closeout readiness, and resolving any programmatic issues that are delaying grantees from closing out NSP grants. Depending

upon its issue, a grantee requests assistance directly from HUD or through the HUD TA portal found on the HUD Exchange. Grantee steps for requesting assistance may be found at <https://www.hudexchange.info/program-support/technical-assistance/>.

Source of Governing Requirements

NSP2 and NSP-TA are authorized by the Housing and Economic Recovery Act (Pub. L. No. 110–289) (HERA), as amended by Title XII of Division A of the American Reinvestment and Recovery Act of 2009 (Pub. L. No. 111–005) (ARRA). Like NSP1, NSP2 is a component of the Community Development Block Grant program (CDBG) (Assistance Listings 14.218 and 14.228). Unless different requirements are provided in the NSP2 NOFA or the NSP-TA NOFA, the statutory and regulatory provisions governing the CDBG program, including those at 24 CFR Part 570 subparts A, C, D, J, K, and O, as appropriate, apply to the use of NSP2 and NSP-TA funding. In addition, NSP1 activities authorized under HERA apply to NSP2 as well.

Availability of Other Program Information

Additional information about the NSP, including the NSP2 and NSP-TA NOFAs, is available on the HUD Exchange at <https://www.hudexchange.info/programs/nsp/>. HUD has published detailed additional guidance on program income at https://files.hudexchange.info/resources/documents/NSP%20Policy%20Alert_ProgramIncome.pdf.

Additional information about the NSP laws, regulations, and notices are available at <https://www.hudexchange.info/programs/nsp/nsp-laws-regulations-and-federal-register-notices/>.

Specific NSP2 notices are available at:

Notice of Changes to NSP Closeout Requirements Related to Program Income (June 14, 2016) at <https://www.govinfo.gov/content/pkg/FR-2016-06-14/pdf/2016-14062.pdf>

Notice of Changes to NSP Closeout Requirements Related to Program Income Amendment (September 12, 2019) at <https://www.govinfo.gov/content/pkg/FR-2019-09-12/pdf/2019-19708.pdf>

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	N	Y	N	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. For NSP2 funds, HERA requirements supersede some CDBG requirements to allow for the eligible uses in Section 2301(c)(3) of HERA. The NSP2-eligible

uses and CDBG entitlement grant regulations are listed in Appendix I.H of the NSP2 NOFA. The NSP2 eligible uses are to:

- a. Establish financing mechanisms for purchase and redevelopment of foreclosed upon homes and residential properties.
 - b. Purchase and rehabilitate homes and residential properties that have been abandoned or foreclosed upon for later sale, rent, or redevelopment.
 - c. Establish land banks for homes that have been foreclosed upon.
 - d. Demolish blighted structures.
 - e. Redevelop demolished or vacant properties (Appendix I.H, Eligibility and Allowable Costs, of NSP2 NOFA).
2. Grantees must receive written HUD approval to undertake activities other than those listed in III.A.1 (Appendix I.H, Eligibility and Allowable Costs, of NSP2 NOFA).
 3. For NSP funds, NSP requirements supersede existing CDBG requirements (see III.A.1) to permit the use of only the low- and moderate-income national objective for NSP-assisted activities. A NSP activity may not qualify using the “prevent or eliminate slums and blight” or “address urgent community development needs” national objectives. The HERA redefines and supersedes the definition of “low- and moderate-income,” effectively allowing households whose incomes exceed 80 percent of area median income but do not exceed 120 percent of median income to qualify as if their incomes did not exceed the published low- and moderate-income levels of the regular CDBG program (Section III.E. of NSP3 Notice, 75 FR 64329-64331). HUD will refer to this new income group as “middle income” and maintain the regular CDBG definitions of “low-income” and “moderate-income” currently in use (Section 2301(f)(3)(A) of HERA).
 4. For purposes of NSP only, an activity may meet the HERA established low- and moderate-income national objective if the assisted activity (a) provides or improves permanent residential structures that will be occupied by a household whose income is at or below 120 percent of area median income; (b) serves an area in which at least 51 percent of the residents have incomes at or below 120 percent of area median income; or (c) serves a limited clientele whose incomes are at or below 120 percent of area median income (Section 2301(f)(3)(A) of HERA; Section II.E. of NSP3 Notice, 75 FR 64329-64331).
 5. NSP-TA funds can be used for:
 - a. National TA activities are limited to activities that address, at a national level, one or more of NSP-TA program activities or priorities. National TA activities may include the (1) development of written products, (2)

development of web-based materials, (3) development of training courses, (4) delivery of training courses previously approved by HUD, (5) organization and delivery of workshops and conferences, and (6) delivery of direct TA.

- b. Local TA activities are limited to the (1) development of needs assessments, (2) direct TA to HUD community development program recipients, (3) organization and delivery of workshops and conferences, and (4) customization and delivery of previously HUD-approved training courses or materials (Section III.C.2, Eligible National TA and Local TA Activities, of NSP-TA NOFA).

B. Allowable Costs/Cost Principles

1. All items of cost listed in 2 CFR Part 200, Subpart E, that require prior federal agency approval are allowable without prior approval, except for the following:
 - a. Depreciation methods for fixed assets shall not be changed without the approval of the federal cognizant agency.
 - b. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent), housing allowances, and personal living expenses (goods or services for personal use), regardless of whether reported as taxable income to the employees, require prior HUD approval.
 - c. Organization costs require prior HUD approval.
2. Fines, penalties, damages, and other settlements are unallowable (24 CFR section 570.200(a)(5)).

H. Period of Performance

NSP2 grantees are required to expend 50 percent of NSP2 funds in two years after HUD signs the grant agreement and expend 100 percent of NSP2 funds within three years after HUD signs the grant agreement (ARRA, 123 Stat. 217).

J. Program Income

NSP2 revenue received by states, local governments, nonprofits, and consortia of nonprofit entities that is directly generated from the use of NSP2 funds constitutes NSP2 program income. The expenditure of NSP2 program income must meet NSP2 purposes.

1. The CDBG definition of program income shall be applied to amounts received by units of local government and subrecipients (24 CFR section 570.500; Section II.N. of NSP3 Notice, 75 FR 64337). HERA, however, imposes limitations and requirements that necessitate an alternative requirement to govern the use of program income generated by NSP activities. The limitations and

requirements are based on the NSP activity that generated the program income and on the date the income is received (Section 2301(d)(4) of HERA).

- a. Any revenue from the sale, rental, redevelopment, rehabilitation or any other eligible use of NSP funds is to be provided to and used by the unit of local general government. This provision includes revenue received by a private individual or other entity that is not a subrecipient (Section 2301(d)(4) of HERA; Section II.N. of NSP Notice, 73 FR 58340-58341).
 - b. Program income which is generated by NSP activities carried out pursuant to Section 2301(c)(3) of HERA may be retained by the unit of local government if it is treated as additional CDBG funds and used in accordance with the requirements of Section 2301 (Section 2301(c)(3) of HERA; Section II.N. of NSP Notice, 73 FR 58340-58341).
2. With the advent of *Federal Register* Notice of Changes to NSP Closeout Requirements Related to Program Income (81 FR 38730) and the succeeding NSP closeout notice, Notice of Changes to NSP Closeout Requirements Related to Program Income Amendment (84 FR 48165), NSP2 grantees with CDBG annual formula programs may transfer not only NSP program income on hand, but also a future stream of NSP program income for an activity to the annual CDBG program, eliminating the need for multiple written requests to transfer program income that is anticipated, but not yet received. Transfers are made by written notification from the grantee in a form and manner prescribed by HUD and upon HUD written approval. The latter of the two notices mentioned at the beginning of this paragraph provides more specifics on the request and approval process for program income transfers. This provision is limited to CDBG entitlements, state governments, and non-entitlement units of general local government that are state CDBG grant recipients and are current or former (closed out) NSP2 grantees and does not apply to nonprofits, consortia of nonprofit grantees and non-entitlement units of general local government that are not state CDBG grant recipients.
 3. NSP2 grantees that are not CDBG entitlement communities or states must use post-closeout revenues generated from NSP-assisted activities that were funded before closeout for NSP purposes. If the grantee does not have another ongoing CDBG grant received directly from HUD at the time of closeout, then in accordance with 24 CFR 570.504(b)(5), income received after closeout from the disposition of real property or from loans outstanding at the time of closeout shall not be governed by NSP or CDBG rules, except that such income shall be used for activities that meet one of the national objectives in 24 CFR 570.208 and the eligibility requirements described in section 105 of the HCD Act. The provisions of 24 CFR 570.504(b)(5) are waived to limit its application to income received within five years of grant closeout. Any income received five years after grant closeout, as well as program income from funds outlaid after the date of the closeout agreement may be used without restriction. Such grantees are encouraged to use such funds in accordance with the principles above.

4. After grant closeout, former NSP grantees that are CDBG entitlements or state governments will report at least annually as provided for by HUD, in DRGR on the receipt and use of NSP program income, and the disposition of land-banked properties. These grantees must also include NSP program income in the annual CDBG Action Plan or substantial amendment in accordance with CDBG requirements.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *Disaster Recovery Grant Reporting System (DRGR), (OMB No. 2506-0165)*

Key Line Items – The following line items contain critical information:

1. *Obligation Amount*
2. *Drawdown Amount*

2. Performance Reporting

Section 3 of the Housing and Urban Development Act of 1968 – The purpose of Section 3 is to ensure that employment and other economic opportunities generated by certain HUD financial assistance shall, to the greatest extent feasible, and consistent with existing federal, state, and local laws and regulations, be directed to low- and very low-income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low- and very low-income persons. Section 3 projects are housing rehabilitation, housing construction, and other public construction projects assisted under HUD programs that provide housing and community development financial assistance when the total amount of assistance to the project exceeds a threshold of \$200,000. Section 3 reporting is undergoing a transition in FY 2021. A new Section 3 rule (24 CFR Part 75) became effective on November 30, 2020, replacing the old rule at 24 CFR Part 135. Previously, grantees submitted Section 3 data on the HUD Form 60002 using the automated Section 3 Performance Evaluation and Registry System (SPEARS) (24 CFR sections 135.3(a)(1) and 135.90). As of November 30, 2020, NSP recipients are still expected to maintain records of Section 3 statutory, regulatory, and contractual compliance, but are no longer required to report such compliance in

SPEARS. HUD is developing guidance, expected to be effective in July 2021, for NSP grantees to report on Section 3 activities in DRGR.

Key data for NSP Section 3 reporting, on all projects completed within the reporting year, include the following:

1. The total number of labor hours worked;
2. The total number of labor hours worked by Section 3 workers; and
3. The total number of labor hours worked by Targeted Section 3 workers.

Section 3 workers' and Targeted Section 3 workers' labor hours may be counted for five years from when their status as a Section 3 worker or Targeted Section 3 worker is established. The labor hours reported must include the total number of labor hours worked on a Section 3 project by all workers, including labor hours worked by any subrecipients, contractors and subcontractors that the recipient is required or elects to report. Please consult 24 CFR Part 75 for the various definitions of the workers noted above and more details on Section 3 reporting requirements.

Quarterly Performance Report (QPR) (OMB No. 2506-0165)

This report is due each quarter from NSP1, NSP2, and NSP3 grantees and then annually after grant closeout. For state CDBG-DR grantees, the first QPR is due after the first full quarter following execution of a grant agreement with HUD. The report is submitted in HUD's Disaster Recovery Grant Reporting system (DRGR). The instructions for submitting QPRs can be found in the DRGR User Manual (<https://www.hudexchange.info/resource/4915/drgr-user-manual>).

The QPR is created using data in the DRGR action plan. Essentially, the QPRs are a tool that allows the grantee, HUD, and Congress to track expenditures and performance for individual activities. A NSP2 grantee is required to post QPRs on its website. Therefore, the DRGR action plan must be set-up properly in order for the grantee to be enabled to fully report on their activities and accomplishments.

Action plans in DRGR can be modified at almost any time. However, an action plan must be in an approved status before the QPR can be submitted to HUD for review and approval. Additionally, QPRs must be submitted and reviewed within a certain timeframe:

Reporting Period End Date	Grantee Submission Deadlines	HUD Review Deadlines
30-March	30-Apr	30-May
30-Jun	30-Jul	30-Aug
30-Sep	30-Oct	30-Nov
30-Dec	30-Jan	30-Feb

Each quarter, after the submission of the QPR, HUD reviews the QPRs and provides approvals/rejection-revision directions to the grantee.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements Wage Rate Requirements apply to the rehabilitation of residential property only if such property contains eight or more units. However, the requirements do not apply to volunteer work where the volunteer does not receive compensation, or is paid expenses, reasonable benefits, or a nominal fee for such services, and is not otherwise employed at any time in construction work (42 USC 5310; Section 1606 of ARRA; Section 1205 of Pub. L. No. 111-32; 24 CFR 570.603).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Citizen Participation

Compliance Requirements To expedite the distribution of NSP2 funds and ensure citizen participation on the specific use of funds, HUD has established a minimum time for citizen comments of ten days on the proposed use of funds and the targeted geographic area. The grantee must publicize its NSP2 application material on its website and in the general media (Appendix I.B, Pre-Grant Process of NSP2 NOFA).

Audit Objectives Determine whether the grantee adhered to the citizen participation requirements.

Suggested Audit Procedures

- a. Verify that the proposed use of funds and targeted geographic area were posted on the grantee's official website and published in a local newspaper.

- b. Verify that the citizen comment period was no less than ten days.

3. Required Certifications and HUD Approvals

Compliance Requirements NSP2 funds (and local funds to be repaid with NSP2 funds) cannot be obligated or expended before receipt of HUD’s approval of a Request for Release of Funds (RROF) and environmental certification, except for exempt activities under 24 CFR 58.34 and categorically excluded activities under 24 CFR 58.35(b) (24 CFR 58.22).

Audit Objectives Determine whether the grantee is obligating and expending program funds only after HUD’s approval of the RROF.

Suggested Audit Procedures

- a. Examine HUD’s approval of the RROF and environmental certification and note dates.
- b. Review the expenditure and related records to ascertain when NSP2 funds, and local funds which were repaid with NSP2 funds, were first obligated or expended and ascertain if any funds were obligated or expended prior to HUD’s approval of the RROF.

4. Environmental Reviews

Compliance Requirements NSP2 assistance is subject to the National Environmental Policy Act of 1969 and related HUD environmental regulations at 24 CFR Part 58.

Nonprofits recipients and other recipients that are not designated responsible entities under 24 CFR Part 58 may not assume environmental review responsibilities and must receive HUD-approved environmental review under 24 CFR Part 50 unless they apply in consortia with states, local governments, or Indian tribes with jurisdiction over proposed projects. In the case of NSP2, consortium applicants, states, local governments, or Indian tribes may perform the environmental reviews on behalf of consortium for projects within their jurisdiction as described under 24 CFR Part 58. NSP2 grantees cannot obligate or expend federal, or nonfederal, funds if the project or activity would limit reasonable choices or could produce an adverse environmental impact until all required environmental reviews and notifications have been completed by HUD or by a state, local government, or Indian tribe; and either (1) HUD notifies the grantee that the review under 24 CFR Part 50 is completed; or (2) HUD or the state approves a grantee’s request for release of funds under the provisions contained in 24 CFR Part 58.

Projects must have an environmental review unless they meet criteria specified in the regulations that would exempt or exclude them from RROF and environmental certification requirements (24 CFR 58.1, 58.22, 58.34, 58.35, and 570.604).

Recipients undergoing an environmental review under 24 CFR Part 50 are required to (1) supply HUD with all available, relevant information necessary for HUD to perform, for

each property, any environmental review required by 24 CFR Part 50 and (2) carry out mitigating measures required by HUD or select alternate eligible property. Recipient may not (1) acquire, rehabilitate, demolish, convert, lease, repair, or construct property, or (2) commit or expend HUD or other nonfederal funds for the program activities with respect to any eligible property until HUD completes the review and notifies the grantee of approval to proceed.

States, local governments, and Indian tribes that directly implement NSP2 activities are considered recipients and must assume environmental review responsibilities for the environmental activities and those of any nongovernmental entity that participates in the project. These entities that directly implement activities must submit the RROF and the certifications to HUD for approval (24 CFR 58.4(b)(1), 58.34, and 58.35).

Audit Objectives Determine whether the environmental oversight responsibilities and functions had been carried out and required approvals were obtained prior to any obligations of funds.

Suggested Audit Procedures

- a. Verify through a review of environmental review certifications that the required environmental reviews were made.
- b. Select a sample of projects where an environmental review was not performed and ascertain if a written determination was made that the review was not required.
- c. Test whether documentation exists that any determination not to make an environmental review was made consistent with the criteria contained in 24 CFR 58.34 and 58.35(b).
- d. Verify that the state, local government, or Indian tribe obtained environmental review certifications from the subrecipient and that the records provide evidence that the environmental reviews were made.
- e. Verify that funds were obligated and expended after HUD approval of RROFs and environmental certifications.
- f. Verify that, for nonprofits and consortia grantees without state, local government, or Indian tribe members with jurisdiction over assisted projects, the environmental review under 24 CFR Part 50 was completed.

5. Rehabilitation

Compliance Requirements When NSP2 funds are used for rehabilitation, the grantee must ensure that the work is properly completed (24 CFR 570.506).

Any NSP2-assisted rehabilitation of a foreclosed-upon home or residential property shall be completed to the extent necessary to comply with applicable laws, codes, and other

requirements relating to housing safety, quality, or habitability, in order to sell, rent, or redevelop such homes and properties. To comply with this provision, a grantee must describe or reference in its NSP2 application what rehabilitation standards it will apply for NSP2-assisted rehabilitation (Section 2301(d)(2) of HERA; Appendix I.I, Rehabilitation Standards of NSP2 NOFA).

Audit Objectives Determine whether the grantee ensures that NSP2 rehabilitation work is properly completed.

Suggested Audit Procedures

- a. Review rehabilitation standards established for NSP2 work.
- b. Verify through a review of documentation that the grantee inspects the rehabilitation work upon completion to ensure that it is carried out in accordance with contract specifications, and that projects were carried out in accordance with rehabilitations standards.

IV. OTHER INFORMATION

ARRA gave HUD the authority to waive or specify alternative requirements for some of the CDBG statutory and regulatory provisions to facilitate the use of NSP2 funds. Most of the waivers are contained in the NSP2 NOFA.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.267 CONTINUUM OF CARE PROGRAM

I. PROGRAM OBJECTIVES

The Continuum of Care (CoC) program is designed to (1) promote community-wide commitment to the goal of ending homelessness; (2) provide funding for efforts by nonprofit providers, state, and local governments to quickly re-house homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families, and communities by homelessness; (3) promote access to and effective utilization of mainstream programs by homeless individuals and families; and (4) optimize self-sufficiency among individuals and families experiencing homelessness.

II. PROGRAM PROCEDURES

Grants are provided to state, local governments, other governmental entities, private nonprofit organizations, and community mental health agencies that are public nonprofit organizations. CoC program funds may be used to pay for the eligible costs used to establish and operate projects under five program components: (1) permanent housing, which includes permanent supportive housing for persons with disabilities, and rapid rehousing; (2) transitional housing; (3) supportive services only; (4) Homeless Management Information Systems (HMIS); and (5) in some cases, homelessness prevention.

A Unified Funding Agency (UFA) may be established for a CoC to (1) apply to the Department of Housing and Urban Development (HUD) for funding for all of the projects within the geographic area and enter into a grant agreement with HUD for the entire geographic area; (2) enter into legally binding agreements with subrecipients, and receive and distribute funds to subrecipients for all projects within the geographic area; (3) require subrecipients to establish fiscal control and accounting procedures as necessary to ensure the proper disbursement of and accounting for federal funds; and (4) obtain approval of any proposed grant agreement amendments by the CoC before submitting a request for an amendment to HUD.

Source of Governing Requirements

The CoC program is authorized by Subtitle C of Title IV of the Mc Kinney-Vento Homeless Assistance Act (42 USC 11381-11389). Implementing regulations are in 24 CFR Part 578.

Availability of Other Program Information

Pertinent information regarding the CoC program is available on HUD's website at <https://www.hudexchange.info/coc>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
N	N	N	N	Y	Y	Y	Y	Y	N	N	Y

G. Matching, Level of Effort, Earmarking

1. Matching

The recipient or subrecipient must match all grant funds, except for leasing funds, with no less than 25 percent of cash or in-kind contributions from other sources. For CoC geographic areas in which there is more than one grant agreement, the 25 percent match must be provided on a grant-by-grant basis. Recipients that are a UFA or are the sole recipient for their Continuum may provide match on a Continuum-wide basis (24 CFR section 578.73(a)).

2. Level of Effort

2.1 Level of Effort – *Maintenance of Effort*

Not Applicable

2.2 Level of Effort – *Supplement Not Supplant*

No assistance provided under the CoC program (or any state or local government funds used to supplement this assistance) may be used to replace state or local funds previously used, or designated for use, to assist homeless persons or persons at-risk of homelessness (24 CFR section 578.87(a)).

3. Earmarking

No more than 10 percent of any grant awarded may be used for paying the costs of administering the assistance (see III.A.11, “Activities Allowed or Unallowed”). Administrative costs include the costs associated with general management, oversight, and coordination, training on the CoC program requirements, and environmental review. Administrative costs do not include costs for CoC planning activities and UFA costs (24 CFR section 578.59).

N. Special Tests and Provisions

1. Reasonable Rental Rates

Compliance Requirements Where grants are used to pay for rent for all or a part of a structure, the rent paid must be reasonable in relation to rents being charged in the area for comparable space. In addition, the rent may not exceed rents currently being charged by the same owner for comparable unassisted space (24 CFR section 578.49(b)(1)).

Where grants are used to pay rent for individual housing units, the rent paid must be reasonable in relation to rents being charged for comparable units taking into account relevant features. In addition, the rents may not exceed rents currently being charged by the same owner for comparable unassisted units, and the portion of rents paid with grant funds may not exceed HUD-determined fair market rents. Grant funds in an amount up to one month’s rent may be used to pay the non-recipient landlord for any damages to leased units by homeless participants (24 CFR sections 578.49(b)(2) and 578.51(g) and (j)).

Audit Objectives Determine reasonableness of the rents being paid with grant funds.

Suggested Audit Procedures

- a. Determine the acceptability of the manner in which the recipient or subrecipient establishes rent reasonableness and the rents charged by the owner for comparable unassisted units. Ascertain through an examination of documentation that telephone surveys, site visits after telephoning, more extensive market surveys of available rental units, or similar tools were used to assess the reasonableness of rents being charged.
- b. Verify by a review of the rental records that the contract rents being paid are comparable with those paid for unassisted units, no more than one month’s rent is paid for tenant damages, and that the portion of rents paid with grant funds do not exceed fair market rents.

2. Use of Property

Compliance Requirements Recipients or subrecipients receiving assistance for acquisition, rehabilitation, or new construction must agree to operate the supportive housing or provide supportive services for a term of at least 15 years from the date of initial occupancy or the date of initial service provision. If HUD determines that a project is no longer needed for use as supportive housing or to provide supportive services and approves the use of the project for the direct benefit of very low-income persons pursuant to a request for such use by the recipient or subrecipient operating the project, HUD may authorize the recipient or subrecipient to convert the project to such use (24 CFR section 578.81(a) and (b)).

Audit Objectives Determine whether there are valid agreements for the provision of supportive housing or supportive services when assistance is provided for acquisition, rehabilitation, or new construction.

Suggested Audit Procedures

Verify that a binding agreement exists between the recipient or subrecipient and owner of the structure, if other than the recipient or subrecipient, covering the provision of supportive housing or supportive services for 15 years if the grant assistance involves acquisition, rehabilitation, or new construction.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.269 HURRICANE SANDY COMMUNITY DEVELOPMENT
BLOCK GRANT DISASTER RECOVERY GRANTS (CDBG-DR)****ASSISTANCE LISTING 14.272 NATIONAL DISASTER RESILIENCE COMPETITION
(CDBG-NDR)****I. PROGRAM OBJECTIVES**

The primary objectives of the CDBG-DR and CDBG-NDR programs are to provide disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster, declared pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (42 USC 5121 et seq.) (Stafford Act), due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

II. PROGRAM PROCEDURES

The CDBG-DR program provides grants to states or units of general local government to be used for specific disaster-related purposes. Formula funds are allocated to recipients through the issuance of CDBG-DR notices in the *Federal Register*. The CDBG-NDR program provides discretionary grants that address unmet needs from past disasters while addressing the vulnerabilities to future disasters. The National Disaster Resilience Competition (NDRC) Notice of Funding Availability (NOFA) (FR-5800-N-29A2) provided the funding process for CDBG-NDR grants. Prior to the obligation of funds, a grantee must submit an action plan detailing the proposed use of funds, including criteria for eligibility and how use of these funds will address disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas.

Notices provide the requirements regarding the use of funds, and waivers and alternative requirements to CDBG Block/Entitlement Grants (CDBG) requirements (see Assistance Listing 14.218). The Hurricane Sandy CDBG-DR program provides assistance to three categories of grantees: (1) state and local governments engaged in recovery from Hurricane Sandy; (2) state and local governments engaged in recovery from disasters that occurred in 2011 and 2012 other than Hurricane Sandy; and (3) state and local governments engaged in recovery from 2013 disasters. The CDBG-NDR program provides assistance to state and local governments engaged in recovery from disasters that occurred in 2011, 2012, or 2013. Auditors will need to look at the notices that apply to the grantee to understand the full scope of the funding and requirements associated with the grant that is under review. Requirements, waivers, and alternative requirements for CDBG-NDR grants can be found in the NOFA (FR-5800-N-29A2) and at Appendix A of the NOFA.

The Department of Housing and Urban Development (HUD) also may publish other applicable *Federal Register* notices subsequent to the publication of this program supplement. Auditors will need to consult the CDBG-DR website to access any subsequent applicable CDBG-DR/CDBG-NDR notices.

The applicable *Federal Register* notices, and the NOFA, governing CDBG-DR and CDBG-NDR funds, respectively, require that in an Action Plan for Disaster Recovery, grantees describe uses and activities that (1) are authorized under title I of the Housing and Community Development Act of 1974 (42 USC 5301 et seq.) (HCD Act) or allowed by a waiver or alternative requirement; and (2) respond to a disaster-related impact. To help meet these requirements, grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities. All CDBG-DR/CDBG-NDR activities must clearly address the impact of the disaster for which funding was appropriated. Each activity must be CDBG-eligible (or receive a waiver), meet a national objective, and address a direct or indirect impact from the disaster in a county covered by a presidential disaster declaration.

The requirements for CDBG action plans, located at 42 USC 12705(a)(2), 42 USC 5304(a)(1), 42 USC 5304(m), 42 USC 5306(d)(2)(C)(iii), and 24 CFR sections 91.220 and 91.320, have been waived for funds provided for CDBG-DR/CDBG-NDR activities. Instead, per the applicable *Federal Register* notices or NOFA, each grantee must submit to HUD an Action Plan for Disaster Recovery for approval. For CDBG-NDR grantees, the Phase I and Phase II competition applications will serve as the action plan, as stated in the NOFA at Section I.B. The action plan must identify the proposed use(s) of the grantee's allocation, including criteria for eligibility, and how the uses address long-term recovery needs. For CDBG-DR grants, a grantee may submit a partial action plan, but the partial action plan must be amended one or more times until it describes uses for 100 percent of the grantee's CDBG-DR award. CDBG-NDR grantees request funding amounts in their applications but may amend applications and funding amounts in subsequent action plan amendments.

In the action plan, grantees must document how each activity is connected to the disaster for which it is receiving CDBG-DR/CDBG-NDR assistance. Following approval of an action plan providing for the initial or subsequent allocation of CDBG-DR/CDBG-NDR funds, a grantee must amend its action plan to project expenditures and outcomes within 90 days of the action plan approval. The projections must be based on each quarter's expected performance, beginning with the quarter funds are available to the grantee and continuing each quarter until all funds are expended. The action plan must be amended to reflect any subsequent changes, updates, or revisions of the projections. All amendments to action plans must be published by the grantee.

The secretary of HUD must certify, in advance of signing a grant agreement, that the grantee has in place proficient financial controls and procurement processes and has established adequate procedures to (1) prevent any duplication of benefits as defined by Section 312 of the Stafford Act; (2) ensure timely expenditure of funds; (3) maintain comprehensive websites regarding all disaster recovery activities assisted with these funds; and (4) detect and prevent waste, fraud, and abuse of funds.

Source of Governing Requirements

These grants are authorized by the Disaster Relief Appropriations Act, 2013 (Appropriations Act), Pub. L. No. 113-2, January 29, 2013. Implementing regulations are located at 24 CFR Part 570. Waivers and requirements are provided in individual CDBG-DR and CDBG-NDR notices. Many of the general program waivers and requirements for the CDBG-DR program are in the

Hurricane Sandy CDBG-DR notice (78 FR 14329, March 5, 2013), with subsequent notices referencing the waivers and requirements in that notice. For CDBG-NDR, many of the general program requirements are in Appendix A of the NOFA (FR-5800-N-29A2) with subsequent notices to be published that references award amounts and waivers and alternative requirements.

Availability of Other Program Information

Additional information about the CDBG-DR and CDBG-NDR programs and CDBG-DR notices are available at <https://www.hudexchange.info/cdbg-dr/>. The CDBG-NDR NOFA is available at https://www.hud.gov/program_offices/administration/grants/fundsavail/nofa14/ndrc. The applicable *Federal Register* notices for each category of grantee receiving assistance under the CDBG-DR and CDBG-NDR programs are as follows:

All CDBG-DR Grantees

- 79 FR 60490 (October 7, 2014)
- 80 FR 26942 (May 11, 2015)
- 80 FR 72102 (November 18, 2015)
- 81 FR 7567 (February 12, 2016)

National Disaster Resilience Competition Grantees (Note: The NOFA below is available on the Internet)

FR-5800-N-29A2 (June 22, 2015)

81 FR 36557 (June 7, 2016)

82 FR 36812 (August 7, 2107)

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	Y	Y	N	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. All activities undertaken must meet one of three national objectives of the regular CDBG program (see Assistance Listing 14.218, III.A.1, “Activities Allowed or Unallowed”) (i.e., benefit low- and moderate-income persons, prevent or eliminate slums or blight, or meet community development needs having a particular urgency (24 CFR sections 570.200 and 570.208)).

In the applicable *Federal Register* notices for each category of grantee, HUD has provided an alternative requirement for the CDBG program (Assistance Listing 14.218) urgent need national objective criteria for these grants. In the regular CDBG program, in order to meet the urgent need national objective in 24 CFR section 570.208(c), the recipient must certify that (1) the activity is designed to alleviate existing conditions which (a) pose a serious and immediate threat to the health and welfare of the community, and (b) are of recent origin or recently became urgent; (2) the recipient is unable to finance the activity on its own; and (3) other sources of funds are not available. For CDBG-DR and CDBG-NDR,

HUD eliminated the recordkeeping requirement that grantees document the nature, degree, and timing of the seriousness of the condition to be addressed by the activity if the urgent need is based on current economic conditions.

HUD has determined that current economic conditions are of recent origin and pose a serious and immediate threat to the economic welfare of communities; therefore, HUD will accept a grantee's certification that current economic conditions are of recent origin and constitute a serious and immediate threat to the welfare of the community. However, the grantee must demonstrate that it is unable to finance the activity on its own, and that other sources of funding are not available. The alternative urgent need national objective may be used for grantees for two years following the obligation of funds for the activity.

HUD has also waived 24 CFR sections 570.506(b)(12)(i) and (iii) and 570.208(c) to the extent necessary, to allow these grantees to certify that an activity is designed to address current economic conditions that pose a threat to the economic welfare of communities (see the section on Applicable Rules, Statutes, Waivers, and Alternative Requirements of the applicable CDBG-DR notice in 78 FR 14329 for Hurricane Sandy grantees; 78 FR 32265 for 2011 and 2012 disaster grantees; 78 FR 76157 for 2013 disaster grantees; and Section V.A.1.f of Appendix A of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).

2. Grants funds are to be used for the following activities: (a) the acquisition of real property; (b) the acquisition, construction, reconstruction, rehabilitation, or installation of public works, facilities and sites, or other improvements, including removal of architectural barriers that restrict accessibility of elderly or severely disabled persons; (c) clearance, demolition, and removal of buildings and improvements; (d) payments to housing owners for losses of rental income incurred in temporarily holding housing for the relocated; (e) disposition of real property acquired under this program; (f) provision of public services (subject to limitations contained in the CDBG regulations); (g) payment of the nonfederal share for another grant program for activities that are otherwise eligible (this includes programs or activities administered by the Federal Emergency Management Agency (FEMA) or the US Army Corps of Engineers); (h) interim assistance where immediate action is needed prior to permanent improvements or to alleviate emergency conditions threatening public health and safety; (i) payment to complete a title I federal urban renewal project; (j) relocation assistance; (k) planning activities; (l) administrative costs; (m) acquisition, construction, reconstruction, rehabilitation, or installation of commercial or industrial buildings; (n) assistance to community-based development organizations; (o) activities related to privately owned utilities; (p) assistance to private, for-profit businesses, when appropriate to carry out an economic development project; (q) construction of housing assisted under Section 17 of the United States Housing Act of 1937; (r) reconstruction of properties; (s) direct homeownership assistance to low- and moderate-income households to facilitate and expand homeownership; (t) technical assistance to public or private entities for capacity building (exempt from the planning/administration cap (see III.G.3));

- (u) housing services related to HOME-funded activities (see Assistance Listing 14.239); (v) assistance to institutions of higher education to carry out eligible activities; (w) assistance to public and private entities (including for-profits) to assist micro-enterprises; (x) payment for repairs and operating expenses for acquired “in Rem” properties; (y) residential rehabilitation, including code enforcement in deteriorated or deteriorating areas, lead-based paint hazard evaluation and removal; and (z) construction or improvement of tornado-safe shelters for residents of manufactured housing and provision of assistance to nonprofit and for-profit entities for such construction or improvement (42 USC 5305(a); 24 CFR sections 570.200 through 570.207, and 570.482).
3. All the activities that a grantee undertakes using CDBG-DR/CDBG-NDR funds must be identified in an action plan or an amended action plan (78 FR 14332 for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; 78 FR 76157 for 2013 disaster grantees; and Section I.B of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).
 4. For Hurricane Sandy grantees, 2013 disaster grantees, and CDBG-NDR grantees, as documented in grantee files, infrastructure projects, and programs must be (a) based on a comprehensive risk analysis as provided for in the grantee’s action plan; and (b) constructed or rehabilitated consistent with identified resilience performance standards (78 FR 69107 for Hurricane Sandy grantees; 78 FR 31964 for 2013 disaster grantees; and Section V.A of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).
 5. Housing projects and programs for CDBG-DR grantees, as documented in grantee files, must
 - a. incorporate green building standards;
 - b. not provide rehabilitation assistance, residential incentives, or buy-out assistance to secondary residences as defined by IRS publication 936; and
 - c. provide for the elevation of newly constructed or substantially improved structures located in a flood plan to a level of at least one foot higher than the latest FEMA-issued base flood elevation (78 FR 14333, 14345 and 78 FR 23579 for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; and 78 FR 76157 for 2013 disaster grantees).
 6. Assistance to for-profit businesses can only be provided to those businesses that meet the definition of a small business as established by the Small Business Administration at 13 CFR Part 121 (provided that the size requirement shall apply only to each business EIN) (78 FR 14347, for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; 78 FR 76157 for 2013 disaster grantees; and 78 FR 31970; and Section V.B.39. of Appendix A of the NOFA (FR-5800-N-29A2)).

7. For local government grantees, when CDBG-DR funds are used to finance rehabilitation, the rehabilitation is to be limited to (1) privately owned buildings and improvements for residential purposes; (2) low-income public housing and other publicly owned residential buildings and improvements; (3) publicly or privately owned commercial or industrial buildings, structures, or other real property, equipment, and improvements under certain circumstances; and (4) manufactured housing when it constitutes part of the community’s permanent housing stock (24 CFR sections 570.202 and 570.203). State grantees may also use CDBG-DR funds to finance the reconstruction or rehabilitation of privately owned buildings and improvements not related to a residential purpose. HUD has also waived provisions of 42 USC 5305(a) to allow the rehabilitation or reconstruction of public buildings by both local government and state grantees (78 FR 14346 for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; and 78 FR 76157 for 2013 disaster grantees).
8. Each state and local government receiving a direct CDBG-DR award must expend its entire award within its jurisdiction (e.g., New York City must expend all funds within New York City), as described in each applicable *Federal Register* notice (see the section on Allocations and Related Information of the applicable CDBG-DR notice in 78 FR 14330, 78 FR 69105, and 79 FR 62183 for Hurricane Sandy grantees; 78 FR 32263 for 2011/2012 disaster grantees; and 78 FR 76155 and 79 FR 31965 for 2013 disaster grantees). For CDBG-NDR grantees, funds must be used to benefit the approved target area for which the grantee has demonstrated remaining unmet recovery needs, as described within its application or amended action plan and per the NOFA criteria for demonstrating unmet recovery needs (Section III.A, “Eligible Project Areas,” of the NOFA (FR-5800- N-29A2)).

G. Matching, Level of Effort, Earmarking

1. Matching

Not Applicable

2. Level of Effort

Not Applicable

3. Earmarking

- a. For all grantees, HUD has waived the requirements at 24 CFR sections 570.200(a)(3) and 570.484 that require that 70 percent of CDBG funds be used for activities that benefit low- and moderate-income persons. Instead, 50 percent of CDGB-DR/CDBG-NDR funds must benefit low- and moderate-income persons. HUD may also establish an overall benefit requirement of less than 50 percent for individual grantees (78 FR 14339-14340 for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; 78 FR 76157 for 2013 disaster grantees; and Section V.A.7. of Appendix A of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).

- b. Not more than 20 percent of the total CDBG-DR/CDBG-NDR grant, plus 20 percent of program income received during a program year, may be obligated for activities that qualify as planning and general administration as defined in 24 CFR sections 570.205 and 570.206 (24 CFR section 570.200(g), 78 FR 14340 for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; 78 FR 76157 for 2013 grantees; and Section V.A.10.b. of Appendix A of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).
- c. Not more than 5 percent of the total CDBG-DR/CDBG-NDR grant may be used for general administration and technical assistance (78 FR 14340 for Hurricane Sandy grantees; 78 FR 32265 for 2011/2012 disaster grantees; 78 FR 76157 for 2013 disaster grantees; and Section V.A.10.b. of Appendix A of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).

H. Period of Performance

All funds must be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUD's signing of the grantee's CDBG-DR or CDBG-NDR grant agreement or an amendment to the grant agreement). The requirement to expend funds within two years of the date of obligation is enforced relative to the activities funded under each obligation (i.e., the grant agreement or grant amendment, as applicable). For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. HUD will publish any approved waivers in the *Federal Register* once granted (Title IX, Section 904(c) of the Appropriations Act, 127 Stat. 17; 78 FR 14331 and 14341-14342 for Hurricane Sandy grantees; 78 FR 32644 and 32265 for 2011/2012 disaster grantees; 78 FR 76156-76157 for 2013 disaster grantees; and Section IV.E. of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable (cash status only)

2. Performance Reporting

HUD 60002, Section 3 Summary Report, Economic Opportunities for Low- and Very Low-Income Persons (OMB No. 2529-0043) – Each recipient that administers covered public and Indian housing assistance, regardless of the amount expended, and each recipient that administers covered housing and community development assistance in excess of \$200,000 in a program year, must

submit HUD 60002 information using the automated Section 3 Performance Evaluation and Registry (SPEARS) System (24 CFR sections 135.3(a)(1) and 135.90). Information on the automated system is available at https://www.hud.gov/program_offices/field_policy_mgt/section3/spears. The system was launched August 24, 2015.

SPEARS pre-populates Form HUD 60002 with the recipient name and address along with disbursement data for program funding covered by Section 3. Users have the flexibility of selecting the 12-month reporting period, typically to coincide with their respective fiscal cycle. The due date for submission of 2013 and 2014 reports was extended to December 15, 2015.

Key Line Items – The following line items contain critical information:

1. Number of new hires that meet the definition of a Section 3 resident
2. Total dollar amount of construction contracts awarded during the reporting period
3. Dollar amount of construction contracts awarded to Section 3 businesses during the reporting period
4. Number of Section 3 businesses receiving the construction contracts
5. Total dollar amount of nonconstruction contracts awarded during the reporting period
6. Dollar amount of nonconstruction contracts awarded to Section 3 businesses during the reporting period
7. Number of Section 3 businesses receiving the nonconstruction contracts

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements Wage Rate Requirements apply to the rehabilitation of residential property only if such property contains eight or more units. However, the requirements do not apply to volunteer work where the volunteer does not receive compensation, or is paid expenses, reasonable benefits, or a nominal fee for such

services, and is not otherwise employed at any time in construction work (42 USC 5310; Section 1205 of Pub. L. No. 111-32; 24 CFR section 570.603).

See Part 4, 20.001, Wage Rate Requirements Cross-Cutting Section.

2. Citizen Participation

Compliance Requirements Prior to the submission to HUD for its Disaster Recovery grant, the grantee must certify to HUD that it has met the citizen participation requirements through the adoption of a citizen participation plan. The applicable *Federal Register* notice allocating funds to a grantee or NOFA specifies the time frame for public comment on the action plan or action plan amendment.

Grantees are responsible for ensuring that all citizens have equal access to information about the programs, including persons with disabilities and limited English proficiency. Each grantee must ensure that program information is available in the appropriate languages for the geographic area served by the jurisdiction. Subsequent to publication of the proposed action plan, the grantee must provide a reasonable time frame and method(s) (including electronic submission) for receiving comments on the plan or substantial amendment (78 FR 14338 for Hurricane Sandy grantees; 79 FR 31969 for 2011/2012 disaster grantees; 78 FR 76156-76157 for 2013 disaster grantees; and Section III.C.1. of the NOFA (FR-5800-N-29A2) for CDBG-NDR grantees)).

Audit Objectives Determine whether the grantee has developed and implemented a citizen participation plan.

Suggested Audit Procedures

- a. Verify that the grantee has a citizen participation plan.
- b. Examine HUD's approved action plans and note dates that the program information is available in the appropriate languages for the geographic area served by the jurisdiction.
- c. Verify through a review of the grantee's official website or other means that interested parties have been provided with an opportunity to examine the proposed plan or amendment's contents in accordance with the citizen participation plan.

3. Required Certifications and HUD Approvals

Compliance Requirements CDBG-DR/CDBG-NDR funds (and local funds to be repaid with CDBG-DR/CDBG-NDR funds) cannot be obligated or expended before receipt of HUD's approval of a Request for Release of Funds (RROF) and environmental certification, except for exempt activities under 24 CFR section 58.34 and categorically excluded activities under 24 CFR section 58.35(b) (24 CFR section 58.22).

Audit Objectives Determine whether the recipient is obligating and expending program funds only after HUD’s approval of the RROF.

Suggested Audit Procedures

- a. Examine HUD’s approval of the RROF and environmental certification and note dates.
- b. Review the expenditure and related records to ascertain when CDBG-DR/CDBG-NDR funds, and local funds which were repaid with CDBG-DR/CDBG-NDR funds, were first obligated or expended and ascertain if any funds were obligated or expended prior to HUD’s approval of the RROF.

4. Environmental Reviews

Compliance Requirements Projects must have an environmental review unless they meet criteria specified in the regulations that would exempt or exclude them from RROF and environmental certification requirements (24 CFR sections 58.1, 58.22, 58.34, 58.35, and 570.604).

Audit Objectives Determine whether environmental reviews are being conducted, when required.

Suggested Audit Procedures

- a. Verify through a review of environmental review certifications that the environmental reviews were made.
- b. Select a sample of projects where an environmental review was not performed and ascertain if a written determination was made that the review was not required.
- c. Test whether documentation exists that any determination not to make an environmental review was made consistent with the criteria contained in 24 CFR sections 58.34 and 58.35(b).

5. Rehabilitation

Compliance Requirements When CDBG-DR/CDBG-NDR funds are used for rehabilitation, the recipient must ensure that the work is properly completed (24 CFR section 570.506).

Audit Objectives Determine whether the recipient ensures rehabilitation work is properly completed.

Suggested Audit Procedures

- a. Verify that pre-rehabilitation inspections are conducted and describes the deficiencies to be corrected.
- b. Ascertain that the deficiencies to be corrected are incorporated into the rehabilitation contract.
- c. Verify through a review of documentation that the recipient inspects the rehabilitation work upon completion to ensure that it is carried out in accordance with contract specifications.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.275 HOUSING TRUST FUND

I. PROGRAM OBJECTIVES

The Housing Trust Fund (HTF) is an affordable housing production program that complements existing federal, state, and local efforts to increase and preserve the supply of decent, safe, and sanitary affordable housing for extremely low-income (ELI) and very low-income households (VLI), including homeless families (24 CFR Part 93), by providing annual formula allocations to states. Grantees must use at least 80 percent of each annual grant for rental housing and may use up to 10 percent for homeownership and up to 10 percent for the grantee's reasonable administrative and planning costs. In any fiscal year in which total funding is below \$1 billion, all funds must be used to benefit ELI families or families with incomes at or below the federal poverty line. HTF funds may be used for the production or preservation of affordable housing through the acquisition, new construction, reconstruction, and/or rehabilitation of non-luxury housing with suitable amenities. All HTF-assisted units have a minimum affordability period of 30 years.

II. PROGRAM PROCEDURES

Fannie Mae and Freddie Mac set aside funds for HTF, which are made available to HUD each year. The department must publish HTF formula allocations for grantees in the *Federal Register* each year. The statute requires that each state and the District of Columbia receive an annual minimum allocation amount of \$3 million. Funds available after each state and the District of Columbia receive their minimum allocations will be allocated to Puerto Rico and the four insular areas. The consolidated plan regulation at 24 CFR section 91.320(k)(5), requires the state to create and submit an HTF allocation plan as part of its annual action plan submission. The allocation plan must describe how the state will distribute its HTF funds, including how it will use the funds to address its priority housing needs, what types of projects may be undertaken with those funds, and how recipients and projects will be selected to receive those funds.

Grantees may select units of general local government or state agencies as subgrantees. The grantee must enter into a written agreement with a subgrantee that details the requirements for the subgrantee. Subgrantees must also submit an allocation plan that includes all elements required by section 91.220(l)(5). The grantee is responsible for ensuring that its subgrantees adhere to all HTF regulations as well as any additional requirements set forth by the grantee. In addition, grantees are required to set-up and report program accomplishments for its HTF projects in HUD's Integrated Data Information System (IDIS) according to timeframes specified by the department. The grantee also draws down HTF funds from its HTF Treasury account using IDIS.

Source of Governing Requirements

HTF was established under Title I of the Housing and Economic Recovery Act of 2008 (HERA), which was a major housing legislation enacted to reform and improve the regulation of the government-sponsored enterprises (GSEs)—Fannie Mae and Freddie Mac, strengthen neighborhoods hardest hit by the foreclosure crisis, enhance mortgage protection, and maintain

the availability of affordable home loans. The reform of the GSEs is provided in the Federal Housing Finance Regulatory Reform Act of 2008, which is Division A, Title I of HERA. Section 1131 of Division A, amended the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (12 USC 4501 et seq.) (the Act) to add a new section 1337 entitled “Affordable Housing Allocations” and a new section 1338 entitled “Housing Trust Fund.”

Availability of Other Program Information

Pertinent information that will assist the auditor in understanding the Housing Trust Fund program is available on the agency website at <https://www.hudexchange.info/programs/htf/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	Y	N	N	Y	N	N	Y

A. Activities Allowed or Unallowed

HTF funds may be used for the production, preservation, and rehabilitation of affordable rental housing and affordable housing for first-time homebuyers through the acquisition (including assistance to homebuyers), new construction, reconstruction, or rehabilitation of nonluxury housing with suitable amenities, including real property acquisition, site improvements, conversion, demolition, and other expenses, including financing costs, relocation expenses of any displaced persons, families, businesses, or organizations; for

operating costs of HTF-assisted rental housing; and for reasonable administrative and planning costs. Operating cost assistance and operating cost assistance reserves may be provided only to rental housing acquired, rehabilitated, reconstructed, or newly constructed with HTF funds. HTF-assisted housing must be permanent housing; specific restrictions apply to manufactured housing. There are restrictions regarding multi-unit projects also.

The grantee may not provide assistance (other than assistance to a homebuyer to acquire housing previously assisted with HTF funds or renewal of operating cost assistance or renewal of operating cost assistance reserve) to a project previously assisted with HTF funds during the period of affordability established by the grantee in the written agreement under 24 CFR section 93.404 (c)(2)(iv). However, additional HTF funds may be committed to a project up to one year after project completion, but the amount of HTF funds in the project may not exceed the maximum per-unit development subsidy amount established pursuant to 24 CFR section 93.300. Also, per 24 CFR section 93.204, several activities and fees that are not allowed, such as paying delinquent taxes, servicing or origination fees associated with the cost of administering the program.

B. Allowable Costs/Cost Principles

Eligible Project Costs. HTF funds may be used to pay very specific project costs noted in 24 CFR section 93.201, such as the actual cost of constructing or rehabilitating housing, to make improvements to the project site that are in keeping with improvements of the surrounding, standard projects. Site improvements may include onsite roads and sewer and water lines necessary to the development of the project. The cost to refinance existing debt secured by rental housing units that are being rehabilitated with HTF funds but only if the refinancing is necessary to reduce the overall housing costs and to make the housing more affordable and proportional to the number of HTF-assisted units in the rental project. The proportional rehabilitation cost must be greater than the proportional amount of debt that is refinanced.

HTF funds may be used for the production, preservation, and rehabilitation of affordable rental housing and affordable housing for first-time homebuyers through the acquisition (including assistance to homebuyers), new construction, reconstruction, or rehabilitation of nonluxury housing with suitable amenities, including real property acquisition, site improvements, conversion, demolition, and other expenses, including financing costs, relocation expenses of any displaced persons, families, businesses, or organizations; for operating costs of HTF-assisted rental housing; and for reasonable administrative and planning costs. The specific eligible costs for these activities are found in 24 CFR section 93.201 and section 93.202.

E. Eligibility

1. Eligibility for Individuals

The HTF program has income-targeting requirements. Only extremely low-income families may occupy an HTF-assisted unit. Income must be determined by

their “annual income” as defined in 24 CFR 5.609 or by “adjusted gross income, as defined by the IRS form 1040 series for individual federal annual income tax purposes. The grantee may use only one definition for each HTF-assisted program (e.g., down payment assistance program that it administers and for each rental housing project). However, for the initial determination of annual income, the grantee must examine at least two months of source documents evidencing annual income (e.g., wage statement, interest statement, unemployment compensation statement) for the family. Also, the grantee must obtain a written statement from the family attesting to their annual income and family size. This certification must state that the family will provide source documents upon request. The administrator of the program must yearly attest to the family size and annual income or alternatively, indicate the current dollar limit for very low or low-income families for the family size of the tenant and state that the tenant’s annual income does not exceed this limit.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

G. Matching, Level of Effort, Earmarking

Not more than 10 percent of the annual grant may be used for housing for homeownership.

Not more than 10 percent of the sum of each fiscal year HTF grant and of program income deposited into its local account or received and reported by its subgrantees during the program year, may be expended for payment of reasonable administrative and planning costs of the HTF.

Not more than one-third of each annual grant may be used for operating cost assistance and operating cost assistance reserves.

The grantee must use 100 percent of its HTF grant for the benefit of extremely low-income families or families with incomes at or below the poverty line (whichever is greater).

J. Program Income

Program income must be deposited in the grantee’s HTF local account unless the grantee permits a subgrantee to retain the program income for additional HTF projects pursuant to the written agreement required by 24 CFR 93.404(b). The grantee must report the program income received as well as the use of the program income for HTF in HUD’s disbursement and information system.

N. Special Tests and Provisions

1. Maximum Per-Unit Subsidy and Underwriting and Subsidy Layering Requirements

Compliance Requirements Maximum per-unit development subsidy amount. The grantee must establish maximum limitations on the total amount of HTF funds that the grantee may invest per-unit for development of non-luxury housing, with adjustments for the number of bedrooms and the geographic location of the project. These limits must be reasonable and based on actual costs of developing non-luxury housing in the area. The grantee must include these limits in its consolidated plan and update these limits annually.

Underwriting and Subsidy Layering. Before committing funds to a project, the grantee must evaluate the project in accordance with guidelines that it has adopted for determining a reasonable level of profit or return on recipient's investment in a project and must not invest any more HTF funds, alone or in combination with other governmental assistance, than is necessary to provide quality affordable housing that is financially viable for a reasonable period (at minimum, the period of affordability in Section 93.302 or Section 93.304) and that will not provide a profit or return on the recipient's investment that exceeds the grantee's established standards for the size, type, and complexity of the project. The guidelines adopted by the grantees must require the grantee to undertake:

1. An examination of the sources and uses of funds for the project (including any operating cost assistance, operating cost assistance reserve, or project-based rental assistance that will be provided to the project) and a determination that the costs are reasonable; and
2. An assessment, at minimum, of the current market demand in the neighborhood in which the project will be located, the experience of the recipient, the financial capacity of the recipient, and firm written financial commitments for the project.

Audit Objectives Determine whether the HTF subsidies being provided are not more than necessary to provide affordable housing and are properly supported.

Suggested Audit Procedures

- a. Review a sample of projects to verify that the HTF subsidy amounts are supported by the grantee's records.
- b. Review grantee records to verify that each housing project was evaluated in accordance with its guidelines and to ensure that the HTF assistance to the project is not any more than the maximum limits established by the grantee.

2. Drawdowns of HTF Funds

Compliance Requirements The Integrated Disbursement and Information System (IDIS) is used both to collect information on compliance with program requirements and to disburse HTF funds to HTF grantees (24 CFR section 93.402).

Audit Objectives Determine whether the drawdowns of HTF funds using IDIS (HTF payment certificate amounts) are supported by grantee records.

Suggested Audit Procedures

Verify that HTF payment certification amounts match the amount of the grantee's expenditures to support the drawdown request.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.850 PUBLIC AND INDIAN HOUSING****I. PROGRAM OBJECTIVES**

The overall objective of the Public and Indian Housing program is to provide and operate cost-effective, decent, safe, and affordable dwellings for lower income families through an authorized local Public Housing Agency (PHA).

II. PROGRAM PROCEDURES**A. Overview**

Operating Fund grants are available to achieve and maintain adequate operating and maintenance service and reserve funds. Capital Fund grants are provided for modernization and development activities.

PHAs established in accordance with state law are eligible to administer the public housing program. The proposed program must be approved by the local governing body. There are three core occupancy procedures which are described in program regulations and other guidance: (1) determination of eligibility; (2) determination of income and rent; and (3) leasing and continuing occupancy.

B. Subprograms/Program Elements**1. *Operating Fund***

PHAs with greater than 250 rental dwelling units are required to manage properties according to an asset management model, consistent with the management norms in the broader multi-family management industry. PHAs must be in compliance with asset management requirements.

There are five interrelated core elements of asset management: project-based funding; budgeting; accounting; management; and oversight/performance assessment. PHAs must implement these project-based practices, which includes project-specific financial reporting through the Financial Data Schedule (FDS). PHAs that own and operate 250 or more dwelling rental units, and not intending to fund central office operating costs with Capital Fund grants, must establish a Central Office Cost Center (COCC) to account for non-project specific costs because, if using Capital Fund grants, these costs get charged to the project as opposed to a COCC.

The COCC must charge each project for indirect costs (expenses of the “management company,” namely the COCC) using a fee-for-service approach. Each project shall be charged for the actual services received and only to the extent that such amounts are reasonable. The asset management fee and transfers of funds between projects (project fungibility) will be limited to the restrictions

made on excess cash. Excess cash will also be monitored as a compliance requirement after the first year of asset management.

The grant assistance is made available from the Operating Fund through the Annual Contributions Contract (ACC). The ACC is a grant agreement between HUD and the PHA, whereby HUD agrees to provide grant assistance and the PHA agrees to comply with HUD requirements for the development and operation of its public housing projects (24 CFR section 990.115). Funding is determined by a formula used to calculate the amount of operating subsidy for each PHA. The operating subsidy is equal to the project's Project Expense Level (PEL) plus the Utilities Expense Level (UEL), multiplied by Eligible Unit Months (EUM), plus other formula expenses (add-ons), minus formula income. The methodology and procedures for this calculation are found in 24 CFR Part 990.

The Operating Fund calculation is prepared in conjunction with the project's annual operating subsidy worksheet in HUD Form 52723, *Operating Fund Calculation of Operating Subsidy (OMB No. 2577-0029)* and HUD Form 52722, *Operating Fund Calculation of Utilities Expense Level (OMB No. 2577-0029)*. Both forms are submitted before the beginning of the calendar year (CY) in accordance with the schedule established by HUD.

Essentially, the PEL, which is the non-utility costs for each project, is based on what it would cost a well-managed project of comparable location and characteristics to operate based on such variables as: (1) size of project (number of units); (2) age of property (date of full availability); (3) bedroom mix; (4) building type; (5) occupancy type; (6) location (an indicator of the type of community in which a property is located (location types include rural, city central metropolitan, and non-city central metropolitan (suburban) areas); (7) neighborhood poverty rate; (8) percentage of households assisted; (9) ownership type (profit, nonprofit, or limited dividend); and (10) geographic location.

The resulting PELs are arrived at by application of the formula utilizing these variables. These costs are updated annually based on inflation and changes in the PHA characteristics included in the equation. The UEL is a figure that reflects payment to the PHA for PHA-paid utility costs for each project. The UEL is formula-determined, reflective of actual consumption during the previous four years, recent utility rates, and a factor for inflation.

As owners, PHAs have asset management responsibilities that are above and beyond property management activities. These responsibilities include decision-making on topics such as long-term capital planning and allocation, the setting of ceiling or flat rents, review of financial information and physical stock, property management performance, long-term viability of properties, property repositioning and replacement strategies, risk management responsibilities pertaining to regulatory compliance, and those decisions otherwise consistent with the PHA's ACC responsibilities, as appropriate.

2. *Rental Assistance Demonstration Program*

In 2012, Congress authorized the *Rental Assistance Demonstration (RAD)* to test a new way of meeting the large and growing capital improvement needs of the nation's aging public housing stock, as well as to preserve projects funded under HUD's "legacy" programs. Under RAD, properties "convert" their assistance to long-term, project-based Section 8 contracts. RAD provides an option for PHAs to convert some or all of its public housing units to either a project-based voucher program (PBV) or a project-based rental assistance contract with HUD multifamily (PBRA). Currently, Congressional appropriation language allows for 455,000 units to be converted under the RAD program. Units approved under RAD are removed from the public housing system when the new PBV or PBRA Section 8 contract is effective. Conversions may occur at any time during the year. While the project is effectively under a new federal program at closing, funding for these converted units under the PBV or PBRA program will not begin until the beginning of the next calendar year (i.e., January 1st of the year following closing). Therefore, the funding mechanism from the point of conversion through the end of the current calendar year remains public housing Operating Fund and/or the Capital Fund Program (CFP) grants. As such, any amounts (Operating Fund or CFP funds) received by the PHA under prior ACCs and transferred to the new RAD property as outlined by the documents of the RAD conversion are eligible and allowable costs of the respective program.

3. *Shortfall/Insolvency Program*

With the 2020 Consolidated Appropriations Act (Pub. L. No. 116-94), Congress provided for a side-aside in the Operating Fund program appropriation for a Shortfall /Insolvency program for \$25,000,000. This amount was to be used for PHAs experiencing financial insolvency as defined by the HUD secretary. The funds were to be allocated based on a needs-based approach with priority given to small PHAs (249 or fewer units) with less than four months of reserves. It is anticipated that the program may be reauthorized in 2021. The department has provided notice guidance on eligibility, requirements, and funding amounts. "For the purpose of this set-aside, any "very-small" and small PHA that has fewer than four months operating expenses held in reserve (Months of Operating Reserve, or MOR) were considered as meeting the statutory insolvency requirement and will be eligible to receive funding. The amount of funding that a PHA is eligible to receive under this set-aside is equal to the difference between the PHA's current MOR and the amount that is equal to four months of MOR for that PHA." MTW PHAs are eligible, as long as the agency has not reduced Operating Funds reserves through the program's flexible usage of funds. Funding from the Shortfall/Insolvency program is disbursed at the PHA level rather than the project level. These funds will then be allocated to the projects as revenue and for expenditures. Award letters will identify steps the PHA can take to improve financial performance. PHAs with less than one Month of Reserves (MOR) will have an improvement plan as a requirement for access to the full award amount. Alternatively, PHAs may have an executed Memorandum of

Agreement/Recovery Agreement/Corrective Action Plan related to substandard/troubled PHA performance status. Eligible uses are those allowed under Section 9 (e) of Housing and Community Development Act except that non-troubled PHAs may also include eligible Capital Fund uses under Section 9 (g).

Audit Objectives Determine whether the Shortfall funding was appropriately recorded and spent at projects in accordance with award letter financial improvement objectives.

Suggested Audit Procedures

- a. Select a sample of projects that receive Shortfall funding and assess whether sampled expenditures were consistent with Operating Fund requirements
4. *Coronavirus Aid, Relief, and Economic Security Act (CARES Act)*

The Coronavirus Aid, Relief and Economic Security Act of 2020 (CARES Act) (Pub. L. No. 116-136) appropriated an additional \$685 million of Public Housing Operating Funds to “prevent, prepare for, and respond to coronavirus.” The additional Operating Funds may be used for eligible activities under the Operating Fund and the Capital Fund (Subsections (d)(1) and (e)(1) of Section 9 of the US Housing Act of 1937) and for other expenses related to preventing, preparing for, and responding to coronavirus, including activities to:

- support or maintain the health and safety of assisted individuals and families, and
- support education and childcare for impacted families.

HUD implemented the provisions of the CARES Act including allowable uses of funds and reporting requirements in PIH Notice PIH-2020-07. In addition, HUD provided instructions on Financial Data Schedule (FDS) reporting of CARES Act funds in PIH Notice PIH 2020-24. Amounts previously made available under the Operating Fund and Capital Fund programs in prior Acts, except for set-asides therein, may be used for the purposes described above through December 31, 2021, unless this time period is extended by the secretary.

C. Other

1. *Financial Reporting*

In accordance with HUD’s Uniform Financial Reporting Standards rule, annually, a PHA is required to submit its financial statement, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. The unaudited financial statement is due two months after the

PHA's fiscal year end and the audited financial statement is due nine months after its fiscal year end (24 CFR section 5.801). The financial statement must include the financial activities of this program.

Source of Governing Requirements

This program is authorized by the US Housing Act of 1937, as amended (42 USC 1437d(j), 42 USC 1437g, and 42 USC 3535(d)). Implementing regulations are 24 CFR parts 5, 902, 960, 966, and 990. Operating Fund requirements are contained in 24 CFR Part 990. Guidance on financial management and reporting requirements for public housing authorities under 24 CFR Part 990 was published in Notice PIH 2007-9 (April 10, 2007), which included guidance in a Supplement to the Financial Management Handbook, Department of Housing and Urban Development (HUD) Handbook 7475.1, Changes in Financial Management and Reporting for Public Housing Agencies Under the New Operating Fund Rule.

Availability of Other Program Information

1. HUD maintains web pages (http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/programs/ph) and (http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/publications) that provide general information about this program.
2. HUD's Real Estate Assessment Center website that is available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/react includes an *Instruction Guidebook for Completing Public Housing Assessment System Management Operations Certifications Form HUD 50072*, which is available at http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_26253.pdf.
3. HUD's Office of Public and Indian Housing maintains a website at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/programs/ph that provides general information and updates on asset management. This website also has information on relevant HUD notices. The Supplement to Handbook 7475.1, which was published in Notice PIH 2007-9 (April 10, 2007) is available at http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_9191.pdf.
4. Copies of HUD forms and notices are available at HUDCLIPS at http://portal.hud.gov/hudportal/HUD?src=/program_offices/administration/hudclips.
5. HUD's Rental Assistance Demonstration Program main website is available at <https://www.hud.gov/RAD>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then

determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	N	Y	N	N	N	Y

A. Activities Allowed or Unallowed

1. *Project-Specific Operating Expenses*

- a. Project-specific operating expenses include, but are not limited to, direct administrative costs, utilities costs, maintenance costs (maintenance must be either decentralized, or if centralized, recovered via fee-for service), tenant services, protective services, general expenses, non-routine or capital expenses, and other PHA- or HUD-identified costs which are project-specific for management purposes.
- b. Project-specific operating expenses also include a property management fee charged to each project that is used to fund operations of the central office. If the PHA contracts with a private management company to manage a project, the PHA may use the difference between the property management fee paid to the private management company and the fee that is reasonable to fund operations of the central office and other eligible purposes (see III.N, “Special Tests and Provisions”) (24 CFR section 990.280(b)(4)).

2. *Use of Excess Cash*

With the Operating Funds calculated at a project level, the Operating Funds can be transferred as the PHA determines during the PHA’s fiscal year to another ACC project(s) if a project’s financial information meets the requirements

described in 24 CFR section 990.280. The transfers cannot be more than the amount of excess cash the project generates (24 CFR section 990.205(a)). Excess cash is calculated at the end of the project's prior fiscal year for use, if applicable, in the current fiscal year. Excess cash represents the sum of certain current asset accounts fewer current liabilities and less one month's worth of operating expenses for the project. HUD has provided guidance on the use of excess cash in sections 6.1 through 6.6 in the Supplement to HUD Handbook 7475.1. This guidance has been developed using the norms in the broader multi-family management industry (24 CFR section 990.225).

- a. Excess cash may be used for the following purposes:
 - (1) Retention for future use;
 - (2) Transfer to other projects;
 - (3) Payment of an asset management fee to the COCC; and
 - (4) Other HUD-approved eligible purposes, including, but not limited to—
 - (a) Financing costs for the development of new units (to the extent allowed under program requirements),
 - (b) If approved by HUD HQ Counsel and concurred upon by the assistant secretary or general deputy assistant secretary, costs of pursuing PHA-wide lawsuits and addressing legal issues incurred prior to asset management that cannot be charged to specific projects or other programs with any degree of accuracy or fairness, and
 - (c) Provided 2 CFR Part 200 is followed, benefits including pensions, retirement benefits liabilities, and other "legacy costs" incurred prior to adoption of asset management (24 CFR section 990.280(b)(5)). (Also see Section 6.2 in the Supplement to HUD Handbook 7475.1.)
- b. Proceeds from asset disposals of a project (e.g., the sale of a project's maintenance vehicle) are considered to be assets of the projects and not of the COCC. With HUD approval, certain proceeds may be transferred to the COCC but may still be governed by other restrictions (2 CFR Part 200; section 990.280(b)(5)). (Also see Section 6.3 in the Supplement to HUD Handbook 7475.1.)
- c. Excess cash cannot be used for loans or transfers to the COCC except through payment of asset management fees.

3. *Use of Operating Funds*

- a. The Operating Fund was established for the purpose of making assistance available to PHAs for the operation and management of public housing. Transfers out of the Operating Fund can only occur in very limited circumstances, such as when PHAs participate in the Moving to Work Demonstration Program (Assistance Listing 14.881) authorized by 204(c)(1) of Title II of the Omnibus Consolidated Rescissions and Appropriations Act of 1996, Pub. L. No. 104-134, 110 Stat. 1321-282. This would preclude PHAs from using Operating Funds to provide temporary loans to other programs within the PHA. Timing differences in a pooled cash environment would not be considered as temporary loans. Inter-fund transactions indicate the existence of temporary loans. Inter-fund receivables are recorded on FDS line 144 (Inter program – due from). In particular, inter-fund receivables should be reviewed to determine whether they are satisfied on a timely basis. In addition, FDS lines 10020 (Operating Transfers Out) and 10094 (Transfers Between Programs and Projects – Out) could indicate whether transfers out of the Operating Fund have been made. If PHAs have transferred funding out of the Operating Fund, proper authorization from HUD should be documented (42 USC 1437g(e)).
- b. Operating subsidy received by the PHA under prior ACCs and transferred to the new RAD property as outlined by the documents of the RAD conversion are eligible and allowable costs of the respective program.

4. *Use of Operating Funds for Capital Improvements*

- a. PHAs with less than 250 public housing units (and that are not designated as troubled and are, in the determination of HUD, operating and maintaining public housing in a safe, clean, and healthy condition) may use their Operating Funds for capital improvements (Section 9(g)(2) of the 1937 Act (42 USC 1357g(g)(2))).
- b. PHAs with 250 or more public housing units are permitted to use 20 percent of their Operating Funds for Section 9(d) capital and development purposes.

B. Allowable Costs/Cost Principles

The amount of salary, including bonuses, of PHA chief executive officers, other officers, and employees paid with Section 8 Housing Choice Vouchers administrative fees and Section 9 Capital and Operating Funds may not exceed the annual rate of basic pay payable for a federal position at Level IV of the Executive Schedule (currently \$164,200) (Section 227 of Pub. L. No. 113-235, 128 Stat. 2756, December 16, 2014, and if carried forward in each subsequent appropriations act). Implementing guidance has been issued in PIH Notice 2016-14, “Guidance on the Public Housing Agency (PHA) salary

restriction in HUD's annual appropriations”

(http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/publications/notices).

1. Chargeable Fees under the Fee-for-Service Approach
 - a. The PHA may charge each project an asset management fee that may be used to fund operations of the central office (24 CFR section 990.280(b)(5)(ii)).
 - b. In addition to project-specific records, PHAs may establish COCCs to account for non-project specific costs (e.g., human resources, executive director's office). Those costs shall be funded from the property-management fees received from each property, and from the asset management fees to the extent these are available (24 CFR section 990.280(c)). PHAs opting to fund centralized costs with capital funds must allocate overhead to projects through FDS line item 91810, "Allocated Overhead."
 - c. If a PHA chooses to centralize functions under asset management, it must charge each project using a fee-for-service approach, unless proration is permitted. HUD has specified that the costs for rent collections, resident services, security/protective services, waiting lists, and work order processing may be prorated. (See III.N.7, "Fees Charged for Centralized Services," and III.N.8, "Prorating Front-Line Centralized Services.") With the exception of a central waiting list, resident services, and security/protective services, a project may not pay for the cost of a supervisor overseeing a front-line task that is performed centrally (see Section 7.10 Assignment of Costs per Supplement, Prorating Front-Line Administrative Costs, in the Supplement to HUD Handbook 7475.1 for exceptions). Each project shall be charged for the actual services received and only to the extent that such amounts are reasonable (24 CFR section 990.280 (d)).
 - d. PHAs that own and operate 250 or more dwelling rental units under Title I of the US Housing Act of 1937, including units managed by a third party entity (for example, a resident management corporation), but excluding Section 8 units, are required to operate using an asset management model consistent with Subpart H of 24 CFR Part 990 (24 CFR section 990.260(a)). PHAs that own and operate 400 or fewer public housing units, may elect to be exempt from any asset management requirement imposed by HUD in connection with the operating fund rule, provided that an agency seeking a discontinuance of a reduction of subsidy (stop-loss) under the operating fund formula shall not be exempt from asset management requirements (Section 225 of Title II of the HUD portion of the Consolidated Appropriations Act, 2008 (Pub. L. No. 110-161) and if carried forward in all subsequent Appropriations Acts).

- e. For PHAs that have established a COCC, HUD has established the following as the fees the COCC can charge projects or programs (see Section 7.1 to the Supplement to HUD Handbook 7475.1):
- (1) Property (project) management fee;
 - (2) Bookkeeping fees;
 - (3) Fees for centrally provided direct services (front-line expenses);
 - (4) Asset management fees;
 - (5) Capital Fund Program management fees; and
 - (6) Management fees for other programs.

Property management fee rates established by HUD are available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/programs/ph/am/accounting.

E. Eligibility

1. Eligibility for Individuals

- a. Most PHAs devise their own application forms that are filled out by the PHA staff during an interview with the tenant. The head of household signs (a) a certification that the information provided to the PHA is correct; (b) one or more release forms to allow the PHA to get information from third parties; (c) a federally prescribed general release form for employment information; and (d) a privacy notice. Under some circumstances, other members of the family may be required to sign these forms (24 CFR sections 5.212, 5.230, and 5.601 through 5.615).
- b. The PHA must do the following:
- (1) As a condition of admission or continued occupancy, require the tenant and other family members to provide necessary information, documentation, and releases for the PHA to verify income eligibility (24 CFR sections 5.230, 5.609, and 960.259).
 - (2) For both family income examinations and reexaminations, obtain and document in the family file third party verification of (a) reported family annual income, (b) the value of assets, (c) expenses related to deductions from annual income, and (d) other factors that affect the determination of adjusted income or income-based rent (24 CFR section 960.259).

- (3) Determine income eligibility and calculate the tenant's rent payment using the documentation from third party verification in accordance with 24 CFR Part 5, Subpart F (24 CFR sections 5.601 et seq., and 24 CFR sections 960.253, 960.255, and 960.259).
- (4) Select tenants from the public housing waiting list (see III.N.2, "Special Tests and Provisions – Public Housing Waiting List") (24 CFR sections 960.206 and 960.208).
- (5) Reexamine family income and composition at least once every 12 months and adjust the tenant rent and housing assistance payment as necessary using the documentation from third party verification (24 CFR sections 960.253, 960.257, and 960.259).
 - (a) The Rental Demonstration program prohibits PHAs from rescreening or requiring a tenant recertification due solely to a RAD conversion. However, this requirement does not eliminate the normally scheduled recertification (normally annually). Recertifications required to be performed as part of the normal tenant recertification process that occur after the RAD conversion, but before the end of the calendar year, will be conducted under the selected conversion program (PBV or PBRA) and not Public Housing. These recertifications are to be conducted to ensure that tenant payments are appropriate under the new program. Any testing that results in an audit finding should be a finding of the PBV or PBRA program and not of the public housing program.
 - (b) Eligible beneficiaries are lower income families, which include citizens or eligible immigrants. "Families" include, but are not limited to, (1) a family with or without children; (2) an elderly family (head, spouse, or sole member 62 years or older); (3) near-elderly family (head, spouse, or sole member 50 years old but less than 62 years old); (4) a disabled family; (5) a displaced family; (6) the remaining member of a tenant family; or (7) a single person who is not elderly, near-elderly, displaced, or a person with disabilities.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements The Wage Rate Requirements apply to construction activities for public housing. However, the requirements do not apply to volunteer work where the volunteer does not receive compensation, or is paid expenses, reasonable benefits, or a nominal fee for such services, and is not otherwise employed at any time in construction work (42 USC 1437j(a) and (b)). HUD's Factors of Applicability for these requirements can be found at

https://www.hud.gov/program_offices/davis_bacon_and_labor_standards/olr_foa.

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Public Housing Waiting List

Compliance Requirements The PHA must establish and adopt written policies for admission of tenants. The PHA tenant selection policies must include requirements for applications and waiting lists, description of the policies for selection of applicants from the waiting lists, and policies for verification and documentation of information relevant to acceptance or rejections of an applicant (24 CFR sections 960.202 through 960.206).

Audit Objectives Determine whether the PHA is following its own tenant selection policies in placing applicants on the waiting list and in selecting applicants from the waiting list to become tenants.

Suggested Audit Procedures

- a. Review the PHA's tenant selection policies.
- b. Test a sample of applicants added to the waiting list and ascertain if the PHA's tenant selection policies were followed in placing applicants on the waiting list.
- c. Test a sample of new tenants to ascertain if they were selected from the waiting list in accordance with the PHA's tenant selection policies.

3. Tenant Participation Funds

Compliance Requirements When tenant participation funds are provided to a PHA, the PHA must provide those funds to duly elected resident councils. Funding provided by a PHA to a duly elected resident council may be made only under a written agreement between the PHA and the resident council that includes a resident council budget. PHAs are permitted to fund \$25 per unit per year for units represented by duly elected resident councils for resident services. Of this \$25, \$15 per unit per year is provided to fund tenant participation activities. The agreement must require the local resident council to account to the PHA for the use of the funds and permit the PHA to inspect and audit the resident council's financial records related to the agreement (24 CFR section 964.150).

Audit Objectives Determine whether the PHA has properly allocated tenant participation funds to resident councils and has determined that resident councils' expenditures are adequately documented.

Suggested Audit Procedures

- a. Review PHA project agreements and records to determine if funding provided for tenant participation has been allocated to resident councils in accordance with a written agreement.
- b. Test a sample of the expenditures and supporting documentation reported to the PHA to determine if resident council expenditures are consistent with the resident council budget.
- c. Review PHA policies and procedures to determine if adequate controls are in place to account for tenant participation funds.

4. Project-Based Budgeting and Accounting

Compliance Requirements PHAs implementing asset management shall develop and maintain a system of budgeting and accounting for each project in a manner that allows for analysis of actual revenues and expenses associated with each property (24 CFR section 990.280(a)). Prior to the beginning of its fiscal year, a PHA is required to prepare an operating budget. The PHA's Board of Commissioners is required to review and approve the budget by resolution. The PHA is not required to submit the budget to HUD unless specifically requested to do so under special circumstances. The approved board resolution must be submitted to HUD (24 CFR section 990.315(a)).

Financial information to be budgeted and accounted for at a project level shall include all data needed to complete a project-based FDS in accordance with GAAP, including revenues, expenses, assets, liabilities, and equity data (24 CFR section 990.280(b)(1)).

Tracking financial performance at the project level under project-based accounting provides information necessary to make effective decisions at the project level. PHAs may only charge projects for services actually received. For example, in accounting for project costs, PHAs will not be permitted simply to spread the cost of central maintenance across all projects (24 CFR section 990.280).

Audit Objectives Determine whether each asset management PHA has implemented project-based budgeting and accounting.

Suggested Audit Procedures

- a. Obtain the PHA's budget and determine if it is project based.
- b. Confirm the PHA maintains a board-approved budget, which was approved by a board resolution prior to the beginning of the PHA's fiscal year.

- c. Review FDS and determine whether each project has its own column on the FDS.
- d. Verify that periodic analysis is performed of actual revenue and expenses associated with each project. Confirm the PHA addresses significant variances among budget to actual data.

5. Classification of Costs

Compliance Requirements For PHAs implementing asset management under fee-for-service, costs are classified as either a front-line expense (an expense of the project) or a fee expense (an expense of the management company (i.e., the COCC)) (see Table 7.2 and sections 5.2, 5.3, and 7.10 in the Supplement to HUD Handbook 7475.1 for classifying costs) (24 CFR section 990.280(d)).

Certain front-line project administrative expenses may be performed centrally and “charged back” (expense proration, or fee-for-service) to the affected project(s). Centralized maintenance services can only be charged as a fee-for-service. Centralized indirect costs, on the other hand, are recoverable only from designated fees charged by the COCC (management, bookkeeping, asset management) (24 CFR sections 990.275 and 990.280).

Audit Objectives Determine whether project support costs were properly classified as fee expense recoverable from management, bookkeeping, and asset management fees, or front-line project expense, recoverable through expense proration, as a shared resource cost or fee-for-service (required for centralized maintenance services).

Suggested Audit Procedures

- a. Select a sample of front-line project costs charged to the projects (by the COCC) and review the classification (recovery method) as either a front-line allocated expense or a fee-based front-line expense.
- b. Confirm among the sample selected that no costs are allocated by the COCC to projects, nor fees charged, for services that must be recoverable as indirect costs via the permissible fees (management, bookkeeping, asset management).

6. Balance Sheet Allocations

Compliance Requirements PHAs implementing asset management using the COCC model must apportion their assets, liabilities, and equities to their projects and COCC at the time of conversion to project-based accounting. Most PHAs have already completed this process; however, a number of PHAs may still be establishing their COCC for the first time. Assets, liabilities, and associated net assets should be assigned to the applicable project or COCC if a direct relationship exists, including personal and real property. HUD has provided guidance on this subject in Section 4.3 in the Supplement to HUD Handbook 7475.1 and PIH Notice 2008-17, Guidance on Disposition of Excess

Equipment and Non-Dwelling Real Property under Asset Management (24 CFR section 990.280(b)(1)).

Audit Objectives Determine if PHAs have apportioned their assets, liabilities, and equity between the projects and COCC.

Suggested Audit Procedures

- a. Select a sample of assets, liabilities, and equities.
- b. Determine that they were appropriately allocated to projects and COCC.

7. Fees Charged for Centralized Services

Compliance Requirements In the case where a COCC chooses to centralize functions that directly support a project (e.g., central maintenance), it must charge each project using a fee-for-service approach, with the exception of charges for rent collections, resident services, security/protective services, waiting lists, and work-order processing (see Section 7.10 of the Supplement to Handbook 7475.1). Each project must be charged for the actual services received and only to the extent that such amounts are reasonable. Guidance on fee reasonableness for centralized service fees is provided in Section 7.10 in the Supplement to HUD Handbook 7475.1. HUD considers any fees that are within HUD guidance to be reasonable. PHAs are requested to consult with HUD regarding any fees that depart from HUD guidance and HUD will provide its view on the reasonableness of the fees. Any fees above the HUD guidelines that have not been approved by HUD need to be reviewed in detail to determine if the additional costs are justified by local conditions or other factors (24 CFR section 990.280(d)).

Audit Objectives Determine whether the fees charged by the COCC to the project for centralized maintenance and inspections are reasonable.

Suggested Audit Procedures

- a. Select a sample of fees charged by the COCC to a project for centralized services for maintenance and inspections.
- b. Determine if the fees comply with fee reasonable guidelines set by HUD.
- c. For any fees that do not meet the reasonableness guidelines, review the documentation maintained by the PHA to determine if the fees were approved by HUD or are reasonable.

8. Prorating Front-line Centralized Services

Compliance Requirements In the case when a COCC chooses to centralize certain front-line project costs (e.g., rent collection, resident services, security, waiting lists, work order processing), it may (rather than using fee-for-service) pro-rate these costs

based on a reasonable, documented methodology. The method of prorating these costs (e.g., cost allocation plan) shall reflect the PHA's broader accounting policy.

Projects with on-site staff that can provide these services at a project may not also be charged these services using proration. A PHA could prorate these costs based on percentage of units, bedroom distribution, turnover, or other reasonable method. With the exception of a central waiting list, resident services, and security/protective services, a project may not pay for the cost of a supervisor overseeing a front-line task that is performed centrally (see Section 7.10 of the Supplement to HUD Handbook 7475.1) (24 CFR section 990.280).

Audit Objectives Determine whether the centralized direct project costs charged to the project(s) by the COCC are reasonable, supervisory costs are properly charged, and costs are not charged to project using proration if on-site staff can provide the services.

Suggested Audit Procedures

- a. Ascertain if the project is pro-rating front-line centralized services and, if so—
- b. Select a sample of costs prorated by the COCC to a project for centralized front line project costs.
- c. Review the method used to prorate amounts, including the method used to determine the level of cost allocation to the respective project(s) to ensure that the documented method mirrors the method associated with costs charged to a project.
- d. Verify that charges are based on the methodology established by the PHA.
- e. Confirm, by obtaining written representations from management, that the project(s) charged lack the on-site human resources to perform the function and whether such services were provided in the past. Verification can also be ascertained by reviewing the roles and responsibilities for the staff and determining if the services provided fall under these roles and responsibilities.
- f. Verify that no ineligible supervisory costs are charged to the project(s).

9. Asset Management Fee

Compliance Requirements The COCC may charge a reasonable asset management fee to projects to fund the operations of the central office. HUD will generally consider an asset management fee charged to each project of \$10 per unit month (PUM) as reasonable. Guidance on reasonableness standards for asset management fees is provided in sections 7.4 and 7.6 in the Supplement to HUD Handbook 7475.1. HUD considers any fees that are within HUD guidance to be reasonable. PHAs are requested to consult with HUD regarding any fees that depart from HUD guidance and HUD will provide its view

on the reasonableness of the fees. Any fees above the HUD guidelines that have not been approved by HUD need to be reviewed in detail to determine if the additional costs are justified by local conditions or other factors (24 CFR section 990.280(b)(5)(ii)).

Audit Objectives Determine whether the asset management fees charged by the COCC to the projects is reasonable.

Suggested Audit Procedures

- a. Select a sample of projects that were charged an asset management fee.
- b. Determine if the fees comply with fee reasonable guidelines set by HUD.
- c. For any fees that do not meet the reasonableness guidelines, review the documentation maintained by the PHA to determine if the fees were approved by HUD or are reasonable.

10. Management Fees

Compliance Requirements The COCC may charge reasonable management fees. Management fees may include property management fees, program management fees, and bookkeeping fees. Fee reasonableness standards for the property management fee and bookkeeping fee are provided in sections 7.4 and 7.5 in the Supplement to HUD Handbook 7475.1. HUD considers any fees that are within HUD guidance to be reasonable. PHAs are requested to consult with HUD regarding any fees that depart from HUD guidance and HUD will provide its view on the reasonableness of the fees. Any fees above the HUD guidelines that have not been approved by HUD need to be reviewed in detail to determine if the additional costs are justified by local conditions or other factors (24 CFR section 990.280(b)(4)), including cost reasonableness guidance under 2 CFR Part 200.

Audit Objectives Determine whether the fees charged by the COCC for management services are reasonable.

Suggested Audit Procedures

- a. Select a sample of property management fees and bookkeeping fees charged by the COCC and determine if the fees comply with fee reasonable guidelines set by HUD.
- b. For any fees that do not meet the reasonableness guidelines, review the documentation maintained by the PHA to determine if the fees were approved by HUD or are reasonable.

11. Allocated Overhead

Compliance Requirements Under current appropriation language, all PHAs with over 400 public housing units must convert to asset management (Section 225 of Title II of the

HUD portion of the Consolidated Appropriations Act, 2008 (Pub. L. No. 110-161) and if carried forwarded in all subsequent Acts).

PHAs with over 400 public housing units are allowed two reporting models as part of the conversion to asset management—the establishment of a COCC or the allocated overhead method (FDS line 91810). For those PHAs that established a COCC, the reasonableness of the fees charged is tested in the previous Special Tests (seven through ten). For those PHAs that converted to asset management, but are reporting using the allocated overhead method, reasonableness is tested in this section by reviewing the allocated overhead expense account and comparing fees in that account to the fees standards set by HUD in sections 7.4, 7.5, and 7.6 in the Supplement to HUD Handbook 7475.1 (24 CFR section 990.280(b)(4)).

Audit Objectives Determine whether the amount of allocated overhead charged to projects is reasonable.

Suggested Audit Procedures

- a. For PHAs using the allocated overhead method, select a sample of projects and review the amount of overhead costs charged through the allocated overhead expense line.
- b. Determine if the allocated overhead expense line is reasonable compared to the fee standards allowed by HUD.

12. Funding Central Office with Capital Fund Program Funds

Compliance Requirements The Capital Fund was established for the purpose of making assistance available to PHAs to carry out capital and management activities (42 USC 1437g(d)). Project-based budgeting and accounting will be applied to all programs and revenue sources that support projects under an ACC (e.g., the Operating Fund, the Capital Fund) (24 CFR section 990.280(a)).

In addition to project-specific records, PHAs may establish COCCs to account for non-project specific costs (e.g., human resources, executive director's office). These costs shall be funded from the management fees received from each property and asset management fees to the extent these are available (24 CFR section 990.280(c)).

If a PHA uses CFP funds to directly support its central office other than through management fee, the PHA may not record fee revenue, such as management fee, asset management fee, bookkeeping fee and front line service fee, under its COCC. In this case, the PHA should report indirect costs as Allocated Overhead (FDS line 91810) under its projects and programs.

However, a PHA could report fee revenue under its COCC under either of the following circumstances. (These activities are considered by HUD as management or capital activities and, therefore, can be directly supported by use of the Capital Fund in accordance with (42 USC 1437g (d)).)

- a. PHAs with assets financed under the Capital Fund Finance Program (CFFP) and allocated to the COCC will record the associated debt at the COCC. (Unlike CFP, the CFFP is not a federal financial assistance program. The CFFP was created to leverage external financing of capital investments using CFP money for debt service. For instance, a PHA needs to repair its building at an estimated cost of \$500,000. CFP can provide an annual funding of \$100,000 to the PHA. Without outside financing, the PHA would not have enough cash to do the work until five years later. The PHA can borrow money from a local bank to make the investment now and promise to repay the bank with future CFP funds. By doing so, the PHA enters into the CFFP.) CFP grants are allowed to service the debt service payments for this COCC debt based on a percentage of the annual CFP appropriation.
- b. The costs of developing or modernizing an existing ACC non-dwelling structure under a Capital Fund Declaration of Trust (DOT) (both COCC and Project Structure) are an eligible Capital Fund expenditure (guidance on this is provided in Section 5.7 in the Supplement to HUD Handbook 7475.1). If development of a structure, then a 40-year DOT applies; if modernization of a structure, then a 20-year DOT applies. DOT may vary based on the nature of the work; consult HUD Handbook 7475.1.

Audit Objectives When a PHA uses the Capital Fund to directly support its central office other than through management fees, determine whether the PHA (a) uses the Capital Fund to pay back CFFP debt or to develop or modernize an existing ACC structure or (b) reports its indirect cost as Allocated Overhead (FDS line 91810).

Suggested Audit Procedures

- a. Ascertain if the Capital Fund is used to directly fund the central office other than through management fees. If not, no further action is needed.
- b. If so, and if all the funds were used to pay CFFP debt or to develop or modernize an existing ACC structure, no further action is needed.
- c. If so, and the money is not used to for paying back CFFP debt or for developing or modernizing an existing ACC structure, verify that no fee revenue was reported under the COCC and all indirect costs were reported as Allocated Overhead in FDS line 91810.

13. PHA Utilities Operating Funding Requests

Compliance Requirements

Special Utilities Incentives. If a PHA undertakes energy conservation measures that are financed by an entity other than HUD, the PHA may qualify for the incentives available under 24 CFR sections 990.185(a) and 990.190(b). In some cases, the rolling base consumption level (HUD Form 52722, Section 3, Line 8) for the utilities involved may be

frozen during the contract period. For a PHA to qualify for these incentives, the PHA must obtain HUD approval. Approval is based on a determination that payments under the contract can be funded from the reasonably anticipated energy cost savings. The contract period may not exceed 20 years (24 CFR section 990.185(a)) and is specified in the HUD approval letter.

Rate Reduction. If a PHA takes action beyond normal public participation in rate-making proceedings, such as well-head purchase of natural gas, administrative appeals, or legal action to reduce the rate it pays for utilities, then the PHA will be permitted to retain one-half the annual savings realized from these actions (24 CFR section 990.185(b)).

Audit Objectives Determine whether the cost saving from energy conservation incentives contracts generally comply with the terms of the energy contract, and have been approved by HUD, if required.

Suggested Audit Procedures

- a. When entries are in HUD-52723 Section 3, Part A, Add-Ons, Line 8, Energy loan amortization, verify the project has a HUD approved energy loan amortization add-on pursuant to CFR sections 990.185(a)(3) and 990.190(b). Contract and add-on must be approved by the HUD field office. Verify that requested amount and term agrees with the energy loan amortization schedule in the approved contract.
- b. For projects with “frozen rolling base” checked in the form header box of HUD-52722, verify that the project has HUD field office approval that is applicable to the period in question.
- c. For projects with a “rate reduction incentive” checked in the form header box of HUD-52722, verify that the project meets the criteria in 24 CFR section 990.185(b).

14. Recording of Declarations of Trust/Declaration of Restrictive Covenants Against Public Housing Property

Compliance Requirements A current DOT/**Declaration of Restrictive Covenants (DORC)**, in a form acceptable to HUD, must be recorded against all public housing property owned by PHAs (or private entities for public housing developed under 24 CFR Part 905, Subpart F) that has been acquired, developed, maintained, or assisted with funds from the US Housing Act of 1937. A DOT/DORC is a legal instrument that grants HUD an interest in public housing property. It provides public notice that the property must be operated in accordance with all federal public housing requirements, including the requirement not to convey or otherwise encumber the property unless expressly authorized by federal law and/or HUD. In PIH Notice 2019-14 (HA), PHAs were asked to ensure that current (unexpired) DOT/DORCs are recorded against all of their public housing property.

Up to 2018, the form of DOT/DORC that a PHA recorded depended on the funding from HUD. In most instances, the PHA recorded the HUD-52190-A for Development Grant Projects or the HUD-52190-B for Public Housing Modernization Grant Projects (*OMB No. 2577-0075*). For mixed-finance development pursuant to 24 CFR Part 905, Subpart F, the form of DOT, known as the Declaration of Restrictive Covenants, was in the form of a model document drafted for this purpose. In 2018, HUD published a new DOT/DORC form known as the HUD-52190 (4/2018). This form applies to public housing, including both conventional and mixed-finance public housing. A PHA does not need to record a new DOT/DORC unless no validly recorded DOT/DORC is encumbering the project. See PIH Notice 2019-14 (HA).

A current DOT/DORC would include all improvement and modernization efforts on the project. A DOT/DORC naming HUD as an interested party must remain in place for (1) 40 years for acquired and developed property, beginning on the date on which the project becomes available for occupancy as determined by HUD; (2) 20 years for property modernized or receiving assistance of capital funds beginning on the latest date on which modernization is complete or assistance is provided with capital funds; and (3) 10 years for property receiving Operating Funds, beginning upon the conclusion of the fiscal year of the PHA for which such amounts were provided. After the expiration of the original DOT/DORC for a public housing development, if subsequent assistance was received under the US Housing Act of 1937, PHAs are required to record another, current DOT for the duration of the applicable period (24 CFR sections 905.100, 905.304, 905.318, 905.505, 905.600, and 905.604).

PHAs should have a list of all property (including land and nonresidential inventory, as well as dwelling units and modernization efforts) that a PHA owns and insures that is maintained or operated from the public housing Operating Fund or other US Housing Act of 1937 funds. Public housing project development numbers were reorganized in 2008 and new numbers were introduced; however, the current DOT/DORCs may continue to reference development numbers in existence prior to 2008, some of which have been put into “terminated” status. Selecting a sample of properties by development number will enable subsequent audits to cover samples of other projects so that over time all property that should be under ACC contracts is covered. (No development needs to be sampled more frequently than every five years.) It is not necessary that all development numbers be referenced in DOT/DORCs. Rather, the audit should determine whether all of the property that should have been placed under a DOT/DORC has been treated correctly.

Audit Objectives Determine whether DOT/DORCs are being recorded properly for public housing.

Suggested Audit Procedures

- a. From a list of all property (including land and nonresidential inventory as well as dwelling units and modernization efforts) that a PHA owns and insures, select a sample of public housing projects. Selecting a sample of properties by development number will ensure that subsequent audits can

select samples of other projects. (No development needs to be sampled more frequently than every five years.)

- b. Verify that current DOT/DORCs have been recorded for the public housing property in the projects.

15. Depository Agreements

Compliance Requirements PHAs are required to enter into General Depository Agreements with their financial institution using the HUD-51999 (*OMB No. 2577-0075*) or a form as required by HUD in the ACC. The agreements serve as safe guards for federal funds and provide third party rights to HUD (Section 9 of the ACC).

Audit Objectives Determine whether the PHA has entered into the required depository agreements.

Suggested Audit Procedures

- a. Verify the existence of depository agreements.
- b. Verify that the PHA has met the terms of the agreements.

16. Insurance Proceeds

Compliance Requirements PHAs are required to use insurance proceeds to promptly restore, reconstruct, and/or repair any damaged or destroyed property of a project, except when a PHA has written approval from HUD to do otherwise. Unspent insurance proceeds normally are recorded as restricted cash or restricted investments on the FDS up to the amount of the repair.

In cases of unforeseeable and unpreventable emergencies that include damages to the physical structure of the housing stock, PHAs are allowed to use their Operating Funds to cover the expenses associated with the damages. A PHA's insurance may cover the damages fully or partially, however, it usually takes time for the PHA to receive the insurance proceeds. Once received, the PHA must reimburse its operating account for any expenses that were initially covered with Operating Funds up to the amount received.

If the amount of the insurance proceeds is less than the cost of the repair and the PHA elected to use Operating Funds to cover the difference, the PHA is not allowed to draw down capital funds to reimburse the Low Rent program (Section 13 of the ACC). The ACC is available at

<http://portal.hud.gov/hudportal/documents/huddoc?id=anncontributionspta.pdf>.

Audit Objectives Determine whether the PHA used insurance proceeds to promptly repair damaged or destroyed property; unspent insurance proceeds are properly reported in the financial statements; and the Operating Funds were used to cover the allowable expenses.

Suggested Audit Procedures

- a. Ascertain if the PHA received any insurance proceeds for damaged or destroyed property.
- b. Verify that insurance proceeds received in advance of contractor or repair bills are placed in a restricted cash account of the operating fund.
- c. Review contractor invoices and repair expenses to verify insurance proceeds were used to cover allowable expenses.
- d. Verify that the Operating Fund was reimbursed by any insurance proceeds received for repairs that were funded by the Operating Fund.

17. Environmental Contaminants Testing and Remediation

Compliance Requirements Public Housing must be decent, safe, sanitary, and in good repair. PHAs must maintain such housing in a manner that meets the physical condition standards set forth in 24 CFR section 5.703 in order to be considered decent, safe, sanitary, and in good repair. Those standards address the major areas of the public housing: the site; the building exterior; the building systems; the dwelling units; the common areas; and health and safety considerations.

Health and safety considerations require that all areas and components of the housing must be free of health and safety hazards. These areas include, but are not limited to, air quality, electrical hazards, elevators, emergency/fire exits, flammable materials, garbage and debris, handrail hazards, infestation, and lead-based paint. The housing must have no evidence of infestation by rats, mice, or other vermin, or of garbage and debris. The housing must have no evidence of electrical hazards, natural hazards, or fire hazards. The dwelling units and common areas must have proper ventilation and be free of mold, odor (e.g., propane, natural gas, methane gas), or other indoor air hazards such as radon testing. The housing must comply with all requirements related to the evaluation and reduction of lead-based paint hazards and have available proper certifications of such (see 24 CFR Part 35).

The physical condition standards in 24 CFR section 5.703 do not supersede or preempt state and local codes for building and maintenance with which Public Housing must comply. Public Housing must continue to adhere to these codes.

Audit Objectives For the period under audit, determine whether the PHA tested for and remediated environmental contaminants including but not limited to lead-based paint, radon gas, and mold to ensure that Public Housing met the physical condition standards for health and safety considerations set forth in 24 CFR section 5.703.

Suggested Audit Procedures

- a. Determine if any physical inspections, required environmental tests, and/or environmental remediation activities were performed for the period under audit.
- b. Obtain and read all reports identified from procedure a. and determine if any health and safety considerations were observed.
- c. If so, determine if the PHA documented that they remediated the safety concern(s).
- d. If no physical inspection or environmental testing was performed, record the status for each and determine whether the PHA identified in some other manner that a violation of the physical condition standards for health and safety considerations, set forth in 24 CFR section 5.703, occurred. And, if so, that the PHA documented that they remediated the safety concern.

18. Proceeds under Sections 18 and 22 of the 1937 Act

Compliance Requirements PHAs may obtain proceeds from dispositions of public housing real property under sections 18 and 22 of the 1937 Act. PHAs may use gross proceeds to deduct the costs of relocations and reasonable costs of disposition (transaction costs), if approved by HUD. PHAs may use net proceeds for the provision of low-income housing, to benefit the public housing residents of the PHA, or to leverage amounts for securing commercial enterprises on-site in public housing projects, appropriate to serve the needs of the public housing residents. A PHA's use of proceeds is subject to HUD approval. PHAs shall not use proceeds without obtaining written approval from HUD's Special Applications Center (SAC). Until expended, PHAs deposit the proceeds into an account subject to the HUD General Depository Agreement HUD-51999 (GDA)(4/18).

Audit Objectives Determine whether the PHA used proceeds for HUD-approved eligible expenses.

Suggested Audit Procedures

- a. Ascertain if the PHA received any proceeds from disposing of real property under Section 18 or 22 of the 1937 Act;
- b. Verify that proceeds received are placed in a restricted account subject to the HUD General Depository Agreement HUD-51999 (GDA)(4/18); and
- c. Review PHA invoices and other documentation to verify proceeds were used for HUD-approved eligible expenses.

19. CARES Act Funding

Compliance Requirements PIH Notice 2020-07 implements the requirements related to the \$685 million supplemental appropriation of Operating Funds for PHAs. The supplemental Operating Funds may be used for eligible activities under the Operating Fund and the Capital Fund (subsections (d)(1) and (e)(1) of Section 9 of the US Housing Act of 1937) and for other expenses related to preventing, preparing for, and responding to coronavirus, including activities to:

- a. support or maintain the health and safety of assisted individuals and families, and
- b. support education and childcare for impacted families.

Section 6 of PIH Notice 2020-07 identifies potential uses of funds that would prevent, prepare for, or respond to coronavirus, and is not intended to be exhaustive; however, the use of such funds may not be duplicative of services provided through other federally funded programs. While categorized for ease of use, HUD expects that PHA coronavirus-related expenses may fall within multiple categories simultaneously as they work to combat coronavirus. Some of the expenses listed, and other expenses PHAs incur related to the coronavirus, may be considered normal operating or capital expenses. When reporting costs associated with operations and administrative activity level, the PHA will report both normal operating and administrative costs and operating and administrative costs that are higher than typical historical costs due to the COVID-19 pandemic together. HUD is not requiring any distinction between the two costs.

HUD provided instructions on accounting for and FDS reporting of CARES Act funds in PIH Notice PIH 2020-24. HUD must meet its monitoring responsibilities and provide transparency in the PHAs' receipt and use of CARES Act supplemental funding. Therefore, the Real Estate Assessment Center (REAC), a division of HUD's Office of Public and Indian Housing has established the following six new columns on the FDS for reporting CARES Act supplemental funds.

#	New Column #	Column Name
1	14.PHC	Public Housing CARES Act Funding
2	14.HCC	HCV CARES Act Funding (both HAP and Administrative Fee)
3	14.MSC	Mainstream CARES Act Funding (both HAP and Administrative Fee)
4	14.MRC	Moderate Rehabilitation CARES Act Funding
5	14.CCC	Central Office Cost Center CARES Act Funding
6	14.CMT	CARES Act Funding Transferred to MTW

If a PHA has received CARES Act funding from any one of the following four programs—1) Public Housing Operating Fund, 2) HCV, 3) Mainstream Voucher, and/or 4) Moderate Rehabilitation (via the PBRA account)—the PHA is required to add the respective reporting column(s) in its FASS-PH submission and report the amounts in accordance with the instructions in PIH Notice 2020-24.

The CARES Act also requires that recipients and sub-recipients of CARES Act funds satisfy quarterly reporting requirements if the recipient has been awarded \$150,000 or

more in covered funds. CARES Act quarterly reporting requirements are aligned with PHA FDS reporting guidance in PIH Notice 2020-24. This alignment will allow for consistency in reporting and ensure that PHAs maintain a single record of CARES Act expenses.

Audit Objectives Determine whether CARES Act Operating Funds received were used, accounted for, and reported in accordance with program requirements.

Suggested Audit Procedures

- a. Obtain supporting documentation for CARES Act Operating Funds received and evaluate to determine whether:
 - (1) the amounts received were accounted for separately under the appropriate program
 - (2) the amount recorded in the general ledger agrees to supporting documentation
 - (3) appropriate columns were included in the FDS and that amounts reported in the FDS agree to amounts in the general ledger
- b. If amounts are reported as transfers into the 14.PHC column on the FDS, select a sample of transfer transactions to determine whether the funds are from an allowable source as defined in the flexible use of funds provisions in PIH Notice 2020-07, and properly recorded in the general ledger and reported in the FDS.
- c. Select a sample of COCC fee disbursements charged to CARES Act Operating Funds and determine whether the fee amounts were allowable and properly recorded in the general ledger and reported in the FDS under the provisions in PIH Notice 2020-24.
- d. Select a sample of disbursements reported in the Public Housing Cares Act column on the FDS and test to determine:
 - (1) Whether the funds were used for expenses allowable under the applicable program, other expenses related to COVID-19 allowable pursuant to PIH Notice 2020-07, and not duplicative of services provided through other federally funded programs.
 - (2) Whether the transactions for amounts disbursed were accurately recorded in the appropriate program in the general ledger and follow the guidance provided in PIH Notice 2020-24.

- e. Determine whether amounts reported in CARES Act FDS columns resulting from CARES Act Operating Fund expenses agree to amounts recorded in the general ledger.
- f. If HUD has implemented quarterly CARES Act funds reporting requirements:
 - (1) Determine whether required reporting has been completed.
 - (2) Determine whether amounts in the quarterly reports are consistent with amounts reported in the FDS.

20. UEL Formula (Form 52722)

Compliance Requirements The Utility Expense Level (UEL) is used to calculate the utility portion of the Operating Fund subsidy. The UEL is a primary component of the operating subsidy grant revenue provided to the PHAs annually. This compliance supplement requires testing of rolling base data. PHAs must retain such data pursuant to 990.325. PHAs receive invoices for utilities. The consumption and cost data from those invoices are aggregated, in an Excel workbook or other platform, commonly referred to as a utility ledger. The aggregated data is transferred to the Form 52722. The auditors should perform a random sample of each of the main utility types (gas, water/sewer, electric, etc.) to review accuracy of the unit of measure, consumption and cost data reported on document Form 52722.

Audit Objectives Determine if the HUD document Form 52722 accurately reflects all current and historic utility cost and consumption. Verify that all needed adjustments due to changing unit of measurements and eligible unit months have been accurately completed. Complete a trend analysis that identifies any abnormal variances of the historic utility data to include the cost and consumption.

Suggested Audit Procedures

- a. Auditors must verify the consumption unit of measure is consistent on the Form 52722 (i.e., the utility ledger and the utility invoice (bill)) (line 01a on the Form 52722).
- b. Auditors must test a sample of invoices to ensure that the actual consumption ties to the utility ledger.
- c. Auditor must test the aggregated consumption on the utility ledger to ensure it ties to line 01 of the Form 52722.
- d. Auditor must verify that each rolling base consumption amount and units of measure tie to the prior year Form 52722. The auditor must test rolling base invoice and utility ledgers to determine if the unit of consumption has changed. To the extent the unit of measure in the current year has changed, test to ensure that the rolling base was appropriately adjusted.

- e. To the extent that any units have been removed from inventory for a project (Form 52723 Section 2, line A15 has decreased) during the reporting period or rolling base, the auditor shall test to ensure that the adjustment was done consistently with the instruction found on the word version of the HUD Form 52722, which can be found on HUDCLIPS.
- f. Auditors must test a sample of invoices to ensure that the actual cost ties to the utility ledger.
- g. Auditor must test the aggregated cost on the utility ledger to ensure it ties to line 16 of Form 52722.
- h. The auditor must complete a trend analysis of the reporting year and the last three years of each major utility to identify any abnormal variances. Auditors should increase their sample size when there are abnormal variances.

21. Formula Income

Compliance Requirements The formula income is used to calculate the Operating Fund Revenue for each PHA. This calculation is generally based on prepopulated data calculated by HUD. However, in some cases Formula Income is not prepopulated. For further guidance review [Formula Income Guidance](#) the Operating Fund Web Page, the [Annual Operating Subsidy Processing Notice](#) and 24 CFR 990.195(d).

Audit Objectives For most projects, Formula income is prepopulated. Prepopulated data is derived from the FDS. Where the Formula Income was prepopulated and not modified, testing is not required. Where prepopulated data was modified, or Formula Income was not prepopulated, testing should occur. Auditor should determine Formula Income was not prepopulated by reviewing the prepopulated data available in the Operating Fund Web Portal. The PHA can provide the Auditor this data if the Auditor does not have access to the Operating Fund Web Portal.

The auditor should review the following documents to ensure Formula Income was calculated correctly. These documents are located on the HUD Financial Management Division (FMD) annual operating subsidy webpage.

- a. Guidance on Formula Income
- b. Guidance on Non-Asset Management PHAs Reporting a Single FDS with Multiple PIC Projects and HUD-52723s: Calculation of Formula Income and other Miscellaneous Add-ons including Audit and PILOT Funding.
- c. Guidance on the How to Reverse the Impact of Rent Reductions From the Jobs Plus Earned Income Disregard (JPEID) on Formula Income

- d. Financial Reporting for the Family Self-Sufficiency (FSS) Program
ACCOUNTING BRIEF #23
- e. Annual Operating Subsidy Processing Notice

Where Formula Income was not prepopulated, or the prepopulated amount was adjusted, ensure that formula income input into Form 52723, or the adjustment to the prepopulated Formula Income, was done accurately.

Suggested Audit Procedures

- a. Where prepopulated Formula Income was adjusted, test the supporting documentation to ensure that the adjustment was made for appropriate reasons. Test the supporting documentation and calculation to validate Formula Income was correctly calculated. Adjustments should only be made due to JPEID, FSS, or Non-Asset Management with multiple projects that report only one project in FDS (see guidance provided on HUD FMD annual operating subsidy webpage).
- b. Where Formula Income was not prepopulated, test the supporting documentation and calculation to validate Formula Income was correctly calculated. Formula income may not have been prepopulated for the following reasons: Non-Asset Management with multiple projects that report only one project in FDS, mixed finance projects, or approved FDS data not available at the time FMD pulled data used to prepopulate the 52723.

IV. OTHER INFORMATION

The Moving to Work (MTW) demonstration program (Assistance Listing 14.881) allows selected PHAs the flexibility to design and test various approaches to providing and administering housing assistance consistent with the MTW Agreement executed by the PHA and HUD and under the MTW Operations Notice. An MTW agency may apply funding fungibility funds from the following three programs:

- a. Section 8 Housing Choice Vouchers (Assistance Listing 14.871)
- b. Public Housing Capital Fund (Assistance Listing 14.872)
- c. Public and Indian Housing (Assistance Listing 14.850)

Depending on if a PHA is operating under an MTW Agreement or the MTW Operations Notice, the auditor should look to the MTW Agreement or the MTW Operations Notice, as applicable, to determine which funds are included. If Public Housing funds are transferred out of Public Housing, pursuant to either an MTW Agreement or the MTW Operations Notice, they are subject to the requirements of the MTW Agreement or the MTW Operations Notice and should not be included in the audit universe and total expenditures for Public Housing when determining

Type-A programs. On the Schedule of Expenditures of Federal Awards, the amounts transferred out should not be shown as Public Housing expenditures but should be shown as expenditures for the MTW Demonstration program. Also, if other program funds are transferred into the Public Housing account pursuant to an MTW Agreement or the MTW Operations Notice, all of the Public Housing funds would then be considered MTW funds.

If the MTW agency does not transfer all the funds from Public Housing into the MTW account or another program, those funds would be considered, and audited, under Public Housing.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.862 INDIAN COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

I. PROGRAM OBJECTIVES

The primary objective of the Indian Community Development Block Grant (CDBG) program is the development of viable Indian and Alaskan Native communities, including decent housing, a suitable living environment, and expanded economic opportunities, principally for persons of low- and moderate-income. Indian CDBG assistance may not be used to reduce substantially the amount of local financial support for community development activities below the level of support prior to the availability of the assistance (24 CFR section 1003.2).

II. PROGRAM PROCEDURES

Two types of grants are eligible under the Indian CDBG program. Single-purpose grants provide funds for one or more single purpose projects which consist of an activity or set of activities designed to meet a specific community development need. This type of grant is awarded through competition with other single-purpose projects. Imminent threat grants alleviate an imminent threat to public health or safety that requires immediate resolution. This type of grant is awarded only after a HUD area office determines that such conditions exist and that funds are available for such grants (24 CFR section 1003.100). Congress directed HUD to utilize the imminent threat grant process to award some funding under the Coronavirus Aid, Relief, and Economic Security (CARES) Act (Pub. L. No. 116-136) and the American Rescue Plan Act of 2021 (ARP) (Pub. L. No. 117-2). Imminent threat grants awarded pursuant to the CARES Act or the ARP Act are discussed in greater detail later in this document.

Source of Governing Requirements

Implementing regulations are published at 24 CFR Part 1003.

Availability of Other Program Information

Additional information about the Indian CDBG program is available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a

compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	Y	N	N	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

Indian CDBG – Funds (including program income generated by activities carried out with grant funds) may only be used for the following activities: (1) the acquisition of real property; (2) the acquisition, construction, reconstruction, or installation of public works, facilities, and sites, or other improvements; (3) code enforcement in deteriorated or deteriorating areas; (4) clearance, demolition, removal, and rehabilitation of buildings and improvements; (5) special projects for removal of material and architectural barriers that restrict accessibility by elderly and handicapped individuals; (6) payments to housing owners for losses of rental income incurred in temporarily holding housing for the relocated; (7) disposition of real property acquired under this program; (8) provision of public services (subject to limitations contained in regulations and to certain HUD determinations); (9) payment of the nonfederal share for a grant program that is part of the assisted activities; (10) payment to complete a Title 1 Federal Urban Renewal project; (11) relocation assistance; (12) planning activities; (13) administrative costs; (14) acquisition, construction, reconstruction, rehabilitation, or installation of commercial or industrial buildings; (15) assistance to community-based development organizations; (16) activities related to energy use; (17) assistance to private, for-profit business, when appropriate to carry out an economic development project; (18) substantial reconstruction of housing owned and occupied by low- and moderate-income persons (subject to certain HUD determinations); (19) direct assistance to facilitate and expand homeownership; (20) technical assistance to public or private entities for capacity building (exempt from planning/administration cap); (21) housing counseling and housing activity delivery costs under Indian CDBG; (22) assistance to colleges and universities to carry out eligible activities; and (23) assistance to public and private entities (including for-profits) to assist micro-enterprises (24 CFR sections 1003.201 through 1003.206).

B. Allowable Costs/Cost Principles

1. All items of cost listed in 2 CFR Part 200, Subpart E, that require prior federal agency approval are allowable without prior approval, except for the following:
 - a. Depreciation methods for fixed assets shall not be changed without the approval of the federal cognizant agency.
 - b. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent), housing allowances, and personal living expenses (goods or services for personal use), regardless of whether reported as taxable income to the employees, require prior HUD approval.
 - c. Organization costs require prior HUD approval.
2. Fines, penalties, damages, and other settlements are unallowable.
3. No person providing consultant services in an employer-employee type of relationship may receive more than a reasonable rate of compensation. Such compensation must not exceed the equivalent of the daily rate paid for Level IV of the Executive Schedule (currently \$161,900). The Executive Pay Schedule may be obtained at <https://www.opm.gov/policy-data-over-sight/pay-leave/salaries-wages> (24 CFR section 1003.501(b)).

C. Cash Management

The auditor should refer to Part III for the basic compliance requirement information and 2 CFR section 200.305 (24 CFR section 1003.501).

F. Equipment and Real Property Management

1. For equipment purchased with Indian CDBG funds, the requirements of 24 CFR section 85.32 or 2 CFR section 200.313 apply with the exception that when the equipment is sold, the proceeds are considered program income (24 CFR section 1003.501(a)(6)).
2. Except for awards to faith-based organization, the real property requirements in 2 CFR Part 200 do not apply. Generally, when real property that was acquired or improved using Indian CDBG program funds in excess of \$25,000 is disposed of, the Indian CDBG program must be reimbursed for its fair share of the current market value of the property. If disposition occurs after program closeout, the proceeds shall be used for allowable activities and meeting the primary objective of the program (24 CFR section 1003.504).

I. Procurement and Suspension and Debarment

1. For the Indian CDBG program, HUD has determined that funds used are subject to section 7(b) of the Indian Self-Determination and Education Assistance Act (24

CFR section 1003.510), which means, to the greatest extent feasible, a recipient is to give preference in the award of contracts to Indian organizations and Indian-owned economic enterprises. Auditors should be familiar with these preference in contracting procedures set forth in 24 CFR section 1003.510(d) that, among other things, require recipients to:

- a. Advertise for bids or proposals limited to qualified Indian organizations and Indian-owned enterprises; or
- b. Use a two-stage preference procedure, as follows:
 - (1) **Stage 1.** Invite or otherwise solicit Indian-owned economic enterprises to submit a statement of intent to respond to a bid announcement or request for proposals limited to Indian-owned firms.
 - (2) **Stage 2.** If responses are received from more than one Indian enterprise found to be qualified, advertise for bids or proposals limited to Indian organizations and Indian-owned economic enterprises; or
 - (3) Develop, subject to Area ONAP one-time approval, the grantee's own method of providing preference.
2. Procurements that are within the dollar limitations established for small purchases under 2 CFR section 200.320 need not follow the formal bid or proposal procedures of 24 CFR section 1003.510(d), since these procurements are governed by the small purchase procedures of 2 CFR section 200.320. However, a recipient's small purchase procurement shall, to the greatest extent feasible, provide Indian preference in the award of contracts (24 CFR section 1003.510(d)(3)).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions**1. Environmental Review**

Compliance Requirements Program regulations provide that the responsible entity tribe will assume responsibilities for environmental review and decision-making under the requirements of 24 CFR Part 58. An environmental review must be prepared for each project or activity. Funds may not be committed to a grant activity or project before the completion of the environmental review and approval of the Request for Release of Funds (RROF) and environmental certification. If the responsible entity tribe determines that it met a criterion specified in the regulations that would qualify the project as exempt or qualify the project for certain categorical exclusions, the RROF and environmental certification requirements do not apply (24 CFR sections 58.34 and 58.35, 24 CFR section 1003.605).

Audit Objectives Determine whether (1) the required environmental reviews have been performed and (2) program funds were not obligated or expended prior to completion of the environmental review process.

Suggested Audit Procedures

Select a sample of projects for which expenditures were made and verify that:

Environmental Reviews

- a. Environmental determinations were made for each project or activity.
- b. Environmental determinations were supported by an environmental review, including supporting documentation for each applicable law and authority.
- c. For any project where an RROF and environmental certification was not submitted, the environmental review includes a written determination that the project or activity is exempt under a criterion of 24 CFR section 58.34 or is categorically excluded under a criterion of 24 CFR section 58.35(b), and meets the conditions specified for such exemption or categorical exclusion, with supporting documentation.

Requests for Release of Funds

- a. Examine HUD's approval of the RROF and environmental certification and note receipt dates.
- b. Review the expenditure and related records and determine the dates the funds were obligated or expended.
- c. Determine that funds were obligated or expended subsequent to RROF and environmental certification approval by HUD.

Additional information on environmental review requirements can be found at <https://www.hudexchange.info/programs/environmental-review/>.

IV. OTHER INFORMATION

1. Indian CDBG-CARES Imminent Threat Grants

a. General

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (Pub. L. No. 116-136) (CARES Act), was signed into law. The Act provides for up to \$100,000,000 in Indian CDBG Imminent Threat (IT) funding to prevent, prepare for, and respond to coronavirus, for emergencies that constitute imminent threats to health and safety. This funding was provided in the form of grants to eligible Indian tribes and must be used to prevent, prepare for, and respond to the Coronavirus disease 2019 (COVID-19). This funding must be used in accordance with the applicable requirements of the CARES Act, Title I of the Housing and Community Development Act of 1974, as amended (42 USC 5103 et seq.), [the Indian CDBG implementing regulations at 24 CFR Part 1003](#), and the issued May 15, 2020.

In addition, under the CARES Act, Congress authorized HUD to waive or specify alternative requirements for any statute or regulation (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment) that HUD administers to expedite or facilitate the use of Indian CDBG-CARES grant funds to prevent, prepare for, and respond to COVID-19.

On April 10, 2020, HUD issued [PIH Notice 2020-05](#) with waivers and alternative requirements authorized by the CARES Act. That Notice was superseded by [PIH Notice 2020-33\(HA\), REV-2](#), issued on November 30, 2020. [PIH Notice 2020-33\(HA\), REV-2](#), describes in detail the various updated waivers and alternative requirements that have been issued thus far with respect to Indian CDBG-CARES grants and FY 2019/2020 Indian CDBG grants repurposed to address COVID-19.

Before auditing an Indian CDBG-CARES grant recipient, auditors are strongly advised to review the Indian CDBG-CARES Implementation Notice, [PIH Notice](#)

[2020-11](#), and [PIH Notice 2020-33\(HA\), REV-2](#), particularly Section 14 of [PIH Notice 2020-13](#) addressing the waivers and alternative requirements affecting Indian CDBG IT program with respect to Indian CDBG-CARES grants and FY 2020 Indian CDBG grants.

The following section identifies allowability considerations for the Indian CDBG program, followed by a summary of waivers and alternative requirements affecting the Indian CDBG program considered important by HUD. Because the COVID-19 pandemic was ongoing at the time the Compliance Supplement Addendum was finalized, the auditor should make best efforts to identify and consider updates and revisions of [PIH Notice 2020-11](#) or [PIH Notice 2020-33\(HA\), REV-2](#), for Indian CDBG-CARES funding that were in place at the time of the audit. This can be done by visiting at [COVID-19 Recovery Programs site](#) of ONAP's website, CodeTalk, <https://www.hud.gov/codetalk>.

b. **Activities Allowed or Unallowed**

The CARES Act requires Indian CDBG-CARES grants to be used to prevent, prepare for, and respond to COVID-19.

To comply with this requirement, Indian CDBG-CARES grantees must ensure that all activities, projects, and programs being proposed can be tied to at least one of the following three eligible purposes:

- Activities, Projects, or Programs to Prevent COVID-19.
- Activities, Projects, or Programs to Prepare for COVID-19.
- Activities, Projects, or Programs to Respond to COVID-19.

Indian CDBG-CARES grant funds may also be used to cover or reimburse allowable costs paid with nonfederal funds by the Indian CDBG-CARES grantee, provided the funds were used to prevent, prepare for, or respond to COVID-19. This includes covering or reimbursing allowable costs incurred back to the date the Indian tribe began preparing for COVID-19, which may be prior to the date of enactment of the CARES Act, but in no event earlier than January 21, 2020.

The auditor should consider the following:

- **Prepare for:** Indian CDBG-CARES grant funds may be used prior to a local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to develop processes and procedures to help keep people healthy, and other activities designed to reduce the risk of exposure to COVID-19 and avoid or slow the spread of the disease.
- **Prevent:** Indian CDBG-CARES grant funds may be used during a COVID-19 local, service area, or regional coronavirus outbreak. This

includes, but is not limited to, activities designed to prevent the initial or further spread of the virus to the tribal community.

- **Respond to:** Once COVID-19 has spread in the community, examples of how Indian CDBG-CARES grantees may choose to respond to COVID-19 may include using Indian CDBG-CARES grant funds to care for those who have become infected and to limit the exposure and spread of the virus, providing emergency rent payments and other public services to families that cannot pay rent, carrying out activities to reduce severe overcrowding, preventing homelessness to ensure families are stably housed, and much more. Funds may continue to be used after the local, service area, or regional coronavirus outbreak on any continuing expenses incurred due to the spread of COVID-19.

These descriptions are designed to provide general guidance and are not intended to limit the range of eligible Indian CDBG-CARES grant activities that can be carried out. Provided a grantee can reasonably tie their Indian CDBG-CARES activities back to one or more eligible purposes, HUD will accept the classification.

Ineligible Activities include:

- Activities, projects, or programs that are not reasonably tied to preparing for, preventing, and responding to COVID-19 are ineligible under the Indian CDBG-CARES program.
- Unless waived or modified by HUD, as provided in [PIH Notice 2020-13](#) and any similar waiver notice issued in the future, ineligible activities described in 24 CFR section 1003.207 continue to be ineligible (e.g., buildings or portions thereof used for the general conduct of government, political activities, general government expenses).

c. **Waivers and Alternative Requirements Applicable Only to Indian CDBG-CARES Funding under the CARES Act**

The following waivers and alternative requirements apply only to Indian CDBG-CARES grants (the new Indian CDBG funding provided under the CARES Act), FY 2020 Indian CDBG funds (both Single Purpose Grants and IT Grants) appropriated under the Further Consolidated Appropriations Act of 2020 (Pub. L. No. 116-94), and FY 2019 Indian CDBG funds appropriated under the FY 2019 Consolidated Appropriations Act (Pub. L. No. 116-6). With respect to the FY 2019 and FY 2020 Indian CDBG funds, application of these waivers is permitted only on funding reprogrammed to address COVID-19.

These waivers and alternative requirements do not apply to Indian CDBG funds appropriated in any other prior year.

(1) **Removal of Public Services 15 Percent Cap under FY 2019 and FY 2020 Indian CDBG Grants**

Statutory Authority: Section 105 of HCD Act.

Regulatory Authority: 24 CFR section 1003.201(e); FY 2019/2020 Indian CDBG NOFA.

Description: Section 105 of the HCD Act and the Indian CDBG implementing regulation at 24 CFR section 1003.201(e) authorize the use of Indian CDBG funds to carry out public services activities but provide that the amount of Indian CDBG funds used for public services shall not exceed 15 percent of the respective Indian CDBG grant. Congress lifted the 15 percent cap on public services funded under the Indian CDBG IT funding appropriated under the CARES Act and for FY 2019 and FY 2020 Indian CDBG funding in recognition of the great and immediate need for public services to help address and prepare for the impact of COVID-19 in tribal communities.

Accordingly, HUD has waived Section 105 of the HCD Act, 24 CFR section 1003.201(e), and language in the definition of the term “public services” in the FY 2019/2020 Indian CDBG NOFA to the extent necessary to remove the 15 percent cap on FY 2019/2020 Indian CDBG funding (both Single Purpose and IT grants), to align with Indian CDBG IT funding provided under the CARES Act.

Indian CDBG grantees that have been awarded FY 2019/2020 Indian CDBG funds must still comply with the provisions of 24 CFR section 1003.305 if they are seeking to amend their grants to carry out additional public services or other activities to prevent, prepare for, or respond to COVID-19.

(2) **Rental Assistance, Utility Assistance, Food, Clothing, and Other Emergency Assistance**

Statutory Authority: Section 105 of the HCD Act.

Regulatory Authority: 24 CFR section 1003.207(b)(4).

Description: Section 105(a)(8) authorizes the use of Indian CDBG funds for a variety of public services. Under the implementing regulation at 24 CFR section 1003.207(b)(4), the general rule is that Indian CDBG funds may not be used for income payments. For purposes of the Indian CDBG program, income payments mean a series of subsistence-type grant payments made to an individual or family for items such as food, clothing, housing (rent or mortgage), or utilities, but excludes emergency payments

made over a period of up to three months to the provider of such items or services on behalf of an individual or family.

COVID-19 is having a substantial negative impact on Native American families' ability to work, earn an income, pay their rent or mortgage, access or pay for food and clothing, and access many other essential services. Many tribes and Tribally Designated Housing Entities (TDHEs) have reported to HUD that they shut down and community members are sheltering in place. To help tribal communities address these challenges, HUD has waived Section 105(a)(8) and 24 CFR section 1003.207(b)(4) to the extent necessary to establish the following alternative requirement:

- (a) Indian CDBG grant funds may be used to provide emergency payments for low and moderate income individuals or families impacted by COVID-19 for items such as food, medicine, clothing, and other necessities, as well as rental assistance and utility payment assistance, without regard for the three-month limitation in 24 CFR section 1003.207(b)(4), but for a period not to exceed six months unless further expanded by HUD at a later date.

At the time of the issuance of [PIH Notice 2020-13](#), emergency mortgage assistance was limited to no more than three months under 24 CFR section 1003.207(b)(4). HUD may have provided additional waiver relief for Indian CDBG-funded mortgage assistance at a later date as the COVID-19 pandemic progressed.

As noted above the auditor is advised to check for any additional waiver relief at the "[COVID-19 Recovery Programs](#)" site of HUD's [CodeTalk](#) website prior to addressing any issues related to the duration of assistance under this waiver.

- (b) These emergency payments must be used to either cover costs incurred directly by the Indian CDBG grantee in cases where the Indian CDBG grantee is providing this assistance or made directly to a third-party provider of such items or services on behalf of an individual or family and may not be paid directly to an individual or family in the form of income payments, debit cards, or similar direct income payments. Indian CDBG grantees may establish lines of credit with third-party providers (e.g., grocery stores) on behalf of specific beneficiary families, provided all expenses can be properly documented and all Indian CDBG-CARES funds used for this purpose are expended on eligible activities. In all cases, Indian CDBG grantees must ensure that proper documentation is maintained to ensure that all costs incurred are eligible.

Indian CDBG grantees using this alternative requirement must document, in its policies and procedures, how they will determine the amount of assistance to be provided is necessary and reasonable.

(3) **Purchase of Equipment**

Regulatory Authority: 24 CFR sections 1003.207(b)(1); 1003.201(c)(1)(ii).

Description: The purchase of equipment with Indian CDBG funds is generally ineligible under 24 CFR section 1003.207(b)(1), with some exceptions.

Given the immediate need for medical and personal protective equipment, and other related equipment needed to help prevent, prepare for, and respond to the COVID-19 pandemic in tribal communities, HUD has waived 24 CFR section 1003.207(b)(1) and authorized the use of Indian CDBG funds for the purchase of equipment necessary to prevent, prepare for, and respond to the COVID-19. Equipment must be used for authorized program purposes, and any proceeds from the disposition of equipment will be considered Indian CDBG-CARES program income.

The auditor should check whether HUD issued further guidance on the disposition of program income after grant closeout. Indian CDBG grantees must ensure that Indian CDBG funds are used to supplement other federal sources of funding for this purpose, including funding provided by the Indian Health Service, and should not be used to supplant such funding.

(4) **Operating Expenses for Public Facilities**

Regulatory Authority: 24 CFR section 1003.207(b)(2).

Description: 24 CFR section 1003.207(b)(2) provides that expenses associated with repairing, operating, or maintaining public facilities, improvements and services are generally ineligible, with some exceptions.

Indian tribes may find the need to use Indian CDBG funds to fund a variety of public facilities, including constructing facilities for testing, diagnosis, or treatment, rehabilitating existing facilities to establish infectious disease treatment clinics, acquiring, and converting hotels, motels, or similar facilities to expand capacity of hospitals to accommodate isolation of patients during recovery, and more. These facilities will likely need to be operated and maintained for the duration of the COVID-19 pandemic. Accordingly, HUD has waved 24 CFR section 1003.207(b)(2) to the extent necessary to allow the use of Indian CDBG funds to pay for such operating and maintenance expenses of any public

facility, to the extent it is used for COVID-19-related purposes. In incurring such costs, Indian CDBG grantees may not use this waiver to pay for associated staffing costs of such public facilities. Indian CDBG grantees must also ensure that Indian CDBG funds are used to supplement other federal sources of funding for this purpose, including funding provided by the Indian Health Service, and should not be used to supplant such funding.

(5) **New Housing Construction by Tribes**

Statutory Authority: Section 105 of the HCD Act.

Regulatory Authority: 24 CFR section 1003.207(b)(3).

Description: 24 CFR section 1003.207(b)(3) generally prohibits the use of Indian CDBG funds for new housing construction, with some exceptions. Indian CDBG may be used for new housing construction if provided as last resort housing under 24 CFR Part 42, or when carried out by a Community-Based Development Organization (CBDO).

As HUD found in its 2017 Native American Housing Needs Study, severe overcrowding and substandard housing is a major challenge in Indian Country. These conditions increase risks of infection amongst low- and moderate-income Native American families. Indian tribes may find the need to construct temporary or permanent new housing to help prevent, prepare for, and respond to COVID-19, and may find it necessary to do so without having to carry out such activities through a CBDO. Accordingly, HUD has waived and modified Section 105 of the HCD Act and 24 CFR 1003.207(b)(3) to the extent necessary to provide for the following alternative requirement: Indian tribes and tribal organizations may use Indian CDBG funds to carry out new housing construction when such construction is carried out to reduce overcrowding, or to otherwise prevent, prepare for, or respond to COVID-19.

Such new housing construction must meet applicable federal accessibility requirements, including requirements under Section 504 of the Rehabilitation Act and 24 CFR Part 8.

2. **Indian CDBG-ARP Imminent Threat Grants**

a. **General**

On March 11, 2021, the American Rescue Plan Act of 2021 (Pub. L. No. 117-2) (ARP) was signed into law. The Act provides \$280,000,000 in Indian CDBG Imminent Threat (IT) funding to be used for emergencies that constitute imminent threats to health and safety and that are designed to prevent, prepare for, or respond to coronavirus. This funding was provided in the form of grants to

eligible Indian tribes and must be used to prevent, prepare for, and respond to the Coronavirus disease 2019 (COVID-19). This funding must be used in accordance with the applicable requirements of the CARES Act, Title I of the Housing and Community Development Act of 1974 (HCDA), as amended (42 USC 5103 et seq.), [the Indian CDBG implementing regulations at 24 CFR Part 1003](#), and the ICDBG-ARP Implementation Notice, [Notice PIH-2021-22](#), issued July 20, 2021.

In addition, Congress authorized HUD to waive or specify alternative requirements for any provision of title I of the HCDA or regulation applicable to the ICDBG program, other than requirements related to fair housing, nondiscrimination, labor standards, and the environment. That authorization is contingent upon a finding that the waiver or alternative requirement is necessary to expedite or facilitate the use of amounts made available for the ICDBG-ARP program.

On July 20, 2021, HUD issued [Notice PIH-2021-22](#) with waivers and alternative requirements authorized by the ARP Act. That Notice describes in detail the various waivers and alternative requirements that have been issued thus far with respect to Indian CDBG-ARP grants.

Before auditing an Indian CDBG-ARP grant recipient, auditors are strongly advised to review the ICDBG-ARP Implementation Notice, [Notice PIH-2021-22](#), addressing the waivers and alternative requirements affecting Indian CDBG IT program with respect to Indian CDBG-ARP grants.

The following section identifies allowability considerations for the Indian CDBG program, followed by a summary of waivers and alternative requirements affecting the Indian CDBG program considered important by HUD. Because the COVID-19 pandemic was ongoing at the time the Compliance Supplement was finalized, the auditor should make best efforts to identify and consider updates and revisions of [Notice PIH-2021-22](#) for Indian CDBG-ARP funding that were in place at the time of the audit. This can be done by visiting at [COVID-19 Recovery Programs site](#) of ONAP's website, CodeTalk, <https://www.hud.gov/codetalk>.

b. Activities Allowed or Unallowed

Like the CARES Act, the ARP Act requires Indian CDBG-ARP grants to be used to prevent, prepare for, and respond to COVID-19.

To comply with this requirement, Indian CDBG-ARP grantees must ensure that all activities, projects, and programs being proposed can be tied to at least one of the following three eligible purposes:

- Activities, Projects, or Programs to Prevent COVID-19.
- Activities, Projects, or Programs to Prepare for COVID-19.

- Activities, Projects, or Programs to Respond to COVID-19.

And like ICDBG-CARES funds, ICDBG-ARP grant funds may also be used to cover or reimburse allowable costs paid with non-federal funds by the ICDBG-ARP grantee, provided the funds were used to prevent, prepare for, or respond to COVID-19. This includes covering or reimbursing allowable costs incurred back to the date the Indian tribe began preparing for COVID-19, which may be prior to the date of enactment of the ARP, but in no event earlier than January 22, 2020. Please note that this differs from the ICDBG-CARES which permitted reimbursing allowable costs incurred back to the date the Indian tribe began preparing for COVID-19, which may be prior to the date of enactment of the CARES Act, but in no event earlier than January 21, 2020.

The auditor should consider the following:

- **Prevent:** ICDBG-ARP grant funds may be used during a COVID-19 local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to prevent the initial or further spread of the virus to the tribal community, such as using ICDBG-ARP funds to assist with the effort to vaccinate individuals, and much more.
- **Prepare for:** ICDBG-ARP grant funds may be used prior to a local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to develop processes and procedures to help keep people healthy, and other activities designed to reduce the risk of exposure to COVID-19 and avoid or slow the spread of the disease.
- **Respond to:** Once COVID-19 has spread in the community, examples of how ICDBG-ARP grantees may choose to respond to COVID-19 may include using ICDBG-ARP grant funds to care for those who have become infected and to limit the exposure and spread of the virus, providing emergency rent payments and other public services to families that cannot pay rent, carrying out activities to reduce severe overcrowding, preventing homelessness to ensure families are stably housed, and much more. Funds may continue to be used after the local, service area, or regional coronavirus outbreak on any continuing expenses incurred due to the spread of COVID-19.

These descriptions are designed to provide general guidance to grantees and are not intended to limit the range of eligible ICDBG-ARP grant activities that can be carried out. Provided a grantee can, in HUD's judgment, reasonably tie their ICDBG-ARP activities back to one or more eligible purposes, HUD will accept the grantee's classification.

Pursuant to 24 CFR section 1003.200, ICDBG-ARP grants do not have to comply with the primary objective of the HCDA, that no less than 70 percent of

expenditures of each grant be for activities which meet the criteria set forth in 24 CFR section 1003.208(a)-(d).

c. **Waivers and Alternative Requirements Applicable Only to Indian CDBG-ARP Funding**

The following waivers and alternative requirements apply only to Indian CDBG-ARP grants (the new Indian CDBG funding provided under the ARP Act. These waivers and alternative requirements do not apply to Indian CDBG funds appropriated in any other prior year.

(1) **Rental Assistance, Utility Assistance, Food, Clothing, and Other Emergency Assistance**

Statutory Authority: Section 105 of the HCDA

Regulatory Authority: 24 CFR section 1003.207(b)(4)

Description: Section 105(a)(8) authorizes the use of ICDBG funds for a variety of public services. Under the implementing regulation at 24 CFR section 1003.207(b)(4), the general rule is that ICDBG funds may not be used for income payments. For purposes of the ICDBG program, income payments mean a series of subsistence-type grant payments made to an individual or family for items such as food, clothing, housing (rent or mortgage) or utilities, but excludes emergency payments made over a period of up to three months to the provider of such items or services on behalf of an individual or family.

COVID-19 is having a substantial negative impact on Native American families' ability to work, earn an income, pay their rent or mortgage, access or pay for food and clothing, and access many other essential services. Many Indian tribes and TDHEs have reported to HUD that they shut down and community members are sheltering in place. Additionally, HUD expects that Tribes will need to respond to long-term impacts of COVID-19. To help tribal communities address these challenges, HUD is waiving Section 105(a)(8) and 24 CFR section 1003.207(b)(4) to the extent necessary to establish the following alternative requirement:

ICDBG-ARP grant funds may be used to provide emergency payments for low- and moderate-income individuals or families impacted by COVID-19 for items such as food, medicine, clothing, and other necessities, as well as rental assistance and utility payment assistance, without regard for the three-month limitation in 24 CFR section 1003.207(b)(4), but for a period not to exceed six months unless further expanded by HUD at a later date. At this time, emergency mortgage assistance will remain limited to no more than three months under 24 CFR section 1003.207(b)(4). Indian tribes are reminded that additional rental assistance and assistance for

homeowners is available under the Department of Treasury's Emergency Rental Assistance program and the Homeowner Assistance Fund.

These emergency payments must be used to either cover costs incurred directly by the ICDBG-ARP grantee in cases where the ICDBG-ARP grantee is providing this assistance or made directly to a third-party provider of such items or services on behalf of an individual or family and may not be paid directly to an individual or family in the form of income payments, debit cards, or similar direct income payments. ICDBG-ARP grantees may establish lines of credit with third-party providers (e.g., grocery stores) on behalf of specific beneficiary families, provided all expenses can be properly documented and all ICDBG-ARP funds used for this purpose are expended on eligible activities. In all cases, ICDBG-ARP grantees must ensure that proper documentation is maintained to ensure that all costs incurred are eligible. ICDBG-ARP grantees using this alternative requirement must document, in their policies and procedures, how they will determine the amount of assistance to be provided is necessary and reasonable.

(2) **Purchase of Equipment**

Regulatory Authority: 24 CFR sections 1003.207(b)(1), 1003.201(c)(1)(ii)

Description: The purchase of equipment with ICDBG funds is generally ineligible under 24 CFR section 1003.207(b)(1), with some exceptions. Given the immediate need for medical and personal protective equipment, and other related equipment needed to help prevent, prepare for, or respond to the COVID-19 pandemic in tribal communities, HUD is waiving 24 CFR section 1003.207(b)(1) and authorizing the use of ICDBG-ARP funds for the purchase of equipment necessary to prevent, prepare for, or respond to COVID-19. Equipment must be used for authorized program purposes, and any proceeds from the disposition of equipment will be considered ICDBG-ARP program income. HUD may issue further guidance in the future on the disposition of program income after grant closeout.

ICDBG-ARP grantees must ensure that ICDBG-ARP funds are used to supplement other federal sources of funding for this purpose, including funding provided by the Indian Health Service, and should not be used to supplant such funding.

(3) **Operating Expenses for Public Facilities**

Regulatory Authority: 24 CFR section 1003.207(b)(2)

Description: The 24 CFR section 1003.207(b)(2) provides that expenses associated with repairing, operating, or maintaining public facilities, improvements and services are generally ineligible, with some exceptions. Indian tribes may find the need to use ICDBG-ARP funds to fund a variety of public facilities, including constructing facilities for testing, diagnosis, or treatment, rehabilitating existing facilities to establish infectious disease treatment clinics, acquiring and converting hotels, motels, or similar facilities to expand capacity of hospitals to accommodate isolation of patients during recovery, and more. These facilities will likely need to be operated and maintained for the duration of the COVID-19 pandemic.

Accordingly, HUD is waiving 24 CFR section 1003.207(b)(2) to the extent necessary to allow the use of ICDBG-ARP funds to pay for such operating and maintenance expenses of any public facility, to the extent it is used for COVID-19-related purposes.

ICDBG-ARP grantees must also ensure that ICDBG-ARP funds are used to supplement other Federal sources of funding for this purpose, including funding provided by the Indian Health Service, and should not be used to supplant such funding.

(4) New Housing Construction by Tribes

Statutory Authority: Section 105 of the HCDA

Regulatory Authority: 24 CFR section 1003.207(b)(3)

Description: 24 CFR section 1003.207(b)(3) generally prohibits the use of ICDBG funds for new housing construction, with some exceptions.

ICDBG may be used for new housing construction if provided as last resort housing under 24 CFR Part 42, or when carried out by a Community-Based Development Organization (CBDO).

As HUD found in its 2017 Native American Housing Needs Study, severe overcrowding and substandard housing is a major challenge in Indian Country. These conditions increase risks of infection amongst low- and moderate-income Native American families. Indian tribes may find the need to construct temporary or permanent new housing to help prevent, prepare for, or respond to COVID-19, and may find it necessary to do so without having to carry out such activities through a CBDO.

Accordingly, HUD is waiving and modifying Section 105 of the HCD Act and 24 CFR section 1003.207(b)(3) to the extent necessary to provide for the following alternative requirement: Indian tribes and tribal organizations may use ICDBG-ARP funds to carry out new housing construction when such construction is carried out to reduce overcrowding, or to otherwise prevent, prepare for, or respond to COVID-19.

When assessing applications for ICDBG-ARP grants that propose to carry out new housing construction, HUD will only fund applications that propose to carry out new housing construction that is clearly designed to prevent, prepare for, or respond to COVID-19, and that the applicant plans to carry out expeditiously. As a reminder, such new housing construction must meet applicable federal accessibility requirements, including requirements under Section 504 of the Rehabilitation Act of 1973 and 24 CFR Part 8. HUD will issue additional ICDBG-ARP implementation guidance in the near future.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.866 DEMOLITION AND REVITALIZATION OF SEVERELY DISTRESSED PUBLIC HOUSING (HOPE VI)****ASSISTANCE LISTING 14.889 CHOICE NEIGHBORHOODS IMPLEMENTATION GRANTS****I. PROGRAM OBJECTIVES**

The objective of HOPE VI Revitalization Grants is to provide assistance to public housing agencies (PHAs) for the purpose of enabling PHAs to improve the living environment for public housing residents of severely distressed public housing projects through (1) demolition, (2) substantial rehabilitation, (3) reconfiguration, and/or (4) replacement of severely distressed public housing units. An additional objective is to provide supportive services for residents of the public housing and contribute to the improvement of the surrounding neighborhood.

The objective of HOPE VI demolition grants is to enable PHAs to fund the demolition of severely distressed public housing units and relocation of affected residents, and to provide supportive services to relocated residents.

The objective of Choice Neighborhoods program is to transform neighborhoods of concentrated poverty into viable and sustainable mixed-income neighborhoods by revitalizing severely distressed public and/or HUD-assisted projects and catalyzing critical community improvements in the surrounding neighborhood. The Choice Neighborhoods program builds upon the successes of public housing transformation under HOPE VI by taking a comprehensive approach to revitalization, which includes redeveloping distressed public and HUD-assisted housing, providing supportive services for housing residents, as well as funding and leveraging private investment to fund critical neighborhood improvements.

II. PROGRAM PROCEDURES**A. Notice of Funding Availability (NOFA) / Notice of Funding Opportunity (NOFO)**

For HOPE VI, HUD awarded Demolition and Revitalization grants to eligible PHAs through a competitive process. The procedure was set out in a Notice of Funding Availability (NOFA) for the applicable fiscal year (FY). The NOFA established the eligibility requirements for PHAs to apply for a HOPE VI grant; the availability of funds; the requirements and procedures to be followed in filing an application for HOPE VI funding in the applicable FY; and other programmatic requirements.

For Choice Neighborhoods grants, HUD awards Planning and Implementation Grants to eligible organizations through a competitive process. The procedures and requirements are set out in a NOFA or Notice of Funding Opportunity (NOFO) for the applicable FY. The NOFA/NOFO establishes the eligibility requirements for applicants for Choice Neighborhoods grants; the availability of funds; the requirements and procedures to be

followed in filing an application for funding; and other programmatic requirements. The Choice Neighborhoods program replaced the HOPE VI program.

B. Grant Agreement

For both the HOPE VI and Choice Neighborhoods programs, the grant agreement (Agreement) establishes grant requirements and responsibilities, including: the content for the HOPE VI Revitalization Plan or Choice Neighborhoods Transformation Plan; the time periods for implementation of the grant; allowable activities, the requirements and procedures for grant-supported activities; budgets and funding requests, etc. The Agreement is executed between HUD and the grantee.

C. Housing Development and Mixed-Finance Development

For both the HOPE VI and Choice Neighborhoods programs, the selection of a development partner and the general administrative requirements are governed by 2 CFR Part 200, as applicable. The development of public housing units is governed by 24 CFR 905 Subpart F. This includes development of projects which include only public housing units and projects which include development of public housing units as part of a Mixed-Finance development, as covered in 24 CFR 905.604. The regulations include programmatic requirements and detailed steps to be followed in the phase-by-phase development of public housing and public housing mixed-finance development.

The housing components of a mixed-finance development may include public housing units, units developed with low-income housing tax credits, units assisted with project-based Housing Choice Vouchers (Section 8 units), units funded with other private or public funds, and privately financed units with no income restrictions, i.e., “market rate” units. HOPE VI funds may only be used to fund development of public housing units and ancillary facilities, as well as supportive services for resident services. All other components of a mixed-finance development must be funded from other financial sources.

Choice Neighborhoods Implementation Grants may be used to finance the development of public housing units and other HUD-assisted units, as well as public or privately owned units which are restricted to use by families with incomes up to 120% of Area Median Income. Choice Neighborhoods grants may also pay for resident services and critical community improvements, as outlined in the NOFA/NOFO. Both HOPE VI and Choice Neighborhoods grants may also be used to fund affordable homeownership units.

In general, the procedures to be followed for each phase of housing development for both the HOPE VI and Choice Neighborhoods programs are as follows. A Development Proposal is prepared which describes the development and development partners; number and types of units; sources and uses of funds; schedules; any waivers required; loans and operating subsidy payments to the development entity; estimated construction cost; and any other matters pertinent to the development. In addition, specific HUD evidentiary documents for the transaction must be prepared.

The Development Proposal and draft HUD evidentiary documents are submitted to HUD for review and approval. An approval letter is issued by HUD, approving the Development Proposal and the draft evidentiary documents, and authorizing execution and recordation of the documents. Once executed and recorded, the HUD evidentiary documents are resubmitted to HUD for final approval. Once approved, the HOPE VI or Choice Neighborhoods funds for the project are authorized in the HUD Line of Credit Control System (LOCCS) and made available for expenditure. Upon completion of construction and after the project reaches its Date of Full Availability, the agreed-upon Operating Subsidy is provided for the public housing units. Upon completion of all phases of housing development funded with HOPE VI or Choice Neighborhoods funds, the grant is closed out in accordance with the close-out procedures for each program.

D. Moving to Work Demonstration Program

Section 204 of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Pub. L. No. 104-134, 110 Stat. 1321-281 through 284) established the Moving to Work (MTW) Demonstration Program (Assistance Listing 14.881). The MTW Demonstration Program offers PHAs the opportunity to design and test innovative, locally designed housing and self-sufficiency strategies for low, very-low, and extremely low-income families by allowing exemptions from existing public housing and tenant-based Housing Choice Voucher (HCV) rules and permitting PHAs to utilize MTW funding flexibilities with its operating, capital, and tenant-based assistance funds, as approved by HUD. HOPE VI or Choice Neighborhoods funds cannot be used for other MTW eligible purposes; however the MTW funds can be utilized as part of HOPE VI or Choice Neighborhoods development activity. If a PHA is operating under an MTW Agreement or MTW Amendment to the ACC, the auditor should look to the governing document or plan to determine any differences from the requirements identified in this program supplement.

Source of Governing Requirements

The program authority for the HOPE VI and Choice Neighborhoods programs is 42 USC 1437v, as amended by Section 402 of the HOPE VI Program Reauthorization and Small Community Mainstreet Rejuvenation and Housing Act of 2003 (Pub. L. No. 108-186, December 16, 2003) and the Department of Housing and Urban Development Appropriations Act, Fiscal Year 2010 (Pub. L. No. 111-117, 123 Stat. 3080, December 16, 2009). The regulations governing mixed-finance projects are contained in 24 CFR 905, Subpart F.

Availability of Other Program Information

No program-specific regulations have been published. Each grant is subject to the terms of its NOFA/NOFO and Agreement, which is signed by the grantee and HUD. HUD posts guidance on the HOPE VI program on its Home Page, which is available at https://www.hud.gov/program_offices/public_indian_housing/programs/ph/hope6, and the Choice Neighborhoods program on its Home Page, which is available at

https://www.hud.gov/program_offices/public_indian_housing/programs/ph/cn, to provide information on timelines, budgets, financial instructions, and other program guidance. Information regarding the financial reporting requirements of the PHAs is provided by HUD on the Real Estate Assessment Center (REAC) home page, which are available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/react.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

Y	Y	N	N	N	Y	N	Y	Y	Y	N	Y

A. Activities Allowed or Unallowed

1. HOPE VI Revitalization Grant funds and Choice Neighborhoods Implementation Grant funds may be used to fund the revitalization of severely distressed public housing developments (42 USC 1437v(d)) and Choice Neighborhoods funds may also be used to fund other HUD-assisted housing or other privately or publicly owned units restricted to families with incomes from 81-120% of AMI, as outlined in the NOFA/NOFO. Such activities include, but are not limited to:
 - a. The demolition of severely distressed public housing developments or portions thereof (42 USC 1437v(d)(1)(C)) or other properties as allowed under the Choice Neighborhoods program,

- b. Relocation costs for affected residents (42 USC 1437v(d)(1)(F) and (J)),
 - c. Disposition activities (42 USC 1437v(d)(1)(C)),
 - d. Rehabilitation of existing public housing units and/or community facilities (42 USC 1437v(d)(1)(B)) or other housing/facilities allowed by the Choice Neighborhoods program,
 - e. Development of new public housing units and community facilities and other housing/facilities allowed by the Choice Neighborhoods program, (42 USC 1437v(d)(1)(I)),
 - f. Homeownership activities (42 USC 1437v(d)(1)(G)),
 - g. Acquisition and disposition activities (42 USC 1437v(d)(1)(B), (C), and (J)),
 - h. Economic and community development activities and facilities (42 USC 1437v(d)(1)(G)),
 - i. Leveraging of resources (42 USC 1437v(d)(1)(I)),
 - j. Necessary management improvements (42 USC 1437v(d)(1)(H)),
 - k. Administrative and consulting costs (42 USC 1437v(d)(1)(D) and (E), and
 - l. Community and supportive services (42 USC 1437v(d)(1)(G)).
2. HOPE VI demolition grant funds may be used to fund the demolition of public housing dwelling units and ancillary non-dwelling structures, relocation of affected residents, site restoration, as appropriate, and reasonable administrative costs (42 USC 1437v(d)).
 3. The components of mixed-finance development, other than public housing, may not be financed with public housing funds (42 USC 1437v(d)), except for Choice Neighborhoods funds. These funds may be used to finance the development of public housing units, HUD-assisted housing, and other privately or publicly owned units limited to families with incomes from 81-120%, as outlined in the NOFA/NOFO.

G. Matching, Level of Effort, Earmarking

1. Matching

Grantees must provide matching funds in the amount of at least five percent of the grant amount in cash or in-kind donations or as outlined in the NOFA/NOFO (42 USC 1437v(c)(a)(A)).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

L. Reporting**1. Financial Reporting**

a. *SF-270, Request for Advance or Reimbursement* – Not Applicable

b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable

c. *SF-425, Federal Financial Report* – Not Applicable

d. Actual HOPE VI Cost Certificate (OMB Approval No. 2577-0208) or

Actual Choice Neighborhoods Cost Certificate (OMB Approval No. 2577-0269)- Must be submitted by grantee at the time of final close-out of the Grant. The form must be signed by the appropriate party and amount of funds indicated in Part 1, A-E, must be accurate.

2. Performance Reporting

Not Applicable.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions**1. Wage Rate Requirements**

Compliance Requirements: Davis-Bacon wage requirements apply to the development of any public housing units or other “Replacement Units” or homeownership units developed with HOPE VI and Choice Neighborhoods Implementation Grant funds as identified in the NOFA/NOFO and/or as provided for in 24 CFR 905.308(b)(3), for projects that contain only public housing replacement units, and/or 24 CFR 905 Subpart F, where the development entity has been procured by the PHA in accordance with 2

CFR Part 200 and are subject to the Wage Rate Requirements (42 USC 1437j(a) and (b), 24 CFR sections 941.208 and 941.610(a)(8)(vi)).

See Part 4, 20.001, Wage Rate Requirements Cross-Cutting Section.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.867 INDIAN HOUSING BLOCK GRANTS

I. PROGRAM OBJECTIVES

The primary objectives of the Indian Housing Block Grants (IHBG) program are (1) to assist and promote affordable housing activities to develop, maintain, and operate affordable housing in safe and healthy environments on Indian reservations and in other Indian areas for occupancy by low-income Indian families; (2) to coordinate activities to provide housing for Indian tribes and their members and to promote self-sufficiency of Indian tribes and their members; and (3) to plan for and integrate infrastructure resources for Indian tribes with housing development for Indian tribes (24 CFR section 1000.4).

II. PROGRAM PROCEDURES

The IHBG program is formula driven, based on factors that reflect the need of the Indian tribes and the Indian areas of the tribes for assistance for affordable housing activities. To access funds, Indian tribal governments (or tribally designated housing entities (TDHEs)) must submit an Indian Housing Plan (IHP) to the Department of Housing and Urban Development (HUD), and HUD must find that the IHP meets the requirements of Section 102 of the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA). IHBG funds awarded to a recipient may only be used for affordable housing activities that are consistent with its IHP (24 CFR section 1000.6).

In addition to the annual IHBG funding pursuant to NAHASDA, under the Coronavirus Aid, Relief, and Economic Security (CARES) Act (Pub. L. No. 116-136) and the American Rescue Plan Act of 2021 (ARP) (Pub. L. No. 117-2), Congress directed HUD to utilize the IHBG program to allocate and award \$200 million in CARES funding and \$450 million in ARP funding. IHBG funding awarded pursuant to the CARES Act or the ARP Act are discussed in greater detail later in this document.

Source of Governing Requirements

This program is authorized by NAHASDA, codified at 25 USC 4101 through 4212. Implementing regulations are in 24 CFR Part 1000.

Availability of Other Program Information

Additional information about the IHBG program is available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/ih/grants/ihbg.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have

been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

Y	Y	N	Y	N	N	N	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

1. The following activities to develop, operate, maintain, or support affordable housing for rental or homeownership, or to provide housing services with respect to affordable housing are allowable:
 - a. *Indian Housing Assistance* – The provision of modernization or operating assistance for housing previously developed or operated pursuant to a contract between the secretary and an Indian housing authority, including such amounts as may be necessary to provide for the continued maintenance and efficient operation of such housing (25 USC 4132(1) and 4133(b)).
 - b. *Development* – The acquisition, new construction, reconstruction, or moderate or substantial rehabilitation of affordable housing, which may include real property acquisition, site improvement, development and rehabilitation of utilities, necessary infrastructure, and utility services, conversion, demolition, financing, administration and planning, improvement to achieve greater energy efficiency, mold remediation, and other related activities (25 USC 4132(2)).
 - c. *Housing Services* – The provision of housing-related services for affordable housing, such as housing counseling in connection with rental or home-ownership assistance, establishment and support of resident

- organizations and resident management corporations, energy auditing, activities related to the provision of self-sufficiency and other services, and other services related to assisting owners, tenants, contractors, and other entities, participating or seeking to participate in other housing activities assisted pursuant to this section (25 USC 4132(3)).
- d. *Housing Management Services* – The provision of management services for affordable housing, including preparation of work specifications; loan processing, inspections; tenant selection; management of tenant-based rental assistance; the costs of operation and maintenance of units developed with funds provided under NAHASDA; and management of affordable housing projects (25 USC 4132(4)).
 - e. *Crime Prevention and Safety Activities* – The provision of safety, security, and law enforcement measures and activities appropriate to protect residents of affordable housing from crime (25 USC 4132(5)).
 - f. *Model Activities* – Housing activities under model programs that are designed to carry out the purposes of NAHASDA and are specifically approved by the secretary of Housing and Urban Development as appropriate for such purpose (25 USC 4132(6)).
 - g. *Reserve Accounts* – The deposit of amounts, including grant amounts, in a reserve account only for the purpose of accumulating amounts for administration and planning relating to affordable housing activities. These amounts may be invested. Interest earned on reserves is not program income and may not be included in calculating the maximum number of reserves. The maximum number of reserves, whether in one or more accounts, that a recipient may have available at any one time is calculated by determining the five-year average of administration and planning amounts, not including reserve amounts, expended in a tribal program year and establishing one-fourth of that amount for the total eligible reserve (25 USC 4132(9); 24 CFR section 1000.239).
2. Unless the conditions specified in 25 USC 4111(d) (regarding tax exemption for real and personal property taxes and user fees) are met, grant funds may not be used for affordable housing activities for rental or lease-purchase dwelling units developed
- a. under the United States Housing Act of 1937 (42 USC 1437 et seq.), or
 - b. with amounts provided under 25 USC Chapter 43 that are owned by the recipient for the tribe.

B. Allowable Cost/Cost Principles

1. All items of cost listed in 2 CFR Part 200, Subpart E, that require prior federal agency approval are allowable without prior approval, except for the following:
 - a. Depreciation methods for fixed assets shall not be changed without the approval of the federal cognizant agency.
 - b. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent), housing allowances, and personal living expenses (goods or services for personal use), regardless of whether reported as taxable income to the employees, require prior HUD approval.
2. Fines, penalties, damages, and other settlements are unallowable.
3. No person providing consultant services in an employer-employee type of relationship may receive more than a reasonable rate of compensation. Such compensation must not exceed the equivalent of the daily rate paid for Level IV of the Executive Schedule (currently \$1183,500). The Executive Pay Schedule may be obtained at <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/> (24 CFR section 1000.26(b)).

E. Eligibility**1. Eligibility for Individuals**

Each recipient shall develop written policies governing the eligibility, admission, and occupancy of families for housing assisted with grant funds (25 USC 4133(d)). The following families are eligible for affordable housing activities (25 USC 4131(b)):

- a. Low-income Indian families on a reservation or Indian area (Section 201(b)(1) of NAHASDA (25 USC 4131(b)(1))).
- b. A non-low-income family may receive housing assistance if HUD approves that housing assistance due to a need that cannot reasonably be met without the assistance (Section 201(b)(2) of NAHASDA (25 USC 4131(b)(2))). A family that was low income at the times described in 24 CFR section 1000.147 but subsequently becomes a non-low-income family due to an increase in income may continue to participate in the program in accordance with the recipient's admission and occupancy policies. This includes a family member or household member who takes ownership of a homeownership unit. Non-low-income families cannot receive the same benefits that are provided to low-income families, as benefits are limited by 24 CFR section 1000.110(d) and must be based on the recipient's admission and occupancy policies (24 CFR section 1000.110).

- c. A family may receive housing assistance on a reservation or Indian area if the family's housing needs cannot be reasonably met without such assistance, and the recipient determines that the presence of that family on the reservation or Indian area is essential to the well-being of Indian families. Assistance for essential families does not require HUD approval, but only requires that the recipient determine that the presence of that family on the reservation or Indian area is essential to the well-being of Indian families and the family's housing needs cannot be reasonably met without such assistance (Section 201(b)(3) of NAHASDA (25 USC 4131(b)(3))).
- d. A law enforcement officer on an Indian reservation or other Indian area may receive housing assistance, if:
 - (1) The officer is employed on a full-time basis by the federal government or a state, county, or other unit of local government, or lawfully recognized tribal government;
 - (2) In implementing such full-time employment, the officer is sworn to uphold, and make arrests for violations of federal, state, county, or tribal law; and
 - (3) The recipient determines that the presence of the law enforcement officer on the Indian reservation or other Indian area may deter crime (Section 201(b)(4) of NAHASDA (25 USC 2531(b)(4))).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

I. Procurement and Suspension and Debarment

- 1. For the IHBG program, funds used are subject to section 7(b) of the Indian Self-Determination and Education Assistance Act (25 USC 450e(b)) or, if applicable, tribal preference in contracting under 25 USC 4111(k), which means that a recipient is to apply employment and contract preference laws (including regulations and tribal ordinances) that it has adopted; or, in absence of such laws, to the greatest extent feasible, a recipient is to give preference in the award of contracts to Indian organizations and Indian-owned economic enterprises (24 CFR section 1000.52).

2. A recipient is not required to comply with the procurement requirements under 2 CFR sections 200.318 through 200.326 or the Indian preference requirements with respect to any procurement of goods and services using IHBG funds with a value of less than \$5,000 (25 USC 4133(g)).
3. A recipient may use federal supply sources made available by the General Services Administration under 40 USC 501 (Section 101(j) of NAHASDA; 24 CFR section 1000.26(a)(11)(ii)).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

- a. [HUD-52737, Indian Housing Plan/Annual Performance Report \(OMB No. 2577-0218\)](#) – Recipients may complete the Annual Performance Report component of the form using either HUD’s online EPIC system or the Excel version that is submitted by paper or electronically as an email attachment to the Area Office of Native American Programs (ONAP) within 90 days of the end of the recipient’s program year.

A copy of the most recent HUD-52737, Indian Housing Plan/Annual Performance Report submitted to the relevant Area Office of Native American Programs includes line items containing critical information listed below and is supported by the recipient’s file documentation. If the recipient cannot provide a copy of the most recent HUD-52737, Indian Housing Plan/Annual Performance Report, the Area Office of Native American Programs can provide the relevant report.

Key Line Items – The following line items contain critical information reported to HUD in the Indian Housing Plan/Annual Performance Report. The accuracy of the data reported by the recipient in response to each line item is documented in the recipient’s file:

1. Section 3, Line 1.9 – *Planned and Actual Outputs for 12-Month Program Year*.
2. Section 5, Line 1 – *Sources of Funds* – columns G and K.

3. Section 5, Line 2 – *Uses of Funds* – columns O through Q.
4. Section 11, Line 1 – *Inspections of Units* – columns C through F
5. Section 14, Lines 1 and 2 – *Jobs Supported by NAHASDA*.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements NAHASDA imposes the Wage Rate Requirements on contracts and agreements for assistance, sale, or lease for payments to laborers and mechanics employed in the development of affordable housing. NAHASDA provides that the Wage Rate Requirements and HUD-determined rates shall not apply to a contract or agreement if the contract or agreement is otherwise covered by a law or regulation adopted by an Indian tribe that provides for the payment of not less than prevailing wages as determined by the tribe. This requires the Indian tribe to pass a tribal law or regulation and ensure that the law requires the payment of not less than those wage rates the tribe determines to be prevailing (Section 104(b) of NAHASDA (25 USC 4114(b)); 24 CFR section 1000.16)).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Environmental Review

Compliance Requirements Program regulations provide that a tribe may assume responsibilities for environmental review and decision making under the requirements of 24 CFR Part 58 or it may allow HUD to retain these responsibilities. The tribe is the responsible entity, whether or not a TDHE is authorized to receive IHBG grant amounts on behalf of the tribe (24 CFR section 58.2(a)(7)(ii)). If HUD retains the responsibilities, HUD will do reviews under the provisions of 24 CFR Part 50 (24 CFR section 1000.20). A HUD environmental review must be completed for any activities not excluded before a recipient may acquire, rehabilitate, convert, lease, repair or construct property, or commit HUD or local funds (24 CFR section 1000.20(a)).

If the tribe assumes these responsibilities, the following applies: An environmental review must be prepared for each project or activity. Funds may not be committed to a grant activity or project before the completion of the environmental review and approval

of the Request for Release of Funds (RROF) and environmental certification. If the responsible entity tribe determines that it met a criterion specified in the regulations that would qualify the project as exempt or qualify the project for certain categorical exclusions, the RROF and environmental certification requirements do not apply (24 CFR sections 58.34 and 58.35(b), 24 CFR section 1000.20(b)(3)).

Audit Objectives Determine whether (1) the required environmental reviews have been performed and (2) program funds were not obligated or expended prior to completion of the environmental review process.

Suggested Audit Procedures

Select a sample of projects for which expenditures were made and verify that:

Environmental Reviews

- a. Environmental determinations were made for each project or activity.
- b. Environmental determinations were supported by an environmental review, including supporting documentation for each applicable law and authority.
- c. For any project where an RROF and environmental certification was not submitted, the environmental review includes a written determination that the project or activity is exempt under a criterion of 24 CFR section 58.34 or is categorically excluded under a criterion of 24 CFR section 58.35(b), and meets the conditions specified for such exemption or categorical exclusion, with supporting documentation.

Requests for Release of Funds

- a. Examine HUD's approval of the RROF and environmental certification and note receipt dates.
- b. Review the expenditure and related records and determine the dates the funds were obligated or expended.
- c. Determine those funds were obligated or expended subsequent to RROF and environmental certification approval by HUD.

Availability of Other Information

Additional information on environmental review requirements can be found at <https://www.hudexchange.info/programs/environmental-review/>.

3. Investment of IHBG Funds

Compliance Requirements A recipient may invest IHBG funds for purposes of carrying out IHBG activities in investment securities if approved by HUD (25 USC 4134). Under IHBG, investments may be for a period not to exceed five years and only in those accounts or instruments identified in 24 CFR section 1000.58(c). A recipient may invest its IHBG annual grant in an amount equal to the annual formula grant amount less any formula grant amounts allocated for the operating subsidy element of the Formula Current Assisted Stock component of the formula. Please note, however, grantees may not invest IHBG funding received pursuant to the CARES Act or the ARP.

Audit Objectives Determine whether the investment of IHBG funds by the recipient meets the requirements of 24 CFR section 1000.58.

Suggested Audit Procedures

If IHBG funds have been invested during the audit period:

- a. Ascertain that prior written HUD approval had been obtained, and any conditions or restrictions on the approval.
- b. Verify that the funds were invested only in those allowable accounts or instruments and within any conditions or restriction on the approval.
- c. Verify that each of these accounts are separate from other funds of the recipient and subject to an agreement in a form prescribed by HUD (i.e., HUD-52736-A for bank accounts or HUD-52736-B for brokers and dealers).
- d. Ensure these agreements are fully executed and maintained by the recipient in an accessible place.

IV. OTHER INFORMATION

1. Indian Housing Block Grant -CARES Grants

a. General

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (Pub. L. No. 116-136) (CARES Act), was signed into law. The Act provides for an additional \$200,000,000 in Indian Housing Block Grant (IHBG) formula funding to eligible Indian tribes and tribally designated housing entities (TDHEs) specifically to prevent, prepare for, and respond to the Coronavirus disease 2019 (COVID-19), including to maintain normal operations and to fund eligible affordable housing activities under the Native American Housing Assistance and Self-Determination Act (NAHASDA) during the period that an IHBG recipient's program is impacted by COVID-19.

In addition, the CARES Act authorized HUD to waive, or specify alternative requirements for any statute or regulation (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment) that HUD administers to expedite or facilitate the use of IHBG-CARES grant funds to prevent, prepare for, and respond to COVID-19. This waiver authority also applies to IHBG funds appropriated under the Further Consolidated Appropriations Act, 2020 (Pub. L. No. 116-94).

On April 10, 2020, HUD issued PIH Notice 2020-05 with waivers and alternative requirements authorized by the CARES Act. That Notice was superseded by [PIH Notice 2021-14](#) issued on May 4, 2021. [PIH Notice 2021-14](#) describes in detail the various updated waivers and alternative requirements that have been issued thus far with respect to IHBG-CARES grants and FY 2020 IHBG grants repurposed to address COVID-19.

Auditor be advised: Before auditing an IHBG-CARES grant recipient, auditors are strongly advised to review the IHBG-CARES Implementation Notice, PIH Notice 2020-06, and [PIH Notice 2021-14](#), particularly Section 13 of [PIH Notice 2021-14](#) addressing the waivers and alternative requirements affecting IHBG program with respect to IHBG-CARES grants and FY 2020 IHBG grants.

The following section identifies allowability considerations for IHBG-CARES funding, followed by a summary of waivers and alternative requirements affecting IHBG-CARES funding considered important by HUD. The Auditor should make best efforts to identify and consider updates and revisions of [PIH Notice 2021-14](#) for IHBG-CARES funding that were in place at the time of the audit. This can be done by visiting <https://www.hud.gov/codetalk>.

b. Activities Allowed or Unallowed

The CARES Act requires IHBG-CARES grants to be used to prevent, prepare for, and respond to COVID-19.

To comply with this requirement, IHBG-CARES grantees must ensure that all activities, projects, and programs being proposed can be tied to at least one of the following three eligible purposes:

1. Activities, Projects, or Programs to Prevent COVID-19
2. Activities, Projects, or Programs to Prepare for COVID-19
3. Activities, Projects, or Programs to Respond to COVID-19

Pursuant to the CARES Act, these funds may also be used to maintain normal operations and fund eligible IHBG activities during the period that a recipient's IHBG program is impacted by COVID-19. HUD expects and encourages recipients to expend funds expeditiously given the ongoing COVID-19 National Emergency. However, COVID-19 may have impacts on a recipient's IHBG program that range from immediate or short-term to medium-and long-term in nature. Accordingly, for purposes of this requirement,

recipients may use IHBG-CARES grant funds to maintain normal operations both now and after the COVID-19 National Emergency, provided that the IHBG-CARES recipient can demonstrate that COVID-19 continues to impact its program.

IHBG-CARES grant funds may also be used to cover or reimburse allowable costs incurred by the IHBG-CARES recipient, provided the funds were used to prevent, prepare for, or respond to COVID-19. This includes covering or reimbursing allowable costs incurred back to the date the Indian tribe or TDHE began preparing for COVID-19, which may be prior to the date of enactment of the CARES Act, but in no event earlier than January 21, 2020.

The Auditor should consider the following:

- **Prepare for:** IHBG-CARES grant funds may be used prior to a local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to develop processes and procedures to help keep people healthy, and other activities designed to reduce the risk of exposure to COVID-19 and avoid or slow the spread of the disease. Examples may include housing activities designed to reduce severe overcrowding, providing food delivery services to eligible families (including the elderly, disabled, and other high-risk populations) to allow them to shelter in place, and public health campaigns designed to educate families on how to prepare for a possible outbreak in the community and ways to minimize community spread.
- **Prevent:** IHBG-CARES grant funds may be used during a COVID-19 local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to prevent the initial or further spread of the virus to staff, tribal housing residents, and the tribal community. Examples may include distributing Personal Protective Equipment to housing maintenance staff, residents, and members of the community, using IHBG-CARES funds to clean common areas to prevent infections, and much more.
- **Respond to:** Once COVID-19 has spread to staff, tribal housing residents, and/or the tribal community, examples of how Indian tribes and TDHEs may choose to respond to COVID-19 may include using IHBG-CARES grant funds to care for those who have become infected and to limit the exposure and spread of the virus, provide rent assistance to eligible families that cannot pay rent, carrying out activities to reduce severe overcrowding, prevent homelessness to ensure families are stably housed, and much more. Funds may continue to be used after the local, service area, or regional coronavirus outbreak on any continuing expenses incurred due to the spread of COVID-19.

In most cases, maintaining normal operations and carrying out eligible activities, projects, or programs during the period that a recipient's program is impacted by COVID-19 will likely tie back to the "Respond to" COVID-19 purpose. However, HUD recognizes that there may be circumstances where maintaining normal operations and carrying out eligible

activities may tie back to the “Prepare for” or the “Prevent” eligible purpose. One example of maintaining normal operations is using IHBG-CARES funds to carry out eligible IHBG activities that the recipient initially planned to carry out with its regular IHBG funds but did not because it had to use its regular IHBG funds to carry out an unplanned activity to prevent, prepare for, or respond to COVID-19. In this scenario, the IHBG-CARES grant funds can be used to carry out the original IHBG activity.

These descriptions are designed to provide general guidance and are not intended to limit the range of eligible IHBG-CARES grant activities that can be carried out. Provided a grantee can reasonably tie their IHBG-CARES activities back to one or more eligible purposes, HUD will accept the classification.

c. Waivers and Alternative Requirements Applicable Only to IHBG-CARES Funding

The following waivers and alternative requirements apply only to IHBG-CARES grants (the new IHBG funding provided under the CARES Act), and FY 2020 IHBG funds appropriated under the Further Consolidated Appropriations Act of 2020 (Public Law 116–94) and reprogrammed to address COVID-19.

These waivers and alternative requirements do not apply to IHBG funds appropriated in any other prior year.

(1) Reprogramming of FY 2020 IHBG Funding

To encourage IHBG recipients to consider reprogramming existing FY 2020 IHBG funding to help address COVID-19, HUD has waived Section 103 of NAHASDA and 24 CFR section 1000.230 to the extent necessary to allow IHBG recipients to expend IHBG FY 2020 funds on IHBG activities that meet the eligible purposes of the CARES Act (to prevent, prepare for, and respond to COVID-19), including activities made eligible under the waivers and alternative requirements provided in this Notice, without first having to amend their FY 2020 Indian Housing Plan (IHP).

IHBG recipients that choose to do this must still amend their FY 2020 IHP, at a later date, but prior to submission of their APR, to reflect these new uses or activities, but may request an extension if doing so is not feasible and safe for tribal or TDHE staff at that time.

Additionally, HUD has waived the requirement in 24 CFR section 1000.232 that provides that certain IHP amendments that add new activities or involve a decrease in the amount of funds provided to protect and maintain the viability of FCAS units require HUD to review such modifications and determine that they comply with NAHASDA. IHBG recipients may reprogram FY 2020 funding to add new activities and decrease funding for FCAS units without HUD prior review and approval, provided that the IHBG recipient is carrying out eligible COVID-19-related IHBG activities.

Similarly, the FY 2020 IHP must be amended to reflect these changes prior to submission of their APR, to reflect these added activities or a decrease in the amount of FCAS funds but may request an extension if doing so is not feasible and safe for tribal or TDHE staff at that time.

(2) **Income Verification**

Regulatory Authority: 24 CFR section 1000.128

Description: 24 CFR section 1000.128 requires IHBG recipients to verify that a family is income-eligible. Families are required to provide documentation to verify this determination, and a recipient is required to maintain that documentation. Families may be required by the IHBG recipient to periodically verify income after initial occupancy, and the recipient is required to maintain documentation.

Given the COVID-19 related challenges facing families seeking IHBG assistance, families currently receiving IHBG assistance that are due for income recertification, and tribal and TDHE staff charged with verifying income and maintaining documentation, HUD established the following alternative requirement under 24 CFR section 1000.128:

- (a) IHBG recipients may deviate from their current written admissions and occupancy policies, and may allow less frequent income recertifications; and
- (b) IHBG recipients may carry out intake and other tasks necessary to verify income remotely if the IHBG recipient or eligible families chooses to do so, including allowing income self-certification over the phone (with a written record by the IHBG recipient's staff), or through an email with a self-certification form signed by a family.

(3) **Public Health Services**

Statutory Authority: Section 202(3) of NAHASDA

Description: Section 202(3) of NAHASDA authorizes the use of IHBG funds for the provision of housing-related services for affordable housing. Under this eligible activity, IHBG funds can be used to provide services such as housing counseling, activities related to the provision of self-sufficiency and other services related to assisting owners, tenants, contractors, and other entities, participating or seeking to participate in the IHBG program.

HUD has waived Section 202(3) and established an alternative requirement to the extent necessary to allow IHBG funds to be used to carry out a wide range of public health services under this category of eligible activities. Accordingly, in addition to the housing services normally eligible under Section 202(3), IHBG

recipients may be used on a wide range of public health activities designed to allow IHBG-eligible residents and staff of the IHBG recipient to prepare for, prevent, and respond to COVID-19.

Eligible uses of IHBG funds under this waiver and alternative requirement include, but are not limited to: providing testing, diagnosis or other related services to residents; establishing a fixed or mobile location to conduct testing and treatment; paying for necessary equipment, supplies, and materials, including personal protective equipment; carrying out public health services designed to help staff, eligible residents, and other third-party providers serving eligible residents, prepare for, prevent, and respond to COVID-19; delivering meals on wheels or other food delivery services to eligible residents that are sheltered-in-place and complying with a stay at home order, or otherwise maintaining recommended social distancing.

IHBG grantees are to coordinate with recipients of other federal sources of funding for this purpose, including funding provided by the Indian Health Service, to ensure IHBG funds are used to supplement rather than supplant such funding.

(4) **COVID-19-Related Assistance to Non-Low Income and Non-Native Families**

Statutory Authority: Section 201(b) of NAHASDA

Regulatory Authority: 24 CFR section 1000.104, 1000.106, 1000.108, 1000.110; 1000.312, 1000.314, 1000.318

Description: Section 201(b) of NAHASDA and its implementation regulations, except for specified exceptions, limit assistance under eligible housing activities to low-income Indian families.

The COVID-19 pandemic poses a unique threat to the health and safety of tribal communities. Persons infected with the virus, regardless of income or tribal membership, pose a health risk to the entire community, and low-income families are especially vulnerable given the severe overcrowding in Indian Country, infrastructure challenges, and the lack of access to running water and readily available health care services in many remote communities. To effectively prevent, prepare for, and respond to COVID-19, IHBG recipients may find the need to use IHBG resources or NAHASDA-assisted housing units to provide shelter-in-place housing and public health services to otherwise ineligible persons and families, with the goal of protecting the health and safety of the most vulnerable low-income Native American families who may be infected.

Given this, HUD has waived section 201(b) and its implementing regulations, and established alternative requirements to the extent necessary to allow IHBG funds to be used by recipients to prevent, prepare for, and respond to COVID-19 through the following limited activities that provide assistance to all affected and

threatened people without regard to income limits or Indian status: temporary shelter-in-place, isolation centers, purchasing and making medical testing kits available, purchasing and distributing masks and other personal protection equipment, emergency food preparation and distribution, cleaning and decontamination, and other directly related activities. Permanent rental assistance, mortgage assistance, housing rehabilitation, and new housing construction may not be provided for the benefit of such otherwise ineligible families under this waiver and alternative requirement.

This assistance may only be provided to such otherwise ineligible families if: it is provided during the COVID-19 pandemic; it is designed to protect the health and safety of low-income Native American families; it is provided on an urgent basis (as documented by the IHBG recipient); and it is temporary in nature.

When providing this assistance, IHBG recipients must maintain records documenting that these criteria were met at the time that such assistance was provided.

Under this waiver and alternative requirement, IHBG recipients may house low-income non-Indian families or over-income Indian and non-Indian families in NAHASDA-assisted units, including FCAS units to shelter-in-place those families per CDC guidelines to protect low-income Indian families and the Tribal community from the further spread of COVID-19, regardless of income or Indian status.

IHBG funds may also be used to provide temporary rental assistance to otherwise ineligible persons or families in privately owned units, hotels/motels, and similar facilities designed to shelter-in-place or isolate infected persons from others, if the criteria under this waiver and alternative requirements are met.

The use of NAHASDA-assisted units, including FCAS, or funds for the temporary shelter-in-place or isolation of any individuals shall be temporary and no individual shall be isolated longer than medically necessary.

The 24 CFR sections 1000.312 and 1000.314 identify FCAS units as low rent, Mutual Help, and Turnkey III housing units owned and operated by an IHBG recipient. 24 CFR section 1000.318 establishes when these units can be considered FCAS for purposes of the IHBG formula. These regulations have also been waived and modified to the extent necessary to not impact the FCAS eligibility of FCAS units used for this purpose of addressing COVID-19 regardless of income or Indian status, provided such units are operated as low income housing dwelling units once no longer needed to shelter-in-place persons, and upon a determination that such units are safe to be occupied again by low income families not infected with COVID-19.

Assistance provided in accordance with this waiver shall not count towards the maximum amount of assistance that IHBG recipients may otherwise provide to non-low-income families specified in 24 CFR section 1000.110.

(5) **Useful Life**

Statutory Authority: Section 205 of NAHASDA

Regulatory Authority: 24 CFR sections 1000.141, 1000.142, 1000.143, 1000.144, 1000.146, 1000.147

Description: Section 205(a)(2) of NAHASDA requires each dwelling unit in a recipient's housing developed or assisted under the Act will remain affordable, according to binding commitments satisfactory to HUD, for the remaining useful life of the property. The HBG regulations require each recipient to describe, in its IHP, its determination of the useful life of the assisted housing units in its developments in accordance with the local conditions of the Indian area of the recipient. By approving the IHP, HUD determines the useful life in accordance with Section 205(a)(2).

HUD has waived these requirements to determine and maintain affordability during the useful life of housing units assisted with IHBG-CARES grant funding and FY 2020 IHBG funding used to address COVID-19 if that assistance is related to cleanup of COVID-19 contamination and temporary use dwelling units for purposes of housing and quarantining families to inhibit the spread of COVID-19 to low-income Indian families and the Tribal community.

(6) **Total Development Cost Limits**

Regulatory Authority: 24 CFR sections 1000.156, 1000.158, 1000.160, 1000.162

Description: The IHBG regulations require that affordable housing under NAHASDA be of moderate design with a size and with amenities consistent with unassisted housing offered for sale in the Indian tribe's general geographic area to buyers who are at or below the area median income. To achieve this requirement the recipient must either, adopt written standards for its affordable housing programs that reflect the requirement specified, or use TDC limits published periodically by HUD that establish the maximum amount of funds (from all sources) that the recipient may use to develop or acquire/rehabilitate affordable housing. The limits provided by the TDC may not, without prior HUD approval, exceed by more than 10 percent the TDC maximum cost for the project. Non-dwelling structures used to support an affordable housing activity must be of a design, size and with features or amenities that are reasonable and necessary to accomplish the purpose intended by the structures.

HUD expects that COVID-19 will likely have both a short- and long-term impact on IHBG recipients' programs. Because of the long-term need to prevent, prepare for, and respond to COVID-19, IHBG recipients may find it appropriate to use IHBG-CARES grant funds to acquire or construct new housing units with the goal of reducing severe overcrowding in Indian Country that leave Native American populations, particularly the elderly and persons with disabilities, especially vulnerable to COVID-19.

Accordingly, HUD has established an alternative requirement relating to limitations on cost or design standards and TDC with respect to dwelling and non-dwelling units developed, acquired or assisted with funding provided to be used by recipients to prevent, prepare for, and respond to COVID-19. An IHBG recipient may exceed the current TDC maximum by 20 percent without HUD review or approval if the purpose of the development, acquisition or assistance is to prevent, prepare for, and respond to COVID-19. The recipient, however, must maintain documentation that indicates the dwelling and non-dwelling units developed, acquired or assisted with this funding will, after this crisis, be for IHBG eligible families and the design, size, and amenities are moderate and comparable to housing in the area. The TDC limits can be exceeded by more than 20 percent if the recipient receives written approval from HUD Headquarters. This waiver applies to both single-family and multi-family housing, as well as non-dwelling structures supporting an activity to prevent, prepare for, and respond to COVID-19.

Originally, this waiver and alternative requirement was to be available only so long as the Total Development Costs specified in [PIH Notice 2019-19](#) remain in effect. [PIH Notice 2019-19](#) has been superseded by [PIH Notice 2022-16](#), which provided an updated schedule for the maximum amount of funds that may be used for affordable housing under NAHASDA. However, [PIH Notice 2022-16](#) preserves previously provided regulatory relief with respect to TDC limits for the IHBG-CARES and IHBG-ARP programs. Therefore, Indian Tribes and TDHEs carrying out their IHBG-CARES grants; FY 2020 IHBG formula grants to prevent, prepare for, and respond to coronavirus; and IHBG-ARP grants are authorized to use the higher of the new FY 2022 TDC limit issued pursuant to this [PIH Notice 2022-16](#), or up to 20 percent of the TDC limit that was previously issued in PIH 2019-19, without prior HUD approval. This waiver will remain in effect until all such funds are expended.

(7) Prohibition Against Investment of CARES Act Grant Funds

Statutory Authority: Section 204(b) of NAHASDA

Regulatory Authority: 24 CFR section 1000.58

Description: Section 204(b) of NAHASDA permits IHBG recipients to invest grant amounts for the purposes of carrying out affordable housing activities in investment securities and other obligations as approved by HUD. Under 24 CFR

section 1000.58 of the IHBG regulations, HUD has approved certain IHBG recipients based, among other things, on a history of compliance and capacity, to invest IHBG funding certain securities and interest-bearing accounts for the purpose of carrying out affordable housing activities.

HUD has waived Section 204(b) of NAHASDA and 24 CFR section 1000.58 and is prohibiting the investment of any IHBG funding provided under the CARES Act. Such funding is to be used by recipients to prevent, prepare for, and respond to COVID-19, including to maintain normal operations and fund eligible affordable housing activities under NAHASDA during the period that each recipient's program is impacted by COVID-19. Given the limited scope of this funding to address the immediate health, safety and economic needs of citizens in Indian Country, drawing down funds for investment in securities and long-term interest-bearing accounts is prohibited.

(8) IHBG-CARES Funds Not Counted in Undisbursed Funds Factor (UDFF)

Regulatory Authority: 24 CFR section 1000.342

Description: 24 CFR section 1000.342 codifies the UDFF in the IHBG formula. It provides that if an Indian tribe's initial IHBG allocation calculation is \$5 million or more and the Indian tribe has undisbursed IHBG funds on October 1 of the fiscal year for which the allocation is made in an amount that is greater than the sum of the prior three years' initial allocation calculations, its grant allocation will be the greater of the initial allocation calculation minus the amount of undisbursed IHBG funds that exceed the sum of the prior three years' initial allocation calculations, or its 1996 Minimum.

HUD has waived 24 CFR section 1000.342 and establishing an alternative requirement to the extent necessary to exclude IHBG-CARES funds from counting towards an Indian tribe's undisbursed IHBG funds from prior years under the UDFF. IHBG-CARES funds are available for a specific purpose under the CARES Act and were allocated by HUD to allow Indian tribes and TDHEs to prevent, prepare for, and respond to COVID-19. If this funding were counted against an Indian tribe and resulted in it receiving less IHBG formula funding under the next IHBG formula allocation, such a reduction in future funding would undermine the purposes of the IHBG-CARES funds and have an adverse impact on Indian tribes working to respond to the current National Emergency.

2. Indian Housing Block Grant -ARP Grants

a. General

On March 11, 2021, the American Rescue Plan Act of 2021 (Pub. L. No. 117-2) (ARP) was signed into law. The Act provides \$450 million for the IHBG Program to be distributed according to the same funding formula used in FY 2021 to be used by eligible Tribes and TDHEs to prevent, prepare for, and respond to coronavirus, including to maintain normal operations and fund eligible affordable housing activities under

NAHASDA, as amended, during the period that the program is impacted by coronavirus. ARP also permits the funding made available for the IHBG program to be used, as necessary, to cover or reimburse allowable costs to prevent, prepare for, and respond to coronavirus that are incurred by a recipient, including for costs incurred **after** January 21, 2020, that is January 22, 2020 to present (**Please Note:** The CARES Act permitted funding to be used, as necessary, to cover or reimburse allowable costs prior to the date of enactment of the CARES Act, but in no event earlier than January 21, 2020).

In addition, Congress authorized HUD to waive or specify alternative requirements for NAHASDA or regulations (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment) applicable to the IHBG program upon a finding by HUD that such waivers or alternative requirements are necessary to expedite or facilitate the use of IHBG-ARP funds.

On April 13, 2021, HUD issued the IHBG-ARP Implementation [Notice PIH-2021-11](#) with instructions on how to apply for the IHBG-ARP funding and describing waivers and alternative requirements authorized by the ARP Act. That Notice describes in detail the various waivers and alternative requirements that have been issued thus far with respect to IHBG-ARP grants.

b. Activities Allowed or Unallowed:

ARP requires that recipients' use of IHBG-ARP grants be tied to preventing, preparing for, and responding to COVID-19, including maintaining normal operations and funding eligible affordable housing activities under NAHASDA during the period the program is impacted by COVID-19.

To comply with this requirement, IHBG-ARP recipients must ensure that all activities being proposed can be tied to at least one of the following three eligible purposes:

1. Activities, Projects, or Programs to Prevent COVID-19
2. Activities, Projects, or Programs to Prepare for COVID-19
3. Activities, Projects, or Programs to Respond to COVID-19

And like IHBG-CARES funds, IHBG-ARP funds may also be used to maintain normal operations and fund eligible IHBG activities during the period that a recipient's IHBG program is impacted by COVID-19. This includes covering or reimbursing allowable costs incurred back to the date the Indian tribe began preparing for COVID-19, which may be prior to the date of enactment of the ARP, but in no event earlier than January 22, 2020.

The auditor should consider the following:

1. Prepare for: IHBG-ARP grant funds may be used prior to a local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to develop processes and procedures to help keep people healthy, and

other activities designed to reduce the risk of exposure to COVID-19 and avoid or slow the spread of the disease. Examples may include housing activities designed to reduce severe overcrowding, providing food delivery services to eligible families (including the elderly, disabled, and other high-risk populations) to allow them to shelter in place, and public health campaigns designed to educate families on how to prepare for a possible outbreak in the community and ways to minimize community spread.

2. **Prevent:** IHBG-ARP grant funds may be used during a COVID-19 local, service area, or regional coronavirus outbreak. This includes, but is not limited to, activities designed to prevent the initial or further spread of the virus to staff, Tribal housing residents, and the Tribal community. Examples may include distributing Personal Protective Equipment to housing maintenance staff, residents, and members of the community, using IHBG- ARP funds to clean common areas to prevent infections, using IHBG-ARP funds to facilitate the vaccination of IHBG-assisted residents and IHBG recipient staff, and much more.
3. **Respond to:** Once COVID-19 has spread to staff, Tribal housing residents, and/or the Tribal community, examples of how Indian tribes and TDHEs may choose to respond to COVID-19 may include using IHBG-ARP grant funds to care for those who have become infected and to limit the exposure and spread of the virus, provide rent assistance to eligible families that cannot pay rent, carrying out activities to reduce severe overcrowding, prevent homelessness to ensure families are stably housed, and much more. Funds may continue to be used after the local, service area, or regional coronavirus outbreak on any continuing expenses incurred due to the spread of COVID-19.

These descriptions are designed to provide general guidance to recipients and are not intended to limit the range of eligible IHBG-ARP grant activities that can be carried out. Provided a recipient can, in HUD's judgment, reasonably tie their IHBG-ARP activities back to one or more eligible purposes, HUD will accept the recipient's classification.

c. **Waivers and Alternative Requirements Applicable Only to IHBG-ARP Funding**

The following waivers and alternative requirements apply only to IHBG funding provided under the ARP. Indian tribes and TDHEs are reminded that these waivers and alternative requirements do not apply to IHBG funds appropriated in any other Act. In applying these waivers and alternative requirements, Indian tribes and TDHEs must ensure that they are doing so only with respect to IHBG-ARP grant.

(1) **Income Verification**

Regulatory Authority: 24 CFR section 1000.128

Description: 24 CFR section 1000.128 requires IHBG recipients to verify that a family is income eligible. Families are required to provide documentation to verify this determination, and a recipient is required to maintain that documentation. Families may be required by the IHBG recipient to periodically verify income after initial occupancy, and the recipient is required to maintain documentation.

Given the COVID-19 related challenges facing families seeking IHBG assistance, families currently receiving IHBG assistance that are due for income recertification, and Tribal and TDHE staff charged with verifying income and maintaining documentation, HUD is establishing the following alternative requirement under 24 CFR section 1000.128:

- (a) IHBG-ARP recipients may deviate from their current written admissions and occupancy policies, and may allow less frequent income recertifications; and
- (b) IHBG-ARP recipients may carry out intake and other tasks necessary to verify income of applicants and residents remotely if the IHBG recipient or eligible families chooses to do so, including allowing income self-certification over the phone (with a written record by the IHBG recipient's staff), or through an email with a self-certification form signed by a family.

(2) **Public Health Services**

Statutory Authority: Section 202(3) of NAHASDA

Description: Section 202(3) of NAHASDA authorizes the use of IHBG funds for the provision of housing-related services for affordable housing. Under this eligible activity, IHBG funds can be used to provide services such as housing counseling, activities related to the provision of self-sufficiency and other services related to assisting owners, tenants, contractors, and other entities, participating, or seeking to participate in the IHBG program.

HUD is waiving Section 202(3) and establishing an alternative requirement to the extent necessary to allow IHBG funds to be used to carry out a wide range of public health services under this category of eligible activities. Accordingly, in addition to the housing services normally eligible under Section 202(3), IHBG funds may be used on a wide range of public health activities designed to allow IHBG-eligible residents and staff of the IHBG recipient to prepare for, prevent, and respond to COVID-19.

Eligible uses of IHBG funds under this waiver and alternative requirement include, but are not limited to: providing testing, diagnosis, vaccination or other related services to residents; establishing a fixed or mobile location to conduct testing, vaccination and treatment; paying for necessary equipment, supplies, and materials, including personal protective equipment; carrying out public health services designed to help staff, eligible residents, and other third-party providers serving eligible residents, prepare for, prevent, and respond to COVID-19; delivering meals on wheels or other food delivery services to eligible residents that are sheltered-in-place and complying with a stay at home order, or otherwise maintaining recommended social distancing.

With respect to vaccinations, eligible uses of IHBG funds under this waiver and alternative requirement include, but are not limited to, the following:

- paying the transportation costs to get IHBG-assisted families and staff of the recipient to and from a vaccination site;
- coordinating with health clinics to provide on-site vaccinations either at a Tribal or TDHE owned or operated location or at a mutually agreed upon location;
- paying the costs of providing public health information to staff and residents so they can learn about the benefits of getting vaccinated and how to get vaccinated; and
- supporting IHBG-assisted families and staff with online registration for vaccination appointments and keeping them informed as vaccination efforts continue.

HUD strongly encourages IHBG grantees to coordinate with recipients of other Federal sources of funding for this purpose, including funding provided by the Indian Health Service, to ensure IHBG funds are used to supplement rather than supplant such funding.

(3) **COVID-19-Related Assistance to Non-Low Income and Non-Native Families**

Statutory Authority: Section 201(b) of NAHASDA

Regulatory Authority: 24 CFR sections 1000.104, 1000.106, 1000.108, 1000.110, 1000.312, 1000.314, 1000.318

Description: Section 201(b) of NAHASDA and its implementation regulations, except for specified exceptions, limit assistance under eligible housing activities to low-income Indian families.

The COVID-19 pandemic poses a unique threat to the health and safety of Tribal communities. Persons infected with the virus, regardless of income or tribal membership, pose a health risk to the entire community, and low-income families are especially vulnerable given the severe overcrowding in Indian Country, infrastructure challenges, and the lack of access to running water and readily available health care services in many remote communities. To effectively prevent, prepare for, and respond to COVID-19, IHBG recipients may find the need to use IHBG resources or NAHASDA-assisted housing units to provide shelter-in-place housing and public health services to otherwise ineligible persons and families, with the goal of protecting the health and safety of the most vulnerable low-income Native American families who may be infected.

Given this, HUD is waiving Section 201(b) and its implementing regulations, and establishing alternative requirements to the extent necessary to allow IHBG funds to be used by recipients to prevent, prepare for, and respond to COVID-19 through the following limited activities that provide assistance to all affected and threatened people without regard to income limits or Indian status: temporary shelter-in-place, isolation centers, purchasing and making medical testing kits available, purchasing and distributing masks and other personal protection equipment, emergency food preparation and distribution, cleaning and decontamination, and other directly related activities. Permanent rental assistance, mortgage assistance, housing rehabilitation, and new housing construction may not be provided for the benefit of such otherwise ineligible families under this waiver and alternative requirement.

This assistance may only be provided to such otherwise ineligible families if: it is provided during the COVID-19 pandemic; if it is designed to protect the health and safety of low-income Native American families; if it is provided on an urgent basis (as documented by the IHBG recipient); and if it is temporary in nature. When providing this assistance, IHBG recipients must maintain records documenting that these criteria were met at the time that such assistance was provided.

Under this waiver and alternative requirement, IHBG recipients may house low-income non-Indian families or over-income Indian and non-Indian families in NAHASDA-assisted units, including FCAS units, to shelter-in-place those families per CDC guidelines to protect low-income Indian families and the Tribal community from the further spread of COVID-19, regardless of income or Indian status. IHBG funds may also be used to provide temporary rental assistance to otherwise ineligible persons or families in privately owned units, hotels/motels, and similar facilities designed to shelter-in-place or isolate infected persons from others, if the criteria under this waiver and alternative requirements are met. The use of NAHASDA-assisted units, including FCAS, or funds for the temporary shelter-in-place or isolation of any individuals shall be temporary and no individual shall be isolated longer than medically necessary.

The 24 CFR sections 1000.312 and 1000.314 identify FCAS units as low rent, Mutual Help, and Turnkey III housing units owned and operated by an IHBG recipient. 24 CFR section 1000.318 establishes when these units can be considered FCAS for purposes of the IHBG formula. These regulations are also waived and modified to the extent necessary to not impact the FCAS eligibility of FCAS units used for this purpose of addressing COVID-19 regardless of income or Indian status, provided such units are operated as low-income housing dwelling units once no longer needed to shelter-in-place persons, and upon a determination that such units are safe to be occupied again by low-income families not infected with COVID-19.

Assistance provided in accordance with this waiver shall not count towards the maximum amount of assistance that IHBG recipients may otherwise provide to non-low-income families specified in 24 CFR section 1000.110.

(4) **Useful Life**

Statutory Authority: Section 205 of NAHASDA

Regulatory Authority: 24 CFR sections 1000.141, 1000.142, 1000.143, 1000.144, 1000.146, 1000.147

Description: Section 205(a)(2) of NAHASDA requires each dwelling unit in a recipient's housing developed or assisted under the Act will remain affordable, according to binding commitments satisfactory to HUD, for the remaining useful life of the property. The IHBG regulations require each recipient to describe, in its IHP, its determination of the useful life of the assisted housing units in its developments in accordance with the local conditions of the Indian area of the recipient. By approving the IHP, HUD determines the useful life in accordance with Section 205(a)(2).

HUD is waiving these requirements to determine and maintain affordability during the useful life of housing units assisted with IHBG-ARP grant funding used to address COVID-19 if that assistance is related to cleanup of COVID-19 contamination and temporary use dwelling units for purposes of housing and quarantining families to inhibit the spread of COVID-19 to low-income Indian families and the Tribal community.

Under this waiver, IHBG recipients are not required to establish an affordability determination or useful life period for assistance related to cleanup of COVID-19 contamination or temporary use of dwellings units used to quarantine families to inhibit the spread of COVID-19.

This waiver only applies during the period that a unit is being temporarily used to prevent, prepare for, or respond to COVID-19. Useful life restrictions are required for other housing activities conducted with IHBG-ARP funding. For example, if a unit is acquired for the purpose of quarantining families, no useful life restriction will apply to the unit during this temporary period when the unit is being used for COVID-19-related purposes. However, after the unit is no longer needed to temporarily quarantine families and is no longer needed for other COVID-19 purposes, the recipient must either place useful life restrictions on the property and continue to make it available for NAHASDA-eligible families for an affordability period set by the recipient consistent with its IHBG program or dispose of the unit.

(5) **Total Development Cost Limits**

Regulatory Authority: 24 CFR sections 1000.156, 1000.158, 1000.160, 1000.162

Description: The IHBG regulations require that affordable housing under NAHASDA be of moderate design with a size and with amenities consistent with unassisted housing offered for sale in the Indian tribe's general geographic area to buyers who are at or below the area median income. To achieve this requirement the recipient must either, adopt written standards for its affordable housing programs that reflect the requirement specified, or use TDC limits published periodically by HUD that establish the maximum amount of funds (from all sources) that the recipient may use to develop or acquire/rehabilitate affordable housing. The limits provided by the TDC may not, without prior HUD approval, exceed by more than 10 percent the TDC maximum cost for the project. Non-dwelling structures used to support an affordable housing activity must be of a design, size and with features or amenities that are reasonable and necessary to accomplish the purpose intended by the structures.

HUD expects that COVID-19 will likely have both a short- and long-term impact on IHBG recipients' programs. Because of the long-term need to prevent, prepare for, and respond to COVID-19, IHBG recipients may find it appropriate to use IHBG-ARP grant funds to acquire or construct new housing units with the goal of reducing severe overcrowding in Indian Country that leave Native American populations, particularly the elderly and persons with disabilities, especially vulnerable to COVID-19. Accordingly, HUD is establishing an alternative requirement relating to limitations on cost or design standards and TDC with respect to dwelling and non-dwelling units developed, acquired, or assisted with funding provided to be used by recipients to prevent, prepare for, and respond to COVID-19. An IHBG recipient may exceed the current TDC maximum by 20 percent without HUD review or approval if the purpose of the development, acquisition or assistance is to prevent, prepare for, and respond to COVID-19. The recipient, however, must maintain documentation that indicates the dwelling and non-dwelling units developed, acquired, or assisted with this funding will, after this crisis, be for IHBG eligible families and the design, size, and amenities are moderate and comparable to housing in the area. The TDC limits can be exceeded by more than 20 percent if the recipient receives written approval from HUD Headquarters. This waiver applies to both single-family and multi-family housing, as well as non-dwelling structures supporting an activity to prevent, prepare for, and respond to COVID-19.

Originally, this waiver and alternative requirement was to be available only so long as the Total Development Costs specified in [PIH Notice 2019-19](#) remain in effect. [PIH Notice 2019-19](#) has been superseded by [PIH Notice 2022-16](#), which provided an updated schedule for the maximum amount of funds that may be used for affordable housing under NAHASDA. However, [PIH Notice 2022-16](#) preserves previously provided regulatory relief with respect to TDC limits for the IHBG-CARES and IHBG-ARP programs. Therefore, Indian Tribes and TDHEs

carrying out their IHBG-CARES grants; FY 2020 IHBG formula grants to prevent, prepare for, and respond to coronavirus; and IHBG-ARP grants are authorized to use the higher of the new FY 2022 TDC limit issued pursuant to this [PIH Notice 2022-16](#), or up to 20 percent of the TDC limit that was previously issued in PIH 2019-19, without prior HUD approval. This waiver will remain in effect until all such funds are expended.

(6) **Prohibition Against Investment of ARP Grant Funds**

Statutory Authority: Section 204(b) of NAHASDA

Regulatory Authority: 24 CFR section 1000.58

Description: Section 204(b) of NAHASDA permits IHBG recipients to invest grant amounts for the purposes of carrying out affordable housing activities in investment securities and other obligations as approved by HUD. Under 24 CFR section 1000.58 of the IHBG regulations, HUD has approved certain IHBG recipients based, among other things, on a history of compliance and capacity, to invest IHBG funding certain securities and interest-bearing accounts for the purpose of carrying out affordable housing activities.

HUD is waiving Section 204(b) of NAHASDA and 24 CFR section 1000.58 and prohibiting the investment of any IHBG funding provided under the ARP. Such funding is to be used by recipients to prevent, prepare for, and respond to COVID-19, including to maintain normal operations and fund eligible affordable housing activities under NAHASDA during the period that each recipient's program is impacted by COVID-19. Given the limited scope of this funding to address the immediate health, safety, and economic needs of citizens in Indian Country, drawing down funds for investment in securities and long-term interest-bearing accounts is prohibited.

(7) **IHBG-ARP Funds Not Counted in Undisbursed Funds Factor**

Regulatory Authority: 24 CFR section 1000.342

Description: The 24 CFR section 1000.342 codifies the Undisbursed Funds Factor (UDFF) in the IHBG formula. It provides that if an Indian tribe's initial IHBG allocation calculation is \$5 million or more and the Indian tribe has undisbursed IHBG funds on October 1 of the fiscal year for which the allocation is made in an amount that is greater than the sum of the prior three years' initial allocation calculations, its grant allocation will be the greater of the initial allocation calculation minus the amount of undisbursed IHBG funds that exceed the sum of the prior three years' initial allocation calculations, or its 1996 Minimum.

HUD is waiving 24 CFR section 1000.342 and establishing an alternative requirement to the extent necessary to exclude IHBG-ARP funds from counting towards an Indian tribe's undisbursed IHBG funds from prior years under the UDFP. IHBG-ARP funds are available for a specific purpose under the ARP and were allocated by HUD to allow Indian tribes and TDHEs to prevent, prepare for, and respond to COVID-19. If this funding were counted against an Indian tribe and resulted in it receiving less IHBG formula funding under the next IHBG formula allocation, such a reduction in future funding would undermine the purposes of the IHBG-ARP funds and have an adverse impact on Indian tribes working to respond to the current National Emergency.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**ASSISTANCE LISTING 14.871 SECTION 8 HOUSING CHOICE VOUCHERS****ASSISTANCE LISTING 14.879 MAINSTREAM VOUCHER PROGRAM (MV)****I. PROGRAM OBJECTIVES**

The Housing Choice Voucher Program (HCVP) provides rental assistance to help very low-income families afford decent, safe, and sanitary rental housing. The Mainstream Voucher program (MV) enables families for whom the head, spouse, or co-head is a person with disabilities to lease affordable private housing of their choice.

II. PROGRAM PROCEDURES**A. Overview**

The HCVP is administered by local public housing agencies (PHAs) authorized under state law to operate housing programs within an area or jurisdiction. The PHA accepts a family's application for rental assistance, selects the applicant family for admission, and issues the selected family a voucher confirming the family's eligibility for assistance. The family must then find and lease a dwelling unit suitable to the family's needs and desires in the private rental market. The PHA pays the owner a portion of the rent (a housing assistance payment [HAP]) on behalf of the family.

The subsidy provided by the HCVP is considered a tenant-based subsidy because when an assisted family moves out of a unit leased under the program, the assistance contract with the owner terminates and the family may move to another unit with continued rental assistance.

The Department of Housing and Urban Development (HUD) enters into Annual Contributions Contracts (ACCs) with PHAs under which HUD provides funds to the PHAs to administer the programs locally. The PHAs enter into HAP contracts with private owners who lease their units to assisted families (24 CFR section 982.151).

In the HCVP, the PHA verifies a family's eligibility (including income eligibility) and then issues the family a voucher. The family has a minimum of 60 days to locate a rental unit where the landlord agrees to participate in the program (the PHA establishes the maximum number of days). The PHA determines whether the unit meets housing quality standards (HQS). If the PHA approves a family's unit and determines that the rent is reasonable, the PHA contracts with the owner to make HAPs on behalf of the family (24 CFR section 982.1(a)(2)).

The voucher subsidy is set based on the difference between the lower of the PHA's applicable payment standard for the family, the payment standard for the unit size rented, or the gross rent and the total tenant payment (generally 30 percent of the family's monthly adjusted income). This is the maximum amount of subsidy a family may receive regardless of the rent the owner charges for the unit (24 CFR Part 982, Subpart K). Under

the HCVP, apart from the requirement that the rent must be reasonable in relation to rents charged for comparable units in the private unassisted market, there generally is no limit on the amount of rent that an owner may charge for a unit. However, at initial occupancy of any unit where the gross rent exceeds the payment standard, a family may not pay more than 40 percent of adjusted monthly income toward rent and utilities (24 CFR section 982.508).

If the cost of utilities is not included in the rent to the owner, the PHA uses a schedule of utility allowances to determine the amount an assisted family needs to cover the cost of utilities. The PHA's utility allowance schedule is developed based on utility consumption and rate data for various unit sizes, structure types, and fuel types. The PHA is required to review its utility allowance schedules annually and to adjust them if necessary (24 CFR section 982.517).

The PHA must inspect units leased under the HCVP at the time of initial leasing and at least annually thereafter to ensure the units meet HQS. The PHA must also conduct supervisory quality control HQS inspections (24 CFR sections 982.305 and 982.405).

Under the homeownership option of the HCVP, a PHA may choose to provide assistance to a qualified first-time homebuyer to subsidize the family's monthly homeownership expenses. The homeownership option is operated by a PHA as a separate sub-program of the HCVP, which is subject to somewhat different rules (24 CFR sections 982.625 through 982.641).

PHAs must maintain complete and accurate accounts and other records for the program in accordance with HUD requirements. PHAs are required to maintain a HAP contract register or similar record in which to record the PHA's obligation for monthly HAPs. This record must provide information as to (1) the name and address of the family, (2) the name and address of the owner, (3) dwelling unit size, (4) the beginning date of the lease term, (5) the monthly rent payable to the owner, (6) monthly rent payable by the family to the owner, and (7) the monthly HAP (24 CFR section 982.158).

B. Subprograms/Program Elements

1. Veterans Affairs Supportive Housing

The 2008 Consolidated Appropriations Act (Pub. L. No. 110-161, 121 Stat. 2414-2415), enacted December 26, 2007, initiated funding for the HUD-Veterans Affairs Supportive Housing (HUD-VASH) voucher program, as authorized under Section 8(o)(19) of the US Housing Act of 1937 (42 USC 1437f(o)(19)). The VASH program is included in Assistance Listing 14.871. The HUD-VASH program combines HUD HCVP rental assistance for homeless veterans with case management and clinical services provided by the Department of Veterans Affairs at its medical centers and in the community. The HUD-VASH program is administered in accordance with regular HCVP requirements (24 CFR Part 982). However, Pub. L. No. 110-161 allows HUD to waive or specify alternative requirements for any provision of any statute or regulation that HUD administers

in connection with this program in order to effectively deliver and administer HUD-VASH voucher assistance.

The HUD-VASH operating requirements (including the waivers and alternative requirements from HCVP rules) were published in the *Federal Register* on March 23, 2012 (see Notice FR-5596-N-01, 77 FR 17086-17090, Implementation of the HUD-VA Supportive Housing Program). Notice PIH 2011-53 (HA) provides further guidance on the reporting and portability requirements of VASH and Notice PIH 2015-10 (HA) addresses how PHAs can use project-basing of HUD-VASH vouchers. All original VASH increments and renewals are funded under the “VO” program type (i.e., the Housing Choice Voucher (HCV) program housing assistance payment (HAP) funding code) and are included in the PHA’s monthly VO disbursements. Administrative fee-related revenues and expenses should be recorded under the HCVP as Assistance Listing 14.871 on the FDS. PHAs are required to submit family data using HUD-50058 in PIH Information Center (PIC), and HAP and leasing information using HUD-52681-B via the Voucher Management System (VMS). Also, PHAs have access to the Real Estate Assessment Center’s PHAs accounting briefs, which provide technical assistance in reporting their unaudited and audited financial statements through FASS, which are available at https://www.hud.gov/program_offices/public_indian_housing/reac/products/fass/pha_briefs.

2. *Family Unification Program*

Family Unification Program (FUP) vouchers are made available to families for whom the lack of adequate housing is a primary factor in the imminent placement of the family's child, or children, in out-of-home care; or the delay in the discharge of the child, or children, to the family from out-of-home care; and youth at least 18 years and not more than 24 years of age (have not reached their 25th birthday) who left foster care, or will leave foster care within 90 days, in accordance with a transition plan described in Section 475(5)(H) of the Social Security Act, and are homeless or are at risk of becoming homeless at age 16 or older. As required by statute, a FUP voucher issued to such a youth may only be used to provide housing assistance for the youth for a maximum of 36 months. FUP vouchers enable these families and youths to lease decent, safe, and sanitary housing that is affordable in the private-housing market. Funding for the FUP (Assistance Listing 14.880) has expired, but FUP vouchers still are being issued (renewed) to FUP-eligible families and FUP-eligible youth through voucher renewals under HCVP (Assistance Listing 14.871).

3. *Non-Elderly Disabled*

Various appropriations acts have provided separate funding for non-elderly disabled (NED) vouchers, which are administered in accordance with regular HCVP requirements (24 CFR Part 982) and are included in under Assistance Listing Number 14.871. Related revenues and expenses should be recorded under

the HCVP, 14.871 on the FDS. PHAs are also required to submit family data (HUD-50058) in PIC, and HAP and leasing information using HUD-52681-B via the VMS.

4. *Disaster Housing Assistance Program*

The Disaster Housing Assistance Program (DHAP) is a program designed by the Federal Emergency Management Agency (FEMA) and HUD to serve families displaced by catastrophic disaster. Through an Interagency Agreement (IAA) executed by both federal agencies, on FEMA's behalf, HUD has the authority to design, implement, and administer DHAP to provide temporary rental assistance to individuals displaced by disaster. The DHAP (Assistance Listing 97.109) was established to provide rental assistance, security and utility deposits, and case management services for families who were displaced by hurricanes Katrina, Rita, Gustav, and Ike (Assistance Listing 14.IKE). The DHAP has now been extended to assist eligible families displaced by Hurricane Sandy (DHAP-Sandy, HUD Assistance Listing 97.109) (with funds from DHS Assistance Listings 97.048; 97.049; and 97.050). The IAA between FEMA and HUD, applicable to DHAP Sandy, expired on December 31, 2014. The DHAP-Sandy funding is separate and distinct from the PHA's regular voucher program, in terms of the source and use of the funding. The PHA is required to maintain records that allow for the easy identification of families assisted under DHAP-Sandy and must report monthly leasing and expenditure for such families separately from housing choice voucher families under the VMS. The PHA must maintain a separate HAP register for DHAP-Sandy to record and control assistance payments for rent subsidies. The PHAs report DHAP-Sandy family information to HUD through the Disaster Information System (DIS). A PHA administering DHAP-Sandy does not complete a HUD-50058 or enter any information on a DHAP-Sandy family into the PIC system.

The underlying authority for DHAP-Sandy is the Department of Homeland Security's general grant authority under Section 102(b)(2) of the Homeland Security Act of 2002, 6 USC 112(b)(2), and sections 306(a), 408(b)(1), and 426 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 USC 5149(a), 5174(b)(1), and 5189d, respectively.

5. *Mainstream Voucher Program (Former Mainstream 5-Year Program)*

The Omnibus Appropriations Act of 2009, Pub. L. No. 111-8, authorized funding for the MV under Section 811(d)(2) of the Cranston-Gonzalez National Affordable Housing Act (42 USC 8013(d)(2)). PHAs authorized under state law to develop or operate housing assistance programs may apply for the program. In some instances, nonprofit agencies may also apply for housing vouchers. The MV provide housing assistance payments to participating owners on behalf of eligible tenants (i.e., families having the head, spouse, or co-head with disabilities). The MV is administered in accordance with regular HCV program requirements (24 CFR Part 982). However, for FASS-PH reporting, PHAs are to record rental

assistance activities under Assistance Listing 14.879. Administrative fee-related revenues and expenses should also be recorded, under Assistance Listing 14.879 in the FDS. PHAs are also required to submit family data (HUD-50058) in PIC, and HAP and leasing (only) information using HUD-52681, and HUD-52681-B via the VMS. MV leasing and HAP costs are not included in the VMS HCV program voucher leasing and HAP totals; they are only considered for renewal calculation purposes. Unlike the HCV program, administrative fees expenses under the MV are not reported in VMS (HUD-52681-B). Only HCV program administrative expenses are reported.

6. *Coronavirus Aid, Relief, and Economic Security Act (CARES Act)*

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. No. 116-136), (Assistance Listing 14.871) enacted on March 27, 2020, provided additional appropriations for HAP and administrative fee funding to prevent, prepare for, and respond to coronavirus (COVID-19). This included funding for PHAs to maintain normal operations and take other necessary actions during the period the program is impacted by COVID-19. The total supplemental appropriation for the HCV program is \$1.25 billion.

[PIH Notice 2020-17, CARES Act -HCV Program HAP Supplemental Funding](#), covers the requirements related to the supplemental HAP funding totaling \$400 million for the HCV program, including mainstream vouchers. The supplemental HAP funding was made available for PHAs that either (1) experience a significant increase in voucher per unit costs (PUC) due to extraordinary circumstances, or (2) despite taking reasonable cost saving measures, as determined by the secretary, would otherwise be required to terminate rental assistance for families as a result of insufficient funding (herein referred to as Shortfall Funds).

At the same time, PIH Notices 2020-08 and 2020-18 *CARES Act – HCV Program Administrative Fees First and Second Award*, respectively covered the supplemental administrative fee portion totaling \$850 million for the HCV program, including mainstream vouchers. This supplemental administrative fee funding was made available to PHAs to cover administrative expenses and other expenses related to COVID-19, which are the eligible activities initially defined by the secretary and clarified in PIH Notice 2020-08, in addition to new eligible activities described in this PIH Notice 2020-18. The latter contain a complete list of the additional eligible activities (both those activities defined in PIH Notice 2020-08 and the new activities) is provided in section 4 of PIH Notice 2020-18. PHAs were also instructed to request eligibility for COVID-19 related costs that were not explicitly included in the notice.

The CARES Act also authorized the secretary to use of administrative fees under Pub. L. No. 116-94 for COVID-19 related activities. In addition, the CARES Act authorized the secretary to waive, or specify alternative requirements for, any provision of any statute or regulation that the secretary administers in connection with the use of the amounts made available under this heading and the same

heading of Pub. L. No. 116–94 (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the secretary that any such waivers or alternative requirements are necessary for the safe and effective administration of these funds. And that any such waivers or alternative requirements shall remain in effect for the time and duration specified by the secretary in such public notice and may be extended, if necessary, upon additional notice by the secretary.

For CARES Act waivers and alternative requirements, HUD issued PIH Notice 2020-33: *COVID-19 Statutory Requirements and Regulatory Waivers and Alternative Requirements for the Public Housing, Housing Choice Voucher (including Mainstream and Mod Rehab), Indian Housing Block Grant and Indian Community Development Block Grant programs, Suspension of Public Housing Assessment System and Section Eight Management Assessment Program, Revision 2*

(https://www.hud.gov/sites/dfiles/PIH/documents/PIH%202020-33_rev%2012.14.pdf). This notice restates the waivers and alternative requirements included previously in Notice PIH 2020-13, carries forward information on previously specified HUD actions, adds new waivers and alternative requirements, and incorporates the waivers and alternative requirements for mainstream vouchers and the Mod Rehab program. In addition, this Notice extends the period of availability of certain waivers, such as those related to Income Verification and Annual Examinations, until June 30, 2021.

Additionally, the CARES Act authorized the secretary to award any remaining unobligated balances appropriated under this heading in prior Acts for incremental tenant-based assistance contracts under section 811 of the Cranston-Gonzalez National Affordable Housing Act (42 USC 8013). No less than 25 percent of such amounts was allocated proportionally to public housing agencies who received awards in the 2017 and 2019 competitions for such purposes.

Furthermore, HUD provided instructions on Financial Data Schedule (FDS) reporting of CARES Act funds in PIH Notice [PIH 2020-24](#) and [PIH 2021-08](#). The CARES Act period of performance closed on 12.31.2021, and HUD initiated closeout procedures in CY 2022 through PIH Notice 2022-21.

7. *Emergency Housing Voucher Program*

The American Rescue Plan Act of 2021 (the ARP) (Pub. L. No. 117-2) (Assistance Listing 14.871), enacted on March 11, 2021, provided relief to address the continued impact of the COVID-19 pandemic on the economy, public health, state and local governments, individuals, and businesses.

Section 3202 of the ARP provided appropriations for new incremental Emergency Housing Voucher (EHVs), the renewal of those EHVs, and fees for the cost of administering the EHVs and other eligible expenses defined by notice to prevent, prepare for, and respond to coronavirus to facilitate the leasing of the emergency

vouchers, such as security deposit assistance and other costs related to retention and support of participating owners.

Eligibility for these EHV is limited to individuals and families who are (1) homeless; (2) at risk of homelessness; (3) fleeing, or attempting to flee, domestic violence, dating violence, sexual assault, stalking or human trafficking; or (4) recently homeless and for whom providing rental assistance will prevent the family's homelessness or having high risk of housing instability. After September 30, 2023, a PHA may not reissue any previously leased EHV, regardless of when the assistance for the formerly assisted family ends or ended.

EHVs are tenant-based rental assistance under section 8(o) of the United States Housing Act of 1937 (42 USC 1437f(o)). The ARP further provides that HUD may waive any provision of the United States Housing Act of 1937 or regulation applicable to such statute used to administer the amounts made available under section 3202 (except for requirements related to fair housing, nondiscrimination, labor standards and the environment), upon a finding that any such waivers or alternative requirements are necessary to expedite or facilitate the use of amounts made available for the EHV. EHV waivers and alternate requirements are included in HUD issued PIH Notice 2021-15: Emergency Housing Vouchers – Operating Requirements.

HUD issued Notice PIH 2021-15 on May 5, 2021, in order to provide operating requirements to PHAs administering the EHV program. On May 10, 2021, HUD notified PHAs of their EHV funding eligibility based on the allocation formula outlined in Notice PIH 2021-15. PHAs had until May 24, 2021, to accept or decline their EHV allocation and any remaining vouchers were reallocated by HUD per the process described in Notice PIH 2021-15. Final allocations were made on June 2, 2021.

On June 30, 2021, HUD issued Notice PIH 2021-20, which revised the reporting guidance in Notice PIH 2021-15, the Emergency Housing Vouchers – Operating Requirements Notice, and set forth new requirements for Public Housing Agencies (PHAs) to report EHV household data into HUD's existing Information Management System/Public Housing Information Center (IMS/PIC) system.

On July 20, 2021, HUD issued Notice PIH 2021-23, implementing \$200,000,000 in HAP budget authority the ARP made available for funding adjustments from the total \$5B appropriation. PHAs administering the HCV Program and Mainstream Vouchers applied for these funds under the Extraordinary Circumstance category. PIH also processed applications submitted under the HAP Set-aside Unforeseen Circumstance category for per unit cost increases, which was treated as a subset of the Extraordinary Circumstance category. Finally, HUD also prioritized the ARP funds for shortfall prevention in CY 2021.

On August 20, 2021, HUD issued Notice PIH 2021-25, which revised the reporting guidance in Notice PIH 2021-20 and Notice PIH 2021-15 and set forth the reporting requirements for PHAs to report EHV data into the Voucher Management System (VMS) and the Financial Data Schedule (FDS).

C. Other

The Section 8 Management Assessment Program (SEMAP) is HUD's assessment program to measure the performance of PHAs that administer the HCV program. Under SEMAP, PHAs submit an annual or biennial (depending on the size and previous SEMAP scores), certification, Form HUD-52648 (*OMB No. 2577-0215*), to HUD concerning their compliance with program requirements under 14 indicators of performance (24 CFR Part 985).

In the HCV program, required program contracts and other forms must be word-for-word in the form prescribed by HUD headquarters. Any additions to or modifications of required program contracts or other forms must be approved by HUD headquarters (24 CFR section 982.162). In addition, housing agencies that are contract administrators for this program must comply with the HUD Uniform Financial Reporting Standards rule. Accordingly, PHAs that administer Section 8 tenant-based housing assistance payment programs are required to submit financial statements, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. The unaudited financial statement is due two months after the PHA's fiscal year end and the audited financial statement is due nine months after its fiscal year end (24 CFR section 5.801). The financial statement must include the financial activities of this program.

HUD uses HUD-52681-B via the VMS to monitor the PHA's HCVP financial and operational performance. In 2021, HUD published Notice PIH 2021-08, which clarified the financial reporting requirements and deadlines for those PHAs that administer the HCV program and HCV program-related programs.

Source of Governing Requirements

The HCV program regulations are found in 24 CFR parts 5, 982, 983, and 985.

Availability of Other Program Information

Copies of PIH notices can be found at http://portal.hud.gov/hudportal/HUD?src=/program_offices/administration/hudclips/notices/pih.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	N	N	N	Y	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed – HCV Program and Mainstream Vouchers*

a. PHAs may use HCVP and MV funds only for HAPs to participating owners, and for associated administrative fees (24 CFR sections 982.151 and 982.152). In addition, see expanded authority in the use of administrative fees under PIH Notice 2022-18 Use of Housing Choice Voucher (HCV) and Mainstream Voucher Administrative Fees for Other Expenses to Assist Families to Lease Units.

- (1) Accumulated administrative fees prior to fiscal year 2004, may be used for any housing-related purpose. Unspent administrative fees accumulated post fiscal year 2003 (i.e., fees from fiscal year 2004 and later funding, see III.L.1.e.(4)(a), “Financial Reporting – Financial Reports”) may be used only to support the HCVP. These funds still are considered to be administrative fee reserves and are subject to all of the requirements applicable to administrative fee reserves including, but not limited to, those in 24 CFR section

982.155. The fees accumulated from fiscal year 2004 and later funding must be used for activities related to the provision of tenant-based rental assistance authorized under Section 8 of the United States Housing Act of 1937, including related development activities. PHAs must maintain and report balances for both funding sources (see notice [PIH 2015-17](#) (HA) dated October 6, 2015) (Division I, Title II, Section (5) of Consolidated Appropriations Act, 2005, Pub. L. No. 108-447, 118 Stat. 3296, and subsequent appropriations acts; see Section 5 of Notice PIH 2005-01; 24 CFR section 982.155).

- (2) CY HAP funding must be used for CY HAP and later HAP expenses. PHA's HAP equity balance also known as restricted net position (RNP) provides the balance of the unspent HAP at any given point in time. A negative HAP equity balance at the calendar year end indicates that the PHA may be facing a shortfall, and auditors must be alert that the PHAs cannot use the following year HAP budget authority to cover this shortfall (i.e., cover last year's HAP expense) (2005 Appropriations Act each subsequent appropriations act; see Section 15 of Notice PIH 2015-03).
- b. PHAs are allowed to recover their indirect costs related to the HCVP through the use of a fee-for-service model in lieu of a cost allocation plan. In order for a PHA to use a fee-for-service model, the PHA must create a central office cost center (COCC) (24 CFR section 990.280(d)). (Also see Section 7.8 of Handbook 7475.1 and Section 2 of Notice PIH 2008-17.) HUD has established the following as the types of fees the COCC can charge for the HCVP:
 - (1) HCVP management fee, and
 - (2) Bookkeeping fee.
2. *Activities Allowed – Cares Act Funding*

PIH Notice 2020-17, *CARES Act -HCV Program HAP Supplemental Funding*, covers the requirements related to the supplemental HAP funding totaling \$400 million for the HCV program, including MV. The supplemental HAP funding was made available for PHAs that either (1) experience a significant increase in voucher per unit costs (PUC) due to extraordinary circumstances, or (2) despite taking reasonable cost saving measures, as determined by the secretary, would otherwise be required to terminate rental assistance for families as a result of insufficient funding (herein referred to as Shortfall Funds). CARES Act HAP funding may only be used for current year eligible HAP expenses. HAP funding cannot be used for the repayment of debts or any amounts owed to HUD by HUD program participants including, but not limited to, OIG, Quality Assurance

Division (QAD), or other monitoring review findings. HAP also cannot be used for Administrative Fee purposes. Furthermore, CARES Act HAP funds may not roll into RNP and must be tracked and accounted for separately throughout the period of availability.

PIH notices 2020-08 and 2020-18 *CARES Act – HCV Program Administrative Fees First and Second Award*, respectively, cover requirements related to the supplemental administrative fee funding totaling \$850 million for the HCV program, including MV. This supplemental administrative fee funding was made available to PHAs to cover administrative expenses and other expenses related to COVID-19. Section 4 of PIH Notice 2020-18 contains a complete list of additional eligible activities for COVID-19 funds. PHAs were also instructed to request eligibility for COVID-19 related costs that were not explicitly included in the notice.

2. *Activities Allowed – Emergency Housing Vouchers Program Funding*

Section 3202 of the ARP provided appropriations for new incremental EHV, the renewal of those EHV, and fees for the cost of administering the EHV and other eligible expenses defined by notice to prevent, prepare for, and respond to coronavirus to facilitate the leasing of the emergency vouchers, such as security deposit assistance and other costs related to retention and support of participating owners.

Eligibility for these EHV is limited to individuals and families who are (1) homeless; (2) at risk of homelessness; (3) fleeing, or attempting to flee, domestic violence, dating violence, sexual assault, stalking or human trafficking; or (4) recently homeless and for whom providing rental assistance will prevent the family's homelessness or having high risk of housing instability. After September 30, 2023, a PHA may not reissue the any previously leased EHV, regardless of when the assistance for the formerly assisted family ends or ended.

EHV are tenant-based rental assistance under section 8(o) of the United States Housing Act of 1937 (42 USC 1437f(o)). The ARP further provides that HUD may waive any provision of the United States Housing Act of 1937 or regulation applicable to such statute used to administer the amounts made available under section 3202 (except for requirements related to fair housing, nondiscrimination, labor standards and the environment), upon a finding that any such waivers or alternative requirements are necessary to expedite or facilitate the use of amounts made available for the EHV. EHV waivers and alternate requirements are included in HUD issued PIH Notice 2021-15, *Emergency Housing Vouchers – Operating Requirements*.

Notice PIH 2021-15 provided operating requirements to PHAs administering the EHV program. Notice PIH 2021-20 revised the reporting guidance in Notice PIH 2021-15 and set forth new requirements for PHAs to report Emergency Housing Voucher (EHV) household data into HUD's existing IMS/PIC system.

Notice PIH 2021-25, *Emergency Housing Vouchers – Voucher Management System and Financial Data Schedule Reporting Requirements Notice* revised the reporting guidance in Notice PIH 2021-20, *Emergency Housing Vouchers – Household Reporting Requirements Notice* and Notice PIH 2021-15 and set forth the reporting requirements for PHAs to report EHV data into the VMS and FDS.

Notice PIH 2021-23 – The ARP made available \$200,000,000 for HAP adjustments for (1) HCV Program and Mainstream Vouchers' 2021 renewal funding due to PUC increases under the Extraordinary Circumstance category, and (2) for HAP adjustments related to Shortfall Prevention. The period of performance will be extended until December 31, 2023.

3. *Activities Allowed – MTW Program*

The MTW program (Assistance Listing 14.881) allows selected PHAs the flexibility to design and test various approaches to providing and administering housing assistance consistent with the MTW Agreement executed by the PHA and HUD and under the MTW Operations Notice. An MTW agency may apply funding fungibility from the following three programs:

- Section 8 Housing Choice Vouchers (Assistance Listing 14.871)
- Public Housing Capital Fund (Assistance Listing 14.872)
- Public and Indian Housing (Assistance Listing 14.850)

Depending on if a PHA is operating under an MTW Agreement or the MTW Operations Notice, the auditor can look to the MTW Agreement or the MTW Operations Notice, as applicable, to determine which funds are included. Even though the Mainstream Vouchers program (Assistance Listing 14.879) follows HCVP procedures, that program is excluded from the MTW program. Other Special Purpose Vouchers such as HUD VASH, Non Elderly Disabled vouchers and Family Unification Program vouchers are also excluded from the MTW program, meaning funds can only be used for the intended purposes. If HCVP funds are transferred out of HCVP, pursuant to an MTW Agreement or the MTW Operations Notice, they are subject to the requirements of the MTW Agreement or the MTW Operations Notice and should not be included in the audit universe and total expenditures for HCVP when determining Type A programs. On the

Schedule of Expenditures of Federal Awards, the amounts transferred out should not be shown as HCVP expenditures but should be shown as expenditures for the MTW Demonstration program. Also, if other program funds are transferred into the HCVP account, pursuant to an MTW Agreement or the MTW Operations Notice, all of the HCVP funds would then be considered MTW funds.

If the MTW agency does not transfer all the funds from the HCVP into the MTW account or another of the authorized programs, those funds would be considered, and audited, under the HCVP.

PHAs may obtain proceeds from dispositions of public housing real property under Sections 18 and 22 of the 1937 Act (Assistance Listing Number 14.850). PHAs may use net proceeds, if approved by HUD, for the provision of low-income housing, which includes certain Section 8 HCVP uses. If a PHA receives HUD approval to use proceeds for certain HCVP purposes, those funds would be considered, and audited, under the HCVP.

4. *Activities Unallowed – HCV, Mainstream*

- a. HAP funding can only be used to support the payment of HAP expenses.
- b. With the exception of Moving to Work Housing Authorities, Transfers of HAP, and associated administrative fees, even temporarily, to support another program (such as the Low-Rent program or Local Housing programs) or use are not allowed and could be considered a breach of the ACC (see III.L.1.e.(3), “Reporting--Financial Reporting--FDS Transfer Line Items”). Such use may result in civil penalties or sanctions (24 CFR section 985.109).
- c. The 2005 Appropriations Act and subsequent appropriations acts prohibit the use of appropriated funds by any PHA for “over-leasing.” Over-leasing occurs when a PHA has more unit months under a HAP contract for the CY than are available under its ACC baseline, even if the PHA has sufficient Budget Authority to support the additional unit months. Over-leasing is measured on a CY basis. If a PHA engages in over-leasing, it must identify other non-HAP sources to pay for the over-leasing. In addition, the 2008 Appropriations Act and subsequent appropriations acts require that administrative fees be based on actual leasing as of the first day of the month (Division I, Title II, Section (5) of Consolidated Appropriations Act, 2005, Pub. L. No. 108-447, 118 Stat. 3295; Division K, Title II, Section (1) of Consolidated Appropriations Act, 2008, Pub. L. No. 110-161, 121 Stat. 2413; see Section 7 of Notice PIH 2005-01 and Section 17 of Notice PIH 2015-03). PHAs

submit lease information via VMS. (See also III.L.1.d (1), “Reporting--Financial Reporting--Unit Months Leased.”)

B. Allowable Costs/Cost Principles

The amount of salary, including bonuses, of PHA chief executive officers, other officers, and employees paid with Section 8 HCV administrative fees and Section 9 Capital and Operating funds may not exceed the annual rate of basic pay payable for a federal position at Level IV of the [Executive Schedule](#) (currently 2023 \$183,500) (Section 227 of Pub. L. No. 113-235, 128 Stat. 2756, December 16, 2014, and carried forward in each subsequent appropriations act). Implementing guidance has been issued in PIH Notice 2016-14, “Guidance on Public Housing Agency (PHA) salary restrictions in HUD’s annual appropriations” (https://www.hud.gov/program_offices/public_indian_housing/publications/notices).

E. Eligibility

1. Eligibility for Individuals

- a. Most PHAs devise their own application forms that are filled out by the PHA staff during an interview with the tenant. The head of the household signs (a) one or more release forms to allow the PHA to obtain information from third parties; (b) a federally prescribed general release form for employment information; and (c) a privacy notice. Under some circumstances, other members of the family are required to sign these forms (24 CFR sections 5.212 and 5.230).
- b. The PHA must do the following:
 - (1) As a condition of admission or continued occupancy, require the tenant and other family members to provide necessary information, documentation, and releases for the PHA to verify income eligibility (24 CFR sections 5.230, 5.609, and 982.516).
 - (2) For both family income examinations and reexaminations, obtain and document in the family file third party verification of (1) reported family annual income; (2) the value of assets; (3) expenses related to deductions from annual income; and (4) other factors that affect the determination of adjusted income or income-based rent (24 CFR section 982.516).
 - (3) Determine income eligibility and calculate the tenant’s rent payment using the documentation from third party verification in accordance with 24 CFR Part 5 Subpart F (24 CFR section 5.601 et seq.) (24 CFR sections 982.201, 982.515, and 982.516).

- (4) Select tenants from the HCVP waiting list (see III.N.1, “Special Tests and Provisions – Selection from the Waiting List”) (24 CFR sections 982.202 through 982.207).
- (5) Reexamine family income and composition at least once every 12 months and adjust the tenant rent and housing assistance payment as necessary using the documentation from third party verification (24 CFR section 982.516).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable for HCV Program, Mainstream Vouchers or EHV Program. However, the SF-425 was used for the CARES Act closeout under 2 CFR 200.344. PIH Notice 2022-21 required PHAs to submit SF-425s to HUD for the CARES Act closeout for HCV Program, Mainstream Vouchers and Moderate Rehabilitation Program. PHAs were required to report total expenditures and unliquidated obligations on SF-425 under each program.
- d. HUD-52681-B, *Voucher for Payment of Annual Contributions and Operating Statement (OMB No. 2577-0169)*. The PHA submits this form monthly to HUD electronically via the VMS. Congress has instructed HUD to use VMS data to determine renewal funding levels. HUD also uses VMS data for other funding, monitoring, and SEMAP-related decisions. HUD relies on the audit of the key line items below to determine the reasonableness of the data submitted for the purposes of calculating funding under the program.

Key Line Items – The following categories contain critical information:

1. *Unit Months Leased*
2. *HAP Expenses*

3. *All Specific Disaster Voucher Programs*

- e. *Financial Reports (OMB No. 2535-0107)* – Financial Assessment Subsystem, FASS-PH. The Uniform Financial Reporting Standards (24 CFR section 5.801) require PHAs to submit timely GAAP-based unaudited and audited financial information electronically to HUD. The FASS-PH system is one of HUD’s main monitoring and oversight systems for the HCVP.

Key Line Items – The following line items contain critical information:

1. Line Items: The accuracy of these revenue items should be reviewed in conjunction with the participant’s annual budget authority, payment schedules, and other reports.
 - (a) FDS Line 70600-010 – (Housing Assistance Payments)
 - (b) FDS Line 70600-020 – (Ongoing Administrative Fees Earned)
 - (c) FDS Line 71100 – (Investment Income – Unrestricted)
 - (d) FDS Line 72000 – (Investment Income – Restricted)
2. FDS Expenditure Line Items: The accuracy of these expenditure items should be reviewed in conjunction with Chapter 7 of the Supplement to HUD Handbook 7475.1, revised April 2007, which provides HUD guidance on maximum fees allowed and associated fee expenses.
 - (a) FDS Line 91300 – (Management Fee)
 - (b) FDS Line 91310 – (Book-Keeping Fee)
 - (c) FDS Line 96900 – (Total Operating Expenses)
 - (d) FDS Line 97300 – (Housing Assistance Payments)
3. FDS Transfer Line Items: The accuracy of these transfer items should be reviewed in conjunction with supporting documentation and/or HUD approvals. For FDS reporting, cash and investments in a cash pool or working capital account should be reported as such and not reflected as due to/due from. Amounts reported on these FDS Lines could represent unallowable costs (see III.A.1.c, “Activities Allowed or Unallowed”).
 - (a) FDS Line 144 – (Inter Program – Due From)

- (b) FDS Line 10020 – (Operating Transfer Out)
 - (c) FDS Line 10030 – (Operating Transfers From/To Primary Government)
 - (d) FDS Line 10040 – (Operating Transfer From/To Component Unit)
 - (e) FDS Line 11040 – (Prior Period Adjustments, Equity Transfers, and Correction of Errors)
4. FDS Equity Line Items:
- (a) FDS Line 11170 – (Administrative Fee Equity)

This line represents the administrative fee equity for the Section 8 HCVP only. Amounts reported in this line should not be commingled with other voucher-related activities. It is equal to the beginning administrative fee equity balance plus the total administrative fee revenue minus total administrative expense.
 - (b) FDS Line 11180 – (Housing Assistance Payments Equity)

This line represents the HAP equity for the HCVP only. Amounts reported in this line should not be commingled with other voucher-related activities as outlined in PIH-Notice 2012-21. It is equal to the beginning HAP equity plus total HAP revenues minus total HAP expenses. Current CY appropriated HAP funding cannot be used to fund prior CY HAP deficits.
 - (c) Recent Office of Inspector General (OIG) reports have noted deficiencies in the reporting of equity balances. Material deficiencies by the entity may require reconciling of prior-year data to establish valid equity balances.

2. Performance Reporting

- a. HUD-52648, *SEMAP Certification – Addendum for Reporting Data for Deconcentration Bonus Indicator* ([OMB No. 2577-0215](#)) – PHAs with jurisdiction in metropolitan Fair Market Rent areas have the option of submitting data to HUD with their annual SEMAP certifications on the percent of their tenant-based Section 8 families with children who live in and who have moved during the PHA fiscal year to low poverty census tracts in the PHA’s principal operating area. Submission of this information with the SEMAP certification makes the PHA eligible for bonus points under SEMAP (24 CFR section 985.3(h)).

The auditor will review this information only if the PHA chooses to report on this bonus indicator. The auditor will request the PHA to provide a description of how they pulled the data and the auditor will confirm that it properly represents the required information listed below under *Key Line Items*.

Key Line Items – The following report line items contain critical information and should be tested against the PHA’s system of record or a print out from HUD’s systems and matched with poverty data:

1. Line 1a – Number of Section 8 families with children assisted by the HA in its principal operating area at the end of the last PHA fiscal year (FY) who live in low poverty census tracts.
2. Line 1b – Total Section 8 families with children assisted by the PHA in its principal operating area at the end of the last PHA FY
3. Line 1c – Percent of all Section 8 families with children residing in low poverty census tracts in the PHA’s principal operating area at the end of the last PHA FY
4. Line 2a – Percent of all Section 8 families with children residing in low poverty census tracts at the end of the last completed PHA FY
5. Line 2b – Number of Section 8 families with children who moved to low poverty census tracts during the last completed PHA FY
6. Line 2c – Number of Section 8 families with children who moved during the last completed PHA FY

3. Special Reporting

HUD-50058, *Family Report* ([OMB No. 2577-0083](#)) – The PHA is required to submit this form electronically to HUD each time the PHA completes an admission, annual reexamination, interim reexamination, portability move-in, or other change of unit for a family. The PHA must also submit the Family Report when a family ends participation in the program or moves out of the PHA’s jurisdiction under portability (24 CFR Part 908 and 24 CFR section 982.158).

Key Line Items – The following line items contain critical information that the auditor tests by confirming the items for accuracy and completeness when submitted to HUD’s Public Housing Information Center (PIC). The auditor collects the information from the PHA.

The auditor will verify that the information reported on the HUD-50058 is supported by documentation in the file.

1. Line 2a – *Type of Action*
 2. Line 2b – *Effective Date of Action*
 3. Line 3b, 3c – *Names*
 4. Line 3e – *Date of Birth*
 5. Line 3n – *Social Security Numbers*
 6. Line 5a – *Unit Address*
 7. Line 5h, 5i – *Unit Inspection Dates*
 8. Line 7i – *Total Annual Income*
 9. Lines 2k and 17a – *Family’s Participation in the Family Self Sufficiency (FSS) Program*
 10. Line 17k (2) – *FSS Account Balance*
- 4. Special Reporting for Federal Funding Accountability and Transparency Act**
- See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Selection from the Waiting List

Compliance Requirements The PHA must have written policies in its HCVP administrative plan for selecting applicants from the waiting list and PHA documentation must show that the PHA follows these policies when selecting applicants for admission from the waiting list. Except as provided in 24 CFR section 982.203 Special admission (non-waiting list), all families admitted to the program must be selected from the waiting list. “Selection” from the waiting list generally occurs when the PHA notifies a family whose name reaches the top of the waiting list to come in to verify eligibility for admission (24 CFR sections 5.410, 982.54(d), and 982.201 through 982.207).

Audit Objectives Determine whether the PHA is following its own selection policies in selecting applicants from the waiting list to become participants.

Suggested Audit Procedures

- a. Review the PHA’s applicant selection policies.
- b. Test a sample of new participants admitted to the program to ascertain if they were selected from the waiting list in accordance with the PHA’s applicant selection policies.

- c. Test a sample of applicant names that reached the top of the waiting list to ascertain if they were admitted to the program or provided the opportunity to be admitted to the program in accordance with the PHA's applicant selection policies.

2. Reasonable Rent

Compliance Requirements The PHA's administrative plan must state the method used by the PHA to determine that the rent to owner is reasonable in comparison to rent for other comparable unassisted units. The PHA determination must consider unit attributes such as the location, quality, size, unit type, and age of the unit, and any amenities, housing services, maintenance, and utilities provided by the owner.

The PHA must determine that the rent to the owner is reasonable at the time of initial leasing. Also, the PHA must determine reasonable rent during the term of the contract (a) before any increase in the rent to owner, and (b) at the HAP contract anniversary if there is a 5 percent decrease in the published Fair Market Rent in effect 60 days before the HAP contract anniversary. The PHA must maintain records to document the basis for the determination that rent to owner is a reasonable rent (initially and during the term of the HAP contract) (24 CFR sections 982.4, 982.54(d)(15), 982.158(f)(7), and 982.507).

Audit Objectives Determine whether the PHA is documenting the determination that the rent to owner is reasonable in accordance with the PHA's administrative plan at initial leasing and during the term of the contract.

Suggested Audit Procedures

- a. Review the PHA's method in its administrative plan for determining reasonable rent.
- b. Test a sample of leases for newly leased units and ascertain if the PHA has documented the determination of reasonable rent in accordance with the PHA's administrative plan.
- c. Test a sample of leases for which the PHA is required to determine reasonable rent during the term of the HAP contract and ascertain if the PHA has documented the determination of reasonable rent in accordance with the PHA's administrative plan.

3. Utility Allowance Schedule

Compliance Requirements The PHA must maintain an up-to-date utility allowance schedule. The PHA must review utility rate data for each utility category each year and must adjust its utility allowance schedule if there has been a rate change of 10 percent or more for a utility category or fuel type since the last time the utility allowance schedule was revised (24 CFR section 982.517).

Audit Objectives Determine whether the PHA has reviewed utility rate data within the last 12 months and has adjusted its utility allowance schedule if there has been a rate change of 10 percent or more in a utility category or fuel type since the last time the utility allowance schedule was revised.

Suggested Audit Procedures

- a. Review PHA procedures for obtaining and reviewing utility rate data each year.
- b. Review data on utility rates that the PHA obtained during the last 12 months and ascertain, based on data available at the PHA, if there has been a change of 10 percent or more in a utility rate since the last time the utility allowance schedule was revised, and if so, verify that the PHA revised its utility allowance schedule to reflect the rate increase.

4. Housing Quality Standards Inspections

Compliance Requirements The PHA must inspect the unit leased to a family at least biennially to determine if the unit meets Housing Quality Standards (HQS) and the PHA must conduct quality control re-inspections. The PHA must prepare a unit inspection report (24 CFR sections 982.158(d) and 982.405(b)).

Audit Objectives Determine whether the PHA documented the required annual HQS inspections and quality control re-inspections.

Suggested Audit Procedures

- a. Review the PHA's procedures for performing HQS inspections and quality control re-inspections.
- b. Test a sample of units for which rental assistance was paid during the fiscal year and review inspection reports to ascertain if the unit was inspected.
- c. Review the PHA's reports of re-inspections to ascertain if quality control re-inspections were performed.

5. HQS Enforcement

Compliance Requirements For units under HAP contract that fail to meet HQS, the PHA must require the owner to correct any life threatening HQS deficiencies within 24 hours after the inspections and all other HQS deficiencies within 30 calendar days or within a specified PHA-approved extension. If the owner does not correct the cited HQS deficiencies within the specified correction period, the PHA must stop (abate) HAPs beginning no later than the first of the month following the specified correction period or must terminate the HAP contract. The owner is not responsible for a breach of HQS as a

result of the family's failure to pay for utilities for which the family is responsible under the lease or for tenant damage. For family-caused defects, if the family does not correct the cited HQS deficiencies within the specified correction period, the PHA must take prompt and vigorous action to enforce the family obligations (24 CFR sections 982.158(d) and 982.404).

Audit Objectives Determine whether the PHA documented enforcement of the HQS.

Suggested Audit Procedures

- a. Select a sample of units with failed HQS inspections during the audit period from the PHA's logs or records of failed HQS inspections.
- b. Verify that the files document that the PHA required correction of any cited life threatening HQS deficiencies within 24 hours of the inspection and of all other HQS deficiencies within 30 calendar days of the inspection or within a PHA-approved extension.
- c. If the correction period has ended, verify that the files contain a unit inspection report or evidence of other verification documenting that any PHA-required repairs were completed.
- d. Where the file shows that the owner failed to correct the cited HQS deficiencies within the specified time frame, verify that documents in the file show that the PHA properly stopped (abated) HAPs or terminated the HAP contract.
- e. Where the file shows that the family failed to correct the cited HQS deficiencies within the specified time frame, verify that documents in the file show that the PHA took action to enforce the family obligations.

6. Housing Assistance Payment

Compliance Requirements The PHA must pay a monthly HAP on behalf of the family that corresponds with the amount on line 12u of the HUD-50058. This HAP amount must be reflected on the HAP contract and HAP register (24 CFR section 982.158 and 24 CFR Part 982, Subpart K).

Audit Objectives Determine whether owners are receiving, and HUD is billed for, correct HAPs.

Suggested Audit Procedures

- a. Review PHAs' quality control procedures for maintaining the HAP register.
- b. Verify that HAP contracts or contract amendments agree with the amount recorded on the HAP register and the amount on 12u of the HUD-50058.

7. Operating Transfers and Administrative Fees

Compliance Requirements The ACC establishes the amounts HUD will provide a PHA for HAP and administrative fees. With the exception of Moving to Work Housing Authorities, HAP may not be used to cover administrative expenses nor may HAP (including RNP) be loaned, advanced, or transferred to other component units or other programs such as Public and Indian Housing (Assistance Listing Number 14.850) (24 CFR sections 982.151 and 982.152).

Audit Objectives Determine whether transfers/advances of HCVP funds were properly conducted and HCVP HAP and administrative fee funding were used appropriately, to include guidance on expanded uses of administrative fees under PIH Notice 2022-18.

Suggested Audit Procedures

- a. Selected a sample of transactions related to the following FDS Lines:

144 – Inter Program – Due From

124 – Accounts receivable – other government

125 – Accounts receivable – miscellaneous

10020 – Operating transfers out

10030 – Operating transfers from/to primary government

10040 – Operating transfers from/to component unit

11040 – Prior period adjustments, equity transfers, and correction of errors

11170 – Administrative fee equity

11180 – Housing assistance payment equity

- b. Test for improper transfers or inappropriate use of funds

8. Depository Agreements

Compliance Requirements PHAs are required to enter into depository agreements with their financial institutions in the form required by HUD. The agreements serve as safeguards for federal funds and provide third party rights to HUD. Among the terms in many agreements are requirements for funds to be placed in an interest-bearing account (24 CFR section 982.156).

Audit Objectives Determine whether the PHA has entered into the required depository agreements.

Suggested Audit Procedures

- a. Verify the existence of the agreements.
- b. Verify that the PHA has met the terms of the agreements, including that funds are placed in an interest-bearing account if required by the depository agreement.

9. Proceeds from Dispositions

Compliance Requirements PHAs may obtain proceeds from dispositions of public housing real property under Sections 18 and 22 of the 1937 Act (Assistance Listing Number 14.850). PHAs may use net proceeds, if approved by HUD, for the provision of low-income housing, which includes certain Section 8 HCVP uses. If a PHA receives HUD approval to use proceeds for certain HCVP purposes, those funds would be considered, and audited, under the HCVP.

Proceeds received are to be placed in a restricted account subject to the HUD General Depository Agreement HUD-51999 (GDA)(4/18).

PHA invoices and other documentation are used to verify proceeds were used for HUD-approved eligible HCVP expenses.

HUD is required to publish a notice in the Federal Register that reflects the amount that can be claimed by PHAs administering the program. As of September 6, 2006, HUD has determined that, for PHAs that elect to use a fee-for-service methodology for their HCVPs (as allowed under 2 CFR Part 200, Subpart E), a management fee of up to 20 percent of the prorated administrative fee earned or up to \$12 per unit month (PUM) per voucher leased, whichever is higher, is reasonable. PHAs also can charge the HCVP a bookkeeping fee of \$7.50 PUM per voucher leased (see 71 FR 52710, HUD Notice – Public Housing Operating Fund Program; Guidance on Implementation of Asset Management, September 6, 2006, Section VIII, which is available at <https://portal.hud.gov/hudportal/documents/huddoc?id=fedregister5099-n-01.pdf> (42 USC 1437f(q)(1))).

Audit Objectives Determine whether the PHA used proceeds for HUD-approved eligible expenses.

Suggested Audit Procedure

- a. Ascertain that the PHA received any proceeds from disposing of real property under Section 18 or 22 of the 1937 Act.
- b. Verify that proceeds received were placed in a restricted account subject to the HUD General Depository Agreement HUD-51999 (GDA)(4/18).

10. Rolling Forward Equity Balances

Compliance Requirements PHAs are required to maintain complete and accurate accounts. In addition, the ACC requires PHA to properly account for program activity.

Proper accounting requires that (1) account balances are properly maintained, (2) records and accounting transactions support a proper roll-forward of equity, and (3) errors are corrected as detected. Several HUD OIG audits reports have noted that PHAs have not been accounting and reporting HAP and Administrative Fee equity accounts properly. This has resulted in several PHAs not being funded correctly and has resulted in OIG findings against HUD and PHAs. If audit testing, account analysis, or third party (e.g., HUD) information, provides evidence that the current HAP and Administrative Fee equity is not correctly stated, the PHA is required to correct the account balance. Errors affecting these accounts could have begun starting with 2004 or 2005 financial statements (24 CFR section 982.158). (**Note:** The Administrative Fee equity on the Income Statement may include Net Investments in Capital Assets depending on the PHA's situation, whereas the Unrestricted Net Position or Administrative Fee Reserve (discussed in Notice 2015-17, Use and Reporting of Administrative Fee Reserves) does not include capital assets.)

Audit Objectives Determine whether equity balances have been reconciled and rolled forward correctly.

Suggested Audit Procedures

- a. If audit testing, account analysis, or third party (e.g., HUD) information provides evidence that the current HAP and Administrative Fee equity is not correctly stated, verify that the PHA has corrected the account balances.
- b. Verify that, like any prior-year correction entry, these accounting transactions were properly made and the account balances for the HAP and Administrative Fee equity accounts were properly corrected.

11. CARES Act Funding

Compliance Requirements PIH Notice 2020-17, CARES Act -HCV Program HAP Supplemental Funding, covers the requirements related to the supplemental HAP funding totaling \$400 million for the HCV program, including MV. The supplemental HAP funding was made available for PHAs that either (1) experience a significant increase in voucher per unit costs (PUC) due to extraordinary circumstances, or (2) despite taking reasonable cost saving measures, as determined by the secretary, would otherwise be required to terminate rental assistance for families as a result of insufficient funding (herein referred to as Shortfall Funds). CARES Act HAP funding may only be used for current year eligible HAP expenses. HAP funding cannot be used for the repayment of debts or any amounts owed to HUD by HUD program participants including, but not limited to, OIG, Quality Assurance Division (QAD), or other monitoring review findings. HAP also cannot be used for Administrative Fee purposes. Furthermore, CARES Act HAP funds may not roll into RNP and must be tracked and accounted for separately throughout the period of availability.

PIH notices 2020-08 and 2020-18 CARES Act – HCV Program Administrative Fees First and Second Award, respectively, cover requirements related to the supplemental administrative fee funding totaling \$850 million for the HCV program, including MV. This supplemental administrative fee funding was made available to PHAs to cover administrative expenses and other expenses related to COVID-19. Section 4 of PIH Notice 2020-18 contains a complete list of additional eligible activities for COVID-19 funds. PHAs were also instructed to request eligibility for COVID-19 related costs that were not explicitly included in the notice.

Furthermore, HUD provided instructions on accounting for and FDS reporting of CARES Act funds in PIH Notice PIH 2020-24. HUD must meet its monitoring responsibilities and provide transparency in the PHAs' receipt and use of CARES Act supplemental funding. Therefore, the Real Estate Assessment Center (REAC), a division of HUD's Office of Public and Indian Housing, has established the following six new columns on the FDS for reporting CARES Act supplemental funds.

#	New Column #	Column Name
1	14.PHC	Public Housing CARES Act Funding
2	14.HCC	HCV CARES Act Funding (both HAP and Administrative Fee)
3	14.MSC	Mainstream CARES Act Funding (both HAP and Administrative Fee)
4	14.MRC	Moderate Rehabilitation CARES Act Funding
5	14.CCC	Central Office Cost Center CARES Act Funding
6	14.CMT	CARES Act Funding Transferred to MTW

If a PHA has received CARES Act funding from any one of the following four programs, 1) Public Housing Operating Fund, 2) HCV, 3) MV, and/or 4) Moderate Rehabilitation, (the latter via the PBRA account), the PHA is required to add the respective reporting column(s) in its FASS-PH submission and report the amounts in accordance with the instructions in PIH Notice 2020 -24.

The CARES Act also requires that recipients and sub-recipients of CARES Act funds satisfy quarterly reporting requirements if the recipient has been awarded \$150,000 or more in covered funds. CARES Act quarterly reporting requirements are aligned with PHA FDS reporting guidance in PIH Notice 2000-24. This alignment will allow for consistency in reporting and ensure that PHAs maintain a single record of CARES Act expenses.

Audit Objectives

Determine whether the PHA used HCV and MV funds for eligible expenditures. Check PHA invoices and other documentation to verify expenditures were used for HUD-approved eligible HCV and MV expenses. Determine whether CARES Act HAP funds received were used, accounted for, reported in accordance with program requirements, and closed out in accordance with PIH Notice 2022-21. Period of performance ended on

12.31.2021. Determine whether the PHA used proceeds for HUD-approved eligible expenses.

Suggested Audit Procedures

- a. If audit testing, account analysis, or third party (e.g., HUD) information provides evidence that the current HAP and Administrative Fee equity is not correctly stated, verify that the PHA has corrected the account balances.
- b. Verify that, like any prior-year correction entry, these accounting transactions were properly made and the account balances for the HAP and Administrative Fee equity accounts were properly corrected.
- c. Obtain supporting documentation for CARES Act HAP funds received and evaluate to determine whether:
 - (1) The amounts received were accounted for separately under the appropriate program.
 - (2) The amount recorded in the general ledger agrees to supporting documentation.
 - (3) Appropriate columns were included in the FDS and that amounts reported in the FDS agree to amounts in the general ledger.
 - (4) Verify that SF-425 forms were submitted to HUD in accordance with PIH Notice 2022-21. Ascertain that the amount reported on SF-425 ties to amount reported on FDS.
- d. Select a sample of CARES Act HAP fund disbursements and test to determine:
 - (1) Whether the funds were used for eligible HAP expenses within the Period of Performance.
 - (2) If any funds were inappropriately used for the repayment of debts or any amounts owed to HUD including, but not limited to, OIG, QAD, or other monitoring review findings.
 - (3) Whether funds were inappropriately used for Administrative Fee purposes.
 - (4) Whether funds were inappropriately rolled into RNP.
 - (5) Whether the transactions for amounts disbursed were accurately recorded in the appropriate program in the general ledger.

- (6) Ensure funds were properly closed out, and that only unliquidated obligations were spent in accordance with 2 CFR 200.344 guidance. Also ensure funding activity was reported correctly through financial form SF-425 in CY 2022 and/or 2023 for PHAs that submitted late. See PIH Notice 2022-21.
- e. Obtain supporting documentation for CARES Act Administrative Fee funds received and evaluate to determine whether:
 - (1) The amounts received were accounted for separately under the appropriate program.
 - (2) The amount recorded in the general ledger agrees to supporting documentation.
- f. Select a sample of CARES Act Administrative Fee fund disbursements and test to determine:
 - (1) Whether the funds were used for either administrative expenses allowable under the applicable program, or other expenses related to COVID-19 identified in Section 4 of PIH Notice 2020-18.
 - (2) Whether funds were used for a purpose other than those listed in Section 4 of PIH Notice 2020-18, and if so whether HUD approval was obtained for the use.
 - (3) Whether the transactions for amounts disbursed were accurately recorded in the appropriate program in the general ledger and follow the guidance provided in PIH Notice 2020-24.
- g. Select a sample of COCC fee disbursements charged to CARES Act Administrative Fees and determine whether the fee amounts were allowable and properly recorded in the general ledger and reported in the FDS under the provisions in PIH Notice 2020-24.
- h. Determine whether amounts reported in CARES Act FDS columns resulting from Administrative Fee expenses agree to amounts recorded in the general ledger.
- i. If HUD has implemented quarterly CARES Act funds reporting requirements:
 - (1) Determine whether required reporting has been completed.
 - (2) Determine whether amounts in the quarterly reports are consistent with amounts reported in the FDS.
- j. Select a sample of ARP funding adjustment related expenses and test to

determine:

- (1) Ensure funds were used for eligible HCV or Mainstream Voucher HAP expenses, and only through the period of performance of June 30, 2022.
- k. Determine whether amounts reported in EHV columns on the FDS for HAP disbursements agree to amounts recorded in the general ledger.
- l. Ascertain if the PHA received any proceeds from disposing of real property under Section 18 or 22 of the 1937 Act;
- m. Verify that proceeds received are placed in a restricted account subject to the HUD General Depository Agreement HUD-51999 (GDA)(4/18); and
- n. Review PHA invoices and other documentation to verify proceeds were used for HUD-approved eligible HCVP expenses.
- o. Review that PHA keeps separate records for Special Purpose Vouchers and Mainstream Vouchers, and funds were only used for the intended purposes. For example, Mainstream Voucher HAP and administrative fees were used only for monthly HAP payments and Mainstream Vouchers related operating expenses, respectively.

HUD is required to publish a notice in the Federal Register that reflects the amount that can be claimed by PHAs administering the program. As of September 6, 2006, HUD has determined that, for PHAs that elect to use a fee-for-service methodology for their HCVPs (as allowed under 2 CFR Part 200, Subpart E), a management fee of up to 20 percent of the prorated administrative fee earned or up to \$12 per unit month (PUM) per voucher leased, whichever is higher, is reasonable. PHAs also can charge the HCVP a bookkeeping fee of \$7.50 PUM per voucher leased (see 71 FR 52710, HUD Notice – Public Housing Operating Fund Program; Guidance on Implementation of Asset Management, September 6, 2006, Section VIII, which is available at <https://portal.hud.gov/hudportal/documents/huddoc?id=fedregister5099-n-01.pdf> (42 USC 1437f(q)(1)).

IV. OTHER INFORMATION

EHV program funding is reported under Assistance Listings (formerly referred to as Catalog of Federal Domestic Assistance) number 14.871 - “Housing Choice Voucher Program” on the Schedule of Expenditures of Federal Awards. The PHA should identify how much of the EHV funding is included in the total either by a footnote to the SEFA or by adding detail lines in the SEFA itself under the provisions of PIH Notice 2021-25 (HA), Section 8. k.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.872 PUBLIC HOUSING CAPITAL FUND (CFP)

I. PROGRAM OBJECTIVES

The primary objective of the Capital Fund Program (CFP) is to make assistance available to public housing agencies (PHAs) to carry out capital and management improvement activities. The CFP can also be used for demolition, resident relocation, resident economic development, security, financing costs, and homeownership. The CFP is the major source of funding made available by HUD to PHAs for their capital activities, including modernization and development of public housing.

The objectives of modernization activities are the repair/replacement of aging building systems and the improvement of the physical condition of existing public housing developments, including the redesign, reconstruction, addition, and reconfiguration of public housing sites, buildings, facilities and/or related appurtenances or improvements (including accessibility improvements).

The objectives of management improvement activities are to upgrade the operation of public housing developments, sustain physical improvements at those developments, or correct management deficiencies.

The objective of development activities is to provide PHAs with the opportunity to replace, build, or acquire existing units to house low-income families, including costs for planning, financing, land acquisition, demolition, and construction. PHAs are able to build or acquire units up to the Faircloth limits. The Faircloth limits for PHAs are posted here: https://www.hud.gov/sites/dfiles/PIH/documents/Faircloth%20List_9-30-2018.pdf.

II. PROGRAM PROCEDURES

A. Overview

The CFP awards formula grants and several set aside specialty grants. CFP formula grants account for over 95 percent of CFP annual awards. CFP formula grants are made available to all PHAs that administer public housing units, based on a complex formula, which takes into account a number of variables related to unit characteristics and, ultimately, multiplies a per-unit amount by the number of units in the PHA. PHAs can use formula grants for any eligible Capital Fund activity.

The CFP also awards several set-aside specialties grants, including Replacement Housing Factor, Emergency/Disaster, Emergency/Disaster-Safety and Security, Emergency/Disaster-Carbon Monoxide, Emergency/Disaster-Receiver'ship (if under federal monitor/receivership), Residential Health Hazards/Healthy Homes, and Lead-Based Paint grants. The CFP also contains the Capital Fund Financing Program (CFFP), and this financing program is described below.

For Replacement Housing Factor (RHF) grants, these grants can only be used for the development of replacement housing units. In fiscal year (FY) 2014 RHF grants were replaced with Demolition and Disposition Transitional Funding (DDTF), which is included in the annual Capital Fund grant and not given as a separate grant. DDTF operates in the same way as formula funds and can be used for any eligible Capital Fund activity. PHAs that were receiving years two to five of a first increment RHF grant, or years seven to ten of second increment funding in FY 2014 will continue to receive RHF grants until they have finished that increment. PHAs that were newly eligible for replacement funding in FY 2014 will receive DDTF as part of their formula grant.

For Emergency/Disaster grants, Congress has set aside an annual average of \$20 million within the Capital Fund account to assist PHAs that have incurred damage to their public housing units as a result of an emergency or non-presidentially declared natural disaster. PHAs submit an application for this funding. The funding is allocated based on the order in which the Department of Housing and Urban Development (HUD) receives approvable applications.

For Emergency/Disaster - Safety and Security grants, Congress has set aside \$10 million. These grants support PHAs as they address the safety of public housing residents. These grants may be used to install, repair, or replace capital needs items including security systems/surveillance cameras, fencing, lighting systems, emergency alarm systems, window bars, deadbolt locks and doors. PHAs submit an application for this funding. The funding is allocated based on a lottery in which the Department of Housing and Urban Development (HUD) reviews approvable applications and enters the approvable applications in the lottery.

For Emergency/Disaster - Safety and Security Carbon Monoxide grants, the Department has set aside of \$10 million as part of the Safety and Security \$10 million. These grants support PHAs as they address the safety of public housing residents. These grants may be used to install carbon monoxide detectors in public housing. PHAs submit a competitive application for this funding. The funding is allocated based on application score.

For Emergency/Disaster – Receivership grants, the Department has set aside up to \$45 million. This appropriation is for “emergency capital needs including safety and security measures necessary to address crime and drug-related activity as well as needs resulting from unforeseen or unpreventable emergencies and natural disasters excluding Presidentially declared emergencies and natural disasters under the Robert T. Stafford Disaster Relief and Emergency Act (42 U.S.C. 5121 et seq.). These grant funds are only for PHAs under administrative and judicial receiverships or under the control of a federal monitor.

Note that Lead-Based Paint and Residential Health Hazards grants are covered under the Part 4 program section for Assistance Listing 14.888.

For the Capital Fund Financing Program, HUD has permitted PHAs to borrow funding secured to a portion of future Capital Fund grants under the Capital Fund Financing Program (CFFP). PHAs must obtain HUD’s permission prior to borrowing funds

securitized by any public housing asset (including real property, other PHA owned property purchased with federal grant funds, and CFP grant funds themselves). HUD reviews each transaction to ensure that PHAs will not be overcommitted to payment of debt service to the detriment of the public housing stock/program, for the reasonableness of the terms of the transaction, and to mitigate risk of default. CFFP transactions continue to be underwritten with the current portfolio of approximately \$5 billion impacting close to 300 PHAs nationwide.

B. Subprograms/Program Elements

Prior to submitting the 5-Year Action Plan to HUD for review and approval, a PHA must annually conduct a public hearing and consult with the Resident Advisory Board (RAB) of the PHA to discuss the Capital Fund submission. The PHA may elect to conduct a separate annual public hearing in order to solicit public comments or to hold the annual public hearing at the same time as the hearing for the Annual PHA Plan, the 5-Year Plan, or the required annual hearing for qualified public housing authorities. The hearing must be conducted at a location that is convenient to the residents served by the PHA.

In FY 2018, the CFP 5-Year Action Plan and Annual Statement/ Budget submission was moved to an electronic platform called EPIC for submission and approval. A PHA must have an approved 5-Year Action Plan (HUD 50075.2 (OMB No. 2577-0226)) and Document package in EPIC to have access to Capital Funds. Once a PHA submits an Annual Statement/Budget in EPIC (HUD 50075.1), it spreads Capital Funds to all of the appropriate budget line items (BLIs) in the Line of Credit Control System (LOCCS) in accordance with the information contained in the 5-Year Action Plan (HUD 50075.2). A PHA may then drawdown funds as needed on a three-day turnaround basis to pay for approved work activities. The three-day turnaround means the PHA expends the funds drawn down from LOCCS within three business days.

In planning its modernization projects, the PHA is required to consult with residents and local government officials. After grant award, the PHA may select an architect or engineer through competitive negotiation to develop the plans and specifications for the construction work. Construction work as well as management improvements may be carried out through contract labor (competitively procured) or the PHA's own work force (force account). The PHA or its architect monitors the work in progress for compliance with contract requirements and acceptable work quality and submits periodic progress reports to HUD.

PHAs may develop public housing in accordance with 24 CFR section 905.600. For development projects, the PHA is responsible for negotiating a local cooperation agreement that establishes what services the locality will provide to the public housing project, for project planning, and for submitting a development proposal (and a site acquisition proposal, if applicable). This includes selecting sites or properties to be acquired, contracting with builders to construct or rehabilitate housing, contracting with developers for the purchase of completed (new or rehabilitated) housing, and purchasing

existing housing that may require repairs. In addition, as a developer, the PHA is responsible for selecting and contracting with other parties (e.g., architects and engineers) and for expediting and coordinating the preparation of required HUD submissions.

C. Other

In accordance with HUD's Uniform Financial Reporting Standards rule, annually, a PHA is required to submit financial statements, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. The unaudited financial statement is due two months after the PHA's fiscal year end (FYE) and the audited financial statement is due nine months after its FYE (24 CFR section 5.801). The financial statement must include the financial activities of this program.

PHAs submits actual modernization cost certificates (AMCC) form HUD-53001 and actual development cost certificates (ADCC) form HUD -52427 with the local HUD Field Office for approval when they complete a modernization or development project. The AMCC or ADCC is required for CFP grant closeout.

Source of Governing Requirements

The programs are authorized under 42 USC 1437g . The program implementing regulation is 24 CFR Part 905.

Availability of Other Program Information

HUD posts guidance on the CFP to its Office of Capital Improvements Home Page that provides grantees with information on timelines, budgets, financial instructions, and other program guidance. Information regarding the financial reporting requirements of the PHAs is provided by HUD on the Real Estate Assessment Center (REAC) website.

Here are some helpful links:

https://www.hud.gov/program_offices/public_indian_housing/reac/products/prodphasintrule

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have

been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	N	Y	Y	N	N	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

- a. For Capital Fund formula grants and grants from the set-aside for emergencies and natural disasters, allowed Capital Fund activities include the following: (1) developing, financing, or modernizing public housing; (2) vacancy reduction; (3) deferred maintenance; (4) replacement of obsolete utility systems and dwelling equipment; (5) code compliance; (6) management improvements; (7) demolition and replacement; (8) resident relocation; (9) resident economic empowerment/economic self-sufficiency; and (10) security; and homeownership (42 USC 1437g(d); 24 CFR section 905.200). A PHA with fewer than 250 units that is not designated as troubled under the Public Housing Assessment System (PHAS) may use up to 100 percent of its annual Capital Fund grant for activities that are eligible under the Operating Fund at 24 CFR Part 990 (see Assistance Listing 14.850, III.A, “Activities Allowed or Unallowed”), except that the PHA must have determined that there are no debt service payments, significant Capital Fund needs, or emergency needs that must be met prior to transferring 100 percent of its funds to operating expenses 24 CFR section 905.314(1).

- b. For Capital Fund Replacement Housing Factor (RHF) grants, activities are limited to the development of replacement housing (24 CFR section 905.400(i)).

2. *Activities Unallowed*

A PHA must not incur any cost in excess of the total HUD-approved PHA - Annual Statement/Budget. Budget revisions must be submitted in EPIC for deviations from the originally approved program. A PHA must not incur any cost on behalf of any development that is not covered by its current approved 5-Year Action Plan (24 CFR section 905.200(a)).

The ineligible activities and costs for the Capital Fund Program are located at 24 CFR 905.202 (<https://www.ecfr.gov/current/title-24/subtitle-B/chapter-IX/part-905>). The following list describes ineligible activities and costs for the Capital Fund Program:

1. Not Related to Public Housing. PHAs may not spend Capital Funds on costs that are not associated with a Public Housing Development or Modernization Project.
2. Not in 5-Year Action Plan. PHAs may not spend Capital Funds on activities and costs that are not included in the PHA's 5-Year Action Plan (Note: Emergency Work or Non-Presidentially Declared Natural Disaster assistance that is not identified in the 5-Year Action Plan is an eligible cost).
3. Not Modest Design. PHAs may not spend Capital Funds on improvements or purchases that are not considered modest in design and cost because they include amenities, materials, and design in excess of what is customary for the locality, as determined by the PHA and field office. These include, but are not limited to, swimming pools, saunas, whirlpool baths, and hot tubs.
4. Not Eligible based on OMB Regulatory and Circular Guidance. PHAs may not spend Capital Funds on any costs not authorized in 2 CFR Part 200 (formerly OMB Circular A-87 and 2 CFR Part 225), including indirect Administrative Costs, indemnification, and capitalizing reserves.
5. Operating Assistance. PHAs may not spend Capital Funds on Public Housing operating assistance, except as provided through transfers to BLI 1406.
6. Benefitting Other Programs. Eligible costs that exceed the amount directly attributable to the public housing units when the physical or management improvements, including salaries and employee benefits and contributions, will benefit programs other than public housing, such as Section 8 Housing Choice Voucher, or local revitalization programs.

For example, the annual audit covers all of the PHA's activities such as the Operating Fund, Capital Fund, Housing Choice Vouchers, and non-federally funded activities. Only a pro-rata share of the Audit cost attributable to the Capital Fund may be charged to the Capital Fund.

7. Security Services. Ongoing security services, including:
 - Contracts with local police departments including above baseline police services except where permitted by HUD FY Appropriations Acts;
 - The salaries and benefits for security guards, patrols, or police officers (full-time, part-time, or after hours); and
 - The purchase or leasing of vehicles for security personnel.
8. Supportive Services. The provision of supportive services to public housing residents, including:
 - The salaries and benefits or contract costs for service providers, including resident coordinators, case managers, social workers, nurses, chore service providers, supplemental police or probation services providers, and tutors;
 - Health and wellness activities;
 - Educational enrichment and recreational activities, including social organizations; and
 - Job development and placement services, including the cost of professional licenses, certifications and exams, and transportation assistance.
9. Duplicate Funding. An otherwise eligible cost that is funded by another source and would result in duplicate funding; and
10. Other Activities. Any other activities and costs that HUD may determine are ineligible on a case-by-case basis, consistent with the 1937 Act and its regulations.

B. Allowable Costs/Cost Principles

Allocation of Costs with Other Programs. Where the physical or management improvement costs will benefit programs other than public housing, such as the Housing Choice Voucher program or local revitalization programs, Capital Fund-eligible costs are limited to the amount directly attributable to the public housing program.

The amount of salary, including bonuses, of PHA chief executive officers, other officers, and employees paid with Section 8 Housing Choice Vouchers administrative fees and Section 9 Capital and Operating funds may not exceed the annual rate of basic pay payable for a federal position at Level IV of the Executive Schedule 1 (Section 227 of Pub. L. No. 113-235, 128 Stat. 2756, December 16, 2014, and carried forward in each subsequent appropriations act). Implementing guidance has been issued in PIH Notice 2016-14, “Guidance on Public Housing Agency (PHA) salary restriction in HUD’s annual appropriations.” The Executive Schedules for each year are posted at: <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/#url=2023>. The current level IV for 2023 is \$183,500 (see <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/salary-tables/pdf/2023/EX.pdf>). The level IV for 2022 is \$176,300 (See <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/salary-tables/pdf/2022/EX.pdf>.)

H. Period of Performance

1. Unless an extension is approved by HUD, a PHA must obligate at least 90 percent of each Capital Fund grant, including formula grants, RHF, natural disaster, and lead-based paint grants within 24 months of the funds of becoming available to the PHA for obligation. For emergency grants, safety and security grants and safety and security-carbon monoxide grants, the PHA must obligate at least 90 percent within twelve months of the funds becoming available. The funds become available when the HUD executes the ACC Amendment (24 CFR section 905.306).
2. For Capital Fund formula, RHF, natural disaster, and lead-based paint grants, unless HUD approves an extension, a PHA must expend all grant funds no later than 48 months after HUD executes the ACC Amendment (24 CFR section 905.306(f)). However, for emergency grants, safety and security grants and safety and security-carbon monoxide grants, a PHA must expend all grant funds no later than 24 months after HUD executes the ACC Amendment if such a requirement is contained in the ACC Amendment.
3. Obligations and expenditures are self-reported in the Line of Credit Control (LOCCS) treasury disbursement system. The accuracy of the obligation and expenditure grant reporting data in the LOCCS is critical to determine the period of performance.

N. Special Tests and Provisions

1. Capital Funds for Operating Costs

Compliance Requirements Capital Funds transferred to operations (BLI 1406) are not considered obligated until the PHA has budgeted and drawn down the funds. To meet this requirement, the funds must be budgeted in line BLI 1406 (Operations) and the PHA must submit the voucher request in LOCCS. The PHA’s reported obligation amount in LOCCS must be the same amount in the PHA’s accounting system since the date of the

voucher request in LOCCS is the point of obligation for funds in BLI 1406. The voucher request date must occur before those funds are reported as obligated in LOCCS under the Obligation & Expenditure tab (24 CFR section 905.314(l)).

Audit Objectives Determine whether obligations for operations costs are recorded properly.

Suggested Audit Procedures

- a. Review the PHA's vouchers for funds expended from BLI 1406.
- b. Examine the voucher request dates against the reported obligation amounts in the LOCCS Obligation & Expenditure tab.
- c. Verify that the voucher request dates were before the funds were reported as obligated and the dollar value of the voucher requests corresponds to the reported obligated amount.

2. Cash Management

The funds are to be disbursed from the grantee's bank account within 3 business days (3-day Treasury Rule) of funds being deposited into the grantee's bank account from LOCCS.

Audit Objectives Determine whether the expense was paid within 3 business days of funds deposited into grantee bank account to the vendor.

Suggested Audit Procedures

- a. Obtain from LOCCS the voucher detail that includes voucher number, BLI's and estimated deposit date.
- b. Request from grantee a copy of the bank statement to confirm date of deposit into grantee bank account.
- c. Request from grantee copies of the expenses/ invoices associated with the voucher request.
- d. Request from grantee an accounts payable report to verify the check was issued to vendor within 3 business days of grantee receiving funds in bank account.

3. Obligation and Expenditure Verification

Compliance Requirements. Unless an extension is approved by HUD, a PHA must obligate at least 90 percent of each Capital Fund grant, including formula grants, RHF, natural disaster, and lead-based paint grants within 24 months of the funds of becoming available to the PHA for obligation. For emergency grants, safety and security grants and safety and security-carbon monoxide grants, the PHA must obligate at least 90 percent within twelve months of the funds becoming available. The funds become available when the HUD executes the ACC Amendment.

A PHA must also expend 100% percent of the authorized amount of a Capital Fund grant within 48 months of the date that funds are made available, or the obligation start date. (24 CFR section 905.306). Obligations and expenditures are self-reported by the PHA in the Line of Credit Control (LOCCS) treasury disbursement system.

Audit Objective: Determine that the obligation and expenditure grant reporting data in LOCCS is accurate.

Suggested Audit Procedures for Obligations:

- a. Obtain the grant contract (ACC Amendment) to verify the grant award dollar amount and that the grant contract is executed with HUD and grantee signature and date;
- b. Obtain from LOCCs the grantee reported obligations for the grant;
- c. Request from the grantee supporting obligating documents such as a binding contract for work or financing that will result in outlays, immediately or in the future.
- d. Review obligating document to verify that the obligation occurred during the 24-month regulated timeframe for formula grants, RHF, natural disaster, and lead-based paint grants and 12- month regulated timeframe for emergency grants, safety and security grants and safety and security-carbon monoxide grants;
- e. Review obligating document to verify that all dates coincide with the monthly obligation reporting in LOCCS; and,
- f. Verify that the grantee reported at least 90% obligated by the OED deadline for all grants.

Suggested Audit Procedures for Expenditures:

- a. Obtain from LOCCs the grantee reported expenditures and voucher disbursements for the grant;
- b. Request from grantee all supporting expenditure documents such as invoices;
- c. Review each expenditure document to verify that the disbursement occurred during the 48-month regulated timeframe for formula grants, RHF, natural disaster, and lead-based paint grants and 24 - month regulated timeframe for emergency grants, safety and security grants and safety and security-carbon monoxide grants;
- d. Verify that all payment dates coincide with the monthly expenditure reporting in LOCCS;
- e. Verify that the invoices were not paid before the funds were vouchered and disbursed from LOCCS; the expended amount should never be more than the disbursed amount with the monthly reporting;

- f. Verify funds were disbursed from the grantee's bank account within 3 days of funds being deposited from LOCCS; and,
- g. Verify that the grantee reported 100% expended by the EED deadline for all grants.

4. Debt Secured to Public Housing Asset

Compliance Requirements PHAs are only permitted to borrow funds secured to public housing assets (including real property, other PHA owned property purchased with federal grant funds and CFP grant funds themselves) if they have obtained HUD's authorization prior to creating a security interest in public housing assets. This requirement does not prohibit a PHA from borrowing funds that are unsecured or that are not secured to public housing assets. In granting the required authorization, HUD will issue both an approval letter as well as a CFFP ACC Amendment (42 USC 1437z-2).

Audit Objectives Determine whether any debt incurred by the PHA that is secured to public housing assets is duly authorized by HUD.

Suggested Audit Procedures

- a. Review the PHAs balance sheet to determine if the PHA has incurred a debt.
- b. Examine the documentation that evidences the debt (loan /bond agreement, etc.) to determine if the debt is secured to public housing assets.
- c. If the debt is secured to public housing assets, verify that the PHA has the required HUD approval letter authorizing the debt.

5. Insurance Proceeds

Compliance Requirements PHAs are required to use insurance proceeds to promptly restore, reconstruct, and/or repair any damaged or destroyed property of a project, except when a written approval of HUD instructs a PHA to do otherwise. Unspent insurance proceeds are normally recorded as cash-restricted modernization and development, FDS line 112, up to the amount of the repair (Section 13 of Part A of ACC).

Emergency and Natural Disaster Reserve – In cases of unforeseeable and unpreventable emergencies that include damages to the physical structure of the housing stock, PHAs may request funding from the Emergency and Natural Disaster Reserve of the Capital Fund, an appropriated set-aside of the Capital Fund. Such grants would have a “D” or an “E” as the fifth character in the grant number. The approval for these grants requires that the PHA pay first from any insurance proceeds, but while the PHA's warranty or insurance policy may cover the damages fully or partially, it usually takes time for the PHA to receive the insurance proceeds. These grant funds may be used to cover any costs not met with insurance proceeds, but any remaining funds must be returned to HUD. If these grant funds are used before insurance proceeds are received, the PHA must pay back the Emergency and Natural Disaster Reserve.

Audit Objectives Determine whether the PHA has used its insurance proceeds to promptly repair claimed damages and has used the Emergency or Natural Disaster grant funds only for costs in excess of the insurance recoveries. Determine whether the PHA paid the funds back to Emergency and Natural Disaster Reserve, as may be required.

Suggested Audit Procedures

- a. Ascertain if the PHA has received any insurance proceeds for damaged or destroyed property.
- b. Ascertain if the PHA received a grant from the Emergency and Natural Disaster Reserve.
- c. Verify that insurance proceeds received in advance of contractor or repair bills are placed in a restricted cash account.
- d. Review contractor invoices and repair expenses to verify insurance proceeds were used to cover allowable expenses.
- e. Verify that the PHA used insurance proceeds to meet repair or replacement costs before using emergency or natural disaster grant funds.
- f. Verify that emergency or natural disaster grant funds not needed to meet the capital needs for which the grant was made were returned to HUD.

6. Environmental Review

Compliance Requirements An environmental review must be completed for any project or activities before a PHA may acquire, rehabilitate, convert, lease, repair, or construct property, or commit HUD or local funds at an assisted or to-be-assisted site.

Environmental review procedures for PHAs are given in PIH Notice 2016-22 HA, “Environmental Review Requirements for Public Housing Agencies.” The environmental reviews are not tied to specific grants but apply to all the operating and capital activities of the PHA for a five-year period. The Notice cites the governing regulations at 24 CFR parts 50 and 58 and describes the methods of review and types of determinations. All of these methods and types culminate in a final approval document signed by a HUD Approving Official. To be in compliance a PHA must have such an approval document with an approval date that is not over five years old. This approval may be in any the following forms:

- a. Form HUD-7015.16, “Authorization to Use Grant Funds”
- b. Form HUD-4128, “Environmental Assessment and Compliance Findings for the Related Laws”
- c. Form HUD-4128-OHF, “Environmental Assessment and Compliance Findings for the Related Laws”

- d. Determination Letter
- e. An electronic signature in the HUD Environmental Review Online System (HEROS)
- f. Activities listed in Notice 2016-22, Appendix A, require no further environmental review.

Audit Objectives Determine whether (1) the required environmental reviews have been performed, (2) exemptions to an environmental assessment are properly documented, and (3) program funds were not obligated or expended prior to completion of the environmental review process.

Suggested Audit Procedures

- a. Verify through a review of environmental review certifications that the environmental reviews were conducted for projects and activities unless an exemption was made.
- b. Select a sample of projects or activities when an environmental review was performed.
- c. Test whether program funds were committed only after the PHA has secured environmental clearance.

7. Wage Rate Requirements

Compliance Requirements Projects funded with Capital Funds that are developed and/or modernized in accordance with 24 CFR Part 905, Subpart F, including projects that contain only public housing units and mixed-finance projects are subject to the Wage Rate Requirements (42 USC 1437j(a) and (b); 24 CFR section 905.308).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

IV. OTHER INFORMATION

The Moving to Work (MTW) demonstration program (Assistance Listing 14.881) allows selected PHAs the flexibility to design and test various approaches to providing and administering housing assistance consistent with the MTW Agreement executed by the PHA and HUD. An MTW agency may combine funds from the following three programs:

- 1. Section 8 Housing Choice Vouchers (Assistance Listing 14.871)
- 2. Public Housing Capital Fund (Assistance Listing 14.872)
- 3. Public and Indian Housing (Assistance Listing 14.850)

If a PHA is operating under an MTW Agreement, the auditor should look to the MTW Agreement to determine which funds are included in the MTW Agreement. If CFP funds are transferred out of CFP, pursuant to an MTW Agreement, they are subject to the requirements of the MTW Agreement and should not be included in the audit universe and total expenditures for CFP when determining Type A programs. On the Schedule of Expenditures of Federal Awards, the amounts transferred out should not be shown as CFP expenditures but should be shown as expenditures for the MTW Demonstration program. Also, if other program funds are transferred into the CFP account pursuant to an MTW Agreement, all of the CFP funds would then be considered MTW funds.

Where the MTW agency does not transfer all the funds from the CFP into the MTW account or another of the authorized program, those funds would be considered, and audited, under the CFP.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.873 NATIVE HAWAIIAN HOUSING BLOCK GRANT

I. PROGRAM OBJECTIVES

The primary objectives of the Native Hawaiian Housing Block Grant (NHHBG) programs are (1) to assist and promote affordable housing activities to develop, maintain, and operate affordable housing in safe and healthy environments for occupancy by low-income Native Hawaiian families; (2) to ensure better access to private mortgage markets and to promote self-sufficiency of low-income Native Hawaiian families; (3) to coordinate activities to provide housing for low-income Native Hawaiian families with federal, state, and local activities to further economic and community development; (4) to plan for and integrate infrastructure resources on the Hawaiian home lands with housing development; and (5) to promote the development of private capital markets; and to allow the private capital markets to operate and grow, thereby benefiting Native Hawaiian communities.

II. PROGRAM PROCEDURES

HUD allocates the funds to the Department of Hawaiian Home Lands (DHHL), provided DHHL complies with the requirements of Section 802 of the Native American Housing Assistance and Self-Determination Act (NAHASDA). To access funds, DHHL must submit a Native Hawaiian Housing Plan (NHHP) to the Department of Housing and Urban Development (HUD), and HUD must find that the NHHP meets the requirements of NAHASDA.

Source of Governing Requirements

This program is authorized by NAHASDA, codified at 25 USC 4221 through 4243. The implementing regulations are in 24 CFR Part 1006.

Availability of Other Program Information

Additional information on the NHHBG program is available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/ih/codetalk/nap/nhhbgprogram.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a

compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	Y	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

NHHBG funds (including program income generated by activities carried out with grant funds) may only be used for the following NAHASDA-eligible activities:

1. The acquisition, new construction, reconstruction, or moderate or substantial rehabilitation of affordable housing, which may include real property acquisition, site improvement, development of utilities and utility services, conversion, demolition, financing, administration and planning, and other related activities (25 USC 4229(b)(1)).
2. The provision of housing-related services for affordable housing, such as housing counseling in connection with rental or home ownership assistance, establishment and support of resident organizations and resident management corporations, energy auditing, activities related to the provision of self-sufficiency and other services, and other services related to assisting owners, tenants, contractors, and other entities participating or seeking to participate in other housing activities assisted by this program (25 USC 4229(b)(2)).
3. The provision of management services for affordable housing, including preparation of work specifications; loan processing, inspections; tenant selection; management of tenant-based rental assistance; and management of affordable housing projects (25 USC 4229(b)(3)).
4. The provision of safety, security, and law enforcement measures and activities appropriate to protect residents of affordable housing from crime (25 USC 4229(b)(4)).

5. Housing activities under model programs that are designed to carry out the purposes of NAHASDA and are specifically approved by the secretary of HUD as appropriate for such purpose (25 USC 4229(b)(5)).

B. Allowable Costs/Cost Principles

1. All items of cost listed in 2 CFR Part 200, Subpart E that require prior federal agency approval are allowable without prior approval, except for the following:
 - a. Depreciation methods for fixed assets shall not be changed without the approval of the federal cognizant agency.
 - b. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent), housing allowances, and personal living expenses (goods or services for personal use), regardless of whether reported as taxable income to the employees, require prior HUD approval.
 - c. Organization costs require prior HUD approval.
2. Fines, penalties, damages, and other settlements are unallowable.
3. No person providing consultant services in an employer-employee type of relationship may receive more than a reasonable rate of compensation. Such compensation must not exceed the equivalent of the daily rate paid for Level IV of the Executive Schedule (currently \$161,900). The Executive Pay Schedule may be obtained at <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages> (24 CFR section 1006.370(b)).

E. Eligibility

1. Eligibility for Individuals

- a. The Director of DHHL shall develop written policies governing the eligibility, admission, and occupancy of families for housing assisted with grant amounts provided under NAHASDA (25 USC 4230(d)).
- b. The following families are eligible for affordable housing activities:
 - (1) Low-income Native Hawaiian families eligible to reside on the Hawaiian home lands (24 CFR section 1006.301(a)).
 - (2) When approved by HUD, a non-low-income Native Hawaiian family may receive assistance for homeownership activities and loan guarantee activities to address a need for housing that cannot be reasonably met without that assistance (24 CFR section 1006.301(b)).

- (3) A non-low-income and non-Native Hawaiian family may receive housing or NHHBG assistance if the DHHL documents that the family's housing needs cannot be reasonably met without such assistance, and the presence of that family is essential to the well-being of Native Hawaiian families (24 CFR section 1006.301(c)).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

H. Period of Performance

Grant funds received prior to fiscal year (FY) 2015 may be used until expended. For NHHBG grant funds received in FY 2015 and subsequent fiscal years, all funds must be expended by September 30 of the 9th year of the appropriation. For example, FY 2015 funds must be expended by September 30, 2024 (Consolidated and Further Continuing Appropriations Act, 2015, Pub. L. No. 113-235, 128 Stat. 2738, December 16, 2014, and subsequent appropriations).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

- a. [HUD-50090, Native Hawaiian Housing Plan/Annual Performance Report](#) – The Annual Performance Report section of the report must be submitted to HUD within 60 days of the end of the DHHL program year. The Auditor should request from the recipient a copy of the most recent Native Hawaiian Housing Plan/Annual Performance Report submitted to the Hawaiian Area Office of Native American Programs to verify the accuracy of line items in the report containing critical information listed below against the recipient's supporting documentation.

Key Line Items – The following line items contain critical information. The data reported by the recipient in response to each line item is documented with recipient file:

1. Section 3, Line 1.9 – *Planned and Actual Outputs for 12-month Program Year*
 2. Section 5, Line 1 – *Sources of Funds* – columns G and K
 3. Section 5, Line 2 – *Uses of Funds* – columns O through Q
 4. Section 9, Line 1 – *Inspections of Units* – columns B through F
 5. Section 12, Lines 1 and 2 – *Jobs Supported by NAHASDA*
- b. Each recipient that administers covered Public and Indian housing assistance, regardless of the amount expended, and each recipient that administers covered housing and community development assistance in excess of \$200,000 in a program year, must submit a Section 3 Summary Report electronically in HUD’s Section 3 Performance Evaluation and Registration System (SPEARS) at: www.hud.gov/section3. (24 CFR sections 135.3(a)(1) and 135.90).

Section 3 Summary Report line items in the report are documented with recipient file:

Key Line Items – The following line items contain critical information:

1. Number of new hires that meet the definition of a Section 3 resident
2. Total dollar amount of construction contracts awarded during the reporting period
3. Dollar amount of construction contracts awarded to Section 3 businesses during the reporting period
4. Number of Section 3 businesses receiving the construction contracts
5. Total dollar amount of non-construction contracts awarded during the reporting period
6. Dollar amount of non-construction contracts awarded to Section 3 businesses during the reporting period
7. Number of Section 3 businesses receiving the non-construction contracts

3. Special Reporting

Not Applicable

4. **Special Reporting for Federal Funding Accountability and Transparency Act**

See Part 3.L for audit guidance.

N. **Special Tests and Provisions**

1. **Wage Rate Requirements**

Compliance Requirements For NHHBG funds, contracts and agreements for assistance, sale, or lease under this part must require prevailing wage rates under the Wage Rate Requirements to be paid to laborers and mechanics employed in the development of affordable housing. When NHHBG assistance is only used to assist homebuyers to acquire single family housing, the Wage Rate Requirements apply to the construction of the housing if there is a written agreement with the owner or developer of the housing that NHHBG assistance will be used to assist homebuyers to buy the housing (25 USC 4225(b); 24 CFR section 1006.345(a)).

See Part 4, 20.001, Wage Rate Requirements Cross-Cutting Section.

2. **Environmental Review**

Compliance Requirements Program regulations provide that DHHL will assume responsibilities for environmental review and decision making under the requirements of 24 CFR Part 58. Funds may not be committed to a grant activity or project before the completion of the environmental review and approval of the request for release of funds and related certification (24 CFR Section 1006.350).

Audit Objectives Determine whether (1) the required environmental reviews have been performed and (2) program funds were not obligated or expended prior to completion of the environmental review process.

Suggested Audit Procedures

Select a sample of projects for which expenditures were made and verify that:

- a. Environmental certifications were supported by an environmental assessment.
- b. For any project where an environmental assessment was not performed, a written determination was made that the assessment was not required and documentation exists to support such determination consistent with the criteria contained in 24 CFR sections 58.34 and 58.35.
- c. Funds were not committed prior to the environmental assessment or a determination that an assessment was not required.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.881 MOVING TO WORK DEMONSTRATION PROGRAM

I. PROGRAM OBJECTIVES

The Moving to Work (MTW) Demonstration program offers public housing authorities (PHAs) the opportunity to design and test innovative, locally designed housing and self-sufficiency strategies for low-, very-low, and extremely low-income families by allowing exemptions from existing public housing and tenant-based Housing Choice Voucher (HCV) rules. Additionally, the program provides PHAs the flexibility to apply funding flexibility among three core funding program streams - public housing Operating Fund, public housing Capital Fund, and HCV funds (both Housing Assistance Payments and HCV Administrative Fees) hereinafter referred to as “MTW Funding.”

The purpose of the MTW Demonstration program is to give PHAs and HUD the flexibility to design and test various approaches for providing and administering housing assistance that accomplish the statutory objectives to

- a. Reduce cost and achieve greater costs effectiveness in federal expenditures;
- b. Give incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient; and
- c. Increase housing choices for low-income families.

II. PROGRAM PROCEDURES

A. Overview

The MTW Demonstration program is authorized by Section 204 of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (see “Source of Governing Requirements”).

Initially, 30 PHAs were permitted to participate in the demonstration program and since then Congress has authorized nine additional agencies. The Consolidated Appropriations Act of 2016 authorized HUD to add an additional 100 new agencies to the demonstration. Eighty-seven (87) of these 100 new agencies have been named, with thirteen (13) slots remaining to fill. The agencies authorized to conduct MTW programs are required to establish a reasonable rent policy designed to encourage employment and self-sufficiency by participating families, such as by excluding some or all of a family’s earned income for purposes of determining rent.

The MTW Demonstration program does not provide any additional funding to PHAs. Funding originates from the following HUD programs:

- a. Section 8, Housing Choice Vouchers (Assistance Listing 14.871)
- b. Section 9, Public and Indian Housing (Assistance Listing 14.850)
- c. Section 9, Public Housing Capital Fund (Assistance Listing 14.872)

The authorized funding is stated in Attachment A of the Standard MTW Agreement for existing MTW agencies designated under Section 204 of the Omnibus Consolidated Rescissions and Appropriations Act of 1996. New MTW agencies designated under the Consolidated Appropriations Act of 2016, and to any previously designated MTW agency that elects to operate under the terms of the Operations Notice, will be funded according to the Operations Notice.

B. Statutory Requirements for MTW Agencies

All PHAs participating in the MTW Demonstration program must meet the following statutory requirements:

1. Ensure that at least 75 percent of the families assisted by the PHA under the demonstration will be very low-income families (i.e., families with incomes of less than 50 percent of area median income) (Section 204(c)(3)(A) of Pub. L. No. 104-134 (42 USC 1437f (note)));
2. Establish a reasonable rent policy that is designed to encourage employment and self-sufficiency on the part of participating families (Section 204(c)(3)(B) of Pub. L. No. 104-134 (42 USC 1437f (note)));
3. Continue to assist substantially the same total number of low-income families under the demonstration as would have been served had the PHA not participated in MTW Section 204(c)(3)(C) of Pub. L. No. 104-134 (42 USC 1437f (note)));
4. Maintain under the demonstration a comparable mix of families, by family size, as would have been assisted had the PHA not participated in MTW (Section 204(c)(3)(D) of Pub. L. No. 104-134 (42 USC 1437f (note))); and
5. Ensure that housing assisted under the demonstration meets housing quality standards established or approved by HUD (Section 204(c)(3)(E) of Pub. L. No. 104-134 (42 USC 1437f (note))).

In addition, the following sections of the 1937 Housing Act continue to apply:

6. The term “low-income families” is defined by reference to Section 3(b)(2) of the 1937 Housing Act (42 USC 1437a(b)(2)) (Section 204(b) of Pub. L. No. 104-134 (42 USC 1437f (note)));
7. Section 18 of the 1937 Housing Act (42 USC 1437p), which governs demolition and disposition, applies to public housing notwithstanding any use of the housing under MTW (Section 204(e)(1) of Pub. L. No. 104-134 (42 USC 1437f (note))); and
8. Section 12 of the 1937 Housing Act (42 USC 1437j), which governs wage rates and the community service requirement, applies to housing assisted under MTW, other than housing assisted solely due to occupancy by

families receiving tenant-based assistance (Section 204(e)(2) of Pub. L. No. 104-134 (42 USC 1437f (note))).

C. The Moving to Work Agreement

The Standard MTW Agreement, Attachments and Amendments

A Standard MTW Agreement was developed in 2008 by HUD in consultation with existing MTW Agencies. The Standard MTW Agreement, initially set up for a ten-year period from 2008–2018, was extended to 2028. It consists of the following:

1. *Attachment A* of the Standard MTW Agreement contains the calculation of subsidies, customized for each individual PHA.
2. *Attachment B* of the Standard MTW Agreement contains standard reporting requirements that apply to all MTW Agencies. The Standard MTW Agreement provides a mechanism, through the submission of MTW annual plans and Reports, for HUD to review and approve new MTW activities and for PHAs to share their anticipated and actual activity outcome data with HUD and the PHA’s stakeholders. Activities approved in the Annual MTW Plan must be reported in the ongoing activities section as stipulated in Attachment B.
 - (1) *Annual MTW Plans*

The PHA will prepare and submit an Annual MTW Plan, in accordance with Attachment B, or equivalent HUD form. The Annual MTW Plan is due no later than 75 days prior to the start of the PHA’s fiscal year. HUD will respond to the PHA within 75 days after receiving the Annual MTW Plan. If HUD does not respond to the PHA within 75 days after an on-time receipt of the PHA’s Annual MTW Plan, the PHA’s Annual MTW Plan is approved and the PHA is authorized to implement that Plan. If HUD does not receive the PHA’s Annual MTW Plan 75 days before the beginning of the PHA’s fiscal year, the PHA’s Annual MTW Plan is not approved until it is submitted and HUD responds.

- (2) *Annual MTW Reports*

The PHA will prepare Annual MTW Reports, including the required information in HUD Form 50900, which will provide information on the status and outcomes of the activities approved in the Annual MTW Plan (see III.L.2.c, “Reporting – Performance Reporting”).

3. *Attachment C of the Standard MTW Agreement* contains a standard statement of authorizations that all MTW PHAs may carry out under the MTW Demonstration. The authorizations in Attachment C include acceptable uses of MTW funds and administrative activities related to both Public Housing (Assistance Listing 14.850) and Section 8 Housing Choice Vouchers (Assistance Listing 14.871), authorizations related to Public

Housing only, authorizations related to Section 8 Housing Choice Vouchers only, and authorizations related to family self-sufficiency.

4. *Attachment D of the Standard MTW Agreement* contains a statement of agency-specific authorizations that are customized for each individual PHA. This may include, but is not limited to, legacy and community-specific authorizations, authorizations related to both Public Housing and Section 8 Housing Choice Vouchers, authorizations related to public housing only and authorizations related to Section 8 Housing Choice Vouchers only, acceptable uses of MTW funds, asset management, and administrative issues.
5. The *First Amendment to the Standard MTW Agreement* deletes Section I.E. of the Standard MTW Agreement. Section I.E. of the Standard MTW Agreement states that “Notwithstanding any provision set forth in this Restated Agreement, including without limitations, the term of years and all extensions, renewals and options, and the terms set forth herein otherwise, any federal law that amends, modifies, or changes the aforementioned term of years and/or other terms of this Restated Agreement shall supersede this Restated Agreement such that the provisions of the law shall apply as set forth in the law.” The First Amendment replaces Section II.F of the Standard MTW Agreement and inserts new language regarding local asset management. The First Amendment also addresses financial reporting requirements and other reporting requirements pertaining to the Annual MTW Plan and Report under Attachment B. PHAs are not required to sign the First Amendment.

D. The Operations Notice for the Expansion of the MTW Demonstration Program

The MTW Operations Notice was developed pursuant to the Consolidated Appropriations Act of 2016. The MTW Operations Notice establishes requirements for the implementation and continued operation of the MTW demonstration program, for the term of the MTW Annual Contributions Contracts (“the ACC”) amendment once an agency is designated. The appendices to the Operations Notice provide agencies specific information as related to the requirements of the MTW demonstration. The appendices consist of the following:

1. *Waivers* and associated activities afford MTW agencies the opportunity to use their MTW authority to pursue locally driven policies, procedures, and programs in order to further the goals of the demonstration. When implementing MTW waivers through MTW activities, MTW agencies must ensure assisted families are made aware of the impacts the activity(ies) may have on their tenancy. MTW agencies may pursue waivers under the four categories: MTW Waivers, Safe Harbor Waivers, Agency-Specific Waivers, and Cohort-Specific Waivers.

2. An *MTW Supplement* is a submission by MTW agencies as part of their Annual PHA Plan. MTW agencies must submit to HUD the Annual PHA Plan, including any required attachments, and the MTW Supplement no later than 75 days prior to the start of the agency's fiscal year. Per the MTW Operations Notice, while MTW agencies that are qualified under 24 CFR 903.3(c) are not required to submit the Annual PHA Plan, they are required to submit the MTW Supplement on an annual basis.
3. The *MTW ACC Amendment* is an amendment to the ACC between the PHA and HUD to designate the PHA as part of the MTW demonstration. The ACC amendment outlines the term of the demonstration for 20 years, and the requirements and covenants to follow the MTW operations notice, participate in a cohort study, and the PHA's exemptions from specific provisions of the Housing Act of 1937, the necessary transition plan for when a PHA leaves the demonstration. Additionally, it includes the conditions under which a PHA may be found in default of the MTW demonstration and the remedies HUD may undertake, including the PHA's possible termination from the program.

E. Procedure for Budget Flexibility

PHAs in the MTW Demonstration program have considerable flexibility in determining how to use federal funds. They are allowed to combine funds from the Public Housing Operating (Assistance Listing 14.850) and Capital Fund (Assistance Listing 14.772) Programs and the Housing Choice Voucher (Assistance Listing 14.871) tenant-based rental assistance program to meet the purposes of the demonstration if they have requested the use of *Authorization B.1 – Single Fund Budget with Full Flexibility* from Attachment C of the Standard MTW Agreement via an Annual MTW Plan that was approved by HUD.

Source of Governing Requirements

The MTW program is authorized by Section 204 of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Pub. L. No. 104-134, dated April 26, 1996, 110 Stat 1321-281)). The requirements in the Housing Act of 1937 listed above and the other statutes that apply to the three programs apply to MTW Agencies, including environmental requirements. In addition, the following sections of the Housing Act of 1937 apply: Section 3(b)(2) (42 USC 1437a(b)(2)); Section 12 (42 USC 1437j); and Section 18 (42 USC 1437p).

Availability of Other Program Information

Additional information regarding the Moving to Work Demonstration program is available on HUD's website at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/programs/ph/mtw. The Office of Public and Indian Housing notices are available at http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/regs.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	N	N	N	N	N	Y	N	Y

A. Activities Allowed or Unallowed

The authorizations in Attachment C of the Standard MTW Agreement and the Appendixes I and II of the MTW Operations Notice include acceptable uses of MTW funds and administrative activities related to both Public Housing (Assistance Listing 14.850) and Section 8 Housing Choice Vouchers (Assistance Listing 14.871), authorizations related to Public Housing only, authorizations related to Section 8 Housing Choice Vouchers only, and authorizations related to family self-sufficiency. Unless otherwise stated in Attachment D of the Standard MTW Agreement, the MTW Demonstration Program applies to all of the PHA’s public housing-assisted units (including PHA-owned properties and units comprising a part of mixed-income, mixed finance communities), tenant-based Section 8 voucher assistance, Section 8 project-based voucher assistance under Section 8(o) and Homeownership units developed using Section 8(y) voucher assistance.

Activities using the authorizations granted in Attachment C of the Standard MTW Agreement or Appendices I and II of the MTW Operations Notice must be included in the PHA's Annual MTW Plan in accordance with the Revised HUD Form 50900 or MTW Supplement to the PHA Plan, respectfully, and subsequently approved by HUD. HUD will review these activities in order to verify that they are within the MTW authorizations provided by HUD. All activities must be approved before the PHA can implement that activity. Lists of approved activities for the MTW agencies designated under the 1996 MTW Statute can be found in the Ongoing Activities Section of the PHA's HUD Form 50900, Annual MTW Plan and Annual MTW Report. Similarly, lists of approved activities for the MTW agencies designated, or those who have elected to come under the MTW Operations Notice, can be found in the MTW Supplement.

B. Allowable Costs/Cost Principles

The amount of salary, including bonuses, of PHA chief executive officers, other officers, and employees paid with Section 8 Housing Choice Vouchers administrative fees and Section 9 Capital and Operating funds may not exceed the annual rate of basic pay payable for a federal position at Level IV of the Executive Schedule (currently \$183,500) (Section 227 of Pub. L. No. 113-235, 128 Stat. 2756, December 16, 2014, and carried forward in each subsequent appropriations act). Implementing guidance has been issued in PIH Notice 2016-14, "Guidance on Public Housing Agency (PHA) salary restriction in HUD's annual appropriations"

http://portal.hud.gov/hudportal/HUD?src=/program_offices/public_indian_housing/publications/notices.

MTW agencies are authorized to use amounts received through the Public Housing Operating Fund, Capital Fund, and HCV Program flexibly. Implemented activities and use of MTW Funding flexibility under MTW is designed to meet one of three statutory objectives: achieving cost efficiencies, promoting self-sufficiency among residents, and/or increasing housing choice. It is the expectation that agencies exercise sound fiscal management to ensure the continuous operation of its agency and satisfaction of the MTW demonstration's statutory objectives.

For MTW agencies subject to the MTW Agreement, any implemented MTW activity must cite one or multiple Attachment C authorizations in the Standard MTW Agreement and be contained in an approved Annual MTW Plan. MTW agencies cannot implement any activities outside of the authorizations contained in the Standard MTW Agreement (including its attachments).

For MTW agencies subject to the MTW Operations Notice, any implemented MTW Waiver, Agency-Specific Waiver, Safe Harbor Waiver, and Cohort-Specific Waiver must be contained in an approved MTW Supplement to the PHA Plan.

C. Cash Management

Congress provides funding for the HCV and Public Housing programs through annual appropriation acts. HUD then allocates and awards funding to PHAs in accordance with the appropriations acts. PHAs participating in the MTW demonstration are subject to the financial management requirements that apply to non-MTW agencies.

For those MTWs agencies administering the HCV program, Notice PIH 2017-06 establishes the cash management procedures for controlled disbursement of federal funds. This includes, but is not limited to, the drawdown of Housing Assistance Payment (HAP) funds for landlord payments, and the drawdown of HAP funds for non-HAP purposes, such as payments for development contracts or other eligible MTW activities.

MTWs with public housing under an ACC are subject to 24 CFR Part 990, with the exception of 11 PHAs with alternative funding formulas, as articulated in their Standard MTW Agreements. This includes PHAs that have not received operating subsidy previously, but are eligible for operating subsidy under the Operating Fund Formula.

MTW agencies are to comply with all HUD and Treasury fiscal requirements. No flexibility under the MTW demonstration permits an agency to waive any requirements regarding cash management. MTW agencies are subject to the same cash management requirements as non-MTW agencies.

E. Eligibility

1. Eligibility for Individuals

Beneficiaries must be “low-income families,” as defined in Section 3(b)(2) of the 1937 Housing Act (42 USC 1437a(b)(2)) (Section 204(b) of Pub. L. No. 104-134 (42 USC 1437f (note))).

2. Eligibility of Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting

1. Financial Reporting

a. *SF-270, Request for Advance or Reimbursement* – Not Applicable

b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable

c. *SF-425, Federal Financial Report* – Not Applicable

- d. *Financial Reports (OMB No. 2535-0107)* – Financial Assessment Subsystem, FASS-PH. The Uniform Financial Reporting Standards (24 CFR section 5.801) require PHAs to submit timely GAAP-based unaudited and audited financial information electronically to HUD (see Section 13, Moving to Work (MTW) Agencies Reporting to FASS-PH, of Notice PIH-2012-21 (HA), issued May 10, 2012).

Key Line Items – The following line items contain critical information:

1. FDS Line 111 – (Cash-unrestricted)
2. FDS Line 114 – (Cash-tenant security deposits)
3. FDS Line 120 – (Total receivables – net of allowances for doubtful accounts)
4. FDS Line 122 – (Accounts receivable – HUD other projects)
5. FDS Line 131 – (Investments – unrestricted)
6. FDS Line 132 – (Investments – restricted)
7. FDS Line 142 – (Prepaid expenses and other assets)
8. FDS Line 144 – (Inter-program – due from)
9. FDS Line 145 – (Assets held for sale)
10. FDS Line 310 – (Total current liabilities)
11. FDS Line 331 – (Accounts payable – HUD PHA programs)
12. FDS Line 342 – (Deferred revenue)
13. FDS Line 345 – (Other current liabilities)
14. FDS Line 346 – (Accrued liabilities – other)
15. FDS Line 347 – (Inter-program – due to)
16. FDS Line 508.1 – (Invested in capital assets, net of related debt)
17. FDS Line 511.1 – (Restricted Net Assets)
18. FDS Line 512.1 – (Unrestricted net assets)
19. FDS Line 96900 – (Total operating expense)
20. FDS Line 97100 – (Extraordinary maintenance)

21. FDS Line 97200 – (Casualty losses – non-capitalized)
22. FDS Line 97300 – (Housing assistance payments)
23. FDS Line 97350 – (HAP portability – in)
24. FDS Line 97800 – (Dwelling units rent expense)
25. FDS Line 10010 – (Operating transfers in)
26. FDS Line 10020 – (Operating transfers out)
27. FDS Line 10030 – (Operating transfers from/to primary government)
28. FDS Line 10093 – (Transfers between programs and projects in)
29. FDS Line 10094 – (Transfers between programs and projects out)

2. Performance Reporting

Not applicable

3. Special Reporting

HUD-50058-MTW, Family Report (OMB No. 2577-0083) – The information on this form is submitted to HUD through the Inventory Management System/Public and Indian Housing Information Center (IMS/PIC). The use of the HUD-50058 MTW form is restricted to the Initial 39 MTW agencies; the new 100 agencies brought onto the MTW demonstration through the Consolidated Appropriations Act of 2016 will report to HUD using the HUD-50058 MTW Expansion Family Report (OMB No. 2577-0083). Data must be submitted each time the PHA completes an admission, annual reexamination, interim reexamination, portability move-in, or other change of unit for a family. The PHA must also submit the Family Report when a family ends participation in the program or moves out of the PHA's jurisdiction under portability.

Key Line Items – The following line items contain critical information from the HUD-50058, HUD 50058-MTW and HUD 50058 MTW Expansion that is documented in the recipient's file:

1. Line 1c – Program
2. Line 2a – Type of action
3. Line 2b – Effective date of action
4. Line 2k – FSS participation now or in the last year

5. Line 3b, 3c – Last name, First name
 6. Line 3e – Date of birth
 7. Line 3n – Social Security Numbers
 8. Line 5a – Unit address
 9. Line 5h – Date unit last past HQS inspection
 10. Line 5i – Date of last annual HQS Inspection
 11. Line 7i – Total annual income
 12. Line 13h – Contract rent to owner (only if MTW PHA has a Section 8 moderate rehabilitation program)
 13. Line 13k – Tenant Rent
 14. Line 13x – Mixed family tenant rent
 15. Line 17a – Participation in special programs – Participation in the Family Self Sufficiency (FSS) Program
 16. Line 17k(2) – FSS account information – Balance
- 4. Special Reporting for Federal Funding Accountability and Transparency Act**
- See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements With respect to public housing, the PHA must comply with federal-wide or HUD-determined wage rate requirements of Section 12 of the Housing Act of 1937 (42 USC 1437j(a) and (b)).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Reasonable Rent Policy

Compliance Requirements MTW agencies are required to establish a reasonable rent policy, which shall be designed to encourage employment and self-sufficiency by participating families, consistent with the purpose of this demonstration, such as by excluding some or all of a family's earned income for purposes of determining rent. The rent policy must be in the Annual MTW Plan and Reports (Section 204(c)(3)(B) of Pub. L. No. 104-134 (42 USC 1437f (note))) or the MTW Supplement.

Audit Objectives Determined whether the PHA has implemented a reasonable rent policy.

Suggested Audit Procedures

- a. Review the reasonable rent policy in the Annual MTW Plan and reports.
- b. Verify that the reasonable rent policy has been implemented.

3. Housing Quality Standards

Compliance Requirements MTW Agencies must ensure that housing assisted under the demonstration program meets housing quality standards established or approved by the Secretary. The HCV program regulations at 24 CFR sections 982.401 through 982.405 set forth basic housing quality standards (HQS) which all units must meet, and the PHA must verify by inspection, before initial assistance can be paid on behalf of a family and at least annually throughout the term of the assisted tenancy. Current HQS regulations consist of 13 key aspects of housing quality, performance requirements, and acceptability criteria to meet each performance requirement. HQS include requirements for all housing types, including single and multi-family dwelling units, as well as specific requirements for special housing types, such as manufactured homes, congregate housing, single room occupancy, shared housing, and group residences (Section 204(c)(3)(E) of Pub. L. No. 104-134 (42 USC 1437f (note))).

Audit Objectives Determine whether the PHA has implemented procedures to ensure that units meet HUD housing quality standards.

Suggested Audit Procedures

- a. Review the Annual MTW Plan or MTW Supplement to determine how HQSs are proposed to be implemented. The PHA should explain whether it plans to follow HQS as established by HUD or if it plans to develop a local HQS standard that is at least as stringent as the HUD standard.
- b. Verify by a review of documentation that the PHA identifies those units on which housing quality inspections are due.
- c. Verify by a review of documentation that the PHA performs inspections of these units and that any needed repairs were completed timely.

IV. OTHER INFORMATION

An MTW agency may utilize MTW Funding flexibility using three programs: Section 8 Housing Choice Vouchers (Assistance Listing 14.871); Public Housing Capital Fund (Assistance Listing 14.872); and Public and Indian Housing (Assistance Listing 14.850).

If a PHA is operating under an MTW Agreement, the auditor should look to the MTW Agreement to determine which funds are included in the MTW Agreement. Similarly, an auditor

should look to the MTW Operations Notice for a PHA operating under the MTW Operations Notice. The amounts transferred into the MTW account are subject to the requirements of the MTW Agreement and should be included in the audit universe and total expenditures for MTW Agencies (Assistance Listing 14.881) when determining Type A programs. On the Schedule of Expenditures of Federal Awards, the amounts transferred in should be shown as expenditures for the MTW program.

If the MTW agency does not set up a separate MTW account but uses the flexibility of the MTW demonstration program to transfer funds among the three programs, the accounts would become MTW accounts and would need to be identified as MTW funds.

If the MTW agency does not transfer all of the funds from a program into the MTW account or another of the three programs, the remaining funds would be considered, and audited, under the Assistance Listing number for that program.

The auditor should review the agency's specific MTW agreement, attachments, and amendments for the authorizations applicable to each MTW agency.

Alternative Operating Subsidy PHAs: Baltimore, Cambridge, Chicago, Delaware, Lawrence-Douglas, New Haven, Oakland, Philadelphia, Pittsburgh, Home Forward (Portland), and Seattle.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ASSISTANCE LISTING 14.888 LEAD-BASED PAINT CAPITAL FUND PROGRAM AND RESIDENTIAL HEALTH HAZARDS CAPITAL FUND

I. PROGRAM OBJECTIVES

This program is comprised of the Lead-Based Paint Capital Fund (LBPCF) and the Residential Health Hazards Capital Fund (RHHCF). The LBPCF is for Public Housing Authorities (PHAs) to evaluate and reduce lead-based paint hazards in public housing. The LBPCF provides competitive grants to PHAs to evaluate and reduce lead-based paint hazards in public housing by carrying out the activities of risk assessments, abatement, and interim controls (as those terms are defined in section 1004 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 USC 4851b)).

The RHHCF promotes competitive grants to help PHAs identify and eliminate housing-related hazards in public housing such as mold, carbon monoxide, pest infestation, radon, fire hazards and other housing hazards. These are competitive grants to public housing agencies to evaluate and reduce other housing-related hazards including carbon monoxide and mold in public housing.

II. PROGRAM PROCEDURES

A. Overview

In Fiscal Year (FY) 2022, HUD combined Lead-Based Paint and Residential Health Hazards funding under one combined Notice of Funding Opportunity (NOFO.). HUD has set aside up to \$65 million of which \$25 million is dedicated to Lead-Based Paint hazards. These grants support PHAs as they address the safety of public housing residents. LBPCF grants may be used for lead-based paint inspection, risk assessment, clearance exams, relocation, and hazard controls. RHHCF funds were set aside to assist PHAs to identify and eliminate housing-related hazards in public housing such as mold, carbon monoxide, pest infestation, radon, fire hazards and other housing hazards. PHAs submit a competitive application for these funds. The funding is allocated based on application score.

For LBPCF grants, HUD has set aside \$25 million within the Capital Fund account to assist PHAs with lead-based paint challenges. These grants support PHAs as they address the safety of public housing residents. LBPCF grants may be used for lead-based paint inspection, risk assessment, clearance exams, relocation, and hazard controls. PHAs submit a competitive application for this funding. The funding is allocated based on application score. LBPCF grants are also covered under 14.872 compliance supplement.

For RHHCF grants, the Department has set aside \$40 million. These funds were set aside to assist PHAs to identify and eliminate housing-related hazards in public housing such as mold, carbon monoxide, pest infestation, radon, fire hazards and other housing hazards. PHAs submit a competitive application for this funding. The funding is allocated

based on application score. RHHCF grants are also covered under 14.872 compliance supplement.

B. Subprograms/Program Elements

Below outlines the Capital Fund Program's general grant process. The LBPCF and RHHCF are subject to this process.

Prior to submitting the five-year action plan to HUD for review and approval, a PHA must annually conduct a public hearing and consult with the Resident Advisory Board (RAB) of the PHA to discuss the Capital Fund submission. The PHA may elect to conduct a separate annual public hearing in order to solicit public comments or to hold the annual public hearing at the same time as the hearing for the Annual PHA Plan, the 5-Year Plan, or the required annual hearing for qualified public housing authorities. The hearing must be conducted at a location that is convenient to the residents served by the PHA.

In FY 2018, the CFP 5-Year Action Plan and Annual Statement/Budget submission was moved to an electronic platform called EPIC for submission and approval. A PHA must have an approved 5-Year Action Plan (HUD 50075.2 (*OMB No. 2577-0226*)) and Document package in EPIC to have access to Capital Funds. Once a PHA submits an Annual Statement/Budget in EPIC (HUD 50075.1), it spreads Capital Funds to all of the appropriate budget line items (BLIs) in the Line of Credit Control System (LOCCS) in accordance with the information contained in the 5-Year Action Plan (HUD 50075.2). A PHA can then drawdown funds as needed on a three-day turnaround basis to pay for approved work activities. The three-day turnaround means the PHA expends the funds drawn down from LOCCS within three business days.

In planning its LBPCF and/or RHHCF projects, the PHA is required to consult with residents and local government officials. After grant award, the PHA may select an architect or engineer through competitive negotiation to develop the plans and specifications for the construction work. Construction work as well as management improvements may be carried out through contract labor (competitively procured) or the PHA's own work force (force account). The PHA or its architect monitors the work in progress for compliance with contract requirements and acceptable work quality and submits periodic progress reports to HUD.

C. Other

In accordance with HUD's Uniform Financial Reporting Standards rule, annually, a PHA is required to submit financial statements, prepared in accordance with generally accepted accounting principles (GAAP), in the electronic format specified by HUD. The unaudited financial statement will be required two months after the PHA's fiscal year end (FYE) and the audited financial statement is due nine months after its FYE (24 CFR section 5.801). The financial statement must include the financial activities of this program.

PHAs submit an actual modernization cost certificate (AMCC) form HUD-53001 with the local HUD Field Office for approval when they complete a LBPCF and/or RRHCF project. The AMCC is required for LBPCF and/or RRHCF grant closeout.

Source of Governing Requirements

The programs are authorized under 42 USC 1437g. The program implementing regulation is 24 CFR Part 905.

Availability of Other Program Information

HUD posts guidance on the LBPCF and/or RRHCF to its Office of Capital Improvements Home Page that provides grantees with information on timelines, budgets, financial instructions, and other program guidance. Information regarding the financial reporting requirements of the PHAs is provided by HUD on the Real Estate Assessment Center (REAC) website.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a

compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	N	Y	Y	N	N	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

- a. For LBPCF grants allowed Capital Fund activities include the following: activities of lead-based paint risk assessments, inspections, abatement, interim controls, clearance examinations and relocation. Other work in the property, including work to prepare for lead hazard control (e.g., repairs to the substrate, fixing leaks or other renovations) shall be funded by other sources.
- b. For RHHCF grants, allowed Capital Fund activities include the following: activities associated with the housing-related hazard(s) identified in the PHA application and approved by HUD. Other work in the property, including work to prepare for hazard control (e.g., repairs to the substrate, fixing leaks or other renovations) shall be funded by other sources.

2. *Activities Unallowed*

A PHA may not incur any cost in excess of the total HUD-approved PHA Annual Statement/Budget. Budget revisions may be submitted in EPIC for deviations from the originally approved program. A PHA shall not incur any cost on behalf of any development that is not covered by its current approved 5-Year Action Plan (24 CFR section 905.200(a)).

This following list describes ineligible activities and costs for the Capital Fund Program:

- a. Not Related to Public Housing. PHAs may not spend Capital Funds on costs that are not associated with a Public Housing Development or Modernization Project.

- b. Not in 5-Year Action Plan. PHAs may not spend Capital Funds on activities and costs that are not included in the PHA's 5-Year Action Plan (Emergency Work or Non-Presidentially Declared Natural Disaster assistance that is not identified in the 5-Year Action Plan is an eligible cost).
- c. Not Modest Design. PHAs may not spend Capital Funds on improvements or purchases that are not considered modest in design and cost because they include amenities, materials, and design in excess of what is customary for the locality, as determined by the PHA and Field Office. These include, but are not limited to, swimming pools, saunas, whirlpool baths, and hot tubs.
- d. Not Eligible based on OMB Regulatory and Circular Guidance. PHAs may not spend Capital Funds on any costs not authorized in 2 CFR Part 200 (formerly OMB Circular A-87 and 2 CFR Part 225), including indirect Administrative Costs, indemnification, and capitalizing reserves.
- e. Operating Assistance. PHAs may not spend Capital Funds on Public Housing operating assistance, except as provided through transfers to BLI 1406.
- f. Benefitting Other Programs. Eligible costs that exceed the amount directly attributable to the public housing units when the physical or management improvements, including salaries and employee benefits and contributions, will benefit programs other than public housing, such as Section 8 Housing Choice Voucher, or local revitalization programs.

For example, the annual audit covers the breadth of the PHA's activities such as the Operating Fund, Capital Fund, Housing Choice Vouchers, and non-federally funded activities. Only a pro rata share of the Audit cost attributable to the Capital Fund may be charged to the Capital Fund.

- g. Security Services. Ongoing security services, including:
 - Contracts with local police departments including above baseline police services except where permitted by HUD FY Appropriations Acts;
 - The salaries and benefits for security guards, patrols, or police officers (either full-time, part-time, or after hours); and
 - The purchase or leasing of vehicles for security personnel.
- h. Supportive Services. The provision of supportive services to public housing residents, including:

- The salaries and benefits or contract costs for service providers, including resident coordinators, case managers, social workers, nurses, chore service providers, supplemental police or probation services providers, and tutors;
 - Health and wellness activities;
 - Educational enrichment and recreational activities, including social organizations; and
 - Job development and placement services, including the cost of professional licenses, certifications and exams, and transportation assistance.
- i. Duplicate Funding. An otherwise eligible cost that is funded by another source and would result in duplicate funding. Duplicate funding can be other federal, state, and non-federal programs; and
- j. Other Activities. Any other activities and costs that HUD may determine are ineligible on a case-by-case basis, consistent with the 1937 Act and its regulations.

LBPCF and RHHCF grants may not be used for any activities that are not both part of the original application and approved by HUD.

Additionally, LBPCF and RHHCF grants are restricted to specific budget line items (BLIs) by the applicable Notice of Funding Availability (NOFA) and/or Notice of Funding Opportunity (NOFO). PHAs may not place funds in a BLI that is not supported by the NOFA/NOFO.

B. Allowable Costs/Cost Principles

Allocation of Costs with Other Programs. Where the physical or management improvement costs will benefit programs other than public housing, such as the Housing Choice Voucher program or local revitalization programs, Capital Fund-eligible costs are limited to the amount directly attributable to the public housing program.

The amount of salary, including bonuses, of PHA chief executive officers, other officers, and employees paid with Section 8 Housing Choice Vouchers administrative fees and Section 9 Capital and Operating funds may not exceed the annual rate of basic pay payable for a federal position at Level IV of the Executive Schedule () (Section 227 of Pub. L. No. 113-235, 128 Stat. 2756, December 16, 2014, and carried forward in each subsequent appropriations act). Implementing guidance has been issued in PIH Notice 2016-14, "Guidance on Public Housing Agency (PHA) salary restriction in HUD's annual appropriations." The Executive Schedules for each year are posted at: <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/#url=2023>. The current level IV for 2023 is \$183,500 (see [Compliance Supplement 2023](https://www.opm.gov/policy-data-</p></div><div data-bbox=)

[oversight/pay-leave/salaries-wages/salary-tables/pdf/2023/EX.pdf](https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/salary-tables/pdf/2023/EX.pdf)). The level IV for 2022 is \$176,300 (See <https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/salary-tables/pdf/2022/EX.pdf>.)

H. Period of Performance

1. Unless an extension is approved by HUD, a PHA must obligate at least 90 percent of each LBPCF and/or RHHCF grant within 24 months of the funds becoming available to the PHA for obligation. The funds become available when the HUD executes the ACC Amendment (24 CFR section 905.306).
2. For LBPCF and/or RHHCF grants, unless HUD approves an extension, a PHA must expend all grant funds no later than 48 months after HUD executes the ACC Amendment (24 CFR section 905.306(f)).
3. Obligations and expenditures are self-reported in the Line of Credit Control (LOCCS) treasury disbursement system. The accuracy of the obligation and expenditure grant reporting data in the LOCCS is critical to determine the period of performance.

N. Special Tests and Provisions

1. Capital Funds for Operating Costs

Compliance Requirements Capital Funds transferred to operations (BLI 1406) are not considered obligated until the PHA has budgeted and drawn down the funds. To meet this requirement, the funds must be budgeted in line BLI 1406 (Operations) and the PHA must submit the voucher request in LOCCS. The PHA's reported obligation amount in LOCCS must be the same amount in the PHA's accounting system since the date of the voucher request in LOCCS is the point of obligation for funds in BLI 1406. The voucher request date must occur before those funds are reported as obligated in LOCCS under the Obligation & Expenditure tab (24 CFR section 905.314(l)).

Audit Objectives Determine whether obligations for operations costs are recorded properly.

Suggested Audit Procedures

- a. Review the PHA's vouchers for funds expended from BLI 1406.
- b. Examine the voucher request dates against the reported obligation amounts in the LOCCS Obligation & Expenditure tab.
- c. Verify that the voucher request dates were before the funds were reported as obligated and the dollar value of the voucher requests corresponds to the reported obligated amount.

2. Cash Management

The funds are to be disbursed from the grantee's bank account within 3 business days (3-day Treasury Rule) of funds being deposited into the grantee's bank account from LOCCS.

Audit Objectives Determine whether the expense was paid within 3 business days of funds deposited into grantee bank account to the vendor.

Suggested Audit Procedures

- a. Obtain from LOCCS the voucher detail the includes voucher number, BLI's and estimated deposit date.
- b. Request from grantee a copy of the bank statement to confirm date of deposit into grantee bank account.
- c. Request from grantee copies of the expenses/ invoices associated with the voucher request.
- d. Request from grantee an accounts payable report to verify the check was issued to vendor within 3 business days of grantee receiving funds in bank account.

3. Obligation and Expenditure Verification

Compliance Requirements: Unless an extension is approved by HUD, a PHA must obligate at least 90 percent of each Capital Fund grant, including formula grants, RHF, natural disaster, and lead-based paint grants within 24 months of the funds of becoming available to the PHA for obligation. For emergency grants, safety and security grants and safety and security-carbon monoxide grants, the PHA must obligate at least 90 percent within twelve months of the funds becoming available. The funds become available when the HUD executes the ACC Amendment (24 CFR section 905.306). Obligations and expenditures are self-reported by the PHA in the Line of Credit Control (LOCCS) treasury disbursement system .

Audit objective: Determine that the obligation and expenditure grant reporting data in LOCCS is accurate.

Suggested Audit Procedures for Obligations:

- a. Obtain the grant contract (ACC Amendment) to verify the grant award dollar amount, and that the grant contract is executed with HUD and grantee signature and date;.
- b. Obtain from LOCCs the grantee reported obligations for the grant;.
- c. Request from the grantee supporting obligating documents such as a binding contract for work or financing that will result in outlays, immediately or in the future;.
- d. Review obligating document to verify that the obligation occurred during the 24-month regulated timeframe for formula grants, RHF, natural disaster, and lead-based paint grants and 12- month regulated timeframe for emergency grants, safety and security grants and safety and security-carbon monoxide grants;

- e. Review obligating document to verify that all dates coincide with the monthly obligation reporting in LOCCS;. and,
- f. Verify that the grantee reported at least 90% obligated by the OED deadline for all grants.

Suggested Audit Procedures for Expenditures:

- a. Obtain from LOCCs the grantee reported expenditures and voucher disbursements for the grant;
- b. Request from grantee all supporting expenditure documents such as invoices;
- c. Review each expenditure document to verify that the disbursement occurred during the 48-month regulated timeframe for formula grants, RHF, natural disaster, and lead-based paint grants and 24 - month regulated timeframe for emergency grants, safety and security grants and safety and security-carbon monoxide grants;
- d. Verify that all payment dates coincide with the monthly expenditure reporting in LOCCS;
- e. Verify that the invoices were not paid before the funds were vouchered and disbursed from LOCCS; the expended amount should never be more than the disbursed amount with the monthly reporting;
- f. Verify funds were disbursed from the grantee's bank account within 3 days of funds being deposited from LOCCS; and,
- g. Verify that the grantee reported 100% expended by the EED deadline for all grants.

4. Debt Secured to Public Housing Asset

Compliance Requirements PHAs are only permitted to borrow funds secured to public housing assets (including real property, other PHA owned property purchased with federal grant funds and CFP grant funds themselves) if they have obtained HUD's authorization prior to creating a security interest in public housing assets. This requirement does not prohibit a PHA from borrowing funds that are unsecured or that are not secured to public housing assets. In granting the required authorization, HUD will issue both an approval letter as well as a CFFP ACC Amendment (42 USC 1437z-2).

Audit Objectives Determine whether any debt incurred by the PHA that is secured to public housing assets is duly authorized by HUD.

Suggested Audit Procedures

- a. Review the PHAs balance sheet to determine if the PHA has incurred a debt.

- b. Examine the documentation that evidences the debt (loan /bond agreement, etc.) to determine if the debt is secured to public housing assets.
- c. If the debt is secured to public housing assets, verify that the PHA has the required HUD approval letter authorizing the debt.

5. Insurance Proceeds

Compliance Requirements PHAs are required to use insurance proceeds to promptly restore, reconstruct, and/or repair any damaged or destroyed property of a project, except when a written approval of HUD instructs a PHA to do otherwise. Unspent insurance proceeds are normally recorded as cash-restricted modernization and development, FDS line 112, up to the amount of the repair (Section 13 of Part A of ACC).

Emergency and Natural Disaster Reserve – In cases of unforeseeable and unpreventable emergencies that include damages to the physical structure of the housing stock, PHAs may request funding from the Emergency and Natural Disaster Reserve of the Capital Fund, an appropriated set-aside of the Capital Fund. Such grants would have a “D” or an “E” as the fifth character in the grant number. The approval for these grants requires that the PHA pay first from any insurance proceeds, but while the PHA’s warranty or insurance policy may cover the damages fully or partially, it usually takes time for the PHA to receive the insurance proceeds. These grant funds may be used to cover any costs not met with insurance proceeds, but any remaining funds must be returned to HUD. If these grant funds are used before insurance proceeds are received, the PHA must pay back the Emergency and Natural Disaster Reserve.

Audit Objectives Determine whether the PHA has used its insurance proceeds to promptly repair claimed damages and has used the Emergency or Natural Disaster grant funds only for costs in excess of the insurance recoveries. Determine whether the PHA paid the funds back to Emergency and Natural Disaster Reserve, as may be required.

Suggested Audit Procedures

- a. Ascertain if the PHA has received any insurance proceeds for damaged or destroyed property.
- b. Ascertain if the PHA received a grant from the Emergency and Natural Disaster Reserve.
- c. Verify that insurance proceeds received in advance of contractor or repair bills are placed in a restricted cash account.
- d. Review contractor invoices and repair expenses to verify insurance proceeds were used to cover allowable expenses.
- e. Verify that the PHA used insurance proceeds to meet repair or replacement costs before using emergency or natural disaster grant funds.

- f. Verify that emergency or natural disaster grant funds not needed to meet the capital needs for which the grant was made were returned to HUD.

6. Environmental Review

Compliance Requirements An environmental review must be completed for any project or activities before a PHA may acquire, rehabilitate, convert, lease, repair, or construct property, or commit HUD or local funds at an assisted or to-be-assisted site.

Environmental review procedures for PHAs are given in PIH Notice 2016-22 HA, “Environmental Review Requirements for Public Housing Agencies.” The environmental reviews are not tied to specific grants but apply to all the operating and capital activities of the PHA for a five-year period. The Notice cites the governing regulations at 24 CFR parts 50 and 58 and describes the methods of review and types of determinations. All of these methods and types culminate in a final approval document signed by a HUD Approving Official. To be in compliance a PHA must have such an approval document with an approval date that is not over five years old. This approval may be in any the following forms:

- a. Form HUD-7015.16, “Authorization to Use Grant Funds”
- b. Form HUD-4128, “Environmental Assessment and Compliance Findings for the Related Laws”
- c. Form HUD-4128-OHF, “Environmental Assessment and Compliance Findings for the Related Laws”
- d. Determination Letter
- e. An electronic signature in the HUD Environmental Review Online System (HEROS)
- f. Activities listed in Notice 2016-22, Appendix A, require no further environmental review.

Audit Objectives Determine whether (1) the required environmental reviews have been performed, (2) exemptions to an environmental assessment are properly documented, and (3) program funds were not obligated or expended prior to completion of the environmental review process.

Suggested Audit Procedures

- a. Verify through a review of environmental review certifications that the environmental reviews were conducted for projects and activities unless an exemption was made.
- b. Select a sample of projects or activities when an environmental review was performed.

- c. Test whether program funds were committed only after the PHA has secured environmental clearance.

7. Wage Rate Requirements

Compliance Requirements Projects funded with Capital Funds that are developed and/or modernized in accordance with 24 CFR Part 905, Subpart F, including projects that contain only public housing units and mixed-finance projects are subject to the Wage Rate Requirements (42 USC 1437j(a) and (b); 24 CFR section 905.308).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

IV. OTHER INFORMATION

The Moving to Work (MTW) demonstration program (Assistance Listing 14.881) allows selected PHAs the flexibility to design and test various approaches to providing and administering housing assistance consistent with the MTW Agreement executed by the PHA and HUD.

An MTW agency may combine funds from the following three programs:

- Section 8 Housing Choice Vouchers (Assistance Listing 14.871)
- Public Housing Capital Fund (Assistance Listing 14.872)
- Public and Indian Housing (Assistance Listing 14.850)

Funds from LBPCF and/or RHHCF cannot be combined under the MTW Agreement.

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.000 BIA/BIE CROSS-CUTTING SECTION

INTRODUCTION

This section contains compliance requirements that apply to more than one program of the Bureau of Indian Affairs (BIA) or Bureau of Indian Education (BIE) in the Department of the Interior (DOI) because of requirements set forth in (1) the Indian Self Determination and Education Assistance Act (ISDEAA), as amended, and the Tribally Controlled Schools Act; and (2) 25 USC 450e-3 regarding the investment and deposit of BIA funds advanced to tribal organizations pursuant to the provisions of the ISDEAA and Tribally Controlled Schools Act of 1988. The compliance requirements in this BIA/BIE Cross-Cutting Section reference the applicable programs in Part 4, Agency Compliance Requirements. Similarly, the applicable programs in Part 4 reference this BIA/BIE Cross-Cutting Section.

Important: Due to program priorities, for 2019 each program may not have included all the cross-cutting section requirements within their “pick 6.” Past Compliance Supplements did not have a restriction for a maximum number of requirements; therefore, the cross-cutting section could apply to all impacted programs without consideration of the number of requirements. Agencies need to reconsider which requirements will remain in the cross-cutting section for future years; this will be addressed in the 2020 Compliance Supplement. For 2019, auditors are advised to use the program selections as the final guidance and not the cross-cutting section for the purposes of the 2019 audit.

Program	Assistance Listing No.	Program Name
ISDEAA Programs	15.021	Consolidated Tribal Government
ISDEAA Programs	15.022	Tribal Self-Governance
ISDEAA Programs	15.030	Indian Law Enforcement
ISDEAA Programs	15.047	Indian Education Facilities, Operations, and Maintenance
Tribally Controlled Schools Act	15.042	Indian School Equalization

I. PROGRAM OBJECTIVES

The ISDEAA, of which the Tribal Self-Governance Act is part, was implemented to establish meaningful Indian self-determination that will permit an orderly transition from the federal domination of programs for, and services to, Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services.

The Tribally Controlled Schools Act provides a grant process for the operation of schools funded by the BIE.

II. PROGRAM PROCEDURES

The ISDEAA and the Tribally Controlled Schools Act allow tribal organizations to draw down funds in advance of need. The frequency and timing of the drawdowns are set forth in the

statutes. The provision for advancing funds is to ensure sufficient capital for the delivery of program services.

The Tribal Self-Governance Act provides for advance payments to tribes and tribal consortia in the form of annual or semiannual payments at the discretion of the tribes (25 USC 458cc (g)(2)). The ISDEAA provides for payments to Indian tribes and tribal organizations on a quarterly basis, in a lump-sum payment, or as semiannual payments, or any other payment method authorized by law with such method as may be requested by the tribe or tribal organization (25 USC 4501(c)(b)(6)(B)(i)). The Tribally Controlled Schools Act provides for two payments per year: the first payment to be made not later than July 1 and the second payment not later than December 1 (25 USC 2506(a)(1)).

Prior to the expenditure of these funds for the purposes for which they were intended, these funds can be invested (25 USC 450e-3). Indian tribes and tribal organizations are not accountable to BIA/BIE for the income earned from these investments (25 USC 450j(b)).

III. COMPLIANCE REQUIREMENTS

B. Allowable Costs/Costs Principles

BIA/BIE programs in this Supplement that this section applies to are: Consolidated Tribal Government (15.021); Indian Law Enforcement (15.030); and Indian School Equalization (15.042).

Indian tribes and tribal organizations may without the approval of the BIA/BIE expend funds provided under a self-determination contract for purposes identified in 25 USC 450j-1(k), including the following, to the extent that the expenditure of the funds is supportive of a contracted program (25 USC 450j-1(k)).

1. Building, realty, and facilities costs, including rental costs or mortgage expenses.
2. Automated data processing and similar equipment or services.
3. Costs for capital assets and repairs.
4. Costs incurred to raise funds or contributions from nonfederal sources for the purpose of furthering the goals and objectives of the self-determination contract.
5. Interest expenses paid on capital expenditures, such as buildings, building renovation or acquisition or fabrication of capital equipment, and interest expenses on loans necessitated due to delays by the secretary in providing funds under a contract.
6. Expenses of a governing body of a tribal organization that are attributable to the management or operation of programs under ISDEAA.

H. Period of Performance

BIA/BIE programs in this Supplement that this section applies to are: Consolidated Tribal Government (15.021); Indian Law Enforcement (15.030); and Indian Education Facilities, Operations, and Maintenance (15.047).

Any funds appropriated under an ISDEAA contract or compact or a Tribally Controlled Schools Act grant are available until expended (25 USC 4501(c)(b)(9)).

N. Special Tests and Provisions

Investment and Deposit of Advance Funds

BIA/BIE programs in this Supplement that this section applies to are: Consolidated Tribal Government (15.021); Tribal Self-Governance (15.022); Indian Law Enforcement (15.030); and Indian School Equalization (15.042).

Compliance Requirements A tribe, tribal organization, or consortia receiving advance payments under the ISDEAA or the Tribally Controlled Schools Act may invest advance payments (some recipients refer to these advance payments as “deferred revenue”) before such funds are expended for the purposes of the grant, contract, or funding agreement, so long as such funds are (1) invested only in obligations of the United States or in obligations or securities that are guaranteed or insured by the United States, or mutual (or other) funds registered with the Securities and Exchange Commission and which only invest in obligations of the United States or securities that are guaranteed or insured by the United States; or (2) deposited only in accounts that are insured by an agency or instrumentality of the United States, or are fully collateralized to ensure protection of the advance funds, even in the event of a bank failure (25 USC 450e-3).

Audit Objectives Determine whether Indian tribes, tribal organizations, or consortia are properly investing or depositing advanced ISDEAA or the Tribally Controlled Schools Act funds.

Suggested Audit Procedures

- a. Obtain and review tribal policies and procedures for the investment and deposit of ISDEAA or the Tribally Controlled Schools Act funds and verify that those procedures comply with the investment and deposit requirements.
- b. Review unused/unexpended BIA/BIE advance funds and verify that all unused/unexpended funds were properly invested or deposited throughout the audit period.

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.021 CONSOLIDATED TRIBAL GOVERNMENT PROGRAM

I. PROGRAM OBJECTIVES

The objective of the Consolidated Tribal Government program is to provide funds for certain programs of an ongoing nature to Indian tribal governments in a manner which minimizes program administrative requirements and maximizes flexibility.

II. PROGRAM PROCEDURES

The Bureau of Indian Affairs (BIA) makes direct payments to federally recognized Indian tribal governments to carry out a variety of activities for which appropriations are made within the Tribal Priority Allocations activity of the BIA budget. For example, Scholarships, Johnson O'Malley, Job Placement and Training, and Agricultural Extension could be combined under a single contract for education and training. This allows tribal contractors greater flexibility in planning their programs and meeting the needs of their people. The simplified contracting procedures and reduction of tribal administrative costs allow for increased services under these contracts.

Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Title I, Pub. L. No. 93-638, as amended (25 USC 450 et seq.).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as "N," it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an "N." See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	N	Y	N	N	Y	N	Y

A. Activities Allowed or Unallowed

The ISDEAA provides for the expenditure of funds by Indian tribes and tribal organizations under self-determination contracts for programs and activities previously provided by the BIA. Funds may be used for a variety of programs and services that the federal government otherwise would have provided directly. The specific activities allowed will be indicated in the self-determination contract between the tribal organization and the secretary of the interior (25 USC 450f). While the tribe or tribal organization may propose to redesign the program or activity, such redesign must be approved by the BIA (25 USC 450j(j)).

B. Allowable Costs/Costs Principles

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

H. Period of Performance

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

Not Applicable

3. Special Reporting

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.022 TRIBAL SELF GOVERNANCE

I. PROGRAM OBJECTIVES

The objective of the Tribal Self-Governance program is to further the goals of the Indian Self-Determination and Education Assistance Act by providing funds to Indian tribes to administer a wide range of programs with maximum administrative and programmatic flexibility.

II. PROGRAM PROCEDURES

The Tribal Self-Governance Act of 1994 (25 USC 5361 et seq.) established tribal self-governance as a permanent option for tribal governments. Under tribal self-governance, Indian tribes have greater control and flexibility in the use of funds, reduced reporting requirements, and authority to redesign or consolidate programs, services, functions, and activities and to reallocate funds (25 USC 5363(b)). Tribes are selected from an applicant pool upon meeting certain eligibility requirements (25 USC 5362).

The Office of Self-Governance makes direct payments to federally recognized Indian tribal governments and tribal consortia authorized by federally recognized Indian tribal governments. Funds may be used to support tribal programs such as law enforcement, social services, welfare assistance payments, natural resource management and enhancement, housing improvement, and road maintenance (25 USC 5363(b)).

Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Title IV, Pub. L. No. 93-638, as amended (25 USC 5361 et seq.).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	N	N	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

The ISDEAA provides for the expenditure of funds by Indian tribes and tribal organizations under self-determination contracts or self-governance annual/multi-year funding agreements for programs and activities previously provided by the Bureau of Indian Affairs (BIA). Funds may be used for a variety of programs and services that the federal government otherwise would have provided directly. The specific activities allowed will be indicated in the funding agreement between the tribal organization and the secretary of the Interior (25 USC 5363(b) and (c)). Indian tribes and tribal consortia are provided latitude in redesigning programs and activities. However, such redesign is limited to programs covered by the annual/multi-year funding agreement (25 USC 5363(b)(3); 25 CFR section 1000.85).

ASSISTANCE LISTING 93.594 TRIBAL WORK GRANTS – NATIVE EMPLOYMENT WORKS (NEW)

ASSISTANCE LISTING 93.596 CHILD CARE MANDATORY AND MATCHING FUNDS OF THE CHILD CARE AND DEVELOPMENT FUND

Note: In February 2015, OMB approved a new reporting system for Pub. L. No. 102-477 Demonstration Projects (477). The reporting system maintained the prior reporting, referred to as “Version 1,” in which Indian tribal governments with an approved 477 Plan may continue to use through report periods ending in 2017. Effective for annual report periods ending after 2017, Indian tribal governments with an approved 477 Plan are required to use the new reporting forms referred to as “Version 2” (September 26, 2014, *Federal Register* [75 FR 57970]). The 477 program supplement for this cluster is applicable only to tribes who have started reporting under Version 2. If the Indian tribal government with an approved 477 Plan reports under Version 1 forms, then the auditor would use other applicable sections in the Supplement in the same manner as used in auditing under the 2016 Supplement (i.e., using Part 4 for programs/clusters included in that part or using Part 7 if not included in Part 4).

I. PROGRAM OBJECTIVES

Based upon a 477 Plan approved by the secretary of the Interior, an Indian tribal government (tribal government) is authorized to coordinate its federally funded employment, training, and related services grant programs in a manner that integrates the program services involved into a single, coordinated, comprehensive program with a single, integrated budget, and a single reporting system (25 USC 3401, 3403, and 3405).

The purposes of Pub. L. No. 102-477 are to demonstrate how Indian tribal governments can integrate the employment, training, and related services they provide in order to improve the effectiveness of those services, reduce joblessness in Indian communities, foster economic development on Indian lands, and serve tribally determined goals consistent with the policies of self-determination and self-governance (25 USC 3401).

II. PROGRAM PROCEDURES

A. Overview

Participation by a tribal government in a 477 Plan is completely voluntary. The lead federal agency is the Department of the Interior (DOI) and the coordinating federal partner agencies are the Department of Labor (DOL) and Health and Human Services (HHS).

Each 477 Plan is for up to a three-year period and is required to identify the federal grant programs to be integrated. There is no separate funding associated with Pub. L. No. 102-477. All the funds included in the 477 Plan are those which the tribal government would otherwise receive under the authority of the individual programs that are included in the 477 Plan.

While the 477 Cluster lists all of the possible programs which a tribal government may integrate into its 477 Plan, a particular tribe may decide not to include all of the listed programs in its 477 plan. The 477 Cluster for a particular tribal government will only include the programs listed in the 477 Cluster that are included in the tribal government's 477 Plan (25 USC 3405).

B. Administration of Funds

The tribal government is not required to report expenditures under its 477 Plan by Assistance Listing number.

In general, program funds under a 477 Plan must be administered in such a manner as to allow for a determination that funds from specific programs (or an amount equal to the amount transferred from each program) are spent on allowable activities authorized under such program. Pub. L. No. 102-477 does not require a tribal government to maintain separate records tracing any services or activities conducted under its 477 Plan to the individual programs under which funds were authorized, nor must a tribe be required to allocate expenditures among such individual programs (25 USC 3413(a)).

Administrative costs of programs under a 477 Plan may be commingled and participating tribal governments are entitled to the full amount of such costs under each applicable federal program, and no overage shall be counted for federal audit purposes, provided that the overage is used for the purposes approved in the 477 Plan (25 USC 3413(b)).

A single report format is used for the programs included in the 477 Plan such that, together with records maintained on the consolidated program at the tribal level, the

report contains sufficient information to allow a determination that the tribal government has complied with the requirements incorporated in its 477 Plan and will provide assurances that the tribal government has complied with all directly applicable statutory requirements and with those directly applicable regulatory requirements which have not been waived (35 USC 3410(b)).

Source of Governing Requirements

The combining of these programs is authorized under Pub. L. No. 102-477, the Indian Employment, Training, and Related Services Demonstration Act of 1992, as amended by Pub. L. No. 106-568, the Omnibus Indian Advancement Act of 2000 (25 USC 3401-3417).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	N	N	N	N	Y	N	Y

A. Activities Allowed or Unallowed

The expenditures included under each Functional Cost Category (Category), as listed on the Annual Financial Expenditure Report in lines 8.b through 8.f, must be properly classified in the Category and must be for activities allowable under the tribal government’s 477 Plan.

B. Allowable Costs/Cost Principles

As discussed in Appendix I to this Supplement, “Programs Excluded from A-102 Common Rule/Portions of 2 CFR Part 200,” the CCDF Cluster funds (Assistance Listings 93.575 and 93.596) are excluded from Subpart E of 2 CFR Part 200 at both the recipient and subrecipient levels. Similarly, CSBG (Assistance Listing 93.569) funds are excluded from Subpart E since tribal governments participating in 477 receive CSBG funds directly as a recipient. When funds are excluded from Subpart E, the tribal government must expend and account for CCDF and CSBG funds in accordance with the laws and procedures they use for expending and accounting for other nonfederal funds of the tribal government.

E. Eligibility**1. Eligibility for Individuals**

The expenditures included under each Category, as listed on the Annual Financial Expenditure report in lines 8.b through 8.d, must be properly classified in that Category and must be paid to the correct individual for the correct amount under the requirements of the tribal government’s 477 Plan.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request from Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *Public Law 102-477 Annual Financial Expenditure Report (Version 2) (OMB Control No. 1076-0135)* – This annual report must be submitted for each Plan Period until all of the funds available for the Plan Period have been fully expended and reported. For example, if there are Total Unexpended Funds at the end of the Plan Period from 10/01/2017 to 9/30/2020, for the Annual Report Period from 10/01/2020 to 9/30/2021 there would be two reports. One report is required for the 10/01/2017 to

9/30/2020 Plan Period and another report would be required for the 10/01/2020 to 9/30/2023 Plan Period.

2. Performance Reporting

Not Applicable

3. Special Reporting

Public Law 102-477 Statistical Report (Version 2)(OMB Control No. 1076-0135)

– This annual report provides statistical summary data of participants receiving any of the services available under the initiative.

The data includes current participants and those terminated from the program.

Key Line Items – The following line items contain critical information:

1. Line I – *Participants Served*

Line A – Total Participants

Line B – Total Terminees

Line C – Total Current Participants

2. Line II – *Terminee Outcomes*

Line A – Total with Employment Objective

Line B – Total with Educational/Training Objective

Line C – Misc. Objective Received

Line D – Other (Non-Positive)

3. Line V – *Child Care and Development Activities*

Line A – Families Receiving Child Care

Line B – Children Receiving Child Care

Line C – Care Received – Type of Provider

Line 1 – Center Based

Line 2 – Family Child Care Home

Line 3 – Group Home

Line 4 – Child’s Home

4. Line VI – *Jobs Creation/Economic Development*

Line A – Number

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions**1. Accountability, Deposit, and Investment of Lump-Sum Drawdowns**

Compliance Requirements Tribal governments participating in a Pub. L. No. 102-477 demonstration project may draw down the full amount of available Pub. L. No. 102-477 funding under a 477 Plan in accordance with guidance provided by DOI.

Lump-sum drawdown/payments must be retained in clearly identifiable cash or investment accounts to be used only in accordance with the tribal government’s 477 Plan, must be readily accessible for payment of allowable expenditures in accordance with the 477 Plan from which it was derived in compliance with applicable requirements, and to the extent practical, earn interest. This does not require a tribal government to open a separate account with a financial institution or an investment manager. Investments of lump-sum payments must comply with 25 USC 450e-3, “Investment of Advance Payments: Restrictions.” All interest earned must be used on allowable expenditures in accordance with the 477 Plan from which it was derived and in compliance with applicable requirements.

Tribal governments receiving lump-sum drawdown/payments under a 477 Plan may invest these payments (some tribal governments refer to these advance payments as “deferred revenue”) before they are expended in accordance with the 477 Plan, as long as such funds are: (1) invested only in obligations of the United States or in obligations or securities that are guaranteed or insured by the United States, or mutual (or other) funds registered with the Securities and Exchange Commission and which only invest in obligations of the United States or securities that are guaranteed or insured by the United States; or (2) deposited only in accounts that are insured by an agency or instrumentality of the United States, or are fully collateralized to ensure protection of the advance funds, even in the event of a bank failure (25 USC 450e-3).

Audit Objectives Determine whether the tribal government has properly accounted for, deposited, and invested lump-sum drawdowns/payments received under its 477 Plan and drawdown but unexpended funds are identifiable and readily accessible for use to carry out its 477 Plan.

Suggested Audit Procedures

- a. Obtain and review the tribal government's policies and procedures and verify that those procedures comply with the requirements for lump-sum drawdowns/payments under a Pub. L. No. 102-477 demonstration project.
- b. Test lump-sum drawdowns/payments and ascertain if they were properly accounted for, deposited, and invested throughout the audit period.
- c. Review unused/unexpended lump-sum drawdowns/payments at year-end and verify that they are properly invested/deposited and are identifiable and readily accessible to carry out the work outlined in the 477 Plan.
- d. For each Plan Period with unexpended funds, compare the line 8.h, Total Unexpended Funds, of the Annual Financial Expenditure report to the sum of the unexpended drawdowns plus available funds not drawn down to ascertain if total unexpended funds are properly accounted for including cash balances for unexpended lump sum drawdowns.

IV. OTHER INFORMATION

Reporting on the Schedule of Expenditures of Federal Awards (SEFA)

The total expenditures for the 477 Cluster for the fiscal year must be shown on the SEFA as one line for each Plan Period covered with no identification of the individual Assistance Listing numbers included in the 477 Cluster. For example, for a tribal government with a fiscal year-end and annual report end of 9/30/2017, and a three-year plan period of 10/01/2017 to 9/30/2020, the amount reported on the Annual Financial Expenditure Report (Version 2) in line 8.g (Total Federal Expenditures), "Column II: This Annual Report Period," would be the same amount reported on the fiscal year (FY) 2017 SEFA for the 477 Cluster. If the tribal government's fiscal year-end date and reporting year-end differed, the amounts reported would be based upon general ledger amounts adjusted accordingly for the applicable reporting period.

If the tribal government had transactions or balances from multiple Plan Periods in a fiscal year, and, therefore, was required to file multiple Annual Financial Expenditure Reports, the SEFA must show a separate line for each Plan Period and identify the applicable Plan Period.

Notes to the SEFA

The notes to the SEFA should list the Assistance Listing number and name of each contributing federal program that is a source of funding in the tribal government's 477 Plan. This disclosure in the notes should not include dollar amounts either by Assistance Listing number or otherwise.

Reporting to the Federal Audit Clearinghouse (FAC) on the Data Collection Form (SF-SAC)

The 477 Cluster is reported to the FAC on the SF-SAC in a manner consistent with the display on the SEFA. For example, on the SF-SAC in Part II, Item 1(a), Federal Awarding Agency, would be "15"; Part II, Item 1(b), Assistance Listing Three Digit Extension, would be "U" for

unknown followed by two digit number assigned per FAC instructions (e.g., “U01”; Part II, Item 1(c), Additional Award Identification, would be “Plan Period Ending 9/30/2020” (example of Plan Period end date); Part II, Item 1(d) Name of Federal Award would be “Public Law 102-477 Programs”; and the other columns would correspond to normal SF-SAC reporting). If multiple plan periods, a separate line on the SF-SAC would be used for each Plan Period consistent with the SEFA with a different Assistance Listing Three Digit Extension for each Plan Period (e.g., “U01” for Plan Period ending 9/30/2020 and “U02” for Plan Period ending 9/30/2023).

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.030 INDIAN LAW ENFORCEMENT

I. PROGRAM OBJECTIVES

The objective of the Indian Law Enforcement program is to provide funds to Indian tribal governments to operate police departments and detention facilities.

II. PROGRAM PROCEDURES

The Bureau of Indian Affairs (BIA) makes direct payments to federally recognized Indian tribal governments exercising federal criminal law enforcement authority over crime under the Major Crimes Act (18 USC 1153) on their reservations. Funds may be used for salaries and related expenses of criminal investigators, uniformed officers, detention officers, radio dispatchers, and administrative support.

Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Pub. L. No. 93-638, as amended (25 USC 450 et seq.) and the Indian Law Enforcement Reform Act, Pub. L. No. 101-379 (25 USC 2801 et seq.).

Availability of Other Program Information

Part 40 of the Indian Affairs Manual provides information applicable to all law enforcement programs operated by an Indian tribe or tribal organization under a Self-Determination contract. Part 40 does not apply to Indian tribes that have negotiated Self-Governance compacts. The website at which this manual has been available is not currently operational.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	N	Y	N	N	Y	N	Y

A. Activities Allowed or Unallowed

The ISDEAA provides for the expenditure of funds by Indian tribes and tribal organizations under self-determination contracts for programs and activities previously provided by the BIA. Funds may be used for a variety of programs and services that the federal government otherwise would have provided directly. The specific activities allowed will be indicated in the self-determination contract between the tribal organization and the secretary of the Interior (25 USC 450f). While the tribe or tribal organization may propose to redesign the program or activity, such redesign must be approved by the BIA (25 USC 450j(j)).

B. Allowable Costs/Costs Principles

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

H. Period of Performance

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.042 INDIAN SCHOOL EQUALIZATION

I. PROGRAM OBJECTIVES

The objective of the Indian School Equalization program is to provide funding for elementary and secondary education.

II. PROGRAM PROCEDURES

The Bureau of Indian Education (BIE) programs make direct payments to federally recognized Indian tribal governments or tribal organizations currently operating a BIE-funded school.

Funds may be used for the education of Indian children in BIE-funded schools. Funds may not be used for construction.

Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Pub. L. No. 93-638, as amended (25 USC 450 et seq.), Indian Education Amendments of 1978, Pub. L. No. 95-561 (25 USC 2001 et seq.), and Tribally Controlled Schools Act (25 USC 2501 et seq.).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	N	Y	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

The expenditure of funds is restricted to those federal programs covered by the grant. The Tribally Controlled Schools Act provides for the expenditure of funds by Indian tribes and tribal organizations under grants for education-related programs and activities, including school operations, academic, educational, residential, guidance and counseling, and administrative purposes, and support services for the school, including transportation and maintenance and repair costs (25 USC 2502).

B. Allowable Costs/Cost Principles

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

H. Period of Performance

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

Also see Part 4, 15.000 BIA/BIE Cross-Cutting Section.

1. Character Investigations by Indian Tribes and Tribal Organizations

Compliance Requirements: The Indian Child Protection and Family Violence Prevention Act (25 USC 3201 et seq.) requires Indian tribes and tribal organizations that receive funds under the ISDEAA or the Tribally Controlled Schools Act to conduct an investigation of the character of each individual who is employed or is being considered for employment by such Indian tribe or tribal organization in a position that involves regular contact with, or control over, Indian children. The Act further states that the Indian tribe or tribal organization may employ individuals in those positions only if the individuals meet standards of character, no less stringent than those prescribed under Subpart B – Minimum Standards of Character and Suitability for Employment (25 CFR Part 63), as the Indian tribe or tribal organization establishes.

Audit Objectives Determine whether Indian tribes and tribal organizations are performing the required background character investigations of school employees.

Suggested Audit Procedures

- a. Obtain and review policies and procedures for the performance of background investigations.
- b. Perform tests of selected security and personnel files of employees occupying positions that have regular contact with or control over Indian children to verify:
 - (1) A suitability determination was conducted by an appropriate adjudicating official who herself/himself was the subject of a favorable background investigation (25 CFR section 63.17(c)).
 - (2) The background investigation covered the past five years of the individual's employment, education, etc. (25 CFR section 63.16(b)).
 - (3) A security investigation was obtained and compared to the employment application (25 CFR section 63.17(e)(1)).

- (4) Written record searches were obtained from local law enforcement agencies, former employers, former supervisors, employment references, and schools (25 CFR section 63.17(e)(2)).
- (5) Fingerprint charts were compared to information maintained by the Federal Bureau of Investigation or other law enforcement information maintained by other agencies (25 CFR section 63.17(e)(3)).

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.047 INDIAN EDUCATION FACILITIES, OPERATIONS, AND MAINTENANCE

I. PROGRAM OBJECTIVES

The objective of this program is to provide funds to Bureau of Indian Education (BIE) funded elementary or secondary schools or peripheral dormitories for facilities, operations, and maintenance.

II. PROGRAM PROCEDURES

The Indian Self-Determination and Education Assistance Act (ISDEAA) was implemented to establish meaningful Indian self-determination that will permit an orderly transition from the federal domination of programs for, and services to, Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services. The Tribally Controlled Schools Act provides a grant process for the operation of schools funded by the BIE.

Source of Governing Requirements

ISDEAA, Pub. L. No. 93-638, as amended, 25 USC 450 et seq.; Indian Education Amendments of 1978, Pub. L. No. 95-561, 25 USC 2001 to 2021; and Tribally Controlled Schools Act, 25 USC 2501 to 2511. Regulations for ISDEAA are in 25 CFR Part 900.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	Y	Y	N	N	Y	N	Y

A. Activities Allowed or Unallowed

Funds can be used for education related activities, including:

1. School operations, academic, educational, residential, guidance and counseling, and administrative purposes; and
2. Support services for the school, including transportation (25 USC 2502(a)(3)).

G. Matching, Level of Effort, Earmarking

1. Matching

This program has no statutory matching requirements. However, a recipient may commit to providing matching share in the grant agreement.

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

H. Period of Performance

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable

- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable only if specifically required in the grant agreement assurance statement.

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

See Part 4, 15.000 BIA/BIE Cross-Cutting Section.

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.252 ABANDONED MINE LAND RECLAMATION (AMLR) GRANTS

I. PROGRAM OBJECTIVES

This program is considered a “higher risk” program for 2023, pursuant to 2 CFR section 200.519(c)(2). Refer to the “Programs with Higher Risk Designation,” Appendix IV, Internal Reference Tables, for a discussion of the impact of the “higher risk” designation on the major program determination process.

The main objective of the Office of Surface Mining Reclamation and Enforcement (OSMRE) Abandoned Mine Land (AML) Reclamation program is to address the hazards and environmental degradation posed by legacy coal mines. The main objectives of the Bipartisan Infrastructure Law (BIL) investment in the AML Reclamation program are to improve federal stewardship of critical infrastructure and to significantly increase OSMRE efforts to support its partners, stakeholders, Tribal nations, and communities. The BIL appropriated \$11.293 billion for deposit into the Abandoned Mine Reclamation Fund administered by OSMRE. Of the \$11.293 billion appropriated, OSMRE will distribute approximately \$10.873 billion in BIL AML grants to eligible States and Tribes on an equal annual basis—approximately \$725 million a year—over a 15-year period. BIL AML funds will expand the AML Reclamation Program to meet the priorities described in the BIL and the Surface Mining Control and Reclamation Act of 1977 (SMCRA), as amended, which include addressing coal AML related problems described in sections 403(a), 403(b), and 410 of SMCRA, reduction of methane emissions, and providing employment for current and former employees of the coal industry.

II. PROGRAM PROCEDURES

Annual BIL AML grant amounts are calculated using a congressionally mandated formula based on the number of tons of coal historically produced in the States or from applicable Indian lands before August 3, 1977. Adjustments will be made to ensure the total amount of the distributions to any individual State or Tribe is not less than \$20 million over the life of the program to the extent that amount is needed for eligible projects and to reconcile the amount of the BIL AML funding with the total unfunded cost of coal problems at the end of the preceding fiscal year, as reflected in the enhanced Abandoned Mine Land Inventory System (e-AMLIS). BIL AML grants will be awarded to eligible State and Tribal AML programs on an annual basis and adjustments will be made to these distributions as required and needed to achieve the objectives of the program. The period of performance for BIL grants will be five-years, with an option for a one-time no-cost extension of up to one year, subject to OSMRE’s review and approval.

Source of Governing Requirements

The OSMRE AML Reclamation fund is authorized by Section 401, Title IV, Pub. L. No. 95-87, 30 USC 1231. The AML grant program regulations are at 30 CFR Part 870—887. The Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law,

Division D, Title VII - ABANDONED MINE LAND RECLAMATION; SEC. 40701.
ABANDONED MINE RECLAMATION FUND AUTHORIZATION OF APPROPRIATIONS.

Availability of Other Program Information

Other program information for the BIL AML reclamation program is found at <http://www.osmre.gov/bil/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	N	Y	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. Activities Allowed

- a. Reclaim coal AML sites with hazards resulting from legacy coal mining that pose a threat to public health, safety, and the environment within their jurisdictions

Examples: Projects covering dangerous highwalls, waste piles, subsidence, open portals, features that may be routes for the release of harmful gases, acid mine drainage, etc.).

b. Water supply restoration (infrastructure).

Examples: Protection, repair, replacement, construction, or enhancement of facilities relating to water supply, including water distribution facilities and treatment plants, to replace water supplies adversely affected by coal mining practices.

c. Coal AML emergencies - a sudden danger or impairment related to coal mining that presents a high probability of substantial physical harm to the health, safety, or general welfare of people before the danger can be abated under normal AML program operation procedures.

Examples: Addressing problems including subsidence, shaft failures, gas leaks, and landslides.

d. In accordance with the STREAM Act, BIL grant recipients can set-aside not more than 30 percent of the total amount of grant made annually into a long-term abandoned mine land reclamation fund established under State law, from which amounts (together with all interest earned on the amounts) are expended by the State or Indian Tribe for the abatement of the causes and the treatment of the effects of acid mine drainage resulting from coal mining practices, including for the costs of building, operating, maintaining, and rehabilitating acid mine drainage treatment systems; the prevention, abatement, and control of subsidence; or the prevention, abatement, and control of coal mine fires.

2. *Activities Unallowed*

a. Reclamation projects for hazards resulting from legacy non-coal sites that pose a threat to public health, safety, and the environment within their jurisdictions.

Examples: Projects resulting from non-coal mining, covering dangerous highwalls, waste piles, subsidence, open portals, features that may be routes for the release of harmful gases, acid mine drainage, etc.).

b. Ineligible abandoned coal mine reclamation projects (not eligible per the requirements in Section 404 of SMCRA).

Examples: Coal mining sites abandoned after SMCRA enactment; coal sites regulated under Title V of SMCRA

3. Use of BIL funding differences from the traditional fee-based AML funding

- a. Stand-alone projects classified as Priority 3 under SMCRA Title IV are eligible for BIL funding, whether or not the project is in conjunction with other projects classified as Priority 1 and Priority 2 projects under SMCRA Title IV;
- b. Acid mine drainage (AMD) treatment projects that are not part of a qualified hydrologic unit are eligible for BIL funding.
- c. Eligible states and tribes are not authorized under the BIL to place BIL AML grant funds into existing state AMD set-aside accounts. See 1d above regarding STREAM Act.

H. Period of Performance

The period of performance for BIL grants will be five-years, with an option for a one-time no-cost extension of up to one year, subject to OSMRE's review and approval.

L. Reporting

For BIL AML grants, information should be reported to OSMRE as part of the State or Tribe's regular AML reporting processes (2 CFR 200; 30 CFR 885.20; 30 CFR 886.21).

1. Financial Reporting

- a. SF-270, Request for Advance or Reimbursement – Not Applicable
- b. SF-271, Outlay Report and Request for Reimbursement for Construction Programs – Not Applicable
- c. SF-425 and 425A, Federal Financial Report - Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.504 TITLE XVI WATER RECLAMATION AND REUSE PROGRAM

I. PROGRAM OBJECTIVES

The objectives of the Water Reclamation and Reuse program are to investigate and identify opportunities for reclamation and reuse of municipal, industrial, domestic, and agricultural wastewater, and naturally impaired ground and surface waters, for the design and construction of demonstration and permanent facilities to reclaim and reuse wastewater; and to conduct research, including desalting, for the reclamation of wastewater and naturally impaired ground and surface waters.

II. PROGRAM PROCEDURES

The Bureau of Reclamation in the Department of the Interior (DOI) has the discretionary authority to fund financial assistance awards for appraisal investigations, feasibility studies, research, and demonstration projects under Sections 1602 through 1605 of the Reclamation Wastewater and Groundwater Study and Facilities Act of 1992, Pub. L. No. 102-575 (43 USC 390h et seq.). Funding for construction is limited to projects specifically authorized by statute through Title XVI of Pub. L. No. 102-575, as amended (43 USC 390h et seq.).

Source of Governing Requirements

Title XVI of Pub. L. No. 102-575 (43 USC 390h et seq.).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A. Activities Allowed or Unallowed

Operation and maintenance costs are only allowable for demonstration water reclamation and reuse projects constructed under this program (43 USC 390h-3).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. The federal share of appraisal investigations can be up to 100 percent (43 USC 390h-1).
- b. The federal share of feasibility studies shall not exceed 50 percent of the total costs unless the secretary of the interior determines, based upon a demonstration of financial hardship on the part of the nonfederal participant, that the nonfederal participant is unable to contribute at least 50 percent of the study costs (43 USC 390h-2).
- c. The federal share of the total costs to construct, operate, and maintain cooperative research and demonstration projects shall not exceed 25 percent unless DOI determines that the project is not feasible without a greater than 25 percent federal contribution (43 USC 390h-3).
- d. The federal share of planning, design, and construction of permanent water reclamation and reuse projects shall not exceed 25 percent of the total project costs (43 USC 390h et seq.).

2. Level of Effort

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.507 WaterSMART (SUSTAIN AND MANAGE AMERICA'S RESOURCES FOR TOMORROW)

I. PROGRAM OBJECTIVES

The objectives of the WaterSMART program are to make funding available for eligible applicants to leverage their money and other resources by cost sharing with the Department of the Interior (DOI) on projects that save water, improve energy efficiency, address endangered species and other environmental issues, and facilitate transfers to new uses. The WaterSMART program works to establish a framework to provide federal leadership and assistance on the efficient use of water; integrate water and energy policies to support the sustainable use of all natural resources; and coordinate water conservation activities of various federal agencies and DOI bureaus and offices. Through the WaterSMART program, the DOI is working to achieve a sustainable water management strategy to meet the nation's water needs.

II. PROGRAM PROCEDURES

The Bureau of Reclamation, DOI, has the discretionary authority to award projects funded through grants and cooperative agreements to recipients who are selected through a competitive process.

Source of Governing Requirements

Governing requirements are specified in Section 9504 of Pub. L. No. 111-11 (42 USC 10364).

Availability of Other Program Information

For additional information on the WaterSMART program, see <https://www.usbr.gov/watersmart/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as "N," it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an "N." See the Safe Harbor Status discussion in Part 1 for additional information.

A. Activities Allowed or Unallowed

1. *Activities Allowed*

a. Planning, designing, and constructing improvements that:

- (1) Conserve water;
- (2) Increase water use efficiency;
- (3) Facilitate water markets;
- (4) Enhance water management, including increasing the use of renewable energy in the management and delivery of water; or
- (5) Accelerate the adoption and use of advanced water treatment technologies; or to benefit threatened and endangered species (42 USC 10364(a)(1)).

b. Research activities designed to:

- (1) Conserve water resources;
- (2) Increase the efficiency of the use of water resources; or
- (3) Enhance the management of water resources, including increasing the use of renewable energy in the management and delivery of water (42 USC 10364(b)(1)).

2. *Activities Unallowed*

Operation and maintenance costs (42 USC 10364(a)(3)(E)(iv)).

G. Matching, Level of Effort, Earmarking**1. Matching**

- a. The federal share of costs for planning, design, and construction activities shall not exceed 50 percent (42 USC 10364(a)(3)(E)(i)).
- b. The federal share of costs for research activities can be up to 100 percent. Specific cost-share requirements are identified within each award agreement (42 USC 10364(b)).

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.605 SPORT FISH RESTORATION PROGRAM

ASSISTANCE LISTING 15.611 WILDLIFE RESTORATION AND BASIC HUNTER EDUCATION AND SAFETY

ASSISTANCE LISTING 15.626 ENHANCED HUNTER EDUCATION AND SAFETY PROGRAM

I. PROGRAM OBJECTIVES

The objective of the Sport Fish Restoration program is to restore, conserve, and enhance sport fish populations, and to provide for public use and enjoyment of these fishery resources.

The objective of the Wildlife Restoration program is to restore, rehabilitate, and improve wild birds and mammals and their habitats; conduct wildlife management research; conduct wildlife population surveys and inventories; acquire land; coordinate, develop, operate, and maintain facilities, acquire land for expanding, or constructing, public target ranges (up to 10 percent); and provide for public use of wildlife resources.

The objective of Basic Hunter Education (Hunter Education and Safety program) is to provide training in the safe handling and use of firearms and archery equipment; hunter responsibilities and ethics; construction, operation, and maintenance of public target ranges (used for hunter education or recreational shooting); recruiting, retaining, and reactivating hunters and recreational shooters; basic wildlife management and identification; and public outreach and communications activities as covered under the definition of *hunter recruitment and recreational-shooter recruitment* at 16 U.S.C. 669(a)(3).

The objective of the Enhanced Hunter Education and Safety program is to provide funds for enhancing hunter education programs; recruitment, and safety; increase interstate coordination of hunter education programs; enhance programs for bow hunters and archers; enhance construction and development of firearm and archery ranges; update safety features of firearm and archery ranges; enhance activities for hunter and recreational shooter recruitment, retention, and reactivation; and public outreach and communications activities as covered under the definition of *hunter recruitment and recreational-shooter recruitment* at 16 U.S.C. 669(a)(3).

II. PROGRAM PROCEDURES

A. Overview

The U.S. Fish and Wildlife Service (FWS) Wildlife and Sport Fish Restoration Program provides funds to the fish and wildlife agencies of the 50 States, District of Columbia (not eligible to receive Wildlife Restoration, Basic Hunter Education and Safety or Enhanced Hunter Education and Safety program funding), Commonwealths of Puerto Rico and the Northern Mariana Islands, and Territories of Guam, U.S. Virgin Islands, and American Samoa (collectively referred as “State” or “States”) with funds apportioned to each State through a statutory formula. States may submit either a comprehensive plan or project

proposal to FWS. When either is approved, any of the 50 States can be paid up to 75 percent of the cost of the work performed. The District of Columbia and Puerto Rico may receive up to 100 percent with Regional Director approval. The insular areas of American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands are waived from match requirements.

B. Subprograms/Program Elements

The Sport Fish Restoration program has three subprograms: the Sport Fish Restoration–Recreational Boating Access subprogram; the Sport Fish Restoration–Aquatic Resources Education subprogram; and the Sport Fish Restoration–Outreach and Communication subprogram. Definitions of terms applicable to these programs are listed in 50 CFR 80.2, including the definition of sport fish.

The Wildlife Restoration program has two subprograms: the Wildlife Restoration–Basic Hunter Education and Safety subprogram; and the Enhanced Hunter Education and Safety program. Definitions of terms applicable to these programs are listed in 50 CFR 80.2, including the definition of wildlife.

Source of Governing Requirements

The Sport Fish Restoration program is authorized by the Sport Fish Restoration (Dingell-Johnson) Act (16 USC 777 through 777m, except 777e-1 and 777g-1). The Wildlife Restoration Program is authorized by the Wildlife Restoration (Pittman-Robertson) Act ([16 U.S.C. 669](#) et seq., except for provisions inserted for WCRP by Public Law 106-553). Program regulations are at 50 CFR Part 80.

Availability of Other Program Information

Program policies for FWS staff are available in the FWS Manual chapters pertaining to Federal Financial Assistance and Wildlife and Sport Fish Restoration grants—Parts 516 through 522 at <http://www.fws.gov/policy/manuals/>.

Other program information is available at [Toolkit Homepage - WSFR Toolkit - FA Wiki \(fws.gov\)](#).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program and the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not

being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	N	Y	N	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

a. *Wildlife Restoration*

(1) Activities eligible for funding under the Wildlife Restoration program per 16 USC 669 et seq., as amended, and 50 CFR 80.50 include:

- (a) Restore and manage wildlife for the benefit of the public.
- (b) Conduct research on the problems of managing wildlife and its habitat if necessary to administer wildlife resources efficiently.
- (c) Obtain data to guide and direct the regulation of hunting.
- (d) Acquire real property suitable or capable of being made suitable for wildlife habitat or public access for hunting or other wildlife-oriented recreation.
- (e) Restore, rehabilitate, improve, or manage areas of lands or waters as wildlife habitat.
- (f) Build structures or acquire equipment, goods, and services to: restore, rehabilitate, or improve lands and waters as wildlife habitat; or provide public access for hunting or other wildlife-oriented recreation.
- (g) Operate or maintain: projects that the State fish and wildlife agency completed under the Pittman-Robertson Wildlife

- Restoration Act; or facilities that the agency acquired or constructed with funds other than those authorized under the Pittman-Robertson Wildlife Restoration Act if these facilities are necessary to carry out activities authorized by the Pittman-Robertson Wildlife Restoration Act.
- (h) Coordinate grants in the Wildlife Restoration program and related programs and subprograms.
 - (i) Provide technical assistance.
 - (j) Make payments in lieu of taxes on real property under the control of the State fish and wildlife agency when the payment is: Required by State or local law; and Required for all State lands including those acquired with Federal funds and those acquired with non-Federal funds.
 - (k) Acquiring land for expanding, or constructing, public target ranges (up to 10 percent) (16 U.S.C. 669g(b)(2)).
- (2) Activities eligible for funding under the Wildlife Restoration–Basic Hunter Education and Safety subprogram per 16 U.S.C. 669 et seq., as amended, and 50 CFR 80.50 include:
- (a) Teach the skills, knowledge, and attitudes necessary to be a responsible hunter.
 - (b) Acquire real property suitable or capable of being made suitable for firearm and archery ranges for public use.
 - (c) Construct, operate, or maintain firearm and archery ranges for public use.
 - (d) Recruiting, retaining, and reactivating hunters and recreational shooters (16 U.S.C. 669c(c)(4)).
 - (e) Public relations activities as eligible under the definition of *hunter recruitment and recreational-shooter recruitment* and defined at 16 U.S.C. 669(a)(3).
- (3) Activities eligible for funding under the Enhanced Hunter Education and Safety program per 16 U.S.C. 669 et seq., as amended, and 50 CFR 80.50 include:
- (a) Enhance programs for hunter education, hunter development, and firearm and archery safety. Hunter-development programs introduce individuals to and recruit

them to take part in hunting, bow hunting, target shooting, or archery.

- (b) Enhance interstate coordination of hunter education, and firearm and archery range programs.
- (c) Enhance programs for education, safety, or development of bow hunters, archers, and shooters.
- (d) Enhance construction and development of firearm and archery ranges.
- (e) Update safety features of firearm and archery ranges.
- (f) Acquire real property suitable or capable of being made suitable for firearm and archery ranges for public use.
- (g) Enhance activities for hunter and recreational shooter recruitment, retention, and reactivation 16 U.S.C. 669h-1(a)(1)(A)(v).
- (h) Public relations activities as eligible under the definition of *hunter recruitment and recreational-shooter recruitment* and defined at 16 U.S.C. 669(a)(3).

b. *Sport Fish Restoration*

- (1) Activities eligible for funding under the Sport Fish Restoration program per 50 CFR 80.51 include:
 - (a) Restore and manage sport fish for the benefit of the public.
 - (b) Conduct research on the problems of managing fish and their habitat and the problems of fish culture if necessary to administer sport fish resources efficiently.
 - (c) Obtain data to guide and direct the regulation of fishing. These data may be on: size and geographic range of sport fish populations; changes in sport fish populations due to fishing, other human activities, or natural causes; and effects of any measures or regulations applied.
 - (d) Develop and adopt plans to restock sport fish and forage fish in the natural areas or districts covered by the plans; and obtain data to develop, carry out, and test the effectiveness of the plans.
 - (e) Stock fish for recreational purposes.
 - (f) Acquire real property suitable or capable of being made suitable for: sport fish habitat or as a buffer to protect that habitat; or public access for sport fishing. Closures to sport

fishing must be based on the recommendations of the State fish and wildlife agency for fish and wildlife management purposes.

- (g) Restore, rehabilitate, improve, or manage: aquatic areas adaptable for sport fish habitat; or land adaptable as a buffer to protect sport fish habitat.
 - (h) Build structures or acquire equipment, goods, and services to: Restore, rehabilitate, or improve aquatic habitat for sport fish, or land as a buffer to protect aquatic habitat for sport fish; or provide public access for sport fishing.
 - (i) Construct, renovate, operate, or maintain pumpout and dump stations. A pumpout station is a facility that pumps or receives sewage from a type III marine sanitation device that the U.S. Coast Guard requires on some vessels. A dump station, also referred to as a “waste reception facility,” is specifically designed to receive waste from portable toilets on vessels.
 - (j) Operate or maintain: projects that the State fish and wildlife agency completed under the Dingell-Johnson Sport Fish Restoration Act; or facilities that the agency acquired or constructed with funds other than those authorized by the Dingell-Johnson Sport Fish Restoration Act if these facilities are necessary to carry out activities authorized by the Act.
 - (k) Coordinate grants in the Sport Fish Restoration program and related programs and subprograms.
 - (l) Provide technical assistance.
 - (m) Make payments in lieu of taxes on real property under the control of the State fish and wildlife agency when the payment is: required by State or local law; and required for all State lands including those acquired with Federal funds and those acquired with non-Federal funds.
- (2) Activities eligible for funding under the Sport Fish Restoration–Recreational Boating Access subprogram include acquiring land and building recreational boating access facilities and conducting surveys (50 CFR 80.51(b)).
 - (3) Activities eligible for funding under the Sport Fish Restoration–Aquatic Resources Education subprogram include enhancing the public's understanding of water resources, aquatic life forms, and

sport fishing, and develop responsible attitudes and ethics toward the aquatic environment (50 CFR 80.51(c)).

- (4) Activities eligible for funding under the Sport Fish Restoration–Outreach and Communication subprogram include improving communications with anglers, boaters, and the general public on sport fishing and boating opportunities; increasing participation in sport fishing and boating; advancing the adoption of sound fishing and boating practices including safety; and promoting conservation and responsible use of the aquatic resources of the United States (50 CFR 80.51(d)).

2. *Activities Unallowed*

The following activities are ineligible except, when necessary, to carry out project purposes approved by the FWS regional director:

- a. Law enforcement activities (50 CFR 80.54(a)).
- b. Public relations activities to promote the state fish and wildlife agency or any other state entity (50 CFR 80.54(b)).
- c. Activities primarily for producing income (50 CFR 80.54(c)).
- d. Activities that oppose regulated fishing, hunting, or trapping (50 CFR 80.54(d)).

F. Equipment and Real Property Management

Real property acquired or constructed with Wildlife Restoration program or Sport Fish Restoration program funds shall continue in perpetuity to serve the purpose for which it was acquired or constructed. Where grant funds are used for a capital improvement, a State fish and wildlife agency must have control adequate for the protection, maintenance, and use of the capital improvement for its authorized purpose during its useful life even if the agency did not acquire the land with grant funds. When property passes from management control of the State fish and wildlife agency or the State fish and wildlife agency allows use of real property that interferes with its authorized purpose, the control shall be fully restored to the State fish and wildlife agency or the real property shall be replaced using nonfederal funds. If the State fish and wildlife agency and the Regional Director jointly decide grant-funded real property is not needed for its original purpose, the real property must be used for another eligible purpose or the State fish and wildlife agency must dispose of the property (50 CFR Part 80, Subpart J).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. The federal share is at least 10 percent and up to 75 percent of allowable costs of the grant-funded project for the 50 States. The specific amount will be in the approved grant award. The federal cost sharing for the Commonwealths of Puerto Rico and the District of Columbia (not eligible to receive Wildlife Restoration program funding) may be from 75 to 100 percent of the allowable costs of a grant-funded project as decided by the Regional Director (50 CFR section 80.83). The Commonwealth of the Northern Mariana Islands, and the Territories of Guam, the U.S. Virgin Islands, and American Samoa are waived from match requirements.

A State with matching requirements may allocate up to 10 percent of its apportioned WR funds to supplement Enhanced Hunter Education and Safety funds for acquiring land for, expanding, or constructing public target ranges (as defined at 16 U.S.C. 669a(4)). For these specific activities, a State will receive up to 90 percent Federal cost share and are available for five years.

- b. The State fish and wildlife agency must not draw down federal funds in a greater proportion to the use of match than total federal funds bear to total match unless:
 - (1) The drawdown is to pay for construction, including land acquisition;
 - (2) An in-kind contribution is not yet available for delivery to the grantee or subgrantee; or
 - (3) The project is not at the point where it can accommodate an in-kind contribution.

The conditions above require the Regional Director's prior approval and the State must satisfy the match requirement before it submits the final Federal Financial Report (50 CFR section 80.96(a)).

2. Level of Effort

Not Applicable

3. Earmarking

Funding Limitations

- a. The amount of overhead or indirect costs charged to the projects under these programs for State central services provided from outside the State

fish and game agency in one year may not exceed 3 percent of the annual apportionment to the State (50 CFR section 80.53).

- b. Each State's fish and wildlife agency may not spend more than 15 percent of the annual amount apportioned to the State from the Sport Fish Restoration and Boating Trust Fund for activities in both the Aquatic Resources Education Outreach and the Communication subprograms. The 15 percent maximum applies to both subprograms as if they were one. The Commonwealths of Puerto Rico and the Northern Mariana Islands, the District of Columbia, and the Territories of Guam, the U.S. Virgin Islands, and American Samoa are not limited to the 15 percent cap imposed on the 50 States. Each of these entities may spend more for these purposes with the approval of the Regional Director (50 CFR section 80.62).
- c. A State fish and wildlife agency must allocate 15 percent of its annual apportionment for the Recreational Boating Access subprogram on a Regional level, over a designated 5-year period. As long as this requirement is met, an individual State fish and wildlife agency may allocate more or less than 15 percent of its annual apportionments in a single FFY year with the Regional Director's approval. Allocations of more or less than 15 percent require the approval of the Regional Director (50 CFR section 80.61).

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.614 COASTAL WETLANDS PLANNING, PROTECTION AND RESTORATION PROGRAM (National Coastal Wetlands Conservation Grants)

I. PROGRAM OBJECTIVES

The objective of the National Coastal Wetlands Conservation Grants program is to provide funds to coastal states (except Louisiana) for coastal wetlands conservation projects. The primary goal of the National Coastal Wetlands Conservation Grant program is the long-term conservation of coastal wetland ecosystems. It accomplishes this goal by helping states in their efforts to protect, restore, and enhance their coastal habitats. The program's accomplishments are primarily on-the-ground and measured in acres.

II. PROGRAM PROCEDURES

The National Coastal Wetlands Conservation Grants program provides funds on a competitive basis for acquisition of interests in coastal lands or waters, and for restoration, enhancement, or management of coastal wetlands ecosystems. All coastal states except Louisiana are eligible to apply. Proposed projects must provide for long-term conservation of coastal wetlands or waters and the hydrology, water quality, and fish and wildlife dependent thereon. Use of property acquired with grant funds that is inconsistent with program requirements and that is not corrected can be grounds for denying a state future grants under this program (50 CFR section 84.48(a)(6)).

Source of Governing Requirements

The National Coastal Wetlands Conservation Grants program is authorized by Section 305, Title III, Pub. L. No. 101-646, 16 USC 3951-3956. The National Coastal Wetlands Conservation Grant program regulations are at 50 CFR Part 84.

Availability of Other Program Information

Other program information for the Coastal Wetlands Planning, Protection and Restoration program is found at <http://www.fws.gov/coastal/CoastalGrants/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a

compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	N	Y	N	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

- a. Acquisition of a real property interest in coastal lands or waters from willing sellers or partners (coastal wetlands ecosystems) under terms and conditions that will ensure that the real property will be administered for long-term conservation (50 CFR section 84.20(a)(1)).
- b. The restoration, enhancement, or management of coastal wetlands ecosystems (50 CFR section 84.20(a)(2)).
- c. Planning as a minimal component of project plan development (50 CFR section 84.20(b)(6)) (see III.A.2.f. for unallowable planning activities).

2. *Activities Unallowed*

- a. Projects that primarily benefit navigation, irrigation, flood control, or mariculture (50 CFR section 84.20(b)(1)).
- b. Acquisition, restoration, enhancement, or management of lands to mitigate recent or pending habitat losses resulting from the actions of agencies, organizations, companies, or individuals (50 CFR section 84.20(b)(2)).
- c. Creation of wetlands by humans where wetlands did not previously exist (50 CFR section 84.20(b)(3)).
- d. Enforcement of fish and wildlife laws and regulations, except when necessary for the accomplishment of approved project purposes (50 CFR section 84.20(b)(4)).

- e. Research (50 CFR section 84.20(b)(5)).
- f. Planning as a primary project focus (50 CFR section 84.20(b)(6)).
- g. Operations and maintenance (50 CFR section 84.20(b)(7)).
- h. Acquiring and/or restoring upper portions of watersheds where benefits to the coastal wetlands ecosystem are not significant and direct (50 CFR section 84.20(b)(8)).
- i. Projects providing less than 20 years of conservation benefits (50 CFR section 84.20(b)(9)).

F. Equipment and Real Property Management

States must submit documentation (e.g., appraisals and appraisal reviews) to the Fish and Wildlife Service (FWS) regional director who must approve it before the state becomes legally obligated for the purchase. States must provide title vesting evidence and summary of land costs upon completion of the acquisition to the FWS regional director. Any deed to third parties (e.g., conservation easement or other lien on a third-party property) must include appropriate language to ensure that the lands and/or interests would revert back to the state or federal government if the conditions of the grant are no longer being implemented (50 CFR section 84.48(a)(1)).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. Except for those insular areas specified in paragraph G.1.b, below, the federal share will not exceed 50 percent of approved costs incurred. However, the federal share may be increased to 75 percent for coastal states that have established and are using a fund as defined in 50 CFR section 84.11. The FWS Service regional directors must certify the eligibility of the fund in order for the state to qualify for the 75 percent matching share (50 CFR section 84.46(a)).
- b. The following insular areas—American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the US Virgin Islands—have been exempted from the matching share, as provided in Pub. L. No. 95-134, as amended by Pub. L. No. 95-348, Pub. L. No. 96-205, Pub. L. No. 98-213, and Pub. L. No. 98-454 (48 USC 1469a). Puerto Rico is not exempt from the match requirements of this program (50 CFR section 84.46(b)).
- c. Total federal contributions (including all federal sources outside of the program) may not exceed the maximum eligible federal share under the program. This includes monies provided to the state by other federal programs. If the amount of federal money available to the project is more

than the maximum allowed, FWS will reduce the program contribution by the amount in excess (50 CFR section 84.46(h)).

- d. Natural Resource Damage Assessment funds that are managed by a nonfederal trustee are considered to be nonfederal, even if these monies were once deposited in the Department of the Interior's Natural Resource Damage Assessment and Restoration Fund, provided the following criteria are met:
- (1) The monies were deposited pursuant to a joint and indivisible recovery by the Department of the Interior and nonfederal trustees under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or the Oil Pollution Act (OPA);
 - (2) The nonfederal trustee has joint and binding control over the funds;
 - (3) The co-trustees agree that monies from the fund should be available to the nonfederal trustee and can be used as a nonfederal match to support a project consistent with the settlement agreement, CERCLA, and OPA; and
 - (4) The monies have been transferred to the nonfederal trustee (50 CFR section 84.46(i)).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

J. Program Income

If rights or interests obtained with the acquisition of coastal wetlands generate revenue during the grant agreement period, the state will treat the revenue as program income and use it to manage the acquired properties (50 CFR section 84.48(a)(5)).

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.615 COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

I. PROGRAM OBJECTIVES

The objective of the Cooperative Endangered Species Conservation Fund program is to provide federal financial assistance to a state or territory, through its appropriate state or territorial agency, to assist in the development of programs for the conservation of federally listed endangered and threatened species.

II. PROGRAM PROCEDURES

Grants for states and territories, offered through the Cooperative Endangered Species Conservation Fund, provide funding for a wide array of voluntary conservation projects for candidate and listed, threatened, and endangered species. Grants awarded are in the categories of: Conservation Grants for the implementation of conservation projects; Recovery Land Acquisition for the acquisition of habitat in support of approved species recovery goals or objectives; Habitat Conservation Planning Assistance to support development of Habitat Conservation Plans (HCPs); and HCP Land Acquisition for the acquisition of land associated with approved HCPs. These funds may in turn be sub-awarded by states and territories in support of conservation projects.

Source of Governing Requirements

The Cooperative Endangered Species Conservation Fund is authorized by the Endangered Species Act of 1973, as amended, 16 USC 1531 to 1543; and the Land and Water Conservation Fund Act of 1965, 16 USC 4601, as amended. Program regulations are at 50 CFR Part 81.

Program guidance is available in the Fish and Wildlife Service (FWS) Manual chapters pertaining to Cooperative Endangered Species Conservation Fund grants—Chapters 521 FW and 523 FW.

Availability of Other Program Information

Program information for endangered species grants to states and territories is available on the FWS website at <https://www.bia.gov/as-ia/revisions-pl-102-477-forms> and <https://www.bia.gov/bia/ois/dwd>. The FWS Manual is available at <https://fws.gov/program/wildlife-and-sport-fish-restoration>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a

direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	Y	Y	N

A. Activities Allowed or Unallowed

All methods and procedures which are necessary to bring any endangered species or threatened species to the point at which the measures provided pursuant to the Endangered Species Act of 1973 are no longer necessary are allowable. Such methods and procedures include, but are not limited to, habitat restoration, species status surveys, public education and outreach, captive propagation and reintroduction, nesting surveys, genetic studies, habitat acquisition and maintenance, and development of management plans (50 CFR section 81.1(b)).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. Except as noted in paragraphs G.1.b and c, below, the federal share of such program costs shall not exceed 75 percent of the program costs (16 USC 1535(d)(2); 50 CFR section 81.8).
- b. The federal share may be increased to 90 percent whenever two or more states having a common interest in one or more endangered or threatened species, the conservation of which may be enhanced by cooperation of such states, enter jointly into an agreement with the secretary of the interior (16 USC 1535(d)(2); 50 CFR section 81.8).
- c. Per the FWS Director’s Memorandum, of May 9, 2003, the following insular areas are exempt from the matching requirement up to \$200,000:

American Samoa, Guam, the Government of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the US Virgin Islands (48 USC 1469a).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs*– Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.623 NORTH AMERICAN WETLANDS CONSERVATION FUND

I. PROGRAM OBJECTIVES

The objective of North American Wetlands Conservation Fund program is to encourage public-private partnerships to protect, enhance, restore, and manage wetland ecosystems and habitats to benefit wetland-associated migratory bird populations.

II. PROGRAM PROCEDURES

The US Fish and Wildlife Service (FWS), within the Department of the Interior, makes grants on a competitive basis to organizations or individuals to acquire, restore, enhance, or create wetland and associated upland habitat. Applicants must submit a comprehensive proposal outlining activities to be completed with project funds and describing the participation of all partner organizations involved in the project. A partner in a project is a group, agency, organization, or individual that participates in the project as a recipient, subrecipient, or match provider. Funds provided directly to a federal entity by FWS are governed by a separate agreement between FWS and the recipient federal entity.

Source of Governing Requirements

The North American Wetlands Conservation Program is authorized by the North American Wetlands Conservation Act (NAWCA), 16 USC 4401.

Availability of Other Program Information

Other program information is available on the FWS grant information site at <http://www.fws.gov/grants/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	N	N	Y	N	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Allowable activities include acquisition, management, restoration (rehabilitating a degraded or nonfunctioning wetland ecosystem), enhancement (modifying a functioning wetland ecosystem to provide additional long-term wetlands conservation benefits), and establishment or reestablishment of wetland habitat and wetland-associated upland habitat (16 USC 4401(b)).

2. *Activities Unallowed*

Federally required mitigation activity for compliance with the Fish and Wildlife Coordination Act of 1934 or the Water Resources Development Act of 1986 are unallowable, including, but not limited to, the following:

- a. Actions that will put credits into wetlands mitigation banks; and
- b. Mitigation activity required by federal, state, or local wetland regulations (16 USC 4411(b)).

F. Equipment and Real Property Management

Any real property acquired under a grant that is not included in the National Wildlife System and is conveyed to another public agency or other entity is subject to terms and conditions that will ensure that the interest will be administered for the long-term conservation and management of the wetland ecosystem and the fish and wildlife dependent thereon. All interests in real property shall contain provisions that revert interest to the federal government if the entity fails to manage the property in accordance with the objectives of NAWCA (16 USC 4405(a)(3)).

G. Matching, Level of Effort, Earmarking**1. Matching**

The required matching share varies on a grant-by-grant basis and is set forth in the grant award, but must be at least 50 percent of project costs, except that project activities located on federal lands and waters can be funded with 100 percent federal funding (16 USC 4407(b)).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

DEPARTMENT OF THE INTERIOR

ASSISTANCE LISTING 15.635 NEOTROPICAL MIGRATORY BIRD CONSERVATION

I. PROGRAM OBJECTIVES

The objectives of the Neotropical Migratory Bird Conservation program are to provide financial resources and foster international cooperation to (1) perpetuate healthy populations of neotropical migratory birds; and (2) assist in the conservation of neotropical migratory birds by supporting conservation initiatives in the United States, Canada, Latin America, and the Caribbean.

II. PROGRAM PROCEDURES

The US Fish and Wildlife Service (FWS), a component of the Department of the Interior, makes grants on a competitive basis to organizations or individuals to protect and manage neotropical migratory bird populations; maintain, manage, protect, and restore neotropical migratory bird habitat; conduct research and monitoring; support law enforcement; and provide for community outreach and education contributing to neotropical migratory bird conservation. Applicants must submit a proposal outlining activities to be completed with grant and required matching funds. A partner in a project is a group, agency, organization, or individual which participates in the project as a recipient, subrecipient, or match provider. Funds provided to a federal entity are governed through a separate agreement between FWS and the recipient federal entity.

Source of Governing Requirements

The Neotropical Migratory Bird Conservation program is authorized by the Neotropical Migratory Bird Conservation Act, 16 USC 6101 et seq.

Availability of Other Program Information

Other program information is available on the FWS grant information site at <http://www.fws.gov/grants/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not

being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	Y	N	N	N	Y	N	N

A. Activities Allowed or Unallowed

Allowable activities include protection and management of neotropical migratory bird populations; maintenance, management, protection, and restoration of neotropical migratory bird habitat; research and monitoring; law enforcement; and community outreach and education (16 USC 6103(3)).

G. Matching, Level of Effort, Earmarking

1. Matching

A recipient carrying out grant activities in the United States or Canada is required to provide a nonfederal matching share in cash. A recipient carrying out grant activities in geographic areas outside of the United States or Canada, including Puerto Rico and the US Virgin Islands, is required to provide a nonfederal matching share, which may be in the form of cash or in-kind contributions. The required matching share varies on a grant-by-grant basis and is set forth in the award document but is at least 75 percent of the project costs (16 USC 6103(2) and 6104(e)).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF JUSTICE

ASSISTANCE LISTING 16.034 CORONAVIRUS EMERGENCY SUPPLEMENTAL FUNDING

I. PROGRAM OBJECTIVES

The Coronavirus Emergency Supplemental Funding (CESF) program provides funding to assist eligible states, units of local government, and federally recognized tribal governments in preventing, preparing for, and responding to the coronavirus. Allowable projects and purchases include, but are not limited to, overtime, equipment (including law enforcement and medical personal protective equipment), hiring, supplies (such as gloves, masks, sanitizer), training, travel expenses (particularly related to the distribution of resources to the most impacted areas), and addressing the medical needs of inmates in state, local, and tribal prisons, jails, and detention centers.

II. PROGRAM PROCEDURES

States, US territories, the District of Columbia, units of local government, and federally recognized tribal governments that were identified as eligible for funding under the fiscal year (FY) 2019 state and local Edward Byrne Memorial Justice Assistance Grant (JAG) program are eligible to apply under Coronavirus Emergency Supplemental Funding Program Solicitation. The solicitation is located at <https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/bja-2020-18553.pdf>.

Note: Only the state administering agency (SAA) that applied for FY 2019 JAG funding for a state/territory may apply for the state allocation of CESF funding.

In general, CESF allocations were calculated by proportionally increasing the allocations available under the FY 2019 JAG program to align with the CESF appropriation amount. The JAG-specific provision requiring “disparate jurisdictions” to choose a single fiscal agent to apply on behalf of each of the disparate jurisdictions does not apply to the CESF program. Instead, each “disparate” unit of local government under FY 2019 JAG (including those that were identified as “zero-county dispartes”) will be eligible for a direct award under CESF. In order to ensure that zero-county dispartes receive funding under CESF, the portion of funds for units of local government that were eligible to receive less than \$10,000 under FY 2019 JAG (an amount that is added to state awards under JAG) was divided equally among the zero-county dispartes. The DOJ Grants Financial Guide, which contains information on allowable costs, methods of payment, procurement, audit requirements, accounting systems, and financial records, is available on the Office of Justice programs (OJP) web site at <https://www.ojp.gov/funding/financialguidedojoj/overview>.

Source of Governing Requirements

The CESF program is authorized by Division B of HR 748, Pub. L. No. 116-136 (Emergency Appropriations for Coronavirus Health Response and Agency Operations), 28 USC 530C.

Availability of Other Program Information

Program guidance, including program statutes and other general information about the program, is posted to the Bureau of Justice Assistance (BJA) web page (<https://www.bja.gov>), specifically at <https://bja.ojp.gov/program/cesf/overview>. In addition, the BJA FY 2020 Coronavirus Emergency Supplemental Funding Program Frequently Asked Questions (FAQs) document at <https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/cesf-faqs.pdf> provides guidance on allowable costs and other topics. The DOJ Grants Financial Guide, which contains information on allowable costs, methods of payment, audit requirements, accounting systems, and financial records, is available on the Office of Justice Programs (OJP) web site at <http://ojp.gov/financialguide/DOJ/index.htm>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	Y	N	Y	N	Y	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Funds awarded under the CESF program must be utilized to prevent, prepare for, or respond to the coronavirus. Allowable projects and purchases include, but are not limited to, overtime, equipment (including law enforcement and medical

personal protective equipment), hiring, supplies (such as gloves, masks, and sanitizer), training, travel expenses (particularly related to the distribution of resources to the most impacted areas), and addressing the medical needs of inmates in state, local, and tribal prisons, jails, and detention centers.

See the CESF solicitation at <https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/bja-2020-18553.pdf>, as well as the BJA CESF FAQs at <https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/cesf-faqs.pdf> for more detailed information about activities allowed.

2. *Activities Unallowed*

In addition to the unallowable costs that are identified in the DOJ Grants Financial Guide at <http://ojp.gov/financialguide/DOJ/index.htm>, the use of BJA grant funds for unmanned aircraft systems (UAS), including unmanned aircraft vehicles (UAV), and all accompanying accessories to support UAS or UAV is unallowable.

C. **Cash Management**

Eligible states (or SAAs) or units of local government may draw down funds either in advance or on a reimbursable basis. To draw down in advance, funds must be placed in an interest-bearing account, unless one of the exceptions in 2 CFR section 200.305(b)(8) apply. This interest-bearing account must allow for sufficient tracking and traceability of CESF program award funds (see, e.g., 2 CFR 200.302). It is not necessary that the interest-bearing account be a “trust fund.”

Special Condition #40 of each award states, “Establishment of interest-bearing account. If award funds are being drawn down in advance, the recipient (or a subrecipient, with respect to a subaward) is required to establish an interest-bearing account dedicated specifically to this award. Recipients (and subrecipients) must maintain advance payments of federal awards in interest-bearing accounts unless regulatory exclusions apply (2 CFR 200.305(b)(8)). The award funds, including any interest, may not be used to pay debts or expenses incurred by other activities beyond the scope of the Coronavirus Emergency Supplemental Funding (CESF) program. The recipient also agrees to obligate the award funds in the account (including any interest earned) during the period of performance for the award and expend within 120 days thereafter. Any unobligated or unexpended funds, including interest earned, must be returned to OJP at the time of closeout.”

G. **Matching, Level of Effort, Earmarking**

Funds may not be used for direct administrative costs that exceed 10 percent of the total award amount, and funds may not be used to supplant state or local funds, but must be used to increase the amounts of such funds that would, in the absence of federal funds, be made available.

I. Procurement and Suspension and Debarment

Individual items costing \$500,000 or more require prior approval.

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF JUSTICE**ASSISTANCE LISTING 16.710 PUBLIC SAFETY PARTNERSHIP AND COMMUNITY POLICING GRANTS****I. PROGRAM OBJECTIVES**

The Office of Community Oriented Policing Services (COPS Office) grant programs provide state, local, and tribal law enforcement agencies, as well as other public, private, and nonprofit entities, with resources to address law enforcement needs with a focus on advancing public safety through the implementation of community policing strategies. These strategies are focused on three primary elements of community policing: (1) developing community/law enforcement partnerships; (2) developing problem solving and innovative approaches to crime issues; and (3) implementing organizational transformation to build and strengthen community policing infrastructure.

II. PROGRAM PROCEDURES**A. Overview**

COPS Office awards are made to law enforcement agencies, large and small, across the country as well as other public, private, and nonprofit entities. The overall intent of the grant programs is to help support and develop infrastructure and practices that will advance public safety through community policing.

COPS Office awards provide funds for personnel, technology, equipment, training and technical assistance, and innovative community policing strategies. The two main categories of awards are hiring and non-hiring.

B. Subprograms/Program Elements**1. *Hiring Awards***

There are two types of hiring awards actively managed within the COPS Office:

COPS Hiring Program (CHP) awards, which provide funding directly to state, local, and tribal law enforcement agencies to hire new and/or rehire full-time career law enforcement officers to increase their community policing capacity and crime prevention efforts.

Tribal Resources Grant Program – Hiring (TRGP-Hiring) awards, which provide funds to tribal law enforcement agencies for newly hired or rehired full-time sworn career law enforcement officers and village public safety officers to improve crime-fighting capabilities in Indian country.

2. *Non-Hiring Grants*

There are nine types of non-hiring awards actively managed within the COPS Office:

Anti-Heroin Task Force Program (AHTF), which provides funds to locate and investigate illicit activities through statewide collaboration related to the distribution of heroin, fentanyl, or carfentanil, or the unlawful distribution of prescription opioids.

COPS Anti-Gang Initiative (CAGI), which provides funds to law enforcement agencies with a multi-jurisdictional partnership comprising federal, state, and tribal, local law enforcement agencies to address gang activity, enforcement, prevention/education, and intervention.

COPS Anti-Methamphetamine Program (CAMP), which provides funds to locate and investigate illicit activities related to the manufacture and distribution of methamphetamine.

Tribal Resources Grant Program-Equipment/Training (TRGP-E/T), which provides funds to tribal law enforcement agencies for equipment, training, and officer hiring to improve crime-fighting capabilities in Indian country.

Community Policing Development (CPD) program awards are used to develop the capacity of law enforcement to implement community policing strategies by providing guidance on promising practices through the development and testing of innovative strategies; building knowledge about effective practices and outcomes; and supporting new, creative approaches to preventing crime and promoting safe communities. These awards are currently focused on improving law enforcement capacity in the areas of de-escalation, crisis intervention teams, accreditation, microgrants, tolerance diversity and antibias.

Collaborative Reform Initiative for Technical Assistance (CRI-TA), which provides funding to advance the practice of community policing in law enforcement agencies by providing technical assistance to state, local, territorial, and tribal law enforcement agencies on a variety of topics that are tailored to meet their unique needs. This program provides practical “by the field, for the field” technical assistance from leading experts across a range of public safety, crime reduction, and community policing topics. The program also provides for comprehensive organizational assessments and after action reviews and assistance to agencies following critical incidents.

Technology and Equipment Program (TEP), which provide funds for projects to develop and implement technologies that will advance community policing and help fight crime.

Preparing for Active Shooter Situations (PASS) training program, a competitive award program designed to increase law enforcement and public safety by providing funds to advance the practice of community policing in law enforcement agencies through nationally recognized, scenario-based training that prepares officers and other first responders to handle active shooter and other violent threats safely and effectively.

COPS Office STOP School Violence: School Violence Prevention Program (SVPP) provides funding directly to states, units of local government, Indian tribes, and public agencies to improve security at schools and on school grounds in the jurisdiction of the grantee through evidence-based school safety programs.

Law Enforcement Mental Health and Wellness Act (LEMHWA) helps law enforcement agencies establish or enhance mental health care services for their officers and deputies. The program initiates pilot programs that support peer mentoring, annual mental health checks, crisis hotlines, and the delivery of other critical mental health and wellness services. It also supports the development of resources for the mental health providers who deliver tailored, specific services to law enforcement based on the unique challenges they face.

Source of Governing Requirements

All programs (except for one) are authorized under the Omnibus Crime Control and Safe Streets Act of 1968 as amended by the Violent Crime Control and Law Enforcement Act of 1994, Title I, Part Q, Pub. L. No. 103-322, 34 USC 10381 et seq. COPS Office School Violence Prevention Program (SVPP) is authorized under the Students, Teachers, and Officers Preventing (STOP) School Violence Act of 2018 (34 USC 10551 et seq.).

Availability of Other Program Information

The DOJ-COPS home page, [COPS OFFICE \(usdoj.gov\)](https://www.usdoj.gov/cops), under the selection titled “Grants” provides information on regulations and other general information about each program.

Additional information about each program is found in the applicable Award Owner’s Manuals developed by the COPS Office. Grant recipients can access the Award Owner’s Manuals on the COPS Office home under the Grants tab by clicking Program Documents and Compliance and Reporting.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	N	N	Y	Y	N	N	Y	N	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

a. *Hiring-* Hiring grants (CHP and TRGP–Hiring) may include programs, projects, and other activities to:

- (1) Hire and train new, additional career law enforcement officers for deployment into community-oriented policing (34 USC 10381(b)(2));
- (2) Rehire law enforcement officers who have been laid off or who are scheduled to be laid off on a specific future date as a result of state, local, and/or tribal budget reductions for financial reasons unrelated to the availability of COPS grant funds for deployment into community-oriented policing (34 USC 10381(b)(1)); and
- (3) For fiscal year (FY) 2012 CHP awards only, all newly hired officers must be post-September 11, 2001, military veterans (see page 12, Section 2, “Agency Eligibility Information” of the COPS FY 2012 Application Guide: COPS Hiring Program, which is available at <https://cops.usdoj.gov/programdocuments>).

Since FY 2015 CHP awards, the COPS Office has awarded additional consideration for CHP funding to applicants who commit to hiring or rehiring at least one military veteran (as defined in Appendix A).

b. *Non-Hiring Awards*

Non-hiring grants may include programs, projects, and other activities to obtain a wide variety of equipment, technology, civilian personnel, training, and technical, and technical assistance. These grants include programs and projects that are very specific in terms of allowable and unallowable activities. The individual grant must be evaluated to

determine allowable activities, in accordance with program guidelines in the Awards Owner's Manual 34 USC 10381(b) and (d)).

B. Allowable Costs/Cost Principles

All costs are subject to the requirements in 2 CFR 200 Subpart E – Cost Principles, and approved costs are limited to those included in the financial clearance memo in the award package for each award.

The following apply to hiring grants only:

1. CHP and TRGP-hiring awards fund the approved entry-level salaries and fringe benefits of newly hired or rehired full-time officers, for either 36 or 60 months, depending on the program and the fiscal year. The approved entry-level salaries and fringe benefits are based on a grantee agency's actual entry-level sworn officer salary and fringe benefit costs and are identified in the award package that is provided to the grantee agency. Any additional costs for higher than entry-level salaries and fringe benefits will be the responsibility of the recipient agency (34 USC 10381(b) and applicable Application Guide.
2. Beginning with FY 2012, CHP recipient costs are limited to the approved entry-level salaries and fringe benefits of each newly hired and/or rehired full-time officer, with a maximum federal share of \$125,000 per officer position (unless a local match waiver is approved by the COPS Office), over the three-year (36 month) grant period.

G. Matching, Level of Effort, Earmarking

1. Matching

- a. There is no match requirement for CHP (FY 2010 and FY 2011 only), AHTF, CAGI, CAMP, CSPP, CPD, CRI-TA, PASS, LEMHWA, TRGP-Hiring, TRGP-E/T, and TEP.
- b. SVPP recipients must contribute a minimum of 25 percent of the allowable project costs (34 USC 10551(f)(1)). The COPS Office director may waive/alter the 25 percent required match in the case of a recipient with a demonstrated financial need (34 USC 10551(f)(3)).
- c. Beginning with FY2012, CHP recipients must contribute a minimum of 25 percent of the allowable project costs (applicable Application Guide), unless a local match waiver is approved by the COPS Office (34 USC 10381(g)).

2. Level of Effort

Not Applicable

3. Earmarking

Technology and Equipment Program (TEP) distributes funding to support projects designated in the Consolidated Appropriations Act, 2022 (Pub. L. 117-103) for law enforcement technologies, interoperable communications, and public safety equipment. The joint explanatory statement accompanying Pub. L. No. 117-103 lists the designated projects, which is incorporated by reference into the Appropriations Act.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

COPS Progress Report (OMB No. 1103-0102) – This report is required semi-annually during the life of the award for all COPS Office grants.

Key Line Items – The following questions contain critical information:

1. *Question 1* – How many active COPS grant position(s) were filled/hired? Full-time and part-time.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

IV. OTHER INFORMATION

A limited number of recipients beginning in FY 2011 were selected to address particular Department of Justice priority crime problems, based specifically on information in their grant application's community policing plan. Those recipients will have additional special condition(s) in their grant agreement that the auditor will need to cover during the audit.

Auditors should be alert for additional requirements that may be included in the award package relevant to the requirements above noted as subject to audit, such as a restriction on the use of award funds to supplant existing personnel positions or the requirement to retain grant-funded positions for one year after the award period expires.

DEPARTMENT OF JUSTICE

ASSISTANCE LISTING 16.738 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT PROGRAM

I. PROGRAM OBJECTIVES

The Edward Byrne Memorial Justice Assistance Grant (JAG) program, authorized under Title I of Pub. L. No. 90-351 (generally codified at 34 USC 10101–10726), including Subpart 1 of Part E (codified at 34 USC 10151–10158), is the leading source of federal justice funding to state and local jurisdictions. The JAG program provides states, tribes, and local governments with critical funding necessary to support personnel, equipment, supplies, contractual support, training, technical assistance, and information systems for criminal justice or civil proceedings including for any one or more of the following programs: law enforcement, prosecution, indigent defense, courts, crime prevention and education, corrections and community corrections, drug treatment and enforcement, planning, evaluation, technology improvement, and crime victim and witness initiatives, mental health programs and related law enforcement and corrections programs, including behavioral programs and crisis intervention teams, and implementation of state crisis intervention court proceedings and related programs or initiatives, including but not limited to mental health courts; drug courts; veterans courts; and extreme risk protection order programs. It should be noted that the JAG statute defines “criminal justice” as “activities pertaining to crime prevention, control, or reduction, or the enforcement of the criminal law, including, but not limited to, police efforts to prevent, control, or reduce crime or to apprehend criminals, including juveniles, activities of courts having criminal jurisdiction, and related agencies (including but not limited to prosecutorial and defender services, juvenile delinquency agencies and pretrial service or release agencies), activities of corrections, probation, or parole authorities and related agencies assisting in the rehabilitation, supervision, and care of criminal offenders, and programs relating to the prevention, control, or reduction of narcotic addiction and juvenile delinquency.”

II. PROGRAM PROCEDURES

JAG grants are awarded to states, including the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, and American Samoa as well as eligible units of local government which, pursuant to statutory definition, includes tribes that perform law enforcement functions.

The JAG funding formula includes a state allocation consisting of a minimum base allocation with the remaining amount determined on population and violent crime statistics. States also have a variable percentage of the allocation that is required to be “passed-through” to units of local government. This amount, calculated by the Bureau of Justice Statistics (BJS), Department of Justice (DOJ), is based on each state’s crime expenditures. In addition, the formula calculates direct allocations for local governments within each state, based on their share of the total violent crime reported within the state. Local governments that are entitled to an award of at least \$10,000 may apply directly to the Bureau of Justice Assistance (BJA) for local JAG funds. The BJS Technical Report, which contains more information on the award calculation process, is available on BJA’s JAG web page at <https://bjs.ojp.gov/library/publications/justice-assistance-grant-jag-program-2021>.

All JAG program guidance for states and units of local governments, including pass-through requirements, restrictions on funding usage, required certifications, and application checklists, can be found within the state and local program solicitations (application guidance), which are updated annually and posted to BJA's JAG web page at <https://www.bja.gov/Jag/>. The DOJ Grants Financial Guide, which contains information on allowable costs, methods of payment, procurement, audit requirements, accounting systems, and financial records, is available on the Office of Justice programs (OJP) web site at <https://www.ojp.gov/funding/financialguidedojo/overview>.

Source of Governing Requirements

Subpart 1 of Part E of Title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (34 USC 10151–10158).

Availability of Other Program Information

Program guidance, including program statutes and other general information about the program, is posted to the BJA web page (<https://www.bja.gov>), specifically at <https://www.bja.gov/Jag/>. In addition, the BJA JAG Frequently Asked Questions (FAQs) document at <https://bjaojp.gov/doc/jag-faqs.pdf> provides guidance on allowable costs and other topics. Prior versions of the JAG FAQs are located at <https://bjaojp.gov/program/jag/archives>. The DOJ Grants Financial Guide, which contains information on allowable costs, methods of payment, audit requirements, accounting systems, and financial records, is available on the Office of Justice Programs (OJP) web site at <http://ojp.gov/financialguide/DOJ/index.htm>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N

Y	Y	N	N	Y	N	N	Y	Y	Y	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Use of funds is restricted to the following broad program areas, consistent with 34 USC section 10152 (a)(1): law enforcement programs, prosecution and court programs, prevention and education programs, corrections and community corrections programs, drug treatment and enforcement programs, planning, evaluation, and technology improvement programs, crime victim and witness programs (other than compensation), mental health programs and related law enforcement and corrections programs, including behavioral programs and crisis intervention teams, and implementation of state crisis intervention court proceedings and related programs or initiatives, including but not limited to mental health courts; drug courts; veterans courts; and extreme risk protection order programs.

See solicitations for specific program areas. Current fiscal year JAG solicitations are located at <https://www.bja.gov/Jag>, and prior year JAG solicitations are located at <https://bja.ojp.gov/program/jag/archives>.

2. *Activities Unallowed*

In addition to the unallowable costs identified in the DOJ Grants Financial Guide, JAG funds may not be used (whether directly or indirectly) for any purpose prohibited by federal statute or regulation, including those purposes specifically prohibited by the JAG program statute as set out at 34 USC 10152(d).

For full details on JAG funding restrictions and prohibitions, please refer to JAG Program Prohibited and Controlled Expenditures Guidance at <https://bja.ojp.gov/doc/jag-controlled-purchase-list.pdf>. Prior versions of the JAG Program Prohibited and Controlled Expenditures Guidance are located at <https://bja.ojp.gov/program/jag/archives>.

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF JUSTICE

ASSISTANCE LISTING 16.922 EQUITABLE SHARING PROGRAM

I. PROGRAM OBJECTIVES

The Department of Justice Asset Forfeiture Program is a nationwide law enforcement initiative that removes the tools of crime from criminal organizations, deters crime and deprives wrongdoers of their criminal proceeds, and recovers property that may be used to compensate victims. Equitable sharing further enhances the law enforcement mission by fostering cooperation among federal, state, and local law enforcement agencies. Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case.

II. PROGRAM PROCEDURES

State, local, and tribal law enforcement agencies can request federally forfeited funds through the Equitable Sharing Program (Program) based on their qualitative and quantitative contributions to a federal forfeiture. The Program is managed by the Money Laundering and Asset Recovery Section (MLARS), a section within the Department of Justice's Criminal Division. Equitably shared funds must be used by law enforcement agencies for law enforcement purposes only. The Department of the Treasury also manages its own Program under Assistance Listing 21.016. Funds from each Program must be maintained and managed separately.

Source of Governing Requirements- The Program is authorized by the following statutes: 21 USC section 881(e)(1)(A); 18 USC section 981(e)(2); 19 USC section 1616a; 31 USC sections 9705(b)(4)(A) and (b)(4)(B); and 21 USC section 881(e)(3).

Availability of Other Information- Program policies and procedures are set forth in the *Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies (Guide)* (July 2018) as well as *Equitable Sharing Wires (Wires)*. *Wires* may be issued to address policy changes or Program updates without updating the *Guide*. These updates become policy and applicable Program requirements should be tested as part of the audit process. The *Guide* and *Wires* are available on the Department of Justice public website at <https://www.justice.gov/criminal-mlars/equitable-sharing-program>.

Equitable sharing funds are considered federal financial assistance as defined by 2 Code of Federal Regulations (CFR) Section 200.1 Equitable sharing payments are classified as "Direct Payments for Specified Use" in the [System for Award Management](#).

As such, the funds are only subject to certain sections of the CFR, including Title 2, Subtitle A, Chapter II, Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The applicable sections to the Program include Subpart A – Acronyms and Definitions; Subpart B – General Provisions (excluding sections 200.111–200.113); Subpart D – Post Federal Award Requirements (sections 200.303 – Internal Controls and 200.331–333 – Subrecipient Monitoring); and Subpart F – Audit Requirements.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	Y	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

a. The [Guide](#) and Wires are the authoritative criteria. Specifically, sharing funds may be used for permissible law enforcement purposes. As of the July 2018 [Guide](#), equitable sharing funds may be used to support the following activities:

- (1) Law enforcement operations and investigations
- (2) Law enforcement training and education
- (3) Law enforcement, public safety, and detention facilities
- (4) Law enforcement equipment
- (5) Joint law enforcement/public safety operations
- (6) Contracts for services

- (7) Law enforcement travel and per diem
 - (8) Law enforcement awards and memorials
 - (9) Drug, gang, and other prevention or awareness programs
 - (10) Matching grants
 - (11) Support of community-based organizations
- b. Equitable sharing funds may not be used for salaries, except under certain provisions outlined in Section V.B.3 in the [Guide](#), including the following:
- (1) Allowable matching grants
 - (2) Overtime
 - (3) Federal task force replacement
 - (4) Specialized programs

2. *Activities Unallowed*

- a. Similarly, the following are considered impermissible uses of funds and assets:
- (1) Use of forfeited property by non-law enforcement personnel
 - (2) Creation of endowments or scholarships
 - (3) Uses contrary to state or local laws
 - (4) Personal or political use of shared assets
 - (5) Purchase of food and beverages
 - (6) Extravagant or wasteful expenditures and entertainment
 - (7) Cash on hand, secondary accounts, and stored value cards
 - (8) Transfers to other law enforcement agencies
 - (9) Purchase of items for other law enforcement agencies
 - (10) Costs related to lawsuits
 - (11) Loans
 - (12) Money laundering operations

For more information, consult the [Guide](#) for specific detail.

B. Allowable Costs/Cost Principles

The *Guide*, sections V.B.1, 2, and 3, detail allowable and unallowable uses of federal equitable sharing funds. Note that there may be specific exceptions for use of shared funds, so the *Guide* should be consulted for details. The *Guide*'s policies on the use and administration of equitable sharing funds may also be updated at any time through the issuance of an *Equitable Sharing Wire*. For more detail, refer to the previous section.

F. Equipment and Real Property Management

Although 2 CFR sections 200.311 and 313 are not applicable, the *Guide*, Section VI, details the requirements for tangible property. Property purchased with equitable sharing funds, or obtained for official use, is subject to inventory control, log maintenance, and disposal requirements.

G. Matching, Level of Effort, Earmarking**1. Matching**

Not Applicable.

2. Level of Effort

2.1 Level of Effort – *Maintenance of Effort* – Not Applicable

2.2 Level of Effort – *Supplement Not Supplant*

The *Guide*, Section V.A.1, states that agencies may supplement, not supplant, their appropriated funds.

3. Earmarking

The *Guide*, Section V.A.2, states that agencies may earmark funds already received and on hand but may not budget or commit funds not yet awarded or received.

I. Procurement and Suspension and Debarment

- a. Procurement – Although 2 CFR section 200.317-200.327 are not applicable, the *Guide*, Section VI.A.3, requires agencies to follow their jurisdiction's procurement policies.
- b. Suspension and Debarment – 2 CFR section 180.200-225 Applicable.

L. Reporting**1. Financial Reporting**

- a. SF-270, *Request for Advance or Reimbursement* – Not Applicable
- b. SF-271, *Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. SF-425, *Federal Financial Report* – Not Applicable
- d. *Equitable Sharing Agreement and Certification* (OMB Number 1123-0011) – Applicable. The *Guide*, Section VII, details the annual reporting requirements for equitable sharing funds through the submission of the annual Equitable Sharing Agreement and Certification (ESAC). Agencies report on the ESAC the amount of funds received and how they were expended in general categories.

Key Line Items – The following sections contain critical information:

1. *Summary of Equitable Sharing Activity*
 - a. Beginning Equitable Sharing Fund Balance
 - b. Equitable Sharing Funds Received
 - c. Equitable Sharing Funds Received from Other Law Enforcement Agencies and Task Force
 - d. Other Income
 - e. Interest Income
 - f. Total Equitable Sharing Funds Received
 - g. Equitable Sharing Funds Spent
 - h. Ending Equitable Sharing Funds Balance
2. *Summary of Shared Funds Spent*
 - a. Law Enforcement Operations and Investigations
 - b. Training and Education
 - c. Law Enforcement, Public Safety, and Detention Facilities
 - d. Law Enforcement Equipment
 - e. Joint Law Enforcement/Public Safety Equipment and Operations
 - f. Contracts for Services
 - g. Law Enforcement Travel and Per Diem

- h. Law Enforcement Awards and Memorials
- i. Drug, Gang, and Other Education or Awareness Programs
- j. Matching Grants
- k. Transfers to Other Participating Law Enforcement Agencies
- l. Support of Community-Based Programs
- m. Non-Categorized Expenditures
- n. Salaries

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

Not Applicable

M. Subrecipient Monitoring

The 2 CFR sections 200.331–200.333 are applicable. The *Guide*, Section V.B.1.k, allows agencies to transfer equitable sharing funds to qualifying community-based organizations. The *Guide*, Section V.B.2.h, prohibits the transfer of equitable sharing funds to other Program participants unless a waiver is granted from MLARS. Subrecipient monitoring is applicable to any transfer of Program funds.

DEPARTMENT OF LABOR**ASSISTANCE LISTING 17.207 EMPLOYMENT SERVICE/WAGNER-PEYSER FUNDED ACTIVITIES****ASSISTANCE LISTING 17.801 JOBS FOR VETERANS STATE GRANT****I. PROGRAM OBJECTIVES***Wagner-Peyser Act Funded Workforce Employment Services – General*

The Wagner-Peyser Act Employment Service (ES) is an integrated component of the nation's public workforce system. The public workforce system provides services to job seekers and employers through nearly 2,400 American Job Centers (AJC) (also known as One-Stop Centers) nationwide. They are coordinated and co-located with other programs under the Workforce Innovation and Opportunity Act (WIOA) to ensure that job seekers, workers, and employers have convenient and comprehensive access to a full continuum of workforce-related services.

The main purpose of the ES program is to improve the functioning of the nation's labor markets by bringing together individuals who are seeking employment and employers who are seeking workers. Under the Wagner-Peyser Act, unemployed individuals and other job seekers obtain career services, including job search, assessment, and career guidance services, to support them in obtaining and retaining employment. In addition, the ES assists employers with building skilled, competitive workforces through recruitment assistance, employment referrals, and other workforce solutions. The ES provides labor exchange services through an array of electronic tools, to both job seekers and employers, allowing comprehensive and accessible economic and industry data to inform workforce and economic development activities.

Disabled Veterans' Outreach Program (DVOP)

In accordance with 38 USC 4103A(a), the primary objective of the DVOP specialist is to provide career services to meet the employment needs of eligible veterans. In accordance with the statute, agency directives specify the following order of priority in the provision of services: (1) special disabled veterans; (2) other disabled veterans; and (3) other eligible veterans with significant barriers to employment (SBE), as defined in Veterans' Program Letter (VPL) 03-14, including changes 1 and 2, VPL 03-19, and Training and Employment Guidance Letter (TEGL) 19-13, including changes 1 and 2, and TEGL 20-13, including changes 1 and 2.

Local Veterans' Employment Representative (LVER) Program

In accordance with 38 USC 4104(b), as amended by the Jobs for Veterans Act (Pub. L. No. 107-288, November 7, 2002), LVER staff are to: (1) conduct outreach to employers in the area to assist veterans in gaining employment, including conducting seminars for employers and, in conjunction with employers, conducting job search workshops and establishing job search groups; and (2) facilitate employment, training, and placement services furnished to veterans in a state under the applicable state employment service delivery system, generally, the AJC Career Center System established by the WIOA of 2014 (Pub. L. No. 113-128). Coordination and cooperation is maintained with DVOP specialists, staff funded through the WIOA, the Wagner-

Peyser Act, and other partners collocated in the AJCs to ensure priority of service for veterans and compliance with federal regulations, performance standards, and grant agreement provisions to provide veterans with the maximum employment and training opportunities.

II. PROGRAM PROCEDURES

A. Overview

The ES is a core program identified in WIOA and must be included as part of each state's Unified or Combined State Plan (20 CFR section 652.211).

Federal funds are granted to the states for the delivery of employment and workforce information services through a national network of AJC Career Centers. The governor of the state submits to the secretary of labor a Unified or Combined State Plan, which outlines a four-year strategy. The governor retains responsibility for all funds authorized under the Wagner-Peyser Act, specifically those funds authorized under Section 7(a) for providing the services and activities delivered through the one-stop delivery system. The governor has discretion to choose various approaches to planning for the utilization of funds reserved by Section 7(b) of the Wagner-Peyser Act.

B. Subprograms/Program Elements

Jobs for Veterans State Grants

Non-competitively awarded grant funds are provided to states in amounts determined by formula. Jobs for Veterans State Grant (JVSG) funds are provided to states for employing DVOP specialists and LVER staff and deploying them, as practicable, among AJCs. In addition, combined DVOP/LVER staff may be requested to cover underserved areas, and other suitable locations. JVSG-funded staff carry out individualized career services for veterans with employment barriers, assist businesses with their workforce needs, and provide or facilitate employment and placement services to ensure that veterans, eligible persons, and transitioning service members in need of career services, receive maximum employment and training opportunities. DVOP specialists and LVER staff receive training through the National Veterans' Training Institute (NVTI) authorized under 38 USC 4109, in accordance with 38 USC 4102A(c)(8)(A).

JVSG plans are approved on a multi-year basis through the Veterans' Employment and Training Service (VETS) or may be incorporated in states' combined four-year WIOA State Plans. Coordination and cooperation are maintained between DVOP specialists and LVER staff and the staff who are funded through other WIOA/One Stop partner programs. Outreach and assistance are provided by DVOP specialists to individuals identified for participation in the Homeless Veterans' Reintegration Project, Vocational Rehabilitation, and other federal and federally funded employment and training programs. Linkages are developed to assist appropriate grantees and other agencies to promote maximum employment opportunities for veterans.

Source of Governing Requirements

These programs are authorized by the Wagner-Peyser Act, as amended by the WIOA of 2014 (the Act) (Pub. L. No. 113-128) (29 USC 49 et seq.), and the Jobs for Veterans Act (Pub. L. nos. 107-288 and 109-461), as amended by the VOW to Hire Heroes Act (Pub. L. No. 112-56); and 38 USC chapters 41 and 42 (employment and training programs for veterans). Implementing regulations are found at 20 CFR parts 652, 1001, and 1010.

Availability of Other Program Information

Other program information is available <https://www.dol.gov/agencies/eta> and <https://www.dol.gov/agencies/vets>

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	Y	N	N	N	Y	N	N

A. Activities Allowed or Unallowed1. *Activities Allowed*a. *Labor Exchange*

Funds allotted to each state may be utilized by the State Workforce Agency (SWA) for a variety of activities, consistent with an approved plan pursuant to the Act and implementing regulations (20 CFR sections 652.5 and 652.8(d)). At a minimum, each SWA shall provide the basic labor exchange elements defined in 20 CFR section 652.3. Career services are also made available within the one-stop system (20 CFR section 678.430).

b. *Wagner-Peyser Act, Section 7(a)*

Services and activities provided for under Section 7(a) of the Wagner-Peyser Act (relevant sections) can be found at:

<https://www.govinfo.gov/content/pkg/USCODE-2021-title29/html/USCODE-2021-title29-chap4B.htm>) are:

- (1) To unemployed individuals and other job seekers: job search and job placement and job information services, including counseling, testing, occupational and labor market information, assessment, and referral to employers;
- (2) To employers: a source for recruitment of qualified job applicants and technical assistance in resolving workforce problems; and
- (3) The following employment-related activities:
 - Evaluating programs;
 - Developing linkages between services funded under this Act and related federal or state legislation, including the provision of labor exchange services at education sites;
 - Providing employment-related services for workers who have received notice of permanent or impending layoff, and reemployment services for workers in occupations that are experiencing limited demand due to changes in technology, impact of imports, or plant closures;
 - Developing and providing state and local labor market and occupational information;
 - Developing a management information system and compiling and analyzing reports; and

- Administering the work test for the state unemployment compensation system and providing job finding and placement services for unemployment insurance claimants (29 USC 49f(a); 20 CFR section 652.210).

c. Wagner-Peyser Act, *Section 7(b)*

Services and activities provided for under Section 7(b) of the Wagner-Peyser Act are:

- (1) Performance incentives for public employment service offices and programs, consistent with performance standards established by the secretary;
- (2) Services for groups with special needs carried out pursuant to joint agreements between the Employment Service and the local workforce investment board and chief elected official(s), or other public agencies or private nonprofit organizations; and
- (3) Models for delivering Employment Service Program services which incorporate activities listed in Section 7(a) of the Act, including but not limited to: reemployment services; program evaluations; developing partnerships with related programs and entities; developing and distributing labor market and workforce information; compiling and analyzing reports; and administering the UI work test (services of the types described in Section 7(a) of the Act (29 USC 49f(b))).
- (4) In coordination with the state agencies, plan activities that will allow staff to enhance their professional development and career advancement opportunities (Title III, WIOA section 303 (b)(2)).

d. Wagner-Peyser Act, *Section 7(d)*

In addition to the activities described under paragraphs two and three, above, Section 7(d) of the Wagner-Peyser Act authorizes SWAs to perform other activities as specified in cost-reimbursement agreements with the secretary of labor or with any federal, state, or local public agency, or WIOA administrative entity, or private nonprofit organization (29 USC 49f(d)).

e. Wagner-Peyser Act, *Section 7(e)*

Section 7 (e) of the Wagner-Peyser Act provides that all services authorized under 7(a) shall be provided as part of an AJC delivery system established by the state (29 USC 49f(e)).

f. *DVOP*

DVOP includes a wide variety of services directly related to meeting the employment needs of disabled and other eligible veterans as defined at 38 USC 4103A(a) and agency directives (based on Pub. L. No. 107-288). These services include:

- (1) Providing individualized career services to meet the employment needs of eligible veterans with significant barriers to employment (SBE) (see III.E.1, “Eligibility - Eligibility for Individuals,” regarding SBE).
- (2) Ensuring that maximum emphasis in meeting the employment needs of veterans is placed upon assisting economically and educationally disadvantaged veterans.
- (3) Providing career services using a case management approach.
- (4) Maintaining coordination and cooperation with Local Veterans’ Employment Representative and other agency partners collocated in the AJCs.
- (5) Conduct outreach and assistance to individuals identified for participation in Homeless Veterans’ Reintegration Program, Vocational Rehabilitation, and other federal and federally funded employment and training programs.
- (6) Develop linkages to assist appropriate grantees and other agencies to promote maximum employment opportunities for veterans.

g. *LVER*

LVER staff provide outreach and assistance to employers and facilitate the provision of a variety of services to eligible veterans. These services include, but are not limited to, the following (38 USC 4104):

- (1) Maintain regular contact with community leaders, employers, labor unions, training programs, and veterans’ organizations for the purpose of
- (2) keeping them advised of eligible veterans and eligible persons available for employment and training, and
- (3) keeping eligible veterans and eligible persons advised of opportunities for employment and training.

- (4) Provide directly, or facilitate the provision of, labor exchange services including intake and assessment, counseling, testing, job-search assistance, and referral and placement services for eligible veterans.
- (5) Assist, through automated data processing, in securing and maintaining current information regarding available employment and training opportunities.
- (6) Conduct or facilitate job search workshops for job-seeking veterans.

h. *Consolidated DVOP/LVER*

Staff provide services to eligible veterans and eligible persons and businesses, primarily in underserved areas of each state in which they are approved to operate in accordance with 38 USC 4102A(h), when requested by a state and approved by VETS. Services are provided as a DVOP specialist, described in item 6 above, or as a LVER staff member, described in item 7 above, as appropriate. More information regarding the criteria for consolidated DVOP/LVER positions can be found in VPL 01-20. It is important to point out that DVOP/LVER staff are prohibited from serving non-veterans and that the secretary must conduct regular audits to ensure compliance with the limitations on DVOP/LVER duties. Limitations on DVOP/LVER duties and/or compliance audit requirements are cited in VPL 04-18, TEGL 19-13, and Sec. 241 of VOW to Hire Heroes Act of 2011.

E. Eligibility

1. Eligibility for Individuals

- a. The SBE category, defined in VPL 03-14 (including changes 1 and 2), and VPL 03-19, implements the priority and maximum emphasis requirements of 38 USC 4103A(a). Special service-connected disabled veterans and service-connected disabled veterans are included in the group of veterans who are given priority because they have an SBE. In addition, the SBE categories give priority to the other categories of veterans and eligible spouses who are educationally or economically disadvantaged, such as certain groups of veterans and spouses who have been removed from the workforce for significant periods of time.
- b. An eligible veteran or eligible spouse is determined to have an SBE if he or she attests to meeting at least one of the following criteria:
 - (1) A special disabled or disabled veteran, defined in 38 USC 4211(1) and (3), as:

- (a) A veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the secretary of Veterans Affairs for a disability (i) rated at 30 percent or more, or (ii) rated at 10 or 20 percent in the case of a veteran who has been determined to have a serious employment handicap; or
 - (b) A person who was discharged or released from active duty because of a service-connected disability;
- (2) A disabled veteran is defined in 38 USC 4211(3) as:
- (a) A veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs; or
 - (b) A person who was discharged or released from active duty because of a service-connected disability;
- (3) Homeless, as defined in Sections 103(a) and (b) of the McKinney Vento Homeless Assistance Act (42 USC 11302(a) and (b));
- (4) A recently separated service member, as defined in 38 USC 4211(6), who at any point in the previous 12 months has been unemployed for 27 weeks;
- (5) An offender, as defined by WIOA Section 3(38), who has been released from incarceration;
- (6) Lack a high school diploma or an equivalent certificate; or
- (7) Low-income (as defined by WIOA in Section 3(36)).
- (8) Veterans aged 18–24 – Veterans aged 18–24 possess limited civilian work history, which can make transitioning to the civilian labor force more difficult. Veterans between the ages of 18 and 24 may need and benefit from services provided by a DVOP specialist.
- (9) Vietnam-era veterans – Pursuant to 38 USC 4211, the term “veteran of the Vietnam era” is an eligible veteran any part of whose active military, naval, or air service was during the Vietnam era. The Bureau of Labor Statistics and the Department of

Veterans Affairs (VA) data indicate that there are still a sizeable number of Vietnam-era veterans in the workforce, and many face difficulty in finding and maintaining employment. In 2017, there were 1,689,000 Vietnam-era veterans in the workforce, with 64,000 unemployed and actively seeking employment. (**Note:** The Veterans' Benefits Improvement Act with amendments defines "Vietnam-era" to mean: (a) the period beginning on February 28, 1961, and ending on May 7, 1975, in the case of a veteran who served in the Republic of Vietnam during that period; (b) the period beginning on August 5, 1964, and ending on May 7, 1975, in all other cases.)

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

G. Matching, Level of Effort, Earmarking

1. Matching

Not Applicable

2. Level of Effort

Not Applicable

3. Earmarking

Ten percent of each state's Wagner-Peyser Act allotment shall be reserved by the SWA to provide services and activities authorized by Section 7(b) of the Act (29 USC 49f(b)).

L. Reporting

1. Financial Reporting

a. *SF-270, Request for Advance or Reimbursement* – Not Applicable

b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable

c. *SF-425, Federal Financial Report* – Applicable (Assistance Listing numbers 17.801).

- d. *ETA 9130, Financial Report (OMB No. 1205-0461)* – All ETA grantees are required to submit quarterly financial reports for each grant award they receive. Reports are required to be prepared using the specific format and instructions for the applicable program(s); in this case, *Employment Service and Unemployment Insurance Programs*. Reports are due 45 days after the end of the reporting quarter. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. Additional information can be accessed at <http://www.doleta.gov/grants/> and scroll down to the section on Financial Reporting or go directly to the 9130 webpage here: <https://www.dol.gov/agencies/eta/grants/management/reporting>.
- e. *VETS-402 (A/B), Expenditure Detail Report* – This expenditure and staff utilization report separately identifies Jobs for Veterans State Grant-expenditures each quarter and year-to-date as a supplement to the DVOP and LVER SF 425, *Federal Financial Reports*.

2. Performance Reporting

Not Applicable.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF LABOR

ASSISTANCE LISTING 17.225 UNEMPLOYMENT INSURANCE (UI)

I. PROGRAM OBJECTIVES

The UI program, created by the Social Security Act (SSA), provides benefits, also known as Unemployment Compensation (UC), to unemployed workers for periods of involuntary unemployment and helps stabilize the economy by maintaining the spending power of workers while they are between jobs. The UI program initially consisted of the regular state programs (20 CFR Part 601). However, UC coverage was extended to federal civilian employees in 1954 and to ex-members of the Armed Forces in 1958. UC programs now cover almost all wage and salaried workers.

The Federal-State Extended Unemployment Compensation Act (EUCA) of 1970 (Pub. L. No. 91-373; 26 USC 3304 note) provided for the Extended Benefits (EB) program (20 CFR Part 615). During periods of high unemployment, that program pays extended benefits for an additional (or extended) period of time to eligible unemployed workers who have exhausted their entitlement to UC, UC for Federal Employees (UCFE), or UC for Ex-Service Members (UCX).

II. PROGRAM PROCEDURES

A. Overview

The structure of the federal-state UI program partnership is based on federal statute; however, it is implemented through state law. State UI program operations are conducted by the State Workforce Agency (SWA)—the generic name for the agency that has responsibility for the state’s Employment Security function. SWAs were previously referred to as State Employment Security Agencies (SESAs).

State responsibilities include: (1) establishing specific, detailed policies and operating procedures which comply with the requirements of federal laws and regulations; (2) determining the state UI tax structure; (3) collecting state UI contributions from employers (commonly called “unemployment taxes”); (4) determining claimant eligibility and disqualification provisions; (5) making payment of UI benefits to claimants; (6) managing the program’s revenue and benefit administrative functions; (7) administering the programs in accordance with established policies and procedures; and (8) enacting state UC law that conforms with federal UC law and that state law and operations substantially comply with federal law.

Unless otherwise noted, responsibilities of the US Department of Labor (DOL) include: (1) allocating available administrative funds among states; (2) administering the Unemployment Trust Fund (UTF) through the US Department of the Treasury and monitoring activities of the UTF; (3) establishing program performance measures; (4) monitoring state performance; (5) ensuring conformity and substantial compliance of state law and operations with federal law; and (6) setting broad overall policy for program administration.

Benefits payable under several additional programs also are administered by the SWAs, as agents for the DOL; however, they are distinct programs with separate compliance requirements—the Trade Adjustment Assistance/Alternative Trade Adjustment Assistance/Reemployment Trade Adjustment Assistance (TAA/ATAA/RTAA) programs to workers adversely affected by foreign trade and the Disaster Unemployment Assistance (DUA) program to workers and self-employed individuals who are unemployed as a direct result of a presidentially declared major disaster and are not eligible for regular UI benefits paid by states (Assistance Listings 17.245 and 97.034, respectively).

For example, SWAs provide weekly Trade Readjustment Allowances (TRA) /ATAA/RTAA payments for eligible program participants consistent with the eligibility requirements of Assistance Listing 17.245.

Under the DUA program, the SWA is accountable to DOL and, through DOL, to the Federal Emergency Management Agency (FEMA). The SWA works in coordination with both agencies in preparing prompt announcements regarding the availability of DUA, submitting initial and supplemental funding requests, and accurately reporting funding and workload information on DUA monthly and quarterly reports.

In 2020, in response to the Coronavirus Disease 2019 (COVID-19), new UC programs were created via legislation. Under the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020 (Title II, Subtitle A of Pub. L. No. 116-136), Pandemic Unemployment Assistance (PUA), Federal Pandemic Unemployment Compensation (FPUC), and Pandemic Emergency Unemployment Compensation (PEUC) programs were created. The Continued Assistance for Unemployed Workers Act of 2020 (Continued Assistance Act) (Division N, Title II, Subtitle A of the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260) created the Mixed Earners Unemployment Compensation (MEUC) program and provided for additional changes to the CARES Act programs. Additionally, the American Rescue Plan Act of 2021 (ARPA) (Pub. L. No. 117-2), further extended and modified the programs provided under the CARES Act and Continued Assistance Act.

For each program administered under the UI program umbrella (UC, UCFE, UCX, TRA/ATAA/RTAA, EB, DUA, FPUC, PUA, PEUC, and MEUC), states must ensure full payment of applicable benefits “when due” (and states must deny payments when not due).

Note: Informal references are frequently made to eligibility for “weeks” of UC. The auditor is cautioned that, with the exception of PUA, eligibility is generally for a maximum dollar amount of UC, which is often inaccurately referred to as receipt of UC for a given number of weeks. PUA is limited to a specific number of weeks, as discussed further below.

B. Subprograms/Program Elements

We note that federal legislation created four new temporary extension programs in response to the spread of COVID-19, as described below. Because these are temporary programs and subject to changes from subsequent legislation, we provide a high-level summary in this section and refer to Departmental guidance for additional details on the latest iteration. Auditors may refer to Attachment I of UIPL No. 14-21 for the latest summary of coordination across UI programs. Auditors may refer to Attachment II of UIPL No. 14-21 for the latest table describing effective start and end dates for each of the programs.

These temporary programs—PUA, PEUC, FPUC, and MEUC—expired on September 6, 2021. States must process and pay benefits to eligible individuals under the PUA, PEUC, FPUC, and MEUC programs for all weeks of unemployment ending on or before the date of termination or expiration (whichever comes first). The state must also comply with all responsibilities with respect to claims filed under these programs for those weeks, including, without limitation, the requirements under the Agreement and in guidance. Accordingly, the Agreement remains in effect with respect to the PUA, PEUC, FPUC, and MEUC programs for weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) until all issues relating to those weeks are resolved. See section 4.a. of UIPL No. 14-21, Change 1. See UIPL No. 16-20, Change 8, for additional information regarding the period of performance for these programs.

1. Regular UI Program

The regular UI program provides UI coverage to most wage and salary workers in each state, the District of Columbia, Puerto Rico, and the Virgin Islands. Except for provisions necessary to comply with federal law, the provisions of state UI laws vary greatly, including their qualifying requirements and methods used to compute UC amounts.

The period during which a claimant may receive UC is referred to as the “benefit year.” In all but two states, Arkansas and New York, a benefit year lasts one year from the effective date of the claim. The total regular UC that a claimant may receive in a benefit year is computed by the SWA in a dollar amount. A claimant may collect UC up to the maximum benefit amount allowable for the benefit year during periods of unemployment that occur during the benefit year. Under state UI laws, the total (maximum) UC a claimant is entitled to varies within certain limits according to the worker’s wages in the base period (see III.E, “Eligibility – Eligibility for Individuals”). Reduced benefits may be paid for weeks of partial unemployment. In some states, the weekly UI benefit payment is augmented by a dependent’s allowance if provided under state UI law, which may be paid for each dependent up to a maximum number of dependents.

2. Extended Benefits (EB) Program

When certain measures of unemployment exceed thresholds established in law, the EB program will “trigger on” a period of not less than 13 consecutive weeks

during which the state will make EB payments to eligible unemployed workers who have exhausted their entitlement to regular compensation (20 CFR section 615.11). With certain exceptions, EB is payable at the same rate as the claimant's regular benefits (20 CFR section 615.6). Eligibility for EB and the period for which the claimant is eligible is determined by the state in which the original claim was established (EUCA Section 202(a)(2), 20 CFR section 615.2(2)). When all measures of unemployment fall below the established thresholds, the EB program will "trigger off" the period of EB, ending benefit payments. An alternate trigger is available in some states. In addition to a mandatory trigger mechanism required in all states, federal law provides for optional triggers which some states have adopted. For information on the triggers, see Section 203, EUCA, 20 CFR sections 615.11 through 615.13.

Section 266 of the Continued Assistance Act provides states with the option to disregard the 13-week mandatory "off" period described in EUCA Section 203(b)(1)(B), for weeks between November 1, 2020, and December 31, 2021, if permitted under state law.

Additionally, Section 206(c) of the Continued Assistance Act provides that, if permitted under state law, an individual may be eligible for EB after exhausting PEUC as long as the state is in an EB period after the date the individual exhausts PEUC, even if the individual's benefit year has expired.

A claimant may receive EB equal to the lesser of the following amounts: (1) one-half the total amount of regular compensation, including dependent's allowances; (2) thirteen times the weekly amount of regular compensation; or (3) thirty-nine times the weekly amount of regular compensation reduced by the amount of regular compensation paid to the claimant (EUCA, section 202(a)(2), 20 CFR section 615.7(b)). However, the amount of EB benefits payable increases if the unemployment measure reaches a benchmark rate established in EUCA. While EB are payable under the terms and conditions of state law, the Federal Unemployment Tax Act (FUTA) requires that state UC law conform to certain provisions of EUCA (26 USC 3304(a)(11)). Pub. L. No. 112-96 amended the law to allow states to offer self-employment assistance (SEA) to eligible individuals in lieu of EB if state law is amended to provide it.

States are reimbursed with federal funds for one-half the cost of EB paid to claimants by the SWAs, with the following exceptions: (1) EB paid to former UCFE and UCX claimants are 100 percent reimbursable from federal funds; and (2) EB paid to former employees of the state government, and political subdivisions and instrumentalities of the state, and federally recognized Indian tribes are not reimbursable from federal funds.

Reimbursements will be prorated for claimants who had employment in both the private and public sectors during their "base periods." The first week of EB is reimbursable to the state only if the state requires the first week in an individual's

benefit year be an unpaid “waiting week” (EUCA section 204; 20 CFR section 615.14).

The auditor should refer to 20 CFR section 615.14 for a complete explanation of when EB is not reimbursed to the state.

The Families First Coronavirus Response Act, Pub. L. No. 116-127, specifically Division D, the Emergency Unemployment Insurance Stabilization and Access Act of 2020 (EUISAA), made emergency supplemental appropriations in response to the economic impacts of COVID-19. Section 4105 of EUISAA provides full federal funding, under certain circumstances, of: 1) sharable regular compensation and sharable extended compensation; and 2) temporary federal matching for the first week of EB for states with no waiting week. Under EUISAA, these provisions were set to expire on December 31, 2020 (Section 6 of UIPL No. 13-20). The Continued Assistance Act extends the availability of these reimbursements as described above to March 14, 2021 (Section 4.a.iii. of UIPL No. 09-21). ARPA further extends the availability of these reimbursements to weeks beginning before September 6, 2021 (Section 4.a. ii. of UIPL No. 14-21).

On March 27, 2020, the president signed the CARES Act (Pub. L. No. 113-136), which includes the Relief for Workers Affected by Coronavirus Act set out in Title II, Subtitle A. Section 2107 of the CARES Act created the PEUC program, which provides additional weeks of benefits to individuals who exhaust regular UC—while an individual generally must exhaust PEUC before becoming eligible for EB, many individuals were receiving EB at the time that additional weeks of PEUC were authorized under the Continued Assistance Act and again under ARPA. Individuals who were receiving EB at the time these additional weeks were made available must exhaust EB before resuming collection of the PEUC claim (Section 4.f. of UIPL No. 17-20, Change 2 and Section 4.f. of UIPL No. 17-20, Change 3).

Additionally, the Continued Assistance Act provides optional, time-limited, and temporary waiver authority regarding the 13-week “off” period in Section 203(b)(1)(B) of EUCA, if permitted by state law (Section 4.c. of UIPL No. 24-20, Change 1).

On March 11, 2021, the president signed ARPA into law. This Act amends certain provisions of the EUISAA, set out in Division D of the Families First Coronavirus Response Act (Pub. L. No. 116-127) and the CARES Act as amended by the Protecting Nonprofits from Catastrophic Cash Flow Strain Act of 2020 (Protecting Nonprofits Act) (Pub. L. No. 116-151) and the Continued Assistance Act (Pub. L. No. 116-260).

ARPA provides temporary federal matching for the first week of EB for states with no waiting week is extended to weeks of unemployment beginning before September 6, 2021. In states where the week of unemployment ends on a Saturday, the last week of unemployment for which this funding is available is the

week ending on September 11, 2021. In states where the week of unemployment ends on a Sunday, the last week of unemployment for which this funding is available is the week ending on September 5, 2021.

The auditor should also refer to UIPL 28-20 for more specific guidance to code payment to the correct source and ensure overpayments are returned to the proper source.

3. *UCFE and UCX Programs*

For UCFE, the qualifying requirements, determination of the benefit amounts, and duration of UC are generally determined under the applicable state law, which is generally the state in which the official duty station was located (5 USC 8501-8508; 20 CFR Part 609).

The UCX program combines elements of the applicable state law and factors unique to the UCX program, such as “schedules of remuneration” (20 CFR section 614.12), which must be considered by the SWA in making its determinations of eligibility, UI benefit amounts and duration (20 CFR Part 614).

States are reimbursed from the UTF for UC paid to UCFE and UCX claimants. On a quarterly basis, states report the amount of UCFE and UCX paid to the DOL, which is responsible for obtaining reimbursement to the UTF from the appropriate federal agencies (20 CFR sections 609.14 and 614.15).

4. *TRA/RTAA Benefit Payments/Wage Subsidies*

Effective July 1, 2021, the TAA program reverted to a modified version of the 2002 program known as Reversion 2021. Individuals receive benefits and services based on the version of the program under which their petition was certified. For fiscal year (FY) 2020, more than 96 percent of program participants were eligible under the 2015 version. DOL’s Office of Trade Adjustment Assistance administers the concurrent programs and oversees TAA program operations in the states in cooperation with the Regional Offices of ETA.

TRA are available as weekly income support to eligible workers who have exhausted UI benefits. The federal regulations for the TAA program were published in August of 2020 and are found at 20 CFR Part 618. There are various TEGs and UIPLs that also apply to TRA. The most recent version of the TAA Program operates under the amendments enacted by the TAA Reauthorization Act of 2015 (2015 program). The 2015 program includes up to 130 weeks of income support (including regular UI). Reversion 2021 provides the same number of weeks of income support, but with more limited flexibility around other TRA-related issues. Guidance on Reversion 2021 is contained in TEG 24-20 and TEN 01-21.

In addition to TRA, the 2015 program includes the RTAA benefit, originally established under the Trade and Globalization Adjustment Assistance Act of 2009

(TGAAA). RTAA is a wage subsidy available to certain eligible workers who are 50 years of age and older and elect to receive this benefit upon obtaining qualifying reemployment. The maximum benefit is \$10,000. Under Reversion 2021, RTAA reverts to the rules for ATAA which limit receipt of other TAA Program benefits.

On July 1, 2022, the termination provision under Section 285(a) of the Trade Act of 1974, as amended, took effect. Until further notice, the Department may not issue any determinations and may not accept any new petitions or requests for reconsideration. Requests to amend current certifications may still be filed. Workers who were certified and separated from their job on or before June 30, 2022, may still be eligible for benefits. See TEGL 13-21 for more details.

5. *DUA Benefit Payments*

DUA is authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act). DOL oversees the DUA program and coordinates with FEMA, which provides the funds for payment of DUA and for state administration. State Workforce Agencies administer the DUA program on behalf of the federal government.

Based on a request by the governor of a state or the chief executive of a federally recognized Indian tribal government, the president declares a major disaster and authorizes the type(s) of federal assistance to be made available and the geographic areas that have been adversely affected by the disaster. The presidential declaration may authorize Individual Assistance (IA), which includes the provisions for DUA (20 CFR Part 625).

6. *PUA Benefit Payments*

The PUA program was created under the CARES Act to provide benefits to covered individuals. A “covered individual” is someone who meets each of the following three conditions:

- a. The individual is not eligible for regular UC, EB, or PEUC. This also includes those who have exhausted all rights to such benefits, self-employed, those seeking part-time employment, individuals lacking sufficient work history. Self-employed individuals include independent contractors and gig economy workers.
- b. Such individual must self-certify that they are unemployed, partially unemployed, or unable or unavailable to work due to one of the COVID-19 related reasons identified in Section 2102(a)(3)(A)(ii)(I) of the CARES Act and in Departmental guidance (see UIPL 16-20 and Attachment I, Section C.1. of UIPL 16-20, Change 4). Because this eligibility is based on self-certification, states may only request supporting documentation if

they have reasonable suspicions of fraud (see question 23 of Attachment I to UIPL No. 16-20, Change 2).

- c. Additionally, individuals who are paid on or after December 27, 2020, must submit proof of documentation substantiating employment, self-employment, or the planned commencement of employment or self-employment (see Attachment I, Section C.2. of UIPL No. 16-20, Change 4). This includes individuals requesting retroactive payments that are not received until after December 27, 2020.

PUA is payable for weeks of unemployment, partial unemployment, or inability to work caused by the COVID-19 related reasons listed above beginning on or after January 27, 2020. For states where the week of unemployment ends on a Saturday, the first week for which PUA may be paid is the week ending February 8, 2020. In states where the week of unemployment ends on a Sunday, the first week for which PUA may be paid is the week ending February 9, 2020.

Identity Verification. For states to have an adequate system for administering the PUA program, states must include procedures for “identity verification or validation and for timely payment, to the extent reasonable and practicable” by January 26, 2021, which is 30 days after December 27, 2020 (enactment of the Continued Assistance Act). States that previously verified an individual’s identity on a UC, EB, or PEUC claim within the last 12 months are not required to re-verify identity on the PUA claim, though the Department encourages the state to take additional measures if the identity is questioned. Individuals filing new PUA initial claims that have not been through the state’s identity verification process must have their identities verified to be eligible.

Claim Effective Dates and Backdating Limitations. Individuals filing for PUA must have their claim backdated to the first week during the Pandemic Assistance Period in which the individual was unemployed, partially unemployed, or unable or unavailable to work because of COVID-19 related reason(s) identified in Attachment I to UIPL No. 16-20, Change 6. Section 201(f) of the Continued Assistance Act provides a limitation on backdating for claims filed after December 27, 2020 (the enactment date of the Continued Assistance Act).

- *PUA initial claims filed on or before December 27, 2020.* Initial PUA claims filed on or before this date may be backdated no earlier than the week that begins on or after February 2, 2020, the first week of the Pandemic Assistance Period (PAP).
- *PUA initial claims filed after December 27, 2020.* Initial PUA claims filed after this date may be backdated no earlier than December 1, 2020 (a claim effective date of December 6, 2020, for states with a Saturday week ending date and a claim effective date of December 7, 2020, for states with a Sunday week ending date).

To comply with the requirements in Section 263 of the Continued Assistance Act, all states must ensure , with respect to weeks of unemployment beginning on or after January 26, 2021 (30 days after the enactment date of the Continued Assistance Act), continued claim forms contain a self-certification process for PUA claimants to identify the specific COVID-19 related reason under Section 2102(a)(3)(A)(ii)(I)(aa) through (kk) of the CARES Act for which they are unemployed, partially unemployed, or unable or unavailable to work. For states with a Saturday week ending date, this begins with ending February 6, 2021. For states with a Sunday week ending date, this begins with week ending February 7, 2021.

For continued claims filed with respect to weeks ending before January 26, 2021 (January 30, 2021, for states with a Saturday week ending date and January 31, 2021, for states with a Sunday week ending date), if a state made a good faith effort to implement the PUA program, an individual will not be denied benefits solely for failing to submit a weekly recertification. The determination of whether a state made a “good faith effort” to implement the PUA program will be performed by the Employment and Training Administration and it will determine what, if any, retroactive action is required to obtain self-certifications (Attachment III to UIPL No. 16-20, Change 6).

Calculating Weekly Benefit Amounts (WBA). The PUA WBA is equal to the WBA authorized under state UC law where the individual was employed. For individuals without reported wages sufficient to establish a WBA, the WBA will be calculated according to processes for Disaster Unemployment Assistance (see Attachment II of UIPL No. 16-20, Change 1). As set out in 20 CFR section 625.6(b), the minimum PUA WBA is “50 percent of the average weekly payment of regular compensation in the state, as provided quarterly by the Department.” The minimum WBA for all PUA claims is identified by state in UIPL No. 03-20.

Duration of PUA Claims. The maximum number of weeks of PUA benefits is 79 weeks. The number of weeks available continues to be reduced by any weeks of regular UC and EB that the individual receives with respect to the PAP (Section 4.c.i. of UIPL No. 14-21).

States are reminded, as described in Section C.17. of Attachment I to UIPL No. 16-20, Change 4, the additional 11 weeks provided under the Continued Assistance Act (increasing the duration from 39 weeks to 50 weeks) may only be paid with respect to weeks of unemployment beginning on or after December 27, 2020. In states where the week of unemployment ends on a Saturday, the first week for which these additional 11 weeks may be paid is the week ending January 2, 2021. In states where the week of unemployment ends on a Sunday, the first week for which these additional 11 weeks of benefits may be paid is the week ending January 3, 2021.

The additional 29 weeks of benefits provided under ARPA (increasing the duration from 50 to 79 weeks) may only be paid with respect to weeks of unemployment ending after March 14, 2021. We note that there are 25 weeks between the week ending March 13, 2021, and the last payable week of September 4, 2021. As such, individuals may not exhaust their full PUA entitlement before the program expires.

In states where the week of unemployment ends on a Saturday, the first week for which these additional 29 weeks of benefits may be paid is the week ending on March 20, 2021. In states where the week of unemployment ends on a Sunday, the first week for which these additional 29 weeks of benefits may be paid is the week ending on March 21, 2021.

Program End Date. The state must process and pay benefits to eligible individuals under the PUA program for all weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) (Attachment II, UIPL 16-20, Change 6 and UIPL 14-21, Change 1).

The state must also comply with all responsibilities with respect to claims filed under the PUA program for those weeks, including, without limitation, the requirements under the Agreement and in guidance. Accordingly, the Agreement remains in effect with respect to the PUA program for weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) until all issues relating to those weeks are resolved.

In all states, under current federal law, no PUA payment may be made with respect to weeks of unemployment ending after September 6, 2021. In states where the week of unemployment ends on a Saturday, the last payable week for PUA is the week ending September 4, 2021. In states where the week of unemployment ends on a Sunday, the last payable week for PUA is the week ending September 5, 2021. For states that terminate the Agreement to operate the PUA program before September 6, 2021, no payments for the PUA program may be made with respect to weeks of unemployment ending after the date the state terminates participation in the Agreement.

Hold Harmless for Proper Administration (Section 9011(c), ARPA). Generally, an individual must have exhausted all entitlement to regular UC, PEUC, and EB before being eligible for PUA. However, ARPA provides a “hold harmless” provision for an individual who previously exhausted PEUC and is now receiving PUA, but, because of Section 9016(b), ARPA, becomes eligible for additional amounts of PEUC beginning on or after March 11, 2021. States may temporarily continue paying PUA to an individual currently receiving PUA who is newly eligible to receive PEUC due to the additional weeks of PEUC. This flexibility is allowed for an appropriate period of time as determined by the secretary.

Additional information on the PUA program can be found in UIPL No. 16-20; UIPL No. 16-20, Change 1; UIPL No. 16-20, Change 2; UIPL No. 16-20, Change 3; UIPL No. 16-20, Change 4; UIPL No. 16-20, Change 5, UIPL 16-20 Change 6; UIPL No. 14-21 and UIPL No. 14-21, Change 1.

7. *PEUC Benefit Payments*

Eligible Individuals. PEUC is a temporary program that provides additional weeks of benefits to individuals who:

- a. have exhausted all rights to regular compensation under state law or federal law with respect to a benefit year that ended on or after July 1, 2019;
- b. have no rights to regular compensation with respect to a week under any other state UC law or federal UC law, or to compensation under any other federal law;
- c. are not receiving compensation with respect to a week under the UC law of Canada; and
- d. are able to work, available to work, and actively seeking work, while recognizing that states must provide flexibility in meeting the “actively seeking work” requirement if individuals are unable to search for work because of COVID-19, including because of illness, quarantine, or movement restriction.

Duration of PEUC Claims. The maximum amount of PEUC compensation that may be established in an individual’s account for the benefit year is increased from 24 times the individual’s average WBA to 53 times the individual’s average WBA (Section 4.c.v. of UIPL No. 14-21).

States are reminded, as described in Section 4.d. of UIPL No. 17-20, Change 2, the additional amount provided under the Continued Assistance Act (increasing entitlement from 13 times the individual’s average WBA to 24 times the individual’s average WBA) may only be paid with respect to weeks of unemployment beginning on or after December 27, 2020. In states where the week of unemployment ends on a Saturday, the first week for which this additional amount may be paid is the week ending January 2, 2021. In states where the week of unemployment ends on a Sunday, the first week for which this additional amount may be paid is the week ending January 3, 2021.

The additional amount provided under ARPA (increasing entitlement from 24 times the individual’s average WBA to 53 times the individual’s average WBA) may only be paid with respect to weeks of unemployment ending after March 14, 2021. In states where the week of unemployment ends on a Saturday, the first week for which this additional amount may be paid is week ending on March 20,

2021. We note that there are 25 weeks between the week ending March 13, 2021, and the last payable week of September 4, 2021. As such, individuals may not exhaust their full PEUC entitlement before the program expires.

In states where the week of unemployment ends on a Sunday, the first week for which this additional amount may be paid is week ending on March 21, 2021.

Program End Date. The state must process and pay benefits to eligible individuals under the PEUC program for all weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) (UIPL 14-21, Change 1).

The state must also comply with all responsibilities with respect to claims filed under the PEUC program for those weeks, including, without limitation, the requirements under the Agreement and in guidance. Accordingly, the Agreement remains in effect with respect to the PEUC program for weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) until all issues relating to those weeks are resolved.

In all states, under current federal law, no PEUC payment may be made with respect to weeks of unemployment ending after September 6, 2021. In states where the week of unemployment ends on a Saturday, the last payable week for PEUC is the week ending September 4, 2021. In states where the week of unemployment ends on a Sunday, the last payable week for PEUC is the week ending September 5, 2021. For states that terminate the Agreement to operate the PEUC program before September 6, 2021, no payments for the PEUC program may be made with respect to weeks of unemployment ending after the date the state terminates participation in the Agreement.

Additional information on the PEUC program can be found in UIPL No. 17-20; UIPL No. 17-20, Change 1; and UIPL No. 17-20, Change 2; UIPL No. 17-20, Change 3; UIPL No. 14-21 and UIPL 14-21, Change 1.

8. *FPUC Benefit Payments*

The FPUC program was created under Section 2104 of the CARES Act. This program provided an additional \$600 per week to individuals who are collecting regular UC (including UCFE and UCX), as well as the following unemployment compensation programs:

- a. Pandemic Emergency Unemployment Compensation (PEUC);
- b. Pandemic Unemployment Assistance (PUA);
- c. Extended Benefits (EB);

- d. Short Time Compensation (STC);
- Trade Readjustment Allowances (TRA);
 - Disaster Unemployment Assistance (DUA); and
 - Payments under the Self-Employment Assistance (SEA) program.

If an individual is eligible to receive at least \$1 of underlying benefit for the week in question, then they must also receive the \$600 FPUC supplemental payment. This applies to all weeks of unemployment beginning with week ending April 4, 2020, through week ending July 25, 2020.

The FPUC program was reauthorized under the Continued Assistance Act to provide \$300 per week in supplemental benefits for weeks of unemployment starting with week ending January 2, 2021, through week ending March 13, 2021. FPUC is not payable with respect to any week during the gap in applicability, that is, weeks of unemployment ending after July 31, 2020, through weeks of unemployment ending on or before December 26, 2020.

ARPA further extended the FPUC program at \$300 per week through the week ending on or before September 6, 2021 (Section 4.c.iii. of UIPL No. 14-21).

Program End Date. The state must process and pay benefits to eligible individuals under the FPUC program for all weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) (UIPL 14-21, Change 1).

The state must also comply with all responsibilities with respect to claims filed under the FPUC program for those weeks, including, without limitation, the requirements under the Agreement and in guidance. Accordingly, the Agreement remains in effect with respect to the FPUC program for weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) until all issues relating to those weeks are resolved.

In all states, under current federal law, no FPUC payment may be made with respect to weeks of unemployment ending after September 6, 2021. In states where the week of unemployment ends on a Saturday, the last payable week for FPUC is the week ending September 4, 2021. In states where the week of unemployment ends on a Sunday, the last payable week for FPUC is the week ending September 5, 2021. For states that terminate the Agreement to operate the FPUC program before September 6, 2021, no payments for the FPUC program may be made with respect to weeks of unemployment ending after the date the state terminates participation in the Agreement.

Additional information on the FPUC program can be found in UIPL No. 15-20; UIPL No. 15-20, Change 1; UIPL No. 15-20, Change 2; UIPL No. 15-20, Change 3; UIPL No. 15-20, Change 4; UIPL No. 14-21 and UIPL No 14-21, Change 1.

9. *MEUC Benefit Payments*

The MEUC program was created under the Continued Assistance Act. State participation in the MEUC program is optional and requires a state to enter into an agreement with DOL to operate the program. This program provides \$100 each week, in addition to FPUC, to individuals with \$5,000 or more in self-employment income in the previous tax year who are receiving unemployment benefits from a program other than PUA.

Eligible individuals must: (i) have received at least \$5,000 of self-employment income in the most recent taxable year prior to the individual's application for regular UC, (ii) be receiving a UI benefit (other than PUA) for which FPUC is payable, and (iii) submit documentation substantiating their self-employment income. This supplemental payment does not apply to individuals collecting PUA. States must determine an individual's eligibility for MEUC prior to releasing MEUC payments. Once verified the state must make the MEUC supplemental payment for each week during the program dates in which the individual qualifies for at least \$1 of underlying benefit (except PUA).

MEUC is payable beginning with weeks of unemployment no earlier than week ending January 2, 2021 (January 3, 2021, for states with a Sunday week ending date) through the week ending March 13, 2021. ARPA further extended the MEUC program at \$100 per week through the week ending on or before September 6, 2021 (Section 4.c.iii. of UIPL No. 14-21).

Program End Date. The state must process and pay benefits to eligible individuals under the MEUC program for all weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) (UIPL 14-21, Change 1).

The state must also comply with all responsibilities with respect to claims filed under the MEUC program for those weeks, including, without limitation, the requirements under the Agreement and in guidance. Accordingly, the Agreement remains in effect with respect to the MEUC program for weeks of unemployment ending on or before the date of termination or expiration (whichever comes first) until all issues relating to those weeks are resolved.

In all states, under current federal law, no MECU payment may be made with respect to weeks of unemployment ending after September 6, 2021. In states where the week of unemployment ends on a Saturday, the last payable week for MEUC is the week ending September 4, 2021. In states where the week of unemployment ends on a Sunday, the last payable week for MEUC is the week ending September 5, 2021. For states that terminate the Agreement to operate the

MEUC program before September 6, 2021, no payments for the MEUC program may be made with respect to weeks of unemployment ending after the date the state terminates participation in the Agreement.

Additional information on the MEUC program can be found in UIPL No.15-20, Change 3; UIPL No. 15-20, Change 4; UIPL No. 14-21 and UIPL 14-21, Change 1.

C. Program Funding

UI payments to claimants are funded primarily by state UI taxes on covered employers (three states, Alaska, New Jersey, and Pennsylvania, also have provisions for employee taxes). Some employers make direct reimbursements to the state for UI payments made on their behalf rather than paying UI taxes. State governments, political subdivisions, and instrumentalities of the states; federally recognized Indian tribes; and qualified nonprofit organizations may reimburse the state for UI benefits paid by the SWA; however, they may elect to be contributory employers (i.e., remit state UI taxes) in lieu of reimbursing the state. Also, states are reimbursed from the UTF for UCFE and UCX paid by the SWA on behalf of various federal entities. Program administration is funded by a federal UI tax on covered employers (see below). Generally, the employment covered by state UI taxes and federal UI taxes is the same; however, there are specific differences.

State UI taxes and reimbursements are used exclusively for the payment of regular UC and the state share of EB to eligible claimants. UI taxes and reimbursements remitted by employers to the states are deposited in state accounts in the UTF. SWAs periodically draw funds from their UTF accounts for the purpose of making UI payments.

FUTA imposes a federal tax on covered employers. Effective July 1, 2011, the FUTA tax is 6 percent of the first \$7,000 of covered employee wages. The law, however, provides a credit against federal tax liability of up to 5.4 percent to employers who pay state UI taxes timely under an approved state UI program. This credit is allowed regardless of the amount of the UI tax paid to the state by the employer. Employers may receive these credits only when the state UI law, and its application, conform and substantially comply with FUTA requirements. All states currently meet the FUTA requirements.

Another aspect of the FUTA tax is the FUTA credit reduction, which could occur when a state with an insolvent UI trust fund borrows from the US Treasury and those loans remain unpaid for a certain period. When a state has an outstanding UC trust fund loan on January 1 for two consecutive years and there is an outstanding balance on November 10 following the second January 1, the FUTA tax rate for employers in that state will be increased by 0.3 percent. Each additional year the loans remain unpaid will cause additional and incremental increases to the FUTA tax rate until the loans are repaid. Revenue derived from the FUTA credit reduction is used solely to reduce outstanding UI trust fund loans.

FUTA revenues from the 0.6 percent are collected by the Internal Revenue Service (IRS) and deposited into the general fund of the US Treasury, which by statute are appropriated to the UTF. FUTA revenues are used primarily to finance federal and SWA administrative expenses, the federal share of EB, and advances to states whose UTF account balances are exhausted. DOL allocates available administrative grant funds (as appropriated by Congress) to states based on forecasted workload and costs and is adjusted for increases or decreases in workload during the current year.

Section 903 of the Social Security Act requires the refunding of FUTA taxes to states when amounts in the individual federal account in the UTF meet their statutory caps. Title IX funds are credited to the state accounts in the UTF and may be used to pay benefit payments under state law and, subject to certain requirements, may be used for administering the UI programs.

States annually compute an “experience rate” for contributing, or tax-remitting, employers. The experience rate is the dominant factor in the computation of an employer’s state UI tax rate. While methods of computation differ, the key factor in most methodologies is the amount of UI benefits paid by the SWA within a time period specified by state UI law, to claimants who are former employees of the employer. Also, various methods are used by the SWAs to identify which one or more of the claimant’s former employers will be “charged” with the UI benefits paid to the claimant. Since FEMA has delegated to the secretary of labor the responsibility for administering the DUA program, FEMA transfers resources to DOL’s Employment and Training Administration (ETA) to provide funding to states impacted by the disaster after a major disaster declaration has been made. Funding for each disaster is provided separately. States are expected to report the DUA costs for each disaster separately by administrative and benefits costs. The funding period (known as the disaster assistance period) generally covers a 26-week period after the declaration.

See III.B.1. Eligibility for Individuals, for additional information on temporary emergency flexibilities related to employer experience rating.

Source of Governing Requirements

The federal-state UI program partnership is provided for by Titles III, IX, and XII of the Social Security Act of 1935 (SSA) (42 USC 501, 1101, 1321, et seq.), the FUTA (26 USC 3301 et seq.), UCFE (5 USC 8501 et seq.), and UCX (5 USC 8521 et seq.). Program regulations are found in 20 CFR parts 601 through 616.

The TAA/ATAA program is authorized by the Trade Act of 1974, as amended by the TAA Reform Act of 2002 (Pub. L. No. 107-210 (19 USC 2271 et seq.)). Implementing regulations are 29 CFR Part 90, Subpart B, and 20 CFR Part 617. Operating instructions for the TAA program are found in TEGL No. 11-02, and operating instructions for the ATAA program are found in TEGL No. 2-03. **The RTAA program is authorized by the Trade Act of 2009 (Division B, Title I, Subtitle I of ARRA), which further amended the Trade Act of 1974.** Operating

instructions for the TAA/RTAA program are found in TEGL No. 22-08, TEGL No. 10-11, TEGL No. 7-13, TEGL No. 14-14, and TEGL No. 5-15.

The DUA program can be found at 42 USC 5177 and the implementing regulations for the DUA program are found at 44 CFR sections 206.8 and 206.141 for FEMA, and 20 CFR Part 625 for DOL.

Availability of Other Program Information

Other information on the UI programs can be found at <https://www.dol.gov/agencies/eta/employment-services> and <https://oui.doleta.gov/unemploy/bqc.asp>. Additional information on TAA and ATAA program procedures is available at <http://www.doleta.gov/tradeact>. Additional information on DUA is available at <https://oui.doleta.gov/unemploy/disaster.asp>. Additional information on programs created in response to COVID-19 can be found at <https://oui.doleta.gov/unemploy/coronavirus/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	Y	Y	N	N	Y	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Administrative grant funds may be used only for the purposes and in the amounts necessary for proper and efficient administration of the UI program (20 CFR Part 601; 20 CFR sections 609.14(d); and 614.15(d); 20 CFR section 617.59 (TRA/ATAA); 44 CFR section 206.8 (DUA)).

a. TRA and ATAA/RTAA

- (1) TRA – Allowable activities include payment of weekly TRA benefits to eligible participants (20 CFR sections 617.10 through 617.19).
- (2) ATAA/RTAA – Allowable activities include payment of ATAA wage subsidies to eligible participants (Section 246 of Pub. L. No. 107-210, Pub. L. No. 111-5, and Pub. L. No. 112-40).

b. DUA- Funds may be used only for the payment of DUA benefits and for DUA-related state administrative costs.

c. FPUC- FPUC payments may be payable either as (1) as an increase of the weekly benefit payment to the individual, or (2) as a separate supplemental payment made, on the same schedule as regular UC, to the individual (Section 2004 (b)(2), CARES).

2. *Activities Unallowed*

- (a) FPUC is not payable to individuals receiving state additional compensation.

E. Eligibility

1. Eligibility for Individuals

A note on temporary emergency flexibilities. Section 4102(b), EUISAA, provides states with the ability to modify or waive certain aspects of their UC law as needed to respond to the spread of COVID-19. These provisions include work search, waiting week, good cause, and employer experience rating. If exercised, the state's regular eligibility requirements described below regarding work search, waiting week, good cause, and employer experience rating may be modified or waived for a temporary period of time in response to the spread of COVID-19. A state should have supported documentation (e.g., statutory changes, emergency rules, or executive orders) if these temporary flexibilities were exercised for the time period in question (see Section 5 of UIPL No. 13-20 for emergency flexibilities).

- a. *Regular Unemployment Compensation Program* – Under state UC laws, a worker’s benefit rights depend on the amount of the worker’s wages and/or weeks of work in covered employment in a “base period.” While most states define the base period as the first four of the last five completed calendar quarters prior to the filing of the claim, other base periods may be used. To qualify for benefits, a claimant must have earned a certain number of wages or have worked a certain number of weeks or calendar quarters within the base period or meet some combination of wage and employment requirements. Some states require a waiting period of one week of total or partial unemployment before UC is payable. A “waiting period” is a non-compensable period of unemployment in which the worker is otherwise eligible for benefits.

To be eligible to receive UC, all states provide that a claimant must have been separated from suitable work for non-disqualifying reasons under state law (i.e., not because of such acts as leaving voluntarily without good cause or discharge for misconduct connected with work). After separation, they must be able and available for work, actively seeking work, legally authorized to work in the United States and must not have refused an offer of suitable work.

- b. *EB Program* – To qualify for EB, a claimant must have exhausted regular UI benefits (20 CFR section 615.4(a)). To be eligible for a week of EB, a claimant must apply for and be able and available to accept suitable work, if offered. What constitutes suitable work is dependent on a required SWA’s evaluation of the claimant’s employment prospects. An EB claimant must make a “systematic and sustained effort” to seek work and must provide “tangible evidence” to the SWA that he or she has done so (20 CFR section 615.8).

Section 206(c)(2)(B) of the Continued Assistance Act amended Section 2107(a) of the CARES Act regarding the application of Section 203(c) of EUCA to PEUC exhaustees. First, section 206(c)(2)(A) of the Continued Assistance Act provides that any individual who is receiving EB for the week of unemployment that includes December 27, 2020 (the date of enactment of the Continued Assistance Act) shall not be eligible for PEUC until the individual has exhausted all rights to EB.

Second, at a state’s option, for weeks of unemployment beginning after December 27, 2020, and before April 12, 2021, an individual’s eligibility for EB shall be considered to include any week that begins after the individual exhausts all rights to PEUC and that falls during an EB period that began after the date the individual exhausted all rights to PEUC. This applies even if the individual’s benefit year has expired, provided the state is in an EB period as of the date the individual exhausts PEUC.

- c. *UCFE and UCX Programs* – For UCFE, the claimant’s eligibility and benefit amount will generally be determined in accordance with the UI law of the state of the claimant’s last duty station (20 CFR section 609.8). For UCX, a claimant’s initial eligibility for UCX benefits is determined in accordance with 20 CFR section 614.3. Continued eligibility for UCX benefits, after the UCX claim has been established is determined in accordance with the UI law of the state in which the claimant files a first claim after separation from active military service (20 CFR section 614.8).
- d. *TRA* – For weekly TRA payments, the worker must (a) have been employed at wages of \$30 or more per week in adversely-affected employment with a single firm or subdivision of a firm for at least 26 of the previous 52 weeks ending with the week of the individual’s qualifying separation (up to seven weeks of employer-authorized leave, up to seven weeks as a full-time representative of a labor organization, or up to 26 weeks of disability compensation may be counted as qualifying weeks of employment); (b) have been entitled and have exhausted all UC to which he or she is entitled; and (c) be enrolled in or have completed an approved job training program, unless a waiver from the training requirement has been issued after a determination is made that training is not feasible or appropriate (20 CFR section 617.11).

TRA is payable to eligible claimants after exhaustion of UI benefits, which include and are defined as (1) regular compensation under state law; (2) EB; and (3) any federal supplemental compensation program that may be authorized by Congress from time-to-time.

TRA may consist of (1) basic, (2) additional, (3) remedial, (4) remedial and/or pre-requisite, and (5) completion. The distinction depends on whether the benefits accrue under the 2002, 2009, 2011, Reversion 2014, or 2015 program amendments, and is determined by the petition number.

The maximum basic TRA amount payable is the product of 52 times the WBA of the first benefit period. This maximum amount is reduced by the entire UI entitlement of the first benefit period including EB, and/or any federal supplemental compensation, such as EUC08. This maximum amount is the same under the 2002, 2009, and Reversion 2014, as well as 2015 program amendments. If the combination of all UI entitlement in the first benefit period exceeds the maximum basic TRA amount payable, no basic TRA is payable.

Additional TRA requires that the individual participate in TAA training for each week claimed. Under the 2002 program amendments, additional TRA may be payable for up to 52 weeks in a 52 consecutive-weeks period. Under the 2009 program amendments, additional TRA may be payable for up to 78 weeks in a 91 consecutive-weeks period. Under the 2011 program amendments, Reversion 2014, and 2015 program

amendments, additional TRA may be payable for up to 65 weeks in a 78 consecutive-weeks period. Please note that, under all additional TRA payable (including completion TRA discussed below), each week paid counts towards the maximum weeks payable regardless of the amount paid each week.

Under the 2002 program amendments, up to an additional 26 weeks may be payable as TRA if the individual engaged in remedial education. Under the 2009 program amendments, up to an additional 26-week total may be payable as TRA if the individual engaged in either remedial education, and/or pre-requisite education. Under the 2011 program amendments, Reversion 2014, and 2015 program amendments, up to an additional 13 weeks may be payable as completion TRA if the individual is pursuing a degree or industry-recognized credential, continues to make satisfactory progress in meeting the training benchmarks, and will complete the training within the period of eligibility.

For TRA eligibility derived from petitions filed before May 18, 2009, or between February 15, 2011, and October 21, 2011 (2002 program amendments), as well as those filed on or after January 1, 2014, under Reversion 2014, the enrollment in TAA training must have occurred by the end of the 8th week after the certification or the end of the 16th week of the most recent qualifying separation, unless the requirement is waived. For TRA eligibility derived from petitions filed on or after May 18, 2009, and before February 15, 2011 (2009 program amendments), or on and after October 21, 2011, and before January 1, 2014 (2011 program amendments), the enrollment in TAA training must have occurred by the end of the 26th week after the certification or the end of the 26th week of the most recent qualifying separation, unless the requirement is waived. For TRA eligibility derived from petitions filed on or after June 29, 2015, the enrollment in TAA training must have occurred by the end of the 26th week after the certification or the end of the 26th week of the most recent qualifying separation, unless the requirement is waived.

- e. *ATAA* – For ATAA payments, an individual must be an adversely affected worker covered under a DOL TAA certification of eligibility and meet the following conditions at the time of reemployment as provided in TEGL No. 11-02 and TEGL No. 02-03:
- (1) Be at least age 50 at the time of reemployment.
 - (2) Obtain reemployment by the last day of the 26th week after the worker's qualifying separation from the TRA/ATAA certified employment.
 - (3) Must not be expected to earn more than \$50,000 annually in gross wages (excluding overtime pay) from the reemployment.

- (4) Be reemployed full-time as defined by the state law where the worker is employed.
 - (5) Cannot return to work to the employment from which the worker was separated.
- f. *RTAA* – To be eligible to receive RTAA payments, an individual must be an adversely affected worker covered under a DOL TAA certification of eligibility if at the time of reemployment, the following conditions are met (TEGL No. 22-08):
- (1) Is at least 50 years of age.
 - (2) Earns not more than \$55,000 each year in wages from reemployment (2009 program amendments) or \$50,000 each year in wages from re-employment (2011, 2015 program amendments).
 - (3) Is employed on a full-time basis as defined by the law of the state in which the worker is employed and is not enrolled in a training program or is employed at least 20 hours per week and is enrolled in a TAA-approved training program.
 - (4) Is not employed at the firm from which the worker was separated.
- g. *DUA* – To be eligible for DUA, the individual’s employment or self-employment was lost or interrupted as a direct result of a major disaster or the individual was prevented from commencing employment or self-employment due to the major disaster. This includes individuals who reside in the major disaster area but are unable to reach their place of employment or self-employment outside of the major disaster area, and individuals who must travel through a major disaster area to their employment or self-employment, but who are unable to do so as a direct result of the major disaster (20 CFR sections 625.4 and 625.5).

DUA weekly benefits and re-employment assistance services are provided to individuals who are unemployed as a direct result of a presidentially declared major disaster and who are not eligible for regular unemployment compensation but meet the DUA qualifying requirements.

Generally, an individual is eligible for DUA for a week of unemployment if he or she meets the following conditions (20 CFR section 625.4):

- (1) Each week of unemployment claimed begins during the disaster assistance period.
- (2) The individual is an unemployed worker or an unemployed, self-employed individual whose unemployment (total or partial) has

been found to be the direct result of a major disaster in the major disaster area.

- (3) The individual is able to work and available for work, within the meaning of the applicable state law, except an individual will be deemed to meet this requirement if any injury directly caused by the major disaster is the reason for inability to work.
 - (4) The individual is not eligible for compensation (as defined in 20 CFR section 625.2(d)) or for waiting-period credit for such week under any other federal or state law; except that an individual determined ineligible because of the receipt of disqualifying income shall be considered eligible for such compensation or waiting period credit.
 - (5) Claimants eligible for UC are *not* eligible for DUA. DUA may not be paid as a supplement to UC for the same week of unemployment. DUA also is not payable for any unemployment compensation waiting period required under state UC law (20 CFR section 625.4(i)).
 - (6) The individual files an initial application for DUA within 30 days after the announcement date of the major disaster. An initial application filed later than 30 days after the announcement date shall be considered timely filed if the state finds that there is good cause for the late filing. At the request of the state, the administrator of DOL's Office of Unemployment Insurance may authorize extension of the 30-day filing requirement for all DUA applicants. In no case will initial applications be accepted if filed after the expiration of the disaster assistance period (20 CFR section 625.8).
- h. Aliens must show proof that they are authorized to work by the US Citizenship and Immigration Services (USCIS) in order to be eligible to receive a federal public benefit (42 USC 1302b-7(d) and (e)).
 - i. *PUA* – PUA provides benefits to covered individuals, who are those individuals not eligible for regular unemployment compensation (UC or extended benefits under state or federal law or PEUC, including those who have exhausted all rights to such benefits. Covered individuals also include self-employed, those seeking part-time employment, individuals lacking sufficient work history, and those who otherwise do not qualify for regular unemployment compensation or extended benefits under state or federal law or PEUC.

PUA is payable to individuals who are ineligible for regular UC, EB, or PEUC and are unemployed, partially unemployed, or unable or

unavailable to work due to one of the COVID-19 related reasons identified in Attachment I to UIPL No. 16-20, Change 6. Section 2102(a)(3)(A)(ii)(I) of the CARES Act included 10 specific COVID-19 related reasons. The Department, under the authority provided by Section 2102(a)(3)(A)(ii)(I)(kk) of the CARES Act, added additional COVID-19 related reasons three new COVID-19 related reasons with the publication of UIPL No. 16-20, Change 5 on February 25, 2021. All COVID-19 related reasons apply retroactively to the beginning of the PUA program. Additionally, individuals who are paid on or after December 27, 2020, must submit proof of documentation substantiating employment, self-employment, or the planned commencement of employment or self-employment (see Attachment I, Section C.2. of UIPL No. 16-20, Change 4). This includes individuals requesting retroactive payments that are not received until after December 27, 2020.

Further, as described in Section 4.b.i. of UIPL No. 16-20, Change 5, paraphrasing of the COVID-19 related reasons is not permissible; individuals must be permitted to select more than one COVID-19 related reason; individuals must be permitted to select different COVID-19 related reasons each week; and individuals must be permitted to file and select no COVID-19 related reasons. Below is a list of acceptable COVID-19 related reasons:

- (1) The individual has been diagnosed with COVID-19 or is experiencing symptoms of COVID-19 and is seeking a medical diagnosis;
- (2) A member of the individual's household has been diagnosed with COVID-19;
- (3) The individual is providing care for a family member or a member of the individual's household who has been diagnosed with COVID-19;
- (4) A child or other person in the household for which the individual has primary caregiving responsibility is unable to attend school or another facility that is closed as a direct result of the COVID-19 public health emergency and such school or facility care is required for the individual to work;
- (5) The individual is unable to reach the place of employment because of a quarantine imposed as a direct result of the COVID-19 public health emergency;

- (6) The individual is unable to reach the place of employment because the individual has been advised by a health care provider to self-quarantine due to concerns related to COVID-19;
- (7) The individual was scheduled to commence employment and does not have a job or is unable to reach the job as a direct result of the COVID-19 public health emergency;
- (8) The individual has become the breadwinner or major support for a household because the head of the household has died as a direct result of COVID-19;
- (9) The individual has to quit his or her job as a direct result of COVID-19;
- (10) The individual's place of employment is closed as a direct result of the COVID-19 public health emergency; or
- (11) The individual meets any additional criteria established by the Department for unemployment assistance under this section.
 - (a) An individual who works as an independent contractor with reportable income may also qualify for PUA benefits if he or she is unemployed, partially employed, or unable or unavailable to work because the COVID-19 public health emergency has severely limited his or her ability to continue performing his or her customary work activities, and has thereby forced the individual to suspend such activities;
 - (b) The individual has been denied continued unemployment benefits because the individual refused to return to work or accept an offer of work at a worksite that, in either instance, is not in compliance with local, state, or national health and safety standards directly related to COVID-19. This includes, but is not limited to, those related to facial mask wearing, physical distancing measures, or the provision of personal protective equipment consistent with public health guidelines;
 - (c) An individual provides services to an educational institution or educational service agency and the individual is unemployed or partially unemployed because of volatility in the work schedule that is directly caused by the COVID-19 public health emergency. This includes, but is not limited to, changes in schedules and partial closures; or

- (d) An individual is an employee and their hours have been reduced or the individual was laid off as a direct result of the COVID-19 public health emergency.
- j. *PEUC* – To be eligible for PEUC, a claimant must have exhausted all rights to regular compensation under state law or federal law with respect to a benefit year that ended on or after July 1, 2019; have no rights to regular compensation with respect to a week under any other state UC law or federal UC law, or to compensation under any other federal law; are not receiving compensation with respect to a week under the UC law of Canada; and are able to work, available to work, and actively seeking work, while recognizing that states must provide flexibility in meeting the “actively seeking work” requirement if individuals are unable to search for work because of COVID-19, including because of illness, quarantine, or movement restriction.
- k. *FPUC* – To be eligible for FPUC during the program dates described in Section 8 above, individuals must be eligible to receive at least \$1 of underlying benefits for the week in question (including regular UC, UCFE, UCX, PEUC, PUA, EB, STC, TRA, DUA, and SEA). FPUC does not require the individual to submit a separate initial application or continued claim.
- l. *MEUC* – Eligible individuals must: (i) have received at least \$5,000 of self-employment income in the most recent taxable year prior to the individual’s application for regular UC, (ii) be receiving a UI benefit (other than PUA) for which FPUC is payable, and (iii) submit documentation substantiating their self-employment income. This additional payment does not apply to individuals collecting PUA. States must determine an individual’s eligibility for MEUC prior to releasing MEUC payments. Once verified, the state must make the MEUC supplemental payment for each week during the program dates in which the individual qualifies for at least \$1 of underlying benefit (except PUA).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

G. Matching, Level of Effort, Earmarking

1. Matching

- a. *Shareable Compensation Program (EB)*

From its UI tax revenues, the state is required to pay zero percent (UCFE, UCX), 50 percent (EB), or 100 percent (regular compensation) of the UC paid by the SWA to eligible claimants.

The state is required to provide 50 percent of the amounts paid to the majority of eligible EB claimants (those not covered by federal law or special provisions of state law) (20 CFR sections 615.2 and 615.14(a)). Those EB amounts paid by the SWA, and that are not the responsibility of the state, are reimbursable to the state from the UTF (20 CFR section 615.14). The first week of EB is reimbursable to the state only if, in addition to other requirements, the state requires the first week of an individual's benefit year to be an "unpaid waiting week" (EUCA section 204; 20 CFR section 615.14).

The 50 percent share of EB for which the state is responsible is prorated for those claimants whose base period includes wages from both public and private sector employment.

The federal government will reimburse the state at 100 percent of eligible costs for EB starting with weeks of unemployment beginning after March 18, 2020, (starting with weeks of unemployment ending March 28, 2020, for states with a Saturday week ending date). This reimbursement continues through weeks of unemployment beginning before September 6, 2021. For states with a Saturday week ending date, the last reimbursable week is week ending September 11, 2021. For states with a Sunday week ending date, the last reimbursable week is week ending September 5, 2021. Any overpayment recoveries made during the period of 100 percent federal funding must be returned to the Extended Unemployment Compensation Account (EUCA) in the UTF. In addition, all payments made for the EB program, PEUC, and PUA are 100 percent federally funded and must be returned to EUCA in the UTF.

b. *Federal Pandemic Unemployment Compensation*

The state is required to pay zero of the FPUC paid by the SWA to eligible claimants (i.e., FPUC funds are not required to be matched).

2. Level of Effort

Not Applicable

3. Earmarking

Not Applicable

H. Period of Performance

1. *TRA/ATAA/RTAA* – Funds allotted to a state for any fiscal year are available for expenditure by the state during the year of award and the two succeeding fiscal years (Section 130 of Pub. L. No. 107-210, 116 Stat. 942; 19 USC 2317).
2. *DUA* – Funding for each disaster is provided separately for administrative costs and benefits. States must report the cost of each disaster separately by administrative cost and benefits. The funding period for disasters generally covers a 26-week period after the declaration has been declared. Within 60 days after all payment activity has been concluded for a particular disaster, which may be less than 26 weeks after declaration, the DUA program should be closed out by the state.
3. *Extended Benefits* – The start and end date of extended benefits are paid based on statutory triggers.
4. *Temporary Federal Extensions and Supplemental Payments* – For the period of performance for PUA, PEUC, FPUC, and MEUC, refer to Attachment II of UIPL No. 14-21 for the most recent start and end dates for these temporary federal extensions. States may continue to report activity on these programs beyond the ending of the program. Currently, the period of performance for these programs is 6/30/2024. This date may be extended if activity is expected to continue beyond this date.

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *ETA 9130, Financial Status Report, UI Programs* – This report is used to report program and administrative expenditures. All ETA grantees are required to submit quarterly financial reports for each grant award which they operate, including standard program and pilot, demonstration, and evaluation projects. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. Additional information on *OMB Number 1205-0461* can be accessed at <http://www.dol.gov/agencies/eta/grants/management> and scroll down to the section on Financial Reporting. A separate ETA 9130 is submitted for each of the following: UI, PEUC, and PUA Administration, DUA, TRA/RTAA, and UI Projects (administration and benefits). See TEGL No.

02-16 for specific and clarifying instructions about the ETA 9130
https://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=5156.

- e. *ETA 2112, UI Financial Transaction Summary (OMB No. 1205-0154)* – A monthly summary of transactions, which account for all funds received in, passed through, or paid out of the state unemployment fund (ET Handbook 401).
- f. *ETA 191, Financial Status of UCFE/UCX (OMB No. 1205-0162)* – Quarterly report on UCFE and UCX expenditures and the total amount of benefits paid to claimants of specific federal agencies (ET Handbook 401).

2. Performance Reporting

States are required to submit periodic reporting to evaluate the performance of the states' UI programs. It is recommended the auditor test the information included in the key reports included below that ensure the timeliness of benefits paid.

Detailed information on these reports can be accessed under:

https://wdr.doleta.gov/directives/attach/ETAH/ETHand401_5th.pdf.

- a. *Title of Report: ETA 9050-Time Lapse of All First Payments except Workshare*
PRA Number: 1205-0359
Reporting Cycle: Monthly.
Authoritative Requirement: SSA 303(a)6
Blank Copy and Report Instructions of the Report: See page 224 of handbook.
https://wdr.doleta.gov/directives/attach/ETAH/ETHand401_5th.pdf.

Key Line Item(s)-

- 1. *Section A, (excluding Workshare):* First Payment Time Lapse 14/21 days, Interstate and Intrastate UI, UCFE, and UCX, full and partial weeks.

- b. *Title of Report: ETA 9052 – Nonmonetary Determination Time Lapse Detection*
PRA Number: 1205-0359
Reporting Cycle: Monthly.
Authoritative Requirement: SSA 303(a)6
Blank Copy and Report Instructions of the Report: See page 241 of handbook.
https://wdr.doleta.gov/directives/attach/ETAH/ETHand401_5th.pdf.

Key Line Item(s)-

- 1. *Section A, B, and C:* Nonmonetary Determinations 21-Day Timeliness.

- c. *Title of Report: ETA 9055 – Appeals Case Aging – Lower and Higher Authority Appeals*
 PRA Number: 1205-0359
 Reporting Cycle: Monthly.
 Authoritative Requirement: SSA 303(a)6
 Blank Copy and Report Instructions of the Report: See page 255 of handbook.
https://wdr.doleta.gov/directives/attach/ETAH/ETHand401_5th.pdf.

Key Line Item(s)-

1. *Section A.* Exclude the test for states that do not have Higher Authority Appeals: Average Age of Pending Lower and Higher Authority Appeals.

3. **Special Reporting**

ETA 2208A, Quarterly UI Above-Base Report (OMB No. 1205-0132) – Quarterly report of staff years worked and paid by program category.

Key line items are one through seven of Section A. The auditor is not expected to test sections B through E.

Detailed information on this report can be found at: [SQSP CAPs and Quarterly Reporting Workbook \(Excel Format\) \(dol.gov\)](#), Appendix III of ET Handbook 336, 18th Edition, Change 4.

4. **Special Reporting for Federal Funding Accountability and Transparency Act**

See Part 3.L for audit guidance.

N. **Special Tests and Provisions**

1. **Employer Experience Rating**

Compliance Requirements Certain benefits accrue to states and employers as a result of the state having a federally approved experience-rated UI tax system. All states currently have an approved system. For the purpose of proper administration of the system, the SWA maintains accounts, or subsidiary ledgers, on state UI taxes received or due from individual employers, and the UI benefits charged to the employer.

The employer’s “experience” with the unemployment of former employees is the dominant factor in the SWA computation of the employer’s annual state UI tax rate. The computation of the employer’s annual tax rate is based on state UI law (26 USC 3303).

Note that states were provided with temporary emergency flexibility regarding experience rating as needed in response to the spread of COVID-19. As such, a state should have supported documentation (e.g., statutory changes, emergency rules, or

executive orders) if this temporary flexibility was exercised for the time period in question.

Audit Objectives To verify the accuracy of the employer's annual state UI tax rate and determine if the tax rate was properly applied by the state.

Suggested Audit Procedures

- a. Experience rating systems are generally highly automated systems. These systems could contain errors that are material in the aggregate, but which are not susceptible to detection solely by sampling. If errors are detected, sampling may not be the most effective and efficient means to quantify the extent of such errors. For this reason, the auditor should have a thorough understanding of the operation of these systems and is strongly encouraged to consider the use of computer-assisted auditing techniques (CAATs) to test these systems.
- b. On a test basis, reconcile the subsidiary employer accounts with the state's UI general ledger control accounts.
- c. Trace a sample of taxes received and benefits paid to postings to the applicable employer accounts. Verify the propriety of any non-charging of benefits paid to an employer account.
- d. Trace a sample of postings to employer accounts to documentation of taxes received and benefits paid.
- e. On a test basis, recompute employer experience-related tax rates.

2. UI Benefit Payments

Compliance Requirements Due to the complexity of the UI benefit payment operations, it is unlikely the auditor will be able to support an opinion that UI benefit payments are in compliance with applicable laws and regulations without relying on the SWA's systems and internal controls.

The Payments Integrity Information Act (PIIA) of 2019 codified the requirement for valid statistical estimates of improper payments. SWAs are required by 20 CFR section 602.11(d) to operate and maintain a quality control system. The Benefits Accuracy Measurement (BAM) program is DOL's quality control system designed to assess the accuracy of UI benefit payments and denied claims, unless the SWA is excepted from such requirement (20 CFR section 602.22). The program estimates error rates, that is, numbers of claims improperly paid or denied and dollar amounts of benefits improperly paid or denied, by projecting the results from investigations of statistically sound random samples to the universe of all claims paid and denied in a state. Specifically, the SWA's BAM unit is required to draw a weekly sample of payments and denied claims, complete prompt, and in-depth investigations to determine if the administration of the UC program is consistent with state and federal law (20 CFR section 602.21(d)). DOL has promulgated investigational requirements and instructions in ET Handbook No. 395 (see

below), pursuant to 20 CFR section 602.30(a). As presented in the handbook, the investigation involves a review of state agency records, as well as contacting the claimant, employers, and third parties (either in-person, by telephone, or by fax) to conduct new and original fact-finding related to all of the information pertinent to the paid or denied claim that was sampled. BAM investigators review cases for adherence to federal and state law as well as official policy. For claims that were overpaid or underpaid, the BAM investigator determines the amount of payment error, the cause of and the responsibility for any payment error. For erroneously denied, BAM investigators also determine the potential eligibility of the claimant and the point in the UI claims process at which the error was detected. Investigators record the actions taken by the agency and employer prior to the payment or denial decision that is in error. BAM covers state UC, UCFE, and UCX.

Additional information on BAM procedures, historical data, and a state contacts list can be obtained at <https://oui.doleta.gov/unemploy/bqc.asp>.

The auditor should review the requirements relating to the investigative process and data collection in ET Handbook No. 395, 5th Edition, Benefit Accuracy Measurement State Operations Handbook, Chapters IV, V, VI, VII, and Appendix C (Investigative Guide Source, Action, and Documentation), pertinent UIPLs, including UIPL No. 25-20 (https://wdr.doleta.gov/directives/attach/UIPL/UIPL_25-20.pdf), No. 28-13 (http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=6139), No.18-21 ([UNEMPLOYMENT INSURANCE PROGRAM LETTER No. 18-21 | U.S. Department of Labor \(dol.gov\)](https://www.dol.gov/agencies/eta/advisories/ten-no-02-22)), TEN 2-22 (<https://www.dol.gov/agencies/eta/advisories/ten-no-02-22>) and https://ui.workforcegps.org/resources/2022/03/24/15/03/Benefit_Accuracy_Measurement_BAM) to access Question and Answer series on the WorkforceGPS website (see above).

Audit Objectives To verify that states operate a BAM program in accordance with federal requirements to assess the accuracy of UI benefit payments and denied claims.

Suggested Audit Procedures

- a. Review state BAM case investigative procedures and methodology to assess the SWA's adherence to BAM requirements.
- b. Determine whether BAM samples of UI weeks paid and disqualifying eligibility determinations (monetary, separation, and non-separation) are selected for investigation and verification once a week by the state agency's BAM unit. Please note that due to the COVID-19 pandemic, on a case-by-case basis, some states were provided operational flexibilities to temporarily suspend BAM sampling and investigations.
- c. Determine whether BAM case sampling and case assignment for paid and denied claims were reviewed for compliance with state law and policy.

- d. Determine whether the state agency is meeting its completion and timeliness requirements and identify any impediments to the state BAM unit's performance in this area.
- e. Conduct reviews of a representative sub-sample of completed cases to ensure that established BAM procedures were followed (e.g., cases selected for supervisory review) and information is accurately recorded. The auditor should not attempt to conduct a new investigation, or new fact finding.

3. Match with IRS 940 FUTA Tax Form

Compliance Requirements States are required to annually certify for each taxpayer the total amount of contributions required to be paid under the state law for the calendar year and the amounts and dates of such payments in order for the taxpayer to be allowed the credit against the FUTA tax (26 CFR sections 31.3302(a)-3(a)). In order to accomplish this certification, states annually perform a match of employer tax payments with credit claimed for these payments on the employer's IRS 940 FUTA tax form.

Audit Objectives Determine whether the state properly performed the match to support its certification of state FUTA tax credits.

Suggested Audit Procedures

- a. Ascertain the state's procedures for conducting the annual match.
- b. Obtain and examine documentation supporting the annual match process from the group of employers' state unemployment tax payments used by the state in its match process.
- c. For a sample of employer payments:
 - (1) Verify that the tax payments met the stated criteria for FUTA tax credits allowance (e.g., timely state unemployment tax filings and payments).
 - (2) Compare the audit results to the states' reported annual match results.

4. UI Program Integrity – Overpayments

Compliance Requirements Pub. L. No. 112-40, enacted on October 21, 2011, and effective October 21, 2013, amended sections 303(a) and 453A of the Social Security Act and sections 3303, 3304, and 3309 of FUTA to improve program integrity and reduce overpayments (see UIPL No. 02-12, changes 1 and 2

https://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=6707). States are (1) required to impose a monetary penalty (not less than 15 percent) on claimants whose fraudulent acts resulted in overpayments, and (2) states are prohibited from providing relief from charges to an employer's UI account when overpayments are the result of the employer's failure to respond timely or adequately to a request for information. States may continue to waive recovery of overpayments in certain situations and must continue to offer the

individual a fair hearing prior to recovery. In addition, states may approve “blanket waivers” where individuals are eligible for payment under an unemployment benefit program for a given week, but through no fault of the individual, they were paid incorrectly under either the PUA or PEUC program at a higher WBA, or specific to PUA, when, through no fault of the individual, the state paid the individual a minimum WBA based on DUA guidance other than UIPL No. 03-20 (UIPL No. 20-21, section 4.d.ii.).

Section 2103 of Pub. L. No. 112-96 amended FUTA and the Social Security Act to require states to recover overpayments through an offset against UC payments. States must enter into two agreements prior to commencing the recoveries: Cross Program Offset and Recovery Agreement (see UIPL No. 05-13), which allows states to offset state UI from federal UI overpayments; and Interstate Reciprocal Overpayment Recovery Agreement, which allows states to recover overpayments from benefits being administered by another state.

States that recover PEUC and EB overpayments must ensure that the recovered payments are returned to EUCA in chronological order from the date the overpayment was established, identifying the program source (PEUC or EB) when the funds are returned to the UTF. In addition, any FPUC that is recovered must be returned to the UTF.

Additionally, states that recover FPUC, PUA, PEUC, and MEUC overpayments must ensure that the recovered payments are returned to the source of such funds. Program Integrity-related requirements and guidance for each of the programs above are described in more detail in various UIPLs listed below:

FPUC/MEUC: UIPL 15-20, Change 1, 2, and 3, and any subsequent changes.

PUA: UIPL 16-20, Change 1, 2, 3, and 4, and any subsequent changes.

PEUC: UIPL 17-20, Change 1 and 2, and any subsequent changes.

The Bipartisan Budget Act of 2013 (Pub. L. No. 113-67) amended Section 303 of the Social Security Act to require states to utilize the Treasury Offset Program (TOP), authorized by Section 6402(f)(4), Internal Revenue Code (IRC), to recover covered unemployment compensation debts that remain uncollected one year after the debt was determined to be due. Covered unemployment compensation debts include benefit overpayments due to fraud and benefit overpayments due to a claimant’s failure to report earnings. Some states may need to amend their UI law in order to have the authority to collect overpayments through TOP. In addition, states will also need to enter into an agreement with Treasury. See UIPL No. 02-19 and UIPL No. 12-14 for guidance on the implementation of the TOP requirement. Please note that IRC 6103(l)(10) restricts access to TOP federal tax information (FTI). The access limitation extends to contractors employed by the state, including those managing state technology systems that process and store TOP FTI, and to auditors engaged to conduct the Single Audit process, whether they are contractors or employees of the state. DOL recognizes that this restriction to accessing TOP FTI used for benefit administration prevents state auditors from meeting the audit objectives concerning a state’s use of TOP for the recovery of UI improper

payments. Because of this legal restriction auditors should not create an audit issue or finding based on their lack of access to TOP FTI.

Audit Objectives To determine if states are (a) properly identifying and handling overpayments, including, as applicable, assessment and deposit of penalties and not relieving employers of charges when their untimely or inaccurate responses cause improper payments; and (b) offsetting all debts resulting from an overpayment of the individual’s UC payments. Please note that the suggested audit procedures mentioned below are not applicable to offsets through TOP.

Suggested Audit Procedures

- a. Determine if the state has a written procedure for identifying overpayments and classifying them in a manner that allows the state to take appropriate follow-up action (e.g., as resulting from individual fraud or employer fault).
- b. Determine if the state entered into a Cross Program Offset and Recovery Agreement and an Interstate Reciprocal Overpayment Recovery Agreement.
- c. Determine if the state law prohibits the state from providing relief from charges to an employer’s UI account when a UI overpayment results from an employer failing to respond timely or adequately to a request for information by the state agency.
- d. Based on a sample of overpayment cases:
 - (1) Determine if the state identified the basis for the overpayment consistent with its written procedures.
 - (2) If the overpayment was based on fraud, determine if the claimant was notified of the 15 percent penalty, and if there was no appeal or the claimant was unsuccessful in appeal, there was follow-up to collect the penalty, and the state deposited the penalty into the state’s account in the Unemployment Trust Fund.
 - (3) If the overpayment was a result of the employer’s untimely or inaccurate response, determine if the state enforced the requirement in state law that the employer not be relieved of charges.
 - (4) Verify that states are offsetting against UI payments.

5. UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)

Compliance Requirements: The UI program serves as one of the principal “gateways” to the workforce system. It is often the first workforce program accessed by individuals who need workforce services. The WPRS and RESEA programs serve as UI’s primary programs that facilitate the reemployment needs of UI claimants.

WPRS, which is mandated by Section 303(j) of the Social Security Act, is designed to identify UI claimants who are most likely to exhaust their benefits and need reemployment assistance to return to work, and refer them to appropriate reemployment services, such as: job search and job placement assistance; counseling; testing; provision of occupational and labor market information; and assessments. WPRS provides reemployment services to selected claimants through an early intervention process. The number of individuals served under WPRS is determined by the state (and/or local areas) based on its capacity to serve these individuals. UIPL No. 41-94 provides guidance on WPRS requirements.

RESEA is authorized by Section 306 of the Social Security Act and builds on the success of RESEA’s predecessor, the former UI Reemployment and Eligibility Assessment (REA) program. RESEA uses an evidence-based integrated approach that combines an eligibility assessment for continuing UI eligibility and the provision of reemployment services. State administration of the RESEA is voluntary and under certain circumstances may be designed to also satisfy WPRS requirements. Operating guidance for the RESEA

program is updated annually. UIPL 10-22 provides RESEA operating Guidance for FY 2022.

Audit Objectives To verify that states operate a WPRS or RESEA program that satisfies the WPRS mandate in accordance with federal requirements.

Suggested Audit Procedures

- a. Verify that the state is operating a WPRS and/or RESEA program.
- b. If the state operates a WPRS, determine if the state's WPRS program components satisfy the following program components:
 - (1) Verify that the UI agency profiles all claimants to identify those likely to exhaust regular UI and in need of reemployment services.
 - (2) Verify that to the extent that reemployment services are available, the "identified" claimants will either be immediately referred to these services or placed in a selection pool from which a referral may later be made.
 - (3) Verify that services begin with an orientation session advising claimants of the availability and benefit of reemployment services, and, if appropriate, an individual assessment of each claimant's needs including referral to reemployment services tailored to the individual's needs.
 - (4) Verify that procedures and agreements are in place between UI and the reemployment service provider regarding: (1) the number of claimants to be referred to the provider and (2) the information the provider must forward to the UI agency.
- c. If the state operates a RESEA program, to comply with WPRS, determine if the state's RESEA program components satisfy WPRS requirements:
 - (1) Verify that the state's procedure for selecting RESEA participants includes the profiling of all claimants to identify those likely to exhaust regular UI and in need of reemployment services.
 - (2) Verify that the state is providing RESEA services statewide. (A state is considered to be operating RESEA statewide if RESEA services are available in each Workforce Innovation and Opportunity Act designated local workforce development area.)
 - (3) Verify that the state operates a WPRS program in addition to the RESEA program if item one and/or two fails verification.
- d. For RESEA programs, determine if UI staff is engaged in the planning, administration, oversight, and training of eligibility issues.

- (1) Select a sub-sample of RESEA cases and perform the following:
 - (a) Verify that the state notice to claimant includes the RESEA's eligibility condition, requirements, benefits, and clear warnings regarding the consequences of failing to complete required elements and reasonable scheduling accommodations are provided.
 - (b) Verify that the UI staff have received feedback that the claimant reported as directed and participated in required RESEA activities.
 - (c) Verify that if UI eligibility issues are identified in the eligibility review, then they have been referred to UI for adjudication.
- (2) Verify that UI staff provided training to RESEA service provider staff on UC eligibility requirements.
- (3) Review state procedures and verify that UI staff review quarterly RESEA performance reports prior to submission.

IV. OTHER INFORMATION

State unemployment tax revenues and the governmental, tribal, and nonprofit reimbursements in lieu of state taxes (state UI funds) must be deposited to the UTF in the US Treasury, primarily to be used to pay benefits under the federally approved state unemployment law. This program supplement includes several compliance requirements that must be tested with regard to these state UI funds. Consequently, state UI funds, as well as federal funds for benefit payments under UCFE, UCX, EB, TRA /ATAA/RTAA, DUA, PUA, PEUC, FPUC, and MEUC must be included in the total expenditures of Assistance Listing 17.225 when determining Type, A programs. Therefore, state UI funds must be included with federal funds on the Schedule of Expenditures of Federal Awards. A footnote to the Schedule to indicate the individual state and federal portions of the total expenditures for Assistance Listing 17.225 is encouraged.

DEPARTMENT OF LABOR

ASSISTANCE LISTING 17.235 SENIOR COMMUNITY SERVICE EMPLOYMENT PROGRAM

I. PROGRAM OBJECTIVES

The Senior Community Service Employment Program (SCSEP) is the only federally funded workforce development program that targets low-income older individuals (55 years and older) who want to enter or reenter the workforce. SCSEP provides part-time subsidized work experience through community service assignments before transitioning program participants into unsubsidized employment. Program participants work an average of 20 hours per week, are paid the highest of the federal, state or local minimum wage, and are employed in a wide variety of community service activities at non-profit and public agencies, including schools, hospitals, day-care centers, and senior centers. The program supports civic engagement of older Americans, and provides a significant source of work experience, skilled training, supportive services, and job placement and employment opportunities to program participants, coordinated through the American Job Center network. Typically, between 40,000 and 50,000 older individuals participate in the SCSEP program annually, and the program provides over 40 million community service hours to public and non-profit agencies.

II. PROGRAM PROCEDURES

Overview

To allot program funds for use in each state, the Department of Labor (DOL) utilizes a statutory formula based on fiscal year (FY) 2000 level of activities, the number of persons aged 55 and over, per capita income, and hold-harmless considerations. Program grants are awarded to eligible applicants, which include states, US territories, and national grantees (public and private nonprofit entities other than political parties (see Sec. 506 of the Older Americans Act)). SCSEP predominantly operates through relationships with local partner organizations. Local partners are drawn from aging services, workforce development, and other non-profit or government agencies who work closely with local employers, social services, and community organizations. The relative amount of funding for each type of eligible applicant is 22 percent allotted to state and territorial agencies, and 78 percent allotted to national grantees. As a result of a national grantee competition conducted in 2020, there are now 19 national grantees. The program year period of performance is July 1 to June 30.

Source of Governing Requirements

SCSEP is authorized by the Older Americans Act of 1965 (OAA), as reauthorized by Pub.L. 114-144, the Older Americans Act Reauthorization Act of 2016 (OAA-2016). The OAA implementing regulations are published at 20 CFR Part 641. The OAA-2016 amendments require SCSEP to adopt several of the Workforce Innovation and Opportunity Act (WIOA) primary indicators of performance, and these new indicators were implemented through the 2018 Final Rule (20 CFR 641). Federal Register : Senior Community Service Employment Program; Performance Accountability (2018 Final Rule). The Final Rule updated outdated terminology and references to the Workforce Investment Act of 1998 (WIA), which WIOA superseded. The

implemented regulations, referred to as an IFR, took effect on January 2, 2018. SCSEP is a required partner in the workforce development system (per WIOA sec. 121(b)(1)(B)(v)), and SCSEP is required to coordinate with the WIOA One-Stop delivery system (OAA sec. 511, 42 U.S.C. 3056i), now commonly referred to as the American Job Center (AJC) system. The underlying notion of the AJC (formerly known as One-Stop) delivery system is the coordination of programs, services, and governance structures, to ensure customer access to a seamless system of workforce development services.

Availability of Other Program Information

For more information on SCSEP, visit <https://www.dol.gov/agencies/eta/seniors> or <https://www.benefits.gov/benefit/89>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	N	Y	Y	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed.*

- a. Allowable activities include but are not limited to: (1) outreach, (2) orientation, (3) assessment, (4) counseling, (5) classroom training, (6) job development, (7) community service assignments, (8) payment of

wages and fringe benefits, (9) training, (10) supportive services, and (11) placement in unsubsidized employment.

- b. Costs of participating as a required partner in the American Job Centers (AJC) Delivery System, established in accordance with section 134(c) 121(b) of the Workforce Innovation and Opportunity Act (WIOA) of 2014 (Pub. L. No. 113-128) are allowable, as long as SCSEP services and funding provided in accordance with the Memorandum of Understanding required by WIOA and section 502(b)(1)(O) of the OAA (20 CFR section 641.850(d)).
- c. SCSEP funds may be used to meet a recipient's or subgrantee's obligations under section 504 of the Rehabilitation Act of 1973, as amended, the Americans with Disabilities Act of 1990, and any other applicable federal disability nondiscrimination laws to provide accessibility for individuals with disabilities (20 CFR section 641.850(f)).

2. *Activities Unallowed*

- a. Legal expenses for the prosecution of claims against the federal government, including appeals to an administrative law judge, are unallowable (20 CFR section 641.850(b)).
- b. In addition to the prohibition contained in 29 CFR Part 93 and 2 CFR section 200.450, SCSEP funds cannot be used to pay any salaries or expenses related to any activity designed to influence legislation or appropriations pending before the US Congress or any state legislature (29 CFR section 641.850(c)) and 2 CFR section 200.450.
- c. SCSEP funds may not be used for the purchase, construction, or renovation of any building except for the labor involved in minor remodeling of a public building to make it suitable for use for project purposes; minor repair and rehabilitation of publicly used facilities for the general benefit of the community; and minor repair and rehabilitation by participants of housing occupied by persons with low incomes who are declared eligible for such services by authorized local agencies (20 CFR section 641.850(e)).

E. Eligibility

1. Eligibility for Individuals

Persons 55 years or older whose family is low-income (income does not exceed the low-income standards defined in 20 CFR section 641.507) are eligible for enrollment (20 CFR section 641.500). Low-income means an income of the family which, during the preceding six months on an annualized basis or the actual income during the preceding 12 months (whichever method is more favorable to the individual), is not more than 125 percent of the poverty levels

established and periodically updated by the U.S. Department of Health and Human Services (42 USC 3056p). The poverty guidelines are issued each year in the *Federal Register* and the Department of Health and Human Services maintains the poverty guidelines at <https://aspe.hhs.gov/poverty-guidelines>. Enrollee eligibility is redetermined on an annual basis (20 CFR section 641.505).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

G. Matching, Level of Effort, Earmarking

1. Matching

The grantee must contribute matching, in cash or in-kind, of not less than 10 percent of the total cost of the project, except that the federal government may pay all costs of any project that is:

- a. an emergency or disaster project; or
- b. a project located in an economically depressed area as determined by the secretary of Labor in consultation with the secretary of Commerce and the director of the Office of Community Services of the Department of Health and Human Services; or
- c. a project which is exempt by law (42 USC 3056(c)).

2. Level of Effort

2.1 Level of Effort – *Maintenance of Effort*

Not Applicable

2.2 Level of Effort – *Supplement Not Supplant*

Employment of an enrollee shall be only in addition to budgeted employment which would otherwise be funded by the grantee, subgrantee(s), or host agency(ies) without assistance from the Act and shall not result in employee displacement (including persons in lay-off status) or substitute project jobs for contracted work or other federal jobs (20 CFR section 641.844).

3. Earmarking

The amount of federal funds expended for enrollee wages and fringe benefits shall

be no less than 75 percent of the grant (20 CFR section 641.873) except in those instances in which a grantee has requested, and DOL has approved such request, to use not less than 65 percent of the grant funds to pay for participant wage and fringe benefits so as to use up to an additional 10 percent of grant funds for participant training and supportive services (42 USC 3056(c)(6)(C)(i)).

The amount of federal funds expended for the costs of administration during the program year shall be no more than 13.5 percent of the grant (20 CFR section 641.867(a)). A waiver of this requirement to increase administrative expenditures to 15 percent may be granted by the secretary of labor (20 CFR section 641.867(b)).

Grantees are required to negotiate their share in the infrastructure cost with required local partners in accordance with the Workforce Innovation and Opportunity Act (Final Rule 20 CFR 679.370(k)).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *ETA 9130, Financial Report (OMB No. 1205-0461)* – All ETA grantees are required to submit quarterly financial reports for each grant award they receive. Reports are required to be prepared using the specific format and instructions for the applicable program(s); in this case, *Older Worker Program*. Reports are due 45 days after the end of the reporting quarter. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. Additional information on ETA-9130 and financial reporting can be accessed at <https://www.dol.gov/agencies/eta/grants/management/reporting>. See TEGL 02-16 for specific and clarifying instructions about the ETA-9130 at http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=5156

2. Performance Reporting

Not Applicable.

3. Special Reporting

Not Applicable.

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF LABOR

ASSISTANCE LISTING 17.245 TRADE ADJUSTMENT ASSISTANCE -

I. PROGRAM OBJECTIVES

The Trade Act of 1974 (Pub. L. No. 93-618), as amended (the Trade Act) (codified at 19 U.S.C. §§ 2271 et seq.), Title II, Chapter 2, established the Trade Adjustment Assistance (TAA) Program, Alternative Trade Adjustment Assistance (ATAA), and Reemployment Trade Adjustment Assistance (RTAA) programs. These programs, collectively referred to as the TAA Program, assist workers who have been adversely affected by foreign trade. The TAA Program provides adversely affected workers and adversely affected incumbent workers with opportunities to obtain skills, credentials, resources, and support to help them become reemployed.

The TAA Program provides federal assistance to workers who are adversely affected by foreign trade. TAA includes resources and opportunities to obtain the skills, credentials, and support necessary for successful reemployment. TAA Program benefits and services include employment and case management services, training, income support in the form of Trade Readjustment Allowances (TRA), job search allowances, and relocation allowances. ATAA and RTAA are wage supplements available under the TAA Program to eligible reemployed workers, age 50 and over, whose reemployment resulted in lower wages than those earned in their trade-affected employment. Any member of a worker group certified by the Department of Labor (Department) as trade-affected is potentially eligible to receive TAA Program benefits and services through a local American Job Center (AJC).

II. PROGRAM PROCEDURES

The Trade Act amendments provide workers covered by certifications of petitions the benefits and services that were available under the provisions of the Trade Act that were in effect on the date the petitions were filed. Therefore, the Department of Labor (DOL) administers four versions of the TAA program to provide benefits to all workers covered by certifications of petitions: the 2002, 2009, 2011/2015, and Reversion 2021 programs, as the 2011 and 2015 programs have the same worker group eligibility and benefits provisions. The majority of TAA participants (99%) currently in the TAA program were certified under the 2015 Program. (See FY 2021 TAA Program Annual Report to Congress

<https://www.dol.gov/sites/dolgov/files/ETA/tradeact/pdfs/AnnualReport21.pdf>

State Workforce Agencies (SWAs) serve as agents of DOL and are responsible for administering TAA through the American Job Center Network (AJCs). Each FY, through the Office of Trade Adjustment Assistance (OTAA), DOL allocates funds appropriated by Congress to the states for Training and Other Activities (TaOA) and states contact the Office of Unemployment Insurance (UI) as needed for TRA and RTAA benefit funding. Through AJCs and other local workforce offices, case managers arrange for eligible program participants to receive TAA benefits and services needed to return to employment that pays sustainable wages. (See Assistance Listing 17.225 in this Supplement for information on TRA and RTAA).

Source of Governing Requirements

The Trade Act of 1974 has been amended multiple times—most recently by the Trade Adjustment Assistance Reform Act of 2002 (Pub. L. No. 107-210) (TAARA or Trade Act of 2002); the Trade and Globalization Adjustment Assistance Act of 2009 (TGAAA or Trade Act of 2009) (Division B, Title I, Subtitle I of the American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5); the Trade Adjustment Assistance Extension Act of 2011 (TAAEA or Trade Act of 2011) (Title II of Pub. L. No. 112-40); and the Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015 or Trade Act of 2015) (Title IV of the Trade Preferences Extension Act of 2015, Pub. L. No. 114-27). On July 1, 2022, section 285(a) of the Trade Act (relating to termination and phase-out) took effect, and TAA entered a phase-out termination. In addition, section 246(b) of the Trade Act also took effect on that date providing for the phase-out termination of ATAA and RTAA. As of this writing, the TAA Program is operating under a phase-out termination status. Under termination, the Department may not conduct new investigations or issue certifications of eligibility for new groups of workers. In addition, benefits and services may not be provided to workers who were certified prior to July 1, 2022, but who were not separated before that date. Restoration or reauthorization of the TAA, ATAA, and RTAA programs requires Congressional action.

Current Regulations: On August 21, 2020, the TAA Final Rule was published in the Federal Register and became effective on September 21, 2020. In this rule, the Department streamlined and consolidated three separate parts of the CFR that contain TAA Program regulations (20 CFR parts 617 and 618, 29 CFR Part 90) into a single part (20 CFR Part 618) with nine subparts. In addition, the rule codified into regulation elements of the most recent TAA Program amendments, the Trade Adjustment Assistance Reauthorization Act of 2015 (Pub. L. No. 114-27, title IV) (TAARA 2015). This final rule also incorporates operating instructions issued via administrative guidance into the TAA Program regulations, with some refinements. Further, the revisions align the TAA Program regulations with the Workforce Innovation and Opportunity Act (WIOA) (Pub. L. No. 113-128), the 2014 comprehensive legislation that reauthorized the public workforce system. See <https://www.dol.gov/agencies/eta/tradeact/law/regulations>.

Guidance Governing Current TAA Program Operation - [TEGL No. 13-21](#), *TAA for Workers and ATAA and RTAA Program Operations after June 30, 2022* – <https://www.dol.gov/agencies/eta/advisories/training-and-employment-guidance-letter-no-13-21>) explains on July 1, 2022, the termination provision under Section 285(a) of the Trade Act of 1974, as amended, took effect. This guidance provides instructions to states to serve workers certified as eligible for TAA benefits according to the version of the program in effect when the petition covering the worker was filed.

The Trade Act of 2002 applies to petitions with TA-W numbers less than 69,999 with a petition institution date prior to May 17, 2009, and most petitions with TA-W numbers greater than 80,000 and less than 81,000, with a petition institution date of February 15, 2011, through October 20, 2011. The Trade Act of 2009 applies to petitions with TA-W numbers greater than 70,000 and less than 80,000 with a petition institution date of May 18, 2009 through February 14, 2011, the Trade Act of 2011 applies to petitions with TA-W numbers greater than 81,000 and less than 85,000, with a petition institution date of October 21, 2011 through December 31, 2013,

and the Trade Act of 2015 applies to petitions with TA-W numbers greater than 90,000, with a petition institution date of June 29, 2015. Reversion 2014 applied to petitions with TA-W numbers greater than 85,000 and less than 90,000, with a petition institution date of January 1, 2014, through June 28, 2015, but these worker groups transitioned to the Trade Act of 2015 on September 28, 2015. Reversion 2021 applies to petitions filed on and after July 1, 2021, with TA-W numbers greater than 98,000.

Availability of Other Program Information

Other information on TAA Program procedures may be obtained through the agency website at <https://www.dol.gov/agencies/eta/tradeact>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

Y	Y	Y	Y	N	N	N	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

The following requirements apply to TAA benefits.

- a. *Trade Act of 2002, the Trade Acts of 2009, 2011, 2015, and Reversion 2021.*

Allowable activities include payments in the form of income support, i.e., TRA, job search allowances, relocation allowances, and training, employment and case management services, and wage supplements payable to workers 50 and older who find new employment in the form of Alternative/Reemployment Trade Adjustment Assistance (A/RTAA) to eligible participants (Trade Act sections 231–238, and 246, under the Trade Act of 2002, the Trade Act of 2009, the Trade Act of 2011, Reversion provisions of the amendments to the Trade Act of 1974 enacted by the Trade Adjustment Assistance Reauthorization Act of 2015, known as Reversion 2021.

b. *Trade Acts of 2009, 2011, 2015, and Reversion 2021*

Allowable activities for workers covered under certifications of petitions filed under the Trade Acts of 2009, 2011, 2015 and Reversion 2021 include employment and case management activities such as vocational testing, counseling, and job placement services; however, all TAA participants may receive these services and other employment services through other programs such as the Workforce Innovation and Opportunity Act (WIOA) (20 CFR Part 618).

E. Eligibility

1. Eligibility for Individuals

a. *Department of Labor Certification and Qualifying Separations*

TAA – In order to be eligible for training and other reemployment services under the TAA program, an individual must be an adversely affected worker covered under a DOL certification, and have a qualifying separation which occurred: (1) on or after the impact date specified in the certification as the beginning of the import caused unemployment or underemployment; and (2) before the expiration of the period specified in the certification (generally two years after the date of the certification), or before the termination date, if one is issued (19 USC 2272; 20 CFR sections 618).

b. *Training*

Under the Trade Act of 2002 and Reversion 2021, workers must be enrolled in their approved training within eight weeks of the issuance of the certification or within 16 weeks of their most recent qualifying separation, whichever is later, unless this requirement is waived prior to reaching those deadlines (19 USC 2291(a)(5)(A) and (c)).

Under the Trade Act of 2009, 2011, or 2015, workers must be enrolled in their approved training within 26 weeks of the issuance of the certification or their most recent qualifying separation, whichever is later, unless this

requirement is waived prior to reaching those deadlines (19 USC 2291(a)(5)(A)(II) and (c)), as amended by Section 231, TAARA 2015).

c. *Maximum Number of Weeks for Receipt of Approved Training*

Under the Trade Act of 2002 and Reversion 2021, the maximum duration for any approvable training program is 130 weeks, and no individual shall be entitled to more than one training program under a single certification (20 CFR section 618.22(f)(2)).

Under the Trade Act of 2009, the maximum duration for any approvable training program is 156 weeks and no individual shall be entitled to more than one training program under a single certification (20 CFR section 618.22(f)(2)).

Under the Trade Act of 2011 or 2015, the maximum duration for any approvable training program is 130 weeks and no individual shall be entitled to more than one training program under a single certification (20 CFR section 618.22(f)(2)).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *ETA-9130 (M), Financial Report (OMB No. 1205-0461)* – All ETA grantees are required to submit quarterly financial reports for each grant award they receive. Reports are due 45 days-after the end of the reporting quarter. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. See TEGL 01-19 for specific and clarifying instructions about the ETA 9130 at <https://www.dol.gov/agencies/eta/advisories/tegl-01-19-change-1>. - https://www.doleta.gov/grants/financial_reporting/pdf/ETA_9130_M_Instructions_i.pdf for the form.

TEGL No. 18-20 provides guidance on the alignment of reporting requirements in the Participant Individual Record Layout (PIRL) and the ETA-9130, while further providing information on how to document specific scenarios within the submitted data. (See: <https://www.dol.gov/agencies/eta/advisories/training-and-employment-guidance-letter-no-18-20>). Note to auditors : Auditors will not have access to the individual records due to the likelihood of being able to identify individual workers based on the demographic and other information contained in the PIRL records.

- e. *ETA-9117, Trade Adjustment Assistance (TAA) Program Reserve Funding Request Form (OMB No. 1205-0275)* – SWAs are required to furnish this form to ETA, in conjunction with the SF-424, with each request for TAA program reserve training funds and/or job search and relocation allowances (20 CFR section 618.930).
- f. *SF-424 Standard Form (SF) 424, Application for Federal Assistance, through www.grants.gov*. SWAs are requested to ensure that the SF-424 for TaOA grant funding for their state is submitted to ETA via www.grants.gov (see TEGL No. 13-20 for additional information).

2. Performance Reporting-

Not Applicable.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF LABOR**ASSISTANCE LISTING 17.258 WIOA ADULT PROGRAM****ASSISTANCE LISTING 17.259 WIOA YOUTH ACTIVITIES****ASSISTANCE LISTING 17.278 WIOA DISLOCATED WORKER FORMULA GRANTS****I. PROGRAM OBJECTIVES**

The Workforce Innovation and Opportunity Act (WIOA) authorizes formula grant programs to states to help job seekers access employment, education, training, and support services to succeed in the labor market. Using a variety of methods, states provide employment and training services through a network of American Job Centers (AJC), also known as One-Stop Centers. The WIOA programs provide employment and training programs for adults, dislocated workers, and youth, together with the Wagner-Peyser Act Employment Service, all administered by the Department of Labor (DOL). Youth employment and educational services are available to eligible out-of-school youth, ages 16 to 24, and low-income in-school youth, ages 14 to 21, who face barriers to employment.

II. PROGRAM PROCEDURES*Subtitle B Statewide and Local Workforce Development Programs*

These programs provide the framework for delivery of workforce activities at the state and local levels to individuals who need those services, with an emphasis on serving individuals with barriers to employment, including job seekers, dislocated workers, youth, incumbent workers, new entrants to the workforce, veterans, persons with disabilities, and employers. Each state's governor is required to establish a state Workforce Development Board and develop a Unified State Plan or a Combined State Plan.

A Local Workforce Development Board (local board) is appointed by the chief elected official in each local area in accordance with state criteria established under WIOA Section 107(b) and must be certified by the governor every two years. Each local board, in partnership with the appropriate chief elected officials, develops, and submits a comprehensive four-year plan to the governor, which identifies and describes certain policies, procedures, and local activities that are consistent with the Unified State Plan or the Combined State Plan. The plan must include a description of the AJC delivery system to be established or designated in the local area, including a copy of the local Memorandum of Understanding (MOU) between the local board and each of the AJC partners (1) describing the operation of the local AJC delivery system; (2) identifying the AJC operator or entity responsible for the disbursement of grant funds; and (3) describing the competitive process to be used to award grants and contracts for activities carried out under Subtitle I of WIOA.

The agreement between the local board and the AJC operator specifies the operator's role. That role may range from simply coordinating service providers within the center, to being the primary provider of services within the center to coordinating activities throughout the local AJC system. The AJC operator may be a single entity or consortium of entities and may operate one

or more AJC centers. In addition, there may be more than one AJC operator in a local area. The types of entities that may be selected to be the AJC operator include: (1) an institution of higher education; (2) an employment service state agency established under the Wagner-Peyser Act on behalf of the local office of the agency; (3) a community-based organization, nonprofit organization, or intermediary; (4) a private for-profit entity; (5) a government agency; and (6) another interested organization or entity, which may include a local Chamber of Commerce or other business organization, or a labor organization.

The following federal programs are required to be partners in the local AJC system: (1) programs authorized under Title I of WIOA; (2) programs authorized under the Wagner-Peyser Act (29 USC 49 et seq.); (3) adult education and literacy activities authorized under Title II of WIOA; (4) programs authorized under Title I of the Rehabilitation Act of 1973 (29 USC 720 et seq.), other than Section 112, WIOA, or Part C of that title; (5) senior community service employment activities authorized under Title V of the Older Americans Act of 1965 (42 USC 3056 et seq.); (6) career and technical education programs at the postsecondary level authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 USC 2301 et seq.); (7) activities authorized under chapter 2 of Title II of the Trade Act of 1974 (19 USC 2271 et seq.); (8) activities authorized under chapter 41 of Title 38, USC; (9) employment and training activities carried out under the Community Services Block Grant (42 USC 9901 et seq.); (10) employment and training activities carried out by the Department of Housing and Urban Development; (11) programs authorized under state unemployment compensation laws (in accordance with applicable federal law); (12) programs authorized under Section 212 of the Second Chance Act of 2007 (42 USC 17532); and (13) programs authorized under Part A of Title IV of the Social Security Act (42 USC 601 et seq.).

WIOA also provides that other entities delivering workforce development programs may serve as additional partners in the AJC system with the approval of the local board and chief elected official. For a complete list of additional partners, please refer to Section 121(b)(2)(B) of the WIOA.

Each entity in a local area must (1) provide access through the AJC delivery system to the one-stop career services; (2) use a portion of funds made available for the program and activities to maintain the AJC delivery system, including payment of infrastructure costs; (3) enter into a local MOU with the local board relating to the operation of the AJC system; (4) participate in the operation of the AJC system consistent with the terms of the MOU and requirements of authorizing laws; and (5) provide representation on the state Workforce Development Board.

Career services are available at any comprehensive AJC center. Well-trained staff are co-located at each center, and cross-trained. Cost-reimbursement or other agreements between service providers at the comprehensive AJC center and the partner programs are available and are described in the Unified State Plan and the local MOU.

A local board may not itself provide training services to adults and dislocated workers unless it receives a waiver from the governor and meets the requirements of Section 106(b)(1)(B) of the WIOA. Instead, local boards, in partnership with the state, identify training providers and programs whose performance qualifies them to receive WIOA funds to train adults and dislocated workers. After receiving career services, and in consultation with case managers,

eligible participants who need training use the eligible training provider list, which contains performance and cost information on training eligible providers, to make an informed choice.

Individual Training Accounts (ITAs) are established for eligible individuals to finance training through these eligible training providers. Payments from ITAs may be made in a variety of ways, including the electronic transfer of funds through financial institutions, vouchers, or other appropriate methods. Payments also may be made through payment of a portion of the costs at different points in the training course. Exceptions to the use of ITAs are permissible only where the services provided are for on-the-job or customized training; and where the local board determines that there is an insufficient number of eligible providers available locally.

Source of Governing Requirements

The WIOA program is authorized by Title I of the Workforce Innovation and Opportunity Act of 2014 (Pub. L. No. 113-128). The regulations for the Title I WIOA adult, dislocated worker, and youth programs are at 20 CFR parts 680, 681, 682, and 683, as well as the joint DOL and Department of Education regulations found at 20 CFR parts 676 through 678.

Availability of Other Program Information

Other information on programs authorized under the WIOA can be found at <http://www.doleta.gov/wioa>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

Y	Y	N	Y	N	Y	Y	N	N	Y	Y	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

a. Statewide- Administrative

- (1) Preparing the annual performance progress report and submitting it to the secretary of labor (20 CFR sections 677.160 and 683.300(d) and WIOA, Section 116(d)(1), WIOA, 128 Stat. 1476).
- (2) Operating a fiscal and management accountability information system (20 CFR sections 652.8(b) and 682.200(1); Section 116(i), WIOA, 128 Stat. 1481).
- (3) Carrying out monitoring and oversight activities (20 CFR sections 682.200(j) and 683.410; sections 129(b)(1)(E), 134(a)(2)(B)(iv), and 184(a)(4), WIOA, 128 Stat. 1507, 1521, and 1591).

b. Statewide- Programmatic

- (1) Conducting statewide workforce development activities:
 - (a) Required statewide youth activities. Administration of youth workforce development activities (Section 129(b)(1), WIOA, 128 Stat. 1506 et seq.).
 - (b) Other allowable statewide youth activities. Providing technical assistance and career services to local areas, including local boards, AJC operators, AJC partners, and eligible training providers (Section 129(b)(2), WIOA, 128 Stat. 1507).
 - (c) Required statewide adult dislocated worker services. Providing employment and training activities, such as rapid

- response activities, and additional assistance to local areas (Section 134(a)(2), WIOA, 128 Stat. 1520).
- (d) Other allowable statewide adult dislocated worker services. Establishing and implementing innovative incumbent worker training programs (Section 134(a)(3), WIOA, 128 Stat. 1522 et seq.).
- (2) Providing support to local areas for the identification of eligible training providers (Section 122(a)(2), WIOA, 128 Stat. 1493).
 - (3) Implementing innovative programs for displaced homemakers and programs to increase the number of individuals trained for and placed in nontraditional employment (Section 134(c)(3), WIOA, 128 Stat. 1528).
 - (4) Carrying out adult and dislocated worker employment and training activities as the state determines are necessary to assist local areas in carrying out local employment and training activities (Section 134(a)(2), WIOA, 128 Stat. 1520).
 - (5) Disseminating the following:
 - (a) The state list of eligible training providers for adults and dislocated workers.
 - (b) Information identifying eligible training providers of on-the-job training (OJT) and customized training.
 - (c) Performance and program cost information about these providers.
 - (d) A list of eligible providers of youth activities (Section 122, WIOA, 128 Stat. 1492 et seq.).
 - (6) Conducting evaluations of workforce activities for adults, dislocated workers, and youth, in order to promote, establish, implement, and utilize methods for continuously improving core program activities to achieve high-level performance within, and high-level outcomes from, the workforce development system (Section 116(e), WIOA, 128 Stat. 1479).
 - (7) Providing incentive grants (Section 134(a)(3)(A)(xi), WIOA, 128 Stat. 1524).
 - (8) Providing technical assistance to local areas that fail to meet local performance measures (Section 129(b)(2)(E), WIOA, 128 Stat. 1508).

- (9) Assisting in the establishment and operation of AJC delivery systems, in accordance with the strategy described in the Unified State Plan.
 - (10) Providing additional assistance to local areas that have high concentrations of eligible youth (Section 129(b)(1)(F), WIOA, 128 Stat. 1507).
- c. Local Activities- Subtitle B, Chapter 3 Adult and Dislocated Worker Employment and Training Activities – Required Activities
- (1) Funds must be used at the local level to pay for career and training services through the AJC system for program participants.
 - (2) Basic Career Services – The following are basic career services (Sections 134(c)(2)(A)(i) through (xi), WIOA, 128 Stat. 1525 et seq., and TEGL 19-16):
 - (a) Eligibility determination for WIOA services.
 - (b) Outreach, intake, and orientation to available information and services.
 - (c) Initial assessment of skill levels, including literacy, numeracy, and English language proficiency, as well as aptitudes, abilities (including skills gaps), and supportive service needs.
 - (d) Provision of labor exchange services, including job search and placement assistance, as well as career counseling and appropriate recruitment and other business services provided by employers.
 - (e) Provision of referrals to and coordination of activities with other programs and services within the AJC system.
 - (f) Provision of workforce and labor market employment statistics and job information.
 - (g) Provision of performance information and program cost information on eligible training providers by program and type of provider.
 - (h) Providing information on local area performance.
 - (i) Provision of information on availability of supportive services and assistance.

- (j) Provision of information and meaningful assistance to individuals seeking assistance in filing a claim for unemployment compensation.
 - (k) Providing assistance on financial aid eligibility for training and education programs that are not funded under the WIOA.
- d. Individualized Career Services – The following are individualized career services (Section 134(c)(2)(A)(xii), WIOA, 128 Stat. 1527). These services must be provided to participants after AJC staff determine that such services are required to retain or obtain employment, consistent with statutory priorities:
- (1) Comprehensive and specialized assessments of skill levels and service needs, including diagnostic testing, in-depth interviewing, and evaluation.
 - (2) Development of an individual employment plan.
 - (3) Group and/or individual counseling and mentoring.
 - (4) Career planning.
 - (5) Short-term pre-vocational services, including development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and workplace behavior skills training.
 - (6) Internships and work experiences linked to careers.
 - (7) Workforce preparation activities, including basic academic skills, critical thinking skills, digital literacy skills, and self-management skills.
 - (8) Financial literacy services.
 - (9) Out-of-area job search assistance and relocation assistance.
 - (10) English-language acquisition and integrated education and training programs.
- e. Training Services – When determined appropriate, the following training services are allowable (Section 134(c)(3)(D), WIOA, 128 Stat. 1529):
- (1) Occupational skills training, including training for nontraditional employment.

- (2) On-the-job-training (OJT). Employers may be reimbursed up to 50 percent, and, in some instances, 75 percent, of the wage rate of an OJT participant for the extraordinary costs of providing the training and additional supervision related to the OJT. The employer is not required to document its extraordinary costs (Section 134(c)(3)(H), WIOA, 128 Stat. 1531). Instances in which the reimbursement level may be up to 75 percent are based on the following criteria:
 - (a) Participant characteristics (e.g., length of unemployment, current skill level, and barriers to employment);
 - (b) Size of the employer;
 - (c) Quality of employer-provided training and advancement opportunities, and
 - (d) Other factors the state or local board may determine appropriate, such as number of employees participating in the training, wage and benefit levels of employees, and relation of the training to the competitiveness of the participant.
- (3) Incumbent worker training (20 CFR section 680.800; Section 134(d)(4), WIOA, 128 Stat. 1535) (see III.G.3.b.(2), “Matching, Level of Effort, Earmarking – Earmarking,” for a limitation).
- (4) Programs that combine workplace training with related instruction, including cooperative education programs.
- (5) Training programs operated by the private sector.
- (6) Skill upgrading and retraining.
- (7) Entrepreneurial training.
- (8) Transitional jobs, as long as they do not exceed 10 percent of the funds allocated to the local area and are consistent with the requirements of Section 134(d)(5), WIOA, 128 Stat. 1537.
- (9) Job readiness training in combination with other training programs.
- (10) Adult education and literacy training.
- (11) Customized training (customized training is designed to meet the specific requirements of an employer. Such employers are required to pay a significant portion of the cost of the training (Section 3(14), WIOA, 128 Stat. 1431)).

- f. Follow-up services – Follow-up services must be provided, as appropriate, for participants who are placed in unsubsidized employment, for up to 12 months after the first day of employment. Follow-up services may include counseling about the work place (Section 134(c)(2)(A)(xiii), WIOA, 128 Stat. 1527; TEGL 19-16, 4. *Follow-up Services*, p. 5).
- g. Pay for Performance (PFP) – Pay for Performance (PFP) is a type of performance-based contract allowed under the WIOA that maximizes the likelihood that the government pays only for demonstrably effective services and may secure performance outcomes at a lower cost than might otherwise occur. Local WIOA funds set aside for PFP contract strategies remain available over an extended period, compared to the usual two-year limit for such funds, and are only paid to a service provider upon meeting certain performance outcome thresholds. If a local area opts to implement a PFP contract strategy, the contract must provide Adult and Dislocated Worker training services in WIOA Section 134(c)(3)(D) and/or Youth activities in Section 129(c)(2), as applicable. For the Adult and Dislocated Worker contract strategies, such services are the “allowable training” listed in WIOA Section 134(c)(3)(D), which includes occupational skills training, OJT, incumbent worker training, cooperative education, private sector training, skill upgrading and retraining, entrepreneurial training, transitional jobs, job readiness training, adult education and literacy activities, and customized training.
- h. Subtitle B, Chapter 3 Adult and Dislocated Worker Employment and Training Activities – *Other Activities*. At the discretion of the state and local boards, the following services may be provided (Section 134(d), WIOA, 128 Stat. 1532 et seq.):
- (1) Job seeker services, including:
 - (a) Customer support to enable individuals with barriers to employment to navigate among multiple services,
 - (b) Training programs for displaced homemakers and for individuals training for nontraditional occupations, and
 - (c) Work support activities for low-wage workers.
 - (2) Employer services, including:
 - (a) Customized screening and referral of individuals in career and training services to employers; and
 - (b) Customized employment-related services to employers, employer associations, or other organization on a fee-for-service basis, in addition to labor exchange services available to employers under the Wagner-Peyser Act; and

- (c) Activities to provide business services and strategies.
- (3) Coordination activities, including:
 - (a) Employment and training activities in coordination with child support enforcement and child support services;
 - (b) Employment and training activities in coordination with cooperative extension programs carried out by the US Department of Agriculture;
 - (c) Employment and training activities to facilitate remote access to services provided through a one-stop delivery system, including facilitating access through the use of technology;
 - (d) Improving coordination with economic development activities to promote entrepreneurial skills training and microenterprise services;
 - (e) Improving linkages with small employers;
 - (f) Strengthening linkages with unemployment insurance programs;
 - (g) Improving coordination of activities for individuals with disabilities; and
 - (h) Improving coordination with other federal agency supported workforce development initiatives.
- (4) Implementing PFP contract strategies for training services. PFP contract strategies include only the activities listed in the definition of PFP contracting strategies at WIOA Section 3(47), such as payments for performance outcomes and independent validation of results.
- (5) Technical assistance for AJCs, partners, and eligible training providers on the provision of services to individuals with disabilities.
- (6) Activities for setting self-sufficiency standards for the provision of career and training services.
- (7) Implementing promising services to workers and businesses.
- (8) Supportive services, including needs related payments.
- (9) Locating transitional jobs, which are time-limited work experiences that are subsidized and are in the public, private, or nonprofit sectors. They are for individuals with barriers to

employment who are chronically unemployed or who have an inconsistent work history and are combined with comprehensive career and supportive services (Section 134(d)(5)(A), WIOA, 128 Stat. 1537).

- i. Subtitle B, Youth Activities- Youth activities can provide a wide array of activities relating to employment, education, and youth development. The activities identified in Section 129(c)(2), WIOA (128 Stat. 1509 and 1510) include the following:
 - (1) Tutoring, study skills training, instruction and evidence-based dropout prevention and recovery strategies that lead to completion of the requirements for a secondary school diploma or its recognized equivalent (including a recognized certificate of attendance or similar document for individuals with disabilities) or for a recognized post-secondary credential;
 - (2) Alternative secondary school services or dropout recovery services, as appropriate;
 - (3) Paid and unpaid work experiences that have academic and occupational education as a component of the work experience, which may include the following types of work experiences:
 - (a) summer employment opportunities and other employment opportunities available throughout the school year;
 - (b) pre-apprenticeship programs;
 - (c) internships and job shadowing; and
 - (d) OJT opportunities;
 - (4) Occupational skill training, which includes priority consideration for training programs that lead to recognized post-secondary credentials that align with in-demand industry sectors or occupations in the local area involved, if the local board determines that the programs meet the quality criteria described in Section 123, WIOA (128 Stat. 1498);
 - (5) Education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster;
 - (6) Leadership development opportunities, including community service and peer-centered activities encouraging responsibility and other positive social and civil behaviors;
 - (7) Supportive services;
 - (8) Adult mentoring for a duration of at least 12 months that may occur both during and after program participation;

- (9) Follow-up services for not less than 12 months after the completion of participation;
 - (10) Comprehensive guidance and counseling, which may include drug and alcohol abuse counseling and referral, as appropriate;
 - (11) Financial literacy education;
 - (12) Entrepreneurial skills training;
 - (13) Services that provide labor market and employment information about in-demand industry sectors or occupations available in the local area, such as career awareness, career counseling, and career exploration services; and
 - (14) Activities that help youth prepare for and transition to post-secondary education and training;
- j. PFP contracting is an optional strategy that may be used to provide Adult and Dislocated Worker training services in WIOA Section 134(c)(3) and/or Youth activities in Section 129(c)(2), as applicable. The Youth services include training and also tutoring, work experience, supportive services, counseling, entrepreneurship, labor market information, financial literacy, and other services listed in WIOA Section 129(c)(2).
- (1) A local area conducts a feasibility study or determination to identify the problem the project will address, the population that will be targeted, the services that will be provided, and the performance outcomes that will be used as criteria; and to estimate the acceptable cost to the government associated with achieving the projected performance outcomes. The state modifies its WIOA grant to set aside the funds that will be used for PFP and thus will have a longer obligation period and establishes financial controls to track this fund use at the local level. The local area begins its PFP project, including negotiating and awarding a PFP contract. The local PFP project recruits participants and provides services. An independent validator determines if the project has achieved its outcomes. The local area pays for any outcomes as named in its PFP contract. If outcomes have not been achieved, the local area does not pay for outcomes.
- k. Funds allocated to a local area for eligible youth shall be used for programs that:
- (1) Objectively assess academic levels, occupational skills levels, service needs (e.g., occupational, prior work experience, employability, interests, aptitudes), supportive service needs of each participant, and developmental needs of each participant, for

the purpose of identifying appropriate services and career pathways;

- (2) Develop service strategies that are directly linked to one or more indicators of performance of the youth program described in Section 116(b)(2)(A)(ii), WIOA, 128 Stat. 1472, and identify career pathways that include education and employment goals, appropriate achievement objectives, and the appropriate services needed to achieve the goals and objectives for each participant taking into account the assessment conducted; and
- (3) Provide activities leading to the attainment of a secondary school diploma or its recognized equivalent, postsecondary education preparation, strong linkages between academic instruction and occupational education that lead to the attainment of recognized postsecondary credentials, preparation for unsubsidized employment opportunities, and effective connections to employers in in-demand industry sectors and occupations of the local and regional labor markets (Section 129(c)(1)(A)(B)(C), WIOA, 128 Stat. 1508).

l. Waivers and Workforce-Flexibility

- (1) Under the secretary of labor's general waiver authority (Adult, Dislocated Worker, and Youth Waivers), the secretary may waive statutory or regulatory requirements of the adult and youth provisions of the WIOA and sections 8 through 10 of the Wagner-Peyser Act) (29 USC 49g through 49i) (Section 189(i)(3), WIOA, 128 Stat. 1601).
- (2) Under an approved Workforce Flexibility plan, a governor may be granted authority to approve requests for waivers of statutory or regulatory provisions of Title I submitted by local workforce areas (29 USC 2942; Sections 190(a)-(d), WIOA, 128 Stat.1602 et seq.).

m. WIOA, Activities Unallowed- WIOA Title I funds may not be used for the following activities, except as indicated:

- (1) Construction, purchase of facilities or buildings, or other capital expenditures for improvements to land or buildings except with the prior approval of the secretary of labor. WIOA Title I funds can be used for construction only in limited situations, including meeting obligations to provide physical and programmatic accessibility and reasonable accommodations, certain repairs, renovations, alterations, and capital improvements of property, and for disaster relief projects under Section 170(d), WIOA, 128 Stat.1575, Youth Build programs under Section 171(c)(2)(A)(i), WIOA, 128 Stat.

1578, and for other projects that the secretary determines necessary to carry out the WIOA, as described under Section 189(c) of WIOA, 128 Stat. 1599.

- (2) Employment-generating activities, economic development activities, investment in revolving loan funds, capitalization of businesses, investment in contract bidding resource centers, and similar activities not directly related to training for eligible individuals, with the exception of employer outreach and job development activities, which are considered directly related to training for eligible individuals (Section 181(e), WIOA, 128 Stat. 1588).
- (3) The employment or training of participants in sectarian activities. Participants shall not be employed in the construction, operation, or maintenance of a facility that is or will be used for sectarian instruction or as a place for religious worship. However, WIOA funds may be used for the maintenance of a facility that is not primarily or inherently devoted to sectarian instruction or religious worship if the organization operating the facility is part of a program or activity providing services to WIOA participants (Section 188(a)(3), WIOA, 128 Stat. 1598).
- (4) Encouraging or inducing the relocation of a business or part of a business from any location in the United States if the relocation results in any employee losing his or her job at the original location (Section 181(d)(1)), WIOA, 128 Stat. 1588).
- (5) Providing customized training, skill training, or OJT or company specific assessments of job applicants or employees of a business or a part of a business that has relocated from any location in the United States, until the company has operated at that location for 120 days, if the relocation resulted in any employee losing his or her job at the original location (Section 181(d)(2), WIOA, 128 Stat. 1588).
- (6) Paying the wages of incumbent employees during their participation in economic development activities provided through a statewide workforce investment system (Section 181(b)(1), WIOA, 128 Stat. 1586).
- (7) Public service employment, except to provide disaster relief employment, as specifically authorized in Section 194(10), WIOA (128 Stat.1606).

2. *Activities Unallowed*

- a. Funds available to states and local areas under Subtitle B may not be used for foreign travel (29 USC 2931(e), WIOA, 128 Stat. 1588).

E. Eligibility

1. Eligibility for Individuals

a. All Programs

Selective Service – Participants between the ages of 18 and 26 need to register with the Military Selective Service, Section 3 (50 USC App. 453) Such registration is also required by Section 189 (h), WIOA 113-128.

b. All Subtitle B Statewide and Local Programs

- (1) An adult must be 18 years of age or older (Section 3(2), WIOA, 128 Stat. 1429).
- (2) A dislocated worker means an individual who meets the definition in Section 3(15), WIOA, 128 Stat. 1431).
- (3) A dislocated homemaker means an individual who meets the definition in Section 3(16), WIOA, 128 Stat. 1432).
- (4) An in-school youth and an out-of-school youth are eligible to participate in workforce investment activities if they meet the definition in Section 129(a)(1)(B) and (C), WIOA, 128 Stat. 1504 et seq.

c. Subtitle B Youth Activities

A person is eligible to receive services under Youth Activities if they are an out-of-school youth or an in-school youth (Section 129(a)(1), WIOA, 128 Stat. 1504).

- (1) An “out-of-school youth” is an individual who is:
 - (a) Not attending any school (as defined under state law);
 - (b) Not younger than 16 or older than age 24 at time of enrollment. (Because age eligibility is based on age at enrollment, participants may continue to receive services beyond the age of 24 once they are enrolled in the program); and
 - (c) One or more of the following:

- (i) A school dropout;
 - (ii) A youth who is within the age of compulsory school attendance, but has not attended school for at least the most recent complete school year calendar quarter (school year calendar quarter is based on how a local school district defines its school year quarters); in cases where schools do not use school year quarters, local programs must use calendar year quarters);
 - (iii) A recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is either basic skills deficient or an English language learner;
- (d) An offender;
- (e) A homeless individual, aged 16 to 24 who meets the criteria defined in Section 41403(6) of the Violence Against Women Act of 1994 (42 USC 14043e–2(6)), a homeless child or youth aged 16 to 24 who meets the criteria defined in Section 725(2) of the McKinney-Vento Homeless Assistance Act (42 USC 11434a(2)) or a runaway;
- (f) An individual in foster care or who has aged out of the foster care system or who has attained 16 years of age and left foster care for kinship guardianship or adoption, a child eligible for assistance under Section 477 of the Social Security Act (42 USC 677), or in an out-of-home placement;
- (g) An individual who is pregnant or parenting;
- (h) An individual with a disability;
- (i) A low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment (Sections 3(46) and 129(a)(1)(B), WIOA, 128 Stat. 1437 and 1504).
- (2) An “in-school youth” is an individual who is:
- (a) Attending school (as defined by state law);

- (b) Not younger than age 14 or (unless an individual with a disability who is attending school under state law) older than age 21;
- (c) A low-income individual; and
- (d) One or more of the following:
 - (i) Basic skills deficient;
 - (ii) An English language learner;
 - (iii) An offender;
 - (iv) A homeless individual, aged 14 to 21 who meets the criteria in Section 41403(6) of the Violence Against Women Act of 1994 (42 USC 14043e–2(6)), a homeless child or youth aged 14 to 21 who meets the criteria in Section 725(2) of the McKinney-Vento Homeless Assistance Act (42 USC 11434a(2)), or a runaway;
 - (v) An individual in foster care or who has aged out of the foster care system or who has attained 16 years of age and left foster care for kinship guardianship or adoption, a child eligible for assistance under Section 477 of the Social Security Act (42 USC 677), or in an out-of-home placement;
 - (vi) An individual who is pregnant or parenting;
 - (vii) An individual with a disability;
 - (viii) An individual who requires additional assistance to complete an educational program or to secure or hold employment (sections 3(27) and 129(a)(1)(C), WIOA, 128 Stat. 1435 and 1505).

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

G. Matching, Level of Effort, Earmarking**1. Matching**

Not Applicable

2. Level of Effort

Not Applicable

3. Earmarking**a. Statewide Activities**

- (1) The governor shall reserve not more than 15 percent of each of the amounts allotted to the state Adult, Dislocated Worker, and Youth Activities for a fiscal year to carry out statewide activities under Section 129(b) or statewide employment and training activities for adults or dislocated workers under section 134(a) (Section 128(a), WIOA, 128 Stat. 1502).
- (2) Not more than 5 percent of the funds allotted to a state under Section 127(b)(1)(C) of WIOA shall be used by the state for administrative activities related to youth workforce investment and employment and training activities (Section 129(b)(3), WIOA, 128 Stat 1508).
- (3) The state must reserve for rapid response activities a portion of funds, up to 25 percent, allotted for dislocated workers. The funds are used to plan and deliver services to enable dislocated workers to transition to new employment as quickly as possible, following either a permanent closure or mass layoff, or a natural or other disaster resulting in a mass job relocation (20 CFR section 682.350; sections 133(a)(2) and 134(a)(2)(A), WIOA, 128 Stat. 1516 and 1520).

b. Local Areas

- (1) A local area may expend no more than 10 percent of the Adult, Dislocated Worker, and Youth Activities funds allocated to the local area under Sections 128(b) (WIOA, 128 Stat. 1502) and 133(b) (WIOA, 128 Stat. 1516) for within state allocations. The funds provided for administrative costs by one of the three fund sources (Adult, Dislocated Worker, Youth Activities) can be used for administrative costs of the other two sources.
- (2) The amount that may be spent on incumbent worker training may not exceed 20 percent of the amount of the combined total of

federal funds allocated to local areas to carry out the Adult and Dislocated Worker programs for a program year (20 CFR section 680.800; Section 134(d)(4), WIOA, 128 Stat. 1535).

- (3) WIOA authorizes workforce investment areas, with the approval of the governor, to transfer up to 100 percent of the Adult Activities funds to Dislocated Workers Activities, and up to 100 percent of Dislocated Workers Activities funds to Adult Activities (Section 133(b)(4), WIOA, 128 Stat. 1518).
- (4) At the discretion of the local board, not more than 10 percent of the total funds allocated to the local area under section 128(b) and under section 133(b)(2)-(3) may be used to implement a pay-for-performance contract strategy as defined in WIOA Section 3(47) (WIOA Section 129(c)(1)(D) and 134(d)(1)(A)(iii)).

c. Youth Activities

- (1) A minimum of 75 percent of the Youth Activity funds allocated to states and local areas, except for the local area expenditures for administration, must be used to provide services to out-of-school youth (Section 129(a)(4)(A), WIOA, 128 Stat. 1506).
- (2) Not less than 20 percent of Youth Activity funds allocated to the local area, except for the local area expenditures for administration, must be used to provide paid and unpaid work experiences (Section 129(c)(4)), WIOA, 128 Stat. 1510).

H. Period of Performance

1. *Statewide Activities*

Funds allotted to a state for any program year are available for expenditure by the state during that program year and the two succeeding program years (29 USC 3249(g)(2)).

2. *Local Areas*

Funds allocated by a state to a local area for any program year are available for expenditure only during that program year and the succeeding program year. Funds which are not expended by a local area in two-year period must be returned to the state, which can use the funds for statewide projects during the third program year of availability. The state may also distribute the funds to local areas, which may have expended their original allocation and may need additional funds to complete their projects within the two-year period (29 USC 3249(g)(2)).

Funds used to carry out PFP contract strategies by local areas shall remain available until expended through procedures outlined in Attachment III of TEGL 8-20 (WIOA 189(g)(2)(D)).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *ETA-9130, Financial Report (OMB No. 1205-0461)* – All ETA grantees are required to submit quarterly financial reports for each grant award they receive. Reports are required to be prepared using the specific format and instructions for the applicable program(s); in this case, *Workforce Innovation and Opportunity Act* instructions for the following: *Statewide Adult; Workforce Statewide Youth; Statewide Dislocated Worker; Local Adult; Local Youth; and Local Dislocated Worker*. A separate ETA 9130 is submitted for each of these categories. Funds reserved and set aside for PFP contract strategies are required to be reported on ETA 9130 basic reports for each WIOA fund source utilized. Reports are due 45 days after the end of the reporting quarter. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. Additional information can be accessed at <http://www.doleta.gov/grants/>; scroll down to the section on Financial Reporting. See TEGL 02-16 for specific and clarifying instructions about the ETA 9130 at https://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=5156.

2. Performance Reporting

Not Applicable.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

M. Subrecipient Monitoring

1. Each state must have a monitoring system which:
 - a. Provides for annual on-site monitoring reviews of local areas' compliance with DOL uniform administrative requirements, including the appropriate administrative requirements and cost principles for subrecipients and other entities receiving WIOA funds, as required by Section 184(a)(4), WIOA (128 Stat. 1591);
 - b. Ensures that established policies to achieve program quality and outcomes meet the Act's objectives, including policies relating to the provision of services by AJC centers, eligible providers of training services, and eligible providers of youth activities;
 - c. Enables the governor to determine if subrecipients and contractors are in substantial compliance with WIOA requirements;
 - d. Enables the governor to determine whether a local plan will be disapproved for failure to make acceptable progress in addressing deficiencies; and
 - e. Enables the governor to ensure compliance with WIOA nondiscrimination and equal opportunity requirements (29 USC 3248) (20 CFR sections 683.410(b)(1) through (3)).
2. The state must require that prompt corrective action be taken if any substantial violations are identified as result of annual on-site monitoring and must impose the sanctions provided in sections 184(b) and (c) of WIOA if a subrecipient fails to take required corrective action. The state may issue additional requirements and instructions to subrecipients on monitoring activities (20 CFR sections 683.410(b)(4) and (5)).

DEPARTMENT OF LABOR

ASSISTANCE LISTING 17.264 NATIONAL FARMWORKER JOBS PROGRAM

I. PROGRAM OBJECTIVES

The National Farmworker Jobs Program (NFJP) is a nationally directed, locally administered program of services for eligible migrant and seasonal farmworkers (MSFW), including youth MSFW, and their dependents, who encounter chronic unemployment and underemployment. The program partners with community organizations, state agencies, and state monitor advocates to provide services, including career services, training services, housing assistance services, youth services, and related assistance services, to farmworkers who depend primarily on jobs in agricultural labor performed across the country. NFJP helps farmworkers and their dependents achieve better economic outcomes by supporting farmworkers in acquiring necessary skills to obtain, retain, or stabilize their unsubsidized employment, , including upgraded employment in agriculture or employment in new industries.

II. PROGRAM PROCEDURES

A. Overview

The NFJP is a required American Job Center (One-stop) partner under the Workforce Innovation and Opportunity Act of 2014 (WIOA). WIOA is designed to help job seekers access employment, education, training, and support services to succeed in the labor market and to match employers with the skilled workers they need to compete in the global economy. In the areas of the state where an NFJP operates, local workforce development boards must negotiate Memorandums of Understanding (MOUs) with NFJP grantees. Additionally, State Monitor Advocates are required to negotiate MOUs with NFJP grantees. The Monitor Advocate System is a federal/state monitoring system that ensures migrant and seasonal farmworkers receive career services, skill development, and workforce protections that are qualitatively equivalent and quantitatively proportionate to the services provided to all other job seekers by American Job Centers.

The Department of Labor (DOL) awards NFJP grants competitively to eligible applicants that submit four-year program plans for operating the NFJP in state, substate, and multi-state service areas. Grantees provide career services, training services, youth services, housing assistance and other related assistance to eligible program participants. Funds for employment and training grants are allocated through an administrative formula to state service areas. A percentage of program funding is designated for Housing Assistance grants and is allocated based on the services described and the service areas specified in grantee program plans. Grants are awarded for a four-year period of performance.

Source of Governing Requirements

The NFJP program is authorized by Title I, Subtitle D, Section 167, of the WIOA (Pub. L. 113-128). The NFJP implementing regulations are located at 20 CFR part 685. Some governing statutory provisions are included in the annual appropriation for the program, with the most recent appropriation being the Consolidated Appropriations Act, 2021 (Pub. L. 116-260).

Availability of Other Program Information

Additional information on programs authorized under the WIOA can be found at <http://www.doleta.gov/wioa>. Information on NFJP program can be found at <https://www.dol.gov/agencies/eta/agriculture> or <https://farmworker.workforcegps.org/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Activities allowed are in accordance with a service delivery strategy described in the grantee’s approved four-year program plan.

- a. Career services.
- b. Training services, including, but are not limited to, occupational-skills training and on-the-job training.

- c. Related assistance services that support farmworkers and their families to obtain or retain unsubsidized employment, or stabilize their unsubsidized employment, including upgraded employment in agriculture.
- d. Housing Assistance grantees may provide permanent and temporary housing services depending on their grant award.
- e. Youth services that include but are not limited to (1) career services and training; (2) youth workforce investment activities specified in WIOA, (Section 129, WIOA, 128 Stat. 1504 et seq.); (3) life skills activities, which may include self- and interpersonal skills development; (4) community service projects; and (5) other activities and services that conform to the use of funds for youth activities described in Section 129, WIOA).

2. *Activities Unallowed*

WIOA Title I funds may not be used for the following activities, except as indicated:

- a. Construction, purchase of facilities or buildings, or other capital expenditures for improvements to land or buildings except with the prior approval of the secretary of labor. WIOA Title I funds can be used for construction only in limited situations as described under 20 CFR 685.360e, including meeting obligations to provide physical and programmatic accessibility and reasonable accommodations, certain repairs, renovations, alterations, and capital improvements of property, and for disaster relief projects under Section 170(d), WIOA, 128 Stat. 1575, Youth Build programs under Section 171(c)(2)(A)(i), WIOA, 128 Stat. 1578, and for other projects that the Secretary determines necessary to carry out the WIOA, as described under Section 189(c) of WIOA, 128 Stat. 1599.
- b. Employment-generating activities, economic development activities, investment in revolving loan funds, capitalization of businesses, investment in contract bidding resource centers, and similar activities not directly related to training for eligible individuals, with the exception of employer outreach and job development activities, which are considered directly related to training for eligible individuals (Section 181(e), WIOA, 128 Stat. 1588).
- c. The employment or training of participants in sectarian activities. Participants shall not be employed in the construction, operation, or maintenance of a facility that is or will be used for sectarian instruction or as a place for religious worship. However, WIOA funds may be used for the maintenance of a facility that is not primarily or inherently devoted to sectarian instruction or religious worship if the organization operating the

facility is part of a program or activity providing services to WIOA participants (Section 188(a)(3), WIOA, 128 Stat. 1598).

- d. Encouraging or inducing the relocation of a business or part of a business from any location in the United States if the relocation results in any employee losing his or her job at the original location (Section 181(d)(1)), WIOA, 128 Stat. 1588).
- e. Providing customized training, skill training, or on-the-job training or company specific assessments of job applicants or employees of a business or a part of a business that has relocated from any location in the United States, until the company has operated at that location for 120 days, if the relocation resulted in any employee losing his or her job at the original location (Section 181(d)(2), WIOA, 128 Stat. 1588).
- f. Paying the wages of incumbent employees during their participation in economic development activities provided through a statewide workforce investment system (Section 181(b)(1), WIOA, 128 Stat. 1586).
- g. Public service employment, except to provide disaster relief employment, as specifically authorized in Section 194(10), WIOA, 128 Stat. 1606.

E. Eligibility

1. Eligibility for Individuals

- a. *Selective Service* – No participant may be in violation of Section 3 of the Military Selective Service Act (50 USC App. 453) by not presenting and submitting to registration under that Act (29 USC 2939(h)).
- b. For participation in the NFJP, an individual must be an "eligible migrant and seasonal farmworker" as defined in Section 167(i), WIOA, 128 Stat. 1566, as follows:
 - (1) Eligible migrant farmworker, as defined in WIOA Section 167(i)(2), means an eligible seasonal farmworker, as defined in WIOA Section 167(i)(3), whose agricultural labor requires travel to a job site such that the farmworker is unable to return to a permanent place of residence within the same day. Dependents of migrant farmworkers also are eligible.
 - (2) Eligible seasonal farmworker, as defined in WIOA Section 167(i)(3), means a low-income individual who for 12 consecutive months out of the 24 months prior to application for the program involved, has been primarily employed in agricultural or fish farming labor that is characterized by chronic unemployment or underemployment, and faces multiple barriers to economic self-sufficiency. Dependents of seasonal farmworkers also are eligible.

- (3) Eligible migrant and seasonal farmworker youth means an eligible MSFW aged 14–24 who is individually eligible or a dependent of an eligible MSFW (described in 20 CFR section 685.110). Grantees may enroll participants aged 18–24 as either a MSFW adult or a MSFW youth participant (described in 20 CFR section 685.320) but not in both categories.

Additional information on program eligibility is available in TEGL 18-16, Change 1, available at <https://www.dol.gov/agencies/eta/advisories/training-and-employment-guidance-letter-no-18-16-change-1>.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

F. Equipment and Real Property Management

Recipients and subrecipients may permit employers in a local area to use WIOA-funded services, facilities, or equipment, on a fee-for-service basis, to provide employment and training activities to incumbent workers if their use does not interfere with utilization by eligible participants and the income generated from such fees is treated as program income (Section 194(13), WIOA, 128 Stat. 1607; 20 CFR section 683.200(c)(9)).

J. Program Income

1. There is no requirement that a fee-for-service be charged to employers. However, if a fee is charged for services provided under 20 CFR sections 678.435(b) or (c), the fees are considered program income (20 CFR section 678.440).
2. The addition method is required for use on all program income earned under Title I WIOA grants. When the cost of generating program income has been charged to the program, the gross amount earned must be added to the program in which it was earned. However, the cost of generating program income must be subtracted from the amount earned to establish the net amount of program income available for use under the grants when these costs have not been charged to the program (Section 194(7), WIOA, 128 Stat. 1606; 20 CFR section 683.200(c)(6)).
3. WIOA specifically include as program income: (a) receipts from goods and services, including conferences; (b) funds provided to a service provider in excess of the costs associated with the services provided; and (c) interest income earned on funds received under Title I WIOA. Any excess of revenue over costs incurred for services provided by a governmental or nonprofit entity must be included in program income earned (Section 194(7), WIOA, 128 Stat. 1606; 20 CFR sections 683.200(c)(7) and (c)(8)).

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *ETA 9130(J), Financial Report (OMB Control Number 1205-0461)* – DOL requires financial reports to be cumulative by fiscal year of appropriation. All ETA grantees are required to submit quarterly financial reports for each grant award which they receive. Reports are required to be prepared using the specific instructions for the applicable program(s); in this case, *National Farmworkers Jobs Program*. Reports are due 45 days after the end of the reporting quarter. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. Additional information can be accessed at <http://www.doleta.gov/grants/>; scroll down to the section on Financial Reporting. See Training and Guidance Letter (TEGL) 02-16 for specific and clarifying instructions about the ETA 9130 at https://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=5156.

DEPARTMENT OF LABOR

ASSISTANCE LISTING 17.265 NATIVE AMERICAN EMPLOYMENT AND TRAINING

I. PROGRAM OBJECTIVES

Section 166 of the Workforce Innovation and Opportunity Act (WIOA) authorizes funding to Indian tribes, tribal organizations, Alaska Native entities, Indian-controlled organizations serving Indians, and Native Hawaiian organizations to provide employment and training services to unemployed and low-income Native Americans, Alaska Natives, and Native Hawaiians. The stated purpose of Section 166 of WIOA is to support employment and training activities in order to (1) develop more fully the academic, occupational, and literacy skills of such individuals; (2) make individuals more competitive in the workforce and equip them with the entrepreneurial skills necessary for successful self-employment; and (3) promote economic and social development in accordance with the goals and values of such communities.

II. PROGRAM PROCEDURES

The Department of Labor's (DOL) Division of Indian and Native American Programs (DINAP) makes grant funds available for comprehensive workforce investment activities for Indians, Alaskan Natives, and Native Hawaiians. In addition, supplemental funding is made available to entities serving Native American youth "on or near Indian reservations and in Oklahoma, Alaska, or Hawaii" through grants to American Indian, Native American, and Native Hawaiian organizations. Funding is made available through a competitive grants process and award amounts are determined by use of a funding formula.

Grantees are required to submit a Comprehensive Services Plan for DOL approval. The Plan must (1) identify program emphasis areas, (2) designate a specific target population to be served by the grant, (3) establish specific plans for serving youth (if they receive supplemental funding), (4) develop a budget and identify the level of administrative costs needed for the four-year plan, and (5) identify appropriate program linkages with other agencies. Section 166 grantees are required to negotiate Memorandums of Understanding (MOUs) with the Local Workforce Development Board(s) (LWDBs), which operate in whole or in part within the grantee's service area. The LWDBs receive grant funds from the DOL, which come through the state, to provide employment and training services that are similar to the Native American Section 166 program.

Source of Governing Requirements

This program is authorized by Title I of the WIOA (Pub. L. No. 113-128). The WIOA superseded the Workforce Investment Act of 1998. WIOA regulations are located at 20 CFR parts 678, 683, and 684.

Availability of Other Program Information

Additional information on programs authorized under the WIOA can be found at <http://www.doleta.gov/dinap/> and <http://www.doleta.gov/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	Y	Y	N	N	N	Y	Y	N	N

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Funds must be used for the following types of activities that are necessary to meet the needs of Indians, Alaska Natives, or Native Hawaiians preparing to enter, reenter, or retain unsubsidized employment leading to self-sufficiency:

- a. Comprehensive workforce development activities for Indians, Alaska Natives, or Native Hawaiians, including training on entrepreneurial skills; or
- b. Supplemental services for Indian, Alaska Native, or Native Hawaiian youth on or near Indian reservations and in Oklahoma, Alaska, or Hawaii (29 USC 3221(d), Section 166(d), WIOA, 128 Stat. 1560 and 1561).

2. *Activities Unallowed*

Funds may not be used for the following activities, except as indicated:

- a. Construction, purchase of facilities or buildings, or other capital expenditures for improvements to land or buildings except with the prior approval of the secretary of labor. WIOA Title I funds can be used for construction only in limited situations, including meeting obligations to provide physical and programmatic accessibility and reasonable accommodations, certain repairs, renovations, alterations, and capital improvements of property, and for other projects that the secretary determines necessary to carry out the WIOA, as described under Section 189(c), WIOA, 128 Stat. 1599.
- b. Employment-generating activities, economic development activities, investment in revolving loan funds, capitalization of businesses, investment in contract bidding resource centers, and similar activities not directly related to training for eligible individuals, with the exception of employer outreach and job development activities, which are considered directly related to training for eligible individuals (Section 181(e), WIOA, 128 Stat. 1588; 20 CFR section 683.245).
- c. The employment or training of participants in sectarian activities. Participants shall not be employed in the construction, operation, or maintenance of a facility that is or will be used for sectarian instruction or as a place for religious worship. However, WIOA funds may be used for the maintenance of a facility that is not primarily or inherently devoted to sectarian instruction or religious worship if the organization operating the facility is part of a program or activity providing services to WIOA participants (Section 188(a)(3), WIOA, 128 Stat. 1598; 20 CFR section 683.255).
- d. Encouraging or inducing the relocation of a business or part of a business from any location in the United States if the relocation results in any employee losing his or her job at the original location (Section 181(d)(1)), WIOA, 128 Stat. 1588; 20 CFR section 683.260(a)(1)).
- e. Providing customized training, skill training, or on-the-job training or company-specific assessments of job applicants or employees of a business or a part of a business that has relocated from any location in the United States, until the company has operated at that location for 120 days, if the relocation resulted in any employee losing his or her job at the original location (Section 181(d)(2), WIOA, 128 Stat. 1588; 20 CFR section 683.260(a)(2)).
- f. Paying the wages of incumbent employees during their participation in economic development activities provided through a statewide workforce investment system (Section 181(b)(1), WIOA, 128 Stat. 1586; 20 CFR section 683.250(a)(1)).

- g. Public service employment, except to provide disaster relief employment, as specifically authorized in Section 194(10), WIOA, 128 Stat. 1606; 20 CFR section 683.250(a)(2)).

E. Eligibility

1. Eligibility for Individuals

- a. *Selective Service* – No participant may be in violation of Section 3 of the Military Selective Service Act (50 USC App. 453) by not presenting and submitting to registration under that Act (29 USC 2939(h)).
- b. *Adults* – An individual is eligible to receive services under the Indian and Native American adult program if they meet the definition of an Indian, as defined in Section 4(d) of the Indian Self-Determination and Education Assistance Act (25 USC 450b), and also is one of the following:
 - (1) Unemployed (Section 3(61), WIOA, 128 Stat. 1439); or
 - (2) Underemployed; or
 - (3) A low-income individual as defined in Section (3)(36), WIOA (128 Stat. 1435); or
 - (4) The recipient of a bona fide lay-off notice which has taken effect in the last 6 months or will take effect in the following 6-month period, who is unlikely to return to a previous industry retraining for either employment with another employer or for job retention with the current employer; or
 - (5) An individual who is employed but is determined by the grantee to be in need of employment and training services to obtain or retain employment that allows for self-sufficiency.
- c. *Youth* – Funds available to serve Indian, Alaska Native, and Native Hawaiian youth on or near Indian reservations and in Oklahoma, Alaska, and Hawaii are available as a supplement to the adult funds. To be eligible to receive supplemental youth services, an individual must be:
 - (1) American Indian, Alaska Native, or Native Hawaiian;
 - (2) Between the ages of 14 and 24; and
 - (3) A low-income individual, as defined at WIOA Section 3(36). However, 20 CFR section 684.430(a)(3) allows up to 5 percent of individuals who do not meet the minimum income criteria to be eligible to receive supplemental youth services if such individuals meet the eligibility requirements of paragraphs (1) and (2) above.

The term low-income also includes a youth living in a high-poverty area (sections 129(a)(1)(B)(ii), (a)(1)(C)(ii), (a)(2), and (a)(3), WIOA, 128 Stat. 1505 and 1506; 20 CFR section 684.430(b)). “High-poverty area” is defined at 20 CFR section 684.130.

2. Eligibility for Group of Individuals or Area of Service Delivery

Not Applicable

3. Eligibility for Subrecipients

Not Applicable

F. Equipment and Real Property Management

The grant award recipient(s) must receive prior approval from the Grant Officer to purchase any equipment as defined in the Uniform Guidance at 2 CFR 200.1. Prior approval is required only when the acquisition cost is \$5,000 or more regardless of the non-Federal entity’s capitalization threshold. Equipment purchase must be made in accordance with 2 CFR 200.313 or 2 CFR 200.439.

In line with the Uniform Guidance, 2 CFR 200.33, ETS defines equipment as a tangible, personal property (including information technology systems) that has: (1) A useful life of more than one year; and (2) A per-unit acquisition which equals or exceeds the lesser of the capitalization level established by the non-Federal entity or \$5,000.

Grant award recipients are required to manage any acquired real property in accordance with the Uniform Guidance, 2 CFR 200.311 (a)-(c).

J. Program Income

1. The addition method is required for use on all program income earned under WIOA grants. When the cost of generating program income has been charged to the program, the gross amount earned must be added to the WIOA program. However, the cost of generating program income must be subtracted from the amount earned to establish the net amount of program income available for use under the grants when these costs have not been charged to the WIOA program (Section 194(7), WIOA, 128 Stat.1606; 20 CFR section 683.200(c)(6)).
2. WIOA specifically include as program income: (a) receipts from goods and services, including conferences; (b) funds provided to a service provider in excess of the costs associated with the services provided; and (c) interest income earned on funds received under WIOA. Any excess of revenue over costs incurred for services provided by a governmental or nonprofit entity must be included in program income earned (Section 194(7), WIOA, 128 Stat. 1606; 20 CFR sections 683.200(c)(7) and (c)(8)).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. *SF-425, Federal Financial Report* – Not Applicable
- d. *ETA-9130(L), Indian and Native American Programs-Workforce Investment Act-Grantee Activities (OMB No.1205-0461)* – This electronic reporting format, based on the ETA 9130, Financial Report, is used to report accrued income, cash on hand, and program and administrative expenditures funded by grants under WIOA Section 166. Tribes participating in the “477” program authorized by the Indian Employment, Training, and Related Services Demonstration Act of 1992 (Pub. L. No. 102-477) are required to submit a single financial report covering all Federal formula programs that are part of their 477 plan to the Bureau of Indian Affairs. Financial data is required to be reported cumulatively from grant inception through the end of each reporting period. See TEGL 02-16 for specific and clarifying instructions about the ETA 9130 at <https://www.dol.gov/agencies/eta/advisories/training-and-employment-guidance-letter-no-02-16>.

2. Performance Reporting

- a. *ETA-9173, DINAP specific, Quarterly Performance Report (QPR) (OMB No. 1205-0521)* is the required report from the Indian and Native American (INA) Comprehensive Services Program. *ETA-9172, WIOA Participant Individual Record Layout (PIRL) (OMB No. 1205-0521)* is the required report form where individual data is reported on participation, including services, employment and education performance outcomes, and the socio-economic characteristics. The data is used to generate the ETA-9173, DINAP specific, Quarterly Performance Report to determine the levels of program service and accomplishments for the Program Year at an aggregate level. Grantees receiving these funds are required to submit these reports on a quarterly basis, within 45 days after the end of the quarter, except for federally recognized Indian tribes participating in the Public Law 102-477 are not required to submit quarterly reports.

See ETA Form 9172 located at <https://www.dol.gov/sites/dolgov/files/ETA/Performance/pdfs/ICR/ETA%209172%20DOL%20only%20PIRL%20CLEAN%202.15.2022.pdf>

ETA Form 9173, DINAP specific, Quarterly Performance Report is located at

https://www.dol.gov/sites/dolgov/files/ETA/Performance/pdfs/INA_QPR_Template_and_Specifications.pdf

Grantees collect and upload the data file from an ETA case management system, known as Grantee Management Performance System (GPMS), into the Workforce Integrated Performance System (WIPS). Additional reporting information is available in TEGL 14-18 located at <https://www.dol.gov/agencies/eta/advisories/training-and-employment-guidance-letter-no-14-18> and TEN 8-16 located at <https://www.dol.gov/agencies/eta/advisories/training-and-employment-notice-no-08-21>.

ETA Form 9173 key line items referenced on performance page. Link: <https://www.dol.gov/agencies/eta/dinap/performance>. See under DINAP Forms and Reporting Instructions.

Key Line Items – The following line items contain critical information:

1. Line A.1. – *Total Exiters*
 2. Line A.2. – *Total Participants Served*
 3. Line D.1. – *Entered Employment Rate Q2*
 4. Line D.4. – *Credential Rate*
 5. Line D.3. – *Median Earnings*
- b. *ETA-9085, Indian and Native American Supplemental Youth Services Program Report (OMB No. 1205-0422)* – Reports cumulative data on participation, termination, performance outcomes, and socioeconomic characteristics of participants. Grantees receiving these funds are required to submit a semiannual and annual report except federally recognized Indian tribes participating in the demonstration under Pub. L. No. 102-477 (as is the case for ETA-9130(L) and ETA-9172).

See ETA Form 9085 located at <https://www.dol.gov/sites/dolgov/files/ETA/dinap/pdfs/ETA-Form-9085-and-Instructions.pdf>.

Key Line Items – The following line items contain critical information:

1. Line 1 – *Total Participants*
2. Line 2 – *Total Exiters*
3. Line 3 – *Total Current Participants*

4. Line 29 – *Improved Basic Skills by at Least Two Grade Levels*
5. Line 30 – *Attained High School Diploma*
6. Line 31 – *Attained GED*
7. Line 35 – *Attainment of Two or More Goals*

3. Special Reporting

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

IV. OTHER INFORMATION

Audits of Indian tribal governments with the Native American Employment and Training program in their approved 477 Plan with reporting under Version 2 forms (75 FR 57970 (September 26, 2014)) must follow the guidance in the 477 Cluster found in the Department of the Interior’s section of Part 4 of this Supplement. See the “Note” at the beginning of the 477 Cluster for additional information.

Audits of Indian tribal governments with the Native American Employment and Training program in their approved 477 Plan with reporting under Version 1 forms must follow this program supplement for Assistance Listing 17.265.

1. The auditor should use the approved Pub. L. No. 102-477 plan in determining compliance requirements to be tested;
2. The auditor is permitted to audit the Pub. L. No. 102-477 demonstration project as a cluster of programs; and
3. The Native American Employment and Training program grantee may present demonstration project expenditures in its Schedule of Expenditures of Federal Awards (SEFA) in the same manner in which it had been presenting these expenditures in the period immediately prior to this Supplement or in the same manner in which it had been presenting these expenditures in the period immediately prior to the 2009 Compliance Supplement.

WAGE RATE REQUIREMENTS CROSS-CUTTING SECTION

INTRODUCTION

This section contains guidance for audit of the Wage Rate Requirements (also known as the Davis-Bacon Act) as they apply to programs of the Department of Transportation and other federal agencies, as specified below and referenced in III.N, “Special Tests and Provisions,” of the affected programs in Part 4 of the Supplement. The statutory source requirement (i.e., the “compliance requirement”) is stated in the individual programs, along with any program-specific limitations and a reference to this cross-cutting section. The general compliance requirement, audit objectives, and suggested audit procedures are specified in this cross-cutting section.

III. COMPLIANCE REQUIREMENTS

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements All laborers and mechanics employed by contractors or subcontractors to work on construction contracts in excess of \$2,000 financed by federal assistance funds must be paid wages not less than those established for the locality of the project (prevailing wage rates) by the Department of Labor (DOL) (40 USC 3141–3144, 3146, and 3147).

Nonfederal entities shall include in their construction contracts subject to the Wage Rate Requirements (which still may be referenced as the Davis-Bacon Act) a provision that the contractor or subcontractor comply with those requirements and the DOL regulations (29 CFR Part 5, Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction). This includes a requirement for the contractor or subcontractor to submit to the nonfederal entity weekly, for each week in which any contract work is performed, a copy of the payroll and a statement of compliance (certified payrolls) (29 CFR sections 5.5 and 5.6; the A-102 Common Rule (section 36(i)(5)); OMB Circular A-110 (2 CFR Part 215, Appendix A, Contract Provisions); **2 CFR Part 176, Subpart C**; and 2 CFR section 200.326).

This reporting is often done using Optional Form WH-347, which includes the required statement of compliance (*OMB No. 1235-0008*). The DOL, Employment Standards Administration, maintains a Davis-Bacon and Related Acts web page (<https://www.dol.gov/agencies/whd/government-contracts/construction>). Optional Form WH-347 and instructions are available on this web page.

Audit Objectives Determine whether the nonfederal entity notified contractors and subcontractors of the requirements to comply with the Wage Rate Requirements and obtained copies of certified payrolls.

Suggested Audit Procedures

Select a sample of construction contracts and subcontracts greater than \$2,000 that are covered by the Wage Rate Requirements and perform the following procedures:

- a. Verify that the required prevailing wage rate clauses were included in the contract or subcontract.
- b. For each week in which work was performed under the contract or subcontract, verify that the contractor or subcontractor submitted the required certified payrolls.

(Note: Auditors are not expected to determine whether prevailing wage rates were paid.)

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.106 AIRPORT IMPROVEMENT PROGRAM

I. PROGRAM OBJECTIVES

The objective of the Airport Improvement Program (AIP) is to assist sponsors, owners, or operators of public-use airports in the development of a nationwide system of airports adequate to meet the needs of civil aeronautics.

II. PROGRAM PROCEDURES

States, counties, municipalities, US territories and possessions, and other public agencies, including Indian tribes or Pueblos (sponsors) are eligible for airport development grants if the airport on which the development is required is listed in the National Plan of Integrated Airport Systems (NPIAS). Applications for grants must be submitted to the appropriate Federal Aviation Administration (FAA) Airports Office. Primary airport sponsors must notify FAA by January 31 or another date specified in the *Federal Register* of their intent to apply for funds to which they are entitled under Pub. L. No. 97-248 (49 USC Chapter 31). A reminder is published annually in the *Federal Register*. Other sponsors are encouraged to submit early in the fiscal year and to contact the appropriate FAA Airports Office for any local deadlines. Sponsors must formally accept grant offers no later than September 30 for grant funds appropriated for that fiscal year.

Source of Governing Requirements

This program is authorized by 49 USC Chapter 471.

Availability of Other Program Information

Additional program information is provided in FAA Order 5100.38D, *Airport Improvement Program Handbook* (available at [AIP Handbook – Office of Airports \(faa.gov\)](#)) and FAA Advisory Circulars in the 150/5100 series (available at http://www.faa.gov/airports/resources/advisory_circulars/). The FAA also maintains an Airports *Federal Register* Notices page available at [Federal Register Notices \(FRNs\) for Airport Programs \(faa.gov\)](#).

Program related questions may be directed to Patricia Dickerson, FAA Airports Financial Assistance Division, at 202-267-9297 (direct) and 202-267-3831 (main) or by e-mail at patricia.a.dickerson@faa.gov. Questions related to the revenue diversion and other compliance requirements may be directed to Olu Okegbenro, FAA Airport Compliance Division at 202-267-3785 (direct) and 202-267-3446 (main) or by e-mail at Olu.Okegbenro@faa.gov.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	N	N	Y	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Grants can be made for planning, constructing, improving, or repairing a public-use airport or portions thereof and for acquiring safety or security equipment. Eligible terminal building development is limited to non-revenue-producing public-use areas that are directly related to the movement of passengers and baggage in air carrier and commuter service terminal facilities within the boundaries of the airport. Eligible construction is limited to items of work and to the quantities listed in the grant description and/or special conditions (49 USC 47110).

2. *Activities Unallowed*

a. In general, federal funds cannot be expended for:

- (1) Passenger automobile parking facilities and portions of terminals that are revenue-producing or not directly related to the safe movement of passengers and baggage at the airports, and
 - (2) Costs incurred before the execution of the grant agreement, unless such costs are for land, necessary costs in formulating a project, or costs covered by a letter of intent. However, an airport designated by the FAA as a primary airport may use passenger entitlement funding made available under 49 USC 47114(c) for costs incurred (1) prior to the execution of the grant agreement; (2) in accordance with the airport layout plan approved by the FAA; and (3) according to all statutory and administrative requirements that would have applied had work on the project not commenced until after the grant agreement had been executed (49 USC 47110(b)(2)(C)).
- b. The following are examples of items for which FAA funds cannot be expended (FAA Order 5100.38D, *Airport Improvement Program Handbook*, and FAA Advisory Circulars in the 150/5100 series).
- (1) Emergency planning.
 - (2) Decorative landscaping, sculpture, or art works.
 - (3) Communication systems except those used for safety/security.
 - (4) Training facilities, except those included in an otherwise eligible project as an integral part of that project and that are of a relatively minor or incidental cost (i.e., less than 10 percent of the project cost). An example of an exception would be a training room included as part of a new Aircraft Rescue and Firefighting (ARFF) facility. Interactive training systems and “live fire” ARFF training facilities are eligible.
 - (5) Roads of whatever length, exclusively for the purpose of connecting public parking facilities to an access road.
 - (6) Roads serving solely industrial or non-aviation-related areas or facilities.
 - (7) Equipment that is used by air traffic controllers such as Airport surface detection systems (ASDE).
 - (8) Maintenance/service facilities except for those allowed to service required ARFF equipment.
 - (9) Office/administrative equipment, including data processing equipment, computers, recorders, etc.

- (10) Projects for the determination of latitude, longitude, and elevation except as an incidental part of master planning.

3. *Exception*

For a non-hub airport (one that accounts for less than 0.05 percent of total US passenger boardings), the FAA may approve as allowable costs the expenses of terminal development in a revenue-producing area and construction, repair, and improvement of parking lots (49 USC 47110(d)(2)).

B. Allowable Costs/Cost Principles

Costs charged to federal funds under the AIP program must comply with the cost principles at 2 CFR Part 200, Subpart E, the AIP Handbook – Change 1 and any other requirements or restrictions on the use of federal funding.

F. Equipment and Real Property Management

Under this program, FAA is authorized by 49 USC 47107(c), as amended, to allow recipients to reinvest the proceeds from the disposition of real property acquired with federal awards for noise compatibility or airport development purposes.

G. Matching, Level of Effort, Earmarking

1. **Matching**

All match funding must be provided in compliance with the requirements of 2 CFR Part 200.306. The grantee's share of project costs on an AIP grant (also known as cost share) is defined in 49 USC 47109 and set forth in the grant award. The nonfederal share varies by airport size and is generally 25 percent for large and medium hub airports and 10 percent for all other airports.

Acceptable match, whether cash or in-kind, must be allowable and eligible. In addition, match must be provided by the recipient; or provided as cash by a third party; or provided as in-kind by a third party; or any combination of cash and in-kind provided by the recipient and/or a third party.

2. **Level of Effort**

Not Applicable

3. **Earmarking**

Not Applicable

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement – Applicable*
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs – Applicable*
- c. *SF-425, Federal Financial Report – Applicable*
- d. *FAA Form 5100-127, Operating and Financial Summary (OMB No. 2120-0569)*

Sponsors of commercial service airports are required to submit this report, which captures revenues and expenditures at the airport, including revenue surplus.

- e. *FAA Form 5100-126, Financial Government Payment Report (OMB No. 2120-0569)*

This report captures amounts paid and services provided to other units of government. This reporting requirement technically applies to all sponsors of federally assisted airports who accepted grants with assurance no. 26(d)(I)(ii); however, FAA is currently requiring submission only from commercial service airports. Commercial service airports are the airports most likely to generate excess revenue that could be diverted to non-airport uses.

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions**1. Wage Rate Requirements**

Compliance Requirements The Wage Rate Requirements are applicable to construction work for airport development projects (49 USC 47112).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Revenue Diversion

Compliance Requirements The basic requirement for use of airport revenues is that all revenues generated by a public airport must be expended for the capital or operating costs of the airport, the local airport system, or other local facilities that are owned or operated by the owner or operator of the airport and are directly and substantially related to the actual air transportation of passengers or property. The limitation on the use of revenue generated by the airport shall not apply if the governing statutes controlling the owner's or operator's financing, that was in effect before September 3, 1982, provided for the use of any revenue from the airport to support not only the airport but also the airport owner's or operator's general debt obligations or other facilities (49 USC 47107(b)). *Policies and Procedures Concerning the Generation and Use of Airport Revenue*, issued February 16, 1999 (64 FR 7695), contains definitions of airport revenue and unlawful revenue diversion; provides examples of airport revenue; and describes permitted and prohibited uses of airport revenue. The policy can be obtained from FAA's Airports *Federal Register* Notices page ([Federal Register Notices \(FRNs\) for Airport Programs \(faa.gov\)](https://www.faa.gov/airports/airports-federal-register-notices)).

Penalties imposed for revenue diversion may be up to three times the amount of the revenues that are used in violation of the requirement (49 USC 46301(a)(3)).

Audit Objectives Determine whether the airport revenues were used for required or permitted purposes.

Suggested Audit Procedures

- a. Review the policy for using airport revenue.
- b. Perform tests of airport revenue generating activities (e.g., passenger facilities charges, leases, and telephone contracts) to ascertain that all airport-generated revenue is accounted for.
- c. Test expenditures of airport revenue to verify that airport revenue is used for permitted purposes.
- d. Perform tests of transactions to ascertain that payments from airport revenues to the sponsors, related parties, or other governmental entities are airport-related, properly documented, and are commensurate with the services or products received by the airport.
- e. Perform tests to ensure that indirect costs charged to the airport from the sponsor's cost allocation plan were allocated in accordance with the FAA policy on cost allocation.

IV. OTHER INFORMATION

The Federal Aviation Reauthorization Act of 1996, Section 805 (49 USC 47107(l)) requires public agencies that are subject to the Single Audit Act Amendments of 1996 (Act) that have received federal financial assistance for airports to include as part of their single audit a review and opinion of the public agency's funding activities with respect to their airport or local airport revenue system. In the February 16, 1999, *Federal Register* (64 FR 7675), the FAA issued a notice titled *Policy and Procedures Concerning the Use of Airport Revenue*. This notice provides that the opinion required by 49 USC 47107(l) is only required when the Airport Improvement Program is audited as major program under 2 CFR Part 200, Subpart F, and that the auditor reporting requirements of 2 CFR Part 200, Subpart F, satisfy the opinion requirement. However, the notice provides that the AIP may be selected as a major program based upon either the risk-based approach prescribed in 2 CFR section 200.518, or the FAA designating the AIP as a major program under 2 CFR section 200.503(e).

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.205 HIGHWAY PLANNING AND CONSTRUCTION (Federal-Aid Highway Program)

I. PROGRAM OBJECTIVES

The purpose of the Federal-Aid Highway Program is to assist the states in providing for construction, preservation, and improvement of highways and bridges on eligible Federal-Aid routes, (including the National Highway System (NHS) - an integrated, interconnected transportation system important to interstate commerce and travel), and for other special purpose programs and projects. This program also provides for the construction and improvement of highways in the District of Columbia, Puerto Rico, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and the U.S. Virgin Islands. The Infrastructure Investment and Jobs Act (IIJA) also known as the Bipartisan Infrastructure Law (BIL) is a once-in-a-generation investment in infrastructure that will help grow the economy, enhance U.S. competitiveness, create jobs, and build safe, resilient, and equitable transportation future. It was determined that dividing the Highway Planning and Construction Cluster into separate compliance supplements would be more beneficial for auditing purposes. The IIJA includes additional complex requirements that would affect the single audit since each program has unique requirements. BIL provides the basis for the Federal Highway Administration (FHWA) programs and activities through September 30, 2026. It makes an investment of \$350 billion in highway programs. This includes the largest dedicated bridge investment since the construction of the Interstate Highway System. New programs under the BIL focus on key infrastructure priorities including rehabilitating bridges in critical need of repair, reducing carbon emissions, increasing system resilience, removing barriers to connecting communities, and improving mobility and access to economic opportunity. BIL also continues to focus the program on safety and performance-based investment and on accelerating project delivery through expedited environmental review and elimination of duplicate processes.

II. PROGRAM PROCEDURES

Federal-aid highway funds are generally apportioned by statutory formulas to the states and generally restricted to use on Federal-aid highways (i.e., roads open to the public and not functionally classified as local or rural minor collector roads). Exceptions to the use on Federal-aid highways include (1) planning and research activities; (2) bridge and safety improvements, which may be on any public road; (3) highway safety improvement projects, bicycle and pedestrian projects, transportation alternatives, and recreational trails projects, which may be located along any road or off road; and (4) projects funded under the Federal Lands and Tribal Transportation Program (FLTTP). Some limited categories of funds may be granted directly to other state agencies, tribal governments, or Local Public Agencies (LPAs), such as cities, counties, MPOs, and other political subdivisions. Funds may also be passed through such agencies, but the direct recipient retains overall stewardship responsibility.

While each project approved by FHWA may have individual categories of allowable activities, in general this program's funds may be used for the following:

1. surveying;
2. engineering studies and design;
3. environmental studies;
4. right-of-way acquisition and relocation assistance;
5. capital improvements classified as new construction or reconstruction;
6. improvements for functional, geometric, or safety reasons;
7. 4R projects (restoration, rehabilitation, resurfacing, and reconstruction);
8. preservation;
9. planning; research, development, and technology transfer;
10. intelligent transportation systems projects;
11. roadside beautification;
12. vegetation management;
13. wetland and natural habitat mitigation;
14. traffic management and control improvements;
15. improvements necessary to accommodate other transportation modes;
16. development and establishment of transportation management systems;
17. billboard removal;
18. fringe and corridor parking;
19. car pool and van pool projects;
20. historic preservation and rehabilitation of historic transportation facilities;
21. scenic and historic highway improvements;
22. inspection and evaluation of bridges, tunnels, and other highway assets;
23. asset management;
24. construction of ferry boats, ferry terminal facilities, and approaches to such facilities;
25. highway safety improvement projects;
26. bicycle and pedestrian projects; and
27. workforce development, training, and education.

These funds generally cannot be used for routine highway operational activities, such as police patrols, mowing, snow plowing, or maintenance, unless it is preventative maintenance.

Also, certain authorizations (e.g., National Highway Performance Program (NHPP), Surface Transportation Block Grant (STBG) program, or Congestion Mitigation and Air Quality (CMAQ) Improvement program) may be used for improvements to transit. CMAQ funds are for transportation projects and programs in air quality, nonattainment and maintenance areas for ozone, carbon monoxide, and particulate matter, which reduce transportation related emissions, though provision is made for states without air quality issues.

Projects in urban areas of 50,000 or more population must be based on a transportation planning process, carried out by the MPOs in cooperation with the state and transit operators, and be included in the metropolitan long-range plan and the Transportation Improvement Program for the area. Projects in nonmetropolitan areas of a state must be consistent with the state's transportation plan. All federal-aid projects must also be included in the approved Statewide Transportation Improvement Program (STIP) developed as part of the required statewide transportation planning process. FHWA and Federal Transit Administration (FTA) must approve the STIP jointly.

Prior to fiscal year (FY) 2013, the Appalachian Development Highway System (ADHS) was a cost-to-complete program (i.e., funding was provided over time to complete the approved initial construction/upgrading of the system) authorized by Section 201 of the Appalachian Regional Development Act of 1965. The Moving Ahead for Progress in the 21st Century Act (MAP-21) (Pub. L. No. 112-141) did not provide dedicated funding for the ADHS but did make ADHS activities eligible under the NHPP and STBG programs. The Fixing America's Surface Transportation (FAST) Act (Pub. L. No. 114-94) provided states through FY 2050 the authority to select a state share of up to 100 percent for the cost of constructing highways and access roads on the ADHS. The Appalachian Regional Commission (ARC) has programmatic oversight responsibilities, which include approval of the location of the corridors and of state-generated estimates of the cost to complete the ADHS. The FHWA has project-level oversight responsibilities for the ADHS program. If the location, scope, and character of proposed ADHS projects are in agreement with the latest approved cost-to-complete estimate and all state requirements have been satisfied, FHWA authorizes the work with the ADHS, STBG, and/or NHPP funds. FHWA provides oversight for the design and construction of the ADHS (23 USC 106(g)(5)(B)).

Source of Governing Requirements

The primary sources of program requirements are 23 USC (Highways). Implementing regulations are found in 23 CFR (Highways) and 49 CFR (Transportation). The ADHS program requirements are found in 40 USC (Public Building, Property, And Works).

Availability of Other Program Information

FHWA program laws, regulations, and other general information can be found at <http://www.fhwa.dot.gov/>, [Bipartisan Infrastructure Law](#), [Legislation, Regulations and Guidance - Resources | Federal Highway Administration \(dot.gov\)](#).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, "Matrix of Compliance Requirements"), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a "Y" in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as "N," it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an "N". See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	N	Y	Y

A. Activities Allowed or Unallowed

Federal funds can be used for administrative settlement costs incurred in defending contract claim proceedings before arbitration boards or state courts only if approved by FHWA for state-aid projects. If special counsel is used, it must be recommended by the State Attorney or State Department of Transportation (State DOT) legal counsel and approved in advance by FHWA (23 CFR section 140.505).

ADHS funds may be used only for work included in the ADHS cost estimate approved by the ARC (40 USC 14501).

F. Equipment and Real Property Management

For equipment, States will use State procedures in accordance with 2 CFR 200.313. Subrecipients shall follow such policies and procedures allowed by the State with respect to the use, management and disposal of equipment acquired under a Federal award in accordance with 2 CFR 1201.313.

The state and LPA subrecipients shall charge at a minimum, fair market value for the sale, use, lease, or lease renewal of real property acquired with federal highway funds. The state or LPA shall use such income for projects eligible under 23 USC. Exceptions may be granted to allow use for social, environmental, or economic purposes (23 USC 156). Tribal governments are not subject to 23 USC 156 and fall under tribal self-governance provisions and 2 CFR Part 200.

A state may use other public land acquisition organizations or private consultants to carry out the state’s authorities under 23 CFR section 710.201 in accordance with a written agreement (23 CFR section 710.201(g)).

Replacement of Publicly Owned Real Property

Federal funds may be used to reimburse the reasonable costs actually incurred for the functional replacement of publicly owned and publicly used real property provided that

FHWA concurs that it is in the public interest. The cost of increases in capacity and other betterments are not eligible except (1) if necessary to replace utilities; (2) to meet legal, regulatory, or similar requirements; or (3) to meet reasonable prevailing standards for the type of facility being replaced (23 CFR section 710.509).

Federal funds may be used to reimburse the reasonable costs actually incurred for the functional replacement of publicly owned and publicly used real property provided that FHWA concurs that it is in the public interest. The cost of increases in capacity and other betterments are not eligible except (1) if necessary, to replace utilities; (2) to meet legal, regulatory, or similar requirements; or (3) to meet reasonable prevailing standards for the type of facility being replaced (23 CFR section 710.509).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. A recipient's matching share for a project may be credited by FHWA- approved toll revenues used to build or improve highways, bridges, and tunnels (23 USC 120(i)).
- b. Donations of funds, materials, and services by a person or local government may be credited towards a recipient's matching share. Donated materials and services must meet the eligibility requirements of the project (23 USC 323(c)) and 2 CFR 200.306.

The value of land provided by recipients or subrecipients for highway purposes is eligible for a credit towards the non-Federal share of project costs. The value of the donated land shall not include any increase or decrease in value of donated land caused by the project. The value of donated land shall be based on the fair market value of the land, established as of the earlier of (1) the date on which the donation becomes effective, or (2) the date on which equitable title to the land vests in the State. Real property acquired with State funds and required for federally-assisted projects may be credited toward the non-Federal share of project costs (23 USC 323(b); 23 CFR section 710.507).

- c. For Transportation Enhancement (TE) projects, funds from Federal agencies (except U.S. DOT) may be credited toward the non-Federal share of the cost of a project. The value of other non-cash contributions may be credited toward the non-Federal share. The non-Federal share may be calculated on a project, multiple-project, or program-wide basis. The total cost of an individual project may be funded with up to 100 percent Federal funds; however, for a fiscal year, the ratio of Federal funds to non-Federal funds for all TE funded projects must comply with the maximum Federal share provisions in 23 USC 120(b). FHWA guidance on these provisions is available at http://www.fhwa.dot.gov/environment/transportation_enhancements/gui

[dance/](#).

- d. For projects funded under 23 USC or 49 USC Chapter 53, any Federal funds (except for funds available under 23 USC and 49 USC) may be used to pay the non-Federal share of any transportation project that is within, adjacent to, or provides access to Federal land (23 USC 120(j)).
- e. FLTTP funds may be used to pay the non-Federal share of projects which provide access to or within Federal or Indian lands which are funded under 23 USC or 49 USC Chapter 53 (23 USC 120(k)).
- f. Any cost in excess of 20 percent of the cost of the replacement or rehabilitation of a bridge not on a Federal-aid highway that is wholly funded with State and local funds may be used to meet the matching share requirement of projects funded under 23 USC 133 (23 USC 133(f)(3)).

2. **Level of Effort** – Not Applicable

3. **Earmarking** – Not Applicable

I. **Procurement and Suspension and Debarment**

Administration of Contracts for Construction

In general, recipients and subrecipients must award construction contracts on the basis of the lowest responsive bid submitted by a bidder meeting the contracting agency's criteria for responsibility. Competitive bidding is required unless the contracting agency is able to demonstrate to FHWA that some other method is more cost effective or that an emergency exists (23 USC 112(b)(1); 23 CFR sections 635.104 and 635.114), Contracting agencies also may procure construction services through competitive proposals by using design-build contracts (23 USC 112(b)(3); 23 CFR Part 636) or construction manager/general contractor contracts (23 USC 112(b)(4)).

For construction contracts, bidding documents must be advertised for at least three weeks, unless a shorter period is justified in the project files. Recipients may not negotiate with the potential contractors during the time between bid opening and contract award (such negotiations would be noted in the contract files). Awards must be made to the lowest responsible bidder. If the award was made to a bidder other than the low bidder, then the project files must contain justification (23 CFR sections 635.112(b), 635.113, and 635.114).

Administration of Contracts for Engineering and Design-Related Services

In general, state DOTs and LPAs must use qualifications-based selection procedures (Brooks Act) when acting as contracting agencies to procure engineering and design-related services from consultants and sub-consultants for projects using federal highway

funds (23 USC 112(b)(2); 23 CFR Part 172). Requirements applicable to engineering and design-related services contracts include:

- a. Contracting agencies (state DOTs and LPAs) must have written policies and procedures for each method of procurement used to procure engineering and design services. State DOT policies and procedures, or recipient LPA policies and procedures, must be approved by FHWA. LPAs that are subrecipients may adopt written policies and procedures prescribed by the awarding State DOT or prepare and maintain their own written policies and procedures approved by the State DOT (23 CFR section 172.5(b)).
- b. Contracting agencies (state DOTs and LPAs) are required to accept the indirect cost rates for consultants and sub-consultants that have been established by a cognizant agency in accordance with the Federal Acquisition Regulation (48 CFR Part 31) for one-year applicable accounting periods if such rates are not currently under dispute. Consultants and sub-consultants providing engineering and design-related services contracts must certify to contracting agencies that costs used to establish indirect cost rates are in compliance with the applicable cost principles contained in the Federal Acquisition Regulation (48 CFR Part 31) by submitting a “Certificate of Final Indirect Costs” (23 USC 112(b)(2)(C); 23 CFR section 172.11(c)(3)).
- c. Contracts for a consultant to act in a management support role on behalf of a contracting agency or subrecipient for engineering or design related services must be approved by FHWA before the consultant is hired unless an alternative approval procedure has been approved by FHWA (23 CFR section 172.7(b)(5)).

N. Special Tests and Provisions

1. Wage Rate Requirements

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. Quality Assurance Program

Compliance Requirements A State DOT or LPA must have a quality assurance (QA) program, approved by FHWA, for construction projects on the NHS to ensure that materials and workmanship conform to approved plans and specifications. Verification sampling must be performed by qualified testing personnel employed by the State DOT, or by its designated agent, excluding the contractor (23 CFR sections 637.201, 637.205, 637.207, and 637.209).

Audit Objectives Determine whether the recipient or subrecipient are following a QA program approved by FHWA.

Suggested Audit Procedures

- a. Obtain an understanding of the recipient’s QA program.

- b. Verify that the QA program has been approved by FHWA.
- c. Review documentation of test results on a sample basis to verify that proper tests are being taken in accordance with the QA program.
- d. Verify that verification sampling activities are performed by qualified testing personnel employed by the agency, or by its designated agent, excluding the contractor.

3. Contractor Recoveries

Compliance Requirements When a State recovers funds from highway contractors for project overcharges due to bid-rigging, fraud, or anti-trust violations or otherwise recovers compensatory damages, the state-aid project involved shall be credited with the state share of such recoveries (Tennessee v. Dole 749 F.2d 331 (6th Cir. 1984); 57 Comp. Gen. 577 (1978); 47 Comp. Gen. 309 (1967)).

Audit Objectives Determine whether the proper credit was made to the state share of a project when recoveries of funds are made.

Suggested Audit Procedures

- a. Determine the extent to which the state has recovered overcharges and other compensatory damages on state-aid projects through appropriate interviews and a review of legal, claim, and cash receipt records.
- b. Review a sample of cash receipts and verify that appropriate credit is reflected in billings to the federal government.

4. Value Engineering

Compliance Requirements Recipients are required to establish a value engineering (VE) program and ensure that a VE analysis is performed on all applicable projects. The program should include procedures to approve or reject recommendations and for monitoring to ensure that resulting, approved recommendations are incorporated into the plans, specifications, and estimate. Applicable projects are (a) projects located on the NHS with an estimated total project cost of \$50 million or more that utilize federal highway program funding; (b) bridge projects located on the NHS with an estimated total cost of \$40 million or more that utilize federal highway program funding; and (c) any other projects that the FHWA determines to be appropriate. Projects utilizing the design-build method of construction do not require a VE analysis (23 USC 106(e)(5)). Critical elements of VE programs include identification of a state VE coordinator; establishment of a VE policy, and documented VE procedures, including requirements to identify applicable projects, verify required VE analyses are completed on State DOT and subrecipient projects; and monitor, assess, and report on the performance of the VE program (23 USC 106(e); 23 CFR Part 627).

Audit Objectives Determine whether established VE programs include VE policies and procedures, documented analyses conducted for applicable projects, evaluations of VE recommendations, and incorporation of approved recommendations into the plans, specifications, and estimate for the project.

Suggested Audit Procedures

- a. Verify that the State DOT established a VE program in accordance with state requirements.
- b. Review a sample of applicable projects to ensure that a VE analysis was conducted, recommendations were evaluated, and approved recommendations were incorporated into the design of the project, and that the results of the analysis and recommendations implemented were documented in accordance with the established VE program's policies and procedures.

5. Utilities

Compliance Requirements Recipients are required to develop policies and procedures pertaining to the use, accommodation and/or relocation of public and private utility facilities on highway rights-of way using federal highway funds. Recipients are required to develop, maintain, and obtain FHWA approval of their Utility Accommodation Policy (UAP) (23 CFR section 645.215). Expenses incurred for relocating utility facilities necessitated by highway construction projects using federal highway program funds are eligible for reimbursement from FHWA provided these costs were incurred in a manner consistent with state laws or FHWA regulations, whichever is more restrictive (23 CFR section 645.103(d)).

Plan, specification and estimate (PS&E) packages for projects using federal highway program funds must have a utility agreement or statement verifying the appropriate coordination with all utilities on the project occurred prior to FHWA construction authorization. Each agreement or statement should specify that the utility use and occupancy of the right-of-way or any required utility work will be completed prior to the highway construction, or there were conditions specified allowing for the utility work to be coordinated with and completed in coordination with the highway construction schedule (23 CFR section 635.309(b)).

Utility agreements, permits, and supporting documentation define the conditions and provisions for accomplishing and reimbursing utility companies for utility relocation work that was required due to a federal highway program funded project. The agreements and supporting documentation, and the state requirements they reference, require that:

- a. There must be itemized cost estimates for the proposed utility work (23 CFR section 645.113(c));
- b. The utility agreement was approved prior to the utility incurring any costs or conducting any work that would be eligible for reimbursement (23 CFR section 645.113(g)(3));

- c. Reimbursement of utility costs will occur after the work is completed (23 CFR section 645.107(a));
- d. The utility incurred the costs and billings submitted verifying the work was completed in accordance with the utility agreement (23 CFR section 645.113(a-f) and 23 CFR section 645.117); and
- e. Billed costs were eligible for reimbursement (23 CFR section 645.117).

Audit Objectives Determine whether the agreements, supporting documentation, and reimbursement for the adjustment and/or relocation of utility facilities on state-aid highway projects were accomplished in a manner which complies with state laws and FHWA regulations.

Suggested Audit Procedures

- a. Verify that the State DOT has a current UAP approved by FHWA.
- b. Review a sample of PS&E packages on projects using federal highway program funds to verify that there is a utility agreement or statement confirming that the appropriate coordination with all utilities on the project has occurred prior to FHWA construction authorization.
- c. Review a sample of utility agreements and supporting documentation to verify required supporting material was prepared and that costs reimbursed met the requirements of the agreements.

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.218 MOTOR CARRIER SAFETY ASSISTANCE PROGRAM

ASSISTANCE LISTING 20.237 HIGH PRIORITY GRANT PROGRAM

I. PROGRAM OBJECTIVES

The Federal Motor Carrier Safety Assistance (FMCSA) program, Motor Carrier Safety Assistance Program (MCSAP), and High Priority (HP) grant program share the same objectives to support a safe and efficient surface transportation system. They include:

- Making targeted investments to promote safe commercial motor vehicle (CMV) transportation, including the transportation of passengers and hazardous materials;
- Investing in activities likely to generate maximum reductions in the number and severity of CMV crashes and fatalities resulting from such crashes;
- Adopting and enforcing effective motor carrier, CMV, and driver safety regulations and practices consistent with federal requirements; and
- Assessing and improving statewide performance by setting program goals and meeting performance standards, measures, and benchmarks.

While MCSAP and HP grants share the same objectives, some eligible activities and costs differ. Chapters in the MCSAP Comprehensive Policy provide program-specific policy (including cost eligibility) and technical assistance when administering both MCSAP and HP grant programs. Within the HP grant program, the Fixing America's Surface Transportation (FAST) Act established the Innovative Technology Deployment (ITD) program which has goals and objectives that differ from traditional MCSAP activities. However, the ITD program was integrated into HP and MCSAP (for operations and maintenance) to support activities and information technology enhancement that complement and enhance CMV and motor carrier enforcement activities.

II. PROGRAM PROCEDURES

FMCSA developed an electronic commercial vehicle safety plan (CVSP) development tool (called eCVSP) available at [eCVSP Login \(dot.gov\)](#). The eCVSP software application allows a MCSAP lead agency to create an online CVSP and track the progress of CVSP development through to approval. Use of the eCVSP helps ensure that states satisfy the requirements in 49 CFR 350.213, expedites FMCSA's review of the document, facilitates the prompt returning of comments or requests for clarification, and allows the MCSAP lead agency to easily resubmit a revised document.

In accordance with 49 USC 31102(i) and grant/financial management requirements in 2 CFR Part 200, each CVSP receives a fair, equitable and objective review prior to award approval. This review ensures that applicable statutory and regulatory requirements will be met and allowable

CVSP projects and activities will succeed. The CVSP review process generally consists of a review in the following areas:

1. *Application Review.* The FMCSA reviews the CVSP and all supplemental attachments (e.g., forms and certifications) for completeness and to ensure that the MCSAP lead agency meets the basic eligibility requirements defined in the Notice of Funding Opportunity (NOFA).
2. *Programmatic Review.* The FMCSA review the CVSP to make sure that the information presented is reasonable and understandable and the activities proposed in the application are measurable, achievable, and consistent with program or legislative requirements.
3. *Financial Review.* The FMCSA evaluates the fiscal integrity and financial capability of a MCSAP lead agency, and reviews the CVSP details, including the budget and budget narrative, and any other documentation to examine costs for proposed project/program activities to determine if are they appear reasonable, necessary, eligible and allowable for award. Note that approval of the CVSP is not a final approval of costs as defined in accordance with 2 CFR Part 200 Subpart E.
4. *Suitability Review.* In accordance with [2 CFR section 200.205](#) the suitability review is discussed in more detail in the MCSAP Comprehensive Policy. The FMCSA evaluates the CVSP against the performance-based information required in accordance with [49 CFR section 350.213](#).

Source of Governing Requirements

The MCSAP grant program is authorized by the Fixing America's Surface Transportation Act, Pub. L. No. 114-94, sections 5101(a) and 5101(c) (2015). The MCSAP is governed by 49 USC 31102 and 31104, and by 49 CFR section 350, as applicable.

The HP grant program is authorized by the Fixing America's Surface Transportation Act, Pub. L. No. 114-94, sections 5101(a) and 5101(c) (2015). HP grants are governed by 49 USC 31102(l) and 31104, and by 49 CFR section 350, as applicable.

Availability of Other Program Information

Additional information about the programs may be found on the FMCSA website at <https://www.fmcsa.dot.gov/mission/grants>. Program policy guidance for the MCSAP and HP programs may be found at <https://www.fmcsa.dot.gov/mission/grants/motor-carrier-safety-assistance-program-grant-comprehensive-policy>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	Y	N	Y	Y	N	N

A. Activities Allowed or Unallowed

The primary MCSAP activities eligible for reimbursement include the National Program Elements currently outlined in 49 CFR section 350.203:

1. Driver and Vehicle Inspections
2. Traffic Enforcement
3. Compliance Reviews, Carrier Interventions, Investigations, and New Entrant Safety Audits
4. Public Education and Awareness
5. Data Collection

In addition, 49 CFR section 350.227 lists other activities eligible for reimbursement under the MCSAP. In addition, the FAST Act added other CMV safety activities that are eligible under MCSAP. These include:

- a. Border enforcement safety activities (inspections, traffic enforcement, etc.)
- b. Performance and Registration Information Systems Management (PRISM)
- c. Innovative Technology Deployment (ITD) (operations and maintenance only)

The state must ensure that these activities, if financed through MCSAP funds, will not diminish the effectiveness of the development and implementation of the programs to improve motor carrier, CMV, and driver safety.

These other activities also include:

- Sanitary food transportation inspections performed under 49 USC 5701.
- The following activities, when carried out in conjunction with an appropriate North American Standard (NAS) inspection of a CMV and inspection report.
- Enforcement of CMV size and weight limitations at locations, excluding fixed-weight facilities, such as near steep grades or mountainous terrains, where the weight of a CMV can significantly affect the safe operation of the vehicle, or at ports where intermodal shipping containers enter and leave the United States.
- Detection of and enforcement actions taken as a result of criminal activity, including trafficking of human beings, in a CMV or by any occupant, including the operator, of the CMV.

F. Equipment and Real Property Management

1. Equipment Management Requirements for Subrecipients of States

Notwithstanding 2 CFR section 200.313, subrecipients of states shall follow such policies and procedures allowed by the state with respect to the use, management and disposal of equipment acquired under a DOT award (2 CFR section 1201.313).

G. Matching, Level of Effort, Earmarking

1. Matching

The FAST Act sets minimum matching requirements for each grant program. Matching means the portion of project costs not paid by federal funds. For example, FMCSA grant programs require that FMCSA reimburse 85 percent of eligible project costs, while the recipient provides the remaining 15 percent share.

After award, recipients must document all expenditures relating to cost sharing or matching in the same manner as those for the federal grant funds. Every item must be verifiable (i.e., tracked and documented) and any claimed cost share expense can only be counted once. In addition, a cost sharing or matching

requirement may not be met by costs borne by another federal grant except as provided by federal statute. The FAST Act allows FMCSA to modify the federal share of a grant program from the standard 85/15 threshold (85 percent federal, 15 percent recipient share). FMCSA may opt to offer 100 percent federal financial assistance for a specific project(s) and/or priorities within a grant program. Other projects funded at 100 percent federal share may be announced in the NOFA as a National Priority and are at the discretion of FMCSA.

The value of third party in-kind contributions may be accepted as the match. The use of third party in-kind contributions should be identified in the grant/sub-grant agreement, or amendments thereto, and approved by FMCSA. The use of in-kind contributions may not be made retroactive prior to approval of the work program or an amendment thereto. Recipient (or subrecipients) should be aware that they are responsible for ensuring that the following additional criteria are met:

- The third party performing the work must agree to allow the value of the work to be used as the match;
- The cost of the third party work must not be borne by other federal funds or be used as a match for other federally funded grants/sub-grants;
- The work performed by the third party must be an eligible activity that benefits the federally funded work and must be identified in the work program;
- The third party costs (e.g., salaries, fringe benefits) must be allowable under 2 CFR section 200, Subpart E – Cost Principles;
- The third party work must be performed during the period to which the matching requirement applies; and
- The third party in-kind contributions must be verifiable from the records of the recipient or subrecipient and these records must show how the value placed on third party in kind contributions was derived.

2. Level of Effort

The MCSAP lead agency must maintain a certain level of expenditure, in addition to the required 15 percent matching share of a MCSAP grant. This financial requirement is known as maintenance of effort (MOE) or level of effort. The purpose of the MOE is to ensure that MCSAP lead agencies are committed to maintaining their own state funded CMV safety programs, notwithstanding federal funding.

A MCSAP lead agency must maintain within each federal fiscal year a level of effort that is at least equal to the average of what the MCSAP lead agency spent on MCSAP eligible activities in fiscal year (FY) 2004 and FY 2005.

Expenditures of other state agencies, local agencies, or sub-grantees (whether supported by MCSAP grant funds or not), other federal funds, and MCSAP lead agency matching funds are not to be included in the MOE calculation.

A change in the MCSAP lead agency does not negate the MOE requirement because the state funding for these efforts also transitioned to the new state lead agency. The concept of “successor in interest” applies. Thus, no state may have a zero MOE simply because the MCSAP lead agency is different in a current year than it was in FYs 2004 and 2005, and the successor agency must meet the MOE requirements established by the FY 2004 and FY 2005 baseline.

Because non-CMV and CMV traffic enforcement activities without an inspection were not authorized until the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was enacted in late FY 2005, MCSAP lead agencies are not to include these expenditures in calculating the MOE baseline. MCSAP lead agencies may, however, include documented non-CMV traffic enforcement and other new efforts and initiatives they have implemented since FYs 2004 and 2005 to meet the annual MOE obligation.

The MCSAP lead agency must retain the documentation used to calculate the MOE average for audit purposes. In the absence of records, a reasonable estimate, based upon available information should be submitted to FMCSA for review and approval. MCSAP lead agencies must self-certify (per [49 CFR sections 350.211](#) and [350.213](#)) that the calculated MOE will be met each fiscal year and reflect their MOE in their CVSP. The state must annually submit its MOE substantiation document to FMCSA to support the actual expenditures during the fiscal year.

3. Earmarking

Not Applicable

H. Period of Performance

The notice of grant award (NGA) contains the grant agreement’s period of performance. The NGA period of performance means the time during which the grant recipient may incur obligations to carry out the work authorized under the grant agreement. The FMCSA may establish a shorter, but not longer, grant agreement period of performance than what the statutory availability of funds timeframe allows. All allowable periods of performance are located in 49 USC 31104(f), as amended by the FAST Act.

J. Program Income

Notwithstanding 2 CFR section 200.80, except as otherwise provided in federal statutes, regulations, or the terms and conditions of the federal award, program income also does not include taxes, special assessments, levies, and fines raised by a grantee and subgrantee, and interest earned on any of them. Please see 2 CFR 200.307 (f) 2 CFR 200.77 (period of performance) and 2 CFR 200.407 (prior written approval).

L. Reporting

1. Financial Reporting

The FMCSA will not reimburse recipients from a grant for an amount that is more than the government share of costs incurred as of the date of the voucher. This signifies that recipients are limited in the percentage of costs per voucher, not per grant. For example, states are limited to 85 percent reimbursement under MCSAP. Because FMCSA's reimbursement requirement is incurred by the date of each voucher, the state must meet the matching share requirement, for example 15 percent per voucher.

- a. *SF-270, Request for Advance or Reimbursement* – Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Program* – Not Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

The FMCSA requires recipients to provide performance progress and financial reports as a condition of the grant agreement. These reports help FMCSA monitor recipient progress towards the project objectives and provide an important measure of accountability for the recipient. The FMCSA has standardized the information required in the performance report; however, at a minimum, each performance report must contain the following information:

- a. An account of significant progress (findings, events, trends, etc.) made during the reporting period;
- b. A description of any technical and/or cost problem(s) encountered or anticipated that will affect completion of the grant within the time and fiscal constraints as set forth in this agreement, together with recommended solutions or corrective action plans (with dates) to such problems, or identification of specific action that is required by the FMCSA, or a statement that no problems were encountered;
- c. An outline of work and activities planned for the next reporting period; and

- d. Provide status update/resolution for all outstanding findings from program reviews and/or audits.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.219 RECREATIONAL TRAILS PROGRAM

I. PROGRAM OBJECTIVES

The Recreational Trails Program (RTP) was formerly part of the Highway Planning and Construction Cluster. For the 2023 Compliance Supplement, it was determined that separating the Highway Planning and Construction Cluster into separate compliance supplements would be more beneficial for auditing purposes.

The [Infrastructure Investment and Jobs Act](#) (IIJA) (Public Law 117-58), also known as the Bipartisan Infrastructure Law (BIL) includes additional complex requirements that would affect the single audit since each program has unique requirements. This compliance supplement has been updated to provide more details specific to the RTP. It removes generalized Highway funding explanations and replaces it with specific RTP definitions and requirements. The RTP provides funds to the States to develop and maintain recreational trails and trail-related facilities for both nonmotorized and motorized recreational trail uses. Funds from this program may be used for: (1) maintenance and restoration of existing trails; (2) development and rehabilitation of trailside and trailhead facilities and trail linkages; (3) purchase and lease of trail construction and maintenance equipment; (4) construction of new trails (with restrictions for new trails on Federal lands); (5) acquisition of easements or property for trails or trail corridors; (6) assessment of trail conditions for accessibility and maintenance; (7) development and dissemination of publications and operation of educational programs to promote safety and environmental protection (as those objectives relate to one or more of the use of recreational trails, supporting non-law enforcement trail safety and trail use monitoring patrol programs, and providing trail-related training), (limited to 5 percent of a State's funds); and (8) State administrative costs related to this program (limited to 7 percent of a State's funds). Funds may not be used for: property condemnation; constructing new trails for motorized use on National Forest or Bureau of Land Management lands unless the project is consistent with resource management plans; or facilitating motorized access on otherwise nonmotorized trails. The United States Department of Transportation (USDOT) encourages States to enter into contracts and cooperative agreements with qualified youth conservation or service corps to perform construction and maintenance of recreational trails under this program.

The RTP is a Federal-aid assistance program to help the States provide and maintain recreational trails for both motorized and nonmotorized recreational trail use. The program provides funds for all kinds of recreational trail uses, such as pedestrian uses (hiking, running, wheelchair use), bicycling, in-line skating, equestrian use, cross-country skiing, snowmobiling, off-road motorcycling, all-terrain vehicle riding, four-wheel driving, or using other off-road motorized vehicles. Each State develops its own procedures to solicit projects from project sponsors, and to select projects for funding, in response to recreational trail needs within the State.

Many trails provide both a recreational and transportation purpose. RTP funds may be used on any trail which provides recreation. Using RTP funds on a trail project does not make the trail ineligible for other Federal highway funds if the trail also provides a transportation purpose.

Any project eligible under the RTP is eligible under the Transportation Alternatives (TA) Set-Aside (23 U.S.C. 133(h)) and under the Surface Transportation Block Grant Program (23 U.S.C. 133(b)(7)). Recreational trails also may be eligible under other Federal surface transportation programs, see [Pedestrian and Bicycle Funding Opportunities](#).

II. PROGRAM PROCEDURES

Federal-aid highway funds are generally apportioned by statutory formulas to the States. For the RTP, funds are apportioned as a set-aside of the TA Set-Aside from the Surface Transportation Block Grant. The funds pass through the State Department of Transportation, but most States administer the RTP through a State natural resource, parks, or grant management agency, see https://www.fhwa.dot.gov/environment/recreational_trails/rtpstate.cfm for contacts.

The BIL continued the RTP as a set-aside under the Transportation Alternatives (TA) Set-Aside. 23 U.S.C. 133(h)(5). Unless the Governor of the State opts out 30 days in advance of an apportionment for any fiscal year, an amount equal to the State's FY 2009 RTP apportionment is set aside from the State's TA Set-Aside funds for recreational trails projects. (23 U.S.C. 133(h)(5) and (6)(A)). All RTP provisions and requirements continue under 23 U.S.C. 206. See [RTP Guidance and Information](#).

For the RTP set-aside, the Governor designates the State agency or agencies to administer the program (23 U.S.C. 206(c)(1)). This remains the same agency or agencies previously designated by the Governor (for most States, a State resource agency or grant agency, or the State Department of Transportation, unless the Governor designates a new agency (23 U.S.C. 206(c)(1)). If an agency other than the State DOT administers the RTP, then the State should have (or develop) a Stewardship and Oversight Plan between the State DOT and other State agency to outline the roles and responsibilities of each State agency. Under 23 U.S.C. 133(h)(5), if continuing the RTP:

- Each State shall obligate an amount of funds reserved under 23 U.S.C. 133(h) (the TA Set-Aside) equal to the amount of the funds apportioned to the State for FY 2009 under 23 U.S.C. 104(h)(2), as in effect on the day before enactment of MAP-21, for projects relating to recreational trails under 23 U.S.C. 206. (23 U.S.C. 133(h)(5)(A)). See [BIL Funding Tables](#).
- Each State shall return 1 percent of those funds to the Secretary for the administration of RTP. (23 U.S.C. 133(h)(5)(B)).
- Each State shall comply with the provisions of the administration of the RTP under 23 U.S.C. 206, including the use of apportioned funds. (23 U.S.C. 133(h)(5)(C)). Therefore, all RTP provisions and requirements remain unchanged, including the requirement for 40 percent diverse recreational trail use, 30 percent motorized recreation, and 30 percent nonmotorized recreation. (23 U.S.C. 206(d)(3)(A)). (Section 206(d)(3)(B) provides an exemption from this requirement for States with land areas under 3,500,000 acres: Connecticut, Delaware, the District of Columbia, and Rhode Island.)

For a State to be eligible to use funds set aside for the RTP, the State must establish a State recreational trail advisory committee that represents both motorized and nonmotorized

recreational trail users, which shall meet not less often than once per fiscal year. If a State does not meet this requirement, it is not eligible to use RTP set-aside funds (23 U.S.C. 206(c)(2)).

Source of Governing Requirements

The primary sources of program requirements are 23 U.S.C. (Highways). Implementing regulations are found in 23 CFR (Highways) and 49 CFR (Transportation). Each State shall comply with the provisions of the administration of the RTP under 23 U.S.C. 206, including the use of apportioned funds. (23 U.S.C. 133(h)(5)(C)).

Availability of Other Program Information

Federal Highway Administration (FHWA) program laws, regulations, and other general information can be found at [Legislation, Regulations and Guidance - Resources | Federal Highway Administration \(dot.gov\)](#) and [Federal Highway Administration \(dot.gov\)](#).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this Federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	N	Y	Y

A. Activities Allowed or Unallowed

Activities allowed are listed under Program Objectives. Activities not allowed are: (1) condemnation of any kind of interest in property; (2) construction of recreational trails for motorized use on National Forest System or Bureau of Land Management lands unless designated for uses other than wilderness and consistent with agency management plans; or (3) upgrading, expanding, or otherwise facilitating motorized use or access to recreational trails predominantly used by nonmotorized recreational trail users and on which, as of May 1, 1991, motorized use was prohibited or had not occurred. 23 U.S.C. 206(g).

F. Equipment and Real Property Management

For equipment, States will use State procedures in accordance with 2 CFR 200.313(b). Subrecipients shall follow such policies and procedures allowed by the State with respect to the use, management and disposal of equipment acquired under a Federal award in accordance with 2 CFR 1201.313.

G. Matching, Level of Effort, Earmarking

1. Matching

- a. RTP Federal share and flexible match and donation provisions are authorized under 23 USC 206(f) and 206(h). Under 23 USC 206(j), funds made available for any recreational trail or related projects funded under 23 USC 104(b) are to be administered as if made available under section 206. Therefore, RTP projects funded from other STBG funds under 23 USC 133(b)(7) or 133(h) are also subject to the Federal share and flexible match and donation provisions available under 23 USC 206(f) and 206(h). See [RTP Federal Share and Matching Requirements](#) for more information.
- b. FEDERAL SHARE
 - i) IN GENERAL. Subject to the other provisions of this subsection, the Federal share of the cost of a project and the Federal share of the administrative costs of a State under this section shall be determined in accordance with section 23 USC 120(b).
 - ii) FEDERAL AGENCY PROJECT SPONSOR. Notwithstanding any other provision of law, a Federal agency that sponsors a project under this section may contribute additional Federal funds toward the cost of a project, except that—

- (1) the share attributable to the Secretary of Transportation may not exceed the amount determined in accordance with section 23 U.S.C. 120(b) for the cost of a project under this section; and
 - (2) the share attributable to the Secretary and the Federal agency sponsoring the project may not exceed 95 percent of the cost of a project under this section.
- iii) USE OF FUNDS FROM FEDERAL PROGRAMS TO PROVIDE NON-FEDERAL SHARE, Notwithstanding any other provision of law, the non-Federal share of the cost of the project may include amounts made available by the Federal Government under any Federal program that are—
- (1) expended in accordance with the requirements of the Federal program relating to activities funded and populations served; and
 - (2) expended on a project that is eligible for assistance under this section.
- iv) USE OF RECREATIONAL TRAILS PROGRAM FUNDS TO MATCH OTHER FEDERAL PROGRAM FUNDS, notwithstanding any other provision of law, funds made available under this section may be used toward the non-Federal matching share for other Federal program funds that are—
- (1) Expended in accordance with the requirements of the Federal program relating to activities funded and populations served; and
 - (2) Expended on a project that is eligible for assistance under this section.
- v) PROGRAMMATIC NON-FEDERAL SHARE. A State may allow adjustments to the non-Federal share of an individual project for a fiscal year under this section if the Federal share of the cost of all projects carried out by the State under the program (excluding projects funded under paragraph (2) or (3)) using funds apportioned to the State for the fiscal year does not exceed the Federal share as determined in accordance with section 120(b).
- c. The RTP authorizes donations of funds, materials, services, or new right-of-way that are made within 18 months prior to project authorization (23 USC 206(h)(1)).

2. Level of Effort

Not Applicable

2.1 Level of Effort – *Maintenance of Effort*

Not Applicable

2.2 Level of Effort – *Supplement Not Supplant*

Not Applicable

3. Earmarking

- a. The RTP legislation requires that States use 40 percent of their funds apportioned in a fiscal year for diverse recreational trail use, 30 percent for motorized recreation, and 30 percent for nonmotorized recreation. The 40-30-30 requirement applies to the on-the-ground trail projects and to the educational projects, but does not apply to the State administrative costs. The 40-30-30 requirement only applies to Federal funds apportioned through the RTP, not to funds from other sources. The 40-30-30 requirement affects each State's annual **apportionment**. A State does not need to meet the 40-30-30 minimums in each fiscal year's **obligations**, if some funds remain unobligated. This provision exempts Connecticut, Delaware, the District of Columbia, and Rhode Island from the requirements that they use 30 percent of their funds for motorized use and 30 percent of their funds for nonmotorized use. It does not exempt these States from the 40 percent diverse trail use requirement or from the requirement for both motorized and nonmotorized representation on the State Recreational Trail Advisory Committees. 23 U.S.C. 206(d)(3).
- b. RTP Administrative Funds are limited to “costs to the State incurred in administering the program, but in an amount not to exceed 7 percent of the apportionment made to the State for the fiscal year” (23 U.S.C. 206(d)(2)(H)). The limitation is subject to the amount necessary within a fiscal year, and does not carry over. A State cannot carry over administrative funds from Year 1 because that would increase the administrative funds available in Year 2. RTP funds obligated for administrative costs but not expended within a fiscal year must be deobligated and used for other eligible uses under 23 U.S.C. 206(d)(2)(A) through (F). (23 U.S.C. 133(h)(5)(A)).
- c. RTP Educational Funds are limited to the “development and dissemination of publications and operation of educational programs to promote safety and environmental protection, (as those objectives relate to one or more of the uses of recreational trails, supporting non-law enforcement trail safety and trail use monitoring patrol programs, and providing trail-related training), but in an amount not to exceed 5 percent of the apportionment made to the State for the fiscal year” (23 U.S.C. 206(d)(2)(G)). The limitation is subject to the amount necessary within a fiscal year, and does not carry over. RTP funds obligated for educational costs but not expended within a fiscal year must be deobligated and used for other eligible uses under 23 U.S.C. 206(d)(2)(A) through (F).

I. Procurement and Suspension and Debarment

1. In general, for RTP projects within a highway right-of-way, States and LPAs must award construction contracts on the basis of the lowest responsive bid submitted by a

bidder meeting the contracting agency's criteria for responsibility. Competitive bidding is required unless the contracting agency is able to demonstrate to FHWA that some other method is more cost effective or that an emergency exists (23 USC 112(b)(1); 23 CFR sections 635.104 and 635.114).

2. For RTP projects not within highway rights-of-way, States must use their State procedures under 2 CFR 200.317 (23 U.S.C. 133(i)), or through the use of [qualified youth service or conservation corps \(MAP-21 Section 1524\)](#).

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section. Note that, under 23 U.S.C. 133(i), recreational trail projects using funds apportioned under 23 U.S.C. 104(b) are to be administered **as if they were made available to carry out 23 U.S.C. 206.** (23 U.S.C. 206(j)). Therefore, prevailing rate of wage provisions under 23 U.S.C. 113 do not apply to recreational trails projects using funds apportioned under 23 U.S.C. 104(b).

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.223 TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION ACT (TIFIA) PROGRAM

I. PROGRAM OBJECTIVES

The objective of the Transportation Infrastructure Finance and Innovation Act (TIFIA) program is to finance surface transportation projects of national or regional significance by filling market gaps and leveraging substantial public (nonfederal) and private co-investment. TIFIA credit assistance is intended to facilitate the financing of projects that would otherwise have been significantly delayed because of funding limitations or difficulties in accessing the capital markets. Federal credit assistance is provided to eligible highways and bridges, transit, rail, intelligent transportation systems, transit-oriented development, rural infrastructure, state infrastructural banks, and intermodal freight projects, including certain projects that provide access to ports.

II. PROGRAM PROCEDURES

Public entities, or private entities with public sponsorship, seeking to finance the design and construction, or reconstruction, of eligible surface transportation projects may apply for TIFIA assistance. The program targets large projects, generally in excess of \$50 million. Some exceptions to the minimum cost requirement are (1) transit-oriented development, local, and rural projects, which have minimum project costs of at least \$10 million; and (2) intelligent transportation systems, with minimum project costs of at least \$15 million. The program offers three types of financial assistance featuring maturities up to 35 years after substantial completion of the project: secured loans, loan guarantees, and standby lines of credit. Projects must have a dedicated revenue source and be consistent with state and local transportation plans.

Source of Governing Requirements

This program is authorized by 23 USC 601 through 609. In addition, 23 USC requirements apply for highway projects, Chapter 53 of 49 USC requirements apply for transit projects, and 49 USC 5333(a) requirements apply for rail projects.

Availability of Other Program Information

Information, including program guidance and application instructions, may be found on the TIFIA website at <https://www.transportation.gov/buildamerica/financing/tifia>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance

requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.”

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	N	N	Y	N	N	N	N	Y

A. Activities Allowed or Unallowed

1. *Activities Allowed*

Highway, transit, passenger rail, certain freight facilities, certain port projects, rural infrastructure projects, transit-oriented development projects, and SIB rural projects funds may receive credit assistance through the TIFIA Program.

- Eligible highway facilities include interstates, state highways, bridges, toll roads, international bridges or tunnels, and any other type of facility eligible for grant assistance under Title 23, the highways title of the US Code (23 USC). This also includes a category specifically permitted under the TIFIA statute (i.e., a project for an international bridge or tunnel for which an international entity authorized under federal or state law is responsible).
- Eligible transit projects include the design and construction of stations, track, and other transit-related infrastructure, purchase of transit vehicles, and any other type of project that is eligible for grant assistance under the transit title of the US Code (Chapter 53 of Title 49 of the US Code), including the installation of positive train control systems. Additionally, intercity bus vehicles and facilities are eligible to receive TIFIA credit assistance.
- Rail projects involving the design and construction of intercity passenger rail facilities or the procurement of intercity passenger rail vehicles are eligible for TIFIA credit assistance.

- Public freight rail facilities, private facilities providing public benefit for highway users by way of direct freight interchange between highway and rail carriers, intermodal freight transfer facilities, projects that provide access to such facilities, and service improvements (including capital investments for intelligent transportation systems) at such facilities, are also eligible for TIFIA credit assistance. In addition, a logical series of such projects with the common objective of improving the flow of goods can be combined.
- Projects located within the boundary of a port terminal are also eligible to receive TIFIA credit assistance, so long as the project is limited to only such surface transportation infrastructure modifications as are necessary to facilitate direct intermodal interchange, transfer, and access into and out of the port.
- Eligible projects also include related transportation improvement projects grouped together in order to reach the minimum cost threshold for eligibility, so long as the individual components are eligible and the related projects are secured by a common pledge.
- Rural Project Assistance: The TIFIA statute provides two different forms of assistance to rural infrastructure projects. The Bipartisan Infrastructure Law expanded TIFIA eligibility to include capitalization of rural projects funds within SIBs, and it continued the DOT's ability to offer reduced interest rates to Rural Projects.

B. Costs Allowed or Unallowed

1. Costs Allowed

TIFIA credit assistance is available to cover only eligible project costs. A calculation of total eligible project costs is important to determine whether the project meets the eligibility test for minimum project size and whether the credit request does not exceed applicable thresholds of reasonably anticipated eligible project costs as required by statute.

The TIFIA statute, codified at 23 USC sections 601-610, defines eligible project costs as those expenses associated with the following:

- a. Development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, permitting, preliminary engineering and design work, and other pre-construction activities;
- b. Construction, reconstruction, rehabilitation, replacement, and acquisition of real property (including land related to the project and improvements to land), environmental mitigation, construction contingencies, and acquisition of equipment. While the acquisition of real property is an

eligible cost under TIFIA, such property must be physically or functionally related to the transportation project. For transit projects, the land must be reasonably necessary for the project, including joint development projects and property must be physically or functionally related to the project (49 USC 5302(a)(1)(G); 49 CFR section 80.3).

- c. Capitalized interest necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses, and other carrying costs.
- d. For a transit project, costs must also meet the definition of a transit capital project found at 49 USC 5302(a)(1) (23 USC 601 (a)).

2. *Costs Unallowed*

Capitalized interest on TIFIA credit assistance may not be included as an eligible project cost.

Also, TIFIA administrative charges, such as application fees, transaction fees, loan servicing fees, credit monitoring fees, and the charges associated with obtaining the required preliminary rating opinion letter, will not be considered among the eligible project costs. In all cases, eligible project costs should be calculated and presented on a cash basis (that is, as year-of-expenditure dollars) with the year of planned expenditure clearly identified.

H. **Period of Performance**

The maximum maturity of all TIFIA credit instruments is 35 years after a project's substantial completion.

N. **Special Tests and Provisions**

1. **Wage Rate Requirements**

Compliance Requirements The provisions of the Wage Rate Requirements apply to projects receiving TIFIA assistance (49 USC 5333(a)).

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section.

2. **Administration of Engineering and Design-Related Service Contracts**

Compliance Requirements In general, state DOTs and LPAs must use qualifications-based selection procedures (Brooks Act) when acting as contracting agencies to procure engineering and design-related services from consultants and sub-consultants for projects using federal-aid highway funds (23 USC 112(b)(2); 23 CFR Part 172). Requirements applicable to engineering and design-related services contracts include:

- a. Contracting agencies (state DOTs and LPAs) must have written policies and procedures for each method of procurement used to procure engineering and

design services. State DOT policies and procedures, or recipient LPA policies and procedures, must be approved by FHWA. LPAs that are subrecipients may adopt written policies and procedures prescribed by the awarding State DOT or prepare and maintain their own written policies and procedures approved by the State DOT (23 CFR section 172.5(c)).

- b. Contracting agencies (state DOTs and LPAs) are required to accept the indirect cost rates for consultants and sub-consultants that have been established by a cognizant agency in accordance with the Federal Acquisition Regulation (48 CFR Part 31) for one-year applicable accounting periods if such rates are not currently under dispute. Consultants and sub-consultants providing engineering and design-related services contracts must certify to contracting agencies that costs used to establish indirect cost rates are in compliance with the applicable cost principles contained in the Federal Acquisition Regulation (48 CFR Part 31) by submitting a “Certificate of Final Indirect Costs” (23 USC 112(b)(2)(C); 23 CFR section 172.11).
- c. Contracts for a consultant to act in a management support role on behalf of a contracting agency or subrecipient for engineering or design-related services must be approved by FHWA before the consultant is hired unless an alternative approval procedure has been approved by FHWA (23 CFR section 172.7(b)(5)).

Audit Objectives Determine if consultants performing engineering and design-related services for projects using federal-aid highway funding were procured using FHWA-approved, qualifications-based selection procedures.

Suggested Audit Procedures

- a. Verify that the State DOT has written policies and procedures (usually in the form of a Consultant Manual) for procurement of engineering and design services and that those procedures have been approved by FHWA. For subrecipients (LPAs), verify that they are using written policies and procedures prescribed by the awarding State DOT or that the subrecipients’ written policies and procedures have been approved by the State DOT.
- b. Verify that contracting agencies are accepting the appropriate indirect cost rates.
- c. Verify that consultants and sub-consultants have submitted to the contracting agency a “Certificate of Final Indirect Costs.”
- d. Verify that contracts for consultants acting in a management support role have been approved by FHWA or are covered by an FHWA-approved alternate procedure.

IV. OTHER INFORMATION

See the Safe Harbor Status discussion in Part 1 for additional information.

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.224 FEDERAL LANDS ACCESS PROGRAM

I. PROGRAM OBJECTIVES

The Federal Lands Access Program (FLAP) was formerly part of the Highway Planning and Construction Cluster. For the 2023 Compliance Supplement, it was determined that separating the Highway Planning and Construction Cluster into separate compliance supplements would be more beneficial for auditing purposes. The FLAP was established in 23 U.S.C. 204 under section 1119 of the Moving Ahead for Progress in the 21st Century Act (MAP-21) (Pub. L. 112-141) and continued under the Fixing America's Surface Transportation Act (FAST) (Pub. L. 114-94) and the Infrastructure Investment and Jobs Act (IIJA) also known as the Bipartisan Infrastructure Legislation (BIL) (Pub. L. 117-58). The IIJA includes additional complex requirements that would affect the single audit since each program has unique requirements. This compliance supplement has been updated to provide more details specific to the FLAP. It removes generalized Highway funding explanations and replaces it with specific FLAP definitions and requirements.

The goal of the FLAP is to improve Federal Lands Access Transportation Facilities (FLATFs) located on or adjacent to, or that provide access to Federal land. The FLAP supplements State and local resources for public roads, transit systems, and other transportation facilities, with an emphasis on providing seamless access to Federal high-use recreation sites and Federal economic generators within federally owned lands, as identified by the Secretaries of the appropriate Federal Land Management Agencies (FLMAs). The FLAP is funded by contract authority from the Highway Trust Fund and subject to obligation limitation. Funds are allocated among the States using a statutory formula based on road mileage, number of bridges, land area, and visitation. Projects are selected by a Programming Decisions Committee (PDC) established in each State. The PDC is comprised of a representative of the Federal Highway Administration (FHWA); a representative of the State Department of Transportation; and a representative of any appropriate political subdivision of the State. The PDCs request project applications through calls for projects, the frequency of which is established by the PDCs. Through these calls for projects, the PDCs develop multi-year program of projects in consultation with each applicable Federal agency.

The FLAP is designed to provide flexibility for a wide range of transportation projects in the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. The FLAP complements the Federal Lands Transportation Program (FLTP) in 23 U.S.C. 203. It recognizes the importance of safe access to and within Federal lands. Receipt of Access Program funding by a State and local facility owners and operators does not affect the overall responsibility for construction, maintenance, and operations of the facilities. That responsibility continues to lie on the owner or operator of the facility. The Access Program is administered by the Office of Federal Lands Highway (FLH), FHWA.

II. PROGRAM PROCEDURES

Funds made available under the FLAP shall be used on FLATFs per 23 U.S.C. 101. A FLATF is defined as "a public highway, road, bridge, trail, or transit system that is located on, is adjacent to, or provides access to Federal lands, for which title or maintenance responsibility is vested in a State, county, town, township, tribal, municipal, or local government". Eligible activities are:

- A. Transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, context-sensitive solutions, construction, and reconstruction of FLATFs located on or adjacent to, or that provide access to, Federal lands; and—
 - i. adjacent vehicular parking areas, including interpretive panels in or adjacent to those areas;
 - ii. acquisition of necessary scenic easements and scenic or historic sites;
 - iii. provisions for pedestrians and bicycles;
 - iv. environmental mitigation in or adjacent to Federal land to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity;
 - v. construction and reconstruction of roadside rest areas, including sanitary and water facilities;
 - vi. contextual wayfinding markers;
 - vii. landscaping;
 - viii. cooperative mitigation of visual blight, including screening or removal; and
 - ix. other appropriate public road facilities, as determined by the Secretary;
- B. Operation and maintenance of transit facilities; and
- C. Any transportation project eligible for assistance under title 23, U.S.C., that is within or adjacent to, or that provides access to, Federal land (23 U.S.C. 204(a)(1)(A), (B), and (C)).

Regarding (B) above, "operation and maintenance of transit facilities" includes the operation of all components of a transit system, including the acquisition of public transportation vehicles. This operation and maintenance eligibility applies solely to transit facilities.

The eligibility under (C) above includes transit capital projects eligible under chapter 53 of title 49, U.S.C., that are also eligible under title 23 and that are within or adjacent to, or that provide access to, Federal lands open to the public.

The IIJA has enacted provisions regarding the use of native plant materials and minimizing runoff and heat generation for projects receiving FLAP funds. When carrying out eligible FLAP activities, consideration shall be given to using locally adapted native plant materials and designs that minimize runoff and heat generation to the maximum extent practicable (23 U.S.C. 204(a)(6)).

Under 23 U.S.C. 201(c), FLAP projects are included in the FLH Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP) as part of the required statewide transportation planning process.

Source of Governing Requirements

The primary sources of program requirements are 23 USC (Highways). Implementing regulations are found in 23 CFR (Highways) addressing a range of requirements. Each State shall comply with the provisions of the administration of the FLAP under 23 USC 201, 23 USC 204, and 23 USC 120 (where applicable) as codified under Public Law 112-141, Public Law 114-94, and Public Law 117-58.

Availability of Other Program Information

FHWA program laws, regulations, and other general information can be found at <http://www.fhwa.dot.gov/>, [Bipartisan Infrastructure Law, Legislation, Regulations and Guidance - Resources | Federal Highway Administration \(dot.gov\)](#) and [Office of Federal Lands - Federal Lands Access Program](#).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	N	Y	Y

A. Activities Allowed or Unallowed

Activities allowed under FLAP are listed under 23 U.S.C. 204(a)(1) and include:

1. Transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, context-sensitive solutions, construction, and reconstruction of FLATFs located on or adjacent to, or that provide access to, Federal lands; and–
 - i. adjacent vehicular parking areas, including interpretive panels in or adjacent to those areas;
 - ii. acquisition of necessary scenic easements and scenic or historic sites;
 - iii. provisions for pedestrians and bicycles;
 - iv. environmental mitigation in or adjacent to Federal land to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity;
 - v. construction and reconstruction of roadside rest areas, including sanitary and water facilities;
 - vi. contextual wayfinding markers;
 - vii. landscaping;
 - viii. cooperative mitigation of visual blight, including screening or removal; and
 - ix. other appropriate public road facilities, as determined by the Secretary;
2. Operation and maintenance of transit facilities; and
3. Any transportation project eligible for assistance under title 23, U.S.C., that is within or adjacent to, or that provides access to, Federal land.

Administrative fees are not eligible activities under FLAP as direct costs. If the state has an approved indirect cost allocation plan (ICAP), they can bill allowable administrative costs as an indirect charge.

FLTTP funds may be used for work on projects that provide access to or within federal or tribal lands (23 USC 201 through 202 and 25 CFR Part 170).

F. Equipment and Real Property Management

For equipment, States will use State procedures in accordance with 2 CFR 200.313. Subrecipients shall follow such policies and procedures allowed by the State with respect to the use, management and disposal of equipment acquired under a Federal award in accordance with 2 CFR 1201.313.

The state and LPA subrecipients shall charge at a minimum, fair market value for the sale, use, lease, or lease renewal of real property acquired with federal highway funds. The state or LPA shall use such income for projects eligible under 23 USC. Exceptions may be granted to allow use for social, environmental, or economic purposes (23 USC 156). Tribal governments are not subject to 23 USC 156 and fall under tribal self-governance provisions and 2 CFR Part 200.

A state may use other public land acquisition organizations or private consultants to carry out the state's authorities under 23 CFR section 710.201(b) in accordance with a written agreement (23 CFR section 710.201(h)).

Federal funds may be used to reimburse the reasonable costs actually incurred for the functional replacement of publicly owned and publicly used real property provided that FHWA concurs that it is in the public interest. The cost of increases in capacity and other betterments are not eligible except (1) if necessary, to replace utilities; (2) to meet legal, regulatory, or similar requirements; or (3) to meet reasonable prevailing standards for the type of facility being replaced (23 CFR section 710.509).

G. Matching, Level of Effort, Earmarking

1. Matching

Under MAP-21 and the FAST Act, FLAP required that the Federal share payable shall be in accordance with 23 U.S.C. 120. However, this changed under IIJA where the FLAP Federal share shall be "up to 100 percent" (23 U.S.C. 201(b)(7)(B)). That is, Federal funds shall be used for up to 100 percent of the total eligible cost of a project carried out under the FLAP. Therefore, depending on how the FLAP project was programmed by the PDC, it may either fall under the original Federal share requirements or follow the revised Federal share under IIJA. The FLAP project agreement will show the programmed Federal share for the project.

If a project follows the IIJA Federal share requirements outlined in 23 U.S.C. 201(b)(7)(B) then the Federal share of the cost of a project carried out under the Federal lands access program shall be up to 100 percent.

If a project follows the Federal share requirements outline in 23 USC 120 then:

The sliding scale provision may apply for States with higher percentages of Federal lands. In accordance with 23 U.S.C.120(c)(1), a list of specific activities, predominantly safety activities, are identified that can be funded at 100 percent Federal share and therefore do not require a non-Federal match. (Please note that 23 U.S.C.120(c)(1) discusses a 10 percent limitation on those safety projects that apply to funds apportioned in accordance with 23 U.S.C.104, but this limitation does not apply under the FLAP.) The PDCs may elect to leverage this funding flexibility on certain safety projects described in 23 U.S.C. 120(c)(1). Funds authorized for the Tribal Transportation Program (TTP) and the FLTP may be used to pay the non-Federal share of any project funded under title 23 or chapter 53 of title 49, United States Code, that provides access to or within Federal land or tribal land. The decision to use FLTP or TTP funds as a match resides with the FLMAs or Tribes. However, FLAP funds may NOT be used as such a match. Other Federal funds not authorized under titles 23 or 49 may also be used to pay the non-Federal share of any transportation project funded under title 23 or chapter 53 of title 49 that is within, adjacent to, or provides access to Federal land. "Soft-matches" or "in-kind matches" (e.g., donations of funds, materials, services, right-of-way acquisition, utility relocation) may be permitted from the project sponsor. A tapered match may be appropriate, where FHWA is doing the preliminary engineering and contract administration. The match requirements and commitments should be documented in the project agreement.

2 Level of Effort

Not Applicable

3. Earmarking - Not Applicable

I. Procurement and Suspension and Debarment

1. In general, recipients and subrecipients must award construction contracts on the basis of the lowest responsive bid submitted by a bidder meeting the contracting agency's criteria for responsibility. Competitive bidding is required unless the contracting agency is able to demonstrate to FHWA that some other method is more cost effective or that an emergency exists (23 USC 112(b)(1); 23 CFR sections 635.104 and 635.114). Contracting agencies also may procure construction services through competitive proposals by using design-build contracts (23 USC 112(b)(3); 23 CFR Part 636) or construction manager/general contractor contracts (23 USC 112(b)(4)). Under IIIA, additional innovative acquisition methods were made available under 23 U.S.C. 201 (f).
2. For construction contracts, bidding documents must be advertised for at least three weeks, unless a shorter period is justified in the project files. Recipients may

not negotiate with the potential contractors during the time between bid opening and contract award (such negotiations would be noted in the contract files). Awards must be made to the lowest responsible bidder. If the award was made to a bidder other than the low bidder, then the project files must contain justification (23 CFR sections 635.112(b), 635.113, and 635.114).

N. Special Tests and Provisions

1. Wage Rate Requirements

Compliance Requirements: The Wage Rate Requirements are applicable to construction work on projects using FLAP funds.

See Part 4, 20.001 Wage Rate Requirements Cross-Cutting Section

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.315 NATIONAL RAILROAD PASSENGER CORPORATION GRANTS

I. PROGRAM OBJECTIVES

The Federal Railroad Administration (FRA) executes and oversees grant agreements with the National Railroad Passenger Corporation (Amtrak) to provide Amtrak with federal funds appropriated by Congress. In conjunction with operating revenues and funds from states, local governments, and other entities, Amtrak uses federal funds for a wide range of its operating and capital activities, including a portion of its operating expenses, capital maintenance of fleet and infrastructure, capital expansion and investment programs, and capital debt repayment.

II. PROGRAM PROCEDURES

A. Background

The FAST Act (Public Law 114-94, enacted December 4, 2015), and extensions thereof, authorized \$305 billion over fiscal years 2016 to 2021 for the Department of Transportation's (DOT) surface transportation programs, including highway, highway and motor vehicle safety, public transportation, motor carrier safety, hazardous materials safety, rail, and research, technology and statistics programs. The FAST Act authorization includes \$8.05 billion for grants to Amtrak, composed of \$2.596 billion for the Northeast Corridor (NEC) and \$5.454 billion for the National Network as well as other requirements related to Amtrak, passenger rail, and freight rail. Annual appropriations may vary from the amounts authorized in the FAST Act for the NEC and National Network.

The Infrastructure Investment and Jobs Act (Public Law 117-58, enacted November 15, 2021) authorized \$66 billion in advanced appropriation and \$36 billion in fully authorized funding over fiscal years 2022 to 2026 for the FRA's rail improvement programs. The IIJA authorization and appropriation includes \$22 billion advanced appropriation and \$19 billion fully authorized funding for grants to Amtrak.

The FRA *Amtrak Annual Grants Management and Oversight Manual, Version 5.0 (July 2020)* meets the requirements of Subtitle B (Amtrak Reforms) of the FAST Act and Subtitle B (Amtrak Reforms) of the IIJA.

The Notice of Grant Award (NGA) includes key grant information: the Statement of Work (SOW) and Terms and Conditions. The Terms and Conditions consist of provisions derived from enacted legislation, FRA policy, federal statutes, and government-wide regulations recipients of federal awards must follow. The conditions specify report formats and frequency of reporting, payment method, prior approval requirements and also include Amtrak specific provisions. Amtrak is responsible for reviewing and understanding the financial, administrative and legal requirements outlined in the document.

Given the size and complexity of Amtrak’s program and its unique funding history, FRA and Amtrak engage in a collaborative process to ensure the conditions not only align with government-wide and DOT requirements but also enable Amtrak to achieve programmatic goals and objectives.

Source of Governing Requirements

[2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards](#), as supplemented by the terms and conditions of the annual grant agreements.

Consolidated Appropriation Act, 2023, [Public Law 117-328](#)

Availability of Other Program Information

FRA’s *Amtrak Annual Grants Management Manual, Version 7 (September 2022)*

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a

compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.”

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment and Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement and Suspension and Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	N	N	Y	Y	N	Y	N	Y	N	Y

A. Activities Allowed or Unallowed

Grants to Amtrak are authorized under Sections 11101(a) and (b) of the FAST Act to fund “activities associated with the Northeast Corridor” and “activities associated with the National Network.” Congress provides further direction on the use of funds in each appropriation act, often directing Amtrak to spend specific sums on certain activities (e.g., Americans with Disabilities Act compliance or the acquisition of rolling stock). These set-asides, however, do not affect the broad eligibility of the grant funds, only the amounts spent on these specified activities. FRA has generally interpreted “activities associated with” the Northeast Corridor and National Network to mean activities that support Amtrak’s provision of intercity passenger rail. In practice, activities allowed include operating and capital costs and debt service payments. Activities unallowed include costs unrelated to intercity passenger rail service, such as costs associated with Amtrak’s ancillary service line (e.g., commuter train contract services).

B. Allowable Costs/Cost Principles

Amtrak’s grant agreement requires it to “conform with Federal guidelines or regulations and Federal cost principles for Recipients that are for-profit organizations, as set forth in the Federal Acquisition Regulation, 48 CFR Subpart 31.2, ‘Contracts with Commercial Organizations,’ in lieu of 2 CFR Part 200, Subpart E.”

G. Matching, Level of Effort, Earmarking

1. Matching-Not Applicable.

2. Level of Effort-Not Applicable

2.1 Level of Effort – *Maintenance of Effort*

Not Applicable

2.2 Level of Effort – *Supplement Not Supplant*

Not Applicable

3. Earmarking

The Appropriations Acts that direct grants be made to Amtrak and the corresponding grant agreements often include directed spending requirements, including but not limited to:

- For FY20 and previous years, Amtrak must spend no less than \$50 million and in FY21 and subsequent years, Amtrak must spend no less than \$75 million from its NEC and NN annual grants to bring Amtrak served facilities and stations into compliance with the ADA – ADA compliance is qualitatively material to Amtrak.
- Use no less than \$109,805,000 of ARPA funds for states' PRIIA Section 212 capital payments – PRIIA 212 funds are quantitatively and qualitatively material.

L. Reporting**1. Financial Reporting**

- a. *SF-270, Request for Advance or Reimbursement* – Applicable
- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs* – Applicable
- c. *SF-425, Federal Financial Report* – Applicable

2. Performance Reporting

Not Applicable.

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

Amtrak's grant agreements have some qualitatively material special provisions, including but not limited to:

1. Use and Reporting of Overtime for Agreement Employees

Compliance Requirements As required by the Appropriations Acts, Amtrak will not use any of the funds provided for overtime costs in excess of \$35,000 for any individual employee; provided, however, Amtrak's president may waive the \$35,000 limit when the president determines that the limit poses a risk to the safety and operational efficiency of the system. Amtrak must submit a copy of the summary of all overtime payments incurred for the calendar year and the three prior calendar years to the House and Senate Committees on Appropriations as required by the Act. Such summary must include the total number of employees that received waivers and the total overtime payments Amtrak paid to those employees receiving waivers for each month of calendar year and the three prior calendar years.

Audit Objectives Determine whether Amtrak is in compliance with the Appropriations Act in regard to overtime costs.

Suggested Audit Procedures

- a. If overtime payments were incurred, verify that Amtrak submitted a copy of the Overtime Cost Report of all overtime payments incurred for the calendar year and the three prior calendar years to the House and Senate Committees on Appropriations.
- b. Verify that waivers were obtained for employees receiving overtime in excess of \$35,000.

2. Preventing and Reporting on Employee Furloughs

Compliance Requirements ARPA requires Amtrak to recall and manage employees furloughed on or after October 1, 2020, as a result of efforts to prevent, prepare for, and respond to coronavirus. As required by Section 12.b of Attachment 1 of the FY21 National Network grant and Section 9.b of Attachment 1 of the FY21 Northeast Corridor grant, Amtrak is required to submit the weekly total number and cumulative total number of coronavirus furloughed employees recalled, the number of coronavirus furloughed employees still furloughed, and the weekly total number and cumulative total number of employees furloughed for reasons not related to coronavirus. If at any point the total number of employees furloughed as a result of efforts to prevent, prepare for, and respond to coronavirus reaches zero, Amtrak may submit the report monthly instead of weekly.

Audit Objectives Determine whether Amtrak is in compliance with the reporting requirements of Section 12.b of Attachment 1 of the FY21 National Network grant and Section 9.b of Attachment 1 of the FY21 Northeast Corridor grant.

Suggested Audit Procedures

- a. Select a sample of weekly furloughed employee reports to ensure Amtrak is accurately submitting reports, in compliance with the reporting requirements of Section 12.b of Attachment 1 of the FY21 National Network grant and Section 9.b of Attachment 1 of the FY21 Northeast Corridor grant.

DEPARTMENT OF TRANSPORTATION

ASSISTANCE LISTING 20.319 HIGH-SPEED RAIL CORRIDORS AND INTERCITY PASSENGER RAIL SERVICE – CAPITAL ASSISTANCE GRANTS

I. PROGRAM OBJECTIVES

The High-Speed Intercity Passenger Rail (HSIPR) program is intended to develop and expand high-speed and intercity passenger rail service in the United States. The objectives of this program are twofold. In the long term, the program aims to build an efficient, high-speed passenger rail network connecting major population centers that are 100 to 600 miles apart. In the near term, the program will begin to lay the foundation for this high-speed passenger rail network by investing in intercity passenger rail infrastructure, equipment, and intermodal connections.

II. PROGRAM PROCEDURES

The HSIPR program is funded both through annual appropriations and the American Recovery and Reinvestment Act of 2009 (ARRA) (Pub. L. No. 111-5, 123 Stat. 208), under the title “Capital Assistance for High Speed Rail Corridors and Intercity Passenger Rail Service.” Funding under the HSIPR program is advanced along four funding tracks in order to both aid in the near-term economic recovery efforts intended under ARRA and to establish the path to realize a fully developed national high-speed intercity passenger rail network. Track 1 – Projects will fund “ready-to-go” construction projects and the completion of project-level environmental and preliminary engineering documents necessary to prepare projects for construction. Track 2 – programs will fund sets of inter-related projects that constitute the entirety or a distinct phase (or geographic section) of a long-range service development plan. Track 3 – Planning is aimed at helping establish a “pipeline” of future high-speed rail/intercity passenger rail projects and service development programs by advancing planning activities for applicants at an earlier stage of the development process. Track 4 – Fiscal Year (FY) 2009/FY 2008 Appropriations Projects provide an alternative for projects that would otherwise fit under Track 1.

Depending on the specific funding track applied for, states (including the District of Columbia), groups of states, interstate compacts, public agencies established by one or more states and having responsibility for providing high-speed rail service or intercity passenger rail service, and Amtrak are eligible for HSIPR program grants. Applicants must provide documents that demonstrate the status of all agreements with relevant stakeholders involved in the particular construction investment, including interstate partners, host railroads, right-of-way owners, and the contract railroad operator providing service.

Source of Governing Requirements

The HSIPR program consolidates the following recently authorized and closely related programs:

1. High-Speed Rail Corridor Development program (49 USC 26106),

2. Intercity Passenger Rail Service Corridor Capital Assistance program (49 USC Chapter 244),
3. Congestion Grants program (49 USC 24105),
4. Fiscal Year 2009 Capital Assistance to States – Intercity Passenger Rail Service program (Pub. L. No. 111-8 (123 Stat. 934)), and
5. Fiscal Year 2008 Capital Assistance to States – Intercity Passenger Rail Service program (Pub. L. No. 110-161 (121 Stat. 2393)).

The funding appropriated under ARRA is for the programs authorized in 49 USC 26106, 49 USC Chapter 244, and 49 USC 24105, while the funding provided from the FY 2008 and FY 2009 appropriations acts is governed under provisions unique to those two pieces of legislation. The Notice of Funding Availability for High-Speed Intercity Passenger Rail (“HSIPR”) program (Program Notice), June 23, 2009, *Federal Register*, 74 FR 29900, describes the interim program guidance applicable to the program.

Availability of Other Program Information

Additional information about the HSIPR program is available on the Federal Railroad Administration (FRA) website at <http://www.fra.dot.gov/Page/P0140>. Included on the FRA website are two documents mandated under ARRA: The High-Speed Rail Strategic Plan and interim program guidance. The strategic plan outlines the initial vision for the program; the interim guidance builds upon the strategic plan by detailing the application requirements and procedures for obtaining funding under the program.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for this federal program, the auditor must determine, from the following summary (also included in Part 2, “Matrix of Compliance Requirements”), which of the 12 types of compliance requirements have been identified as subject to the audit (noted with a “Y” in the summary matrix below), and then determine which of the compliance requirements that are subject to the audit are likely to have a direct and material effect on the federal program at the auditee. For each such compliance requirement subject to the audit, the auditor must use Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and this program supplement (which includes any program-specific requirements) to perform the audit. When a compliance requirement is shown in the summary below as “N,” it has been identified as not being subject to the audit. Auditors are not expected to test requirements that have been noted with an “N.” See the Safe Harbor Status Discussion in Part 1 for additional information.

A. Activities Allowed or Unallowed

1. *Activities Allowed*

ARRA (Tracks 1 and 2)

a. Activities funded under Track 1 must be eligible under the Intercity Passenger Rail Service Corridor Capital Assistance program (49 USC chapter 244) or the Congestion Grants program (49 USC 24105) and include:

- (1) Acquiring, constructing, improving, or inspecting equipment, track and track structures, or a facility for use in or for the primary benefit of intercity passenger rail service, including high-speed rail; expenses incidental to the acquisition or construction (including designing, engineering, location surveying, mapping, inspecting, environmental studies, and acquiring rights-of-way); payments for the capital portions of rail trackage rights agreements; highway-rail grade crossing improvements related to intercity passenger rail service; mitigating environmental impacts; communication and signalization improvements; and relocation assistance, acquiring replacement housing sites, and acquiring, constructing, relocating, and rehabilitating replacement housing;
- (2) Rehabilitating, remanufacturing, or overhauling rail rolling stock and facilities used primarily in intercity passenger rail service; and
- (3) Projects to provide access to intercity passenger rail service rolling stock for nonmotorized transportation, including bicycles and recreational equipment, and to provide storage capacity in intercity passenger trains for such transportation, equipment, and other luggage, to ensure passenger safety (see Section 3.5.1 of the Program Notice (74 FR 29910)).

- b. Activities funded under Track 2 must be eligible under the High-Speed Rail Corridor Development program (49 USC 26106) or the Intercity Passenger Rail Service Corridor Capital Assistance program (49 USC chapter 244), and include:
 - (1) Activities 1 through 3 listed above under Track 1; and
 - (2) Acquiring, constructing, improving, or inspecting equipment, track and track structures, or a facility for use in or for the primary benefit of high-speed rail service; expenses incidental to the acquisition or construction (including designing, engineering, location surveying, mapping, environmental studies, and acquiring rights-of-way); payments for the capital portions of rail trackage rights agreements; highway-rail grade crossing improvements related to high-speed rail service; mitigating environmental impacts; communication and signalization improvements; and relocation assistance, acquiring replacement housing sites, and acquiring, constructing, relocating, and rehabilitating replacement housing (see Section 3.5.2 of the Program Notice (74 FR 29910)).

2. *Activities Allowed*

FYs 2009 and 2008 appropriations acts (tracks 3 and 4).

- a. Activities funded under Track 3 must be eligible under the provisions of the FY 2009 and FY 2008 Capital Assistance to States – Intercity Passenger Rail Service programs (Pub. L. No. 111-8 and Pub. L. No. 110-161, respectively), and include planning studies that—
 - (1) Lead to the completion of a service development plan to support future applications for projects under Track 2;
 - (2) Identify and compare the costs, benefits, and impacts of a range of transportation alternatives, including high-speed rail and/or intercity passenger rail, as a means of providing decision makers with the information necessary to implement appropriate transportation solutions;
 - (3) Support the preparation of environmental documents that are prerequisite to the fulfillment of “service” NEPA studies; and
 - (4) Consist of operational analyses and simulations, and projections of future service requirements, leading to systematic and rational priority lists of projects that could be eligible for funding under the Intercity Passenger Rail Service Corridor Capital Assistance program (49 USC chapter 244) or the Congestion Grants program

(49 USC 24105), and could ultimately contribute to service development plans (see Section 3.5.2 of the Program Notice (74 FR 29911)).

- b. Activities funded under Track 4 must be eligible under the provisions of the FY 2009 and FY 2008 Capital Assistance to States – Intercity Passenger Rail Service programs (Pub. L. No.111-8 and Pub. L. No.110-161, respectively), and include
 - (1) Acquiring, constructing, or improving equipment, track and track structures, or a facility for use in or for the primary benefit of intercity passenger rail service, including high-speed rail service;
 - (2) Expenses incidental to the acquisition or construction (including designing, engineering, location surveying, mapping, environmental studies, and acquiring rights-of-way);
 - (3) Highway rail grade crossing improvements related to intercity passenger rail service;
 - (4) Mitigating environmental impacts;
 - (5) Communication and signalization improvements; and
 - (6) Rehabilitating, remanufacturing, or overhauling rail rolling stock and facilities used primarily in intercity passenger rail service (see Section 3.5.2 of the Program Notice (74 FR 29911)).

3. *Activities Unallowed*

In no case are federal funds awarded under the HSIPR program eligible to be used for rail operating expenses associated with the operation of intercity passenger rail service or for first-dollar liability costs for insurance related to the provision of intercity passenger rail service (49 USC 24404; June 23, 2009, *Federal Register* (74 FR 29916)).

H. Period of Performance

Funding for grants under ARRA must be expended by September 30, 2017 (ARRA, 123 Stat. 208; June 23, 2009, *Federal Register* (74 FR 29916)).

L. Reporting

1. Financial Reporting

- a. *SF-270, Request for Advance or Reimbursement* – Not Applicable

- b. *SF-271, Outlay Report and Request for Reimbursement for Construction Programs – Not Applicable*
- c. *SF-425, Federal Financial Report – Applicable*

2. Performance Reporting

Not Applicable

3. Special Reporting

Not Applicable

4. Special Reporting for Federal Funding Accountability and Transparency Act

See Part 3.L for audit guidance.

N. Special Tests and Provisions

1. Wage Rate Requirements
